Edward J. Stack of Florida;
J. Kenneth Robinson of Virginia;
Frank Thompson, Jr. of New Jersey;
Elizabeth G. Van Exem of South Carolina;
Otha D. Wearin of Iowa;
Philip H. Weaver of Nebraska;
J. Ernest Wharton of New York

I ask for a moment of silence in their memory.

Mr. Speaker, this association will start its second score of years under very able leadership. The former minority leader of this House, the Honorable John Rhodes of Arizona, will assume the presidency of this organization at the end of next month. He will be ably assisted by the gentleman from Maine, the Honorable William Hathaway, who will move up to vice president of the Association.

Each year, we present the Association's Distinguished Service Award to a person who has offered his or her talents and skills to our Republic over the years. The list is a most impressive one, beginning in 1974 with Gerald R. Ford and continuing with John W. McCormack, Lewis Deschler, Sam Ervin, Jr., Nelson Rockefeller, George H. Mahon, Clare Boothe Luce, Edmund S. Muskie, Hugh Scott, Richard Bolling, Jacob K. Javits, J. William Fulbright, Walter H. Judd, Thomas P. O'Neill, Jr., John J. Rhodes, and Edward Boland.

□ 1130

The tradition continues with this year's recipient, a man who has not only had a distinguished career in the first branch of government, but now lends his enormous skills and talents to the Executive Branch. I refer to the first Secretary of Veterans Affairs, Edward J. Derwinski. Ed, if you will come up here I would like to present you first with a book of letters from many of your colleagues, past and present, telling you how much they agree with our choice of awardee.

Then on behalf of the association I would like to present to you this award and say how proud we are for all you have done for all of us. Congratulations.

(Applause.)

Mr. DERWINSKI. Thank you, Abner.

I will be brief, of course.

But more than that, I always enjoyed speaking from this microphone when I was in the House because somehow more votes seemed to come to a position when you spoke from this side.

But Abner and I served together 34 years ago in the Illinois House of Representatives. I never thought I would see the day 34 years later we were still working together in Washington, I as a humble Cabinet officer with my budget torn to shreds by the Congress, and Abner on the other hand as an exalted Federal judge floating on cloud nine as only Federal judges do. But it is a pleasure, Abner. Thank you so much.

It is great to look back at our friendship over the years. I was always proud of my service in the House and have been proud of my association with the Association of Former Members of Congress.

There is one thing about becoming a senior statesman, as most of you are, somehow you become remarkably objective and you become remarkably free of political instincts and you become true statesmen. That has been the history of the Association of Former Members. That is why the group is so effective in training and in inspiring the new wave of legislators developing in Eastern Europe and in other emerging countries of the world.

So I think it is most appropriate that in the completely bipartisan spirit with the great experience that we have all gathered over the years, that the Association of Former Members still plays a very, very dramatic role in the spread of democracy around the world.

So as I accept this award, I do not accept it for myself. I am in the Cabinet because 22 years ago there was a freshman Republican Congressman by the name of George Bush. I ran into him in the cloakroom. I did not know him, he didn't know me. He said, "By the way, where's the mens room?" I said, "It is two doors down to the left." And he was forever grateful for that assistance.

That is how you get to the Cabinet, fellows:

I want you to know that this association is thriving, a thriving force, it is a great force. I thank the Speaker and BOB MICHEL for allowing us to return for this annual visit. I thank all of you for your friendship and comradeship over the years.

Abner, I just thank you for the fact that I, in a small way, have helped make this a good organization.

Thank you all.

(Applause.)

Mr. MIKVA. Mr. Speaker, on that upbeat note and difficult as it would be for you to give up all that power, I move we adjourn.

Mr. RHODES (presiding). Prior to putting the question, the Chair would like to take the prerogative of the Chair and thank the gentleman from Illinois, Judge Mikva, for a wonderful term as president of this association.

(Applause.)

He has done an outstanding job, and he leaves the association in just as good, if not better, care than it was when he found it.

I also want to take the prerogative and thank Jed Johnson, our hard-working executive secretary, executive director. He runs the place, and he does a good job of it.

(Applause.)

And, of course, my former colleague and good friend, Ed Derwinski, it is a real pleasure for me to preside over a meeting where you have been honored, because if anybody ever deserved that honor you do. You have been a real stalwart member of the association as well as a wonderful American through the years, and I salute you.

(Applause.)

The association thanks the Speaker of the House and the sitting Members of the House for giving us the opportunity of meeting here today as we have and as we have in previous years.

Before terminating the proceedings, I would like to have any Member whose presence has not been noted to come forward and give his name to the Clerk after we adjourn so that your presence may be recorded. We want to have everybody's presence recorded.

So now I announce on behalf of the Speaker that the House will be in session in 15 minutes, which looks to me to be about 10 minutes until 12.

So we will govern ourselves accordingly.

We will now put the question: Is there any further business to transact?

If not, the Chair declares this meeting of the Association of Former Members of Congress adjourned.

Accordingly (at 11 o'clock and 36 minutes a.m.), the House continued in recess until approximately 11 o'clock and 50 minutes a.m.

---

□ 1155

## AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. MONTGOMERY) at 11 o'clock and 55 minutes a.m.

## AMERICANS WITH DISABILITIES ACT OF 1990

The SPEAKER pro tempore. When the House recessed earlier today, there were 31 minutes remaining in debate on House Resolution 394. The gentleman from Tennessee [Mr. GORDON] has 14 minutes remaining in the debate, and the gentlewoman from Illinois [Mrs. MARTIN] has 17 minutes remaining in debate.

The Chair recognizes the gentleman from Tennessee [Mr. GORDON].

Mr. GORDON. Mr. Speaker, I have no requests for time at this moment, and I reserve the balance of my time.

Mrs. MARTIN of Illinois. Mr. Speaker, I yield four minutes to the gentleman from North Carolina [Mr. LANCASTER].

Mr. LANCASTER. Mr. Speaker, it pains me greatly to come on the floor of the House to speak against a rule crafted by the Democratic majority on the Rules Committee. In my career in Congress, I have almost routinely voted for the rules crafted by the committee and have never spoken against a rule, but I believe this is an unusual circumstance that requires that I speak out against a rule that I think has been unreasonably crafted in regard to an amendment which I offered in good faith.

As a member of the North Carolina General Assembly, I was the chief sponsor and chairman of the Judiciary Committee that crafted a disability act very much like the one that is before us here, so I have been a friend of the disability community. I worked hard for the passage of that legislation, and it was in that spirit of cooperation and in good faith that I offered an amendment that I think was very reasonable and should have been made in order. In fact, I believe, after having talked to my friends on the Rules Committee, that my amendment enjoyed the strong support of that committee except for the strong opposition of the gentleman from Maryland [Mr. HOYER], who opposed the amendment and asked that it not be made in order.

This amendment is very reasonable. The legislation that is before us has in it extensive provisions on how employers and potential disabled employees should work together to reach accommodation so that those employees can be in fact accommodated in the work place. However, in the public accommodations title of the bill there is no such language, and in fact the disability community can, though I do not think they would do so very often, go into an establishment and find that their disability is not accommodated and can immediately seek injunctive relief against the owner.

The gentleman from Maryland [Mr. HOYER] argues that there is a good faith requirement in the bill which will take care of that, and that good faith requirement may in fact result in court dismissing the law suit, but nonetheless the businessman may have the expense of going to court to defend himself against such a suit.

What my amendment provided, as I said, is very reasonable. It simply said that when a disabled person came into a place of public accommodation, whether that is a store, a restaurant, or anything else, he would then make his disability known, and if it was not being accommodated, the owner of the public facility would then accommodate that request in reasonable ways.

That is all it did. This is not anything that would impede in any way the work of the disability community to attain compliance fully with this law. It simply is a reasonableness test, allowing the disabled person and the owner of the public facility to work together to find a reasonable solution that will accommodate the disability and make it possible for them to fully utilize that public accommodation.

Mr. Speaker, I believe that this amendment should have been made in order, and because it was not, I must reluctantly oppose the rule and hope that my colleagues will join me in doing so.

Mr. HOYER. Mr. Speaker, will the gentleman yield?

Mr. LANCASTER. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Speaker, first of all, I want to say to the gentleman in the well how much I respect the sincerity of his position. I understand his position, and I know he has been a strong supporter and leader in North Carolina and the legislature in North Carolina on behalf of the disabled.

As to his amendment, he and I have a difference of opinion, as he has stated accurately, with respect to the scope of the amendment. The amendment is certainly, as the gentleman has said, absolutely well meaning, whether we have a disagreement relative to his prospective amendment. As he knows, I believe sincerely that the way the language is structured, the provision is adequate, although he is very concerned about those disabilities that perhaps a businessman operating in good faith could not anticipate. We believe, of course, that the bill tries to cover that, and we know that it is a significant concern.

Mr. Speaker, I thank the gentleman from North Carolina for his comments.

□ 1200

Mrs. MARTIN of Illinois. Mr. Speaker, I yield 4 minutes to the gentleman from Georgia [Mr. GINGRICH].

Mr. GINGRICH. Mr. Speaker, let me, first of all, say that I am delighted that we are able to bring the Americans With Disabilities Act to the floor. I want to particularly commend the gentleman from Maryland [Mr.

HOYER] on the Democratic side, who has spent so many hours reaching far beyond any reasonable obligation in doing what was necessary to work out a series of agreements and a series of understandings, and I think that on a bipartisan basis a great deal has been done to improve this bill.

I am very saddened, therefore, that on the particular question of the rule, as distinct from the bill in general, that I have to be disappointed, and I have to be willing to vote no. And I am going to ask my colleagues to vote no, both on the previous question and on the rule. Let me explain for a second.

Mr. Speaker, this is a very, very important bill. This is a bill which will affect, not only Americans with disabilities, but all Americans. It will affect the entire American economy, and it is very important that we make it possible for small businesses to make the transition, that we want to maximize the ability to keep jobs, and to keep the economy growing and to have better opportunities for all Americans, and there are some places in the bill where some of our colleagues, who have sincerely and very thoroughly looked at the bill, have asked for the right to walk through a series of amendments.

The gentleman from Florida [Mr. MCCOLLUM] has an amendment which was not made in order. The gentleman from North Carolina [Mr. LANCASTER], who just spoke, has an amendment which was not made in order. The gentleman from California [Mr. CAMPBELL] has an amendment which was not made in order. The gentleman from New Hampshire [Mr. DOUGLAS] has several amendments which were not made in order. The gentleman from Washington [Mr. CHANDLER] has an amendment which was not made in order. The gentleman from California [Mr. DANNEMEYER] has two amendments which were not made in order. The gentleman from Indiana [Mr. BURTON] has a series of seven amendments which were not made in order. The gentleman from Texas [Mr. DELAY] has a series of 11 amendments which were not made in order. The gentleman from Michigan [Mr. UPTON] has a very important amendment which was not made in order.

So, Mr. Speaker, I would urge, first of all, that my colleagues vote no on the previous question, and, if we win that vote, we would move to make all of the amendments in order that were offered to the Committee on Rules so that everyone would have an opportunity to legitimately seek to make the best possible Americans With Disabilities Act that the House could work its will in a series of steps.

If that fails, I would then very reluctantly have to urge a no vote on the rule. Although I want to bring up the bill, I want to bring up the bill in a way which lets us get to the best possible Americans With Disabilities Act.

Mr. HOYER. Mr. Speaker, will the gentleman yield?

Mr. GINGRICH. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Speaker, I want to make it clear on behalf of the coordination of the Americans with disabilities bill that the amendment of the gentleman from Michigan [Mr. UPTON], which has broad bipartisan support, was not opposed to be made in order by me. As a matter of fact, I specifically represented to the committee that I thought that we had no objection to it being made in order.

As the gentleman from Georgia [Mr. GINGRICH] knows, the Committee on Ways and Means perceives that rightfully to be within their jurisdiction and objected to that, but I understand the gentleman from Michigan [Mr. UPTON] will be involved in a colloquy and that the committee does intend to pursue the tax credit for small business.

Mr. GINGRICH. Sure, and I think the point is well made.

Mr. Speaker, I think the point is well made. I look forward to the gentleman from Illinois [Mr. ROSTENKOWSKI], the chairman of the Committee on Ways and Means, in that colloquy. It is an important step.

All I am suggesting is that on a bipartisan basis there is a number of Democrats and Republicans who have legitimate amendments that are worthy of being attended to on the floor. This is an extraordinarily important bill, and I think that it is important we take it up.

Let me also in closing make one other comment just for my colleagues in the House. I am not sure what the schedule will be on Monday. I am certain that until we have an agreement on a waiver for aid to Nicaragua and Panama, and until we have an agreement on passing the appropriation on Nicaragua and Panama, that it will be very difficult procedurally for the next few days.

I do want to pass the Americans With Disabilities Act. I do want to pass the clean air bill. But frankly, Mr. Speaker, after 4 months of being, I think, embarrassingly incompetent, the Congress has an obligation to Nicaragua and Panama, and I agree with the President, that we should not go home for the Memorial Day recess until we have passed an appropriation with a waiver, and I am constrained to make procedural difficulties until we can get that agreement worked out.

Mr. Speaker, I just hope my colleagues will bear with me.

Mrs. MARTIN of Illinois. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. DANNEMEYER].

Mr. DANNEMEYER. Mr. Speaker, and Members, one of the major issues that needs to be debated by the Congress that this rule does not permit to be debated is whether or not, as a matter of policy, this Nation will say that included within the definition of a disabled person is somebody with a communicable disease.

Mr. Speaker, this concept came into our culture, not by an act of Congress, but it came as a result of a decision of the U.S. Supreme Court several years ago in the Arline decision by a split decision interpreting an act passed by Congress in 1973, namely disability, that such term did include somebody with a communicable disease.

Mr. Speaker, that has enormous consequences for our society. Admittedly, this bill says that an employer is not required to hire somebody who has a communicable disease that places a coworker at risk healthwise. But, for goodness sakes, should we put that burden on an employer, that that employer is going to have to run the risk of exposing coworkers to a disease that is designed or identified as a communicable disease?

In my State of California there are 58 diseases on the list that are reportable called communicable diseases: tuberculosis, meningitis, hepatitis, and HIV is one of them. With this bill, in the form that it is now to be considered by the House, if it is adopted, every HIV carrier in the country immediately comes within the definition of a disabled person. Why? Because they have a communicable disease. They are a carrier of a fatal virus that causes death.

Is that sound public policy? And since 70 percent of those people in this country who are HIV carriers are male homosexuals, we are going to witness an attempt or an utterance on the part of the homosexual community that, when this bill is passed, it will be identified by the homosexual community as their bill of rights.

Mr. Speaker, we need to debate this as a policy question because I am sure the American public is prepared to make that step that we would identify persons who are HIV carriers within this definition.

What the consequences of this act will be are as follows:

For instance, if a school district has applied, or an applicant for a job in a school district represents his status of being both a homosexual and also an HIV carrier, and the school district turns him down because he is a homosexual, that HIV carrier is going to take that school district to court and say, "You cannot discriminate against me because Congress says I'm a disabled person. I'm an HIV carrier." Similarly with Georgetown University here, if a person applies for a job there. That matter be in litigation on the basis that an HIV carrier cannot be discriminated against. Similarly a person who applies to be a supervisor

in a youth group. If he is an HIV carrier, he cannot be discriminated against.

If we are going to do this as a matter of policy, at least we should debate it on the floor of the Congress so that by a vote we will have a chance to establish public policy, not do it by denying this Member an opportunity of presenting this issue to the House in consideration of the bill.

Mr. Speaker, I ask for a no vote on the bill.

Mrs. MARTIN of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana [Mr. BURTON].

Mr. BURTON of Indiana. Mr. Speaker, I do not think there is a person in this body that is not concerned about the plight of the handicapped in this Nation. We all want to do everything we can to assist them in leading a normal, healthy life, and toward that end the ADA is well motivated.

The problem in the bill has some major, major problems that are going to lead to chaos, I think, in some areas down the road.

Mr. Speaker, I had four amendments before the Committee on Rules that I think were extremely important. There has been litigation involving health care workers with the AIDS virus and other communicable diseases who have won large suits because they lost their jobs or were removed from their jobs because they might infect somebody else, and they won those suits. There have been food handlers who, likewise, have handled food, who have had communicable diseases, and have been removed from those positions, and I maintain that without proper amendments to this legislation we are going to have a litany of lawsuits in the area of health care and food handling that we are not going to believe because we are not addressing those issues adequately by amendments in this bill.

I think it is extremely important that we protect the public health of this Nation. If someone has a communicable disease, tuberculosis, AIDS, or something else, do my colleagues want them preparing their food or handling their food? If someone has a communicable disease, AIDS, or tuberculosis or something else, do my colleagues want them working with them in a room after they have had major surgery?

□ 1210

I think not, and this legislation, make no mistake about it, does not adequately address those dangers to the health of this Nation. For that reason alone, this rule should be defeated, because you would not allow those amendments to at least be discussed or debated on this floor.

We may have lost those amendments, but at least if we believe it is going to jeopardize the health of this Nation deserve the right to be heard and debate those issues on this floor.

This rule is a very bad rule and it should be defeated.

Mr. GORDON. Mr. Speaker, for purposes of debate only, I yield 2 minutes to the gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. Mr. Speaker, this should not be a debate about homosexuals or AIDS or HIV drug users. This is a debate about civil rights for the disabled.

In the early sixties, this was the beginning of the civil rights movement. Society began to recognize that discrimination in the workplace and public accommodations were no longer acceptable, that each of us is a human being with feelings and deserves to be treated as such. As a result, the Civil Rights Act of 1964 was enacted, which prohibited the discrimination of an individual based on race, gender, or religion.

The Americans With Disabilities Act carries the civil rights movement a step further. This act is a civil rights bill for the disabled. The bill assures the many Americans who are disabled that they are going to be able to participate in all aspects of society.

Let us face it. We have shunted them aside. We have mistreated them. Through this legislation, disabled individuals are going to be able to lead more productive lives. That means they are going to have access to education, jobs, public accommodations, public services, and public transportation.

Is this not fair?

Additionally, all members of our society will have the opportunity to learn and benefit from the skills and talents of these individuals whom we have long shunted aside.

I am aware of the concerns that this legislation has received from organizations and businesses across America, but I think Members of the leadership and the relevant committees have worked diligently to ensure this bill guarantees the necessary rights of the disabled, without penalizing businesses, without hurting communities.

I think this bill is fair to everybody, to businesses, to the disabled, but it is also a bill that should be very clear. We should act in the best conscience of this country, and it is important that this legislation be passed immediately.

Mr. Speaker, I rise today to express my strong support for the Americans with Disabilities Act.

Mr. Speaker, the early 1960's were the beginning of the civil rights movement. Society began to recognize that discrimination in the workplace and public accommodations were no longer acceptable; that each of us is a human being with feelings and deserves to be treated as such. As a result, the Civil Rights Act of 1964 was enacted which prohibited the discrimination of an individual based on race, gender, or religion.

The Americans With Disabilities Act carries the civil rights movement a step further. This act is the civil rights bill for the disabled. This bill assures the many Americans who are disabled that they will be able to participate in all aspects of society. Through this legislation disabled individuals will be able to lead more productive lives. That means they will have access to education, jobs, public accommodations, public services, and public transportation. Additionally, all members of our society, will have the opportunity to benefit and learn from the skills and talents of these individuals, whom we have too long shunted aside.

I am aware of the concerns this legislation has received from organizations and businesses across America. However, we have worked diligently to ensure that this bill will guarantee the necessary rights of the disabled without penalizing businesses and communities. I believe this bill is fair to everyone.

Mr. Speaker, we need continued leadership in the area of civil rights. Everyone in America deserves to be treated equally, that is their right. I am pleased to express my strong support for this historic piece of legislation and I hope my colleagues will move to pass the Americans With Disabilities Act promptly and without weakening amendments.

Mrs. MARTIN of Illinois. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. BARTLETT], who has been very active on this bill.

Mr. BARTLETT. Mr. Speaker, I do support this legislation in its current form. I was not one of those who supported the legislation as it was originally introduced or even as it came out of the Senate, but in its current form as it has been amended by the committees, I do support it; but I do not support the closed rule that we are today considering.

I have been one of those who has advocated from the very first day on this bill that this bill should be fully and fairly considered by, first, each of the committees of jurisdiction in the House; and secondly by the House of Representatives as a body sitting in legislative decisionmaking to consider a full and fair debate on each of the amendments, on all of the aspects of the bill and its effect on this country over the course of the next 100 years.

Mr. Speaker, there is absolutely no reason that this rule should be closed. There is nothing to fear here other than open and fair legislative debate.

The fact is we have spent more time, more time has been consumed in watching the Rules Committee try to find ways to limit debate on this bill than would have been consumed had we simply brought the bill up under an open rule, allowed all germane amendments to be fully and fairly debated, voted on them, had those that had a majority vote pass, and those that did not have a majority vote be defeated.

I have heard earlier from my good friend, the gentleman from Tennessee, a reference to the committee system, mentioning that somehow a full and fair debate on the House floor makes, in his words, a mockery of the committee system. The fact is that would be laughable if it were not so tragic. What is tragic is a closed rule on landmark legislation makes a mockery of the legislative system, and indeed makes a mockey of the House of Representatives sitting as a body.

This rule excludes a number of amendments that should have been considered on their own merits, amendments by the gentleman from Washington [Mr. CHANDLER], the gentleman from North Carolina [Mr. LANCASTER], and the gentleman from Florida [Mr. MCCOLLUM]. Those amendments and others could have been considered, debated, argued, and determined by this body. Some amendments have been made in order. As the amendments come up, I will share with my colleagues which amendments I support and which amendments I oppose. They will be debated on their own merits.

It does seem to me that after the fight on the procedure and after we have dispensed with the fight on the procedure, this bill will be brought to the floor. We will debate some, most of the substantive amendments, although not all, and at the end of this legislative session we will pass the Americans With Disabilities Act. It is landmark legislation. It is long overdue. It has been substantially improved to meet the tests of the current law of section 504 that has been in the law since 1973.

It is a good bill on the whole. It can be improved. I hope we improve it through the amendment process.

Mr. GORDON. Mr. Speaker, for purposes of debate only, I yield such time as he may consume to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank the distinguished gentleman from Tennessee [Mr. GORDON] from the Rules Committee who has worked so long and so hard on fashioning a rule that the committee felt was fair and will provide for debate on the significant issues that remain with respect to this bill. All of those issues have obviously already been argued in committee. There have been four committees.

This bill has had an unusually broad and I think indepth consideration.

I will congratulate the gentleman from Texas [Mr. BARTLETT] in the future, but I also want to thank him at the outset for his diligent, knowledgeable and sensitive advocacy of the positions that he felt were important to change in the Senate bill. He has been I think very successful in that effort and I have enjoyed working with him and, frankly, will enjoy working with him over the next 2 days that we will be considering this legislation. He has truly immersed himself and understands this bill as well as anybody on this floor, and I want to thank him for his work with me.

Mr. Speaker, this bill has had the full light of day. It came from the Senate with much criticism that it had not been fully considered, that there has not been sufficient time to consider it. I do not necessarily agree with that criticism. The Senate held hearings.

This bill was introduced in the 100th Congress. It is now in the 101st Congress.

I will refer to this bill in the future and will refer to it now as the Coelho bill. Tony Coelho, our former majority whip, of course, has been the principal sponsor and remains the principal sponsor of H.R. 2273.

In the Education and Labor Committee, and in particular the gentleman from Wisconsin [Mr. GUNDERSON] as well and members of that committee brought to our attention many, many amendments. We talked about them literally for days and the committee considered those amendments and ultimately voted out the bill 35 to 0, as the distinguished gentlewoman from Illinois has indicated, obviously recognizing a bipartisan commitment to an historic piece of legislation, opening up our society to the disabled.

In the Committee on Energy and Commerce, it was 40 to 3, again overwhelming bipartisan participation in the fashioning of that bill.

I might say that minority and the majority counsels, the staff members, spent inordinate amounts of time and commitment to fashioning a bill that could receive, as it did, overwhelming support by the Energy and Commerce Committee.

The Public Works and Transportation Committee also worked in a bipartisan fashion, and we had almost every amendment that could be thought about introduced and considered, either in the fashioning of the legislation that was passed by the Public Works Committee, or in the consideration by the Public Works Committee itself, and that bill passed 35 to 5.

□ 1220

The last committee to consider it was the Committee on the Judiciary. Almost every amendment, as a matter of fact, I cannot think of an amendment that was offered in the Committee on Rules that was not, in fact, debated in at least the Committee on the Judiciary and at least one other committee.

So Members ought to know that all of the amendments that were offered had been considered in the committee system by over 160 Members of this body. Fully approximately one-third of the Members of the House have considered this bill in committee. So there has been very full debate.

I previously talked about the amendment of the gentleman from North Carolina. There are others. We believe that many of them are duplicative, so the number of amendments that were offered is really not as many as one would think, because they obviously had to get them to the committee. They did not have time to consult with others, so many of them were duplicate amendments.

The Committee on Rules picked out many amendments that I will oppose vigorously on this floor. I do not agree with some of the amendments that are going to be offered. But they do, in fact, raise major, significant issues that ought to be considered by the House, and the Committee on Rules has made them in order.

With respect to two amendments offered by the gentleman from New Hampshire [Mr. DOUGLAS], both of those amendments, of course, were considered in the Committee on the Judiciary, and I might say as a result of discussions with the gentleman from New Hampshire I spent substantial time in talking to the New York Police Department, the Los Angeles Police Department, my own police department in Prince Georges County, which has over 1,000 uniformed officers, to determine whether or not there was anything in this bill that would undermine the way they process applicants for public safety jobs.

I think the gentleman from New Hampshire [Mr. DOUGLAS] is correct. Obviously we want to make sure that we have psychological testing. In point of fact, every police agency told me they do that very late in the process. They do it late in the process because they want to screen out first because it is an expensive process and they want to make sure that the applicant really is somebody they want to offer a job to before they go to that expense of psychological testing.

This bill does not preclude that, so I think the concern of the gentleman, a legitimate concern, is in fact protected.

I would urge the Members of this House to strongly support this rule. The bill that comes to this House has been worked upon probably more extensively than any piece of legislation that will be reported to this House this year. The rule provides for the significant amendments. I would urge us to oppose what will simply be a motion to defeat the previous question, which will delay this bill moving forward.

I was hopeful that the bill would be on the floor yesterday. it was not because of the concern that the gentleman from Georgia [Mr. GINGRICH] has expressed about El Salvador. I understand that. It was not related to the

ADA. But notwithstanding that, there may have been other Members who were going to object to unanimous consent as well.

But in any event, it is now time for us to move forward. Let us pass the previous question, and let us pass the rule, and let us move on to discuss what everybody has referred to as an historic opening up of America to the disabled of America, of which there are 43 million, who want, as all of us want, and I will reference and others will reference in general debate, the full opportunity to exercise their talents and their commitment as every other American expects to do.

I support the rule and support the previous question.

Mrs. MARTIN of Illinois. Mr. Speaker, although I am supportive of the bill, we would hope for an open rule, and I yield back the balance of my time.

Mr. GORDON. Mr. Speaker, I have no further requests for time, and I move the previous question on the resolution.

The SPEAKER pro tempore (Mr. MONTGOMERY). The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. WALKER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 251, nays 162, not voting 19, as follows:

[Roll No. 113]

□ 1243

The Clerk announced the following pairs:

On this vote:

Mr. Nelson of Florida for, with Mr. Schulze against.

Mr. Bustamante for, with Mr. Craig against.

Mr. GILMAN and Mr. HUTTO changed their vote from "nay" to "yea."

So the previous question was ordered.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. MONTGOMERY). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mrs. MARTIN of Illinois. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device and there were—yeas 237, nays 172, not voting 23, as follows:

[Roll No. 114]

□ 1301

The Clerk announced the following pairs:

On this vote:

Mr. Nelson of Florida for, with Mr. Schulze against.

Mr. Bustamante for, with Mr. Craig against.

Mr. AuCoin for, with Mrs. Johnson of Connecticut against.

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. SLAUGHTER of New York. Mr. Speaker, I was unable to be present for rollcall 114 earlier today. Had I been present, I would have voted yes.

The SPEAKER pro tempore (Mr. MONTGOMERY). Pursuant to House Resolution 394 and rule XXIII, the Chair declares the House in the Committee of the Whole for the consideration of the bill, H.R. 2273.

□ 1303

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 2273) to establish a clear and comprehensive prohibition of discrimination on the basis of disability, with Mr. MFUME in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from New York [Mr. OWENS] will be recognized for 15 minutes, the gentleman from Pennsylvania [Mr. GOODLING] will be recognized for 15 minutes, the gentleman from Michigan [Mr. DINGELL] will be recognized for 15 minutes, the gentleman from New York [Mr. LENT] will be recognized for 15 minutes, the gentleman from California [Mr. ANDERSON] will be recognized for 15 minutes, the gentleman from Pennsylvania [Mr. SHUSTER] will be recognized for 15 minutes, the gentleman from Texas [Mr. BROOKS] will be recognized for 15 minutes, and the gentleman from Wisconsin [Mr. SENSENBRENNER] will be recognized for 15 minutes.

The Chair recognizes the gentleman from New York [Mr. OWENS].

Mr. OWENS of New York. Mr. Chairman, I yield 5 minutes to the lead sponsor of the bill, the gentleman from Maryland [Mr. HOYER], Chairman of the Democratic Caucus and the gentleman who has worked so hard and put forth such a Herculean effort to bring this bill to the floor.

PARLIAMENTARY INQUIRY

Mr. DELAY. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. DELAY. Mr. Chairman, would the Chair inform the Members as to how this is going to operate? Is the Chair going to call on one committee's representatives in order, or is everyone vying for time at once?

The CHAIRMAN. The Chair would prefer that each committee would use its time.

Mr. DELAY. So the Chair would call on the Education and Labor Committee first, the Energy and Commerce Committee second, and then the other committees in order as they appear in the rule?

The CHAIRMAN. The gentleman is correct.

Mr. DELAY. I thank the Chair.

The CHAIRMAN. The Chair recognizes the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, first of all, I thank the gentleman from New York [Mr. OWENS] for yielding me the time and for his kind words.

This bill is truly the product of thousands and thousands and thousands of people. It is a bipartisan bill. It is a bill whose time is too late but whose time has certainly come.

Mr. Chairman, 25 years ago this week, President Lyndon Johnson told a group of school administrators in the Rose Garden of the White House that "we work night and day to help men conquer old hatreds and old prejudices with new hope. We work night and day to help men remove old fears with new faith, and to bring old conflicts to an end—in new cooperation."

Those words came at the beginning of a great era in America, shortly after the adoption of the Civil Rights Act of 1964, when we began to recognize that although the Declaration of Independence said that "all men are created equal," there was a long way to go before our society truly recognized all as equal.

Much has been done, and many people have been working night and day, since then. Racial minorities, women, young and old, and many others have received specific rights

and protections in the Federal Code and in society as a whole.

We have recognized the need to ensure that minorities in America have a right to recognition and support.

But in those 25 years since President Johnson said those stirring words, we have not remembered all minorities.

Imagine living in a world where every curb is a barrier; where nearly every telephone is useless and where most stores and businesses are unavailable to you. Where you and your family's tax dollars go to fund buses you cannot use, trains you cannot ride on, Government programs you cannot get to and jobs you cannot have.

A world where you want to be included just like all your friends and relatives. Where you are frustrated at receiving a check from the Government every month, a check that effectively serves as compensation for all this discrimination. And where you want desperately to challenge your mind and your body in the day-to-day world of work and in the world at large that everyone else takes for granted.

That is the world of most Americans with disabilities.

A world they want to participate in, but one in which the barriers—some physical, others barriers of the mind—prevent them from joining.

But the costs of discrimination are tallied from both sides. By discrimination against the disabled, we lose the productive talents and imaginations of millions of able-disabled Americans. Our Nation spends almost $170 billion a year on maintaining the dependency of the disabled; more than $75 billion of that comes directly from the Federal Government. Yet these people want to work.

Although two-thirds of all disabled Americans between the age of 16 and 64 are unemployed, 66 percent of those who aren't working say they want to work. Furthermore, 82 percent of people with disabilities say they would relinquish their Government benefits in favor of a full-time job.

In the last year, walls have come down—physical walls and imaginary walls—in Eastern Europe and throughout the world. Time and time again, we have heard the people as they look to America for advice and guidance, as the shining example of democracy and freedom that we are.

Now, governments around the world are looking to us again. Many in the last year have come to Washington to find out about this landmark, nearly unprecedented legislation we are considering. Many have asked, why are we doing this for the disabled?

My answer is twofold. As Americans, our inherent belief is that there is a place for everyone in our society, and that place is as a full participant, not a bystander.

The second answer is less lofty. It is steeped in the reality of the world as we know it today.

If, as we all suspect, the next great world competition will be in the marketplace rather than the battlefield, we need the help of every American. By the year 2000, it is estimated that our Nation will have a net shortage of labor. In some areas of the country, this is already a fact.

We cannot afford to ignore millions of Americans who want to contribute.

And despite the impression of some, this legislation ensures that the backbone of the American system, business, is protected, too.

When the Americans With Disabilities Act came over from the other body last fall, we heard from many corners of the business community about concerns they had over this bill. We have worked closely with them, and adopted numerous amendments, to ensure that American business can work with the ADA.

We have ensured that business knows what is expected of it, and how it can be accomplished.

This bill does not guarantee a job—or anything else. It guarantees a level playing field: the qualified individuals won't be discriminated against because of their disability.

Whenever possible, we have used terms of art from the 1964 Civil Rights Act and from the Rehabilitation Act of 1973 phrases already interpreted in courts throughout this land so that business can know exactly what we mean.

In one case, we had to develop a new definition. This was done to ensure that business has leeway that is reasonable.

Let me quote from this bill's definition of "readily achievable": "easily accomplishable without much difficulty or expense."

This language is clearly intended to ensure that what is expected of business is reasonable and proper, and that businesses are not threatened by this legislation.

But they are expected to do what is reasonable and possible. Because American history and justice, from the Declaration of Independence through today, has been founded on the principle that all Americans are created equal, regardless of their race, sex, age, ethnicity or any other factor. The principle assumes that society will do what is necessary and possible to ensure that equality of opportunity.

No greater example of what we have in mind is our own former colleague, Tony Coelho, who is the original father of this bill in this House and who is here with us today. As we all know, Tony's original career plans were stalled because of discrimination against persons with epilepsy. In the end, this was a blessing to the Nation and this House, for he might not have ended up here. But no one in this Nation has proven more than Tony Coelho that someone with a disability can be one of the most able people our Nation has ever seen.

Mr. Chairman, we are sent here by our constituents to change the world for the better. And today we have the opportunity to do that.

When we first think of seeking high office, we think not of power and persuasion, but of our ability to do good and make it a better place for our fellow citizens.

But when we get here, we learn how infrequent are our chances to effect real change.

Change is incremental, and slow-moving, and it is often frustrating. There are so many problems, so much injustice, and so few tools to fight them with.

Today is what our hopes, our dreams, and our imagination are all about. For today, each of us with our vote can make life better for our fellow Americans. To the millions who have literally been locked out of the mainstream of society, we can open the door, clear the passageway, and bring them in. We can, as Lyndon Johnson said, work night and day to help men and women remove old fears with new faith.

By this vote, we can say yes, every American has the inalienable right to life, liberty, and the pursuit of justice. Because we will be granting simple justice to 43 million of our fellow citizens: we will be ensuring that Americans among us with disabilities, and their children, will live in a world with more opportunity. And a world that goes out of its way, makes the necessary effort, to ensure that they are included.

To be a part of this day is a special privilege. Today, we make history.

We have talked a great deal about the 43 million people who will be affected by this bill. But now, let me talk about just one.

Alicia Epstein is 10 years old, and she is deaf.

Last fall, she wrote to me, urging me to be certain that this bill passed the House and became law.

"I really want to have a good future," Alicia wrote, "as well as equal rights for all handicapped people. When I was 2 years younger than I am now, I began to worry about my future. I want to have a good future."

Today, we can assure that Alicia and all of her friends get that good future. I urge you to vote for this bill.

□ 1310

Mr. GOODLING. Mr. Chairman, I yield myself such time as I may consume.

Mr. GOODLING. Mr. Chairman, we are here today to consider, and to pass, an historic piece of legislation—

legislation that will mark an appropriate, major expansion of our Nation's civil rights laws to include coverage of the disabled.

In some ways it seems that this legislation, as it slowly progressed its way through four committees in the House, was a long time in coming; yet, in reality, it is now nearing final passage in remarkable time. This legislation is an initiative with a broad sweep and one which imposes many novel requirements on those entities of the private sector which have not been Federal contractors or have not received Federal financial assistance. It certainly has not been without controversy; but, nevertheless, we are here today, less than 13 months since the bill's introduction, to take the final steps in enacting it into law.

Mr. Chairman, I think I can sincerely say that the expedited consideration of this legislation is in large part due to the bipartisanship which has characterized the debate. There has never been a question as to whether there would be a bill, or even what its basic framework would be. Yes, there have been disagreements, but these, to a great degree, have been worked out between majority and minority, with the cooperation of the disability and business communities. I think I can say that the bill, while not without problems, is considerably improved over that which was passed by the Senate.

Of course, it was the Senate-passed bill—a product of negotiations and agreements between the administration, the disability community and the business communities—which formed the basis for further consideration in the House. Indeed, the Education and Labor Committee took up the Senate bill, with some modifications, as a substitute to the House bill. Mr. Chairman, I want to emphasize that the primary agreement which led to passage of the Senate bill was an agreement to delete punitive and compensatory damages from the legislation as it was originally introduced, and that this was the basis upon which the bill was considered and passed in the Education and Labor Committee. Had those damages been included, I suspect the vote count may have been much different. But I know we will have considerable discussion of this issue later in the context of the amendment to be offered by Mr. SENSENBRENNER.

Mr. Chairman, I would hope that the same bipartisanship which has characterized the past debate on the Americans with Disabilities Act would also characterize our discussions and deliberations today. While the legislation is improved, problems remain which deserve a thorough debate on the House floor.

While I will not review here all of the amendments which will be offered, I believe all of them—given the magnitude of this legislation—deserve considerable consideration by all Members. Anything less would be contrary to the whole spirit of cooperation which has led us to this day.

Mr. Chairman, I reserve the balance of my time.

Mr. OWENS of New York. Mr. Chairman, I yield myself 6 minutes.

Mr. Chairman, I rise in strong support of this legislation. Today is a very special day for 43 million Americans with disabilities; 26 years after the passage of the Civil Rights Act of 1964 established civil rights for minority groups and women, many of our citizens with disabilities stand on the threshold of independence. The Americans with Disabilities Act of 1990 is an opportunity bill which will provide parallel protections for people with disabilities as have long existed for other minority groups and women.

None of the fundamental concepts in this legislation are new. Rather, they are derived largely from section 504 of the Rehabilitation Act of 1973 and its implementing regulations, and the Civil Rights Act of 1964. As such, there is a history of experience in implementing the concepts in this bill which will greatly facilitate the task of informing those with rights and responsibilities under this legislation as to what its provisions mean.

This bill has received exhaustive consideration and scrutiny in four House committees, and has received overwhelming bipartisan support. The reason for that is very simple—it is a sound bill which fully merits the overwhelming support of the members of this body.

For people with disabilities, this bill offers opportunity to enter the mainstream of society, to compete for jobs on the basis of their ability rather than be arbitrarily kept out of the workforce by their disability, to avail themselves of the kinds of pleasures which most of us take for granted, to communicate with a friend via a telephone if they are hearing impaired, to be free from the demeaning treatment which makes it so difficult for so many of our fellow citizens to live their lives with basic dignity.

For the taxpayers of this country, this bill represents a net savings in that qualified people with disabilities who want to work, but cannot find jobs irrespective of their actual abilities, will not be able to enter the work force and become taxpayers.

And for the business community, learning how to employ and retain people with disabilities, as many businesses have already done with outstanding results, effectively opens up a source of qualified employees who have long been underemployed.

The degree of poverty and unemployment experienced by people with disabilities is staggering. According to a recent Louis Harris poll, "not working" is perhaps the truest definition of what it means to be disabled in America. Two-thirds of all disabled Americans between the age of 16 of 64 are not working at all; yet, a large majority of those not working say they want to work. In 1984, 50 percent of all adults with disabilities had household incomes of $15,000 or less. Among nondisabled persons, only 25 percent had household incomes in this wage bracket. The Harris poll also found that large majorities of top managers (72 percent), equal opportunity officers (76 percent), and department heads or line managers (80 percent) believe that individuals with disabilities often encounter job discrimination from employers and that discrimination by employers remains an inexcusable barrier to increased employment of disabled people.

Our Nation's most precious resource is our people. To the extent that the changes in practice and attitudes brought about by implementation of the act ultimately assists people with disabilities in becoming more productive and independent members of society, both they and our entire society will benefit. Discrimination negates the billions of dollars we invest each year to educate our children and youth with disabilities and train and rehabilitate adults with disabilities. This bill is the best antidote that I know of to age-old societal attitudes which cause some to see disabled people, especially those with severe or visible disabilities, as natural dependents. The Americans with Disabilities Act will serve to reduce the external barriers that rob people with disabilities of the opportunity to pursue their dreams and rob our society of the contributions to our economy and to our public life which people with disabilities know they can make and want to make.

The Greeks defined happiness as the full use of one's powers along the lines of excellence. For over 200 years, we in America have taken the ringing words of the declaration of independence as defining the inalienable rights of man; life, liberty, and the pursuit of happiness. Thousands of people with disabilities and able-bodied advocates for people with disabilities all across the land, many of whom are present in this chamber today, remind us that even as they see no more, they demand no less. Today, we, in the House, have an opportunity to uphold our Nation's highest ideals and finest traditions of protecting the freedom of all individuals from arbitrary or unjust treatment, and of extending the opportunity to participate fully in American society to the previously dispossessed. In these special times, we in the United States are witnessing a remarkable and unprecedented outpouring of sentiment for, and commitment

to, freedom and democracy all over the world. A "yes" vote on the Americans With Disabilities Act of 1990 constitutes both an affirmation of our Nation's once and future commitment to full inclusion in the mainstream of our society for all of our citizens, and a testament to the vitality, vigor and capacity for renewal of our democracy.

Four House committees have done excellent work perfecting this legislation. And yet today, and next week, we will be presented with a number of weakening amendments which threaten to undo much of the good work that has been done. I urge my colleagues to firmly reject weakening amendments and pass this bill with an overwhelming "yes" vote. This legislation richly deserves your support.

□ 1320

Mr. GOODLING. Mr. Speaker, I yield 6 minutes to the gentleman from Texas [Mr. BARTLETT], who had a great deal to do with getting this bill in the order it is in. He and the staff are to be commended for their efforts.

Mr. BARTLETT. Mr. Chairman, I would inquire, is the gentleman from Maryland prepared for a colloquy at this time on "direct threat"?

Mr. HOYER. Mr. Chairman, if the gentleman will yield, yes.

Mr. BARTLETT. Mr. Chairman, I would like to ask the gentleman from Maryland [Mr. HOYER] for some clarification concerning the meaning of the term qualification standards as it appears in section 103(b) of the bill. That standard, as modified by the Judiciary Committee, permits a requirement that an individual with a disability not pose a direct threat to the health or safety of other individuals in the workplace if reasonable accommodation will not eliminate the direct threat. Direct threat is defined in section 101 of the bill to mean significant risk. As I understand it, this qualification standard is intended to spell out clearly the right of an employer to take action to protect the right of its employees and other individuals in the workplace, including not assigning an individual to a job if such assignment would pose a direct threat to those individuals. Is my understanding correct?

Mr. HOYER. Mr. Chairman, if the gentleman will yield, the gentleman's understanding is correct, assuming the employer cannot eliminate the direct threat by making reasonable accommodation.

Mr. BARTLETT. If I may further inquire of the gentleman, it is also my understanding that in determining what constitutes a significant risk, the employer may take into consideration factors such as the magnitude, severity, or likelihood of the risk to other individuals in the workplace, again assuming that such factors could not be eliminated by reasonable accommodation. I yield to the gentleman.

Mr. HOYER. The gentleman's understanding is correct. Of course, the burden will be on the employer to show the relevance of such factors in relying on the qualification standard.

Mr. BARTLETT. I thank the gentleman.

Mr. Chairman, I rise in support of H.R. 2273, the Americans with Disabilities Act of 1990 [ADA]. This is an historic occasion. When the ADA is enacted, full civil rights will be extended and available to those with disabilities in every community in this country, in employment, public services and transportation, public accommodations, and telecommunications. The ADA provides many of the same rights to individuals with disabilities that have been available to others because of their race, national origin, sex, and age through earlier civil rights laws.

The ADA is based on sections 503 and 504 of the Rehabilitation Act of 1973, which require that Federal grantees or contractors not discriminate against an individual because of his or her disability. This prohibition applies in services, opportunities, and employment. Thus, there are many people out there—in State and local government, educational institutions, big and small businesses with government contracts—that have experience with designing programs and opportunities so that individuals with disabilities can participate.

I acknowledge that there are just as many, perhaps more, people that have little or no experience with providing accommodation and access to individuals with disabilities. We must make a commitment, starting today with this debate, to help everyone develop an understanding about how the ADA would apply. We must share resources, experience, and expertise about how to respond effectively and appropriately to the challenges the ADA will bring. As a starting point, we should support floor amendments that will reduce litigation, provide incentives for involvement with those with disabilities, and ensure that Congress, like everyone else in the private sector, will respond to the civil rights of Americans with disabilities.

The reason is simple. The world is changing rapidly. Because of medical technology, individuals, who 10 years ago would not have survived severe traffic accidents, are now living and functioning in their communities. Because of rehabilitation technology, and most recently the Technology-Related Assistance for Individuals with Disabilities Act, severe limits in basic functions are being overcome at home and in the workplace. Finally, because of the labor shortage, employers will be looking to unused and under used populations, like those with disabilities. The ADA will help us to directly address our changing world and prepare for the future.

By the year 2,000, we will need specific percentage increases in key occupations: a 24 percent increase in specialty professional occupations like engineers, natural scientists, medical doctors, teachers, and lawyers; a 12 percent increase in managerial and administrative personnel; and a 23 percent increase in service populations. Where will these needed workers come from? From those unused and under used resources—like the 66 percent of the individuals with disabilities, between 16 and 64, who are unemployed and want to work. With the aging of our population, the slow growth rate of our population, and with the projected shortages in the work force, hiring those with disabilities will make economic, as well as moral sense.

In the time allotted to me today I would like to comment on two things. First, how the ADA would work in practical situations. Second, improvements we have made in the employment and public accommodations provisions in the ADA.

The key concepts in the ADA are reasonable accommodation, undue hardship, and readily achievable. It is easiest to explain these terms through some practical, real-life questions and answers raised by some in the business community.

What does the term "undue hardship" mean? Would hiring a reader at $6 per hour to accommodate a $5 per hour blind clerk be considered an undue hardship?

The hypothetical posed would clearly be an undue hardship, assuming the question is a continuous reading requirement. On the other hand, hiring a $6 per hour reader for 1 hour per year would not be an undue hardship.

The factors to be considered in determing whether an action would be an undue hardship—defined as an action requiring significant difficulty or expense—are both the financial resources of the site and the resources of the parent company. Both factors would be involved in a reasonable test. Within this context, the overall size of the business; the number, type, and location of its facilities; and the type of operation, including the composition, functions, and structure of the work force, would also be considered. Since 1973, the essential judgment in determining an undue hardship has been determining what is reasonable. The ADA would not change that.

What is meant by readily achievable? Is the cost of an accommodation measured in relation to the financial resources of the commercial enterprise—parent company—or of the particular establishment—store or facility?

In terms of the question posed, both the resources of the parent company

and the specific facility would be considered.

Readily achievable means easily accomplishable and able to be carried out with little difficulty or expense. It is a lesser standard than undue hardship.

In determining whether an action is readily achievable, factors to be considered include: the overall size of the business with respect to the number of its employees; the number, type, and location of its facilities; the overall financial resources of the business and the financial resources of that facility; the type of operations maintained by the company, including functions of the work force, geographic separateness and administrative relationship to each other.

If the employee lounge or rest room is on a lower or upper floor, must an employer provide an equal facility on the main floor for a mobility-impaired employee?

Only if the cost is not significant and thus is not an undue hardship. Options like reallocating the use of space and moving furniture or redesignating who could use a rest room—male, female—on the floor on which the disabled employee worked, likely would not be an undue hardship. Constructing an entirely new rest room likely would be an undue hardship.

Must all the aisles in a store be widened to accommodate wheelchairs?

No. The ADA does not require that aisles be widened. It does require access to shopping services, if making such services accessible is readily achievable; that is, easily accomplishable and able to be carried out without much difficulty or expense. Thus, widening aisles is one way of providing access, but there are others: reorganizing the placement of frenquently purchased items at the front or front end of aisles; making customer assistants willing to retrieve items for those with disabilities; taking phone orders for mailing or pick up at curb side, and providing catalogs and flyers.

Now I will move on to my second point, improvements. The ADA was referred to four House Committees: Education and Labor, Energy and Commerce, Public Works and Transportation, and Judiciary. All four committees made improvements in H.R. 2273 (4807), building on the version adopted by the other body, (S. 933).

Our committee made significant improvements in the bill, especially in clarifying the obligations of those who must respond to the accommodation and access needs of the disabled. For example in the areas of employment and public accommodations the following improvements were made:

Undue hardship and readily achievable: Site specific factors and parent company factors must be considered when determining if a reasonable accommodation for a disabled employee is an undue hardship—significant difficulty or expense—or a barrier removal for a disabled customer is readily achievable—easily accomplishable without much difficulty or expense.

Anticipatory discrimination: Such discrimination claims are limited to new construction.

Drugs: Current users of illegal drugs are not protected by the ADA or the Rehabilitation Act of 1973.

Contract liability: Employers and public accommodations are only liable for discriminatory actions against their own employees or customers, not such actions taken by one of their contractors against other individuals.

Damages: In pattern and practice cases brought by the Attorney General, when the Attorney General asks for monetary damages, such damages cannot include punitive damages.

Finally, I would like to review some possible floor amendments, offer a context in which they should be considered, and indicate why they should be supported.

Use of the courts. First, I urge your positive consideration of amendments that would decrease litigation. The intended effects of the ADA will be ensured if the courts are used primarily to remedy discrimination through injunctive relief. Injunctive relief, in disability discrimination cases, has precedent and is fair, practical, and educational. Moreover, such relief should result in proactive efforts on the part of the private sector to respond to the accommodation and access needs of those with disabilities.

If on the other hand, the ADA remains unamended in several areas, the courts will become the place where important terms become clarified, where protected classes are established, and where lawyers, but not people with disabilities, receive strong incentives for being there. Under such a scenario negative outcomes are likely. It will take many years to establish consistent meanings for terms and limits on protected classes. This will place the civil rights of some with disabilities and some good faith efforts by the private sector in suspension. And, if the potential costs of litigation include jury trials and danages, the private sector will devote time insulating itself from those with disabilities.

Therefore, I urge you to consider supporting amendments that would: clarify remedies available for employment; and clarify employer discretion related to: positions involving food handling and essential functions of job.

Finally Mr. Chairman, I wish to return to one of my first points. The ADA is complicated legislation with far-reaching implications. For it to work well we must work together to achieve effective implementation.

There are many resources available to the business community that could help in responding to the access and accommodation needs of the disabled; for example: State vocational rehabilitation agencies, that since 1920, have been assisting individuals with disabilities enter and reenter the workforce; Centers for Independent Living, that help such individuals prepare for employment, find housing and transportation; the President's Committee on Employment of Individuals with Disabilities and its Job Accommodation Network, that helps employers with specific accommodation inquiries, as well as seminars and training programs; the Washington Business Group on Health, that provides expertise on how to return disabled employees to work quickly and safely, and on the cost benefits involved; Projects with Industry, that promote employment of those with disabilities in the work force; the National Council on Disability, who had the vision and courage to propose an ADA in 1987.

The 140-plus organizations that have endorsed the ADA are additional resources. The best resource, however, are individuals with disabilities—they know what they need and what they don't need to level the playing field—simply ask them.

Since joining Congress in 1983, I have had a sustained interest in legislation that increased opportunities for and independence of individuals with disabilities. The ADA will positively affect the environemnt encountered by the disabled, and make a direct difference in what they can do for themselves and for others. I would hope too, that the ADA will have a positive effect on what we think about and do to promote accessibility. The ADA should reach every community and reshape attitudes toward disability, so that differences among us become more a question of interest than bias.

Finally, I would like to thank my friend from Maryland, Mr. Hoyer, for working in a fair and bipartisan manner to address concerns and changes related to the ADA; and I would like to recognize the efforts of the Republican Leadership for urging and coordinating education on the ADA.

Mr. OWENS of New York. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. MURPHY].

□ 1330

Mr. MURPHY. Mr. Chairman, I commend the gentleman from New York [Mr. OWENS] for the tremendous work he has done during the past months in drafting this legislation, as well as the gentleman from Maryland [Mr. HOYER], who has worked tirelessly for this measure.

As was previously pointed out, many Members have struggled for many, many years, before those of us who

are here today arrived in Congress, to seek equality for every American and to provide every American and in fact every person with a total right to our society and to our democratic way of life. This bill takes a giant step in that direction.

Mr. Chairman, I commend the four committees who have worked on this. We worked on amendments. We tried to make the bill accommodating to small business people. We reached out to the business community, to the individual communities, and tried to make this bill palatable to all.

I know that when the final committee finished last week, we had a bill that we felt could be acceptable to all and still accomplish the goals of serving those Americans who suffer physical disabilities.

Mr. HOYER. Mr. Chairman, will the gentleman yield?

Mr. MURPHY. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Chairman, I want to congratulate the gentleman from Pennsylvania [Mr. MURPHY]. He worked very diligently and conscientiously on trying to make sure that in small towns in particular we had site-specific language so we did not put an onerous burden on stores that may be subsidiaries of large parents who have deep pockets, but who themselves are marginal stores but serve a very, very important constituency, both the disabled, and, of course, the able.

I want to congratulate and thank the gentleman from Pennsylvania [Mr. MURPHY] for his very sincere and effective efforts in work on behalf of this bill.

Mr. MURPHY. Mr. Chairman, I thank the gentleman from Maryland [Mr. HOYER], and yield back the balance of my time.

Mr. GOODLING. Mr. Chairman, I yield 2½ minutes to the gentleman from Massachusetts [Mr. CONTE].

Mr. CONTE. Mr. Chairman, today we will vote on the Americans With Disabilities Act, one of the noblest initiatives of this Congress. I urge everyone here to support the act.

As I stand here today, I can't help noting the struggles this great country has endured to secure freedom for our citizens. From the patriots at Boston Harbor to the freedom marchers in Selma, we've fought for equality and justice for all our citizens.

While our struggle for freedom is unmatched, it's also incomplete. As Vaclav Havel said a few months ago, we can simply approach a true democracy. The ADA will bring us a lot closer.

This bill is a declaration of independence for 43 million disabled Americans. After years of being in the shadows, they're on the threshold of a new and exciting era. An era where their civil rights are guaranteed by the laws of this great land.

Just a few weeks ago, disabled advocates rallied in front of the Capitol, calling for justice and expressing their dreams for the future. Their message was clear and concise—the rights of the disabled cannot, must not be ignored.

The ADA responds to the pleas of the disabled. It guarantees every American with a disability, freedom from job discrimination, use of public transport and public accommodations, and opportunities to use modern telecommunications.

The guarantee won't be cheap or easy; but the gains will be worth the cost.

The ADA has many practical benefits, for both the disabled and the entire Nation.

For example, without entryway access ramps, people in wheelchairs can't compete for jobs—and employers can't hire good workers. Hearing or speech impaired persons can use telecommunications relay service to call ambulances, save victims, and avert medical emergencies.

ADA is also worth the investment in a moral sense. It acknowledges, for the first time, that discrimination—on the basis of disability—is as shameful as all the other types of discrimination now illegal under the Constitution and existing civil rights laws.

Millions of disabled Americans are currently shut out of jobs they can easily perform.

And the lives of many others are limited to inaccessible public transportation or facilities. All are prevented from contributing to our country's future. Consequently all of us lose in the process.

By saying that if a disability doesn't stop someone, neither should discrimination, the ADA changes everything.

Under the act, employers must provide reasonable accommodation to disabled employees if it is not an undue hardship.

Plus it requires many public and private facilities to make readily achievable changes in order to be more accessible to disabled persons. The bill will serve as a guide for everyone—people with disabilities, private employers, and the Federal Government—as we all work to overcome years of ignorance and prejudice.

The Americans With Disabilities Act if fair and just. It has been amply reviewed both here and in the Senate.

The investment it represents will yield tremendous outcomes by allowing millions of American citizens to work, compete, and contribute to our country in ways they never have before. We all win with ADA.

I urge my colleagues to support H.R. 2273 and oppose any weakening amendments.

Mr. OWENS of New York. Mr. Chairman, I yield 30 seconds to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Chairman, in the Judiciary Committee an amendment I offered was adopted which encourages the use of alternatives means of dispute resolution where appropriate and to the extent already authorized by law to resolve disputes arising under the Americans with Disabilities Act. This would not create anything new, but would encourage consensual resolution of the kinds of problems that come up under this act.

I want to make it very clear that the use of alternative dispute resolution procedures, such as settlement negotiations, conciliation, facilitation, mediation, factfinding, minitrials, and arbitration, is completely voluntary. Just to clear up any confusion there might be, under no condition would an arbitration clause in a collective bargaining agreement or employment contract prevent an individual from pursuing their rights under the ADA.

This provision should serve as a reminder that rights and litigation are not one in the same. There are better ways to achieve the goals of the ADA than litigation and we should encourage cooperation in achieving those goals, not confrontation.

Mr. GOODLING. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Chairman, let me begin by giving a special salute to the gentleman from Maryland [Mr. HOYER] and our good friend and colleague, the gentleman from Texas [Mr. BARTLETT], and in particular to my Republican colleague, the gentleman from Texas [Mr. BARTLETT], let it be known in the 8 years he has been here, I really believe this is his finest hour. He has done yeoman's work on this to make sure we could have a bipartisan bill in front of us.

The 43 million disabled people in this country that can do everything we can do under this law will now be allowed to do just that. This legislation, historic civil rights legislation, will guarantee that we will no longer allow an American society at a time when every mind is the most precious resource we have to discriminate against anybody simply based on their disability. Whether it be in employment, whether it be in telecommunications, public accommodations, or public transportation, today we say that in America all people must be created equal.

In particular, I want to call attention to title IV. Because of my work with the hearing impaired and deaf community I am especially pleased that in title IV of this legislation we will within 1 year guarantee that all Americans who have any hearing or speech disability will be able to com-

municate with any other American. They will be able to order a pizza, they will be able to schedule an appointment, just like you and I do, through a national relay program.

In addition, they will have the same access that we have through the 911 system. Today, unfortunately, because of discrimination, the disabled person earns 36 percent less than a person of similar skills without that disability. For American society, the cost of excluding the disabled is $300 billion a year. Today we change all that.

Mr. Chairman, the Americans With Disabilities Act gives new hope to millions of disabled Americans for increased opportunities in all walks of life. Among other things, title IV of the ADA will finally offer deaf and hard of hearing people equal access to the telephone network—access which they have been denied for so long.

Few of us can picture a single day without using the telephone. We take it for granted; yet we could not imagine life without it. The telephone has become an integral part of our work conducting our personal affairs and enjoying all aspects of our social lives. But there are millions of deaf, hard of hearing, and speech impaired Americans who have not been able to join us in having equal access to our telephone system. In most of the country, these Americans are unable to call their doctor's office to set up an appointment. They cannot make a call to reserve a table at a restaurant. They are without the means to call a potential employer to set up a job interview.

By requiring nationwide relay services, title IV of the ADA will finally offer to deaf Americans the ease of calling a doctor's office, a pizza parlor, or a service store to which the rest of us are so accustomed. Relay services will enable any deaf person who uses a TDD to call any voice telephone user through a relay operator.

Title IV affords great flexibility to both common carriers and the States which set up relay systems. Carriers may provide these services individually, jointly, through designees, or through a competitive bidder. It is the intent of Congress that the common carrier remains ultimately responsible to ensure compliance with the requirements of this section after the specific relay provider has been selected. States that already have relay systems in place may continue to operate their own systems, so long as they receive certification from the FCC to do so.

Title IV requires the Federal Communications Commission to issue regulations implementing the relay section of the ADA within one year of the act's passage. The FCC's regulations must set forth standards to ensure that relay services provide telephone services for TDD users which are functionally equivalent to voice telephone services. The FCC should consult and obtain advice from individuals who will be relying on relay systems. Toward this end, it is our intent that the FCC should establish an advisory committee to include deaf, hard of hearing and speech impaired individuals, which would provide formal input to the Commission in the development of the regulations and the ongoing operations of the relay systems.

It is also our intent that deaf, hard hearing and speech impaired individuals have access to 911 emergency centers. While this may be done through relay systems, title II of the ADA also requires direct access to 911 services. Without such access, individuals with hearing and speech impairments remain at risk in the event of fire, medical, and other kinds of emergencies. Only with complete access to all voice telephone numbers, including those accessing 911 centers, can disabled Americans receive functionally equivalent telephone service.

By guaranteeing telephone access, title IV will vastly expand the opportunities available to deaf individuals in employment, education, and recreation. Title IV also will require all public service announcements [PSA's] which are funded or produced by the Federal Government to be closed captioned. The vital information contained in these PSA's must now be accessible on television to deaf Americans. By requiring both relay services and PSA closed captioning we will be taking a giant step toward achieving equality in the telecommunications network for hearing impaired and speech impaired individuals.

The CHAIRMAN. The Chair would inform the gentleman from New York [Mr. OWENS] and the gentleman from Pennsylvania [Mr. GOODLING] that they each have 1 minute remaining.

Mr. OWENS of New York. Mr. Chairman, I reserve my 1 minute for the purpose of closing debate.

□ 1340

Mr. GOODLING. Mr. Chairman, I yield back the balance of my time.

Mr. OWENS of New York. Mr. Chairman, I yield myself my remaining time.

Mr. Chairman, in closing, I would like to pay tribute to Tony Coelho, the former whip of the House, who initiated this process. I would like to again thank the gentleman from Maryland [Mr. HOYER], the gentleman from Texas [Mr. BARTLETT], and all of the members of the Education and Labor Committee who passed this bill 35 to 0 and initiated the process last fall.

I also would like to thank all of the members of the community of people with disabilities, who 43 million strong raised their voices across the Nation, and it was their push, their sense of empowerment that has brought us to where we are.

This is just a beginning. It is a historic piece of legislation. I assure Members it is just the beginning. The people with disabilities will guarantee that we will not falter in the implementation of this legislation. Empowerment for their civil rights has been their goal, and they have gone a great step forward on that goal.

I congratulate the people in the community with disabilities.

The CHAIRMAN. All time for debate controlled by the Committee on Education and Labor has expired.

The gentleman from Ohio [Mr. THOMAS A. LUKEN] will be recognized for 15 minutes, and the gentleman from Kansas [Mr. WHITTAKER] will be recognized for 15 minutes.

The Chair recognizes the gentleman from Ohio [Mr. THOMAS A. LUKEN].

Mr. THOMAS A. LUKEN. Mr. Chairman, first I yield such time as he may consume to the distinguished gentleman from Michigan [Mr. DINGELL], the chairman of the Energy and Commerce Committee.

Mr. DINGELL. Mr. Chairman, I rise in support of H.R. 2273, the Americans With Disabilities Act, in the form made in order under the rule. As my colleagues are aware, this legislation is the product of more than a year of effort by the bill's sponsors and supporters.

Many Members on both sides of the aisle played important roles in crafting this measure, and they deserve our commendation for the contributions they have made.

I would like specifically to pay tribute to our former colleague and former whip, my dear friend, Mr. Coelho, for the work he has done on this bill; my dear friend and colleague, the senior Republican member of our committee, the gentleman from New York [Mr. LENT]; the chairman of the Transportation and Hazardous Materials Subcommittee, the gentleman from Ohio [Mr. LUKEN]; and also the ranking minority member of that subcommittee, the gentleman from Kansas [Mr. WHITTAKER], for the outstanding contributions they have made.

Special congratulations are also in order for the chairman of the Telecommunications and Finance Subcommittee, the gentleman from Massachusetts [Mr. MARKEY] and the ranking Republican member of that subcommittee, the gentleman from New Jersey [Mr. RINALDO]. And of course, I went to recognize the extraordinary efforts of our good friend and colleague, the gentleman from Maryland [Mr. HOYER], without whose personal and diligent involvement this legislation would not have reached this point.

As my colleagues know, I had serious reservations about the original bill and the version of it passed by the other body. In particular, I was concerned about the effect the legislation would have on matters of special interest to the Committee on Energy and Commerce—namely, passenger railroad service and telecommunications.

Through an extensive process of discussion and negotiation with the disabilities community, we improved the bill subtantially. As a result, I was pleased to lend my name earlier this week as a cosponsor of H.R. 4807, which has been made in order under the rule as original text for H.R. 2273.

I also want to express my appreciation to the leadership, to the chairman of the Rules Committee [Mr. MOAK-

LEY], and to Mr. HOYER for the fair and proper manner in which the railroad jurisdiction issue has been handled in this process. The resolution of this issue—inclusion of the Energy and Commerce text in H.R. 4807—recognizes the Energy and Commerce Committee's jurisdiction and indicates the leadership's determination that our position on this matter was correct. For this we are most appreciative.

The Energy and Commerce Committee amendment to the ADA—as reflected in H.R. 4807 and this floor text—requires that within 5 years, Amtrak and all commuter authorities have at least one car per train that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

It also requires that, with certain specified exceptions, all new rail passenger cars purchased or leased for intercity and commuter rail transportation be fully accessible to all disabled individuals. Wheelchair accessibility is not required in all cases for certain types of new Amtrak rail cars, including single-level passenger coaches. However, Amtrak must take various steps specified in the bill to accommodate individuals who use wheelchairs by other means.

The legislation also requires that Amtrak stations and key commuter stations, within 20 years and 3 years respectively, be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. A waiver procedure is provided in the case of certain extraordinarily expensive structural changes, permitting an extension of up to 20 years to accomplish these changes at key commuter stations.

The bill also requires that any new Amtrak or commuter stations be constructed so as to be accessble to disabled individuals. It improves current law by clearly delineating the legal responsibility of Amtrak, commuter authorities, other public owners, and private owners for making stations accessible.

Title IV of the amendment concerns telecommunications for the disabled. The title requires telephone common carriers to make available relay services for speech- and hearing-impaired subscribers, and ensure that the goal of universal telephone service is extended to include disabled Americans.

The committee provision made several changes in the legislation that was adopted by the Senate. The result, I think it's fair to say, is a substantially improved provision. It is clearer than the Senate provision, and our friends in the telephone industry and in the disabled community both believe it is better and stronger.

The committee provision deletes the Senate's prohibition on end user charges. It is the committee's intention that the FCC have substantial flexibility to structure guidelines for the establishment of relay services, and for the recovery of costs associated with providing relay services.

The amendment adopted by the committee also ensures that all users of telephone service contribute to the cost of providing relay services. This includes private line users. This is an important change, which will ensure that the burden of paying will be equitably shared and will be a nominal amount.

In addition, the committee added a provison requiring any television public service announcement produced or funded in whole or in part by any Federal agency or instrumentality to include closed captioning for the hearing impaired.

Mr. Chairman, I am proud of the changes made in the committee. I would like to take this opportunity to thank my good friend and colleague, Mr. LENT, for working with me to fathom the provisions contained in the committee amendment. Mr. MARKEY, chairman of the subcommittee on Telecommunications and Finance, was equally helpful in crafting the substitute, as was Mr. RINALDO, the ranking minority member. I thank them all.

I would also like to thank representatives of the speech- and hearing-impaired community, and in particular Ms. Karen Strauss, I am very grateful for her dedication and willingness to work with the committee. Finally, I'd like to thank the representatives of the telephone industry, who were most cooperative.

Mr. Chairman, I know that there are some Members who are concerned about various provisions of the bill. I believe that most of those concerns have been appropriately dealt with in the committee process. Many months of effort have gone into negotiating a bill that is acceptable to both sides of the aisle, both Houses of Congress, the administration, and the disabilities community. For this reason, I urge my colleagues to reject unfriendly amendments.

This is a good bill and a necessary bill. I am pleased that we in the House were given a full opportunity to make it a workable and sound bill. As a result of the deliberations of the four committees of jurisdiction, the legislation now holds the promise of truly bringing disabled Americans into the mainstream of American life. This is a worthy objective, which the House should support.

Mr. WHITTAKER. Mr. Chairman, I yield one half minute to the gentleman from Virginia [Mr. BATEMAN].

Mr. BATEMAN. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I wonder if the gentleman from Maryland [Mr. HOYER] will take the floor for the purpose of a colloquy.

QUESTION CONCERNING THE AMERICANS WITH DISABILITIES ACT

Mr. Chairman, I have read with interest the report of the Committee on Education and Labor. I was most pleased to see that the committee specifically recognized the unique issues involved in applying the requirements of this legislation to historic buildings and facilities. The addition of section 504(c) will provide reasonable flexibility in making historic buildings accessible to persons with disabilities when alterations are made to those buildings. The committee was obviously concerned that such alterations should not threaten or destroy the historic significance of qualified historic buildings.

My question is how the provisions in section 504(c) will affect the requirements set out in section 302(b)(2)(a)(iv) of the legislation. Section 302(b)(2)(a)(iv) requires that architectural barriers should be removed from buildings when such removal is readily achievable. Readily achievable is defined as "easily accomplishable and able to be carried out without much difficulty or expense." It is my understanding that the same historic preservation concerns the committee had with respect to alterations of qualified historic buildings and facilities also apply to the removal of architectural barriers from historic buildings and facilities. Is that correct?

Mr. HOYER. Mr. Chairman, if the gentleman will yield, he is correct.

Mr. BATEMAN. I thank the gentleman from Maryland.

Mr. THOMAS A. LUKEN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the Americans With Disabilities Act is perhaps the most important civil rights bill for the disabled that has ever been considered by the Congress. The bill seeks to end discrimination against the 43 million Americans who suffer from some disability, in such critical areas as employment, transportation, public and private accommodations, and communications.

The premise of the bill is unassailable. The results of discrimination against disabled Americans—whether they suffer from mobility or sensory impairments, mental retardation, disease, or other physican and mental impairments—are insidious and potentially devastating. Discrimination, whether produced by overt actions or thoughtless attitudes, produces segregation, exclusion, impoverishment, and denial of equal and meaningful opportunities. By denying the benefits of equal treatment and participation to millions of disabled Americans, our country suffers.

The bill before us will help to ensure equal rights and opportunities for disabled Americans. This bill will allow

greater productivity and responsibility for disabled individuals. This bill will help to remove the barriers which have impeded disabled persons from being more productive members of American society. In short, this bill will help our country use an immense amount of talent, intelligence, and other human resources which heretofore have been underestimated, underdeveloped, and underutilized.

Our subcommittee's jurisdiction of this bill focused on transportation provisions primarily relating to Amtrak and commuter railroads. All of us recognize the crucial role transportation plays in our lives. It is the veritable lifeline which enables all persons to enjoy the full economic and social benefits which our country offers. To be denied effective transportation is to be denied the full benefits of employment, public and private services, and other basic opportunities.

The amendment which our committee adopted requires Amtrak and commuter railroads to be accessible to disabled persons. Under this bill, all of Amtrak's 500 stations will be fully accessible within the next 20 years. Within the next 3 years, key commuter rail stations will be made accessible. Under the bill, Amtrak and commuter railroads will be required to purchase accessible new passenger cars, to make good faith efforts to lease or purchase accessible used cars, and to ensure accessibility on rail passenger cars which are remanufactured. Under the bill, equivalent dining services will be provided to disabled riders on Amtrak. In short, the bill offers a realistic and defined set of rules for assuring disabled persons access to rail transportation services.

Testimony at our subcommittee's hearing last fall indicated that Amtrak and many commuter railroads already do a fairly good job of serving disabled persons. This is not to say that there are not some problems. But the discussions and negotiations on this bill, at a minimum, have raised the level of awareness for the legitimate concerns that exist on all sides of the fence, and have improved communication between the parties. I believe that opening up and continuing that dialog may be as important as the changes made in this bill.

I wish to commend my friend and colleague, Mr. DINGELL, the distinguished chairman of the full committee; Mr. LENT, the ranking minority member of the full committee; and Mr. WHITTAKER, the ranking minority member of our subcommittee; for their leadership and untiring efforts on these important issues. We spent a good deal of time over the past few months negotiating with representatives of the disabled community, Amtrak, commuter railroads, and other affected parties. The bill before us represents the combined and cooperative efforts of all affected interests.

I strongly urge my colleagues to support the bill and I reserve the balance of my time.

□ 1350

Mr. WHITTAKER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this important legislation we are considering today is a key element in President Bush's efforts to assure that disabled Americans are brought into the mainstream of American economic and social life. Two parts of the Americans With Disabilities Act are within the specialized jurisdiction of the Energy and Commerce Committee: telecommunications and railroad transportation. These elements of the ADA are absolutely vital to assuring that disabled Americans have the means to utilize the sinews of communication and transport that bind our society together.

With respect to the rail transportation title, I want to especially commend our committee chairman, Mr. DINGELL, for his efforts to fashion a more readily understandable version of this bill, one that gives more usable guidance to the individuals and organizations governed by the requirements of the ADA. The chairman of the Subcommittee on Transportation and Hazardous Materials, Mr. LUKEN, should also be commended for the hard work he did in developing this title.

The revised Amtrak provisions are a classic example of mutual gain through compromise. Under the bill, disabled passengers will be assured of a firm timetable for Amtrak to reach specified targets of accessible seating capacity. At the same time, Amtrak will be given greater flexibility in how it achieves these targets, by being able to cluster some accessible seating and thus reduce the cost of acquiring or modifying rail cars to meet the target level of seating capacity. In a similar fashion, we have been able to give more specific, and more flexible, guidance to commuter rail operations than was offerd by the original version of the bill as referred to our committee.

Negotiating revisions to the telecommunications title of the ADA was even more smooth and harmonious than revising the transportation provisions.

For that, thanks go again to the chairman of the full committee [Mr. DINGELL], as well as the chairman and ranking Republican member of the Telecommunications Subcommittee, Mr. MARKEY and Mr. RINALDO. Their work in the subcommittee resolved most of the contentious issues, and made it possible for Chairman DINGELL and the ranking member of the full committee, Mr. LENT, to resolve the few telephone issues. We did so with the full cooperation of the deaf community and the telephone industry. I thank them for their hard work.

Our joint efforts are contained in the bill before the House today. They provide the framework for a nationwide relay network for the deaf and hearing-impaired which is essential for their full participation in society.

The FCC is directed to fill in the details and implement that relay service as quickly as possible.

With the improvements we made on the other body's work, the telecommunications title of the Disabilities Act will achieve the goal shared by every Member of the House: to make telephone services equally available to all, including our deaf and hearing-impaired citizens.

While I believe that we have made important strides toward a more workable and understandable bill in the areas of rail transportation and communications, I do not want to leave my colleagues with the impression that I am approaching the consideration of this bill on the premise that it is already perfectly drafted.

On the contrary, precisely because of the immense complexity of this legislation—and the need to merge into a single bill the product of four different committees' deliberations—I have urged that considerable latitude be given Members who feel obligated to offer clarifying and improving amendments on the floor. None of us can claim to know it all, and there are bound to be areas where the unassailable intent of this bill—to bring disabled Americans into the mainstream of American life as full and equal participants—can be carried out in a more efficient or more clearly defined way. For that reason, I look forward to hearing the proposals of my colleagues for possible improvements to the Americans With Disabilities Act.

Mr. Chairman, I reserve the balance of my time.

Mr. THOMAS A. LUKEN. Mr. Chairman, I yield 2½ minutes to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Chairman, enactment of the Americans With Disabilities Act is long overdue. For far too long, some 43 million Americans with physical or mental disabilities have been denied the protections of the civil rights that the rest of us take for granted.

Discrimination against the handicapped, be it unintentional or deliberate, has the same impact. It is cruel and serves to segregate, exclude, and deny the opportunity to fully participate in programs and activities. We should also remember that it is not just the handicapped who suffer because of such discrimination, but all of us, for those denied employment or access to marketplace are a waste of

human resources—a waste of those who have something to contribute.

A number of those who have spoken in opposition to this legislation have expressed the concern that enactment of the ADA is going to create an unreasonable burden on small business, drive up the cost of operation, and ultimately threaten the very survivability of some businesses. My own State of Washington has proven the fallacy of this fear. For over 10 years Washington State has had similar statutes on the books, yet I have found no evidence of even one business being forced out of operation by having to accommodate or hire the handicapped.

Discrimination in employment was outlawed in Washington State in 1973. In 1976, legislation was enacted requiring that all new building construction or major remodeling projects make structures accessible or barrier-free for the handicapped. Then in 1979, Washington State law was amended to prohibit discrimination against the handicapped in housing and public accommodation.

While the Washington State statutes have not ended discrimination in the State, they have provided an opportunity to seek redress to those handicapped persons denied their rights. It is time for the House to follow the lead of Washington State and of our colleagues in the Senate in passing this important legislation to protect the disabled all across America.

□ 1400

Mr. THOMAS A. LUKEN. Mr. Chairman, for the purpose of colloquy, I yield to the gentleman from Maryland [Mr. HOYER], chairman of the subcommittee.

Mr. HOYER. Mr. Chairman, I am concerned about a provision contained in the report filed by the Committee on Energy and Commerce which states: "It is not the function of this legislation to facilitiate access to audiotext services." Is it the gentleman's understanding that this bill precludes such access?

Mr. THOMAS A. LUKEN. The gentleman raises a good question. While the legislation does not require access to audiotext services at this time, if future technology can make these services available utilizing a relay service, it is our intent to ensure such access.

Mr. HOYER. Mr. Chairman, if the gentleman will continue to yield, does the gentleman anticipate that the FCC's regulation will require common carriers to facilitate access to the telephone numbers for relay services?

Mr. THOMAS A. LUKEN. The gentleman is correct.

Mr. HOYER. Mr. Chairman, if the gentleman will continue to yield, the bill calls for relay services to be functionally equivalent to ordinary voice telephone services. How, exactly, is functionally equivalent service to be achieved?

Mr. THOMAS A. LUKEN. Title IV requires the FCC to establish certain minimum standards and criteria, which will define functional equivalence for all relay providers.

Mr. HOYER. If the gentleman will continue to yield, where can the FCC turn for guidance in developing these standards?

Mr. THOMAS A. LUKEN. The FCC already issued serveral notices during the development of several interstate relay systems. Consumers and individuals have urged the FCC to create a Federal advisory committee to assist the Commission in setting up such a system. It is our intent that the FCC turn to such a committee, which could be made up of relay consumers, telephone companies, and other interested parties, to develop standards for functionally equivalents for both an intrastate and interstate relay system.

Mr. HOYER. If the gentleman will continue to yield, the success or failure of relay services will depend to a great extent on the competence of the operators who will act as translators for those using the system. Does the gentleman anticipate that the FCC's regulations will require that the operators employed by the common carriers be trained to respond effectively to the special communication needs of hearing and speech-impaired users?

Mr. THOMAS A. LUKEN. The gentleman is correct. The committee expects the regulation will require the appropriate training for relay operators, including typing, grammar, spelling, and other training necessary to ensure that operators contribute to the success of the service.

Mr. HOYER. Chairman, I thank the gentleman for yielding, and clarifying these questions.

Mr. THOMAS A. LUKEN. Mr. Chairman, I yield 3 minutes to the gentleman from Massachusetts [Mr. MARKEY].

Mr. MARKEY. Mr. Chairman, I congratulate the gentleman from Ohio [Mr. THOMAS A. LUKEN] for his leadership on this issue. I would like, at this time, to publicly compliment the work of the gentleman from Maryland [Mr. HOYER], who has personally shepherded this piece of legislation through the Congress. I very rarely have seen a commitment and dedication to a piece of legislation that I have witnessed in terms of the commitment which the gentleman has made to this bill. The contribution here is going to be enormous, and historic.

I would also like to compliment the chairman of the full committee, the gentleman from Michigan [Mr. DINGELL], the gentleman from New York [Mr. LENT], the gentleman from New Jersey [Mr. RINALDO], and all the members of the Subcommittee on Telecommunications and Finance in terms of the telecommunications piece which we are inserting here.

What I thought I would do for a minute or so is just to explain why this is so important. Right now, we have millions of Americans with a very serious problem, which is that it is difficult for them to use the phone system of our country since they are hearing-impaired, since they are deaf. It is difficult for them to be able to talk to other people in the country, not only for social services, for family interaction, but to conduct business. How do these people who have intelligence which is the same as any other person, participate in our economic system, using the primary means of communications in our society? Well, right now for the most part they are walled out. What this legislation will do is it will require that telephone companies create a new core of operators and technologies: telephone telecommunication devices for the deaf. These devices will allow for a person who has a hearing problem to type their conversation to an operator who will then take the conversation and read it to the person, that the person who is hearing impaired is seeking to communicate with. In turn, that person will be able to talk back to the operator, and the operator will then type the answer to the person who is hearing impaired. In that way, a conversation can, in fact, be engaged in that will result in that person who is hearing-impaired or deaf to be able to engage in an economic activity, in our society, which will help our country's economy. It will be able to help families communicate better and to give people a better sense of participation in a modern America, in a modern economy, in a modern society.

This particular provision is one which breaks down a barrier which has taken one of the most central technologies in our society that is in 98 percent of all homes, every business in the country, and it enfranchises those who have been walled out. At Galludet University, Karen Strauss has helped tremendously in putting this legislation together. I compliment the gentleman from Maryland [Mr. HOYER] and all those who participated in making this possible.

Mr. WHITTAKER. Mr. Chairman, I yield 2 minutes to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Chairman, I am proud to rise in strong support of the Americans With Disabilities Act. This is a historic occasion. There are 43 million disabled individuals throughout this Nation who want to contribute to their country. They want to be fully participating members of our society. They want the opportunity to work, and they want to enjoy the same rights and

privileges that other citizens now enjoy. They want to have full access to the life, liberty, and pursuit of happiness envisioned for all Americans by our Founding Fathers.

This bill will help the disabled help themselves. It will protect them from discrimination in employment, public accommodations, transportation and communications. It will provide them with an equal opportunity to succeed in American life.

For too long, the disabled have been a forgotten segment of our society. For too long, they have not shared the opportunities that other Americans enjoy. As our Nation has responded to the needs of others who have been denied equal opportunity because of prejudice and ignorance, so must our Nation respond to disabled Americans. This legislation will help make them a part of mainstream American life.

I urge all of my colleagues to join with President Bush and the bipartisan sponsors of this bill in strongly supporting this compelling landmark legislation.

Mr. MFUME. The Chairman would advise the gentleman from Ohio [Mr. THOMAS A. LUKEN] that he has no time remaining.

Mr. WHITTAKER. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, I wanted to rise, and I did not do this on the Committee on Education and Labor section of the general debate, but I wish I had. I will certainly, at some point in time, reiterate my thoughts that I will express here.

It has been mentioned that this is a complicated piece of legislation with many, many areas of our society affected, and many, many committees' jurisdiction affected. I would be remiss if I did not rise and thank the chairman and ranking member of the committee, as well. However, I would be very remiss if I did not mention the extraordinarily able and committed efforts of the staff of the Committee on Energy and Commerce on both sides of the aisle. Mr. Alan Roth, Mr. Glenn Scammel, Mr. David Tittsworth, Mr. David Leach, Mr. Jerry Salemme, Mr. Rob Mooney. All of them and many more I know in their staff who I have not named spent countless hours to try to make sure that what they wanted to do was, in fact, to incorporate into the legislation, and they demonstrated a great depth of knowledge of their subject matter and a dedication for assisting the legislative process so that the legislation was in a form that was proper and that articulated effectively the intent of Congress.

I want to thank them, and I want to thank their Members for allowing them to spend so much time with me and with others in working on this legislation.

□ 1410

Mr. WHITTAKER. Mr. Chairman, I yield back the balance of our time.

The CHAIRMAN. The Chair will announce that all time for general debate controlled by the Committee on Energy and Commerce has expired.

Pursuant to the rule, the Chair will recognize the distinguished gentleman from California [Mr. ANDERSON], Chairman of the Committee on Public Works and Transportation, for 15 minutes and the Chair will also recognize the gentleman from Pennsylvania [Mr. SHUSTER], the ranking member of the Subcommittee on Surface Transportation, for 15 minutes.

The Chair recognizes the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, by considering the Americans With Disabilities Act today this body is making a long-delayed acknowledgement of the civil right of disabled Americans to the full and equal enjoyment of transportation services. For too long, many in this country have taken a view of individuals with disabilities particularly distasteful to me—that their disabilities render them unable to fully participate in our society. Yet, often all it takes is an understanding of the need for—and then providing—some transportation accommodation to bring the disabled fully into the mainstream of society.

Far too often, it is society, and not the individual's impairment, which handicaps our disabled citizens. This legislation will help cure what ails this society, and in so doing; by allowing our disabled to live up to their full potential, it will make this Nation better and stronger for each of us.

The principal provisions of this bill which I can proudly say lie within the jurisdiction of the Committee on Public Works and Transportation are embodied by titles II and III, dealing with publicly and privately provided transportation services. With regard to publicly provided transportation services, the bill requires the purchase of accessible transit vehicles for use on fixed route systems. The bill also requires the provision of paratransit services for those individuals whose disabilities preclude their use of the fixed route system.

We have already made much progress in the provision of public transit services—35 percent of America's transit buses are currently accessible. As more and more transit authorities make the commitment to provide fully accessible bus service, the percentage of new bus purchases which are accessible has grown to more than 50 percent annually. By the mid-1990's many of our cities will have completely accessible fixed route systems. Furthermore, many of the transit systems in America already provide some type of paratransit services to the disabled. So, the passage of the ADA will not—as some have charged—break sharply with existing transit policy. It will simply extend our past successes to even more cities, so that we can continue to make progress in providing much needed transit services for the disabled.

With regard to privately provided transportation services, which do not receive the high levels of Federal subsidies that publicly provided services enjoy, the requirements of the bill vary according to the size and type of vehicle, as well as according to the type of system on which the vehicle will operate.

Many Members are also aware that over-the-road buses have received special attention in the committee bill. Because of the unique nature of their construction and the uncertain financial stability of the intercity bus industry, over-the-road buses will be subject to a special 3-year study to determine a method for making them accessible.

Nonetheless, in all cases, this bill provides strong guarantees that individuals with disabilities will be treated with respect and dignity while using transportation services. These provisions must remain strong since a lack of adequate transportation is often cited as one of the greatest barriers to the full and equal enjoyment of life by individuals with disabilities.

I want to commend the distinguished chair of the Subcommittee on Surface Transportation, Mr. MINETA, for his tireless efforts in getting this bill before us today. Mr. HOYER deserves our thanks for his tremendous efforts in support of this bill.

In closing, Mr. Chairman, I urge all of my colleagues to view the Americans With Disabilities Act as I do—as a civil rights bill. If our history is rich with examples of diversity triumphing over discrimination, it is not so rich that we can afford to fail in our efforts today, with that in mind, I urge all of you to join me in extending an invitation to all Americans, including those with disabilities, to participate fully in the mainstream of society. I urge passage of this landmark legislation.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The Chair recognizes the distinguished gentleman from Pennsylvania [Mr. SHUSTER].

Mr. SHUSTER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I bring a very personal and in fact passionate interest to this subject because my dear mother was a double amputee in a wheelchair, and I skinned my knuckles more times than I can count trying to jiggle her wheelchair through a door that should

have been wider than it was or trying to lug a wheelchair up a set of stairs where there should have been a ramp but there was not. So I believe very deeply that we must do everything in our power to give reasonable access to the disabled in this country of ours.

Having said that, I must reluctantly state that I have serious problems with certain provisions of this legislation. First and foremost, there is not one penny in this bill to implement the tremendous costs of the various mandates and provisions which we are laying on the American people, on public transit systems, for example, across America. And indeed during the 1980's the Federal commitment to public transit in real dollars has been reduced by 50 percent. So here we are today talking about mandates on the American people which are going to add up to several billions of dollars. In fact, the American Public Transit Association says that over the next two decades the increased cost of just the transportation provisions in this legislation on public transit will be at least $7.8 billion on rail and fixed route buses and $13 billion on paratransit. So we are looking at a $20 billion price tag that we are laying on the American people and not providing one penny to pay for it. I say that is wrong.

Indeed we are setting ourselves up to put into place what might be called the law of unintended consequences. We mean to do right, we mean to do good, and yet we find ourselves addressing this issue without a willingness to pay for any of these new requirements that we are putting on the American people.

Let me discuss just one such mandate, and that is the lift mandate. We are saying that we must put on every public transit bus in America a lift. Now, the cost of that lift will increase the cost of that bus by $10,000 to $15,000, a 10- to 15-percent increase in the cost of the bus. We are telling that to our transit operators, to our communities across America, and we are not giving them a penny. We are telling them they must do it.

Yet what has been our experience with the lift thus far? In Seattle, WA, where about 80 percent of the buses have been lift-equipped for the last couple of years, they find that they only have one user of that lift every other day per bus. In New York City, which is about 50 percent lift-equipped, they have discovered that they only have one user each day for every 19 buses.

So here we are in Washington, DC, laying a mandate on public transit operators and on communities across these United States when indeed in my view we should be giving them some flexibility. We should be saying, "Yes, we want you to provide accessibility for the disabled, but we want you to do it in the manner that you feel is best in consultation with the disabled in your local communities."

Beyond that, let us consider the implications of paratransit, paratransit being the small buses, the door-to-door service that we provide to thousands of disabled across America. By saying we are going to mandate that every transit bus have a lift and by not providing one penny to do it and then saying, "We also expect you to provide paratransit, door-to-door transportation," but putting a loophole in there saying that they do not have to do this if they have an undue financial burden, what are we logically doing? We are saying, "If you have got to cut somewhere, you can't cut on the lift requirement, so you are going to have to cut on paratransit or you are going to have to cut on your general service to your community."

□ 1420

Mr. Chairman, that is what we are setting up here to force communities to do, and it is wrong, and it is unnecessary.

Mr. Chairman, we should be very clear on this point, that 100 percent lift accessibility is zero accessibility for hundreds of thousands of disabled Americans who cannot get to the bus stop, hundreds of thousands of disabled Americans who must have door-to-door service.

So, if we are saying we are going to have 100 percent lift accessibility by creating a situation where we are going to force a reduction in service to paratransit and to general service, we are setting up a situation of the law of unintended consequence, a situation where we are going to hurt many citizens, both able and disabled, and most particualrly in rural America and small cities because here the cost of the lift is the same, but of course the ridership is much lower.

So, my colleagues and Mr. Chairman, it seems to me we have an opportunity here to pass a good piece of legislation, if indeed we can deal with some of these serious problems. We will have an opportunity over the next several days to correct some of these problems, and I would urge all of us to seriously consider the amendments which are going to be offered because we want to do good, but we want to do good in a way that we are not injuring other people in an unintended fashion.

So, Mr. Chairman, I urge all my colleagues to seriously consider the amendments which we are bringing before us, so that we can clean up this bill, so that indeed we can provide better transportation accessibility, not only for the disabled across America, but for all Americans.

Mr. ANDERSON. Mr. Chairman, I yield 5 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, I would say, "Of course we will give careful consideration to amendments that will be offered," however one of the things I want to point out, and I know the chairman will speak to this, and I am sure the subcommittee chairman will speak to it as well, is in 1973 we adopted a bill which spoke to the rights of the disabled, the Rehabilitation Act of 1973, and the purpose of that bill was to make sure that the disabled were, in fact, accommodated in our society.

Indeed, Mr. Chairman, the mother of the gentleman from Pennsylvania [Mr. SHUSTER] would be accommodated, and those doors would be wider, and ramps would be available.

The sensitivity of the gentleman from Pennsylvania [Mr. SHUSTER] is clear, and his understanding is obviously deep-seated and from experience.

The 1973 legislation said what we are going to do for transportation. The regulations that are now pending also require that, that this administration has issued, and, if they go into effect, what H.R. 2273 requires will already be required so that they will be complementary, not additive, so that the additional cost to which the gentleman refers in attempting to make accessible transportation to the disabled, who will not be able to get to work, who will not be able to participate in public accommodations, if in fact they cannot get there from here, will not be, I think, what the gentleman projects them to be.

Let me say that we will obviously debate that at the time the amendment of the gentleman from Pennsylvania [Mr. SHUSTER] is proposed when we get to the amendment process.

Let me now, Mr. Chairman, if I can, thank the chairman of the committee and particularly say how pleased I was to have the opportunity of working closely with this gentleman from California [Mr. ANDERSON]. He and his staff have been outstanding. And then the gentleman from California [Mr. MINETA], who has not only been the chairman of the subcommittee that has worked so hard on this bill, but who has also been the person that has worked so closely with me in coordinating the activities of all these committees in attempting to bring this bill to the floor today. He has performed heroic service, and it was not only his deep understanding the legislation and the needs and challenges of the disabled, but his commitment to its passage. This gentleman from California has been instrumental in fashioning this legislation, and I congratulate him for his significant leadership on this bill. In addition, Mr. Chairman, during the last committee's consideration I mentioned the staff. Too often the Members stand and speak on the issues and explain the various provi-

sions of the bills, but all of us know that the staff provide the absolutely essential expertise and commitment to get us to this point. The staff of the Committee on Public Works and Transportation on both sides of the aisle has been excellent, and I would like to thank them for their help. In particular I would like to thank Paul Schlesinger, Roger Slagle, Sante Esposito, Phyllis Guss, and Ken House, all of whom have participated so much on a day-to-day, week-to-week, and for months, in fact, in fashioning this legislation so that it is fair, effective, and accomplishes the purposes which we have set out to do, and that is to make sure that the disabled have transportation that is accessible to and usable by them so again they can fully participate in the opportunities available in this great country.

Mr. SHUSTER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, one particular point that I would like to cover is the issue of calling this a civil rights bill.

Abraham Lincoln used to like to tell the story of how he was walking down the street with a friend of his, and they saw a dog, and the dog had a long tail, and Abraham Lincoln turned to his friend and said, "See that dog? Now, if I told you that that dog's tail was a leg, how many legs would that dog have?"

Mr. Chairman, Abraham Lincoln's friend looked at him and said, "Five."

Abraham Lincoln said, "No, I'm afraid you're wrong, my friend. Just by calling a tail a leg doesn't make it a leg."

Likewise, Mr. Chairman, by calling this a civil rights bill, that does not make it a civil rights bill except that I suppose we can do anything we want to do in this Congress in terms of passing laws, using whatever words we choose to use. However, if my colleagues look at the logic of this bill, there are numerous exceptions in it.

Civil rights cover all Americans, and yet in this bill we have exempted the elderly. The elderly are not eligible for paratransit. We have exempted the poor. The poor are not eligible for paratransit. We have provided historic exemption in New York and San Francisco. They are exempted, and indeed we have exempted several stations. In fact, in New York City only 38 of the 465 subway stations are required to have accessibility. So, in New York City the people who get on and off subways at 427 different stations do not have accessibility. So, if this is a civil rights bill, they are being denied their civil rights.

So, Mr. Chairman, my colleagues may call it a civil rights bill, if they will, but logically it really is not, and it is one more example, I think, of our trying to do the right thing, trying to pass feel-good legislation when we really are not providing the wherewithal to make it happen, to make it come true. That is one more reason why I think we should want to support this legislation, but cautiously and carefully with the necessary amendments to make it workable.

Mr. Chairman, I reserve the balance of my time.

Mr. ANDERSON. Mr. Chairman, how much debate time is remaining?

The CHAIRMAN. The Chair would advise the gentleman from Pennsylvania [Mr. SHUSTER] that he has 6 minutes remaining, and the gentleman from California [Mr. ANDERSON] has 5 minutes remaining.

□ 1430

Mr. SHUSTER. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. DELAY].

Mr. ANDERSON. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. MINETA], the distinguished chairman of the Subcommittee on Surface Transportation of the Committee on Public Works and Transportation.

Mr. SHUSTER. Mr. Chairman, I believe the gentleman from California wants to close; he has the right to close. I do have a further statement to make.

How much time do we have left on this side?

The CHAIRMAN. The gentleman from Pennsylvania [Mr. SHUSTER] has 3 minutes remaining.

Mr. SHUSTER. So to accommodate the gentleman, Mr. Chairman, I will be pleased to speak first.

Mr. ANDERSON. Mr. Chairman, I thank the gentleman from Pennsylvania.

Mr. SHUSTER. Mr. Chairman, first I ask unanimous consent that a colloquy between myself and the gentleman from Texas [Mr. BARTLETT] be entered into the RECORD which describes the limits of the amendment which is going to be offered in the next few days concerning the 200,000 or less waiver.

The CHAIRMAN. The Chair will advise the gentleman from Pennsylvania that he cannot insert a colloquy.

Mr. SHUSTER. Then I would say, Mr. Chairman, the gentleman from Texas [Mr. BARTLETT] has expressed concern over the question would the amendment which I am going to offer allow a community with a population of less than 200,000 if located within an urbanized area to apply for a waiver.

The answer to that is no. Any community that is within an urbanized area that operates a fixed route system would not be eligible for waiver, and I think it is important to clarify that.

The final point I would make in closing, Mr. Chairman, is that there are many good provisions in this legislation. I certainly heartedly endorse the provisions which we worked out in committee, a compromise on the private bus industry which requires the private bus industry, over-the-road buses, to be accessible, but does not require any structural changes in the bus and leaves it up to the Department of Transportation, after a study of the issues is completed, to deal with this issue.

So in closing, Mr. Chairman, there are many good provisions in this legislation. It is my hope that through the amendment process we will be able to include this bill and improve it to the point that all of us can support it.

Mr. ANDERSON. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. MINETA].

Mr. MINETA. Mr. Chairman, it is with a great deal of pride that I have this opportunity to stand before my colleagues to speak on this bill, the Americans With Disabilities Act.

I would first like to thank Chairman GLENN M. ANDERSON of my own committee, the Committee on Public Works and Transportation, for allowing this gentleman from California the time, support and the encouragement that he has given on this subject.

I would also like to thank especially two people, Phyllis Guss and Roger Slagle from our subcommittee staff, and Suzanne Sullivan, from my personal staff for the enormous amount of effort and time they have put into this bill.

Mr. Chairman, I rise in very strong support of the Americans With Disabilities Act. I want to commend the fine gentleman from Maryland [Mr. HOYER] for his untiring efforts in bringing this legislation together from all the committees in the House and bringing it to the floor at this point. I want to also extend this gratitude to the work of his staff person, Melissa Schulman.

Ending discrimination against disabled citizens, citizens often stripped of their independence by neglect and insensitivity by the majority communities, must now be chief among our priorities.

Discrimination toward any group hurts every group. For making this a public policy issue whose time has come, I want to point out that if it were not for our close friend and former colleague from California, Mr. Coelho, we would not be at this place.

So Mr. Chairman, today the House of Representatives has the opportunity to open a door which has been shut tight for too many years. This door, to which we have the key, will lead to an accessible society for the more than 43 million Americans with disabilities. Opening this door is a goal that we can, should, and must achieve.

We must insure that the Americans With Disabilities Act passes, and does so without any weakening amendments.

Mr. Chairman, disabled Americans are ready, willing and able, to use their talents, skills and energy in communities across the country; but today many wait for full access to our transportation systems. These Americans should have to wait no longer.

Tremendous technological strides have been made in recent years which make it increasingly easy for persons with disabilities to function in the workplace. Expertise in the construction of accessible housing and transportation systems is increasingly widespread. The Americans With Disabilities Act will help knock down the remaining barriers that disabled Americans confront in their efforts to be self-reliant and productive members of our society.

The act will also provide basic civil rights protections to our disabled friends, neighbors, and colleagues. For make no mistake about it, this Americans With Disabilities Act is first and foremost a matter of civil rights.

In truth, the provisions of this bill are modest and have been drafted to accommodate the concerns that have been raised by the business community; however, when all is said and done, the ADA legislation remains true to this one principle, and that is, our Nation has responded to the needs of other segments of our population which have been denied equal opportunity, and we must now address the needs of disabled Americans who are currently denied the opportunity to be full participants in our communities.

We must oppose any attempts to dilute the requirements for a wheelchair lift on every public transit bus. We must turn back any efforts to reduce the accessibility requirements for commuter rail systems.

□ 1440

Sure, there are costs associated with this bill, but these costs are manageable. But the cost of not allowing disabled Americans to be full participants in our society will be much greater.

"Separate but equal" is not civil rights. So we must turn back those amendments that may provide that kind of "separate but equal" treatment.

Today, as I said, we are witnessing the beginning of a great new world. Many people no longer fear the cold war, but they do fear being left out in the cold by societies which place a higher value on expedience than they do on excellence. We must not become one of those societies.

The ability to lead an independent life is a basic human right. When we acknowledge and honor that right, we are true to ourselves as Americans, and we all benefit.

The nations around the world which are only now tasting freedom have many imperatives ahead on the way to a new order. But here in the United States, our imperative must be to honor through our actions our foresight, our sensitivity, and our dedication to the spirit of our Constitution.

The Americans With Disabilities Act is one vehicle on the road to this new world of ours, and with the help of the Members of this body, it will be a world of which we can all be very proud.

The CHAIRMAN. The time of the gentleman from California [Mr. ANDERSON] has expired.

The Chair will announce that all time for general debate controlled by the Committee on Public Works and Transportation has expired. Pursuant to the rule, the Chair will announce that the gentleman from Texas [Mr. BROOKS], chairman of the Committee on the Judiciary, will be recognized for 15 minutes, and that the gentleman from Wisconsin [Mr. SENSENBRENNER], the ranking minority member of the Subcommittee on Civil and Constitutional Rights, will be recognized for 15 minutes.

The Chair recognizes the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I yield 7 minutes to the gentleman from California [Mr. EDWARDS], the distinguished chairman of the Subcommittee on Civil and Constitutional Rights of the Committee on the Judiciary that handled this legislation.

Mr. EDWARDS of California. Mr. Chairman, I thank the gentleman from Texas [Mr. BROOKS] for yielding time to the Subcommittee on Civil and Constitutional Rights, and I thank the gentleman for being so helpful and creative in the consideration of this bill. He has bent over backwards to do everything exactly right, as is his usual habit.

Mr. Chairman, the Americans With Disabilities Act [ADA] represents a major effort to provide comprehensive antidiscrimination protections for persons with disabilities. Comparable in scope to the great Civil Rights Act of 1964, the ADA prohibits discrimination on the basis of disability in employment, public services, public accommodations, transportation, and telecommunications. Finally, persons with disabilities, some 43 million Americans, will have protections parallel to those provided to persons based on race, color, religion, sex, and national origin.

Congress first provided some antidiscrimination protection for persons with disabilities in the Rehabilitation Act of 1973, and the ADA is wisely modeled after that law, learning from the lessons of the past 17 years.

The Judiciary Committee, which approved the bill 32 to 3, dealt with the employment, public services and public accommodation portions of the bill.

Briefly, let me explain how these provisions work.

EMPLOYMENT

The ADA prohibits discrimination against a qualified individual with a disability in all parts of the employment process. A qualified individual with a disability is one who can perform the essential functions of a job, with or without reasonable accommodation.

Like other civil rights laws, the ADA does not require employers to hire unqualified persons, nor does it require employers to give preference to persons with disabilities. The ADA simply states that a person's disability should not be an adverse factor in the employment process.

An employer is required to provide a reasonable accommodation to allow an employee to do the job, unless it will result in an undue hardship to the employer, that is, an action requiring significant difficulty or expense. These are the same standards used and understood since 1973 under the Rehabilitation Act.

The employment protections use the same enforcement procedures and provide the same remedies as title VII of the Civil Rights Act of 1964, which prohibits employment discrimination based on race, color, religion, sex, and national origin. Under the ADA, persons with disabilities will have the same rights and remedies as minorities and women, no more and no less.

Persons with disabilities can and will be able to do the job. Let's give them a real chance with the ADA.

PUBLIC SERVICES

The ADA extends the protections of section 504 of the Rehabilitation Act, prohibiting discrimination in federally funded programs, to all programs, activities and services of State or local governments, regardless of the receipt of Federal financial assistance.

Section 504 served as the first step toward breaking down the barriers that, for too long, kept persons with disabilities out of the American mainstream. By extending section 504 to all public entities, we benefit from the successful history and lessons of the Rehabilitation Act. By enacting title II, we cover those remaining government entities who were not covered in the past.

PUBLIC ACCOMMODATIONS

The ADA prohibits discrimination by privately operated public accommodations. Public accommodations are businesses open to the public, places persons without disabilities take for granted.

Public accommodations include hotels, restaurants, theaters, stores, service providers, and privately operated public transportation. Under the ADA, a public accommodation cannot

deny participation or provide an unequal or separate benefit to a person with a disability. The service must be provided in the most integrated setting, and a person cannot be denied the opportunity to participate in a regular program.

Existing businesses must remove architectural barriers if it is readily achievable, that is, without much difficulty or expense. If it is difficult or expensive, it does not have to be done. Alterations and newly built commercial facilities must be readily accessible to and usable by persons with disabilities.

The public accommodations title uses the same enforcement and remedies scheme available to private persons under the public accommodations section of the 1964 Civil Rights Act. Remedies in a private suit are limited to equitable relief.

As with many other civil rights laws, the Attorney General may bring "pattern or practice" cases. As in the Fair Housing Act, the Attorney General may seek monetary damages for the victim and civil penalties of up to $100,000 against the violator.

Mr. Chairman, there are few of us who have not been personally touched by family or friends with a disability. We all know how persons with disabilities are rarely judged by their abilities, but instead on their disabilities.

We now have an extraordinary opportunity to bring Americans with disabilities into the mainstream of American life.

For Americans with disabilities this bill represents their best chance to join in the American dream. We should pass this bill today. Forty-three million Americans, their families and friends, deserve no less.

Mr. Chairman, I particularly want to thank the many people in the disabled community, the different organizations, Pat Wright and all of the others, for the noble assistance they have given us in the past many months, and our former colleague, Tony Coelho, that we miss so much and who was the inspriration behind this bill in the first place. The gentleman from Maryland [Mr. HOYER] picked up the cudgel left by Mr. Coelho and has carried on magnificently.

Mr. Chairman, I want to thank the gentleman from Texas [Mr. BROOKS], my chairman, and his general counsel, Bill Jones, on my staff Catherine Leroy, and Stewart Ishimaru, without whom we could not have moved ahead. As a matter of fact, all of the members on the subcommittee, the minority led by the gentleman from Wisconsin [Mr. SENSENBRENNER], all deserve a great deal of credit.

□ 1450

Mr. SENSENBRENNER. Mr. Chairman, I yield 2 minutes to the gentleman from Michigan [Mr. UPTON].

Mr. UPTON. Mr. Chairman, I would like to take a moment to engage in a brief colloquy with the distinguished chairman of the Committee on Ways and Means, Mr. ROSTENKOWSKI.

For the past several months, I've headed up a bipartisan effort with Mr. MFUME to provide a tax credit mechanism to help small businesses comply with the nondiscriminatory access mandates of Americans with Disabilities Act. We now have 200 cosponsors for the proposal, H.R. 3500.

Although the rule does not provide for its consideration as part of the ADA bill itself, it is my hope that the Committee on Ways and Means will include such a provision, drafted on a revenue neutral, pay-as-you-go basis, in an appropriate legislative vehicle later this year.

I include a copy of a letter to me from the White House indicating support as well.

Mr. ROSTENKOWSKI. Mr. Chairman, if the gentleman will yield. I share the concerns of the gentleman from Michigan about the financial ability of our Nation's small employers to comply with the ADA bill's provisions, and I commend him and Mr. MFUME for his outstanding efforts to encourage strong bipartisan support for his proposal.

His revenue natural tax credit concept has a great deal of merit, and I will be glad to work with Mr. UPTON, Mr. MFUME, and members of our committee to consider such a credit as we develop legislation this year.

Mr. UPTON. Mr. Chairman, I thank the gentleman from Illinois.

Mr. HOYER. Mr. Chairman, will the gentleman yield?

Mr. UPTON. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Chairman, I want to congratulate the gentleman from Michigan and my colleague, the gentleman from Maryland [Mr. MFUME], for their work on this issue, and congratulate the chairman of the Committee on Ways and Means for his response.

We believe, of course, as we have said throughout the course of this debate, and will do so in the future, that this bill requires minimal costs, readily achievable costs, a cost that does not create either an undue burden or an undue hardship on the private sector. But nevertheless, to the extent that there are costs, and to the extent that we can accommodate them, we certainly want to work with the gentleman from Michigan and the gentleman from Maryland in seeing if we can do that.

Mr. UPTON. I appreciate the gentleman's support, and I thank him for his fairness in allowing us to proceed as we have.

THE WHITE HOUSE,
*Washington, DC, May 14, 1990.*

Hon. FREDERICK UPTON,
*House Office Building, Washington, DC.*

DEAR CONGRESSMAN UPTON: Thank you very much for your inquiry regarding the Administration's position on changes in the tax treatment of business expenses incurred to provide acccess to the handicapped. At present, Section 190 of the Internal Revenue Code allows firms to deduct up to $35,000 of the costs of removing architectural barriers to the handicapped. Additional costs are depreciable in the same manner as other construction expenses.

Concern has been expressed that the construction costs required for businesses to comply with the Act for Disabled Americans now under consideration by the Congress will not be limited to expenses covered by Section 190. The Administration fully appreciates the argument that other business capital expenditures necessary to comply with the Act are as deserving of some form of favorable treatment as expenses which are currently covered.

Therefore, the Administration does not oppose changes in the tax treatment of business construction activities which are necessary to comply with the Act, as long as such changes are revenue neutral. There are a number of ways to achieve such revenue neutrality. For example, a plan could be structured in the following manner:

Allow deductibility of qualified expenses up to $22,500.

Provide the alternative of a 50% credit on the first $10,000 of qualified expenses in excess of $250 in addition to the option of deductibility.

Expenditures which do not qualify for either the deduction or the credit could be depreciated as under current law.

We share your goal of achieving the legislation's goal of access for all Americans while protecting small and medium businesses from any undue hardship. A revenue neutral change in Section 190 treatment of qualified expenses would go far in accomplishing these twin objectives. I look forward to working with you in the future on this and other issues.

Warmest regards,

ROGER B. PORTER,
*Assistant to the President for Economic and Domestic Policy.*

Mr. SENSENBRENNER. Mr. Chairman, I yield 5 minutes to the gentleman from New York [Mr. FISH], the distinguished ranking member of the full Committee on the Judiciary.

Mr. FISH. Mr. Chairman, I thank my colleague for yielding time to me.

Mr. Chairman, this is a proud moment in the history of our Nation. Two hundred years ago our Declaration of Independence declared and our Bill of Rights guaranteed that all Americans are created equal. Today, more than 25 years since the passage of the 1964 Civil Rights Act, we will be passing the Americans With Disabilities Act. We will thus ensure that persons with disabilities are finally granted the same equal protection of the laws enjoyed by all other Americans.

This action by the Congress is long over due. The discrimination which

disabled Americans and their families historically have faced has resulted in shattered dreams of untold numbers of people.

Yes, discrimination. The Supreme Court, in the 1985 Alexander versus Choate decision, said:

> Discrimination against the handicapped was perceived by Congress to be most often the product not of invidious animus, but rather of thoughtlessness, indifference and of benign neglect.

It is not the malicious, violent, ugly discrimination experienced on account of one's race, national origin or religion. But the barriers society has erected and our tolerance of them has resulted in denial of opportunities the rest of us take for granted, and the types of discrimination faced by disabled people are pervasive—more pervasive and extensive than I could have imagined.

We take for granted activities of daily living denied many disabled Americans. Imagine living every day of your life not being able to get out of your home because of steps; not being able to go to the bathroom alone because the door is too narrow; not being able to call a friend because you are deaf and there is no relay service; not being able to operate an elevator because the floors were not marked in braille; not being able to go to stores for fear of being denied entrance because you have cerebral palsy; not being able to get on a bus because it is not accessible; being afraid to apply for a job because you have experienced discrimination but had no way of redressing it.

The Americans With Disabilities Act acknowledges that these denials of opportunities have been unjust and must no longer be tolerated.

Today more than 66 percent of working age persons with disabilities in our country are unemployed. They are unemployed for many reasons: Inaccessible public transportation, inaccessible work facilities and pervasive job discrimination. The Americans With Disabilities Act will help put an end to this staggering unnecessary problem.

For the past year much attention has focused on the cost of meeting such standards as reasonable accommodation and readily accessible.

But what of the costs of continuing to be indifferent to the denial of opportunities experienced by 43 million disabled Americans?

We pay more than $60 billion a year to disabled people who are not working. Yet polls tell us 80 percent of persons with disabilities who are not working believe they are capable of working and want to work.

The disabled know that the obstacles they face are not inherent in their disabilities. Can the cost of any reasonable accommodation compare to what we are paying to keep qualified people unemployed?

This bill was introduced in 1988. It has passed the Senate and gone through four committee hearings on the House side. This bill has been debated exhaustively. The President and his staff have worked toward the passage of this monumental piece of legislation. The civil rights community, labor, women's organizations, the religious community, disabled people, their friends, families and advocates have fought for the passage of this bill. Leaders on both sides of the aisle have worked long and hard on the provisions of this legislation. The Americans With Disabilities Act deserves to pass. It will rectify many of the wrongs that have been committed against Americans with disabilities. It will at long last enable people to become contributory members of our society. ADA will also help to end the fears people have of becoming disabled. We will finally see that it is not disability which limits one's ability to participate in life, but it is societal barriers.

This bill aims at opening up opportunities for all persons with disabilities. At the same time the bill does not put an undue burden on employers, businesses or the community at large. It strikes a balance. I understand that there are concerns from the business community that the bill goes too far and from the disabled community that the bill does not go far enough. The responsibility of the Congress is to ensure the protection of the rights of disabled people and to ensure that the community at large is not unduly financially burdened. This bill does just that. Not all will be happy but I know that we have reached a balance for justice.

Mr. Chairman, the disabled only seek the same opportunities as all other Americans. We acknowledge the barriers we have tolerated. It will take time, but full implementation of the Americans With Disabilities Act will also result in society no longer seeing the needs of persons with disabilities as special. Ramps, door width, braille will become part of all our lives. As we no longer consider accessibility as special we cannot help but increase the self-worth of the disabled.

This bill will help guarantee the rights of disabled people to live anywhere they choose in this country with the knowledge that they will be treated equally under the law. One will be able to go the movies, eat in a restaurant, shop in a store, get a job, stay in a hotel, use the telephone system, and use transportation in any State in the Union.

Disabled people will know that should fear and prejudice result in the denial of equal opportunity they will be protected.

The Americans With Disabilities Act will tell children with disabilities, young adults and seniors who acquire a disability that they should not be ashamed. They should not fear coming out of their homes and into their communities. We as a society will no longer permit actions that cause people to be treated as second-class citizens because they have a disability.

This is important for disabled people to know. This is important for our non-disabled children and adults to know. We—as Americans—will no longer tolerate discrimination—benign or overt—against persons with disabilities.

In closing, credits are due the significant efforts of the National Council on Disability which proposed the original ADA in 1987, the consistent strong support of the President, and the dedication of the gentleman from Maryland [Mr. HOYER] and the gentleman from Texas [Mr. BARTLETT] whose tireless efforts bring us to the floor today.

Mr. BROOKS. Mr. Chairman, I yield myself such time as I may require.

Mr. Chairman, the Americans With Disabilities Act is one of the most important pieces of civil rights legislation that we have considered in the last decade. This Nation has made progress, over the past several years, in protecting the rights of those with physical or mental conditions that limit their activities and their full participation in our society. We started this process in 1973 with the Rehabilitation Act, which outlaws discrimination in federally funded programs. Other important steps have been taken since that time, including the Fair Housing Act Amendments of 1988, which outlawed discrimination against the disabled in housing. The legislation before us today, the Americans With Disabilities Act of 1990, is intended as the final step necessary to accord to individuals with disabilities the same protection against discrimination that the law provides to racial minorities, religious groups, and others who in the past have been denied the chance to participate on an equal basis in our society's activities.

The Judiciary Committee, along with three other committees of this body, have put in a tremendous amount of effort over the past several months to fashion a bill that will be both effective and workable, so that those who are affected by its provisions understand just what their rights and duties are under the law.

Our efforts have been in keeping with over 200 years of history in which this country had endeavored to extend the full measure of citizenship and participation to all of our society. Step by step over the past two centuries, ours has been a process of inclusion. We have done this, not out of charity,

but because it is in our interest as a nation to enable all groups to make the maximum contribution to the greater good. With no group of Americans does this make more sense than the disabled. From the hearing impaired Thomas Edison, to the wheelchair-bound Franklin Roosevelt, to the blind and deaf Helen Keller, the disabled among us have enriched our lives and made us a better nation. In enacting the Americans With Disabilities Act, we seek to fulfill the promise of this great Nation to all its people.

I commend the bill to the Members and urge its passage.

□ 1500

Mr. SENSENBRENNER. Mr. Chairman, I yield such time as he may consume to the gentleman from Arizona [Mr. KOLBE].

(Mr. KOLBE asked and was given permission to revise and extend his remarks.)

Mr. KOLBE. Mr. Chairman, I rise today in support of the Americans With Disabilities Act. This bill will open doors for our disabled citizens and give them the same opportunity to productively participate in our society as you and I have. This act will guarantee that the disabled of our country enjoy the same fundamental rights as the rest of our citizens. ADA will extend rights already guaranteed under section 504 in employment, public accommodations, public services, transportation, and telecommunications.

Business leaders are concerned that this bill will have a negative effect on the small business community. I believe the opposite is true. The business community will benefit from the influx of a diverse and underutilized population. Some employers are reluctant to hire disabled people because they believe that a disabled person would be a liability to the business. But, I believe that with the passage of ADA employers will realize that the disabled can be a significant asset to any business. With little or no accommodation they can do the same job as anybody else.

The ADA represents a compromise forged with the specific needs and circumstances of small businesses in mind. Both the size and nature of a business will be considered when requiring employment accommodations of a business. Public accommodations are required to make changes in existing buildings only if such changes are "readily achievable." Under ADA, businesses will have the flexibility to choose for themselves the manner in which they plan to meet the "readily achievable" standards.

Extending the basic civil rights guaranteed by ADA to the disabled is long overdue. We have heard the voice of our President, the voices of our colleagues in the Senate, and the voices of our millions of differently abled citizens. Now the time has come for us to act.

Mr. SENSENBRENNER. Mr. Chairman, I yield myself 5 minutes.

Mr. Chairman, the time has come for the disabled to achieve their independence and move into the mainstream of American life. I am convinced that the Americans With Disabilities Act provides the key to employment opportunities, to commercial opportunities, and better accessability for the disabled. Thus, I strongly support the ADA.

Although the disabled have made many gains over the past decade, the fact remains that unnecessary discrimination and exclusion continues.

In August of 1988 at his acceptance speech for the Republican nomination, President Bush pledged to "do whatever it takes to make sure the disabled are included in the mainstream." Today we are in the final stages of the effort to fulfill that promise.

During the first session of this Congress, the Subcommittee on Civil and Constitutional Rights held a series of hearings on the ADA. The subcommittee received testimony from the Attorney General of the United States, the Honorable Richard Thornburgh and from numerous representatives of the business and disability community.

Since that time, I, along with numerous other colleagues, have been working to clarify the significant terms of the ADA so that those who are affected by its provisions understand their rights, duties, and responsibilities under the law. It is imperative that the money that businesses spend to comply with the ADA be used to make facilities accessible to the disabled, and not used to pay lawyers' fees as litigation is used to determine the meaning of the bill's key terms.

Briefly, the significant provisions of the bill over which the Judiciary Committee exercised jurisdiction provide as follows:

In the employment title, the ADA is similar to the law of race and sex discrimination, in that an employer cannot refuse to hire or promote an individual because of that person's disability, when the individual otherwise meets the qualifications for the position.

An employer is required to make a reasonable accommodation for a disabled person, if that accommodation will allow the person to perform the essential functions, with consideration given to the employer in determining which functions are essential. The accommodation must not impose an undue hardship on the employer which means that it cannot impose a significant difficulty or expense on the employer after taking into account the size of the business, the number of employees, the nature and cost of the accommodation and numerous other factors. The financial resources of both the specific facility and the parent company are to be considered in determining an undue hardship.

The employment provisions do not take effect until 2 years after the date of enactment for employers with 25 or greater employees. Employers with 15 or more employees will be covered 2 years later.

The public accommodations title of the ADA requires any business or individual offering services to the public to accommodate persons with disabilities unless such an accommodation would not be "readily achievable." "Readily achievable" is defined as "easily accomplishable without much difficulty or expense." Public accommodations include hotels, restaurants, theaters, stores, offices, museums, parks, social service agencies, schools, and the like.

All new construction must be accessible to the disabled unless structurally impractical. When altering an existing structure, accessibility must be implemented to the greatest extent feasible unless such imposes an undue burden. Remedies available are injunctive relief and attorneys' fees. The Attorney General is able to file pattern and practice suits and request civil fines of up to $50,000 for the first offense and $100,000 for subsequent offenses. The public accommodations title takes effect 18 months after the date of enactment. An amendment will be offered by Congressman LAFALCE and Congressman CAMPBELL to allow a phase-in for small businesses giving them additional time to educate themselves on the provisions of the ADA to ensure compliance.

I will be offering an amendment to delink the remedies for employment discrimination in the Americans with Disabilities Act from the remedies contained in title VII of the Civil Rights Act of 1964 amendments. The amendment will clarify that the ADA only calls for equitable relief as a remedy for employment discrimination. The amendment will neither expand nor contract the remedies of the ADA currently available to victims of employment discrimination. It simply provides, that if the remedies provision is to be changed, there should be a conscious debate and a conscious vote on the issue, rather than a bootstrap to the Civil Rights Act of 1990.

I am convinced that the coupling of title VII remedies in the ADA with those in the Civil Rights Act of 1964 will unnecessarily open the door for the diversion of funds into the courtroom by padding the pockets of the lawyers rather than providing access to the disabled. This amendment is supported by the Bush administration and at the appropriate time, I will ask for the support of my colleagues as well.

Mr. HOYER. Mr. Chairman, I yield myself 2 minutes for the purpose of a colloquy with the gentleman from Texas, Mr. BARTLETT.

Mr. BARTLETT. Mr. Chairman, will the gentleman yield?

Mr. HOYER. I yield to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I thank the gentleman for yielding. Mr.

Chairman, this bill requires that the rights and protections of the ADA will be applied to the legislative branch of the Federal Government. I would like to clarify that the public accommodation requirements of the bill for the Congress will be enforced with remedies of equal force and impact to those applicable to the private sector. Does the gentleman agree with my assessment?

Mr. HOYER. I agree. This bill requires the development of procedures and remedies that will result in the ability of persons to get prompt correction of any ADA violation. Although I do not expect that a problem of recalcitrant behavior regarding public accommodations in the Congress would occur, I want to assure the gentleman that any such violation will be addressed with severity.

Mr. SENSENBRENNER. Mr. Chairman, I yield 3 minutes to the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Mr. Chairman, I am very pleased to be here today with this bill. It is a very important piece of legislation to provide for civil rights for the handicapped and disabled. It is something I have had a lot to do with in debating through our Committee on the Judiciary.

Based on the amendments we have had today and the couple that I know will be adopted today because of the general will and the agreements that have been made, I am going to be able to support this legislation very proudly. However, I do think there are some important considerations all of us should remember. The big debate over this bill has never been over the issue of providing civil rights and antidiscrimination laws to protect our disabled community in the workplace. The big issue is how do we minimize the costs to the employers while still doing that?

A lot of us had thought that many of the provisions, as initially written, were simply not tight enough, simply not in the strength they should be in order to reduce those costs and keep them to a minimum.

There are still a couple that really ought to be done. One of them I will describe when I get up here later on the essential functions, we have made a lot of improvements on in the definitional area. But one that I consider exceedingly important is that we later on down the road get that tax credit that I know has been discussed here on the floor a little earlier and that I believe the administration is now prepared to support. That will not be a part of this bill, but we must not forget it because the small businessman really needs that tax credit in order to make the accommodations and not have to close shop in some cases.

□ 1510

Going along with that, though, is the Olin amendment amendment to be offered later today. I know that is tougher for some of our Members, but it is, I think, essential for the small businessman, in particular, to have some kind of a cap, some kind of a ceiling on the amendment of the cost that might be incurred in order to make these accommodations. That amendment is going to propose that it be no greater than 10 percent of the cost—that is, of the annual salary of whoever the employee is who is being hired. It seems to me that is reasonable, and once that cost threshold is exceeded, they will get to the point where they have a presumption of undue hardship, providing a measure of protection to the employer.

It is that kind of modification that still remains and still needs to be done on this bill, and I encourage my colleagues as they listen to the amendments that are out there, the very few that were offered, that Members do make judicious consideration, they make these kinds of minor changes, that yet can be made to keep those costs down in this bill.

I do want to close by saying that there are a number of other amendments out here today that permit the same kinds of consideration. What we need is improvement in this bill. When we are all done with this process, we are going to have a very fine bill, I think, that all Members can be proud of. However, we must have those protections, and I remind Members when it is all over with, we still need to keep the pressure on to get the tax credit that should have been a part of this bill, but unfortunately is not. We still have a chance to get it.

Mr. EDWARDS of California. Mr. Chairman, I yield 1 minute to the gentleman from New York [Mr. WEISS].

Mr. WEISS. Mr. Chairman, I rise today in support of the Americans With Disabilities Act and I urge my colleagues to support its passage with no weakening amendments. The ADA, supported by the President, and overwhelmingly approved by four House committees, is long overdue legislation remedying the separatism which now excludes 43 million disabled citizens from equal participation in American society. For far too long, physical and attitudinal barriers have prohibited individuals with disabilities from demonstrating their worth in the workplace, enjoying access to public accommodations and transportation, and utilizing telecommunications systems.

This legislation will provide this Nation's handicapped citizens with the same protections presently afforded to other minority groups. Under the ADA, an employer may not refuse to hire or promote a person with a disability merely because of that disability, when the individual is qualified to perform the job.

The measure also requires an employer to make reasonable accommodations for persons with disabilities, if those accommodations will allow the person to perform the essential functions of the job.

Under the bill's public accommodations provisions, it would be illegal to exclude or refuse to serve a person with a disability. The ADA also requires that new public transit vehicles are accessible to the disabled without requiring any retrofitting.

Title IV of the ADA will require, within 3 years, all common carriers to provide intrastate and interstate telecommunications relay services for telephone calls between uses of such devices for the deaf and users of telephones. These relay services will allow people with telecommunications devices for the deaf to communicate with persons who do not use such devices.

The Americans With Disabilities Act is patterned after section 504 of the Rehabilitation Act of 1973 which has been in effect and operating successfully for over a decade. It is a reasonable and prudent bill which strikes the proper balance between the civil rights of persons with disabilities and the legitimate concerns of both large and small businesses.

It is of exceptional significance that this bill will offer protection to the thousands of Americans with HIV disease—from those who are asymptomatic to those with fully developed AIDS. Persons living with HIV disease suffer from all the forms of discrimination found in our society.

Once the ADA becomes law, all persons with HIV disease will finally be protected in private employment. No longer will employers be able to lawfully discriminate against them as they hire, fire, promote, and set terms and conditions of employment. The range of protection is of critical importance for people with HIV disease. The ADA mandates that employers undertake "reasonable accommodations" in the hiring of disabled persons who are otherwise qualifed to work. This will ensure that persons with HIV have the right to flexible hours and time off that are crucial to help accommodate the disease.

Essential protections concerning medical examinations are offered by the ADA's employment provisions. Under the ADA, an employer may give medical examinations, but only after a conditional offer of employment is made. And then, all applicants for a specific job must be given the same exam. The results of the examination can only be used to withdraw a job offer if the applicant is found not to be qualified for the job based on the results of the exam. This protection is

the same as that provided under section 504 of the Rehabilitation Act.

The Centers for Disease Control has issued guidelines for the employment of persons with HIV disease which state that such individuals are qualified to remain in all jobs in the work force. The guidelines also state that current employees may only be required to submit to medical examinations if the examinations are job-related and consistent with business necessity. And the CDC guidelines do not require HIV testing for any type of employment in the work force.

This legislation properly reverses the indifference, discrimination, and neglect experienced by disabled individuals and will enable them to prove that being disabled does not mean "unable" or "unequal." Furthermore, it will encourage society to recognize disabled persons for their abilities and contributions and not for their physical limitations. I once again urge my colleagues to seize this opportunity to enact this historic piece of legislation without weakening amendments.

Mr. EDWARDS of California. Mr. Chairman, I yield such time as he may consume to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, again, as we end this general debate on this historic bill, I did not, when the Committee on Education and Labor was up here, make a comment on their staff, but I want to mention Reggie Govan, Bob Tate, Eric Jensen, Pat Morrissey, about to leave the Chamber now, and Randy Johnson of the gentleman from Texas, Mr. BARTLETT's staff, did an extraordinary job in working on this legislation. I think all the principals thank them for the extraordinary work they have done. On the Committee on the Judiciary, I would be remiss if I did not mention the outstanding work of the chairman, the gentleman from California [Mr. EDWARDS], and also the ranking members, particularly the gentleman from New York [Mr. FISH]. Also, Bill Jones, Cynthia Meadow, Katherine Hazeem, Katherine Leroy, Stuart Ishimaru, and Suzanne Sullivan, who is on the floor with the Committee on Public Works and Transportation. All of them have contributed immeasurably to the quality of this legislation. Without them, it would not be where it is, and without them, we would not have been able to pass the ADA.

I thank them on behalf of 43 million disabled Americans who they have served so well. I know their Members are very, very appreciative of them, as well.

Mr. Chairman, I yield to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I thank the gentlemen for yielding, and ask the gentleman, for the purpose of colloquy, a question which I understand the gentleman is prepared to enter into.

Mr. Chairman, I would like to ask the distinguished gentleman, and I note that I am conducting this colloquy on behalf of the gentleman from Ohio [Mr. ECKART] who originally drafted the colloquy. I would like to ask the distinguished gentleman from Maryland if he would comment on particular aspects of the bill. Sections 104 and 510 of the bill specifically refer to illegal drug use, and refer to an individual who formerly used illegal drugs within the meaning of the bill, but do not understand the bill to prohibit or combat drug use of those.

I would note for the gentleman, and I would suggest that we do this colloquy later as the copy of the colloquy that has been handed to me from the gentleman from Ohio has been marked up rather severely, and I am not exactly certain which parts he wants to have read into the RECORD, and which part he does not want to have read into the RECORD. Therefore, if the gentleman from Maryland [Mr. HOYER] would not mind, we would do this at a later time.

Mr. HOYER. Mr. Chairman, we will accommodate the gentleman from Texas [Mr. BARTLETT] and the gentleman from Ohio [Mr. ECKART].

Mr. BRENNAN. Mr. Chairman, the Americans With Disabilities Act must pass the House, in strong form. As a cosponsor of H.R. 2273, and as a Representative from Maine, which has access laws in effect that are working, and are not causing undue hardship, I urge my colleagues to enact this long overdue measure.

I ask that we seriously consider the 43 million individuals with disabilities who we represent, and ask if they should have equal access to transportation, telecommunications, and other services, just some of the time, or only on certain railway cars. Should these citizens be forced to have separate, but so-called equal access to society? To allow this would be contradictory to allowing people with disabilities the opportunity to enter the mainstream of American life.

This legislation has been considered the greatest piece of civil rights legislation since the 1964 Civil Rights Act. I urge my colleagues to resist putting various price tags on human rights and employment opportunities for people with disabilities. I believe it is important to provide businesses, particularly small businesses, with technical and financial assistance to meet the challenges of opening doors to the workplace and society for the disabled. I am a cosponsor of a separate piece of legislation that would provide this assistance, and Congress should swiftly enact that bill in addition to the ADA.

When I met this week with people from Maine who have disabilities, I could sense the value of this bill to their self-confidence, and their future opportunities. I learned of the excitement surrounding the ADA in the disabled community. And, I learned that when people from Maine with disabilities are speaking with disabled persons from other States, they feel lucky to have the equal access laws and the civil rights protections guaranteed in Maine. Civil rights should not be a function of luck.

When I asked what the ADA would mean for individuals with disabilities, the response was, "It would empower people with disabilities," and it would put in place some "fundamental" protections against discrimination.

I was told, and I believe, the ADA means giving people with disabilities a "taste of independence." Finally, and perhaps most importantly, I was reminded that "people with disabilities in Maine can get up and go to work," independently. I cannot emphasize enough what this means to an individual, to their family, and to an entire community.

The President, the Vice President, and the Attorney General have all voiced support for the ADA—76 Senators and 152 Members of Congress have already cast votes in favor of empowering Americans with disabilities with the same civil rights as other U.S. citizens. In order to guarantee opportunities for participation and success in American society, we, too, must vote for the ADA.

Mr. RANGEL. Mr. Chairman, today, we consider H.R. 2273, Americans With Disabilities Act. For the 43 million Americans with disabilities, this bill provides important protections in employment, public accommodations, transportation, and telecommunications services.

As the chairman of the House Select Committee on Narcotics, I wish to comment upon sections of the bill relating to drug abuse and drug abusers. The bill excludes from protection individuals who are current drug users and it removes protections for current drug users under the Rehabilitation Act. However, the bill explicitly retains protections for recovered persons, individuals who have successfully completed treatment, and persons currently in drug or alcohol treatment, who are not using drugs illegally. The bill also protects persons who are erroneously regarded as current illegal users of drugs, and it prohibits the denial of health care services, and other services provided in connection with rehabilitation, to persons with current drug use problems.

This bill strikes a delicate balance. It recognizes the need to protect employers, workers, and the public from persons whose current illegal drug use impairs their ability to perform a job and whose employment could result in serious harm to the lives or property of others. At the same time, the bill recognizes that treatment for those in the grips of substance abuse is not only the compassionate thing to do but an essential component of a comprehensive attack on drugs. Treatment can save the lives of individual abusers, and it can also return them to productive roles in society, which strengthens our families, our communities, our economy, and our ability to meet the competitive challenges of the growing international marketplace. By providing protections against discrimination for recovered substance abusers and those in treatment or recovery who are no longer engaged in illegal drug use, the bill provides an incentive for treatment. Under this bill, no one who seeks treatment and overcomes a drug abuse problem need fear discrimination because of past drug use.

I support passage of H.R. 2273, and I urge my colleagues to vote for this important measure.

Mr. MATSUI. Mr. Chairman, before us today stands the opportunity to take a step closer to equal treatment for all citizens of the United States. The Americans With Disabilities Act begins to correct this longstanding inequity.

Americans with disabilities are not unable to work or to contribute to society, they just have different abilities. A person's disability does not necessarily impinge upon his or her intelligence or commitment to getting a job done. It is time our laws recognize this reality.

Every day of their lives, disabled Americans are confronted with closed doors because of their condition. The doors that remains closed extend beyond not being able to go into a store or to take a job at a particular establishment because it is unaccessible. These doors take the form of stares, ridicule, and harassment, all of which stem from the ignorance of the population to the abilities of these people. While Congress cannot through legislation require people to treat their fellow citizens more humanely, we as Members of Congress can strip away discriminatory practices that confine disabled Americans from working, shopping, or traveling outside a route prescribed by accessibility.

Perhaps through enactment of the ADA, the American public will learn that disabled Americans are not unable and are not unlike you and me in their desire to be a contributing member of society. There are some 43 million disabled individuals living in America.

This bill will make the playing field a little more even for those with disabilities to compete in the workplace and in the marketplace. So many doors are now closed to these individuals, simply because their needs do not conform to the current rules of the game.

This bill focuses on several areas critical to ensuring the independence of America's disabled citizens—transportation, telecommunications, housing, employment, and education. Without access in these areas, we are condemning these individuals to a life of frustration.

I want to congratulate my colleagues who spent many hours working on this legislation. It is a comprehensive package that really will make a difference in the lives of millions of Americans. Adoption of this civil rights measure is critical, and I strongly urge my colleagues to adopt this legislation without any restricting amendments.

Mr. FORD of Tennessee. Mr. Chairman, I rise in strong support of the Americans With Disabilities Act. As a cosponsor of this bill, I firmly believe in both the principles on which this bill is founded as well as the legislation that is before this floor.

H.R. 2273 affirms the principles of the Civil Rights Act of 1964 for the America of 1990. H.R. 2273 affirms the principle that America is a nation with opportunity for all of its people. And maybe most importantly, H.R. 2273 affirms the principle that disabled Americans can and do compete and succeed in today's America.

By prohibiting discrimination against disabled Americans in employment, public accommodations, transportation, and telephone services, the Americans With Disabilities Act should not be seen as a gift to the disabled.

Rather, Mr. Chairman, H.R. 2273 will assure disabled Americans of their equal status as American citizens. This is not a gift. This is a right.

Just as the Civil Rights Act of 1964 affirmed the principle that America condemns discrimination, so does the Americans With Disabilities Act of 1990.

H.R. 2273 will open doors for qualified individuals to compete and succeed in the 1990's and the 21st century. And by clearing the way for disabled Americans to participate in our economy, we will take one more step in the eradication of discrimination in America.

Mr. Chairman, we no longer refer to disabled Americans as handicapped. This shows an evolution in America's understanding that the disabled can and do contribute to the welfare of our Nation.

By passing the Americans With Disabilities Act, this body will ensure that disabled Americans help uplift our Nation, help American companies compete in the international economy, and help improve the quality of life for all Americans, not just the disabled.

Mr. Chairman, those who oppose the Americans With Disabilities Act will begin their statements on this floor by stating their commitment to the quality of life of disabled Americans. But H.R. 2273 deserves more than our words, it deserves our vote.

The Americans With Disabilities Act deserves the support of every Member of this body, not because it will improve the quality of life for a select group of Americans, but because it will improve the quality of life for all Americans.

Mr. Chairman, I urge my colleagues to support the Americans With Disabilities Act.

Mr. KLECZKA. Mr. Chairman, the Americans With Disabilities Act, H.R. 2273, has been scrutinized at length in public hearings for nearly 3 years. We must do the right thing now—without further delay—and promptly enact this overdue measure to ban discrimination against persons with disabilities in employment, public accommodations, transportation, and telephone services.

The need for this legislation is great, for a substantial portion of our population suffers from discrimination on the basis of their disabilities. Nearly 43 million Americans are affected today by a handicap with which they were born, or acquired as the result of accidents or aging.

Individuals with disabilities in Wisconsin's Fourth Congressional District have spoken at length with me about what this profound legislation means to them. H.R. 2273 is of vital importance because it ensures the disabled will receive equality, justice, and unfettered access.

Disabled Americans reject the traditional attitude that suggests they are unable to care for themselves. Unemployment and dependence are not the inevitable result of disability. According to a recent Louis Harris poll, two-thirds of the working-age people with disabilities, who are not working, desire a job. Employers report that their disabled workers usually work harder and longer than able-bodied counterparts. However, public transportation and workplace environments are usually inaccessible to these individuals. Our society cannot afford to lock disabled Americans out of the mainstream anymore. They deserve to be judged by their abilities and not their disabilities.

The price of this legislation is minimal compared with the amount we now pay to subsidize inactivity. Excluding 10 million working-age citizens with disabilities from the workplace costs our society approximately $300 billion a year, according to the Equal Employment Opportunities Commission [EEOC]. Contrary to some claims, a 1982 study found that 51 percent of the accommodations provided to handicapped employees resulted in no additional costs, while another 30 percent resulted in costs of between $1 and $500. The bottom line is that the price of this legislation is negligible compared to the massive cost of discrimination.

Removing barriers to full participation by disabled individuals in everyday life will create direct and tangible benefits for the American economy. More disabled persons working increases earnings, lessens dependence on the Social Security system, increases spending on consumer goods, and increases revenues.

I wholeheartedly believe that Americans with disabilities are fully entitled to the same quality of life that able-bodied people enjoy.

Qualified people should not be barred from employment or public accommodations, or denied adequate public services because of a disability. Granting people with disabilities the same civil rights protection that able-bodied individuals enjoy is the right thing to do.

Mr. HAWKINS. Mr. Chairman, today, I rise in support of H.R. 2273, the Americans With Disabilities Act, which will extend to millions of our fellow citizens the civil rights we so often take for granted. It will say to millions of Americans, whose social disabilities come more from the callousness and ignorance of others than from any affliction of their own, that they are first class and equal citizens. We welcome and need their active participation in our Nation's life. With enactment of this bill, we will eliminate one of the last barriers to equal opportunity from our society.

The Committee on Education and Labor has given emphasis to those parts of H.R. 2273 which will make discrimination in employment and in the provision of public and private services illegal. This is done by clearly setting forth Federal policy and guidelines, by giving people an understanding of their rights and obligations, and by placing the weight of the Federal Government and its agencies clearly behind the disabled.

We do this because it is right. Today, there are millions of our fellow citizens who have a disability. As a group, they suffer the highest rates of unemployment and the highest rate of dependence on government services. Each day, thousands suffer the pain, rage and frustration of being unable to do things which are part of everyday life in America—go to a job, attend a show, eat out or go shopping. They are physically, emotionally and spiritually separated from their friends. They are forced into a twilight zone of existence, not because they wish it so or because they are not able to do otherwise. They are forced into this situation because of outdated stereotypes, inadequate

public accommodations and a current system which is tolerant of an unjustifiable status quo.

We also propose this legislation because we know that it is in the best interests of our Nation and its future. Unlocking the great potential of the disabled, particularly in a time of a shrinking workforce and ever increasing need, is a must if America is to remain competitive and strong. Americans with disabilities have much to give to us, as individuals and as a nation, if we will only provide the key to unlock the door of opportunity.

H.R. 2273 is that key. It is the product of years of effort on the part of hundreds of people. The version which we will consider today is the product of hours of efforts and boundless determination on the part of many Members. I want to especially recognize the efforts of Congressman MAJOR OWENS, chairman of the Subcommittee on Select Education, who has worked on this bill for 2 solid years, and without whose support it would not be before us today. I wish to recognize Congressman MARTINEZ, chairman of our Subcommittee on Employment Opportunities, for his excellent work. On the other side of the aisle, let me recognize the fine efforts of Congressman BARTLETT, Congressman GOODLING and Congressman GUNDERSON. I know that Congressman BARTLETT in particular, has devoted substantial time and effort to this cause. Finally, I must honor the leadership and efforts of Congressman STENY HOYER, whose tireless efforts on behalf of this legislation have led us to the current consensus draft we are to consider.

This bill has bipartisan and full White House approval. The leadership of both parties have worked long and hard on modifications and clarifications to the bill as introduced. These have strengthened, not weakened, the proposal.

As a result, the bill has the support of the disability community. That does not mean that unanimity has been achieved on all points. I'm not sure that is ever possible in this life. However, we have reached agreement on most issues.

I believe that all reasonable differences and points of view have been reconciled, and I ask my colleagues to weigh this carefully and join me in rejecting any amendments which would violate the spirit and substance of these accords. I am proud to be cosponsor of this measure, and I fully support it. I hope that its consideration will be swift and its passage overwhelming.

Mr. FEIGHAN. Mr. Chairman, I rise today in support of the Campbell-LaFalce amendment to the Americans With Disabilities Act. I worked with Congressman CAMPBELL to craft this compromise when the bill was before the Judiciary Committee just last week. I believe the amendment strengthens the bill by allowing small businesses adequate time to comply with the public accommodation provisions of the bill.

Today, disabled Americans are effectively barred from many public places solely because of construction plans drafted without consideration of their needs. Often only a slight change could open a whole new world for a disabled person: a ramp—braille elevator buttons—a restroom wide-enough to accommodate a wheelchair—Title 3 of the Americans With Disabilities Act guarantees to all disabled Americans the right of access to virtually all public accomodations.

I am an original cosponsor of the Americans With Disabilities Act and strongly support the public accomodations provisions. However, I am concerned that businesses—especially small businesses without legal counsel's offices to advise them—will have difficulty in determining their responsibilities under this bill. A storm of litigation will not serve any of the goals of this legislation.

In committee I worked with Congressman CAMPBELL to craft a compromise amendment to blunt the impact of the automatic 18-month effective date of title 3. The amendment we developed provided a 6- and 12-month phase-in for small businesses: 6 months for businesses that employ less than 25 workers, 6 more months—a year after the effective date—for business with 10 or fewer employees. This amendment, was defeated 20 to 15. I believe that my colleagues will consider the reasonable nature of this compromise, the effort to enhance the protections of the bill, and the benefits to disabled persons as well as small business owners, and will accept the Campbell-LaFalce amendment.

I have enjoyed working with my able colleague from California. I am pleased to see that the distinguished chairman of the Small Business Committee joins him in offering this amendment, and I urge its passage. I also want to congratulate my colleague, STENY HOYER, for the fine work he has done in shepherding the ADA bill to final passage. All Americans owe him a debt of gratitude. Without his effort, we would not be here today.

Mr. HOUGHTON. Mr. Chairman, I support this bill. The work is not done. We will work through a series of amendments said to define more precisely both the intent and requirements of the bill. I am satisfied though with the work done by the four committees which have brought it to the floor. It is well thought out.

As a point of reference, over the past 6 months I have heard from disabled people both in my district and from other parts of the country. They support the bill. Let me share with you two stories:

A young woman from Elmira, NY, along with a group of her friends, had dinner reservations at a good restaurant. It happened to be raining that evening and my constituent was not permitted to enter the restaurant because the wheels on her wheelchair were wet. They might ruin the rug. She offered to wipe the wheels dry. No deal. She could go elsewhere.

Another restaurant in my district, because of New York law, was forced to install an elevator to take disabled patrons to one of the three floors of the restaurant. The proprietor resisted the mandate but finally complied. To his surprise, he found that his business increased because of his initiative. The move helped attract the disabled to his restaurant. In addition, word got out about the elevator and as a result it attracted seniors and nondisabled people who did not want to walk those stairs. Still another plus—the waiters, since the kitchen is on the lower level, also use the elevator to take food to the upper level.

There can be concerns about the financial impact of such a Federal mandate. Yet there is another side. It can also be a plus to business.

So, Mr. Chairman, although not perfect—nothing ever is—this bill, in a nutshell, spells out to businesses, colleges, and other establishments what they should do, yet gives them—and this is important—the needed flexibility to achieve these goals. I would like to feel that this approach ought to stir the imagination of everyone affected and produce not just costs, but positive results which we could not begin to legislate.

It is time to begin. To quote President Bush, "No longer can we allow ignorance or prejudice to deny opportunities to millions of American with disabilities * * * they have waited long enough for justice."

Mr. LEVINE of California. Mr. Chairman, I hope that the 1990's will witness a civil rights movement for disabled Americans. Today, Congress is considering landmark legislation which would guarantee disabled Americans the rights and recourse codified in the Civil Rights Act of 1964. The Americans with Disabilities Act, or ADA, will extend freedom from discrimination based on race, religion, or gender to include America's largest minority, the disabled.

ADA will prohibit employers from discriminating against physically challenged and other disabled people. The bill places the burden of proof on the employer to clearly demonstrate that a person's handicap prevents him or her from meeting a reasonable standard of performance and that no modification or accommodation the employer could make would allow the person to overcome this disability. These employment provisions will eventually cover all businesses which employ a minimum of 15 personnel.

ADA will further enhance employment opportunities and independence for disabled Americans by providing equal access to public and private transportation. The act requires all newly purchased public and private transit buses to be equipped with wheelchair lifts. In addition, it requires that all new rail facilities be accessible, that all existing rail facilities be retrofitted to insure that at least one car per train is accessible within 5 years and that all commuter rail stations be accessible within 3 years.

ADA will guarantee disabled Americans equal access to public accommodations and services such as hotels, restaurants, schools, and parks. This will also be accomplished incrementally by requiring that all new buildings be accessible and that existing buildings meet the standards established as part of their normal renovation schedule. This far-reaching provision will require everything from braille menus to elevators in all high-rise structures.

This long overdue measure will mark a quantum leap forward for the millions of disabled Americans who are virtual prisoners in their homes due to the inaccessibility of adequate transportation and public accommodations. Not only will it eliminate physical barriers, but in doing so will help to break down the psychological barriers which disabled Americans face by fostering a spirit of familiarity and cooperation.

It is already un-American to discriminate on the basis of race, creed, or color. In the 1990's, we are going to make it un-American to discriminate against the disabled. I urge my colleagues to join me in support of this important legislation.

Mr. COLEMAN of Texas. Mr. Chairman, I rise today in support of H.R. 2273, the Americans With Disabilities Act. Unfortunately, a previous commitment will prevent me from casting a vote on the final passage of this bill, but I fully support the legislation being considered today. In the last two congressional sessions, I have been an original cosponsor of this legislation, believing that antidiscrimination protections available to other minority groups should also be extended to 43 million individuals with physical or mental disabilities.

It is shameful that while discrimination against the handicapped in Federal jobs and federally funded programs or activities is prohibited under the 1973 Rehabilitation Act and the Civil Rights Restoration Act of 1987, these individuals are not protected by the 1964 Civil Rights Act, which prohibits discrimination in public accommodations, private-sector employment and the provision of State and local government services, protections which this bill is intended to extend.

Disabled individuals represent the largest minority in our country, spanning all racial, religious, and ethnic boundaries, yet at this point they do not yet have the right to the same Federal civil rights protections as other members of our society.

I am heartened by the fact that nearly 200 Members of Congress joined me as cosponsors of and a large number of organizations are supporting this legislation, increasing the momentum for passage during the current congressional session. I am committed to extending civil rights protections to the disabled community, and I urge all my colleagues to support this legislation.

Mr. GALLO. Mr. Chairman, I rise in strong support of the Americans With Disabilities Act [ADA]. It is a welcome occasion when the Congress and the President work together to produce bipartisan legislation to address the fundamental needs of 43 million Americans.

For too long, Americans with mental and physical disabilities have been prevented from performing many daily activities of living and from fulfilling dreams of employment, prosperity, and full participation in our communities. Not only has this been a great loss to our communities and to our economy, it has also been an added hardship to the individuals who have struggled so valiantly to overcome the obstacles imposed by their disabilities and for their families who have been by their side all along.

With just a little effort, our communities can be made fully accessible to the disabled. While there have been some minor concerns over this legislation, there has been virtually no disagreement over the need for the protection it provides to disabled individuals.

The Americans With Disabilities Act will prohibit discrimination in both the public and private sectors. Since 1973, any agency, company or organization that receives Federal funds has been prohibited from discriminating against the disabled. So for 17 years, these protections have been successfully provided to the disabled, although on a limited basis. Now, we are removing these limitations. The ADA bill will extend these protections to cover employment, public accommodations and services, transportation, and telecommunications.

With passage of this bill in the House today and with continued leadership by the President, this legislation will open new doors of opportunity to the disabled that, until now, have been closed. For a disabled American, it means equal opportunity for employment. It means being able to use public transportation to get to work, to do their shopping or to see a movie. It means being able to use a telephone or other device to communicate with friends and family. These are just a few examples of what this bill means to the disabled; things that most of us take for granted.

The Americans With Disabilities Act, simply put, will help the disabled to help themselves. I urge strong support for this legislation.

Mr. COSTELLO. Mr. Chairman, today we are considering the Americans With Disabilities Act, legislation for all disabled citizens of this country.

The ADA will literally open the doors of America to its disabled citizens, and many of the provisions of the ADA will provide freedom of access to public transportation, employment, and public accommodations.

Disability does not distinguish among segments of American society by age, wealth, or accomplishment. The disabled members of our country are men and women, who are young and old, rich and poor. The ADA will greatly improve the lifestyles of 43 million disabled Americans from all walks of life and will integrate them into the mainstream of this Nation.

One of the organizations that has been in the forefront of legislative and advocacy efforts for passage of the ADA has been the Paralyzed Veterans of America. Members of the PVA are all veterans of military service who have suffered catastrophic spinal cord injuries or diseases of the spinal cord and are paralyzed.

Many PVA members from Illinois have been actively involved in this debate and have urged congressional approval of this bill. The ADA will ensure complete freedom of access to these dedicated Americans who have paid the price for the freedoms that we in America enjoy on a day-to-day basis.

Mr. Chairman, I urge my colleagues to support the Americans With Disabilities Act this week on the floor of the House. It is important legislation that will have a historic impact on our Nation as we meet future challenges in the workplace.

Mr. HAMMERSCHMIDT. Mr. Chairman, I am pleased to support H.R. 2273, the Americans With Disabilities Act of 1990.

Today is a landmark day in our country's history. Today, we take one giant step forward toward opening doors to opportunity and independence for millions of disabled Americans.

The Public Works and Transportation Committee has had a significant role in this effort, and after many months of deliberations, we are pleased to be able to stand here today and engage in the momentous final consideration of the bill on the floor of the House of Representatives.

I would first like to thank our distinguished chairman, Congressman GLENN ANDERSON, for his leadership in seeing that the committee dealt with the bill fairly and completely. I would also like to thank the chairman of the Surface Transportation Subcommittee, Congressman NORM MINETA, and the ranking Republican on that subcommittee, Congressman BUD SHUSTER, for their hard work on the bill.

Transportation holds the key to opportunity for millions of disabled Americans. Breaking down barriers to employment means nothing if the potential employee cannot get to the employer's place of business. This bill will go far to improve that situation. No longer will the problem of "how to get there" prevent the disabled from participating in recreational activities, running errands, visiting friends, and most of all, taking pride in a job well done. Our avenues, subways, railways, and waterways will carry the disabled all across this great Nation so that they can live normal and productive lives.

The legislation before us today represents a great effort to achieve these goals. We have worked long and hard to balance the needs of the disabled with the impacts on providers. We have tried to keep the objectives of mobility first and foremost in our minds in considering the issues raised before us. Many significant provisions of the legislation have met those goals. For example, the bill contains a well-reasoned approach to accessibility for the private over-the-road bus industry, which we believe represents a full and fair balance of the needs of the disabled and the impacts on the provider.

Though I support the ADA, I do have lingering concerns about some of the bill's provisions. The objective of the ADA is to provide mobility for all disabled Americans. The legislation before us, however, does not guarantee the best mobility for all the disabled. This is particularly true in smaller communities and rural areas where mobility needs of disabled Americans would be better served with more local flexibility to mold transportation systems to the particular transportation needs of the disabled in those communities.

Another concern is that the requirements imposed on transportation service offered by hotels and motels, private companies, and other private entities are likely to have a significant impact and will be burdensome for many.

Perhaps my greatest concern in this bill is that this legislation will end up in the courts and will really be written by the judicial branch of Government. The rights-based approach in the ADA insulates the proponents of the policies from the economic and social costs that those policies will impose on the general public. By turning the basic political question of mobility for the disabled into a question of right, Congress has, in effect, turned the issue over to the courts. When you couple the rights-based approach with the vagueness of the language in the bill, you have created a relief act for the legal community. This is an unfortunate outcome for such a significant piece of legislation.

At this point, Mr. Chairman, I would like to comment on several of the key provisions in the bill. The bill requires "comparable" serv-

ice, except with regard to response time, which is "comparable to the extent practicable." Our report states that the term "comparable" does not mean "identical." Typical service criteria that would have to meet this standard include: restrictions or priorities based on trip purpose; fares; and hours and days of service. Eligibility and service area are covered by specific requirements in the bill.

The term comparable is to be interpreted with some degree of flexibility. Comparable does not mean equivalent. For example, paratransit service is inherently more expensive. Considering the budget problems already faced by transit authorities and the additional costs imposed by this bill, transit authorities may need to charge users a higher fare than a passenger for a similar trip on a regular bus.

"Comparable to the extent practicable" implies that an even greater degree of reasonableness must enter into the determination of the response time required for paratransit. Response time is the most expensive factor in the provision of paratransit service. Costs go up sharply when less than 24 hours notice is required. Given these facts, a lesser standard for response time was agreed upon in the committee. The committee report states that "paratransit vehicle response time may not meet a standard of comparability with a fixed route system which operates vehicles at short headways." Any response time even close to headway time will not be feasible for most providers. In fact, it is possible that a 24-hour advance notice requirement could be determined as meeting the standard.

I would also like to comment on the eligibility requirements for paratransit. Our committee specifically limited eligibility to individuals who cannot board, ride, or disembark from a fixed route vehicle in order to encourage greater use of the accessible fixed route service. This language is specifically intended to exclude travel to and from the bus stop. In full committee, an amendment was added which extend eligibility to any individual, with a disability who has a specific impairment-related condition which prevents such individual from traveling to a boarding location or from a disembarking location. Examples of a "specific impairment-related condition" include: disabilities such as chronic fatigue, blindness, a lack of cognitive ability to remember and follow directions, or a special sensitivity to temperature. It was the intent of the committee that this be a very narrow exception to the general eligibility requirements. It is not our intent to allow any individual with a disability to successfully argue for, and be granted, paratransit service under this provision.

I am pleased the committee was able to reach a compromise on the private over-the-road bus provisions in the bill and I fully support that compromise. I would like to elaborate on two issues, however.

First, the OTA study is intended to be an objective analysis of the access needs of the disabled and cost-effective methods of providing accessibility to over-the-road buses. The study is needed in order to address questions which remain unanswered regarding accessibility to over-the-road buses. Very little experience exists currently with wheelchair lifts and other boarding assistance devices on over-the-road buses. Where lifts are in operation, use has been minimal. Most current lifts on over-the-road buses pose problems in terms of safety, compactness, reliability, and cost. Because of the high platform of an over-the-road bus, as opposed to a transit type bus, a lift must move to a greater height, posing both engineering and safety concerns. In addition, most lifts also take up substantial package express and passenger seating space, which impact revenues. The use of boarding chairs and ramps poses some problems in terms of portability and logistics. Some bus companies are meeting accessibility needs for their disabled passengers with a boarding chair and ramp system at the present time. I would expect that an analysis of the success of this method would be an important part of the study since it will be able to be reviewed in an actual service environment. In light of these facts, a thorough study of all methods of providing accessibility is necessary.

Second, in light of the fragile condition of the over-the-road bus industry, the impact of mandated accessibility requirements should receive careful consideration. We believe the disabled should be able to ride on over-the-road buses; we also believe over-the-road bus service, which for many of our Nation's smaller towns is its only form of intercity transportation, should be given every chance to survive. The study should balance both of these valuable national objectives.

Before I close, I would like to make special mention of an individual who played a great part in legislation benefiting the disabled over many years, Mr. R. Dennis Smurr. Dennis served for 9 years with the Paralyzed Veterans of America, one of the finest organizations I have had the pleasure to deal with in my congressional service. Dennis was a tireless and diligent force for the disabled. He possessed impeccable integrity, undaunted enthusiasm, mastery of issues, and a sincere commitment to bettering the lives of those with disabilities. I am happy to say that he was also a very dear friend. Before his untimely death in December, Dennis had been actively involved in the Americans With Disabilities Act. He would have been full of pride and happiness today to see this landmark legislation pass the House. This one's for you Dennis.

Despite my concerns, the Americans With Disabilities Act is legislation which we should all be proud to support. In this great body, we have our differences as to how best to achieve the goals of the bill. Some of us would have our differences as to how best to achieve the goals of the bill. Some of us would have preferred to see certain areas addressed differently. But overall, this legislation will profoundly improve many American lives and those Americans are counting on us to give them that chance today. I, for one, will vote to grant them the opportunity to live full and productive lives not hindered by barriers, whether they be of concrete or the attitudes within us. I urge my colleagues to do the same.

Mr. MILLER of California. Mr. Chairman, I rise in support of H.R. 2273, the Americans With Disabilities Act.

My esteemed colleagues on the four committees that have worked together on this legislation deserve our appreciation for bringing this measure before us for consideration today. I particularly want to thank my colleagues from the Public Works and Transportation Committee, the Education and Labor Committee, the Judiciary Committee, and the Energy and Commerce Committee for their leadership.

I also want to thank the coalition of national, State, and local disability and civil rights organizations and countless advocates for their tireless efforts on behalf of this long-overdue legislation to protect the civil rights of over 37 million Americans with disabilities. In the process, policymakers and the public have been educated to the indignities suffered by the country's largest minority, who want and deserve equal access to the American mainstream.

Twenty-six years ago, our Nation took a giant step forward to eliminate discrimination in this country by passing the Civil Rights Act of 1964. It was the historic first of several laws passed by Congress to dismantle the racist and sexist barriers that limited opportunities for minorities and women. Barring discrimination against individuals with disabilities has been addressed by Congress only once—and then only in a limited fashion. In 1973, Congress enacted section 504 of the Rehabilitation Act that protected the civil rights of disabled individuals—but only in agencies or organizations of the Federal Government or those entities supported with federal funding.

In fact, it has been our unwillingness to see all people with disabilities that has been the greatest barrier to full and meaningful equality. Society has made them invisible by shutting them away in segregated facilties, by erecting structural barriers that literally keep them out of buildings and off of public transportation, and denying them access to education and job opportunities—actions that have made it easy to ignore the needs and rights of disabled individuals.

If we continue to shut those with disabilities out, if we fail to pass this legislation now, if we continue to permit blatant discrimination, then we, as individuals, and as a society, are the ones who must bear the consequences.

We must bear the economic costs to our society when the disabled are prevented from fully participating in education, jobs, and community life. If the disabled are locked out of jobs, then society must bear the cost of maintaining these individuals and their families—families that otherwise would be self-supporting and paying taxes.

And we put unfair and needless burdens on the families who care for individuals with disabilities; care that could be shared or made less costly by eliminating discriminatory barriers.

As chairman of the Select Committee on Children, Youth, and Families, I am especially concerned about the children with disabilities in this country who face extraordinary challenges as they grow up. I am concerned about the families who face overwhelming medical expenses and emotional and physical stress while trying to care for their children at home. But in addition to these hardships, they also are confronted with the additional burden of discrimination that keeps them from doing things together as families simply because

buildings are inaccessible or there are no curb cuts in the sidewalk.

More than a decade has elapsed since the passage of landmark legislation, Public Law 94-112, the Education for the Handicapped Act, that afforded disabled children the right to a free, appropriate public education. We have come a long way since disabled children were educated in school basements or hidden away in institutions.

But we have made little progress in offering these same children equal access to playgrounds or amusement parks, sports events, or movie theaters, or to any of the day-to-day activities that comprise childhood. We have made little progress in offering these same children equal access to transportation, jobs, and housing once they leave school. In the real world, pervasive and unrelenting discrimination against individuals with disabilities is still a fact of life.

I am concerned, Mr. Chairman, about how we explain to children that their rights are protected only some of the time. How do we tell them that the principle of equality matters only while they are in school or when Federal funds are specifically engaged?

Passage of the historic legislation we are considering today will mean that more children will be able to be mainstreamed in life events that exist beyond school and beyond federally funded buildings.

Passage of this legislation will mean that children with disabilities will not be pushed aside, out of sight, and out of mind, but will be entitled to the same civil rights as all other minorities.

Passage of this legislation will mean that all children, regardless of whether they are disabled or not, and regardless of the extent of their disability, will be able to go where other children go, to play and interact with their peers.

Passage of this legislation will mean that children will have new opportunities available to them that most children now take for granted.

The select committee has heard firsthand about the positive effects of mainstreaming children with disabilities. Just this past fall, Kristie Joy Drury, and 11-year-old from Tulsa, OK, wheelchair-bound with spina bifida, told the select committee:

Ever since Kindergarten I have been mainstreamed in school and I think that is very important, because I get the chance to do most everything everyone else gets to do. (But) there are things I can't do and I would like to see some changes made. I think we need more adaptive physical education so we can have as much fun as the next guy. I also think we need more curb cuts. Whenever I go someplace with my mom and dad, we always have to lift my cart to get up to the sidewalk.

I think we need more education for teachers about our disabilities and special needs * * * Nobody knows enough about our disabilities to do anything about it. But we are going to show them what we are made of * * * You have got to make the laws better so we can live better lives and help other people understand that we are not really any different than they are.

And I will be pleased that if we pass this legislation, which President Bush has indicated his willingness to sign, we will no longer have to tell our children that their rights are protected only under certain circumstances and only in certain facilities.

This legislation will prohibit discrimination against individuals with disabilities in employment, programs or activities of a State or local government, in public accommodations, transportation, and telecommunications. It does so by providing protections that are consistent with other Federal civil rights laws long on the books. Its protections are far-reaching, yet the demands in places on compliance are modest. It initially exempts employers with fewer than 25 employees for the first 2 years, and therefore, employers with fewer than 15 employees, and it provides transportation authorities a reasonable amount of time to make appropriate accommodations.

With all the work that the select committee has done on child care, I am particularly pleased that this legislation would help open the doors to child care facilities and nursery schools. We know that good preschool opportunities can help children get off to a better start in school.

By prohibiting discrimination in public facilities, this legislation can help provide that opportunity for thousands of our children, whose parents had to forgo child care or preschool for their young disabled child, because they couldn't find a barrier-free environment or sufficiently trained child care providers who were willing to care for their children. In many cases, this has no doubt kept parents out of the labor force, placing a financial burden both on the families involved and once again, on our society as a whole.

I urge you to join with me in supporting this legislation. Join with me so that we can tell Kristie Joy Drury and the millions of children like her that we will ensure they have access to every opportunity to reach their fullest potential. Let us demolish the "Berlin Wall" that separates these children from their friends, their families, and their communities. And let us do so without any further delay.

Mr. STANGELAND. Mr. Chairman, I rise in support of H.R. 2273, the Americans With Disabilities Act. This is not perfect legislation. Some of its provisions affecting transportation and small business may have problems, leading sooner or later to excessive costs and litigation. On balance, though, this landmark legislation is long overdue and worthy of our support.

First, let me acknowledge the leadership and commitment of various committees and individuals. In particular, I'd like to thank the House Public Works and Transportation Committee. Chairman GLENN ANDERSON, ranking minority member JOHN PAUL HAMMERSCHMIDT, Surface Transportation Subcommittee Chairman NORM MINETA, and ranking minority member BUD SHUSTER, along with others, have all worked tirelessly on this bill. Perhaps most importantly, I'd like to commend all the organizations—particularly some of the disability groups—and individuals who have sacrificed untold hours to ensure passage of this legislation.

And yet, despite all its worthy provisions, I still have concerns about certain aspects.

The objective of H.R. 2273 is to provide mobility for all disabled Americans. Unfortunately, I don't believe it guarantees the best mobility for all the disabled. Those who live in smaller or rural areas may find the Americans With Disabilities Act brings them less mobility, not more.

H.R. 2273 mandates lifts on every new public transit bus. It also requires comparable paratransit, except with regard to response time, in which case the service must be comparable to the extent practicable. These are laudable goals, and we as a nation should strive to attain them. As across-the-board mandates, however, they may be unrealistic and perhaps even counterproductive—especially without opportunities for local flexibility.

The impact of both of these requirements, particularly on smaller transit systems, will be significant. In addition, in smaller areas, the disabled population may not exist in numbers great enough to justify the capital expenditure of lifts. Significant barriers to lift use exist in every city, whether it be the lack of curb cuts, hilly terrain, sheer distance from the nearest bus stop, or severe weather conditions. Very simply, an adequate paratransit system—such as the one in St. Cloud, MN—often provides better mobility to the disabled, particularly in less populated areas, than a lift-equipped fixed route system.

Therefore, I am concerned that the bill makes no allowance for flexibility so local communities can decide the best method to guarantee accessibility, mobility, and rider satisfaction. Like many of my colleagues, I believe a Federal mandate requiring one solution for all communities may be shortsighted and in the long run, counterproductive.

Mr. Chairman, I would hope throughout the remainder of the legislative process we will not lose sight of H.R. 2273's impacts upon small and rural communities, transportation officials, and the private sector. In our haste to remedy previous wrongs and prevent future discrimination, let's not create more problems for ourselves.

Having said that, though, let me reiterate my strong support for the bill as a whole. I urge my colleagues to vote in favor of the legislation while at the same time acknowledge that certain aspects should be strengthened.

Mr. ARMEY. Mr. Chairman, the intent of all civil rights legislation is to provide equal opportunity and a level playing field for everyone. The Americans With Disabilities Act intends to extend these protections to the disabled, and I fully support that intent. But the ADA as currently written may do far more than assure equal access.

The scope of this legislation is unprecedented. It defines disability so broadly that 43 million Americans, nearly one-fifth of the U.S. population, will be covered by it. That enormous number, of course, includes millions of people that most Americans would not consider disabled and in need of special protections. For example, even those with communicable diseases or serious behavior disorders would receive special privileges under this act. I cannot support a bill which extends that far beyond its original, noble objective.

Because 43 million American are covered, every business in the United States will have to interpret and carry out the provisions contained in this bill, but they should not have to read our minds. Terms found in the employ-

ment title are entirely subjective, such as undue hardship, essential functions, and reasonable accommodation. By leaving clarification up to the courts, we are inviting costly and unnecessary litigation. Without clear guidance, businesses will be uncertain about what standards to follow.

Since 1964, America has provided a means of redress for employees discriminated against in the workplace. Administrative medication and make-whole remedies found in the Civil Rights Act of 1964 such as back pay, injunctive relief, and attorney's fees have worked well for the past 25 years. But the introduction of H.R. 4000 changes the very basis of mediation in employment discrimination—H.R. 4000 would add punitive and compensatory damages.

Because ADA references title VII instead of specifying the remedies available, the Civil Rights Act of 1990 as currently written would change the assumptions made in crafting this bill. Punitive damages are counterproductive in employment disputes—they discourage medication and encourage litigation making it much harder to maintain a viable working relationship. That is, after all, the goal of title VII.

I want to make it perfectly clear that I would support a bill designed to provide the disabled with the means necessary to enter the mainstream of American society—that includes making public transportation accessible, ensuring fairness in the employment process, and encouraging modifications in public accommodations.

But the Americans With Disabilities Act goes far beyond what is needed to assure equal access to the disabled. We should be careful that in protecting one group of Americans we do not forget the rights of others. A balance must be struck between the needs of the disabled and the nearly blanket coverage that this bill provides. Fairness and equity are the cornerstones of all civil rights law—let's make it fair for everyone.

Mr. RAHALL. Mr. Chairman, I am pleased to rise in strong support of H.R. 2273, the Americans With Disabilities Act.

This bill was under the jurisdiction of four standing committees in the House, and it was my privilege to served on two of them—the Education and Labor Committee and the Public Works and Transportation Committee.

In that context, I wish to congratulate Chairman GLENN ANDERSON of the Public Works and Transportation Committee, and Surface Transportation Subcommittee Chairman NORMAN MINETA, for their strength in bring H.R. 2273 out of our committee without weakening amendments, by a vote fo 45 to 5. By the same token, I extend the same congratulations to Chairman GUS HAWKINS of the Education and Labor Committee for maintaining the same high standard of leadership with regard to the Americans With Disabilities Act, as he displays in regard to all civil rights measures, in guiding the bill through rough waters. Our committee fended off 15 weakening amendments resulting in a unanimous committee vote of 35 to 0 in reporting the bill.

While I do not serve on the Energy and Commerce and Judiciary Committees, I offer my congratulations and thanks to the chairmen of both committees for their guidance and leadership in reporting the ADA, by votes of 40 to 3 and 32 to 3, respectively.

Mr. Chairman, I think it is important for our colleagues in the House to note the above referenced committee votes, and to keep those statistics in mind as they deliberate on pending amendments to the ADA being considered on the floor today.

This bill has the support of the U.S. Attorney General, and the President of the United States, with one exceptiion, and that is whether or not punitive and/or compensatory damages ought to be allowed in cases where disabled persons are able to prove intentional discrimination.

I will oppose the so-called administration's remedy amendment to strike the compensatory damages award provisions in proven cases of intentional discrimination for the simple reason that, if no one out there is practicing discrimination against the disabled, as they should not be, they have nothing to worry about, do they?

Mr. Chairman, the ADA bill has been through the rigors of four House committees and their subcommittees of jurisdiction over employment, public accommodations, public transportation, telecommunications, and the right to be awarded compensatory damages for 43 million disabled individuals in this country. While no weakening amendments were adopted, this bill has been through a long series of clarifications and modifications, striking the proper balance between civil rights of persons with disabilities and the legitimate legislative concerns of businesses, large and small.

The definitiion of disability is the same definition that has been in effect since 1973—for 17 years section 504 of the Rehabilitation Act. Thre is nothing new with respect to identification of a person with a disability in the ADA except that it clearly excludes from the definition any person who is a current illegal user of drugs.

Quite simply, the ADA bill prohibits certain employers with 25 or more employees—when provisions go into effect in 2 years, and with 15 or more employees 2 years later—from discriminating against a qualified individual on the basis of his or her disability.

In the context of employment rights, the bill also provides that employers should provide reasonable accommodations to a disabled individual that would allow that person to perform a job, unless such acommodations would impose an undue hardship on the employer.

Public accommodations equity provided in the bill prohibits privately operated public entities, such as restaurants, hotels, and retail stores, from excluding or refusing to serve disabled individuals. It requries facilities being newly constructed to be made accessible, and provides that structural barriers in existing facilities to be removed if such removal is readily achievable.

The measure requires all telephone companies that provide voice transmission services to also provide telephone relay services to allow hearing or speech impaired individuals to place and receive calls through telephone devices to or from persons who are not impaired.

The ADA bill requires that public transit authorities, private intercity bus services, Amtrak and rapid, light, and commuter rail systems to make their systems accessible to persons with disabilities, including for persons using wheelchairs. Specific provisions are included to ease the burden that may otherwise be placed on small and rural communities.

The bill provides, consistent again with the 17-year-old section 504 coverage, protection of the American public against any individual who poses a direct threat to the health or safety of others. The bill defines direct threat as a significant risk to the health or safety of others that cannot be eliminated by reasonable accommodation.

As stated earlier, the bill does not include drug users as disabled persons, and further the ADA bill states clearly that homosexuality and bisexuality are not impairments or disabilities; and finally, that the term disability does not include transvestites, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders and other sexual behavior disorders, compulsive gambling, kleptomania, pyromania, or psychoactive substance use disorders resulting from current illegal use of drugs.

In conclusioin, Mr. Chairman, let me just say that this bill, about which so much has been said and written, very simply bars discrimination in hiring, ensures that people with disabilities can ride trains, buses and subways, and make telephone calls. If anyone denies the disabled these privileges, they can be sued.

Does that sound familar? If it does, it is only because you and I take those privileges for granted every day of our lives.

If we, as able-bodied citizens, were to be discriminated against in hiring, we would sue. If we were to be barred from our favorite restaurant, movie theater, or train, bus or subway, we would be outraged and we would demand our rights as Americans. If we were prevented from communicating with our friends, business associates or families by telephone, and God forbid, prevented from making a 911 call in a life-threatening situation, we would be appalled, and we would demand our right to the ability to communicate.

We take our rights for granted. If we want to go to a movie, or take our kids to a museum, or out to a nice restaurant for a meal, or call our mothers on Mothers' Day, we just do it. Not much planning goes into it except to decide which movie we want to see, or what we want to order from the menu.

These daily privileges that we take for granted and which, if denied us we would demand and get, are not taken for granted by the disabled. They don't know if they can even get into a movie house or a restaurant—because of stairs that wheelchairs cannot scale. Yet a simple, inexpensive ramp would give them that access.

Think of the ADA bill simply as a guide—a legal guide—to be used by business, by government, by transportation authorities for granting the same privileges to the disabled as they automatically grant to those of us who are more fortunate because we are able-bodied.

The ADA bill is an investment in our future, and the investment it requires will be repaid in full by allowing the disabled the right to work,

compete and contribute in ways they never have before.

We have the unprecedented opportunity today to provide a clear and comprehensive national mandate to end discrimination against the disabled, and to bring them into the economic mainstream of American life. I'm proud to be a part of today's deliberations, and I urge my colleagues to support H.R. 2273.

Mr. AUCOIN. Mr. Chairman, I rise in strong support of the Americans With Disabilities Act and I urge my colleagues to do the same.

We have a unique opportunity before us today—the opportunity to pass legislation which will alter dramatically the way millions of Americans go about their everyday lives.

The Americans With Disabilities Act is more than just another law, it is a declaration of independence for all Americans with physical or mental disabilities or those afflicted by disease. It says that everyone has the same right as everyone else to hold a job, to ride a bus or to stay at a hotel, without fear of discrimination.

I'd like to commend the authors of the Americans With Disabilities Act for their hard work in crafting a bill that provides both an effective means of combating discrimination and yet gives enough latitude to employers to allow them the flexibility to achieve compliance.

This is an opportunity for Congress to reaffirm its commitment to leadership which does not countenance the myths, stereotypes, and irrational fears which give rise to discrimination against people with disabilities. I urge my colleagues to support the Americans With Disabilities Act.

Mrs. COLLINS. Mr. Chairman, I rise today to express my support for the Americans With Disabilities Act, H.R. 2273. Passage of this bill is of grave importance to every person who is a citizen of this Nation.

The United States of America is more than just a name, but also a statement of ideals. This Nation offers the promise of democracy, freedom, liberty, the pursuit of happiness and most important, equality. Our Nation cannot function properly without fulfilling these goals. Our history is one of the promise and realization of economic and social success. As a result the world now looks at us as the champion for a democratic way of life. Each minority group has had to push for their inclusion into American society. In the process, laws, and even amendments to the Constitution, have been necessary to make the system fair for all. The last truly major civil rights legislation was passed in 1965. However, the act neglected to include the disabled community, which is now 43 million citizens and America's largest minority. Once again it is clear our laws need more fine tuning. Each one of us is elected to represent all portions of the American population. We cannot forget close to one-fifth of the Nation because of cost.

The Americans With Disabilities Act was developed by the National Council on the Handicapped, an independent Federal agency appointed by President Reagan to investigate the status of disabled Americans. Over the past 5 years, the council has conducted innumerable hearings and forums across this country and has reached the same inescapable conclusions again and again. It is barriers and discrimination, rather than the inherent physical or mental characteristics of persons with disabilities themselves, which are to blame for the staggering unemployment and isolation of these citizens, our Nation's largest minority. The act is written so as to end discrimination in six basic areas: employment, housing, transportation, public accommodations, public services, and communication barriers, the American population.

The bill's wide scope required it to be referred to three committees in the House. The numerous subcommittee and full committee hearings and markups were the forums of tremendous debate and change. The bill's detractors assert that the costs of compliance will impose too great a burden on American businesses. We cannot put a price on human dignity and equality.

More than two-thirds of the 43 million citizens with disabilities are unemployed. This is not a result of lack of skills but rather lack of opportunity. ADA will form the foundation for policies and programs which will remedy the current situation. It is interesting to note, however, that according to the U.S. Chamber of Commerce, workers with disabilities have demonstrated that their job performance competes with and frequently exceeds that of other workers in production, efficiency, and favorable accident and absentee rates. Disabled does not mean unable. Full participation by people with disabilities is essential as we face an increasing global economic challenge.

It is always the assumption of some, that changes in the status quo which allow a new group their equal rights will cost large sums of money, lower quality, and cause numerous incalculable problems. However, time and time again these assumptions have proved to be false.

I ask you to join me and over 250 other congressional cosponsors, the disabled community, and President Bush in the fight to end discrimination against our Nation's largest minority. Vote "yes" for the Americans With Disabilities Act, and "no" to any amendments that will weaken its power or limit its scope.

Mr. COYNE. Mr. Chairman, I rise today in support of the Americans With Disabilities Act. I would like to take this opportunity to acknowledge the four House committees that worked so hard to bring it to the floor. I also want to congratulate the bill's sponsor, STENY HOYER.

Presently, there is widespread fear and prejudice against disabled persons. It is a common fact that the disabled have a greater struggle finding employment, are more susceptible to poverty and, frequently, are involuntarily isolated because it is too difficult to get around in public places. In most cases, it is not the individual's disability that places constraint's on behavior, rather, it is the obstacles placed by society.

The Americans With Disabilities Act will remove the barriers disabled individuals experience. Further, it will provide employment and economic opportunities to a deserving population in this country. I urge my colleagues to support this measure.

Mr. HOYER. Mr. Chairman, as the general debate on the Americans With Disabilities Act draws to a close, I want to thank all of those people in and out of the Congress who helped to make this historic event possible. I would also like to submit for the RECORD a brief overview of the provisions of the bill. I will be offering a further description when the House completes debate on the proposed amendments.

There has been a number of staff in the House of Representatives who have worked on the ADA over the last year. I would like to express my deepest appreciation for their long hours and hard work. They are all true professionals who perform their jobs with tremendous talent and dedication. They are: Reggie Govan, Randy Johnson, Pat Morrissey, Maria Cuprill, Bob Tate, Eric Jensen, Paul Schlesinger, Sante Esposito, Roger Slagle, Phyllis Guss, Ken House, Bill Jones, Cynthia Meadow, Catherine Leroy, Stuart Ishimaru, Katherine Hazeem, Alan Roth, David Leach, Glenn Scammel, David Tittsworth, and Rob Mooney.

There have also been a number of dedicated citizens in the disability community who have worked tirelessly to make this day happen. I would also like to acknowledge their tremendous contribution and dedication. These include, Ralph Neas and Pat Wright; the legal team: Chai Feldblum and Arlene Mayerson, coordinators; Jim Weisman, Karen Strauss, Bob Burgdorf, Ellen Weber, Bonnie Milstein, Sy Dubow and David Capozzi. Lobbying coordinator Liz Savage and grassroots coordinator, Marilyn Golden. Technical assistance by John Wodatch, Dennis Cannon, Justin Dart, I. King Jordan, Jay Rochlin, and Harold Snider.

Also, the people who really made it happen: Gerald Baptiste, Wade Blank, Marylou Breslin, Marca Bristo, Fred Cowell, Randy Davis, Curt Decker, Alice DeMichelis, Robert DeMichelis II, Cynthia Folcarelli, Dwayne French, Lex Frieden, Karen Friedman, Michael Gibson, Eric Griffin, Judy Heumann, Ron Honberg, Ilene Horndt, Dana Jackson, Mark Johnson, Donna Ledder, Sara Lichtman, Paul Marchand, Scott Marshall, Maureen McCloskey, Kathy McInnis, Kathy Megivern, Bonnie O'Day, Becky Ogle, Lee Page, Steve Pardich, Jim Parrish, Dick Pommo, Larry Robinson, Denise Rozell, Judy Shaw, Ken South, Laurie Summers, Shelly Teed-Wargo, Jim Tuscher, Dick Verville, Fred Weiner, and Bob Williams.

A special note and thank you must go to the family of Dennis Smurr who lost his life while realizing his dream of a society free and accessible to all Americans.

Most of all, thank you to the millions of people with disabilities, their families and friends who never gave up the dream. They gave of their time and limited financial resources educating the Congress and the Bush administration and the American public on why this bill is so urgently needed.

EMPLOYMENT

Title I of the ADA specifies that an employer, employment agency, labor organization, or joint labor-management committee may not discriminate against any qualified individual with a disability in regard to any term, condition or privilege of employment. The ADA incorporates many of the standards of discrimination set out in regulations implementing section 504 of the Rehabilitation Act of 1973, including the obligation to provide reasonable

accommodations unless it would result in an undue hardship on the operation of the business.

The ADA incorporates by reference the enforcement provisions under title VII of the Civil Rights Act of 1964. Currently, remedies available under title VII include injunctive relief and back pay.

Title I goes into effect 2 years after the date of enactment. For the first 2 years after the effective date, employers with 25 or more employees are covered. Thereafter, employers with 15 or more employees are covered.

PUBLIC SERVICES, INCLUDING PUBLIC TRANSPORTATION SERVICES PROVIDED BY PUBLIC ENTITIES

Title II of the ADA specifies that no qualified individual with a disability may be discriminated against by a public entity that is, a State and local government or a department, agency, special purpose district or other instrumentality of a State or a local government, or by AMTRAK or a commuter rail authority.

In addition to a general prohibition against discrimination, title II includes specific requirements applicable to public transportation provided by public transit authorities, commuter rail authorities, and AMTRAK.

With respect to public transportation provided by public transit authorities, all new fixed route buses must be made accessible unless a transit authority can demonstrate to the Secretary of Transportation that no lifts are available from qualified manufacturers, despite the fact that good faith efforts have been made to locate such lifts, and that a further delay in purchasing new buses would significantly impair transportation services in the community served. A public transit authority must also provide paratransit for those individuals who cannot otherwise use mainline accessible transportation—and to one person associated with an individual with a disability—up to the point where the provision of such supplementary services would pose an undue financial burden on the transit authority.

With respect to AMTRAK, all new intercity vehicles must be readily accessible to and usable by individuals with disabilities. Special rules are included specifying the standards of accessibility for people using wheelchairs for each category of passenger car. With respect to new cars used by commuter rail authorities, such cars must be accessible. However, special rules are delineated explaining the meaning of "accessibility" for people who use wheelchairs.

New stations must be designed and constructed in an accessible manner. Key existing stations serving rapid rail and light rail systems must be made accessible as soon as practicable but in no more then 30 years where modifications are extraordinarily expensive—with two-thirds of the stations to be made accessible within 20 years. For key existing stations serving commuter rail, the timeframe is 20 years as it is for all stations serving Amtrak.

Title II incorporates by reference the enforcement provisions in section 505 of the Rehabilitation Act of 1973.

Title II takes effect 18 months after the date of enactment, with the exception of the obligation to ensure that new public buses are accessible, which takes effect for solicitations made 30 days after the date of enactment.

PUBLIC ACCOMMODATIONS AND SERVICES PROVIDED BY PRIVATE ENTITIES

Title III of the ADA specifies that no individual shall be discriminated against on the basis of disability in the full and equal enjoyment of the goods, services, facilities, privileges, advantages, and accommodations by any person who owns, leases, or leases to, or operates a place of public accommodation. Public accommodations include: restaurants, hotels, doctor's offices, pharmacies, grocery stores, shopping centers, and other similar establishments.

Existing facilities must be made accessible if the changes are readily achievable, that is, easily accomplishable without much difficulty or expense. Auxiliary aids and services must be provided unless such provision would fundamentally alter the nature of the program or cause an undue burden. New construction and major renovations must be designed and constructed to be readily accessible to and usable by people with disabilities. Elevators need not be installed if the building has less than three stories or has less than 3,000 square feet per floor except if the building is a shopping center, shopping mall, or offices for health care providers or if the Attorney General decides that other categories of buildings require the installation of elevators.

Title III also includes specific prohibitions on discrimination in public transportation services provided by private entities, including the failure to make new over-the-road buses accessible 6 years from the date of enactment for large providers and 7 years for small providers. "Accessibility" will be defined in regulations issued by the Secretary of Transportation and reflect the results of a 3-year study conducted by the Office of Technology Assessment. Lifts are not necessarily required on all new buses.

Title III incorporates enforcement provisions in private actions comparable to the applicable enforcement provisions in title II of the Civil Rights Act by the Attorney General. The Attorney General may also seek monetary—not punitive—damages on behalf of an aggrieved individual and civil penalties.

The provisions of title III became effective 18 months after the date of enactment.

TELECOMMUNICATION RELAY SERVICES

Title IV of the ADA specifies that telephone services offered to the general public must include interstate and intrastate telecommunication relay services so that such services provide individuals who use nonvoice terminal devices because of disabilities—such as deaf persons—with opportunities for communications that are equivalent to those provided to individuals able to use voice telephone services.

MISCELLANEOUS PROVISIONS

Title V of the ADA includes miscellaneous provisions, including coverage of Congress, a construction clause explaining the relationship between the provisions in the ADA and the provisions in other Federal and State laws; a construction clause explaining that the ADA does not disrupt the current nature of insurance underwriting; a prohibition against retaliation; a clear statement that States are not immune from actions in courts of competent jurisdiction for a violation of the ADA; a directive to the Architectural and Transportation Barriers Compliance Board to issue guidelines; and authority to award attorney's fees.

Mr. Speaker, I will be offering a description of the major provisions of this bill when the House votes on final passage of the ADA next Tuesday. For the moment, however, I would like to make a few comments on two amendments that will be offered here today.

First, there will be an amendment concerning the "essential functions" of the job. Under the ADA, a "qualified person with a disability" is someone who, with reasonable accommodation if necessary can perform the essential functions of the job. An amendment was added in the Judiciary Committee clarifying that consideration must be given to an employer's determination as to what job functions are essential. That provision has been incorporated in the final bill before the House today. An amendment that would have created a presumption in favor of the employer's determination of what was an essential function was rejected by the Judiciary Committee.

An employer is the one that first designates the essential functions of the job. A person with a disability, who has been rejected because he or she cannot perform one of those functions because of his or her disability, can then challenge whether that function is, indeed, essential. At that point, a court should give consideration to the employer's judgment, as well as to the evidence submitted by the plaintiff, as to whether the function is, in fact, essential. Another amendment that was offered today to the ADA provides that a court should consider as evidence of an essential function any written job description the employer may have. As with the first amendment, this provision is neutral as to the weight to be given to the evidence. A job description which is not at all tailored to the actual functions of the job will, and should, have little weight. The fact that a task is written in a job description does not, by itself, mean that it is, in fact, essential. While a court should consider the written job description as evidence, the court must ultimately decide, based on the evidence submitted by both the person with a disability and the employer, what constitutes the essential functions of the job. Because this amendment does not change the approach that currently exists under section 504, I will not oppose it.

By contrast, I will oppose another amendment that will be offered today. An amendment to the ADA that will be offered by Congressman OLIN would create a presumption that an accommodation that costs over 10 percent of an employee's annual salary constitutes a per se undue hardship and thus would not be required under the act. That provision is directly contrary to the flexible approach for determining undue hardship, which is based on over a decade of experience under the Rehabilitation Act. As noted, the Rehabilitation Act approach focuses on the resources of the employer, not on the paycheck of the employee. A 10 percent cap provision fails to protect adequately the rights of persons with disabilities to receive accommodations that would, in fact, not impose an undue hardship on an employer. For example, the provision fails to account for the fact that many accommodations, such as physical

changes to facilities and the acquisition of equipment, last for many years and are used by employees other than the employee in question, and that businesses always amortize the cost of equipment over a period of years. Morever, a 10-percent cap on accommodations based on an employee's salary would exclude the hiring or retaining of an employee who requires an accommodation that exceeds that limit, but would not truly impose an undue hardship on the employer. As Dick Drach, manager of disability programs for E.I. Dupont has stated:

A 10 percent of salary as a definition of undue hardship doesn't make any sense from the perspective of a large corporation with many sites. Example: a $3,000 accommodation may be denied using this formula for an employee who earns $20,000. Two thousand or even $3,000 is nothing to a large site.

For this reason, I will be opposing that amendment.

The CHAIRMAN. The Chair announces that all time controlled by the Committee on the Judiciary has expired.

Pursuant to the rule, the amendment in the nature of a substitute consisting of the text printed in part 1 of House Report 101-488 shall be considered as an original bill for the purpose of amendment and shall be considered as having been read.

The text of the amendment in the nature of a substitute made in order as original text is as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Americans with Disabilities Act of 1990".

(b) TABLE OF CONTENTS.—The table of contents is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Findings and purposes.
Sec. 3. Definitions.

TITLE I—EMPLOYMENT

Sec. 101. Definitions.
Sec. 102. Discrimination.
Sec. 103. Defenses.
Sec. 104. Illegal use of drugs and alcohol.
Sec. 105. Posting notices.
Sec. 106. Regulations.
Sec. 107. Enforcement.
Sec. 108. Effective date.

TITLE II—PUBLIC SERVICES

Subtitle A—Prohibition Against Discrimination and Other Generally Applicable Provisions

Sec. 201. Definition.
Sec. 202. Discrimination.
Sec. 203. Enforcement.
Sec. 204. Regulations.
Sec. 205. Effective date.

Subtitle B—Actions Applicable to Public Transportation Provided by Public Entities Considered Discriminatory

PART I—PUBLIC TRANSPORTATION OTHER THAN BY AIRCRAFT OR CERTAIN RAIL OPERATIONS

Sec. 221. Definitions.
Sec. 222. Public entities operating fixed route systems.
Sec. 223. Paratransit as a complement to fixed route service.
Sec. 224. Public entity operating a demand responsive system.
Sec. 225. Temporary relief where lifts are unavailable.
Sec. 226. New facilities.
Sec. 227. Alterations of existing facilities.
Sec. 228. Public transportation programs and activities in existing facilities and one car per train rule.
Sec. 229. Regulations.
Sec. 230. Interim accessibility requirements.
Sec. 231. Effective date.

PART II—PUBLIC TRANSPORTATION BY INTERCITY AND COMMUTER RAIL

Sec. 241. Definitions.
Sec. 242. Intercity and commuter rail actions considered discriminatory.
Sec. 243. Conformance of accessibility standards.
Sec. 244. Regulations.
Sec. 245. Interim accessibility requirements.
Sec. 246. Effective date.

TITLE III—PUBLIC ACCOMMODATIONS AND SERVICES OPERATED BY PRIVATE ENTITIES

Sec. 301. Definitions.
Sec. 302. Prohibition of discrimination by public accommodations.
Sec. 303. New construction and alterations in public accommodations and commercial facilities.
Sec. 304. Prohibition of discrimination in public transportation services provided by private entities.
Sec. 305. Study.
Sec. 306. Regulations.
Sec. 307. Exemptions for private clubs and religious organizations.
Sec. 308. Enforcement.
Sec. 309. Examinations and courses.
Sec. 310. Effective date.

TITLE IV—TELECOMMUNICATIONS RELAY SERVICES

Sec. 401. Telecommunication services for hearing-impaired and speech-impaired individuals.
Sec. 402. Closed-captioning of public service announcements.

TITLE V—MISCELLANEOUS PROVISIONS

Sec. 501. Construction.
Sec. 502. State immunity.
Sec. 503. Prohibition against retaliation and coercion.
Sec. 504. Regulations by the Architectural and Transportation Barriers Compliance Board.
Sec. 505. Attorney's fees.
Sec. 506. Technical assistance.
Sec. 507. Federal wilderness areas.
Sec. 508. Transvestites.
Sec. 509. Congressional inclusion.
Sec. 510. Illegal use of drugs.
Sec. 511. Definitions.
Sec. 512. Amendments to the Rehabilitation Act.
Sec. 513. Alternative means of dispute resolution.
Sec. 514. Severability.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) some 43,000,000 Americans have one or more physical or mental disabilities, and this number is increasing as the population as a whole is growing older;

(2) historically, society has tended to isolate and segregate individuals with disabilities, and, despite some improvements, such forms of discrimination against individuals with disabilities continue to be a serious and pervasive social problem;

(3) discrimination against individuals with disabilities persists in such critical areas as employment, housing, public accommodations, education, transportation, communication, recreation, institutionalization, health services, voting, and access to public services;

(4) unlike individuals who have experienced discrimination on the basis of race, color, sex, national origin, religion, or age, individuals who have experienced discrimination on the basis of disability have often had no legal recourse to redress such discrimination;

(5) individuals with disabilities continually encounter various forms of discrimination, including outright intentional exclusion, the discriminatory effects of architectural, transportation, and communication barriers, overprotective rules and policies, failure to make modifications to existing facilities and practices, exclusionary qualification standards and criteria, segregation, and relegation to lesser services, programs, activities, benefits, jobs, or other opportunities;

(6) census data, national polls, and other studies have documented that people with disabilities, as a group, occupy an inferior status in our society, and are severely disadvantaged socially, vocationally, economically, and educationally;

(7) individuals with disabilities are a discrete and insular minority who have been faced with restrictions and limitations, subjected to a history of purposeful unequal treatment, and relegated to a position of political powerlessness in our society, based on characteristics that are beyond the control of such individuals and resulting from stereotypic assumptions not truly indicative of the individual ability of such individuals to participate in, and contribute to, society;

(8) the Nation's proper goals regarding individuals with disabilities are to assure equality of opportunity, full participation, independent living, and economic self-sufficiency for such individuals; and

(9) the continuing existence of unfair and unnecessary discrimination and prejudice denies people with disabilities the opportunity to compete on an equal basis and to pursue those opportunities for which our free society is justifiably famous, and costs the United States billions of dollars in unnecessary expenses resulting from dependency and nonproductivity.

(b) PURPOSE.—It is the purpose of this Act—

(1) to provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities;

(2) to provide clear, strong, consistent, enforceable standards addressing discrimination against individuals with disabilities;

(3) to ensure that the Federal Government plays a central role in enforcing the standards established in this Act on behalf of individuals with disabilities; and

(4) to invoke the sweep of congressional authority, including the power to enforce the fourteenth amendment and to regulate commerce, in order to address the major areas of discrimination faced day-to-day by people with disabilities.

SEC. 3. DEFINITIONS.

As used in this Act:

(1) AUXILIARY AIDS AND SERVICES.—The term "auxiliary aids and services" includes—

(A) qualified interpreters or other effective methods of making aurally delivered materials available to individuals with hearing impairments;

(B) qualified readers, taped texts, or other effective methods of making visually deliv-

ered materials available to individuals with visual impairments;

(C) acquisition or modification of equipment or devices; and

(D) other similar services and actions.

(2) DISABILITY.—The term "disability" means, with respect to an individual—

(A) a physical or mental impairment that substantially limits one or more of the major life activities of such individual;

(B) a record of such an impairment; or

(C) being regarded as having such an impairment.

(3) STATE.—The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

## TITLE I—EMPLOYMENT

SEC. 101. DEFINITIONS.

As used in this title:

(1) COMMISSION.—The term "Commission" means the Equal Employment Opportunity Commission established by section 705 of the Civil Rights Act of 1964 (42 U.S.C. 2000e–4).

(2) COVERED ENTITY.—The term "covered entity" means an employer, employment agency, labor organization, or joint labor-management committee.

(3) DIRECT THREAT.—The term "direct threat" means a significant risk to the health or safety of others that cannot be eliminated by reasonable accommodation.

(4) EMPLOYEE.—The term "employee" means an individual employed by an employer.

(5) EMPLOYER.—

(A) IN GENERAL.—The term "employer" means a person engaged in an industry affecting commerce who has 15 or more employees for each working day in each of 20 or more calendar weeks in the current or preceding calendar year, and any agent of such person, except that, for two years following the effective date of this title, an employer means a person engaged in an industry affecting commerce who has 25 or more employees for each working day in each of 20 or more calendar weeks in the current or preceding year, and any agent of such person.

(B) EXCEPTIONS.—The term "employer" does not include—

(i) the United States, a corporation wholly owned by the government of the United States, or an Indian tribe; or

(ii) a bona fide private membership club (other than a labor organization) that is exempt from taxation under section 501(c) of the Internal Revenue Code of 1986.

(6) ILLEGAL USE OF DRUGS.—

(A) IN GENERAL.—The term "illegal use of drugs" means the use of drugs, the possession or distribution of which is unlawful under the Controlled Substances Act (21 U.S.C. 812). Such term does not include the use of a drug taken under supervision by a licensed health care professional, or other uses authorized by the Controlled Substances Act or other provisions of Federal law.

(B) DRUGS.—The term "drug" means a controlled substance, as defined in schedules I through V of section 202 of the Controlled Substances Act.

(7) PERSON, ETC.—The terms "person", "labor organization", "employment agency", "commerce", and "industry affecting commerce", shall have the same meaning given such terms in section 701 of the Civil Rights Act of 1964 (42 U.S.C. 2000e).

(8) QUALIFIED INDIVIDUAL WITH A DISABILITY.—The term "qualified individual with a disability" means an individual with a disability who, with or without reasonable accommodation, can perform the essential functions of the employment position that such individual holds or desires. For the purposes of this title, consideration shall be given to the employer's judgment as to what functions of a job are essential.

(9) REASONABLE ACCOMMODATION.—The term "reasonable accommodation" may include—

(A) making existing facilities used by employees readily accessible to and usable by individuals with disabilities; and

(B) job restructuring, part-time or modified work schedules, reassignment to a vacant position, acquisition or modification of equipment or devices, appropriate adjustment or modifications of examinations, training materials or policies, the provision of qualified readers or interpreters, and other similar accommodations for individuals with disabilities.

(10) UNDUE HARDSHIP.—

(A) IN GENERAL.—The term "undue hardship" means an action requiring significant difficulty or expense, when considered in light of the factors set forth in subparagraph (B).

(B) FACTORS TO BE CONSIDERED.—In determining whether an accommodation would impose an undue hardship on a covered entity, factors to be considered include—

(i) the nature and cost of the accommodation needed under this Act;

(ii) the overall financial resources of the facility or facilities involved in the provision of the reasonable accommodation; the number of persons employed at such facility; the effect on expenses and resources, or the impact otherwise of such accommodation upon the operation of the facility;

(iii) the overall financial resources of the covered entity; the overall size of the business of a covered entity with respect to the number of its employees; the number, type, and location of its facilities; and

(iv) the type of operation or operations of the covered entity, including the composition, structure, and functions of the workforce of such entity; the geographic separateness, administrative, or fiscal relationship of the facility or facilities in question to the covered entity.

SEC. 102. DISCRIMINATION.

(a) GENERAL RULE.—No covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures, the hiring, advancement, or discharge of employees, employee compensation, job training, and other terms, conditions, and privileges of employment.

(b) CONSTRUCTION.—As used in subsection (a), the term "discriminate" includes—

(1) limiting, segregating, or classifying a job applicant or employee in a way that adversely affects the opportunities or status of such applicant or employee because of the disability of such applicant or employee;

(2) participating in a contractual or other arrangement or relationship that has the effect of subjecting a covered entity's qualified applicant or employee with a disability to the discrimination prohibited by this title (such relationship includes a relationship with an employment or referral agency, labor union, an organization providing fringe benefits to an employee of the covered entity, or an organization providing training and apprenticeship programs);

(3) utilizing standards, criteria, or methods of administration—

(A) that have the effect of discrimination on the basis of disability; or

(B) that perpetuate the discrimination of others who are subject to common administrative control;

(4) excluding or otherwise denying equal jobs or benefits to a qualified individual because of the known disability of an individual with whom the qualified individual is known to have a relationship or association;

(5)(A) not making reasonable accommodations to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, unless such covered entity can demonstrate that the accommodation would impose an undue hardship on the operation of the business of such covered entity; or

(B) denying employment opportunities to a job applicant or employee who is an otherwise qualified individual with a disability, if such denial is based on the need of such covered entity to make reasonable accommodation to the physical or mental impairments of the employee or applicant;

(6) using qualification standards, employment tests or other selection criteria that screen out or tend to screen out an individual with a disability or a class of individuals with disabilities unless the standard, test or other selection criteria, as used by the covered entity, is shown to be job-related for the position in question and is consistent with business necessity; and

(7) failing to select and administer tests concerning employment in the most effective manner to ensure that, when such test is administered to a job applicant or employee who has a disability that impairs sensory, manual, or speaking skills, such test results accurately reflect the skills, aptitude, or whatever other factor of such applicant or employee that such test purports to measure, rather than reflecting the impaired sensory, manual, or speaking skills of such employee or applicant (except where such skills are the factors that the test purports to measure).

(c) MEDICAL EXAMINATIONS AND INQUIRIES.—

(1) IN GENERAL.—The prohibition against discrimination as referred to in subsection (a) shall include medical examinations and inquiries.

(2) PREEMPLOYMENT.—

(A) PROHIBITED EXAMINATION OR INQUIRY.—Except as provided in paragraph (3), a covered entity shall not conduct a medical examination or make inquiries of a job applicant as to whether such applicant is an individual with a disability or as to the nature or severity of such disability.

(B) ACCEPTABLE INQUIRY.—A covered entity may make preemployment inquiries into the ability of an applicant to perform job-related functions.

(3) EMPLOYMENT ENTRANCE EXAMINATION.—A covered entity may require a medical examination after an offer of employment has been made to a job applicant and prior to the commencement of the employment duties of such applicant, and may condition an offer of employment on the results of such examination, if—

(A) all entering employees are subjected to such an examination regardless of disability;

(B) information obtained regarding the medical condition or history of the applicant is collected and maintained on separate forms and in separate medical files and is

treated as a confidential medical record, except that—

(i) supervisors and managers may be informed regarding necessary restrictions on the work or duties of the employee and necessary accommodations;

(ii) first aid and safety personnel may be informed, when appropriate, if the disability might require emergency treatment; and

(iii) government officials investigating compliance with this Act shall be provided relevant information on request; and

(C) the results of such examination are used only in accordance with this title.

(4) EXAMINATION AND INQUIRY.—

(A) PROHIBITED EXAMINATIONS AND INQUIRIES.—A covered entity shall not require a medical examination and shall not make inquiries of an employee as to whether such employee is an individual with a disability or as to the nature or severity of the disability, unless such examination or inquiry is shown to be job-related and consistent with business necessity.

(B) ACCEPTABLE EXAMINATIONS AND INQUIRIES.—A covered entity may conduct voluntary medical examinations, including voluntary medical histories, which are part of an employee health program available to employees at that work site. A covered entity may make inquiries into the ability of an employee to perform job-related functions.

(C) REQUIREMENT.—Information obtained under subparagraph (B) regarding the medical condition or history of any employee are subject to the requirements of subparagraphs (B) and (C) of paragraph (3).

SEC. 103. DEFENSES.

(a) IN GENERAL.—It may be a defense to a charge of discrimination under this Act that an alleged application of qualification standards, tests, or selection criteria that screen out or tend to screen out or otherwise deny a job or benefit to an individual with a disability has been shown to be job-related and consistent with business necessity, and such performance cannot be accomplished by reasonable accommodation, as required under this title.

(b) QUALIFICATION STANDARDS.—The term "qualification standards" may include a requirement that an individual shall not pose a direct threat to the health or safety of other individuals in the workplace.

(c) RELIGIOUS ENTITIES.—

(1) IN GENERAL.—This title shall not prohibit a religious corporation, association, educational institution, or society from giving preference in employment to individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

(2) RELIGIOUS TENETS REQUIREMENT.—Under this title, a religious organization may require that all applicants and employees conform to the religious tenets of such organization.

SEC. 104. ILLEGAL USE OF DRUGS AND ALCOHOL.

(a) QUALIFIED INDIVIDUAL WITH A DISABILITY.—For purposes of this title, the term "qualified individual with a disability" shall not include any employee or applicant who is currently engaging in the illegal use of drugs, when the covered entity acts on the basis of such use.

(b) RULES OF CONSTRUCTION.—Nothing in subsection (a) shall be construed to exclude as a qualified individual with a disability an individual who—

(1) has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of drugs, or has otherwise been rehabilitated successfully and is no longer engaging in such use;

(2) is participating in a supervised rehabilitation program and is no longer engaging in such use; or

(3) is erroneously regarded as engaging in such use, but is not engaging in such use;

except that it shall not be a violation of this Act for a covered entity to adopt or administer reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual described in paragraph (1) or (2) is no longer engaging in the illegal use of drugs.

(c) AUTHORITY OF COVERED ENTITY.—A covered entity—

(1) may prohibit the illegal use of drugs and the use of alcohol at the workplace by all employees;

(2) may require that employees shall not be under the influence of alcohol or be engaging in the illegal use of drugs at the workplace;

(3) may require that employees behave in conformance with the requirements established under the Drug-Free Workplace Act of 1988 (41 U.S.C. 701 et seq.);

(4) may hold an employee who engages in the illegal use of drugs or who is an alcoholic to the same qualification standards for employment or job performance and behavior that such entity holds other employees, even if any unsatisfactory performance or behavior is related to the drug use or alcoholism of such employee; and

(5) may, with respect to Federal regulations regarding alcohol and the illegal use of drugs, require that—

(A) employees comply with the standards established in such regulations of the Department of Defense, if the employees of the covered entity are employed in an industry subject to such regulations, including complying with regulations (if any) that apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Department of Defense);

(B) employees comply with the standards established in such regulations of the Nuclear Regulatory Commission, if the employees of the covered entity are employed in an industry subject to such regulations, including complying with regulations (if any) that apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Nuclear Regulatory Commission); and

(C) employees comply with the standards established in such regulations of the Department of Transportation, if the employees of the covered entity are employed in a transportation industry subject to such regulations, including complying with such regulations (if any) that apply to employment in sensitive positions in such an industry, in the case of employees of the covered entity who are employed in such positions (as defined in the regulations of the Department of Transportation).

(d) DRUG TESTING.—

(1) IN GENERAL.—For purposes of this title, a test to determine the illegal use of drugs shall not be considered a medical examination.

(2) CONSTRUCTION.—Nothing in this title shall be construed to encourage, prohibit, or authorize the conducting of drug testing for the illegal use of drugs by job applicants or employees or making employment decisions based on such test results.

(e) RAIL EMPLOYEES.—Nothing in this title shall be construed to encourage, prohibit, restrict, or authorize the otherwise lawful exercise by railroads of authority to—

(1) test railroad employees in, and applicants for, positions involving safety-sensitive duties, as determined by the Secretary of Transportation, for the illegal use of drugs and for on-duty impairment by alcohol; and

(2) remove such persons who test positive pursuant to paragraph (1) from safety-sensitive duties in implementing subsection (c).

SEC. 105. POSTING NOTICES.

Every employer, employment agency, labor organization, or joint labor-management committee covered under this title shall post notices in an accessible format to applicants, employees, and members describing the applicable provisions of this Act, in the manner prescribed by section 711 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-10).

SEC. 106. REGULATIONS.

Not later than 1 year after the date of enactment of this Act, the Commission shall issue regulations in an accessible format to carry out this title in accordance with subchapter II of chapter 5 of title 5, United States Code.

SEC. 107. ENFORCEMENT.

(a) POWERS, REMEDIES, AND PROCEDURES.—The powers, remedies, and procedures set forth in sections 705, 706, 707, 709, and 710 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-4, 2000e-5, 2000e-6, 2000e-8, and 2000e-9) shall be the powers, remedies, and procedures this title provides to the Commission, to the Attorney General, or to any person alleging discrimination on the basis of disability in violation of any provision of this Act, or regulations promulgated under section 106, concerning employment.

(b) COORDINATION.—The agencies with enforcement authority for actions which allege employment discrimination under this title and under the Rehabilitation Act of 1973 shall develop procedures to ensure that administrative complaints filed under this title and under the Rehabilitation Act of 1973 are dealt with in a manner that avoids duplication of effort and prevents imposition of inconsistent or conflicting standards for the same requirements under this title and the Rehabilitation Act of 1973. Such agencies shall establish such coordinating mechanisms in the regulations implementing this title and the Rehabilitation Act of 1973.

SEC. 108. EFFECTIVE DATE.

This title shall become effective 24 months after the date of enactment.

## TITLE II—PUBLIC SERVICES

### Subtitle A—Prohibition Against Discrimination and Other Generally Applicable Provisions

SEC. 201. DEFINITION.

As used in this title:

(1) PUBLIC ENTITY.—The term "public entity" means—

(A) any State or local government;

(B) any department, agency, special purpose district, or other instrumentality of a State or States or local government; and

(C) the National Railroad Passenger Corporation, and any commuter authority (as defined in section 103(8) of the Rail Passenger Service Act).

(2) QUALIFIED INDIVIDUAL WITH A DISABILITY.—The term "qualified individual with a disability" means an individual with a disability who, with or without reasonable modifications to rules, policies, or practices,

the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services or the participation in programs or activities provided by a public entity.

SEC. 202. DISCRIMINATION.

Subject to the provisions of this title, no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any such entity.

SEC. 203. ENFORCEMENT.

The remedies, procedures, and rights set forth in section 505 of the Rehabilitation Act of 1973 (29 U.S.C. 794a) shall be the remedies, procedures and rights this title provides to any person alleging discrimination on the basis of disability in violation of section 202.

SEC. 204. REGULATIONS.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Attorney General shall promulgate regulations in an accessible format that implement this subtitle. Such regulations shall not include any matter within the scope of the authority of the Secretary of Transportation under section 223, 229, or 244.

(b) RELATIONSHIP TO OTHER REGULATIONS.—Except for "program accessibility, existing facilities", and "communications", regulations under subsection (a) shall be consistent with this Act and with the coordination regulations under part 41 of title 28, Code of Federal Regulations (as promulgated by the Department of Health, Education, and Welfare on January 13, 1978), applicable to recipients of Federal financial assistance under section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794). With respect to "program accessibility, existing facilities", and "communications", such regulations shall be consistent with regulations and analysis as in part 39 of title 28 of the Code of Federal Regulations, applicable to federally conducted activities under such section 504.

(c) STANDARDS.—Regulations under subsection (a) shall include standards applicable to facilities and vehicles covered by this subtitle, other than facilities, stations, rail passenger cars, and vehicles covered by subtitle B. Such standards shall be consistent with the minimum guidelines and requirements issued by the Architectural and Transportation Barriers Compliance Board in accordance with section 504(a) of this Act.

SEC. 205. EFFECTIVE DATE.

(a) GENERAL RULE.—Except as provided in subsection (b), this subtitle shall become effective 18 months after the date of enactment of this Act.

(b) EXCEPTION.—Section 204 shall become effective on the date of enactment of this Act.

**Subtitle B—Actions Applicable to Public Transportation Provided by Public Entities Considered Discriminatory**

**PART I—PUBLIC TRANSPORTATION OTHER THAN BY AIRCRAFT OR CERTAIN RAIL OPERATIONS**

SEC. 221. DEFINITIONS.

As used in this part:

(1) DEMAND RESPONSIVE SYSTEM.—The term "demand responsive system" means any system of providing designated public transportation which is not a fixed route system.

(2) DESIGNATED PUBLIC TRANSPORTATION.—The term "designated public transportation" means transportation (other than public school transportation) by bus, rail, or any other conveyance (other than transportation by aircraft or intercity or commuter rail transportation (as defined in section 241)) that provides the general public with general or special service (including charter service) on a regular and continuing basis.

(3) FIXED ROUTE SYSTEM.—The term "fixed route system" means a system of providing designated public transportation on which a vehicle is operated along a prescribed route according to a fixed schedule.

(4) OPERATES.—The term "operates", as used with respect to a fixed route system or demand responsive system, includes operation of such system by a person under a contractual or other arrangement or relationship with a public entity.

(5) PUBLIC SCHOOL TRANSPORTATION.—The term "public school transportation" means transportation by schoolbus vehicles of schoolchildren, personnel, and equipment to and from a public elementary or secondary school and school-related activities.

(6) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

SEC. 222. PUBLIC ENTITIES OPERATING FIXED ROUTE SYSTEMS.

(a) PURCHASE AND LEASE OF NEW VEHICLES.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a public entity which operates a fixed route system to purchase or lease a new bus, a new rapid rail vehicle, a new light rail vehicle, or any other new vehicle to be used on such system, if the solicitation for such purchase or lease is made after the 30th day following the effective date of this subsection and if such bus, rail vehicle, or other vehicle is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) PURCHASE AND LEASE OF USED VEHICLES.—Subject to subsection (c)(1), it shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a public entity which operates a fixed route system to purchase or lease, after the 30th day following the effective date of this subsection, a used vehicle for use on such system unless such entity makes demonstrated good faith efforts to purchase or lease a used vehicle for use on such system that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) REMANUFACTURED VEHICLES.—

(1) GENERAL RULE.—Except as provided in paragraph (2), it shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a public entity which operates a fixed route system—

(A) to remanufacture a vehicle for use on such system so as to extend its usable life for 5 years or more, which remanufacture begins (or for which the solicitation is made) after the 30th day following the effective date of this subsection; or

(B) to purchase or lease for use on such system a remanufactured vehicle which has been remanufactured so as to extend its usable life for 5 years or more, which purchase or lease occurs after such 30th day and during the period in which the usable life is extended;

unless, after remanufacture, the vehicle is, to the maximum extent feasible, readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(2) EXCEPTION FOR HISTORIC VEHICLES.—

(A) GENERAL RULE.—If a public entity operates a fixed route system any segment of which is included on the National Register of Historic Places and if making a vehicle of historic character to be used solely on such segment readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of paragraph (1) and which do not significantly alter the historic character of such vehicle.

(B) VEHICLES OF HISTORIC CHARACTER DEFINED BY REGULATIONS.—For purposes of this paragraph and section 228(b), a vehicle of historic character shall be defined by the regulations issued by the Secretary to carry out this subsection.

SEC. 223. PARATRANSIT AS A COMPLEMENT TO FIXED ROUTE SERVICE.

(a) GENERAL RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a public entity which operates a fixed route system (other than a system which provides solely commuter bus service) to fail to provide with respect to the operations of its fixed route system, in accordance with this section, paratransit and other special transportation services to individuals with disabilities, including individuals who use wheelchairs, that are sufficient to provide to such individuals a level of service (1) which is comparable to the level of designated public transportation services provided to individuals without disabilities using such system; or (2) in the case of response time, which is comparable, to the extent practicable, to the level of designated public transportation services provided to individuals without disabilities using such system.

(b) ISSUANCE OF REGULATIONS.—Not later than 1 year after the effective date of this subsection, the Secretary shall issue final regulations to carry out this section.

(c) REQUIRED CONTENTS OF REGULATIONS.—

(1) ELIGIBLE RECIPIENTS OF SERVICE.—The regulations issued under this section shall require each public entity which operates a fixed route system to provide the paratransit and other special transportation services required under this section—

(A)(i) to any individual with a disability who is unable, as a result of a physical or mental impairment (including a vision impairment) and without the assistance of another individual (except an operator of a wheelchair lift or other boarding assistance device), to board, ride, or disembark from any vehicle on the system which is readily accessible to and usable by individuals with disabilities;

(ii) to any individual with a disability who needs the assistance of a wheelchair lift or other boarding assistance device (and is able with such assistance) to board, ride, and disembark from any vehicle which is readily accessible to and usable by individuals with disabilities if the individual wants to travel on a route on the system during the hours of operation of the system at a time (or within a reasonable period of such time) when such a vehicle is not being used to provide designated public transportation on the route; and

(iii) to any individual with a disability who has a specific impairment-related condition

which prevents such individual from traveling to a boarding location or from a disembarking location on such system; and

(B) to 1 other individual accompanying the individual with the disability.

For purposes of clauses (i) and (ii) of subparagraph (A), boarding or disembarking from a vehicle does not include travel to the boarding location or from the disembarking location.

(2) SERVICE AREA.—The regulations issued under this section shall require the provision of paratransit and special transportation services required under this section in the service area of each public entity which operates a fixed route system, other than any portion of the service area in which the public entity solely provides commuter bus service.

(3) SERVICE CRITERIA.—Subject to paragraphs (1) and (2), the regulations issued under this section shall establish minimum service criteria for determining the level of services to be required under this section.

(4) UNDUE FINANCIAL BURDEN LIMITATION.—The regulations issued under this section shall provide that, if the public entity is able to demonstrate to the satisfaction of the Secretary that the provision of paratransit and other special transportation services otherwise required under this section would impose an undue financial burden on the public entity, the public entity, notwithstanding any other provision of this section (other than paragraph (5)), shall only be required to provide such services to the extent that providing such services would not impose such a burden.

(5) ADDITIONAL SERVICES.—The regulations issued under this section shall establish circumstances under which the Secretary may require a public entity to provide, notwithstanding paragraph (4), paratransit and other special transportation services under this section beyond the level of paratransit and other special transportation services which would otherwise be required under paragraph (4).

(6) PUBLIC PARTICIPATION.—The regulations issued under this section shall require that each public entity which operates a fixed route system hold a public hearing, provide an opportunity for public comment, and consult with individuals with disabilities in preparing its plan under paragraph (7).

(7) PLANS.—The regulations issued under this section shall require that each public entity which operates a fixed route system—

(A) within 18 months after the effective date of this subsection, submit to the Secretary, and commence implementation of, a plan for providing paratransit and other special transportation services which meets the requirements of this section; and

(B) on an annual basis thereafter, submit to the Secretary, and commence implementation of, a plan for providing such services.

(8) PROVISION OF SERVICES BY OTHERS.—The regulations issued under this section shall—

(A) require that a public entity submitting a plan to the Secretary under this section identify in the plan any person or other public entity which is providing a paratransit or other special transportation service for individuals with disabilities in the service area to which the plan applies; and

(B) provide that the public entity submitting the plan does not have to provide under the plan such service for individuals with disabilities.

(9) OTHER PROVISIONS.—The regulations issued under this section shall include such other provisions and requirements as the Secretary determines are necessary to carry out the objectives of this section.

(d) REVIEW OF PLAN.—

(1) GENERAL RULE.—The Secretary shall review a plan submitted under this section for the purpose of determining whether or not such plan meets the requirements of this section, including the regulations issued under this section.

(2) DISAPPROVAL.—If the Secretary determines that a plan reviewed under this subsection fails to meet the requirements of this section, the Secretary shall disapprove the plan and notify the public entity which submitted the plan of such disapproval and the reasons therefor.

(3) MODIFICATION OF DISAPPROVED PLAN.—Not later than 90 days after the date of disapproval of a plan under this subsection, the public entity which submitted the plan shall modify the plan to meet the requirements of this section and shall submit to the Secretary, and commence implementation of, such modified plan.

(e) DISCRIMINATION DEFINED.—As used in subsection (a), the term "discrimination" includes—

(1) a failure of a public entity to which the regulations issued under this section apply to submit, or commence implementation of, a plan in accordance with subsections (c)(6) and (c)(7);

(2) a failure of such entity to submit, or commence implementation of, a modified plan in accordance with subsection (d)(3);

(3) submission to the Secretary of a modified plan under subsection (d)(3) which does not meet the requirements of this section; or

(4) a failure of such entity to provide paratransit or other special transportation services in accordance with the plan or modified plan the public entity submitted to the Secretary under this section.

(f) STATUTORY CONSTRUCTION.—Nothing in this section shall be construed as preventing a public entity—

(1) from providing paratransit or other special transportation services at a level which is greater than the level of such services which are required by this section,

(2) from providing paratransit or other special transportation services in addition to those paratransit and special transportation services required by this section, or

(3) from providing such services to individuals in addition to those individuals to whom such services are required to be provided by this section.

SEC. 224. PUBLIC ENTITY OPERATING A DEMAND RESPONSIVE SYSTEM.

If a public entity operates a demand responsive system, it shall be considered discrimination, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), for such entity to purchase or lease a new vehicle for use on such system, for which a solicitation is made after the 30th day following the effective date of this section, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless such system, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service such system provides to individuals without disabilities.

SEC. 225. TEMPORARY RELIEF WHERE LIFTS ARE UNAVAILABLE.

(a) GRANTING.—With respect to the purchase of new buses, a public entity may apply for, and the Secretary may temporarily relieve such public entity from the obligation under section 222(a) or 224 to purchase new buses that are readily accessible to and usable by individuals with disabilities if such public entity demonstrates to the satisfaction of the Secretary—

(1) that the initial solicitation for new buses made by the public entity specified that all new buses were to be lift-equipped and were to be otherwise accessible to and usable by individuals with disabilities;

(2) the unavailability from any qualified manufacturer of hydraulic, electromechanical, or other lifts for such new buses;

(3) that the public entity seeking temporary relief has made good faith efforts to locate a qualified manufacturer to supply the lifts to the manufacturer of such buses in sufficient time to comply with such solicitation; and

(4) that any further delay in purchasing new buses necessary to obtain such lifts would significantly impair transportation services in the community served by the public entity.

(b) DURATION AND NOTICE TO CONGRESS.—Any relief granted under subsection (a) shall be limited in duration by a specified date, and the appropriate committees of Congress shall be notified of any such relief granted.

(c) FRAUDULENT APPLICATION.—If, at any time, the Secretary has reasonable cause to believe that any relief granted under subsection (a) was fraudulently applied for, the Secretary shall—

(1) cancel such relief if such relief is still in effect; and

(2) take such other action as the Secretary considers appropriate.

SEC. 226. NEW FACILITIES.

For purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), it shall be considered discrimination for a public entity to construct a new facility to be used in the provision of designated public transportation services unless such facility is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

SEC. 227. ALTERATIONS OF EXISTING FACILITIES.

(a) GENERAL RULE.—With respect to alterations of an existing facility or part thereof used in the provision of designated public transportation services that affect or could affect the usability of the facility or part thereof, it shall be considered discrimination, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), for a public entity to fail to make such alterations (or to ensure that the alterations are made) in such a manner that, to the maximum extent feasible, the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon the completion of such alterations. Where the public entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in

terms of cost and scope (as determined under criteria established by the Attorney General).

(b) SPECIAL RULE FOR STATIONS.—

(1) GENERAL RULE.—For purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), it shall be considered discrimination for a public entity that provides designated public transportation to fail, in accordance with the provisions of this subsection, to make key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(2) RAPID RAIL AND LIGHT RAIL KEY STATIONS.—

(A) ACCESSIBILITY.—Except as otherwise provided in this paragraph, all key stations (as determined under criteria established by the Secretary by regulation) in rapid rail and light rail systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 3-year period beginning on the effective date of this paragraph.

(B) EXTENSION FOR EXTRAORDINARILY EXPENSIVE STRUCTURAL CHANGES.—The Secretary may extend the 3-year period under subparagraph (A) up to a 30-year period for key stations in a rapid rail or light rail system which stations need extraordinarily expensive structural changes to, or replacement of, existing facilities; except that by the last day of the 20th year following the date of the enactment of this Act at least ⅔ of such key stations must be readily accessible to and usable by individuals with disabilities.

(3) PLANS AND MILESTONES.—The Secretary shall require the appropriate public entity to develop and submit to the Secretary a plan for compliance with this subsection—

(A) that reflects consultation with individuals with disabilities affected by such plan and the results of a public hearing and public comments on such plan, and

(B) that establishes milestones for achievement of the requirements of this subsection.

SEC. 228. PUBLIC TRANSPORTATION PROGRAMS AND ACTIVITIES IN EXISTING FACILITIES AND ONE CAR PER TRAIN RULE.

(a) PUBLIC TRANSPORTATION PROGRAMS AND ACTIVITIES IN EXISTING FACILITIES.—

(1) IN GENERAL.—With respect to existing facilities used in the provision of designated public transportation services, it shall be considered discrimination, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), for a public entity to fail to operate a designated public transportation program or activity conducted in such facilities so that, when viewed in the entirety, the program or activity is readily accessible to and usable by individuals with disabilities.

(2) KEY STATIONS.—Paragraph (1) shall not apply to a key station if the portion of such station providing access to the vehicle boarding or disembarking location has not been made readily accessible to and usable by individuals with disabilities who use wheelchairs at that station.

(b) ONE CAR PER TRAIN RULE.—

(1) GENERAL RULE.—Subject to paragraph (2), with respect to 2 or more vehicles operated as a train by a light or rapid rail system, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), it shall be considered discrimination for a public entity to fail to have at least 1 vehicle per train that is accessible to individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than the last day of the 5-year period beginning on the effective date of this section.

(2) HISTORIC TRAINS.—In order to comply with paragraph (1) with respect to the remanufacture of a vehicle of historic character which is to be used on a segment of a light or rapid rail system which is included on the National Register of Historic Places, if making such vehicle readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity which operates such system only has to make (or to purchase or lease a remanufactured vehicle with) those modifications which are necessary to meet the requirements of section 222(c)(1) and which do not significantly alter the historic character of such vehicle.

SEC. 229. REGULATIONS.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall issue regulations, in an accessible format, necessary for carrying out this part (other than section 223).

(b) STANDARDS.—The regulations issued under this section and section 223 shall include standards applicable to facilities and vehicles covered by this subtitle. The standards shall be consistent with the minimum guidelines and requirements issued by the Architectural and Transportation Barriers Compliance Board in accordance with section 504 of this Act.

SEC. 230. INTERIM ACCESSIBILITY REQUIREMENTS.

If final regulations have not been issued pursuant to section 229, for new construction or alterations for which a valid and appropriate State or local building permit is obtained prior to the issuance of final regulations under such section, and for which the construction or alteration authorized by such permit begins within one year of the receipt of such permit and is completed under the terms of such permit, compliance with the Uniform Federal Accessibility Standards in effect at the time the building permit is issued shall suffice to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities as required under sections 226 and 227, except that, if such final regulations have not been issued one year after the Architectural and Transportation Barriers Compliance Board has issued the supplemental minimum guidelines required under section 504(a) of this Act, compliance with such supplemental minimum guidelines shall be necessary to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities prior to issuance of the final regulations.

SEC. 231. EFFECTIVE DATE.

(a) GENERAL RULE.—Except as provided in subsection (b), this part shall become effective 18 months after the date of enactment of this Act. (b) EXCEPTION.—Sections 222, 223 (other than subsection (a)), 224, 225, 227(b), 228(b), and 229 shall become effective on the date of enactment of this Act.

## PART II—PUBLIC TRANSPORTATION BY INTERCITY AND COMMUTER RAIL

SEC. 241. DEFINITIONS.

As used in this part:

(1) COMMUTER AUTHORITY.—The term "commuter authority" has the meaning given such term in section 103(8) of the Rail Passenger Service Act (45 U.S.C 502(8));

(2) COMMUTER RAIL TRANSPORTATION.—The term "commuter rail transportation" has the meaning given the term "commuter service" in section 103(9) of the Rail Passenger Service Act (45 U.S.C 502(9));

(3) INTERCITY RAIL TRANSPORTATION.—The term "intercity rail transportation" means transportation provided by the National Railroad Passenger Corporation;

(4) RAIL PASSENGER CAR.—The term "rail passenger car" means, with respect to intercity rail transportation, single-level and bi-level coach cars, single-level and bi-level dining cars, single-level and bi-level sleeping cars, single-level and bi-level lounge cars, and food service cars;

(5) RESPONSIBLE PERSON.—The term "responsible person" means—

(A) in the case of a station more than 50 percent of which is owned by a public entity, such public entity;

(B) in the case of a station more than 50 percent of which is owned by a private party, the persons providing intercity or commuter rail transportation to such station, as allocated on an equitable basis by regulation by the Secretary of Transportation; and

(C) in a case where no party owns more than 50 percent of a station, the persons providing intercity or commuter rail transportation to such station and the owners of the station, other than private party owners, as allocated on an equitable basis by regulation by the Secretary of Transportation; and

(6) STATION.—The term "station" means the portion of a property located appurtenant to a right-of-way on which intercity or commuter rail transportation is operated, where such portion is used by the general public and is related to the provision of such transportation, including passenger platforms, designated waiting areas, ticketing areas, restrooms, and, where a public entity providing rail transportation owns the property, concession areas, to the extent that such public entity exercises control over the selection, design, construction, or alteration of the property, but such term does not include flag stops.

SEC. 242. INTERCITY AND COMMUTER RAIL ACTIONS CONSIDERED DISCRIMINATORY.

(a) INTERCITY RAIL TRANSPORTATION.—

(1) ONE CAR PER TRAIN RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person who provides intercity rail transportation to fail to have at least one passenger car per train that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, in accordance with regulations issued under section 244, as soon as practicable, but in no event later than 5 years after the date of enactment of this Act.

(2) NEW INTERCITY CARS.—

(A) GENERAL RULE.—Except as otherwise provided in this subsection with respect to individuals who use wheelchairs, it shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to purchase or lease any new rail passenger cars for use in intercity rail transportation, and for which a solicitation is made later than 30 days after the effective date of this section, unless all such rail cars are readily accessible to and usable by individuals with disabilities, including in-

dividuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(B) SPECIAL RULE FOR SINGLE-LEVEL PASSENGER COACHES FOR INDIVIDUALS WHO USE WHEELCHAIRS.—Single-level passenger coaches shall be required to—

(i) be able to be entered by an individual who uses a wheelchair;

(ii) have space to park and secure a wheelchair;

(iii) have a seat to which a passenger in a wheelchair can transfer, and a space to fold and store such passenger's wheelchair;

(iv) have a restroom usable by an individual who uses a wheelchair.

(3) ACCESSIBILITY OF SINGLE-LEVEL COACHES.—

(A) GENERAL RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person who provides intercity rail transportation to fail to have on each train which includes one or more single-level rail passenger coaches—

(i) a number of spaces—

(I) to park and secure wheelchairs (to accommodate individuals who wish to remain in their wheelchairs) equal to not less than one-half of the number of single-level rail passenger coaches in such train; and

(II) to fold and store wheelchairs (to accommodate individuals who wish to transfer to coach seats) equal to not less than one-half of the number of single-level rail passenger coaches in such train,

as soon as practicable, but in no event later than 5 years after the date of enactment of this Act; and

(ii) a number of spaces—

(I) to park and secure wheelchairs (to accommodate individuals who wish to remain in their wheelchairs) equal to not less than the total number of single-level rail passenger coaches in such train; and

(II) to fold and store wheelchairs (to accommodate individuals who wish to transfer to coach seats) equal to not less than the total number of single-level rail passenger coaches in such train,

as soon as practicable, but in no event later than 10 years after the date of enactment of this Act.

(B) LOCATION.—Spaces required by subparagraph (A) shall be located in single-level rail passenger coaches or food service cars.

(C) LIMITATION.—Of the number of spaces required on a train by subparagraph (A), not more than two spaces to park and secure wheelchairs nor more than two spaces to fold and store wheelchairs shall be located in any one coach or food service car.

(D) OTHER ACCESSIBILITY FEATURES.—Single-level rail passenger coaches and food service cars on which the spaces required by subparagraph (A) are located shall have a restroom usable by an individual who uses a wheelchair and shall be able to be entered from the station platform by an individual who uses a wheelchair.

(4) FOOD SERVICE.—

(A) SINGLE-LEVEL DINING CARS.—On any train in which a single-level dining car is used to provide food service—

(i) if such single-level dining car was purchased after the date of enactment of this Act, table service in such car shall be provided to a passenger who uses a wheelchair if—

(I) the car adjacent to the end of the dining car through which a wheelchair may enter is itself accessible to a wheelchair;

(II) such passenger can exit to the platform from the car such passenger occupies, move down the platform, and enter the adjacent accessible car described in subclause (I) without the necessity of the train being moved within the station; and

(III) space to park and secure a wheelchair is available in the dining car at the time such passenger wishes to eat (if such passenger wishes to remain in a wheelchair), or space to store and fold a wheelchair is available in the dining car at the time such passenger wishes to eat (if such passenger wishes to transfer to a dining car seat); and

(ii) appropriate auxiliary aids and services, including a hard surface on which to eat, shall be provided to ensure that other equivalent food service is available to individuals with disabilities, including individuals who use wheelchairs, and to passengers traveling with such individuals.

Unless not practicable, a person providing intercity rail transportation shall place an accessible car adjacent to the end of a dining car described in clause (i) through which an individual who uses a wheelchair may enter.

(B) BI-LEVEL DINING CARS.—On any train in which a bi-level dining car is used to provide food service—

(i) if such train includes a bi-level lounge car purchased after the date of enactment of this Act, table service in such lounge car shall be provided to individuals who use wheelchairs and to other passengers; and

(ii) appropriate auxiliary aids and services, including a hard surface on which to eat, shall be provided to ensure that other equivalent food service is available to individuals with disabilities, including individuals who use wheelchairs, and to passengers traveling with such individuals.

(b) COMMUTER RAIL TRANSPORTATION.—

(1) ONE CAR PER TRAIN RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person who provides commuter rail transportation to fail to have at least one passenger car per train that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, in accordance with regulations issued under section 244, as soon as practicable, but in no event later than 5 years after the date of enactment of this Act.

(2) NEW COMMUTER RAIL CARS.—

(A) GENERAL RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to purchase or lease any new rail passenger cars for use in commuter rail transportation, and for which a solicitation is made later than 30 days after the effective date of this section, unless all such rail cars are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(B) ACCESSIBILITY.—For purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), a requirement that a rail passenger car used in commuter rail transportation be accessible to or readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, shall not be construed to require—

(i) a restroom usable by an individual who uses a wheelchair if no restroom is provided in such car for any passenger;

(ii) space to fold and store a wheelchair; or

(iii) a seat to which a passenger who uses a wheelchair can transfer.

(c) USED RAIL CARS.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to purchase or lease a used rail passenger car for use in intercity or commuter rail transportation, unless such person makes demonstrated good faith efforts to purchase or lease a used rail car that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(d) REMANUFACTURED RAIL CARS.—

(1) REMANUFACTURING.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to remanufacture a rail passenger car for use in intercity or commuter rail transportation so as to extend its usable life for 10 years or more, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(2) PURCHASE OR LEASE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to purchase or lease a remanufactured rail passenger car for use in intercity or commuter rail transportation unless such car was remanufactured in accordance with paragraph (1).

(e) STATIONS.—

(1) NEW STATIONS.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a person to build a new station for use in intercity or commuter rail transportation that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(2) EXISTING STATIONS.—

(A) FAILURE TO MAKE READILY ACCESSIBLE.—

(i) GENERAL RULE.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for a responsible person to fail to make existing stations in the intercity rail transportation system, and existing key stations in commuter rail transportation systems, readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as prescribed by the Secretary of Transportation in regulations issued under section 244.

(ii) PERIOD FOR COMPLIANCE.—

(I) INTERCITY RAIL.—All stations in the intercity rail transportation system shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable, but in no event later than 20 years after the date of enactment of this Act.

(II) COMMUTER RAIL.—Key stations in commuter rail transportation systems shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable but in no event later than 3 years after the date of enactment of this Act, except that the time limit may be extended

by the Secretary of Transportation up to 20 years after the date of enactment of this Act in a case where the raising of the entire passenger platform is the only means available of attaining accessibility or where other extraordinarily expensive structural changes are necessary to attain accessibility.

(iii) DESIGNATION OF KEY STATIONS.—Each commuter authority shall designate the key stations in its commuter rail transportation system, in consultation with individuals with disabilities and organizations representing such individuals, taking into consideration such factors as high ridership and whether such station serves as a transfer or feeder station. Before the final designation of key stations under this clause, a commuter authority shall hold a public hearing.

(iv) PLANS AND MILESTONES.—The Secretary of Transportation shall require the appropriate person to develop a plan for carrying out this subparagraph that reflects consultation with individuals with disabilities affected by such plan and that establishes milestones for achievement of the requirements of this subparagraph.

(B) REQUIREMENT WHEN MAKING ALTERATIONS.—

(i) GENERAL RULE.—It shall be considered discrimination, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), with respect to alterations of an existing station or part thereof in the intercity or commuter rail transportation systems that affect or could affect the usability of the station or part thereof, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the altered portions of the station are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations.

(ii) ALTERATIONS TO A PRIMARY FUNCTION AREA.—It shall be considered discrimination, for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), with respect to alterations that affect or could affect the usability of or access to an area of the station containing a primary function, for the responsible person, owner, or person in control of the station to fail to make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area, and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon completion of such alterations, where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(C) REQUIRED COOPERATION.—It shall be considered discrimination for purposes of section 202 of this Act and section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) for an owner, or person in control, of a station governed by subparagraph (A) or (B) to fail to provide reasonable cooperation to a responsible person with respect to such station in that responsible person's efforts to comply with such subparagraph. An owner, or person in control, of a station shall be liable to a responsible person for any failure to provide reasonable cooperation as required by this subparagraph. Failure to receive reasonable cooperation required by this subparagraph shall not be a defense to a claim of discrimination under this Act.

SEC. 243. CONFORMANCE OF ACCESSIBILITY STANDARDS.

Accessibility standards included in regulations issued under this part shall be consistent with the minimum guidelines issued by the Architectural and Transportation Barriers Compliance Board under section 504(a) of this Act.

SEC. 244. REGULATIONS.

Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall issue regulations, in an accessible format, necessary for carrying out this part.

SEC. 245. INTERIM ACCESSIBILITY REQUIREMENTS.

(a) STATIONS.—If final regulations have not been issued pursuant to section 244, for new construction or alterations for which a valid and appropriate State or local building permit is obtained prior to the issuance of final regulations under such section, and for which the construction or alteration authorized by such permit begins within one year of the receipt of such permit and is completed under the terms of such permit, compliance with the Uniform Federal Accessibility Standards in effect at the time the building permit is issued shall suffice to satisfy the requirement that stations be readily accessible to and usable by persons with disabilities as required under section 242(e), except that, if such final regulations have not been issued one year after the Architectural and Transportation Barriers Compliance Board has issued the supplemental minimum guidelines required under section 504(a) of this Act, compliance with such supplemental minimum guidelines shall be necessary to satisfy the requirement that stations be readily accessible to and usable by persons with disabilities prior to issuance of the final regulations.

(b) RAIL PASSENGER CARS.—If final regulations have not been issued pursuant to section 244, a person shall be considered to have complied with the requirements of section 242(a) through (d) that a rail passenger car be readily accessible to and usable by individuals with disabilities, if the design for such car complies with the laws and regulations (including the Minimum Guidelines and Requirements for Accessible Design and such supplemental minimum guidelines as are issued under section 504(a) of this Act) governing accessibility of such cars, to the extent that such laws and regulations are not inconsistent with this part and are in effect at the time such design is substantially completed.

SEC. 246. EFFECTIVE DATE.

(a) GENERAL RULE.—Except as provided in subsection (b), this part shall become effective 18 months after the date of enactment of this Act.

(b) EXCEPTION.—Sections 242 and 244 shall become effective on the date of enactment of this Act.

## TITLE III—PUBLIC ACCOMMODATIONS AND SERVICES OPERATED BY PRIVATE ENTITIES

SEC. 301. DEFINITIONS.

As used in this title:

(1) COMMERCE.—The term "commerce" means travel, trade, traffic, commerce, transportation, or communication—

(A) among the several States;

(B) between any foreign country or any territory or possession and any State; or

(C) between points in the same State but through another State or foreign country.

(2) COMMERCIAL FACILITIES.—The term "commercial facilities" means facilities—

(A) that are intended for nonresidential use; and

(B) whose operations will affect commerce.

Such term shall not include railroad locomotives, railroad freight cars, railroad cabooses, railroad cars described in section 242 or covered under this title, railroad rights-of-way, or facilities that are covered or expressly exempted from coverage under the Fair Housing Act of 1968 (42 U.S.C. 3601 et seq.).

(3) DEMAND RESPONSIVE SYSTEM.—The term "demand responsive system" means any system of providing transportation of individuals by a vehicle, other than a system which is a fixed route system.

(4) FIXED ROUTE SYSTEM.—The term "fixed route system" means a system of providing transportation of individuals (other than by aircraft) on which a vehicle is operated along a prescribed route according to a fixed schedule.

(5) OVER-THE-ROAD BUS.—The term "over-the-road bus" means a bus characterized by an elevated passenger deck located over a baggage compartment.

(6) PRIVATE ENTITY.—The term "private entity" means any entity other than a public entity (as defined in section 201(1)).

(7) PUBLIC ACCOMMODATION.—The following private entities are considered public accommodations for purposes of this title, if the operations of such entities affect commerce—

(A) an inn, hotel, motel, or other place of lodging, except for an establishment located within a building that contains not more than five rooms for rent or hire and that is actually occupied by the proprietor of such establishment as the residence of such proprietor;

(B) a restaurant, bar, or other establishment serving food or drink;

(C) a motion picture house, theater, concert hall, stadium, or other place of exhibition or entertainment;

(D) an auditorium, convention center, lecture hall, or other place of public gathering;

(E) a bakery, grocery store, clothing store, hardware store, shopping center, or other sales or rental establishment;

(F) a laundromat, dry-cleaner, bank, barber shop, beauty shop, travel service, shoe repair service, funeral parlor, gas station, office of an accountant or lawyer, pharmacy, insurance office, professional office of a health care provider, hospital, or other service establishment;

(G) a terminal, depot, or other station used for specified public transportation;

(H) a museum, library, gallery, or other place of public display or collection;

(I) a park, zoo, amusement park, or other place of recreation;

(J) a nursery, elementary, secondary, undergraduate, or postgraduate private school, or other place of education;

(K) a day care center, senior citizen center, homeless shelter, food bank, adoption agency, or other social service center establishment; and

(L) a gymnasium, health spa, bowling alley, golf course, or other place of exercise or recreation.

(8) RAIL AND RAILROAD.—The terms "rail" and "railroad" have the meaning given the term "railroad" in section 202(e) of the Fed-

eral Railroad Safety Act of 1970 (45 U.S.C. 431(e)).

(9) READILY ACHIEVABLE.—The term "readily achievable" means easily accomplishable and able to be carried out without much difficulty or expense. In determining whether an action is readily achievable, factors to be considered include—

(A) the nature and cost of the action needed under this Act;

(B) the overall financial resources of the facility or facilities involved in the action; the number of persons employed at such facility; the effect on expenses and resources, or the impact otherwise of such action upon the operation of the facility;

(C) the overall financial resources of the covered entity; the overall size of the business of a covered entity with respect to the number of its employees; the number, type, and location of its facilities; and

(D) the type of operation or operations of the covered entity, including the composition, structure, and functions of the workforce of such entity; the geographic separateness, administrative or fiscal relationship of the facility or facilities in question to the covered entity.

(10) SPECIFIED PUBLIC TRANSPORTATION.—The term "specified public transportation" means transportation by bus, rail, or any other conveyance (other than by aircraft) that provides the general public with general or special service (including charter service) on a regular and continuing basis.

(11) VEHICLE.—The term "vehicle" does not include a rail passenger car, railroad locomotive, railroad freight car, railroad caboose, or a railroad car described in section 242 or covered under this title.

SEC. 302. PROHIBITION OF DISCRIMINATION BY PUBLIC ACCOMMODATIONS.

(a) GENERAL RULE.—No individual shall be discriminated against on the basis of disability in the full and equal enjoyment of the goods, services, facilities, privileges, advantages, or accommodations of any place of public accommodation by any person who owns, leases (or leases to), or operates a place of public accommodation.

(b) CONSTRUCTION.—

(1) GENERAL PROHIBITION.—

(A) ACTIVITIES.—

(i) DENIAL OF PARTICIPATION.—It shall be discriminatory to subject an individual or class of individuals on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements, to a denial of the opportunity of the individual or class to participate in or benefit from the goods, services, facilities, privileges, advantages, or accommodations of an entity.

(ii) PARTICIPATION IN UNEQUAL BENEFIT.—It shall be discriminatory to afford an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with the opportunity to participate in or benefit from a good, service, facility, privilege, advantage, or accommodation that is not equal to that afforded to other individuals.

(iii) SEPARATE BENEFIT.—It shall be discriminatory to provide an individual or class of individuals, on the basis of a disability or disabilities of such individual or class, directly, or through contractual, licensing, or other arrangements with a good, service, facility, privilege, advantage, or accommodation that is different or separate from that provided to other individuals, unless such action is necessary to provide the individual or class of individuals with a good, service, facility, privilege, advantage, or accommodation, or other opportunity that is as effective as that provided to others.

(iv) INDIVIDUAL OR CLASS OF INDIVIDUALS.—For purposes of clauses (i) through (iii) of this subparagraph, the term "individual or class of individuals" refers to the clients or customers of the covered public accommodation that enters into the contractual, licensing or other arrangement.

(B) INTEGRATED SETTINGS.—Goods, services, facilities, privileges, advantages, and accommodations shall be afforded to an individual with a disability in the most integrated setting appropriate to the needs of the individual.

(C) OPPORTUNITY TO PARTICIPATE.—Notwithstanding the existence of separate or different programs or activities provided in accordance with this section, an individual with a disability shall not be denied the opportunity to participate in such programs or activities that are not separate or different.

(D) ADMINISTRATIVE METHODS.—An individual or entity shall not, directly or through contractual or other arrangements, utilize standards or criteria or methods of administration—

(i) that have the effect of discriminating on the basis of disability; or

(ii) that perpetuate the discrimination of others who are subject to common administrative control.

(E) ASSOCIATION.—It shall be discriminatory to exclude or otherwise deny equal goods, services, facilities, privileges, advantages, accommodations, or other opportunities to an individual or entity because of the known disability of an individual with whom the individual or entity is known to have a relationship or association.

(2) SPECIFIC PROHIBITIONS.—

(A) DISCRIMINATION.—For purposes of subsection (a), discrimination includes—

(i) the imposition or application of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully and equally enjoying any goods, services, facilities, privileges, advantages, or accommodations, unless such criteria can be shown to be necessary for the provision of the goods, services, facilities, privileges, advantages, or accommodations being offered;

(ii) a failure to make reasonable modifications in policies, practices, or procedures, when such modifications are necessary to afford such goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such goods, services, facilities, privileges, advantages, or accommodations;

(iii) a failure to take such steps as may be necessary to ensure that no individual with a disability is excluded, denied services, segregated or otherwise treated differently than other individuals because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of the good, service, facility, privilege, advantage, or accommodation being offered or would result in an undue burden;

(iv) a failure to remove architectural barriers, and communication barriers that are structural in nature, in existing facilities, and transportation barriers in existing vehicles and rail passenger cars used by an establishment for transporting individuals (not including barriers that can only be removed through the retrofitting of vehicles or rail passenger cars by the installation of a hydraulic or other lift), where such removal is readily achievable; and

(v) where an entity can demonstrate that the removal of a barrier under clause (iv) is not readily achievable, a failure to make such goods, services, facilities, privileges, advantages, or accommodations available through alternative methods if such methods are readily achievable.

(B) FIXED ROUTE SYSTEM.—

(i) ACCESSIBILITY.—It shall be considered discrimination for a private entity which operates a fixed route system and which is not subject to section 304 to purchase or lease a vehicle with a seating capacity in excess of 16 passengers (including the driver) for use on such system, for which a solicitation is made after the 30th day following the effective date of this subparagraph, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(ii) EQUIVALENT SERVICE.—If a private entity which operates a fixed route system and which is not subject to section 304 purchases or leases a vehicle with a seating capacity of 16 passengers or less (including the driver) for use on such system after the effective date of this subparagraph that is not readily accessible to or usable by individuals with disabilities, it shall be considered discrimination for such entity to fail to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities.

(C) DEMAND RESPONSIVE SYSTEM.—For purposes of subsection (a), discrimination includes—

(i) a failure of a private entity which operates a demand responsive system and which is not subject to section 304 to operate such system so that, when viewed in its entirety, such system ensures a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities; and

(ii) the purchase or lease by such entity for use on such system of a vehicle with a seating capacity in excess of 16 passengers (including the driver), for which solicitations are made after the 30th day following the effective date of this subparagraph, that is not readily accessible to and usable by individuals with disabilities (including individuals who use wheelchairs) unless such entity can demonstrate that such system, when viewed in its entirety, provides a level of service to individuals with disabilities equivalent to that provided to individuals without disabilities.

(D) OVER-THE-ROAD BUSES.—

(i) LIMITATION ON APPLICABILITY.—Subparagraphs (B) and (C) do not apply to over-the-road buses.

(ii) ACCESSIBILITY REQUIREMENTS.—For purposes of subsection (a), discrimination includes (I) the purchase or lease of an over-the-road bus which does not comply with the regulations issued under section 306(a)(2) by a private entity which provides transportation of individuals and which is not primarily engaged in the business of transporting people, and (II) any other failure of such entity to comply with such regulations.

(3) SPECIFIC CONSTRUCTION.—Nothing in this title shall require an entity to permit an individual to participate in or benefit from the goods, services, facilities, privileges, advantages and accommodations of

such entity where such individual poses a direct threat to the health or safety of others. The term "direct threat" means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures or by the provision of auxiliary aids or services.

SEC. 303. NEW CONSTRUCTION AND ALTERATIONS IN PUBLIC ACCOMMODATIONS AND COMMERCIAL FACILITIES.

(a) APPLICATION OF TERM.—Except as provided in subsection (b), as applied to public accommodations and commercial facilities, discrimination for purposes of section 302(a) includes—

(1) a failure to design and construct facilities for first occupancy later than 30 months after the date of enactment of this Act that are readily accessible to and usable by individuals with disabilities, except where an entity can demonstrate that it is structurally impracticable to meet the requirements of such subsection in accordance with standards set forth or incorporated by reference in regulations issued under this title; and

(2) with respect to a facility or part thereof that is altered by, on behalf of, or for the use of an establishment in a manner that affects or could affect the usability of the facility or part thereof, a failure to make alterations in such a manner that, to the maximum extent feasible, the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Where the entity is undertaking an alteration that affects or could affect usability of or access to an area of the facility containing a primary function, the entity shall also make the alterations in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities where such alterations to the path of travel or the bathrooms, telephones, and drinking fountains serving the altered area are not disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).

(b) ELEVATOR.—Subsection (a) shall not be construed to require the installation of an elevator for facilities that are less than three stories or have less than 3,000 square feet per story unless the building is a shopping center, a shopping mall, or the professional office of a health care provider or unless the Attorney General determines that a particular category of such facilities requires the installation of elevators based on the usage of such facilities.

SEC. 304. PROHIBITION OF DISCRIMINATION IN SPECIFIED PUBLIC TRANSPORTATION SERVICES PROVIDED BY PRIVATE ENTITIES.

(a) GENERAL RULE.—No individual shall be discriminated against on the basis of disability in the full and equal enjoyment of specified public transportation services provided by a private entity that is primarily engaged in the business of transporting people and whose operations affect commerce.

(b) CONSTRUCTION.—For purposes of subsection (a), discrimination includes—

(1) the imposition or application by a entity described in subsection (a) of eligibility criteria that screen out or tend to screen out an individual with a disability or any class of individuals with disabilities from fully enjoying the specified public transportation services provided by the entity, unless such criteria can be shown to be necessary for the provision of the services being offered;

(2) the failure of such entity to—

(A) make reasonable modifications consistent with those required under section 302(b)(2)(A)(ii);

(B) provide auxiliary aids and services consistent with the requirements of section 302(b)(2)(A)(iii); and

(C) remove barriers consistent with the requirements of section 302(b)(2)(A) and with the requirements of section 303(a)(2);

(3) the purchase or lease by such entity of a new vehicle (other than an automobile, a van with a seating capacity of less than 8 passengers, including the driver, or an over-the-road bus) which is to be used to provide specified public transportation and for which a solicitation is made after the 30th day following the effective date of this section, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs; except that the new vehicle need not be readily accessible to and usable by such individuals if the new vehicle is to be used solely in a demand responsive system and if the entity can demonstrate that such system, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service provided to the general public;

(4)(A) the purchase or lease by such entity of an over-the-road bus which does not comply with the regulations issued under section 306(a)(2); and

(B) any other failure of such entity to comply with such regulations; and

(5) the purchase or lease by such entity of a new van with a seating capacity of less than 8 passengers, including the driver, which is to be used to provide specified public transportation and for which a solicitation is made after the 30th day following the effective date of this section that is not readily accessible to or usable by individuals with disabilities, including individuals who use wheelchairs; except that the new van need not be readily accessible to and usable by such individuals if the entity can demonstrate that the system for which the van is being purchased or leased, when viewed in its entirety, provides a level of service to such individuals equivalent to the level of service provided to the general public;

(6) the purchase or lease by such entity of a new rail passenger car that is to be used to provide specified public transportation, and for which a solicitation is made later than 30 days after the effective date of this paragraph, that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs; and

(7) the remanufacture by such entity of a rail passenger car that is to be used to provide specified public transportation so as to extend its usable life for 10 years or more, or the purchase or lease by such entity of such a rail car, unless the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) HISTORICAL OR ANTIQUATED CARS.—

(1) EXCEPTION.—To the extent that compliance with subsection (b)(2)(C) or (b)(7) would significantly alter the historic or antiquated character of a historical or antiquated rail passenger car, or a rail station served exclusively by such cars, or would result in violation of any rule, regulation, standard, or order issued by the Secretary of Transportation under the Federal Railroad Safety Act of 1970, such compliance shall not be required.

(2) DEFINITION.—As used in this subsection, the term "historical or antiquated rail passenger car" means a rail passenger car—

(A) which is not less than 30 years old at the time of its use for transporting individuals;

(B) the manufacturer of which is no longer in the business of manufacturing rail passenger cars; and

(C) which—

(i) has a consequential association with events or persons significant to the past; or

(ii) embodies, or is being restored to embody, the distinctive characteristics of a type of rail passenger car used in the past, or to represent a time period which has passed.

SEC. 305. STUDY.

(a) PURPOSES.—The Office of Technology Assessment shall undertake a study to determine—

(1) the access needs of individuals with disabilities to over-the-road buses and over-the-road bus service; and

(2) the most cost-effective methods for providing access to over-the-road buses and over-the-road bus service to individuals with disabilities, particularly individuals who use wheelchairs, through all forms of boarding options.

(b) CONTENTS.—The study shall include, at a minimum, an analysis of the following:

(1) The anticipated demand by individuals with disabilities for accessible over-the-road buses and over-the-road bus service.

(2) The degree to which such buses and service, including any service required under sections 304(b)(4) and 306(a)(2), are readily accessible to and usable by individuals with disabilities.

(3) The effectiveness of various methods of providing accessibility to such buses and service to individuals with disabilities.

(4) The cost of providing accessible over-the-road buses and bus service to individuals with disabilities, including consideration of recent technological and cost saving developments in equipment and devices.

(5) Possible design changes in over-the-road buses that could enhance accessibility, including the installation of accessible restrooms which do not result in a loss of seating capacity.

(6) The impact of accessibility requirements on the continuation of over-the-road bus service, with particular consideration of the impact of such requirements on such service to rural communities.

(c) ADVISORY COMMITTEE.—In conducting the study required by subsection (a), the Office of Technology Assessment shall establish an advisory committee, which shall consist of—

(1) members selected from among private operators and manufacturers of over-the-road buses;

(2) members selected from among individuals with disabilities, particularly individuals who use wheelchairs, who are potential riders of such buses; and

(3) members selected for their technical expertise on issues included in the study, including manufacturers of boarding assistance equipment and devices.

The number of members selected under each of paragraphs (1) and (2) shall be equal, and the total number of members selected under paragraphs (1) and (2) shall exceed the number of members selected under paragraph (3).

39-059 O-91-10 (Pt. 8)

(d) DEADLINE.—The study required by subsection (a), along with recommendations by the Office of Technology Assessment, including any policy options for legislative action, shall be submitted to the President and Congress within 36 months after the date of the enactment of this Act. If the President determines that compliance with the regulations issued pursuant to section 306(a)(2)(B) on or before the applicable deadlines specified in section 306(a)(2)(B) will result in a significant reduction in intercity over-the-road bus service, the President shall extend each such deadline by 1 year.

(e) REVIEW.—In developing the study required by subsection (a), the Office of Technology Assessment shall provide a preliminary draft of such study to the Architectural and Transportation Barriers Compliance Board established under section 502 of the Rehabilitation Act of 1973 (29 U.S.C. 792). The Board shall have an opportunity to comment on such draft study, and any such comments by the Board made in writing within 120 days after the Board's receipt of the draft study shall be incorporated as part of the final study required to be submitted under subsection (d).

SEC. 306. REGULATIONS.

(a) TRANSPORTATION PROVISIONS.—

(1) GENERAL RULE.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Transportation shall issue regulations in an accessible format to carry out sections 302(b)(2)(B) and (C) and to carry out section 304 (other than subsection (b)(4)).

(2) SPECIAL RULES FOR PROVIDING ACCESS TO OVER-THE-ROAD BUSES.—

(A) INTERIM REQUIREMENTS.—

(i) ISSUANCE.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Transportation shall issue regulations in an accessible format to carry out sections 304(b)(4) and 302(b)(2)(D)(ii) that require each private entity which uses an over-the-road bus to provide transportation of individuals to provide accessibility to such bus; except that such regulations shall not require any structural changes in over-the-road buses in order to provide access to individuals who use wheelchairs during the effective period of such regulations and shall not require the purchase of boarding assistance devices to provide access to such individuals.

(ii) EFFECTIVE PERIOD.—The regulations issued pursuant to this subparagraph shall be effective until the effective date of the regulations issued under subparagraph (B).

(B) FINAL REQUIREMENT.—

(i) REVIEW OF STUDY AND INTERIM REQUIREMENTS.—The Secretary shall review the study submitted under section 305 and the regulations issued pursuant to subparagraph (A).

(ii) ISSUANCE.—Not later than 1 year after the date of the submission of the study under section 305, the Secretary shall issue in an accessible format new regulations to carry out sections 304(b)(4) and 302(b)(2)(D)(ii) that require, taking into account the purposes of the study under section 305 and any recommendations resulting from such study, each private entity which uses an over-the-road bus to provide transportation to individuals to provide accessibility to such bus to individuals with disabilities, including individuals who use wheelchairs.

(iii) EFFECTIVE PERIOD.—Subject to section 305(d), the regulations issued pursuant to this subparagraph shall take effect—

(I) with respect to small providers of transportation (as defined by the Secretary), 7 years after the date of the enactment of this Act; and

(II) with respect to other providers of transportation, 6 years after such date of enactment.

(C) LIMITATION ON REQUIRING INSTALLATION OF ACCESSIBLE RESTROOMS.—The regulations issued pursuant to this paragraph shall not require the installation of accessible restrooms in over-the-road buses if such installation would result in a loss of seating capacity.

(3) STANDARDS.—The regulations issued pursuant to this subsection shall include standards applicable to facilities and vehicles covered by sections 302(b)(2) and 304.

(b) OTHER PROVISIONS.—Not later than 1 year after the date of the enactment of this Act, the Attorney General shall issue regulations in an accessible format to carry out the provisions of this title not referred to in subsection (a) that include standards applicable to facilities and vehicles covered under section 302.

(c) CONSISTENCY WITH ATBCB GUIDELINES.—Standards included in regulations issued under subsections (a) and (b) shall be consistent with the minimum guidelines and requirements issued by the Architectural and Transportation Barriers Compliance Board in accordance with section 504 of this Act.

(d) INTERIM ACCESSIBILITY STANDARDS.—

(1) FACILITIES.—If final regulations have not been issued pursuant to this section, for new construction or alterations for which a valid and appropriate State or local building permit is obtained prior to the issuance of final regulations under this section, and for which the construction or alteration authorized by such permit begins within one year of the receipt of such permit and is completed under the terms of such permit, compliance with the Uniform Federal Accessibility Standards in effect at the time the building permit is issued shall suffice to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities as required under section 303, except that, if such final regulations have not been issued one year after the Architectural and Transportation Barriers Compliance Board has issued the supplemental minimum guidelines required under section 504(a) of this Act, compliance with such supplemental minimum guidelines shall be necessary to satisfy the requirement that facilities be readily accessible to and usable by persons with disabilities prior to issuance of the final regulations.

(2) VEHICLES AND RAIL PASSENGER CARS.—If final regulations have not been issued pursuant to this section, a private entity shall be considered to have complied with the requirements of this title, if any, that a vehicle or rail passenger car be readily accessible to and usable by individuals with disabilities, if the design for such vehicle or car complies with the laws and regulations (including the Minimum Guidelines and Requirements for Accessible Design and such supplemental minimum guidelines as are issued under section 504(a) of this Act) governing accessibility of such vehicles or cars, to the extent that such laws and regulations are not inconsistent with this title and are in effect at the time such design is substantially completed.

SEC. 307. EXEMPTIONS FOR PRIVATE CLUBS AND RELIGIOUS ORGANIZATIONS.

The provisions of this title shall not apply to private clubs or establishments exempted from coverage under title II of the Civil Rights Act of 1964 (42 U.S.C. 2000-a(e)) or to religious organizations or entities controlled by religious organizations, including places of worship.

SEC. 308. ENFORCEMENT.

(a) IN GENERAL.—

(1) AVAILABILITY OF REMEDIES AND PROCEDURES.—The remedies and procedures set forth in section 204(a) of the Civil Rights Act of 1964 (42 U.S.C. 2000a-3(a)) are the remedies and procedures this title provides to any person who is being subjected to discrimination on the basis of disability in violation of this title or who has reasonable grounds for believing that such person is about to be subjected to discrimination in violation of section 303. Nothing in this section shall require a person with a disability to engage in a futile gesture if such person has actual notice that a person or organization covered by this title does not intend to comply with its provisions.

(2) INJUNCTIVE RELIEF.—In the case of violations of sections 302(b)(2)(A)(iv) and section 303(a), injunctive relief shall include an order to alter facilities to make such facilities readily accessible to and usable by individuals with disabilities to the extent required by this title. Where appropriate, injunctive relief shall also include requiring the provision of an auxiliary aid or service, modification of a policy, or provision of alternative methods, to the extent required by this title.

(b) ENFORCEMENT BY THE ATTORNEY GENERAL.—

(1) DENIAL OF RIGHTS.—

(A) DUTY TO INVESTIGATE.—

(i) IN GENERAL.—The Attorney General shall investigate alleged violations of this title, and shall undertake periodic reviews of compliance of covered entities under this title.

(ii) ATTORNEY GENERAL CERTIFICATION.—On the application of a State or local government, the Attorney General may, in consultation with the Architectural and Transportation Barriers Compliance Board, and after prior notice and a public hearing at which persons, including individuals with disabilities, are provided an opportunity to testify against such certification, certify that a State law or local building code or similar ordinance that establishes accessibility requirements meets or exceeds the minimum requirements of this Act for the accessibility and usability of covered facilities under this title. At any enforcement proceeding under this section, such certification by the Attorney General shall be rebuttable evidence that such State law or local ordinance does meet or exceed the minimum requirements of this Act.

(B) POTENTIAL VIOLATION.—If the Attorney General has reasonable cause to believe that—

(i) any person or group of persons is engaged in a pattern or practice of discrimination under this title; or

(ii) any person or group of persons has been discriminated against under this title and such discrimination raises an issue of general public importance,

the Attorney General may commence a civil action in any appropriate United States district court.

(2) AUTHORITY OF COURT.—In a civil action under paragraph (1)(B), the court—

(A) may grant any equitable relief that such court considers to be appropriate, including, to the extent required by this title—

(i) granting temporary, preliminary, or permanent relief;

(ii) providing an auxiliary aid or service, modification of policy, practice, or procedure, or alternative method; and

(iii) making facilities readily accessible to and usable by individuals with disabilities;

(B) may award such other relief as the court considers to be appropriate, including monetary damages to persons aggrieved when requested by the Attorney General; and

(C) may, to vindicate the public interest, assess a civil penalty against the entity in an amount—

(i) not exceeding $50,000 for a first violation; and

(ii) not exceeding $100,000 for any subsequent violation.

(3) SINGLE VIOLATION.—For purposes of paragraph (2)(C), in determining whether a first or subsequent violation has occurred, a determination in a single action, by judgment or settlement, that the covered entity has engaged in more than one discriminatory act shall be counted as a single violation.

(4) PUNITIVE DAMAGES.—For purposes of subsection (b)(2)(B), the term "monetary damages" and "such other relief" does not include punitive damages.

(5) JUDICIAL CONSIDERATION.—In a civil action under paragraph (1)(B), the court, when considering what amount of civil penalty, if any, is appropriate, shall give consideration to any good faith effort or attempt to comply with this Act by the entity. In evaluating good faith, the court shall consider, among other factors it deems relevant, whether the entity could have reasonably anticipated the need for an appropriate type of auxiliary aid needed to accommodate the unique needs of a particular individual with a disability.

SEC. 309. EXAMINATIONS AND COURSES.

Any person that offers examinations or courses related to applications, licensing, certification, or credentialing for secondary or postsecondary education, professional, or trade purposes shall offer such examinations or courses in a place and manner accessible to persons with disabilities or offer alternative accessible arrangements for such individuals.

SEC. 310. EFFECTIVE DATE.

(a) GENERAL RULE.—Except as provided in subsection (b), this title shall become effective 18 months after the date of the enactment of this Act.

(b) EXCEPTION.—Sections 302(a) for purposes of section 302(b)(2)(B) and (C) only, 304(a) for purposes of section 304(b)(3) only, 304(b)(3), 305, and 306 shall take effect on the date of the enactment of this Act.

## TITLE IV—TELECOMMUNICATIONS

SEC. 401. TELECOMMUNICATIONS RELAY SERVICES FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED INDIVIDUALS.

(a) TELECOMMUNICATIONS.—Title II of the Communications Act of 1934 (47 U.S.C. 201 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 225. TELECOMMUNICATIONS SERVICES FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED INDIVIDUALS.

"(a) DEFINITIONS.—As used in this section—

"(1) COMMON CARRIER OR CARRIER.—The term 'common carrier' or 'carrier' includes any common carrier engaged in interstate communication by wire or radio as defined in section 3(h) and any common carrier engaged in intrastate communication by wire or radio, notwithstanding sections 2(b) and 221(b).

"(2) TDD.—The term 'TDD' means a Telecommunications Device for the Deaf, which is a machine that employs graphic communication in the transmission of coded signals through a wire or radio communication system.

"(3) TELECOMMUNICATIONS RELAY SERVICES.—The term 'telecommunications relay services' means telephone transmission services that provide the ability for an individual who has a hearing impairment or speech impairment to engage in communication by wire or radio with a hearing individual in a manner that is functionally equivalent to the ability of an individual who does not have a hearing impairment or speech impairment to communicate using voice communication services by wire or radio. Such term includes services that enable two-way communication between an individual who uses a TDD or other nonvoice terminal device and an individual who does not use such a device.

"(b) AVAILABILITY OF TELECOMMUNICATIONS RELAY SERVICES.—

"(1) IN GENERAL.—In order to carry out the purposes established under section 1, to make available to all individuals in the United States a rapid, efficient nationwide communication service, and to increase the utility of the telephone system of the Nation, the Commission shall ensure that interstate and intrastate telecommunications relay services are available, to the extent possible and in the most efficient manner, to hearing-impaired and speech-impaired individuals in the United States.

"(2) USE OF GENERAL AUTHORITY AND REMEDIES.—For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Commission shall have the same authority, power, and functions with respect to common carriers engaged in intrastate communication as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier engaged in interstate communication. Any violation of this section by any common carrier engaged in intrastate communication shall be subject to the same remedies, penalties, and procedures as are applicable to a violation of this Act by a common carrier engaged in interstate communication.

"(c) PROVISION OF SERVICES.—Each common carrier providing telephone voice transmission services shall, not later than 3 years after the date of enactment of this section, provide in compliance with the regulations prescribed under this section, within the area in which it offers service, telecommunications relay services, individually, through designees, through a competitively selected vendor, or in concert with other carriers. A common carrier shall be considered to be in compliance with such regulations—

"(1) with respect to intrastate telecommunications relay services in any State that does not have a certified program under subsection (f) and with respect to interstate telecommunications relay services, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the Commission's regulations under subsection (d); or

"(2) with respect to intrastate telecommunications relay services in any State that has a certified program under subsection (f) for such State, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the program certified under subsection (f) for such State.

"(d) REGULATIONS.—

"(1) IN GENERAL.—The Commission shall, not later than 1 year after the date of enactment of this section, prescribe regulations to implement this section, including regulations that—

"(A) establish functional requirements, guidelines, and operations procedures for telecommunications relay services;

"(B) establish minimum standards that shall be met in carrying out subsection (c);

"(C) require that telecommunications relay services operate every day for 24 hours per day;

"(D) require that users of telecommunications relay services pay rates no greater than the rates paid for functionally equivalent voice communication services with respect to such factors as the duration of the call, the time of day, and the distance from point of origination to point of termination;

"(E) prohibit relay operators from failing to fulfill the obligations of common carriers by refusing calls or limiting the length of calls that use telecommunications relay services;

"(F) prohibit relay operators from disclosing the content of any relayed conversation and from keeping records of the content of any such conversation beyond the duration of the call; and

"(G) prohibit relay operators from intentionally altering a relayed conversation.

"(2) TECHNOLOGY.—The Commission shall ensure that regulations prescribed to implement this section encourage, consistent with section 7(a) of this Act, the use of existing technology and do not discourage or impair the development of improved technology.

"(3) JURISDICTIONAL SEPARATION OF COSTS.—

"(A) IN GENERAL.—Consistent with the provisions of section 410 of this Act, the Commission shall prescribe regulations governing the jurisdictional separation of costs for the services provided pursuant to this section.

"(B) RECOVERING COSTS.—Such regulations shall generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay services shall be recovered from the intrastate jurisdiction. In a State that has a certified program under subsection (f), a State commission shall permit a common carrier to recover the costs incurred in providing intrastate telecommunications relay services by a method consistent with the requirements of this section.

"(e) ENFORCEMENT.—

"(1) IN GENERAL.—Subject to subsections (f) and (g), the Commission shall enforce this section.

"(2) COMPLAINT.—The Commission shall resolve, by final order, a complaint alleging a violation of this section within 180 days after the date such complaint is filed.

"(f) CERTIFICATION.—

"(1) STATE DOCUMENTATION.—Any State desiring to establish a State program under this section shall submit documentation to the Commission that describes the program of such State for implementing intrastate telecommunications relay services and the procedures and remedies available for enforcing any requirements imposed by the State program.

"(2) REQUIREMENTS FOR CERTIFICATION.—After review of such documentation, the Commission shall certify the State program if the Commission determines that—

"(A) the program makes available to hearing-impaired and speech-impaired individuals, either directly, through designees, through a competitively selected vendor, or through regulation of intrastate common carriers, intrastate telecommunications relay services in such State in a manner that meets or exceeds the requirements of regulations prescribed by the Commission under subsection (d); and

"(B) the program makes available adequate procedures and remedies for enforcing the requirements of the State program.

"(3) METHOD OF FUNDING.—Except as provided in subsection (d), the Commission shall not refuse to certify a State program based solely on the method such State will implement for funding intrastate telecommunication relay services.

"(4) SUSPENSION OR REVOCATION OF CERTIFICATION.—The Commission may suspend or revoke such certification if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. In a State whose program has been suspended or revoked, the Commission shall take such steps as may be necessary, consistent with this section, to ensure continuity of telecommunications relay services.

"(g) COMPLAINT.—

"(1) REFERRAL OF COMPLAINT.—If a complaint to the Commission alleges a violation of this section with respect to intrastate telecommunications relay services within a State and certification of the program of such State under subsection (f) is in effect, the Commission shall refer such complaint to such State.

"(2) JURISDICTION OF COMMISSION.—After referring a complaint to a State under paragraph (1), the Commission shall exercise jurisdiction over such complaint only if—

"(A) final action under such State program has not been taken on such complaint by such State—

"(i) within 180 days after the complaint is filed with such State; or

"(ii) within a shorter period as prescribed by the regulations of such State; or

"(B) the Commission determines that such State program is no longer qualified for certification under subsection (f).".

(b) CONFORMING AMENDMENTS.—The Communications Act of 1934 (47 U.S.C. 151 et seq.) is amended—

(1) in section 2(b) (47 U.S.C. 152(b)), by striking "section 224" and inserting "sections 224 and 225"; and

(2) in section 221(b) (47 U.S.C. 221(b)), by striking "section 301" and inserting "sections 225 and 301".

SEC. 402. CLOSED-CAPTIONING OF PUBLIC SERVICE ANNOUNCEMENTS.

Section 711 of the Communications Act of 1934 is amended to read as follows:

"SEC. 711. CLOSED-CAPTIONING OF PUBLIC SERVICE ANNOUNCEMENTS.

"Any television public service announcement that is produced or funded in whole or in part by any agency or instrumentality of Federal government shall include closed captioning of the verbal content of such announcement. A television broadcast station licensee—

"(1) shall not be required to supply closed captioning for any such announcement that fails to include it; and

"(2) shall not be liable for broadcasting any such announcement without transmitting a closed caption unless the licensee intentionally fails to transmit the closed caption that was included with the announcement.".

## TITLE V—MISCELLANEOUS PROVISIONS

SEC. 501. CONSTRUCTION.

(a) IN GENERAL.—Except as otherwise provided in this Act, nothing in this Act shall be construed to apply a lesser standard than the standards applied under title V of the Rehabilitation Act of 1973 (29 U.S.C. 790 et seq.) or the regulations issued by Federal agencies pursuant to such title.

(b) RELATIONSHIP TO OTHER LAWS.—Nothing in this Act shall be construed to invalidate or limit the remedies, rights, and procedures of any Federal law or law of any State or political subdivision of any State or jurisdiction that provides greater or equal protection for the rights of individuals with disabilities than are afforded by this Act. Nothing in this Act shall be construed to preclude the prohibition of, or the imposition of restrictions on, smoking in places of employment covered by title I, in transportation covered by title II or III, or in places of public accommodation covered by title III.

(c) INSURANCE.—Titles I through IV of this Act shall not be construed to prohibit or restrict—

(1) an insurer, hospital or medical service company, health maintenance organization, or any agent, or entity that administers benefit plans, or similar organizations from underwriting risks, classifying risks, or administering such risks that are based on or not inconsistent with State law; or

(2) a person or organization covered by this Act from establishing, sponsoring, observing or administering the terms of a bona fide benefit plan that are based on underwriting risks, classifying risks, or administering such risks that are based on or not inconsistent with State law; or

(3) a person or organization covered by this Act from establishing, sponsoring, observing or administering the terms of a bona fide benefit plan that is not subject to State laws that regulate insurance.

Paragraphs (1), (2), and (3) shall not be used as a subterfuge to evade the purposes of title I and III.

(d) ACCOMMODATIONS AND SERVICES.—Nothing in this Act shall be construed to require an individual with a disability to accept an accommodation, aid, service, opportunity, or benefit which such individual chooses not to accept.

SEC. 502. STATE IMMUNITY.

A State shall not be immune under the eleventh amendment to the Constitution of the United States from an action in Federal or State court of competent jurisdiction for a violation of this Act. In any action against a State for a violation of the requirements of this Act, remedies (including remedies both at law and in equity) are available for such a violation to the same extent as such remedies are available for such a violation in an action against any public or private entity other than a State.

SEC. 503. PROHIBITION AGAINST RETALIATION AND COERCION.

(a) RETALIATION.—No person shall discriminate against any individual because such individual has opposed any act or practice made unlawful by this Act or because such individual made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this Act.

(b) INTERFERENCE, COERCION, OR INTIMIDATION.—It shall be unlawful to coerce, intimidate, threaten, or interfere with any individual in the exercise or enjoyment of, or on account of his or her having exercised or enjoyed, or on account of his or her having aided or encouraged any other individual in the exercise or enjoyment of, any right granted or protected by this Act.

(c) REMEDIES AND PROCEDURES.—The remedies and procedures available under sections 107, 203, and 308 of this Act shall be available to aggrieved persons for violations of subsections (a) and (b), with respect to title I, title II and title III, respectively.

SEC. 504. REGULATIONS BY THE ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD.

(a) ISSUANCE OF GUIDELINES.—Not later than 9 months after the date of enactment of this Act, the Architectural and Transportation Barriers Compliance Board shall issue minimum guidelines that shall supplement the existing Minimum Guidelines and Requirements for Accessible Design for purposes of titles II and III of this Act.

(b) CONTENTS OF GUIDELINES.—The supplemental guidelines issued under subsection (a) shall establish additional requirements, consistent with this Act, to ensure that buildings, facilities, rail passenger cars, and vehicles are accessible, in terms of architecture and design, transportation, and communication, to individuals with disabilities.

(c) QUALIFIED HISTORIC PROPERTIES.—

(1) IN GENERAL.—The supplemental guidelines issued under subsection (a) shall include procedures and requirements for alterations that will threaten or destroy the historic significance of qualified historic buildings and facilities as defined in 4.1.7(1)(a) of the Uniform Federal Accessibility Standards.

(2) SITES ELIGIBLE FOR LISTING IN NATIONAL REGISTER.—With respect to alterations of buildings or facilities that are eligible for listing in the National Register of Historic Places under the National Historic Preservation Act (16 U.S.C. 470 et seq.), the guidelines described in paragraph (1) shall, at a minimum, maintain the procedures and requirements established in 4.1.7(1) and (2) of the Uniform Federal Accessibility Standards.

(3) OTHER SITES.—With respect to alterations of buildings or facilities designated as historic under State or local law, the guidelines described in paragraph (1) shall establish procedures equivalent to those established by 4.1.7(1)(b) and (c) of the Uniform Federal Accessibility Standards, and shall require, at a minimum, compliance with the requirements established in 4.1.7(2) of such standards.

SEC. 505. ATTORNEY'S FEES.

In any action or administrative proceeding commenced pursuant to this Act, the court or agency, in its discretion, may allow the prevailing party, other than the United States, a reasonable attorney's fee, including litigation expenses, and costs, and the United States shall be liable for the foregoing the same as a private individual.

SEC. 506. TECHNICAL ASSISTANCE.

(a) PLAN FOR ASSISTANCE.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Attorney General, in consultation with the Chair of the Equal Employment Opportunity Commission, the Secretary of Transportation, the Chair of the Architectural and Transportation Barriers Compliance Board, and the Chairman of the Federal Communications Commission, shall develop a plan to assist entities covered under this Act, and other Federal agencies, in understanding the responsibility of such entities and agencies under this Act.

(2) PUBLICATION OF PLAN.—The Attorney General shall publish the plan referred to in paragraph (1) for public comment in accordance with subchapter II of chapter 5 of title 5, United States Code (commonly known as the Administrative Procedure Act).

(b) AGENCY AND PUBLIC ASSISTANCE.—The Attorney General may obtain the assistance of other Federal agencies in carrying out subsection (a), including the National Council on Disability, the President's Committee on Employment of People with Disabilities, the Small Business Administration, and the Department of Commerce.

(c) IMPLEMENTATION.—

(1) RENDERING ASSISTANCE.—Each Federal agency that has responsibility under paragraph (2) for implementing this Act may render technical assistance to individuals and institutions that have rights or duties under the respective title or titles for which such agency has responsibility.

(2) IMPLEMENTATION OF TITLES.—

(A) TITLE I.—The Equal Employment Opportunity Commission and the Attorney General shall implement the plan for assistance developed under subsection (a), for title I.

(B) TITLE II.—

(i) SUBTITLE A.—The Attorney General shall implement such plan for assistance for subtitle A of title II.

(ii) SUBTITLE B.—The Secretary of Transportation shall implement such plan for assistance for subtitle B of title II.

(C) TITLE III.—The Attorney General, in coordination with the Secretary of Transportation and the Chair of the Architectural Transportation Barriers Compliance Board, shall implement such plan for assistance for title III, except for section 304, the plan for assistance for which shall be implemented by the Secretary of Transportation.

(D) TITLE IV.—The Chairman of the Federal Communications Commission, in coordination with the Attorney General, shall implement such plan for assistance for title IV.

(3) TECHNICAL ASSISTANCE MANUALS.—Each Federal agency that has responsibility under paragraph (2) for implementing this Act shall, as part of its implementation responsibilities, ensure the availability and provision of appropriate technical assistance manuals to individuals or entities with rights or duties under this Act no later than six months after applicable final regulations are published under titles I, II, III, and IV.

(d) GRANTS AND CONTRACTS.—

(1) IN GENERAL.—Each Federal agency that has responsibility under subsection (c)(2) for implementing this Act may make grants or award contracts to effectuate the purposes of this section. Such grants and contracts may be awarded to individuals, institutions not organized for profit and no part of the net earnings of which inures to the benefit of any private shareholder or individual (including educational institutions), and associations representing individuals who have rights or duties under this Act. Contracts may be awarded to entities organized for profit, but such entities may not be the recipients or grants described in this paragraph.

(2) DISSEMINATION OF INFORMATION.—Such grants and contracts, among other uses, may be designed to ensure wide dissemination of information about the rights and duties established by this Act and to provide information and technical assistance about techniques for effective compliance with this Act.

(e) FAILURE TO RECEIVE ASSISTANCE.—An employer, public accommodation, or other entity covered under this Act shall not be excused from compliance with the requirements of this Act because of any failure to receive technical assistance under this section, including any failure in the development or dissemination of any technical assistance manual authorized by this section.

SEC. 507. FEDERAL WILDERNESS AREAS.

(a) STUDY.—The National Council on Disability shall conduct a study and report on the effect that wilderness designations and wilderness land management practices have on the ability of individuals with disabilities to use and enjoy the National Wilderness Preservation System as established under the Wilderness Act (16 U.S.C. 1131 et seq.).

(b) SUBMISSION OF REPORT.—Not later than 1 year after the enactment of this Act, the National Council on Disability shall submit the report required under subsection (a) to Congress.

SEC. 508. TRANSVESTITES.

For the purposes of this Act, the term "disabled" or "disability" shall not apply to an individual solely because that individual is a transvestite.

Strike section 509 and insert the following.:

SEC. 509. CONGRESSIONAL INCLUSION.

(a) IN GENERAL.—Notwithstanding any other provision of this Act or of law, the purposes of this Act shall, subject to subsections (b) through (d), apply in their entirety to the Senate, the House of Representatives, and all the instrumentalities of the Congress, or either House thereof.

(b) EMPLOYMENT IN THE HOUSE OF REPRESENTATIVES.—

(1) IN GENERAL.—The rights and protections under this Act shall, subject to paragraph (2), apply with respect to any employee in an employment position in the House of Representatives and any employing authority of the House of Representatives.

(2) ADMINISTRATION.—

(A) In the administration of this subsection, the remedies and procedures made applicable pursuant to the resolution described in subparagraph (B) shall apply exclusively.

(B) The resolution referred to in subparagraph (A) is House Resolution 15 of the One Hundredth First Congress, as agreed to January 3, 1989, or any other provision that continues in effect the provisions of, or is a successor to, the Fair Employment Practices Resolution (House Resolution 558 of the One Hundredth Congress, as agreed to October 4, 1988).

(3) EXERCISE OF RULEMAKING POWER.—The provisions of paragraph (2) of this subsection are enacted by the Congress as an exercise of the rulemaking power of the House of Representatives, with full recognition of the right of the House to change its rules, in the same manner, and to the same extent as in the case of any other rule of the House.

(c) CONGRESSIONAL MATTERS OTHER THAN EMPLOYMENT.—

(1) IN GENERAL.—The rights and protections under this Act shall, subject to paragraph (2), apply with respect to the conduct of the Congress regarding matters other than employment.

(2) ESTABLISHMENT OF REMEDIES AND PROCEDURES BY ARCHITECT OF THE CAPITOL.—The Architect of the Capitol shall establish remedies and procedures to be utilized with respect to the rights and protections provided pursuant to paragraph (1). Such remedies and procedures shall apply exclusively, after approval in accordance with paragraph (3).

(3) APPROVAL BY CONGRESSIONAL LEADERSHIP.—For purposes of paragraph (2), the Architect of the Capitol shall submit proposed remedies and procedures to the Speaker of the House of Representatives and to an appropriate officer of the Senate, as designated by the Senate. The remedies and procedures shall be effective upon the approval of the Speaker, after consultation with the House Office Building Commission, and the approval of the appropriate officer of the Senate.

(d) INSTRUMENTALITIES OF CONGRESS.—

(1) IN GENERAL.—The rights and protections under this Act shall, subject to paragraph (2), apply with respect to the conduct of each instrumentality of the Congress.

(2) ESTABLISHMENT OF REMEDIES AND PROCEDURES BY INSTRUMENTALITIES.—The chief official of each instrumentality of the Congress shall establish remedies and procedures to be utilized with respect to the rights and protections provided pursuant to paragraph (1). Such remedies and procedures shall apply exclusively.

(3) REPORT TO CONGRESS.—The chief official of each instrumentality of the Congress shall, after establishing remedies and procedures for purposes of paragraph (2), submit to the Congress a report describing the remedies and procedures.

SEC. 510. ILLEGAL USE OF DRUGS.

(a) IN GENERAL.—For purposes of this Act, the term "individual with a disability" does not include an individual who is currently engaging in the illegal use of drugs, when the covered entity acts on the basis of such use.

(b) RULES OF CONSTRUCTION.—Nothing in subsection (a) shall be construed to exclude as an individual with a disability an individual who—

(1) has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of drugs, or has otherwise been rehabilitated successfully and is no longer engaging in such use;

(2) is participating in a supervised rehabilitation program and is no longer engaging in such use; or

(3) is erroneously regarded as engaging in such use, but is not engaging in such use;

except that it shall not be a violation of this Act for a covered entity to adopt or administer reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual described in paragraph (1) or (2) is no longer engaging in the illegal use of drugs; however, nothing in this section shall be construed to encourage, prohibit, restrict, or authorize the conducting of testing for the illegal use of drugs.

(c) HEALTH AND OTHER SERVICES.—Notwithstanding subsection (a) and section 511(b)(3), an individual shall not be denied health services, or services provided in connection with drug rehabilitation, on the basis of the current illegal use of drugs if the individual is otherwise entitled to such services.

(d) DEFINITION OF ILLEGAL USE OF DRUGS.—

(1) IN GENERAL.—The term "illegal use of drugs" means the use of drugs, the possession or distribution of which is unlawful under the Controlled Substances Act (21 U.S.C. 812). Such term does not include the use of a drug taken under supervision by a licensed health care professional, or other uses authorized by the Controlled Substances Act or other provisions of Federal law.

(2) DRUGS.—The term "drug" means a controlled substance, as defined in schedules I

through V of section 202 of the Controlled Substances Act.

SEC. 511. DEFINITIONS.

(a) HOMOSEXUALITY AND BISEXUALITY.—For purposes of the definition of "disability" in section 3(2), homosexuality and bisexuality are not impairments and as such are not disabilities under this Act.

(b) CERTAIN CONDITIONS.—Under this Act, the term "disability" shall not include—

(1) transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders;

(2) compulsive gambling, kleptomania, or pyromania; or

(3) psychoactive substance use disorders resulting from current illegal use of drugs.

SEC. 512. AMENDMENTS TO THE REHABILITATION ACT.

(a) DEFINITION OF HANDICAPPED INDIVIDUAL.—Section 7(8) of the Rehabilitation Act of 1973 (29 U.S.C. 706(8)) is amended by redesignating subparagraph (C) as subparagraph (D), and by inserting after subparagraph (B) the following subparagraph:

"(C)(i) For purposes of title V, the term 'individual with handicaps' does not include an individual who is currently engaging in the illegal use of drugs, when a covered entity acts on the basis of such use.

"(ii) Nothing in clause (i) shall be construed to exclude as an individual with handicaps an individual who—

"(I) has successfully completed a supervised drug rehabilitation program and is no longer engaging in the illegal use of drugs, or has otherwise been rehabilitated successfully and is no longer engaging in such use;

"(II) is participating in a supervised rehabilitation program and is no longer engaging in such use; or

"(III) is erroneously regarded as engaging in such use, but is not engaging in such use,

except that it shall not be a violation of this Act for a covered entity to adopt or administer reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual described in subclause (I) or (II) is no longer engaging in the illegal use of drugs.

"(iii) Notwithstanding clause (i), for purposes of programs and activities providing health services and services provided under titles I, II and III, an individual shall not be excluded from the benefits of such programs or activities on the basis of his or her current illegal use of drugs if he or she is otherwise entitled to such services.

"(iv) For purposes of programs and activities providing educational services, local educational agencies may take disciplinary action pertaining to the use or possession of illegal drugs or alcohol against any handicapped student who currently is engaging in the illegal use of drugs or in the use of alcohol to the same extent that such disciplinary action is taken against nonhandicapped students. Furthermore, the due process procedures at 34 CFR 104.36 shall not apply to such disciplinary actions.

"(v) For purposes of sections 503 and 504 as such sections relate to employment, the term 'individual with handicaps" does not include any individual who is an alcoholic whose current use of alcohol prevents such individual from performing the duties of the job in question or whose employment, by reason of such current alcohol abuse, would constitute a direct threat to property or the safety of others.".

(b) DEFINITION OF ILLEGAL DRUGS.—Section 7 of the Rehabilitation Act of 1973 (29 U.S.C. 706) is amended by adding at the end the following new paragraph:

"(22)(A) The term 'drug' means a controlled substance, as defined in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812).

"(B) The term 'illegal use of drugs' means the use of drugs, the possession or distribution of which is unlawful under the Controlled Substances Act. Such term does not include the use of a drug taken under supervision by a licensed health care professional, or other uses authorized by the Controlled Substances Act or other provisions of Federal law.".

(c) CONFORMING AMENDMENTS.—Section 7(8)(B) of the Rehabilitation Act of 1973 (29 U.S.C. 706(8)(B)) is amended—

(1) in the first sentence, by striking "Subject to the second sentence of this subparagraph," and inserting "Subject to subparagraphs (C) and (D),"; and

(2) by striking the second sentence.

SEC. 513. ALTERNATIVE MEANS OF DISPUTE RESOLUTION.

Where appropriate and to the extent authorized by law, the use of alternative means of dispute resolution, including settlement negotiations, conciliation, facilitation, mediation, factfinding, minitrials, and arbitration, is encouraged to resolve disputes arising under this Act.

SEC. 514. SEVERABILITY.

Should any provision in this Act be found to be unconstitutional by a court of law, such provision shall be severed from the remainder of the Act, and such action shall not affect the enforceability of the remaining provisions of the Act.

The CHAIRMAN. No amendment to said substitute shall be in order except those amendments printed in part 2 of House Report 101-488. Said amendments shall be considered in the order and manner specified in said report, shall be considered as having been read, and shall not be subject to amendment. Debate time specified for each amendment shall be equally divided and controlled by the proponent of the amendment and a Member opposed thereto.

AMENDMENT OFFERED BY MR. LA FALCE

Mr. LAFALCE. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. LAFALCE: In section 310 (relating to effective dates), redesignate subsection (b) as subsection (c) and insert after subsection (a) the following new subsection:

(b) CIVIL ACTIONS.—Except for any civil action brought for a violation of section 303, no civil action shall be brought—

(1) during the first 6 months after the effective date, against businesses that employ 25 or fewer employees and have gross receipts of $1,000,000 or less; and

(2) during the first year after the effective date, against businesses that employ 10 or fewer employees and have gross receipts of $500,000 or less.

In subsection (a) of section 310, strike "subsection (b)" and insert "subsections (b) and (c)".

The CHAIRMAN. The gentleman from New York [Mr. LAFALCE] is recognized for 10 minutes.

Mr. LAFALCE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the amendment which I am sponsoring jointly with Representative TOM CAMPBELL addresses provisions of the public accommodations title of the Americans With Disabilities Act, H.R. 2273.

Our goal in offering this amendment is to ensure that the ADA is equitable and workable for all who are affected by it. As chairman of the Committee on Small Business, I held a hearing on the ADA in February during which concerns were voiced by small business owners about the potential costs and unfamiliar requirements that compliance with the ADA will entail. I do not suggest that fears of the unknown should freeze us into inaction.

Rather, we should take the time now to address legitimate concerns. Clearly, it is everyone's desire to have the rights of the disabled and the concerns of business hammered out through legislation, not litigation. It is absolutely time to integrate into the economic and social mainstream of America those among us who have felt the stigmas and discrimination a disability can mean.

On the other hand, no one wants a small business to fail because complying with or defending oneself under the ADA requires costly and time-consuming lawsuits or because regulations have not been issued informing businesses about the ADA's requirements.

Our amendment responds to these concerns without altering the scope or the substance of the ADA. Although we recognize that final regulations are often issued long after laws are in effect, we do not seek to delay the effective date of the public accommodations title or tie the effective date to the issuance of final regulations.

This means therefore that there is a strong likelihood that an element of guesswork will be involved when businesses start making the necessary accommodations and alterations in their facilities and practices.

In light of this, our amendment provides a period of protection from civil action for the smallest businesses after the title goes into effect. Small businesses deserve a period of protection—a period without fear of penalty—as they seek to come into compliance with the ADA's requirements—an entirely new aspect of doing business for many of them.

For businesses with 25 or fewer employees and gross receipts of $1 million or less, that period of protection is 6 months; for businesses with 10 or fewer employees and gross receipts of $500,000 or less, the period is 1 year. This is a moderate and fair response to legitimate concerns.

Mr. Chairman, this amendment has the support of Congressman HOYER, the principal cosponsor of the Americans With Disabilities Act; it has bipartisan support in the House; and it has the support of the business community; which wants to comply with the bill. They deserve our support in helping them comply.

I urge adoption of this amendment.

□ 1520

Mr. CAMPBELL of California. Mr. Chairman, will the gentleman yield for the purpose of a very brief colloquy?

Mr. LAFALCE. I yield to the gentleman from California.

Mr. CAMPBELL of California. Mr. Chairman, as coauthor of the amendment, I wish to clarify the following: Whereas the amendment states that during the first 6 months after the effective date no civil action shall be brought against businesses that fit these specifications, and similarly during the first year, I think the question should be made very clear that for actions or failures to take action during that period a lawsuit could not be brought once the 6 months is over.

Mr. LAFALCE. Mr. Chairman, that is absolutely correct. No action could be brought for any action or inaction during either the 6 months or the 1-year period respectively.

Mr. CAMPBELL of California. Mr. Chairman, that is my understanding, and I thank the gentleman for yielding.

Mr. LAFALCE. Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. Is there any Member seeking recognition in opposition to the amendment?

Does the gentleman from New York [Mr. LAFALCE] wish to use the balance of his time?

Mr. LAFALCE. Yes, Mr. Chairman, There are a number of Members who want to speak on this amendment, and I assume I now have not 10 minutes but 20 minutes in toto?

The CHAIRMAN. The Chair will state that the gentleman from New York [Mr. LAFALCE] has 6 minutes remaining.

Mr. LAFALCE. But since there is no Member in opposition, would I not have the other 10 minutes?

The CHAIRMAN. The Chair would announce that the rule does not provide for that consideration.

Mr. SENSENBRENNER. Mr. Chairman, I ask unanimous consent that the 10 minutes reserved for the opposition be assigned to the gentleman from New York [Mr. LAFALCE].

The CHAIRMAN. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. LAFALCE. Does the gentleman from California [Mr. CAMPBELL] wish me to yield time to him?

Mr. CAMPBELL of California. Mr. Chairman, I would appreciate it if the gentleman would yield me the 10 minutes so I could allocate time to Members on our side?

Mr. LAFALCE. I yield 10 minutes to the gentleman from California [Mr. CAMPBELL].

Mr. CAMPBELL of California. Mr. Chairman, I thank the gentleman for yielding time to me, and I rise in support of this amendment of which I am the coauthor.

Very simply stated, we are attempting to avoid a repeat of section 89. Small business should not be in doubt about what the regulations provide. Therefore, the regulations should issue first, and after the regulations have issued and after the law becomes effective by its date on the public accommodation section, there should be a period of the phasein so that the very smallest of employers, those who employ 25 or fewer, should have at least 6 months to acclimate themselves to the new condition, and similarly, for the smallest employers, those who employ 10 or fewer and have gross receipts of $500,000 or less, a grace period of 1 year would be afforded.

Mr. Chairman, small business wants to support the disabled community of America. I am proud to be a cosponsor of the Americans With Disabilities Act, and I view this amendment as consistent with that commitment. I will respond to the desires of all Members to be brief by doing so in my own case, and I shall conclude simply by saying that I am proud to be here cosponsoring this with the chairman of the committee on which I formerly served and for whom I have the highest regard, the gentleman from New York [Mr. LAFALCE].

Mr. Chairman, I reserve the remainder of my time.

Mr. LAFALCE. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, I rise in support of the amendment offered by the chairman of the Committee on Small Business, Mr. LAFALCE, and the gentleman from California, Mr. CAMPBELL. This is a good amendment and one which the House should adopt.

The LaFalce/Campbell amendment would provide for the bill to become effective 18 months after the effective date but phase in civil actions against small business in title III, the public accommodations section. I am pleased that the amendment encompasses an amendment which I presented to the Rules Committee and I thank the gentlemen for their willingness to reach an accommodation in this matter.

Mr. CAMPBELL first raised the issue of a small business phase-in in the Judiciary Committee. This responds to the concerns of small business and gives them time to learn what is readily achievable and gives the smallest businesses in America a longer period to become familiar with the provisions of the act. The amendment will allow small businesses to learn from the experiences of larger business and it gives time for communities to come together, shopkeepers and disabled shoppers, to learn what each others needs are and to provide for accommodations which are readily achievable.

The bill as reported to the floor has many accommodations to the needs of small business. Existing public accommodations must only make changes which are "readily achievable." If the changes are not readily achievable, then the business can provide its services through an alternative method, if that is not burdensome or disruptive to the business.

The LaFalce/Campbell amendment allows the smallest business time to adjust to the new law and to learn what is readily achievable for that business. I believe this amendment is an excellent addition to the legislation and I appreciate the gentleman from New York and the gentleman from California for offering this amendment. I urge my colleagues to support it.

---

Mr. POSHARD. Mr. Chairman, I rise today in strong support of H.R. 2273, the Americans With Disabilities Act.

This is landmark action to extend the protections and opportunities of American citizenship to a population that has been too long denied.

The Americans With Disabilities Act reaches out to millions of men and women who seek a greater and more equal role in living their lives alongside the rest of society.

I represent a rural area, and believe the real impact in areas like mine will come in the employment, housing, public accommodations, and telecommunications services which this bill addresses. It makes important improvements in the access to those services for disabled Americans, in addition to the transportation improvements that may be more applicable to urban areas but still are mightily important.

The Southern Illinois Center for Independent Living is headquartered in Carbondale, IL, a city in my district. Mr. Robert Kilbury is the executive director there, and the center serves a diverse population.

One important advance in this legislation Mr. Kilbury identified, and that I agree with, is it not only makes real changes in the working and living environment, it also sends a message. It says this country is no longer willing to ignore the 43 million or more Americans who may be described as disabled, but who are so able in numerous ways that to continue to live without their contributions would be a tragedy.

Since I mentioned Carbondale, I should let you know that rural communities are making a commitment in this area. Carbondale is a city of 25,000 residents, with about an equal number of students at Southern Illinois University, which serves a sizable disabled population.

In 1986, competing against much larger cities across the country, Carbondale was selected by the National Organization on Disability for top honors in its national community awards competition.

Carbondale's commitment to expanding the participation of disabled persons in community

life is an example I encourage other communities to follow, and I am pleased to make mention of this award during the passage of this important legislation.

As we did with the Civil Rights Act of 1964, which this act is patterned after, we're saying discrimination is repulsive and must be corrected.

Of course we know that laws have no real force if we do not translate them into action. Words and deeds ultimately mean more than statutes and regulations, and unless we bind ourselves to these requirements and make them real, then we will have come up short. But I am confident that will not happen.

As in civil rights, we have made progress, but there is a great deal still to be done.

This is an opportunity to make our society more well-rounded and accessible. We are at our best when we ignore the barriers of perception and prejudice and instead embrace the contributions each of us as individuals can make. This act makes that more possible for a uniquely deserving part of our society.

I'm extremely pleased to vote for passage of the Americans With Disabilities Act, and look forward to the day when we meet again to hail the improvements it has brought to all of us who are Americans.

Mr. Chairman, I would say that we believe this amendment is a friendly amendment, a positive amendment. I would reiterate that the bill already provides for an 18-month phase-in period prior to this amendment, so there is a learning curve to occur.

Further, under title 5, it provides for the Architectural Transportation Barriers Compliance Board to issue guidelines within 9 months, that is, 9 months before the effective date of the act. It also provides for the Attorney General and the EEOC to provide technical assistance guidelines and issue manuals. So there has been an effort to educate the small business community and give them time.

Under this amendment there would be an additional time for those employers of between 10 and 25 employees, an additional 6 months, that is, 24 months after the enactment of the bill, to be subjected to any actions.

However, I want to make it clear, and I think we all do understand this, that the law itself will be in effect and they will be under an obligation, of course, to make the accommodations. Even smaller businesses, those with 10 employees and under, will have an additional 6 months after that, for a total of 30 months, in order to know exactly what they have to do and to implement those changes to the extent that they know what they are.

Of course, the bill makes provisions for an accommodation that is unknown, that is, a disability that the business community or the individual business person may know of. There is a good faith consideration for that lack of knowledge about what accommodation needs to be made.

We think this is a positive amendment, Mr. Chairman, we are prepared to accept it. We think this is an amendment, however, that ought to be voted upon because we think it is an important amendment. It is a continuing accommodation to the concerns of the small business community, and we want to indicate that the membership of this body want to accommodate those concerns.

Mr. CAMPBELL of California. Mr. Chairman, I yield 2 minutes to the gentleman from North Carolina [Mr. BALLENGER].

The CHAIRMAN. Without objection, the gentleman from North Carolina [Mr. BALLENGER] is recognized for 2 minutes.

There was no objection.

Mr. BALLENGER. Mr. Chairman, I thank the gentleman from California for yielding this time to me.

Mr. Chairman, I am pleased the House is considering the Americans With Disabilities Act today. It is a well-intended bill that establishes noble goals with which few can disagree. Disabled workers are some of the most dedicated, loyal, and hard-working employees in our work force, obviously, it makes good business sense to open the doors of opportunity to enhance their employment options.

It is important to pass a bill that carries out these objectives, however, problems remain in the bill that make it difficult for many small businesses to comply with the act. Several amendments will be debated today that offer positive improvements in the current bill. One of these is the LaFalce-Campbell amendment, which I strongly support.

I offered a modified version of this amendment during debate in committee and would like to commend my colleagues for their efforts to improve the original proposal.

Businesses need time to review new Federal regulations and make alterations where needed to accommodate disabled individuals and strive to meet the letter of the law. LaFalce-Campbell provides small businesses with the means to achieve this goal—adequate time.

This amendment is fair, reasonable, and deserves your support. Join me in voting "yes" for a positive amendment that enhances the quality of the Americans With Disabilities Act.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. LAFALCE].

Mr. LAFALCE. Mr. Chairman, I have no Members on this side who desire recognition at this time, and I reserve the balance of my time.

Mr. CAMPBELL of California. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. GOODLING].

The CHAIRMAN. Without objection, the gentleman from Pennsylvania [Mr. GOODLING] is recognized for 2 minutes.

There was no objection.

Mr. GOODLING. Mr. Chairman, I am pleased to rise in strong support of this amendment. As already explained, it would simply provide, under the public accommodations title, an additional 6-month grace period from law suits for businesses with 25 or fewer employees and an additional 6 months thereafter for the smallest of businesses—those with 10 or fewer employees.

Mr. Chairman, a little historical background may prove useful here. When the Americans With Disabilities Act was first introduced, small business organizations consistently pressed for an exemption from the requirements of the public accommodation section similar to that provided for employers under title I of the act governing employment—25 or more the first 2 years; 15 or more thereafter. Frankly, Mr. Chairman, the concerns of small business were not surprising and were quite understandable. While the concepts underpinning the ADA have parallels in existing law under the Rehabilitation Act, the reach of that act had been limited to Federal contractors and those entities receiving Federal financial assistance. Thus, the requirements of the ADA were completely novel to many aspects of the private sector, most particularly small businesses. Further, let's be honest, the ADA will impose costs, sometimes substantial. In this light, the perceived need for an exemption was hardly irrational.

On the other hand, the disability community was rightfully concerned that a small business exemption would simply result in the continued denial of retail, entertainment, and other services—many of which are provided by small businesses—which led to the development of this legislation in the first place.

Mr. Chairman, I believe the amendment before us, developed on a bipartisan basis, is a reasonable and sound compromise between these two competing concerns. By providing a grace period during which no civil action could be filed against certain small businesses, there will be an adequate amount of time for these businesses to become familiar with the law—particularly through observing its implementation by the larger companies—and to adjust their operations accordingly. In effect they will be permitted to learn from the experiences of the larger companies and, hopefully, not make the same mistakes. At the same time, eventual and universal access by the disabled to all businesses remains a mandate of the law.

Mr. Chairman, I urge my colleagues to support this worthy amendment.

Mr. CAMPBELL of California. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. BARTLETT].

The CHAIRMAN. Without objection, the gentleman from Texas [Mr. BARTLETT] is recognized for 2 minutes.

Mr. BARTLETT. Mr. Chairman, I rise in support of the Campbell-LaFalce amendment. I believe that it is a modest extension of time but one that will in fact make the legislation considerably better accepted in the public marketplace.

I would note that it applies only to the public accommodations section. What it does is to extend an additional 6 months' protection against civil actions for small businesses in addition to the time already provided in the bill.

□ 1530

Mr. Chairman, as the gentleman from Maryland [Mr. HOYER] has stated, the ADA already requires time for both education and compliance. We anticipate that the regulations would be issued within 6 months after enactment, and subsequent to that technical assistance manuals would be issued both for public accommodations and for employment so that 18 months after enactment the bill will go into effect for public accommodations. In 24 months after enactment the bill would go into effect for employment.

Mr. Chairman, the amendment of the gentleman from California [Mr. CAMPBELL] assures that small business will have the time to become completely educated after the bill has gone into effect prior to any civil actions being taken for public accommodations.

It is a modest amendment. It is a fair and reasonable amendment. It is fully consistent within the intent of the ADA, and I do support it and commend both the gentleman from California [Mr. CAMPBELL] and the gentleman from New York [Mr. LAFALCE] for offering the amendment.

Mr. Chairman, I yield back the balance of my time.

Mr. LaFALCE. Mr. Chairman, I have no further requests for time.

Mr. CAMPBELL of California. Mr. Chairman, I yield back the balance of my time.

Mr. LaFALCE. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. LAFALCE].

The question was taken; and the Chairman announced that the ayes appeared to have it.

Mr. LaFALCE. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. Evidently a quorum is not present. Pursuant to the provisions of clause 2, rule XXIII, the Chair announces that he will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device, if ordered, will be taken on the pending question following the quorum call. Members will record their pressure by electronic device.

The call was taken by electronic device.

The following Members responded to their names:

□ 1602

So the amendment was agreed to.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. GOSS. Mr. Chairman, on rollcall No. 116, on the adoption of the LaFalce-Campbell amendment, I was at the White House meeting with the President and missed the vote. Had I been present, I would have voted aye.

PERSONAL EXPLANATION

Ms. ROS-LEHTINEN. Mr. Chairman, on rollcall No. 116, on the adoption of the LaFalce-Campbell amendment, I was at the White House meeting with the President and missed the vote. Had I been present, I would have voted aye.

PERSONAL EXPLANATION

Mr. MICHEL. Mr. Chairman, as a result of my work today with my colleagues on the budget summit, I missed rollcall No. 116, which was the vote on the amendment offered by Messrs. LAFALCE and CAMPBELL. Had I been present, I would have voted aye, because I strongly believe that this amendment strikes the appropriate balance between the goals of the Americans With Disabilities Act and the need to ensure that small businesses have an opportunity to learn what their duties are under this important legislation.

PERSONAL EXPLANATION

Mr. STEARNS. Mr. Chairman, on rollcall No. 116 on the adoption of the amendment of the gentleman from New York [Mr. LAFALCE] I was at the White House with other members of the Florida delegation briefing the President on an objection to offshore oil drilling. Had I been present, I would have voted aye.

Mr. DINGELL. Mr. Chairman, I ask unanimous consent to strike the last word.

The CHAIRMAN. Is there objection to the request of the gentleman from Michigan?

Mr. WALKER, Mr. Chairman, reserving the right to object, I would ask the gentleman from Michigan the purpose of his request.

Mr. DINGELL. Mr. Chairman, I have asked unanimous consent that I be permitted to address the House out of order for the purpose of making an announcement in concert with my friend, the gentleman from New York [Mr. LENT], regarding the filing of the report on the clean air bill.

Mr. WALKER. Reserving the right to object, Mr. Chairman, would not the normal procedure be to do that in the House rather than when we are in the committee?

The CHAIRMAN. The gentleman from Michigan is only making an announcement out of order.

Mr. WALKER. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Michigan?

There was no objection.

## PERSONAL EXPLANATION

Mr. ACKERMAN. Mr. Speaker, it has come to my attention that I was recorded as not voting when, in fact, I was present and voting in the Chamber.

On rollcall No. 113 I was recorded as "not voting" on ordering the previous question on H.R. 2273. I was present, I did insert my voting card, and I did vote "yea." My votes apparently were not recorded due to a malfunction of the voting system.

## ANNOUNCEMENT OF FILING OF CLEAN AIR BILL

Mr. DINGELL. Mr. Chairman, I thank the gentleman from Pennsylvania. This is for the purpose of announcing that after long and difficult effort in terms of writing the legislation, dealing with it in the committee through the hearing process, through the markup process, and then through the process of actually drafting the legislation as ordered reported by the committee and drafting the report, which is the document which sits here before me, and I would like my colleagues to look to see the foot-high document we are filing, the Committee on Energy and Commerce has directed me to file the report on the Clean Air Act Amendments of 1990. This is the legislation which will be on the floor next week.

We have done our best to provide this service to the House with all speed. It represents the hard work of a

lot of my colleagues, the gentleman from California [Mr. WAXMAN], chairman of the subcommittee; my very dear friend and able friend, the gentleman from New York [Mr. LENT], who has worked long and hard on this matter and who has carried out his responsibilities with extraordinary competence, diligence, and decency; my colleague from Indiana [Mr. SHARP], chairman of the Subcommittee on Energy and Power; and a large number of others of our colleagues far too numerous to name in the committee in my limited time.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. DINGELL. I am delighted to yield to my dear friend, the gentleman from New York [Mr. LENT], who has worked enormously hard and with great dedication and diligence on this matter.

Mr. LENT. Mr. Chairman, I thank the gentleman from Michigan, chairman of the Committee on Energy and Commerce, for yielding. I just wanted to commend the gentleman from Michigan for the leadership that he has displayed in getting this bill through the Energy and Commerce Committee. It has been a great many years that this legislation is overdue, and I think because of the leadership displayed by Chairman DINGELL, and also because of the impetus put behind this bill by the President of the United States, who offered the original clean air reauthorization bill, H.R. 3030, we are at this point today.

I would hope that the Rules Committee will shortly be convening so that this very important measure can be brought to the floor of the House for general debate, and then for the amendment process.

Mr. DINGELL. I would observe to my colleagues that we have compromised out the difficulties which exist with regard to approximately five titles. Three titles remain to be dealt with in terms of discussion, and a half of another title remains to be dealt with. We will try during the time that remains between now and the time the measure comes to the floor to continue working and negotiating to see to it that those remaining differences are addressed so that we can bring the bill to the floor in the best possible condition.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. DINGELL. I am delighted to yield to my friend, the gentleman from Pennsylvania.

Mr. WALKER. Mr. Chairman, if I understand correctly, the gentleman from Michigan is prepared to file the clean air bill. Some of the committees, such as the Science, Space, and Technology Committee, would be entitled to sequential referral of the bill. I am not aware as the ranking member of that committee that we have had an opportunity at this point to deal with the legislation. Is the gentleman from Michigan aware of the situation, and how are we filing a bill without our committee getting a proper sequential referral?

Mr. DINGELL. The question of referral of these matters to other committees is not in the hands of the chairman of the Committee on Energy and Commerce. It lies elsewhere.

However, I would assure the gentleman from Pennsylvania that we are going to try to be working with our colleagues on these other committees to resolve their concerns, both substantively and jurisdictionally.

Mr. WALKER. If the gentleman will yield further, it was my understanding, for instance, that we were trying to work out something where the Committee on Science, Space, and Technology title would be placed in the bill. It is my understanding that that has not been done at the present time, and I am wondering whether or not that is going to be accommodate at some point before the bill is filed?

Mr. DINGELL. We are going to try to work with our friends on the Committee on Science, Space, and Technology so as to enable that particular title to be offered on the floor, and to be added as an amendment at this point. We are in no way hostile to recognizing the jursidiction of that committee or the Committee on Public Works and Transportation, or the Committee on Ways and Means, or the Committee on Merchant Marine and Fisheries with regard to the concerns that they have on those parts of this legislation that may fall within their jurisdictions.

Mr. WALKER. If the gentleman will yield further, so it is my understanding then we will not get sequential referral, but rather would have to bring our jurisdiction to the floor on our committee and to offer it as an amendment to the bill.

Mr. DINGELL. I will tell the gentleman that is not a decision which lies in my hands.

Mr. WALKER. I understand that, but that is the procedure as the gentleman understands it?

Mr. DINGELL. I am not able to answer the gentleman's question, because I simply do not know the answer.

Mr. WALKER. I thank the gentleman from Michigan.

Mr. DINGELL. This is not a matter which is in my power to deal with.

Mr. WALKER. I thank the gentleman from Michigan.

Mr. MINETA. Mr. Chairman, will the gentleman yield?

Mr. DINGELL. I am happy to yield to the gentleman from California.

Mr. MINETA. Mr. Chairman, I assume the same courtesy would be extended to the Committee on Public Works and Transportation should the Parliamentarian's office see fit to have referral?

Mr. DINGELL. Again, I have no response to my good friend. This is not in the control or the hands of the chairman of the Committee on Energy and Commerce.

Mr. MINETA. That is what I am saying, that the Parliamentarians would determine?

Mr. DINGELL. We are going to try to work with all our sister committees, including the Committee on Public Works and Transportation. I recognize their concerns. The gentleman should know that the provisions he is talking about were in the bill as sent up by the administration. We will try and work with our colleagues on the Committee on Public Works and Transportation to see to it that those concerns are dealt with.

Mr. MINETA. I appreciate the response of my colleague.

The CHAIRMAN. Pursuant to the rule, it is now in order to consider amendment No. 2 printed in House Report 101-488.

□ 1610

AMENDMENT OFFERED BY MR. MC COLLUM

Mr. McCOLLUM. Mr. Chairman, I offer an amendment as printed in the report.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. MCCOLLUM: "and if an employer has prepared a written description before advertising or interviewing applicants for the job, this description shall be considered evidence of the essential functions of the job."

The CHAIRMAN. The gentleman from Florida [Mr. MCCOLLUM] will be recognized for 10 minutes.

Mr. McCOLLUM. Mr. Chairman, I do not believe there is going to be any opposition to this amendment, but I would like to explain it, and if there is no opposition, I believe the gentleman from Maryland would like to have half of my time and I would be glad to yield him 5 minutes of the 10 if that be the case.

If I could do so, I will now consume 5 minutes.

The basic thrust of this amendment that I am offering today goes to the very essence of this bill.

Under the employment section the definition of what a person is covered by this and who has the right to seek redress is framed in terms of an employee, a potential employee, a handicapped person who can perform the essential functions of the job. If that person can perform the essential functions of the job and the employer can provide reasonable accommodations without undue hardship, he has got to give him a fair shake and give him a

chance at that job and consider him equally along with everybody else.

The issue that came up to us in the Committee on the Judiciary was who decides what those essential functions are. Ultimately it could be a court, it could be some regulatory agency, it could be a lot of different folks who could decide this thing in the long run.

We need to give some guidance to them as to that fact.

So in the Committee on the Judiciary, to try to get a better grip on the essential functions and give guidance to those making decisions down the road, it was placed in the bill by an agreement worked out and adopted in committee that for the purposes of this title consideration should be given to the employer's judgment as to what functions of a job are essential.

My amendment leaves that intact and it simply provides that, in addition to that, and if an employer has prepared a written description before advertising or interviewing applicants for the job, this description shall be considered evidence of the essential functions of the job.

In my judgment, this would reduce the chances of courts arbitrarily substituting their judgment for an employer's when it comes to determing the essential functions of the job, but still allows the employee, the potential employee, the handicapped person to present his or her own evidence. It is not a binding proposition.

And furthermore, by adopting this additional protection in this bill, this additional language that I am proposing today, you protect the disabled worker from some employer giving testimony and in his testimony attempting to shape the essential functions of the job to exclude the worker if there is indeed a written description of that job already on file with the employer in his office from way back when.

So I would submit this is a very simple amendment and yet it is one that provides a measure of protection not in the bill right now to both the employer and the handicapped worker, and if we put it in the bill we may reduce the amount of litigation and the cost to the employer and the hassle to the would-be employee and make this thing work a little better in the area of essential functions, which is critical to the entire bill in terms of the employment section of the bill.

Mr. SENSENBRENNER. Mr. Chairman, will the gentleman yield?

Mr. McCOLLUM. I yield to the gentleman from Wisconsin [Mr. SENSENBRENNER].

Mr. SENSENBRENNER. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I support strongly the gentleman's amendment. It is similar to an amendment which I originally offered at the subcommittee level. Basically what it does is it allows the employer to define what the essential functions of the job are. I believe that that will considerably reduce litigation and questions over this issue.

Second, by putting the language proposed by my friend from Florida into the bill, it will prevent an employer from making up evidence after a discrimination charge has been filed.

So in this respect, it protects handicapped employees who are potential victims of discrimination.

I believe under the McCollum amendment everybody is a winner: employers, handicapped individuals who are seeking jobs as well as the judicial process which will be relieved of, hopefully, quite a few lawsuits.

Mr. EDWARDS of California. Mr. Chairman, will the gentleman yield?

Mr. McCOLLUM. I yield to the distinguished chairman, the gentleman from California [Mr. EDWARDS].

Mr. EDWARDS of California. I thank the gentleman for yielding.

Mr. Chairman, we thank the gentleman from Florida [Mr. McCOLLUM] and the gentleman from Wisconsin [Mr. SENSENBRENNER] for working with us on this. We did not approve of the original version. But, Mr. Chairman, we want to make it clear that we are accepting this amendment because it does not change current law or affect the burden of proof. The amendment simply states that written job descriptions shall be considered as evidence. It assigns no weight to the evidence.

The weight that evidence of a job description will be given will depend directly on how closely it is tailored to the essential duties of the actual job. Writing down discriminatory criteria certainly does not shield them.

In fact, a job description can also be used as evidence of discrimination.

My vote on this issue and our consent on this issue is based on this understanding.

Mr. BARTLETT. Mr. Chairman, will the gentleman yield?

Mr. McCOLLUM. Mr. Chairman, I yield to the gentleman from Texas.

Mr. BARTLETT. I thank the gentleman for yielding.

Mr. Chairman, I do support the gentleman's amendment. I think it helps to clarify the legislation. I commend the gentleman for offering it.

The ADA provides in its current form a protected individual must be able to, with or without reasonable accommodation, perform the essential functions of the job.

This amendment makes it clear in statutory language that a court would consider the employer's written job description as evidence as to what is an essential function. As such, it would complement existing language in the bill which provides that consideration should be given to the employer's judgment as to what functions of the job are essential.

I would note that the gentleman from Florida [Mr. McCOLLUM] is the author of that language in the bill which made a significant improvement in the bill at committee.

The amendment is entirely consistent with what would likely happen in any event. It is completly reasonable. It does help the bill, it helps to clarify exactly what we have been considering, and I commend the gentleman for his amendment.

Mr. HOYER. Mr. Chairman, will the gentleman yield?

Mr. McCOLLUM. I yield to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. I thank the gentleman for yielding.

Mr. Chairman, I also rise in support of that and adopt the representations made by the distinguished chairman of the subcommittee, the gentleman from California [Mr. EDWARDS].

I think what this does is we want to make sure that it is clear that in the description of the functions of the job placed upon that job by the employer are to be considered by a court. We would expect them to do that. They ought to do that. I agree with the chairman that that is not dispositive of it. Of course, the amendment does not say it is dispositive of the question.

But it seems appropriate to us for the employer's opinions as to what the essential functions of the job are to be considered by the court. We take that as what the amendment does, and we certainly will not object to it.

Mr. McCOLLUM. Mr. Chairman, I yield to the gentleman from Ohio [Mr. ECKART] for the purpose of a colloquy with the gentleman from Maryland [Mr. HOYER].

Mr. ECKART. Mr. Chairman, I would like to ask the distinguished gentleman from Maryland if he would comment on a particular aspect of the bill. Sections 104 and 510 of the bill specifically refer to illegal drug use and to individuals who formerly used illegal drugs. I have a few questions about these sections. It is my understanding that each of the professional sports leagues has a policy governing drug use by players. I believe that we in Congress should support and encourage efforts by professional sports leagues to deter drug use by players and others. I would like to know how this bill would affect the drug programs of professional sports leagues.

Mr. HOYER. I agree with the gentleman that the drug programs established by the NFL, NBA, NHL, and major league baseball are an important part of our national effort to combat drug use. I would like to emphasize for the gentleman that these policies have been reviewed and that they are consistent with this act.

Mr. ECKART. Mr. Chairman, it seems to me that our knowledge about drug use and how to deter and treat it

is constantly changing. In endorsing the current policies of the professional leagues, does this bill intend to freeze those policies in place?

Mr. HOYER. No. As the gentleman knows, the policies of the sports leagues differ in a number of significant ways and the bill does not specifically approve those and only those programs currently in place. The bill does not prohibit leagues from modifying their programs in response to changed circumstances or developments in medicine, technology, or drug or alcohol treatment.

Mr. ECKART. I thank the gentleman from Maryland [Mr. HOYER], my colleague, and the gentleman from Florida [Mr. MCCOLLUM].

Mr. HOYER. Mr. Chairman, will the gentleman continue to yield?

Mr. MCCOLLUM. I yield to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. I thank the gentleman for yielding further.

Mr. Chairman, I commend the gentleman on his amendment and join him in its support.

Mr. MCCOLLUM. Reclaiming the balance of my time, Mr. Chairman, I just want to comment that the very essence of what we are doing here is clarifying the language so we put the responsibility clearly on the record in the statute with regard to the determination of what essential functions are.

□ 1620

We do not change, as the gentleman has stated on the other side, the basic thrust or waste of evidence, but we do clarify that the opinion as is in the bill coming before Members today of the employers giving consideration, and where there is a job description with this amendment, it is very clear that job description is admissible in evidence, in addition to the opinion of the employer being allowed into evidence.

I thank the gentleman, and with that kind of consent we should get a favorable vote. I urge the Members to vote yes to the amendment.

The CHAIRMAN. Is there a Member seeking recognition who is opposed to the amendment?

If not, the question is on the amendment offered by the gentleman from Florida [Mr. MCCOLLUM].

The amendment was agreed to.

The CHAIRMAN. Pursuant to the rule, it is now in order to consider amendment No. 3 printed in House Report 101-488.

AMENDMENT OFFERED BY MR. OLIN

Mr. OLIN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. OLIN: In section 101, at the end of paragraph (10) (relating to undue hardship), insert the following: "(C) EXCESSIVE COST HARDSHIP.—For the purpose of this title, it is presumed an undue hardship if an employer incurs costs in making an accommodation which exceeds 10 percent of the salary or the annualized hourly wage of the job in question."

The CHAIRMAN. The gentleman from Virginia [Mr. OLIN] will be recognized for 15 minutes, and a Member opposed will be recognized for 15 minutes.

MODIFICATION OFFERED BY MR. OLIN TO THE AMENDMENT OFFERED BY MR. OLIN

Mr. OLIN. Mr. Chairman, I ask unanimous consent to make a technical change in the amendment on line 4 to add the word "annual" before the word salary. It was a typographical error.

The CHAIRMAN. Is there objection to the request of the gentleman from Virginia?

There was no objection.

The CHAIRMAN. The amendment is modified.

The text of the amendment, as modified, is as follows:

Amendment offered by Mr. OLIN: In section 101, at the end of paragraph (10) (relating to undue hardship), insert the following: "(C) EXCESSIVE COST HARDSHIP.—For the purpose of this title, it is presumed an undue hardship if an employer incurs costs in making an accommodation which exceeds 10 percent of the annual salary or the annualized hourly wage of the job in question."

Mr. HOYER. Mr. Chairman, will the gentleman yield?

Mr. OLIN. I yield to the gentleman from Maryland.

Mr. HOYER. Mr. Chairman, if the gentleman has no objection, we would like to rise momentarily for the purpose of the majority leader making some announcements, and go right back into Committee.

Mr. Chairman, I move that the Committee do now rise.

The motion was agreed.

Accordingly the Committee rose; and the Speaker having resumed the chair, Mr. MFUME, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2273) to establish a clear and comprehensive prohibition of discrimination on the basis of disability, had come to no resolution thereon.

## PROVIDING FOR CONSIDERATION OF H.R. 3030, CLEAN AIR ACT AMENDMENTS OF 1989

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that on Monday, May 21, 1990, the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 3030.

I further ask unanimous consent, Mr. Speaker, that general debate shall be confined to the bill and shall not exceed 8 hours, with 6 hours to be equally divided and controlled by the chairman and ranking minority member of the Committee on Energy and Commerce, and with 1 hour to be equally divided and controlled by the chairman and ranking minority member of any committee receiving sequential referral of the bill.

Further, Mr. Speaker, I ask unanimous consent that at the conclusion of general debate, the Committee of the Whole shall rise without motion and any further consideration of the bill shall be determined by a subsequent order of the House.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

## HOUR OF MEETING ON TUESDAY NEXT

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that on Tuesday, May 22, 1990, that the hour of meeting of the House be 10 a.m.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

## REQUEST FOR WAIVER OF POINTS OF ORDER AGAINST H.R. 3030, CLEAN AIR ACT AMENDMENTS OF 1989

Mr. GEPHARDT. Mr. Speaker, I ask unanimous consent that there be a waiver of points of order against consideration of H.R. 3030.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

## AMERICANS WITH DISABILITIES ACT OF 1990

The SPEAKER. Pursuant to House Resolution 394 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 2273.

□ 1625

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2273) to establish a clear and comprehensive prohibition of discrimination on the basis of disability, with Mr. MFUME in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier today, pending was an amendment offered by the gentleman from Virginia [Mr. OLIN], as modified. The Chair recog-

nizes now the gentleman from Virginia for 15 minutes.

Is there a Member opposed to the amendment?

Mr. FISH. Mr. Chairman, I am opposed to the amendment.

The CHAIRMAN. The gentleman from New York [Mr. FISH] will be recognized for 15 minutes also.

Mr. OLIN. Mr. Chairman, I yield myself such time as I may consume.

I want to say at the outset I am very much in favor of the bill we are considering today. I have some problems with it. I think we could improve the bill some, but it is a bill we need. It is well thought through, and I congratulate the gentleman from Maryland for the work he has done on it, as well as the four committees and all the Members who did work on it.

Mr. Chairman, my amendment is to title I of the bill, employment, and it deals with the accommodation of qualified disabled persons, when that person is hired by a business. The bill, as we all know, requires that the employer make reasonable accommodations for such a disabled person. The bill goes on to further explain that reasonable accommodations is further defined as something that can be done without undue hardship. Undue hardship is then further defined as an action which requires a significant difficulty or expense.

The bill makes an attempt to define what the obligation of the employer is, but really when we come right down to it, it is going to be any person's guess what really is the dividing line between a sufficient response by the employer and an insufficient response.

I just think that it is a mistake to have legislation of this nature that affects so many people, so many employers, and literally millions of disabled people, without having the further guidance that would make it possible for the employers to know what was expected of them when they have to decide whether to accommodate an employee or not.

Now, the bill offers some help in this regard, and there have been many of the committees that have words that are directed in this direction. Mr. Chairman, there are hundreds of varieties of conditions of disability. Of course, we have countless varieties of business institutions that are going to be dealing with this. I asked one of the Members working on the bill how a person could determine what degree of accommodation was required. The answer was that it will have to be decided in court. Of course, over a long period of time, it could be decided in court. Another answer was that section 504 of the Rehabilitation Act of 1972 was really the same thing, but that act dealt with people that are contracting with the Federal Government. I make the case that that is not the same thing.

My amendment says that it is presumed to be undue hardship if an employer incurs costs making accommodation of more than 10 percent of the annual salary or the annualized hourly rate of the job in question. This is a limit that is easier to administer. It is fair. It is more likely not to cause problems.

□ 1630

Some persons might think that this 10 percent is not quite the right way to express this way of limiting, and I accept the possibility that there are other ways. I believe that this bill should contain some provision in this regard that puts some kind of finite limit on what the employer's responsibility is, and I think as this bill goes into conference, other ways of interpreting this might be possible. But with no mention of this subject in the bill at all, the subject will not be put in it, and we are going to living with a bill where it is almost impossible for employers to know where they stand unless they go to court.

Mr. McCOLLUM. Mr. Chairman, will the gentleman yield?

Mr. OLIN. I yield to the gentleman from Florida.

Mr. McCOLLUM. Mr. Chairman, I thank the gentleman for yielding, and I thank the gentleman for offering this amendment.

Mr. Chairman, this amendment is very similar to one that I sponsored over in the Judiciary Committee. We were unsuccessful on it, but it is my judgment that of all the amendments we are going to be considering on the floor today, this one may be the most significant one from the standpoint of mitigating the cost to small business. That is why the National Federation of Independent Businesses so strongly supports the gentleman's effort in this regard.

We are talking in this bill about two features of cost. We are talking about the cost of making the accommodation for the handicapped worker, a cost of moving walls in some cases and making physical plant changes that take dollars out of the business, and we are talking about the cost of litigating, paying lawyers' fees to try to define some things that are not clearly defined in this bill.

Undue hardship is a nebulous thing, although there is a lot of case law on it. Every single case is going to have to be determined independently or at least potentially.

What the gentleman's amendment does is very simple. The gentleman puts a ceiling with this amendment on the cost that is going to have to be incurred by that small businessman, and the gentleman says in both cases really that we are going to help him. We have 10 percent of the annual salary of the would-be employee, the handicapped employee. Whether that is a $10,000-a-year employee or a $100,000-a-year employee, it is no more than 10 percent, and if we cross that 10 percent, then we are presumed to have an undue hardship. So the gentleman makes sure there is no greater cost than that which he is going to have to incur to make this accommodation. He does not set a floor because there is still the opportunity to have undue hardship on a case-by-case basis, but he does reduce the litigation opportunities because everybody looking at this is going to know from day one that they certainly are not going to get the employer to spend more than that 10 percent.

So I admire the gentleman from Virginia for offering his amendment. I think it is really needed here. It does not in any way hurt the intent of the bill, which is to provide job opportunities for the handicapped, but it does provide a measure in some kind of way to get a grip on the potential runaway cost otherwise under this bill in litigating every instance that comes along. It gives us a guideline and a definition.

Mr. Chairman, for the life of me, I do not know why anyone would oppose this amendment, though I know some of my colleagues do. So I thank the gentleman for yielding. I strongly urge a yes vote on the Olin amendment, and I thank the gentleman for offering it.

Mr. OLIN. Mr. Chairman, I thank the gentleman from Florida [Mr. McCOLLUM] for his comments, and I reserve the balance of my time.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. FISH].

Mr. FISH. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me just say at the outset that essentially this amendment is one of several where an effort was made to negotiate with the White House in the past few weeks. They found this language unacceptable, and they strongly urge as an alternative the small business tax credit, which was the subject of the colloquy earlier and which I certainly favor very strongly. The business community is also in favor of that as a freestanding piece of legislation.

Mr. Chairman, I propose to yield half of my time to my colleague, the gentleman from New York [Mr. OWENS]. That will give the gentleman from New York 7½ minutes for him to control.

The CHAIRMAN. Without objection, the gentleman from New York [Mr. OWENS] may control that time.

There was no objection.

Mr. FISH. Pending that, Mr. Chairman, I yield 4 minutes to the gentleman from Texas [Mr. BARTLETT] who, along with the gentleman from Maryland [Mr. HOYER], is one of the two

midwives of this legislation and who will offer his arguments in opposition.

Mr. BARTLETT. Mr. Chairman, I appreciate the kind and colorful words of the gentleman from New York [Mr. FISH] in yielding time to me.

Mr. Chairman, I rise in very strong opposition to the amendment offered by the gentleman from Virginia [Mr. OLIN].

I have a great deal of respect for the gentleman from Virginia [Mr. OLIN]. I have a great deal of respect for those who would urge this amendment as an attempt to try to make this bill in their opinion much more easily understood. In my opinion, though, this amendment would in fact be harmful both to those who are disabled and to the employers themselves. It would be harmful to those who are disabled because it would disrupt the basics of the bill, which is the main part of a reasonable test for a reasonable accommodation, and it would replace the concept of reason with the concept of a strict monetary amount.

It would be harmful to the employer, Mr. Chairman. It would do a great deal of harm to the employer, in my opinion, because it would convert in most cases what would be a minor, much less significant expense to the employer to a much larger expense as defined by this amendment as 10 percent of the annual salary.

We have heard it said on this floor that the definition of "undue hardship" is "vague and undefined and difficult to understand." I want to bring to the attention of the Members that first of all this is the same definition that has been in public law since 1973, and the country knows exactly what it means because it has been well defined; it has been tested in every court in the land, and in fact it is very clear what "undue hardship" means.

Second, I want to remind the Members that "undue hardship" is defined in this bill in a very small set of words. "Undue hardship" is defined as "significant difficulty or expense." That is not a set of words that are difficult to understand. In fact, the gentleman's amendment would replace the concept of an employer not having to provide a reasonable accommodation if it is a significant expense, in effect requiring, although it does not say that, or inducing the employer to pay up to 10 percent of the annual salary.

We have also heard it said that this amendment is the same as the law in North Carolina. I want to say that that is not so. In North Carolina the law creates an irrefutable, absolute presumption that a percentage of salary is in fact a ceiling. This does not create an absolute or an irrefutable presumption. The amendment offered by the gentleman from Virginia in fact simply says that for purposes of this title, 10 percent would be presumed to be an undue hardship, inviting, therefore, a target for a lawsuit because it does not have to be limited to 10 percent. It is only a presumption, and the presumption is not irrefutable. In fact, the amendment before us attempts to set a ceiling on expenses, but it does not set a ceiling at all because it is not an irrefutable presumption. But it does set a floor.

Let us consider the reality. With an employee who is hired with a speech impediment, the employer makes a reasonable accommodation of no cost, of simply not requiring that employee to take his turns on the telephone in the reception area during the noon area and dividing that time among the other employees. There would be no cost to the employer, and it would be a modest, reasonable accommodation by the employees. The employee with the speech impediment gets the position and then goes to the employer and says, "Wait a minute, I earned $20,000 a year with this company. Where is my 10 percent, my $2,000 for speech therapy?"

Or we may have an employee who has cerebral palsy and a limited use of his or her hands, and the employer buys a $89.95 lazy susan for the files on that employee's desk, and the employee upon receiving it says, "Where is the other $1,500 as a percentage of my salary to provide an attendant or a different set of files, or something in addition?"

No, the fact is that a tax credit is a much better way to go. I wish a tax credit were in this bill. But I am convinced, after hearing the Chairman of the Ways and Means Committee earlier in the colloquy, that we will have a tax credit to provide for some portion of the cost for reasonable accommodation to be paid for by the taxpayers. I think that is a much better way to go. It has universal support on this House floor and in the other body.

Mr. Chairman, I ask the Members to vote no on the Olin amendment. The Olin amendment attempts to set a ceiling, but in fact it sets a floor. The Olin amendment attempts to define "reasonable," but it in fact makes "reasonable" unreasonable in many cases. The Olin amendment attempts to set a presumption, but in fact it sets a target for a lawsuit.

Mr. OLIN. Mr. Chairman, I yield 2 minutes to the gentleman from North Carolina [Mr. LANCASTER].

Mr. LANCASTER. Mr. Chairman, I thank the gentleman for the opportunity to speak briefly on this important amendment. The committees of jurisdication that have worked hard on this legislation are to commended.

Having been the prime sponsor of North Carolina's disability act and chairman of the Judiciary Committee which considered that legislation in North Carolina, I know the difficulties of crafting a piece of legislation that is so complex and has so many competing interests.

□ 1640

Mr. Chairman, they have produced a good bill, but it can be made better by the adoption of the amendment of the gentleman from Virginia [Mr. OLIN].

I would simply point out that the experience in North Carolina, which is the basis for this amendment, has been very different from what the gentleman from Texas [Mr. BARTLETT] has stated. The North Carolina 5-percent rule has not served as either a floor or as a ceiling, but has, in fact, simply been providing that certainty to the business community that they need in legislation such as this.

Mr. Chairman, I believe that a 10-percent rule, such as has been crafted by the gentleman from Virginia [Mr. OLIN], does, in fact, give to the business community the certainty, gives them the guidelines that they need in determining the extent to which they will be expected to make financial commitments to accommodating the disability of the potential employee, and I certainly urge the strong support of each Member of this House for this amendment.

Mr. OWENS of New York. Mr. Chairman, I rise in opposition to the amendment offered by the gentleman from Virginia [Mr. OLIN], and I yield myself 2 minutes.

Mr. Chairman, as has been stated already, there was a considerable discussion of the concept of undue hardship during the deliberations about this bill. We also have a long history of undue hardship being interpreted by the courts.

Mr. Chairman, my question to the gentleman from Virginia [Mr. OLIN], who has offered this amendment is, On what basis do we choose 10 percent? Why not 5 percent? Why not 9 percent? Why not 25 percent? On what basis do we choose 10 percent? Is there a body of evidence which leads us to conclude that 10 percent is the magic number?

Mr. Chairman, what happens is that 10 percent becomes an arbitrary and unjust figure because there is no history, there is nothing, to back it up. The gentleman's argument might hold some weight, after maybe even 5 years, and there was a body of experience, and some case law and a number of cases to base some kind of conclusion like this that he has reached, but at this point it is a very harmful amendment, as simple as it may seem.

Ten percent is a magic figure? Ten percent is handed down by the gods? How do we reach that 10 percent figure?

Mr. Chairman, what if one employee's accommodations are used for a second employee, and that employee comes on? What if several employees

are covered by one set of accommodations? How do we figure the annual salary? Do we combine the annual salaries of three employees who might be hired at the same time and might need accommodation? What about the history, changing a door here, changing a telephone there, and for 10 years it is in existence, or maybe 20 years. Would there be a capital writedown on it? And figure it on the basis of its depreciation value, or do we take the total cost of that improvement and charge it to one employee and then his annual salary?

Mr. Chairman, there are a number of complications that are raised by the introduction of this seemingly simple 10-percent rule. We leave it up to the courts. They have a long history of interpreting what undue hardship is.

The language is quite clear and quite simple already. This amendment only complicates matters a great deal despite its seeming simplicity, and I would urge a no vote on the amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. OLIN. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, I appreciate the gentleman from Texas [Mr. BARTLETT] who got up and wanted to protect the employers by not setting a floor with this amendment, but I might point out that it is the employers that want this amendment, that the NFIB is making this a key element of their vote rating. This is very important to them, and this exemplifies the problem we have had during this whole process.

The gentleman from New York [Mr. OWENS] talks about having a long case history, a dealing with section 54 of the Rehab Act since 1973. That is case history on government entities with deep pockets. We are going from deep pockets of government industry and applying this bill to private sectors that could not have the deep pockets of government, and that is the big difference. Employers must know how they are to comply with this law.

Proponents say it will not cost a whole lot of money. I ask, Then why are you against this amendment? If this bill doesn't cost employers a whole lot of money, then accept a cap on an amount of money that the employer has to deal with telling him how to comply with the law.

Mr. Chairman, it frightens me when someone tell me that the courts will decide on this issue. If frightens me greatly. This is harmful to the employer by applying this higher expense. It is the wrong argument. The employers are willing to accept this higher expense for certainty of compliance rather than leave their fate up to the courts.

Mr. OWENS of New York. Mr. Chairman, I yield 2 minutes to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Chairman, I just rise to encourage people to oppose this amendment because I think one of the things that is so unfair about it is that, if my colleagues look at the employee's salary and use that as the measuring rod to determine whether or not there is an undue burden to try and accommodate, they really are going to discriminate among the lowest paid workers in America.

Mr. Chairman, very often we are trying to help people who have already been discriminated against, and we are now going to hit them with a double discrimination by hitting them again by saying, "Oh, well, they don't have to do this for you. You can stay at those wages because it costs too much."

I think this especially hits also women and minorities. It hits a lot of transitional and temporary employees. It hits all sorts of things.

As my colleagues know, the question then becomes, "What do you look at? If you have a part-time employee, do you look at their entire year's wages? If you project it out, you look at the part-time wage?"

There are a lot of different questions here, and I just think we do not need to do this, so I really hope we do not shoot ourselves in the foot by trying to double up the discrimination here that we are trying to undo.

Mr. Chairman, I see this amendment as doubling up discrimination that the bill is trying to undo, so I urge Members to look at this very carefully, realize what this will mean, if we have this cap per employee based on their salary, and realize how that can be very discriminatory for low-income employees.

It is great for Donald Trump. It is lousy for the person who is cleaning up after Donald Trump.

Let us be perfectly honest about this, and I think we have enough of that type of stuff in legislation, and I urge a "no" vote.

Mr. OLIN. Mr. Chairman, I want to point out to the Members that I just got word there has been some rumor that the White House was opposing this amendment, and the call that was made to them 2 minutes ago indicated that that was a false rumor, that the White House very much favors this amendment and is supporting it.

Mr. Chairman, I yield 2 minutes to the gentleman from Tennessee [Mr. COOPER].

Mr. COOPER. Mr. Chairman, I also rise in strong support of the amendment of the gentleman from Virginia [Mr. OLIN], and it is not that I do not have some sympathy with the arguments just made by the gentlewoman from Colorado [Mrs. SCHROEDER].

I would, for example, be interested in possibly supporting an amendment that the gentlewoman from Colorado [Mrs. SCHROEDER] might offer that would allow the lower paid workers to have, for example, a 20-percent cutoff so that we could have some progressivity in it, whatever the number might be chosen.

The important thing though is to have certainty, certainty for the employers so that they can understand this law and plan on their own without the advice of counsel to look back through case law, through 17 years, and without relying on their local Federal judge to figure it out for them.

Mr. Chairman, the small businessman should be given a law that he or she can understand and can implement largely on their own. Many attorneys in my district do not even have access to the elaborate Federal case law that is required to understand prior acts.

We need to have a simpler act, an act with certainty, and that is what the amendment of the gentleman from Virginia [Mr. OLIN] leads us toward.

I am not saying that it could not be improved in conference, and I do want to say that I view the Olin amendment as a ceiling, and not as a floor, and I think the author of the amendment has a similar intention.

People may characterize it as they would like. The truth is that the amendment of the gentleman from Virginia [Mr. OLIN] just sets a ceiling, and I think that it is an amendment that most small businesses and most small business friends should strongly support.

I urge a yes vote on the amendment of the gentleman from Virginia [Mr. OLIN].

□ 1650

Mr. OWENS of New York. Mr. Chairman, I yield 1 minute to the gentleman from New Jersey [Mr. PAYNE].

Mr. PAYNE of New Jersey. Mr. Chairman, I rise in opposition to the Olin amendment. Congressman OLIN's amendment would create an unfair presumption that a reasonable accommodation of over 10 percent of an employee's annual salary constitutes an undue hardship and would not be required under the act.

Today, are we going to say that a company manager who earns $40,000 is entitled to a greater accommodation than the mailclerk who receives a salary of $15,000? The intent of this legislation is to provide equity where none exists. The Olin amendment would allow further discrimination by making available to employees with the lowest paying jobs a lesser accom-

modation, without consideration of the individual's skills or qualifications.

In the Education and Labor Committee, we approved amendments which clarified what would be used to consider undue hardship. This issue was also addressed in the Judiciary Committee which also took into account financial resources of the employer.

In addition, the Olin amendment fails to recognize that many accommodations such as a ramp, reader, or interpreter, last for many years and would benefit employees other than the applicant and possibly others in need of special assistance.

For example, building a ramp may cost more than 10 percent of one employee's $10,000 annual salary.

I cannot support this amendment because it would erode the flexibile approach embodied in the Rehabilitation Act and adopted by the ADA. I must also oppose this amendment because it unfairly switches the focus away from the resources of the employer and onto the annual salary of the employee.

I urge my colleagues to also vote against the Olin amendment.

Mr. OLIN. Mr. Chairman, I yield 1 minute to the gentleman from Virginia [Mr. PAYNE].

Mr. PAYNE of Virginia. Mr. Chairman, I rise in support of Mr. OLIN's amendment. I strongly support the purposes of the ADA bill, yet despite all the effort expended on its development, there still remain portions which provide differences in interpretation, such as the section concerned with accommodation to facilitate the employment of a disabled job applicant.

Once this bill becomes public law, it will be necessary for employees across the country to make millions of individual decisions as to how it might be implemented. "Undue hardship" and "reasonable accommodation" will be the only guidelines available to them, with no assurance or certainty that whatever they propose by way of accommodation will not lead to litigation, and subsequent lengthy judicial resolution.

I believe the Olin amendment provides defined, reasonable standards—reasonable to those who are disabled, while at the same time reasonable to the employers.

I urge our colleagues to support this amendment, and thereby facilitate the movement into the workforce of the disabled who seek employment.

Mr. OWENS of New York. Mr. Chairman, I yield 2 minutes to the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. Mr. Chairman, I thank the gentleman for yielding me this time.

I rise in opposition to this amendment. I do not think this amendment is doing the business community any favors. I think if it were adopted it would be quickly regretted as creating a presumptive level of accommodation that would become a ceiling and a floor at the same time. That is not what we need in this legislation. We need flexibility, and in fact this standard of reasonable accommodation is one that has been successfully applied in federally funded programs under the 1973 Rehabilitation Act.

If we are to set this kind of arbitrary limit, we are going to fail to make reasonable accommodations that cost a little less and we are going to have litigation whether other accommodations that were done are adequate because they do not reach this 10 percent standard.

Flexibility, not a rigid formula rule, is what is needed to make this legislation effective and workable.

We also have to worry about the discretionary impact of a percentage applied as a limit. Obviously, those who are applying for lower paying jobs ought not to find themselves screened out of these opportunities, while those who are applying for higher paying jobs are successful because they fall within the 10 percent cap.

Arbitrary formula limits are not what this legislation is about. This legislation is about prudent judgments and nondiscriminatory practices in employment.

The bill as it is presented on the floor has successfully provided the necessary protections for the small business community. It has provided the kind of flexible rule that can be applied on a case-by-case basis and can avoid litigation, rather than promote litigation.

I commend those who have authored this bill for the way they have walked that line with judgment and prudence.

Mr. Chairman, I urge the House to reject this amendment.

Mr. FISH. Mr. Chairman, since I remarked something about the administration's position which had the value of being 2 weeks old, I now would like to clarify as to whether or not they oppose, favor or simply refuse to negotiate on this position earlier, and I yield such time as he may consume for that purpose to my friend, the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, in the event this is of consequence to any Member's vote on this floor, the official White House position as of a few moments ago from the Congressional Liaison Office is that the White House has no position on this amendment.

Mr. FISH. Mr. Chairman, I thank my friend.

Mr. Chairman, I yield the balance of my time to my friend, the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Chairman, I thank the gentleman for yielding his remaining time to me.

I rise in strong opposition to the Olin amendment.

I want to say to both sides of the aisle, I think this is the situation, frankly, that we have been in on many parts of this bill where we brought together differing points of view and agreed on a reasonable outcome.

I want to endorse the remarks of the gentleman from Texas [Mr. BARTLETT] 100 percent. He sets it out very, very clearly.

First, what is the standard? One need not pay for an accommodation that imposes an undue hardship. What is that? A significant difficulty or expense.

I suggest to you that a threshold, that is to say, for a small business, will obviously be a smaller number than for a larger business. Think, if you will, if a small business only has three employees and the employee is making $20,000 so that the 10 percent would be $2,000, but the gross income of that company may be very small. In fact, significant difficulty or expense may be $400, it may be $300, depending on the resources of the company.

On the other hand, let me call your attention to the remarks made just yesterday by Dick Drach, the manager of the disability program at E.I. Dupont, who said that 10 percent of salary as a definition of undue hardship does not make any sense from the perspective of a large corporation.

Furthermore, the amendment draws an artificial distinction between employees at different salary levels.

What is it, the $10,000 employee who is in a wheelchair or the $100,000 employee in a wheelchair at one site? How do you make that determination? Nobody can say that.

The other gentleman from Texas who I asked to yield was incorrect. Under section 503 we have Federal contractees. They are private sector people. Not one person has come after 16 years of experience with this kind of language and standard and said, "It has imposed on me a burden that I cannot meet."

□ 1700

Not one, not one example, after 16 years. Private sector contractors with the Federal Government have come forward and said this is unreasonable.

The gentleman from Texas [Mr. BARTLETT] is exactly correct. That is why this was adopted. This amendment is bad for business, this amendment is bad for the disabled, this amendment is bad for the Americans With Disabilities Act, and I ask Members to oppose it.

Mr. OLIN. Mr. Chairman, I would say to the gentleman from Maryland [Mr. HOYER] who just spoke, that if I were a contractor with the Federal Government, unfortunately, I would not be worried about the cost either.

But we are not talking about that. We are talking about people in private business selling to customers in competition.

Mr. Chairman, I yield such time as he may consume to the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Mr. Chairman, I would just like to rejoin the gentleman from Virginia [Mr. OLIN] at the beginning and say how strongly I support the amendment. This is the small business amendment in this legislation. It is the amendment that the National Federation of Independent Business and other small businessmen support. They do it because it places a responsible and reasonable ceiling on the amount of costs they are going to have to incur in helping the handicapped gain employment. It is a responsible amendment. It deserves a yes vote.

Mr. Chairman, I urge Members to put mitigation in this bill and vote yes on the amendment. I very strongly support it.

Mr. OLIN. Mr. Chairman, let me read what the NFIB said about this amendment.

Your amendment will improve the bill by helping businesses understand how to best accommodate disabled employees without jeopardizing the existence of the business itself. Further, your amendment will remove the ambiguity surrounding the definition of "undue hardship," thereby reducing the number of lawsuits brought on this legal issue.

Mr. Chairman, I really do not buy the arguments that have been given by those who are sponsoring the bill. I think it is sort of a copout. Almost any number I could have used could be attacked because they like some other number. But the fact of the matter is we need something tangible. We should not be passing laws that affect almost all the businessmen in this country where the proprietor of that business does not know what he needs to do to abide by the law. It is a big mistake.

Mr. Chairman, I think it would be wise if Members of the body would vote for this amendment. If they do not like the exact number that has been picked, there is plenty of time in the conference to work that out. We need to have some kind of a tangible limit here to make this thing workable and fair.

Mr. Chairman, I yield back the balance of my time.

---

Mr. FRENZEL. Mr. Chairman, today I rise in support of the Americans with Disabilities Act. Just as I became a cosponsor of this legislation with some reservations, so do I approach final passage of H.R. 2273 with reservations.

I continue to be concerned with the costs of this bill to the small business community. Because of the myriad of situations this bill attempts to cover, the extent to which businesses must accommodate persons with disabilities is unclear. The ambiguity of the terms such as "reasonable accommodation" and "undue hardship" becomes both a selling point and a point of contention in this bill. If we believe that every business will make a good faith effort to become accessible to those with disabilities then these phrases allow each business the flexibility to decide on the best way to become accessible, rather than mandating specific, costly, and sometimes unnecessary changes.

On the other hand, if we feel we need to prod business into making changes the ambiguity of such phrases is a source of trouble. How will a business be able to anticipate the changes their patrons will need? How will a business know if they have gone far enough in making accommodations to individuals with disabilities without proceeding through a lawsuit or investigation? Who will decide if a business has made a good faith effort to render their services to individuals with disabilities? What will be the procedure followed in situations where claims of reluctance in making "reasonable accommodation" are made against a business? While these questions exist, I am not wholly persuaded that a balance has been met between the needs of the disabled and the concerns of small businesses.

The costs to Federal, State, and local governments of implementing H.R. 2273 remains incalculable. In a time when Federal support to States is dwindling, I hope that the changes mandated by this bill will not cause "undue hardship" on the States and local budgets to implement remedies called for in this act.

But, I am worried that there will be many rough spots as local governments wrestle with the provisions of this bill. I have seen the difficulties and inefficiencies caused by some of the transportation regulations already put in place. I support the underlying theme of the Americans with Disabilities Act, which is to eliminate the discrimination that is felt by individuals living with disabilities in public and private sectors of life. I think the bill is overwritten but I can't find it in my heart to vote against it.

In the end, it is my hope that all businesses and governments, large and small, will make a good faith effort to accommodate individuals with disabilities, and that procedures will be established to allow for a speedy and just resolution when conflicts arise.

The CHAIRMAN. The question is on the amendment, as modified, offered by the gentleman from Virginia [Mr. OLIN].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. OLIN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 187, noes 213, not voting 32, as follows:

[Roll No. 117]

□ 1723

The Clerk announced the following pairs:

On this vote:

Mr. Lewis of Florida for, with Mr. Mazzoli against.

Mr. Schuette for, with Mr. Matsui against.

Mr. Craig for, with Mr. Solarz against.

Mr. Schulze for, with Mr. Houghton against.

Mr. AuCOIN and Mr. MACHTLEY changed their vote from "aye" to "no."

Mrs. SMITH of Nebraska, Mrs. ROUKEMA, Mr. ESPY, and Mr. RICHARDS changed their vote from "no" to "aye."

So the amendment, as modified, was rejected.

The result of the vote was announced as above recorded.

(By unanimous consent, Mr. MOAKLEY was allowed to speak out of order.)

ANNOUNCEMENT REGARDING THE CLEAN AIR RULE

Mr. MOAKLEY. Mr. Chairman, I want to inform Members, it is very important and I wish they would pay attention, of possible further Rules Committee action on H.R. 3030, the Clean Air Act Amendments of 1990.

The committee now is scheduled to take testimony on H.R. 3030 on Tuesday, May 22, 1990, at 10:30 a.m.

That is Tuesday, May 22 at 10:30 a.m.

Members should also be aware that, in light of the urgency of this bill, the Rules Committee is contemplating granting a rule that might limit the offering of amendments.

Therefore, all Members who have amendments to the bill should submit those amendments, together with an explanatory statement, to the Rules Committee by 6 p.m., Monday, May 21, room H-312, in the Capitol.

I would like to call Members' attention to the fact that a "Dear Colleague" letter was distributed to Members today suggesting a more expedited schedule. However, I have deferred to a request by the chairman of the Committee on Energy and Commerce and the Speaker, and this announcement supersedes any prior communication Members have received.

The CHAIRMAN. The Chair will announce that pursuant to the rule it is now in order to consider amendment No. 4 printed in House Report 101-488.

AMENDMENT OFFERED BY MR. HANSEN

Mr. HANSEN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. HANSEN: In section 507 (relating to Federal wilderness areas), add at the end the following subsection:

(c) SPECIFIC WILDERNESS ACCESS.—No individual may be discriminated against with respect to entrance to wilderness areas because of a disability. A wheelchair may be used in wilderness areas by an individual whose disability requires the use of a wheelchair, not-withstanding section 4(c) of the Widerness Act.

Mr. HOYER. Mr. Chairman, I rise in opposition to the Hansen amendment in its present form.

The CHAIRMAN. The Chair will recognize the gentleman from Maryland [Mr. HOYER] for 10 minutes.

MODIFICATION OFFERED BY MR. VENTO TO THE AMENDMENT OFFERED BY MR. HANSEN

Mr. VENTO. Mr. Chairman, I offer a modification to the amendment offered by the gentleman from Utah [Mr. HANSEN].

The CHAIRMAN. The Clerk will report the modification.

The Clerk read as follows:

Modification offered by Mr. VENTO to the amendment offered by Mr. HANSEN: Strike the text of the amendment as printed in the Report and insert:

(c) SPECIFIC SILDERNESS ACCESS.—Congress reaffirms that nothing in the Wilderness Act is to be construed as prohibiting use of a wheelchair in a wilderness area by an individual whose disability requires use of a wheelchair, but no agency is required to provide any form of special treatment or accommodation, or to construct any facilities or modify any conditions of lands within a wilderness area in order to facilitate such use.

The CHAIRMAN. Is there objection to the modification to the amendment?

Mr. MARLENEE. Mr. Chairman, reserving the right to object, under my reservation I would ask the gentleman from Minnesota [Mr. VENTO] to answer the question that I have on the substitute that he offers under unanimous consent.

The latter portion says "but no agency is required to provide any form of special treatment or accommodation, or to construct any facilities or modify any conditions of lands within a wilderness area in order to facilitate such use." Mr. Chairman, does this mean that the areas that are now ongong by the agency accommodation, by the land agency for wheelchairs, would not go forward?

□ 1730

Mr. VENTO. If the gentleman will continue to yield, no. If there are modifications ongoing now under the law, they would not be impacted by this language. It is not intended that they be impacted.

Mr. MARLENEE. Mr. Chairman, further reserving the right to object, let me rephrase the question. Would this amendment interfere with ongoing projects that the agencies have to accommodate the handicapped, and those in wheelchairs?

Mr. VENTO. If the gentleman will continue to yield, it would not. This amendment would not require them to build such facilities, but it would not stop them from doing so.

Mr. MARLENEE. It would not stop them from doing it? It would allow them to go ahead with those special chairs that they had decided they would accommodate the handicapped in?

Mr. VENTO. If the gentleman will continue to yield, consistent with the Wilderness Act.

Mr. MARLENEE. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Minnesota [Mr. VENTO] to modify the amendment offered by the gentlemen from Utah [Mr. HANSEN].

There was no objection.

The CHAIRMAN. The amendment is so modified.

The gentleman from Utah [Mr. HANSEN] is recognized for 10 minutes.

Mr. HANSEN. Mr. Chairman, I appreciate the gentleman from Minnesota [Mr. VENTO] and if anything, I think this makes it a better amendment than we came up with originally, and I appreciate putting that in.

Mr. Chairman, it was not too long ago that I met a young man who came up to me and was in a wheelchair. He was one of our veterans from Vietnam, and he did not have any legs. He pointed out to me how he plays tennis

in a wheelchair, he plays basketball in a wheelchair, he does road races in a wheelchair, and does things most Members in here would be amazed to see somebody do. It was absolutely awesome, the things the young man could do, and he said, "Mr. Congressman, why can't I go into the Unaka Mountains and fish like when I was a kid?" The reason he cannot do that is because in 1984 myself and Senator GARN put in a bill called the wilderness. I think it is a great piece of legislation, but in that bill, and if Members have read it they will see it talks about mechanized transportation. A person cannot use mechanized transportation in a wilderness. So that particular piece of legislation prohibits a lot of our very fine people from using this.

I definitely feel and agree with the chairman that nothing should be changed as a definition of wilderness. I am really amazed, as I look at the wilderness bills that come about, how few people really even know the 1964 legal definition of the term which is very, very restrictive. "No roads, untrammelled by man as if man were never there," and I would hope that those Members on this floor would follow that.

Can they really go in? A lot of people ask the questions, and I think have been floating all over the House the last 2 or 3 days saying we do not need something like this. However, I would like to read something that happened in March 1990, and I appreciate if people would pay attention. After March 1990, the U.S. Forest Service decided to allow handicapped access to the Flat Mountain Pond area just inside the Sandwich Mountain Wilderness in New Hampshire. Appeals were filed. Here is a list of a whole group of these areas—not just one isolated instance, but many people filed these, saying they did not want people into this area. I guess they did not read it when it said "public lands." The public includes people in wheelchairs and our handicapped citizens.

Mr. Chairman, from the Congressional Research Service in the Library of Congress, they gave their interpretation of wheelchair access in wilderness areas. This is what they said: "However the Act is silent as to wheelchairs and thus implicitly would prohibit them as a form of mechanized transportation." So when people say it is not needed, I think it is needed. I appreciate the gentleman from Minnesota taking the time to take care of those people who can enjoy this. I do not think we should have to change it. These young fellows and young people who want to do this, more power to them if they have courage enough to go into it.

Mr. Chairman, due to the gentleman from Minnesota [Mr. VENTO] and his amendment, I will not continue here, but I would like to reserve the balance of my time.

Mr. HOYER. Mr. Chairman, I yield such time as he may consume to the gentleman from Washington [Mr. CHANDLER].

Mr. CHANDLER. Mr. Chairman, I thank the gentleman for yielding.

I would like to ask the gentleman from Minnesota a very brief question in colloquy. What are we talking about here in terms of a definition of "Wheelchair"?

Mr. VENTO. If the gentleman will yield, my understanding is that it is a medical device, a conventional type of wheelchair, either a wheelchair with an electric motor or a mechanically driven or physically driven type of wheelchair. I think that is the intention of the amendment. That is my intent in terms of the language that I asked unanimous consent to have substituted. I thank the gentleman for the question, and I hope that he would support this.

I know the gentleman joined me earlier along with a number of individuals. I thank him because of the narrow intention, but the board impact of the initial Hansen amendment, in my judgment, and I want to thank him for that and thank the gentleman from Utah [Mr. HANSEN] for his cooperation in this matter.

Mr. HOYER. Mr. Chairman, I yield 2 minutes to the distinguished chairman of the Subcommittee on National Parks and Public Lands, the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Chairman, I want to thank on the part of the committee the gentleman from Maryland [Mr. HOYER] and the gentleman from Texas [Mr. BARTLETT] for their cooperation, as well as my fellow committee member, the gentleman from Utah [Mr. HANSEN], and the Members that have been working on this issue.

The Wilderness Act does not prohibit wheelchairs. People whose disabilities require the use of wheelchairs are not prohibited from entering wilderness areas, and agency rules and policies recognize this today. The amendment being offered now in a revised as a result of my request is in a form that assures and reaffirms the provisions of the Wilderness Act and the relonont rules and regulations of the load management agencies. Many Americans with disabilities enjoy and use wilderness areas without any special accomodation or exception to the 1964 Wilderness Act.

Witnesses in hearings before the Subcommittee on National Parks and Public Lands, which I am privileged to chair, have repeatedly testified to that fact. Mr. Chairman, I am encouraged that agencies and land managers properly recognize and are implementing such policy today concerning the wilderness law and rules and regulations, which permit people with disabilities to enjoy our 90 million acres of wilderness land. I am pleased, and think it is only appropriate in the Americans with Disabilities Act that we reaffirm and recognize such use and hope that there will not be misunderstandings with regard to the use of wheelchairs in the wilderness in the future.

Mr. HANSEN. Mr. Chairman, I yield 2 minutes to the gentleman from California [Mr. LEWIS].

Mr. LEWIS of California. Mr. Chairman, I appreciate the gentleman yielding, and I rise for the purpose, I believe, of supporting his amendment, if his amendment does that which I understand the amendment was originally about.

If the gentleman from Utah would yield to some questions, and let me first lay the foundation for that which concerns me. Wilderness may have a tremendous impact in the future upon sizable desertlands in the Western States. The Congress passed a bill some years ago for a planning process relative to that desert proposed wilderness examination. Literally millions of acres are involved, and I am very much concerned about the lack of access and availability of entrance for disabled people who may want to visit pristine areas that in some cases make up territory as large as an entire State—at least among our Eastern States.

□ 1740

Does the gentleman's amendment, at least in that connection, put this bill in a position where under the wilderness definition a disabled person who wanted to get access to, let us say, the Joshua Tree National Monument could at least take their wheelcahir to the edge of that wilderness and have some access even though it might be difficult to climb a mountain trail with a wheelchair.

Mr. HANSEN. Mr. Chairman, in answer to the gentleman's question, in most of our wilderness areas there is access up to them. In those that I have been to, and I have been to quite a few, there are trail heads and other areas, and they could get to that and nothing would prohibit an agency outside the wilderness area and right on the boundary of the wilderness area to build a facility if they were so inclined to do it, and which I think they would be. I think that would be something that will come about for those who have an interest in going into those wilderness areas.

Mr. LEWIS of California. Mr. Chairman, in one of my areas, not in my district any longer, but in the Eastern Sierra, there was a small airport. Some people who originally opposed the gentleman's amendment in the past supported closing down that airport, which was the only means of access for older people or disabled people

who might take wheelchairs into that wilderness. There is a concern that there are those who would like to essentially close down millions of acres to disabled people and not allow them access by way of eliminating the language in the interpretation of wilderness.

The CHAIRMAN. The time of the gentleman from California [Mr. LEWIS] has expired.

Mr. HANSEN. Mr. Chairman, I yield an additional minute to the gentleman from California [Mr. LEWIS].

Mr. Chairman, will the gentleman yield?

Mr. LEWIS of California. I yield to the gentleman from Utah.

Mr. HANSEN. Mr. Chairman, anything in the wilderness area, by the definition that we have gone over in the earlier part of this debate, it completely prohibited. So once this body and the other body passes it and the President signs it and puts everything in wilderness, there is no question of the limited access. It is limited now, and if this goes through, it will be limited to horses, walking on your feet, and people in wheelchairs.

Mr. LEWIS of California. Mr. Chairman, let me suggest that those people who have done such a fantastic job on this bill should focus on the fact that some people in their definition of wilderness would literally close down effective access for older Americans and disabled Americans, especially those who happen to need wheelchairs. Maybe we will have to fight that battle another day, but at least I appreciate the gentleman's attention and his response to my question.

Mr. HANSEN. Mr. Chairman, may I inquire as to how much time we have remaining?

The CHAIRMAN. The gentleman from Utah [Mr. HANSEN] has 4½ minutes remaining.

Mr. HANSEN. Mr. Chairman, I yield 2 minutes to the gentleman from Montana [Mr. MARLENEE].

Mr. MARLENEE. Mr. Chairman, I rise in strong support of the amendment offered by my colleague, the gentleman from Utah [Mr. HANSEN], which would remove the prohibition against using wheelchairs in wilderness areas.

The Wilderness Act of 1964 insidiously eliminated all forms of mechanical devices. This, unfortunately, included wheelchairs, which are indeed mechanical devices. It also included a prohibition against pedal bikes and baby strollers and those types of mechanical devices.

Unfortunately, the wilderness activists have strongly opposed even modest changes such as the one to accommodate wheelchairs. This amendment corrects that.

One of the groups supporting this amendment is the Disabled Veterans of America. Let us think about that. These are disabled veterans who fought to protect every acre of America, and they are forceably prohibited from enjoying our wilderness areas.

Mr. Chairman, I call for the elimination of this type of discrimination. I ask my colleagues to support the Hansen amendment and ask that all Americans be allowed the chance to fully enjoy the beauty of our abundant wildlands.

Mr. HANSEN. Mr. Chairman, I yield 2 minutes to my friend, the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I thank the gentleman for yielding time to me, and I do rise in support of the gentleman's amendment.

Mr. Chairman, I would suggest that the gentleman from Utah [Mr. HANSEN], in consultation and in somewhat of a rare partnership here with the chairman of the subcommittee, the gentleman from Minnesota [Mr. VENTO], does in fact balance the equities involved to be certain that someone using a wheelchair in visiting a wilderness area would not be prohibited from entering that wilderness purely on account of his or her wheelchair.

I think the gentleman has done a remarkable job in balancing the equities and drafting an amendment that works. It works for the best interest of all parties and in fact does solve a problem that does exist.

The gentleman from Utah [Mr. HANSEN] is to be commended for his leadership on this issue, and I support his amendment.

Mr. HANSEN. Mr. Chairman, I have no further requests for time, and I yield back the balance of my time.

Mr. HOYER. Mr. Chairman, we congratulate the gentleman from Minnesota [Mr. VENTO] for his leadership on this issue. We congratulate the gentleman from Utah [Mr. HANSEN] and rise in support of the amendment.

Mr. Chairman, I yield back the balance of our time.

The CHAIRMAN. The question is on the amendment as modified, offered by the gentleman from Utah [Mr. HANSEN].

The amendment, as modified, was agreed to.

The CHAIRMAN. Pursuant to the rule, it is now in order to consider amendment No. 5, as printed in House Report 101-488.

AMENDMENT OFFERED BY MR. CHAPMAN

Mr. CHAPMAN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. CHAPMAN: In section 103 (relating to defenses), add at the end the following subsection:

(d) FOOD HANDLING JOB.—It shall not be a violation of this Act for an employer to refuse to assign or continue to assign any employee with an infectious or communicable disease of public health significance to a job involving food handling, provided that the employer shall make reasonable accommodation that would offer an alternative employment opportunity for which the employee is qualified and for which the employee would sustain no economic damage.

The CHAIRMAN. The gentleman from Texas [Mr. CHAPMAN] will be recognized for 15 minutes in support of his amendment.

Does any Member rise in opposition to the amendment?

Mr. FISH. I rise in opposition to the amendment, Mr. Chairman.

The CHAIRMAN. The gentleman from New York [Mr. FISH] will also be recognized for 15 minutes.

Mr. CHAPMAN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, today I offer an amendment which would allow employers to move an employee with a communicable or infectious disease of public health significance out of a food handling position while at the same time making a reasonable accommodation of an offer of reassignment to another position for which the individual is qualified and for which the employee would sustain no economic damage.

I hasten to add that I am a strong supporter of the ADA legislation. I believe that the process today has worked to improve the bill, and I look forward to voting for it on final passage.

However, the bill as currently drafted will not provide an employer the flexibility to move an employee out of food-handling position if that employee were diagnosed as having an infectious or contagious disease such as AIDS.

The reality is that many Americans would refuse to patronize any food establishment if an employee were known to have a communicable disease. Damage to the business can be severe and not only cause the owner the loss of his business but could cause the loss of all the jobs of the employees that work there and result in the loss of their livelihood.

This is not an unrealistic fear. There are real examples in the real world of how this caused a loss of business, the closing of jobs and the loss of employment.

Let me hasten to add that I am not here to say that there is any evidence that AIDS can be transferred in the process of handling food. To the contrary, the Center for Disease Control seems to say or does say that there is not a case that they can determine and document found in over 130,000 cases through April 1990 of the disease of AIDS being transmitted in this way. At the same time, however, the Center for Disease Control said as of yesterday that there are 4,428 cases of AIDS

where the cause is undetermined or unknown.

We are dealing in the real world with real people who have real businesses that create real jobs, and I think it is a very reasonable accommodation to those people that we provide that they can make a reassignment to a different job of those who have a disease that the owner and all of us in this Chamber know can bankrupt that business and cause this loss of those jobs. This is a time when tremendous emphasis is being placed on the safety of our food. These are issues we have dealt with on the floor of the House and will deal with again later this year. Every day there are articles in newspapers telling us about pesticide residues in food, nutrition content, and what is good for us and what is not good for us.

This amendment is an employee and employer protection amendment that addresses a very real and a very difficult question equity. If an employer does not have the flexibility to take some reasonable action to remove an employee with a communicable disease from handling food, not only is the business at risk but so are the employees who would lose salaries and benefits if the business closes and the community which enjoys the economic benefits of that food service establishment would also lose.

□ 1750

Mr. Chairman, let me point out that the hospitality industry, including the food service industry, is the largest employer of disabled persons in this country. They have taken the lead in providing jobs for the disabled, and many of those jobs are provided in the food service industry. We need to protect the ability of a food service operator to protect the viability of his business and the jobs that it provides.

Mr. Chairman, I urge the support of my amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. FISH. Mr. Chairman, I yield 2½ minutes to the gentleman from Georgia [Mr. ROWLAND].

Mr. ROWLAND of Georgia. Mr. Chairman, I rise in opposition to the amendment of the gentleman from Texas [Mr. CHAPMAN], my friend, because I think that it is only not necessary, but I think it may create fertile ground for confusion, for controversy, and for potential litigation, and let me tell my colleagues why I say that.

Mr. Chairman, the gentleman from Texas [Mr. CHAPMAN] said in his amendment with reference to an employee, "Infectious or communicable disease are of public health significance." What does that mean? Who makes the determination about what is an infectious or communicable disease of public health significance?

Mr. Chairman, if he had put after that, "as specified by CDC," then I think the amendment would be much more acceptable, but we have no standard. We have no base there.

Let me ask my colleagues, "How many of you know whether schistosomiasis, leishmaniasis, fascitis, trigonitis, and meningococcus are infectious or contagious diseases?

Can any of you tell me that?"

Of course, Mr. Chairman, my colleagues cannot because they do not know, and they are not expected to know. Health officials are expected to know whether those diseases are communicable and whether or not they are infectious, and we should leave that decision to health professionals.

Mr. Chairman, we should not here in the Congress be making the decision about what are infectious and contagious diseases with public health significance. The fact is that most of the diseases that we get from food do not come from food handlers at all. They come from the ambiant air, bacteria settling on food. That is where it comes from.

Let us leave the decision for this with public health people who know, not here in the Congress.

Mr. CHAPMAN. Mr. Chairman, I yield 2 minutes to the gentleman from North Carolina [Mr. ROSE].

Mr. ROSE. My colleagues, I rise in support of the amendment of the gentleman from Texas [Mr. CHAPMAN], and I wish that this matter had somehow been dealt with in the bill before it came to the floor. I think it is a very difficult subject for all of us to have to deal with, and I wish we lived in a very, very perfect world where everybody understood everything that they needed to know about communicable diseases, how they were transmitted, and when they were dangerous and when they were not, not only those in the medical profession, but, once that truth and knowledge were known, I wish the public would believe it and understand it.

However, Mr. Chairman, I tell my colleagues, my friends, that the American public believes that we need the amendment of the gentleman from Texas [Mr. CHAPMAN], and, if my colleagues do not believe it, they can just wait until they go home and talk to people about what the implications of this amendment are.

Now do not ask me to risk my health, and the health of my children and the health of my family to prove how liberal and unprejudiced I am about communicable diseases.

Let me ask my colleagues, "Why do you have first aid kits in kitchens?" It is because people cut their fingers in kitchens, and they occasionally bleed. The possibilities are there for direct contamination, and why do we need to ask the American people to take that chance in this bill?

Mr. Chairman, we do not let 85-year-old pilots fly commercial airlines. They are theoretically able, and many of them do that, but we have made a decision that that is not good public policy, that they ought to be doing something else, like fishing.

I say it is bad public policy to say that people with communicable diseases can handle food in the Nation's restaurants, and we all know what we are talking about. I urge my colleagues to support the amendment of the gentleman from Texas [Mr. CHAPMAN].

Mr. FISH. Mr. Chairman, I yield 1½ minutes to the gentleman from Indiana [Mr. MCCLOSKEY].

Mr. McCLOSKEY. Mr. Chairman, I thank the distinguished gentleman from New York for yielding time to me.

Mr. Chairman, young Ryan White of Indiana courageously fought and ultimately died in a battle to bring fairness and dignity to the lives of those infected with the HIV virus.

Feelings of irrational hysteria inspiring such an amendment do his memory no honor despite tributes and statements of concern from such leaders as George Bush and Ronald Reagan.

In short, kids like Ryan would have a much harder time holding a job at the Burger Chef, McDonalds or super market under this unfortunate amendment.

It encourages people to believe that AIDS is spread in a way contrary to all medical and scientific evidence. It represents a setback for efforts of rational and informed education.

This amendment is endorsed by the restauranteurs who fear ill-founded public opinion. However 5 years ago, the National Restaurant Association in a current issues report stated:

> Workers, includng those in the food service industry should not be restricted from work or the use of facilities and equipment solely on the basis of a diagnosis of an AIDS infection—there is no record of AIDS being transmitted in the preparation or service of food—there has been no evidence that AIDS is spread by casual contact such as—through air, food or water.

This remains true today. The restauranteurs further stated government officials, as community leaders, should assist business in combating baseless public fears. Occasionally, we in the Congress should try to lead rather than follow our worst fears about public opinion.

This amendment is opposed by among others the American Medical Association and the National Council of Churches.

Let us help keep this the Americans With Disabilities Act, not the Expansion of Discrimination Act.

Mr. FISH. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. WAXMAN].

Mr. WAXMAN. Mr. Chairman, there was a time when people were fearful to be around someone with cancer because they thought they may catch it. There was a time when people thought they could not take a blood transfusion from someone of a different race because it may not settle into their body. There are wrong scientifically. They are based on fear and, therefore, prejudice.

Mr. Chairman, this amendment perpetuates the fear and prejudice that a restaurant worker can maybe transmit a disease like AIDS by simply working in that establishment. We should not cater to fear or prejudice. We should say, if there is a threat to someone, then they could be denied that work. They should not be there if they are a threat, but, if they are not a threat, do not let them be discriminated against.

Mr. CHAPMAN. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. BARTLETT].

Mr. BARTLETT. Mr. Chairman, I rise in support of this amendment. I believe the amendment is very carefully and very narrowly crafted.

However, Mr. Chairman, I will note that this is a difficult amendment to discuss. It is a difficult amendment to either support or oppose.

I would suggest that what this body needs to do is to determine that there are equities here. There are equities on both sides. There are several parties who are subject to being hurt, and the best that we can do, given today's date, given the 1990's, given the public health fears that are very, very real, is to attempt to balance the equities between the parties, which I believe the amendment of the gentleman from Texas [Mr. CHAPMAN] does.

First, Mr. Chairman, I would ask the Members of the body to read the Chapman amendment. The Chapman amendment does not allow an employer to fire anyone because of a public health disease in this case, nor to refuse to hire someone unless there is a direct threat, nor does it change the prohibition against discrimination against someone who has a disability, nor does it redefine disability from current law which does include those with contagious diseases. What this amendment does is a very reasonable and careful balancing of the equities in which the amendment would say that, if there is an infectious or communicable disease that has a public health significance, then the employer may, first, make a reasonable accommodation that would, first, offer an alternative employment opportunity for the employee, and, second, for which the employee would suffer no economic damage.

□ 1800

So all that we are permitting, all the Chapman amendment permits is a very narrow window to allow this employer in order to save his own business to transfer an employee to a different job, to a different job in which his business is not jeopardized.

Now, the fact is on this floor we need to look at reality as it exists today, not as we wish it would exist.

The fact is that the food preparation industry, the restaurant industry, is the most highly competitive industry in this country. Every day, indeed every hour in this country, there are tens of thousands or hundreds of thousands of very individualized, localized decisions made by individual customers on where and whether to go out to eat at a restaurant.

There are not 5 restaurants in this country to choose from, there are not 10 restaurants to choose from, there are 5 and 10 on every street corner. Without this amendment the fact is that every restaurant owner would in reality be in a national lottery in which if one of them has a cook who comes down with a public health disease, that restaurant is subject to be simply closed, lose all its customers, the owner loses all of his sweat equity, all the hours that he and his family put into it, loses the entirety of everything that he had invested in the past. So I urge a yes vote for the very carefully, difficult but carefully balanced and drafted amendment by the gentleman from Texas.

Mr. FISH. Mr. Chairman, I yield 1 minute to the gentleman from Washington [Mr. MCDERMOTT].

Mr. MCDERMOTT. Mr. Chairman, I rise in opposition to the amendment.

In medical school, I was trained to protect my patients from disease, to use the best medical knowledge to protect the public health. So was the gentleman from Georgia, Dr. Rowland. If either of us believed for one second that this amendment would do anything to protect the public against any disease, we would support it.

But the amendment is not about the reality of contagious disease. It is about the fear of contagious disease. Let us be honest: It is about the fear of AIDS.

Never mind that we spend millions of dollars on public education about how AIDS is and is not transmitted. Never mind what the American Medical Association says, or Dr. Roper of CDC, or former Surgeon General Koop, or Dr. Rowland, or what everyone on this floor knows.

As long as anybody in our country remains ignorant, this amendment says, as long as anyone is still afraid, the food service industry may cater to that ignorance and fear.

But that is all right, we are told, because the infected food handler will be given another job, at the same pay, away from the food. In a restaurant, I suppose that means washing dishes or working the cash register. Then, what if someone says: "Maybe you can get AIDS from a dish, or from handling a dollar bill?" Will we have to come back and amend this act again?

And what about the airlines, and the day care centers, public school teachers, and other places where food is handled and served? Will every flight attendant and child care worker have to take an AIDS test? What about the other communicable diseases—Lyme disease, cervical cancer? How many people will this amendment catch in its net? And for what purpose?

This is what happens when you make public policy on the basis of myth, on the basis of fear and ignorance. It is one thing to make policy without knowing all the facts. This amendment asks us to make policy in spite of the facts we know, in deliberate deference to the fears and prejudices of others.

A few years ago, a school board in Indiana told Ryan White that he could not go to school with other children. It was not that the school officials thought Ryan would infect the others, they said, it was that some parents were afraid he would. That school system made a policy decision in response to fear and prejudice. By the time Ryan White died last month, everyone knew better.

The first rule of medicine is: "Above all things, do no harm." This amendment does great harm. It undermines the national effort to deal with an epidemic in this country, by giving credence to myths and prejudice.

The amendment is bad medicine, bad science, bad public policy. It is indigestible. I urge my colleagues to send it back to the kitchen.

Mr. FISH. Mr. Chairman, I yield 1½ minutes to the gentlewoman from Maryland [Mrs. BYRON].

Mrs. BYRON. Mr. Chairman, I rise in opposition to the Chapman amendment.

I agree that there are diseases that should disqualify food handlers from the working place. I could not agree more. People with illnesses that can be transmitted on the job, like infectious tuberculosis, hepatitis, should be disqualified from the workplace. They can be dismissed from their jobs because they pose a direct threat to public health and safety, and this bill guarantees that.

The amendment looks like it ought to make sense, but it does not. It puts Congress in charge of deciding public health issues. We should not be doing this. Our designated health officials should be doing this. The Secretary of Health and Human Services and the Center for Disease Control have both expressed their opposition to this unnecessary amendment. Let them continue to do their jobs.

It is a confusing amendment. Look at the language. I am very concerned

about how it is going to work out, how it is going to be applied.

The language, how is it going to be worked out? Who is it going to be applied to? What is a food handler?

This term could mean more than restaurant employees. It could be everyone associated with handling food, the cafeteria worker, the guy stacking the cucumbers and oranges in the supermarket, the butcher down at the store.

The amendment says communicable. Many diseases are communicable. Lyme disease is, but it is transmitted by ticks, not by food.

I am concerned about who is going to make the decision, the local health department, the social worker, the medical official, the employer? Who is going to do it? The amendment does not say this.

This amendment will provoke unnecessary fear and suspicion. I am opposed to it, Mr. Chairman.

Mr. FISH. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. EDWARDS].

Mr. EDWARDS of California. Mr. Chairman, this amendment was offered during the consideration of the bill by the House Judiciary Committee just 2 weeks ago and was defeated. This is the same argument, Mr. Chairman, that was made in the 1950's and 1960's when white customers would not eat in restaurants where black Americans were served. That idea was unacceptable then and it is unacceptable now.

Mr. Chairman, we urge that the amendment be defeated.

Mr. CHAPMAN. Mr. Chairman, I yield 2 minutes to the gentleman from New Hampshire [Mr. DOUGLAS].

Mr. DOUGLAS. Mr. Chairman, this is the amendment that I offered in the Judiciary Committee on behalf of the NFIB and the National Restaurant Association, because perception is reality. Every one in this room knows that. We run election campaigns on perception. It is reality for our voters.

For the 600,000 restaurants out there, all they are saying is, "We agree with you. We understand, Doctor, that you can't get AIDS because the cook cuts his finger and bleeds into the roast beef when he is preparing it," but the customers out there may not buy that, and when they all leave and the restaurant goes out of business, what have you done for the restaurants in America? Now you have put everybody that works there out of business.

So this is a very narrow amendment. The NRA, the NFIB understand that there will be no economic loss, and that is specifically in the amendment.

It recognizes that unfortunately today there is a perception and there are cases unknown as to the cause of AIDS or some other disease that could be transmitted by blood, could be done by the chef in the kitchen, and it is just a realistic way of saying we are not going to shut down our restaurants because of that perception. We are going to be fair to them, as well as fair to the folks who have the disease.

Mr. HOYER. Mr. Chairman, will the gentleman yield?

Mr. DOUGLAS. Yes, I am glad to yield to the gentleman from Maryland.

Mr. HOYER. Mr. Chairman, both the gentleman from New Hampshire and my very good friend, the distinguished gentleman from Texas, have said this is a narrowly drawn amendment.

Food handlers, would a person who works in the produce department of a store be a food handler? Would a stewardess on an airplane be a food handler?

Mr. DOUGLAS. I would assume that a stewardess handling food who has an infectious or communicable disease of public health significance is a food handler, and I suppose likewise if somebody knew that that person had a disease that meets the requirements of this law, there could be a concern.

All we are saying is, reassign them to some other task or some other job. There is no economic loss to the person. They are as covered as they could be because they are not even going to lose any money. They are going to be reassigned, and I think that is a fair and reasonable task.

□ 1810

Mr. FISH. Mr. Chairman, I yield 1½ minutes to the gentleman from Georgia [Mr. LEWIS].

Mr. LEWIS of Georgia. Mr. Chairman, I rise in strong opposition to this amendment. Twenty-five years after the passage of the major civil rights legislation of the 1960's, we are still hearing the same tired arguments that were used to justify segregated restaurants. They have been dusted off and used again to defend discrimination.

I thought the rhetoric against equal access, equal housing, and equal opportunity was behind us. The Chapman amendment has proven that I was wrong.

I urge my colleagues to listen, listen to our health professionals, listen to our colleagues, the gentleman from Georgia [Mr. ROWLAND] and the gentleman from Washington [Mr. MCDERMOTT], to the statements of Secretary Sullivan, and to the American Medical Association. They will tell you that this amendment is unnecessary and inappropriate.

I urge my colleagues to listen to the health experts, not the hate experts, not the fear experts. We need legislation that seeks to unite this country, not to divide it. We need legislation to promote a sense of one America, one community, one family, the American family.

The Chapman amendment seeks to divide us, to segregate us, to discriminate against us.

This House voted to bring the American people together in 1964, with the passage of the Civil Rights Act. Congress reaffirmed that principle in 1965, with the passage of the 1965 Voting Rights Act, and in 1968, with the Fair Housing Act.

A vote against the Chapman amendment will put this body on record again against division and discrimination. Mr. Chairman, it took us a long time to learn the lesson that separate is never equal. Discrimination was wrong in 1964, it was wrong in 1965, it was wrong in 1968, and it is wrong, dead wrong, in 1990.

Mr. Chairman, I urge Members to defeat this amendment, defeat it here and now.

Mr. FISH. Mr. Chairman, I yield 30 seconds to the gentleman from Indiana [Mr. JONTZ].

Mr. JONTZ. Mr. Chairman, I represent Kokomo, IN, and the rural community adjacent to Kokomo where Ryan White lived. Everybody in this country knows the story of Ryan White. Everybody in this country knows how Ryan White was the victim of discrimination and prejudice.

Today the people in my community wish they could make things different, because they know today a lot more than they did then. Ryan White was the victim of prejudice and discrimination, but there is no reason that we need to have more victims. This is the chance to take a stand against the sort of prejudice which Ryan White faced. This is the time to take a stand for all Americans.

Mr. DYMALLY. Mr. Chairman, will the gentleman from Texas yield?

Mr. CHAPMAN. I yield to the gentleman from California.

Mr. DYMALLY. Mr. Chairman, I rise in opposition to this amendment.

In this Nation, in this decade, there is only one way to deal with an individual who is sick. With dignity, compassion, care, confidentiality, and without discrimination.

Once disease strikes—we don't blame those who are suffering. We don't spurn the accident victim who didn't wear a seatbelt. We don't reject the cancer patient who didn't quit smoking. We try to love them and care for them and comfort them. We do not fire them, or evict them, or cancel their insurance.

Today I call on the House of Representatives to get on with the job of passing a law—as embodied in the Americans with Disabilities Act—which prohibits discrimination against those with HIV and AIDS. We're in a fight against a disease—not a fight against people. And we should not tolerate discrimination.

Mr. CHAPMAN. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. DELAY].

Mr. DELAY. Mr. Chairman, this is incredible. If Members on this side of the aisle had called this a racist issue

and referred to this as an issue that resembles the 1950's or 1960's, we would have been run out of this Chamber with hoots and howls.

This is not a racist issue. This is not sexist issue. This is a simple health issue that says that if you have an infectious or communicable disease, you can be moved to another part of your employment area. That is all it is. This is a health issue. That is just protecting the owner of the establishment, it is protecting the fellow employees of the establishment, and, most important, it is protecting the consumers of the establishment. It is not the 1960's again, and I resent the fact that some Members are implying and Red-baiting the Member that has offered this amendment as if it were a racist issue. I think it is wrong to bring Red-baiting to this floor, and I think it is wrong for Members to do so.

Mr. FISH. Mr. Chairman, I yield 1 minute to the gentleman from Utah [Mr. OWENS].

Mr. OWENS of Utah. Mr. Chairman, I rise in opposition to this amendment. I know that my colleague and friend from Texas [Mr. CHAPMAN] did not intend it to have the impact it does. I think it is divisive. I associate myself with the remarks of the gentleman from Georgia [Mr. LEWIS] in that regard.

Mr. Chairman, I rise to call the attention of the Members to a remarkable debate on Monday of this week in the other body and to an exchange between my colleague from Utah, Senator HATCH, and the senior Senator from North Carolina, Mr. HELMS, in which Mr. HELMS attacked AIDS victims, stirring up the kind of race and sexual hatred that I think this amendment innocently would also do.

In responding to him, Senator HATCH, one of the great conservatives of that body, a leader in the conservative community, said the following: "Many of us who stand by and criticize ought to look at ourselves. We have lots of wonderful people in this body, but we are all sinners. We should cast no stones at sufferers."

Mr. Chairman, I want to associate myself with the remarks of my colleague from Utah. This is a bad amendment and should be defeated.

Mr. FISH. Mr. Chairman, I yield 1 minute to the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. Mr. Chairman, I rise in opposition to the Chapman amendment. The sponsor admits there is no evidence that AIDS can be transmitted in food handling, but his amendment allows discrimination in such cases because food handling businesses may be hurt by public perception of AIDS victims.

This may be true. But this is as if businesses 40 years ago had pointed to the public perception of blacks and said our customers will not understand our hiring blacks, so allow us to discriminate against blacks.

Nonsense. This Congress should not license discrimination of any kind. We should, as President Reagan and President Bush have urged, fight ill-founded discrimination directed against people with AIDS. I urge the defeat of this amendment.

The CHAIRMAN. The Chair would advise the committee that the gentleman from Texas [Mr. CHAPMAN] has 3 minutes remaining and the gentleman from New York [Mr. FISH] has 4½ minutes remaining.

Mr. CHAPMAN. Mr. Chairman, I would ask the gentleman from New York [Mr. FISH] to proceed. May I ask the Chair who has the right to close the debate?

Mr. FISH. Mr. Chairman, I yield 1 minute to the gentleman from Michigan [Mr. HENRY], the ranking member of the Subcommittee on Health and Safety of the Committee on Education and Labor.

Mr. HENRY. Mr. Chairman, I urge Members to oppose this amendment. The gentleman from New Hampshire summarized the dilemma before us quite honestly. He said the issue here is between perception and reality. If you want to vote perception, then support the amendment. But if you want to vote reality, and if you want to vote truthfulness as we understand it in science and the medical profession, you will oppose this amendment.

This bill as reported by the committee already allows an employer to prohibit the placing of anyone that would threaten the health and safety of the public based on communication of disease.

We have just completed a series of hearings in our OSHA Subcommittee. We have had the people from the National Institutes of Health, we have had the people from the Occupational Safety and Health Administration, we have had the people from HEW, and in no case would any of those leading scientific figures come down here and ask Members to support this amendment.

If your concern is truthfulness, you will vote no on the amendment.

□ 1820

The CHAIRMAN. For purposes of clarification, the Chair will state, regarding closing arguments, that the gentleman from New York [Mr. FISH] reserves the right to close.

Mr. CHAPMAN. Mr. Chairman, I yield 1½ minutes to the gentleman from Louisiana [Mr. HAYES].

Mr. HAYES of Louisiana. Mr. Chairman, the gentleman from Georgia who spoke earlier is my neighbor in the Cannon House Office Building. I have enormous respect for him, and it is because of that genuine respect that I can oppose him in this body and keep the opposition at the elevated level of debate on serious issues, not to be diverted into any other area.

If it is true that there are no questions about communicable diseases, then why do we budget tens of billions of dollars for research? If it is true that those issues have been settled, then why are there so many questions?

The gentleman from Texas I think has been unfairly characterized as offering an extreme position. The fact of the matter is that in a world of extremes, he has found a reasonable wording with reasonable language that allows those who are in the most highly at-risk business in the world not to be elevated to the even greater plateau of risk, that allows them to stay open and allows them to serve the public, and allows the public to have confidence.

I hope that this amendment will be successful, and I hope that it will be regarded with the merit of the debate that it deserves, and not the mischaracterization that it certainly does not.

Mr. FISH. Mr. Chairman, I yield 1½ minutes to the distinguished gentleman from Maryland. [Mr. HOYER].

Mr. HOYER. Mr. Chairman, I rise in very strong opposition to this amendment. It is the most invidious amendment that we will consider during the course of this legislation.

The gentleman from Michigan [Mr. HENRY] is absolutely correct, as is the gentleman from Georgia [Mr. LEWIS]. This is the Jim Crow amendment of 1990 as it relates to 1964.

Let me read to Members from the National Restaurant Association, the National Restaurant Association's current issue report:

> Workers, including those in the food service industry, should not be restricted from work or the use of the facilities and equipment solely on the basis of a diagnosis of AIDS infection.

That, my friends, is a direct quote from the National Restaurant Association's publication.

This amendment panders to prejudice. It is not reality, and the proponents of this amendment say it is not reality.

Dr. Sullivan opposes this amendment in a letter received today:

> This amendment is not needed or justified. Policy based on fear will complicate disease control.

This is the administration's Secretary of Health.

Dr. Roper the head of the CDC, says:

> There is no epidemiological or laboratory evidence indicating that bloodborne and sexually transmitted infections such as HIV are transmitted during the preparation or serving of food or beverages.

The reality is, as the restauranteurs have said, there is no evidence. But we are going to accommodate fear and

bigotry. That is wrong. Reject this amendment.

Mr. CHAPMAN. Mr. Chairman, I yield myself the balance of my time.

The CHAIRMAN. The gentleman from Texas is recognized for 1½ minutes.

Mr. CHAPMAN. Mr. Chairman, let me make something very, very clear very quickly. The gentleman from Maryland was not quoting the position of the National Restaurant Association. He was quoting a publication of the National Restaurant Association which is quoting, in the quote he gave, the Center for Disease Control. The position of the National Restaurant Association has never been that which the gentleman from Maryland quoted. It is a reprint of a quote from the Center for Disease Control on page 2 of the publication that he demonstrated here. That is not the language of the National Restaurant Association.

With that made clear, let me take the balance of my time just to say that I believe Dr. MCDERMOTT made a very good point when he said that we should start by doing no harm. If it is written of this Congress and this body that we can with this bill enact into law legislation which will do harm, then we ought to take a second look at that legislation.

This is not new ground. CHARLIE ROSE made the comment about airline pilots. What justification is there that we not only permit the airline industry to retire a pilot at age 60, but we mandate it, a pilot who every 6 months takes an extensive physical, and we retire him? We fire him at age 60, and he may have never missed a heartbeat.

That is not right perhaps one might say, but that is a reaction, in this case, an affirmative reaction of this body to a perceived risk to public health.

There is a perceived risk from AIDS. This is a reasonable alternative that guarantees the employee his job at no economic loss. It is an amendment that ought to be supported. We should not be making health policy, but neither should we be destroying an entire industry and the jobs that it could possibly and does create.

I urge support of this amendment.

Mr. FISH. Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. WEISS].

Mr. WEISS. Mr. Chairman, I thank my friend for yielding.

Mr. Chairman, I rise in strong opposition to the Chapman amendment which involves food handling by persons with communicable diseases. This amendment would serve to perpetuate what its author and all other Members of this body should know is a misperception. The misperception is that the human immunodeficiency virus can be transmitted through the handling of food. The director of the Centers for Disease Control has stated that:

All epidemiologic and laboratory evidence indicates that bloodborne and sexually transmitted infections such as HIV are not transmitted during the preparation or serving of food.

The Chapman amendment is unnecessary and discriminatory against persons living with HIV infection.

There are some contagious diseases that can be transmitted through food. These include hepatitis and tuberculosis; but HIV is not one of them. The Americans With Disabilities Act explicitly excludes persons who "pose a direct threat to the health or safety of other individuals." Thus it excludes from coverage people with foodborne or airborne communicable diseases. The Chapman amendment would eliminate coverage for food handlers who pose no risk to customers or fellow employees.

The Chapman amendment flies in the face of the very purpose of the ADA. The ADA is designed to prohibit the kind of treatment of affected persons that this amendment specifically authorizes.

President Bush stated on March 29 that he would not tolerate discrimination against persons living with HIV infection. I believe the Congress should not tolerate it either. I urge my colleagues to vote against this unnecessary and discriminatory amendment.

Mr. FISH. Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. ENGEL].

Mr. ENGEL. Mr. Chairman, I rise in opposition to the Chapman amendment. Passage of this amendment would contribute to the misinformation and hysteria which surrounds the AIDS tragedy.

The Chapman amendment is unnecessary. The Americans With Disabilities Act already includes a provision which clearly states that persons who pose a direct threat to the health or safety of other individuals are not covered under the act. This section of the bill permits food service operators to remove from food handling positions any individual with a disease or infection that can be transmitted to customers. This clause protects the public from diseases transmitted through food, such as hepatitis and typhoid fever.

The Center for Disease Control, the leading health research agency in this country, has concluded that the HIV virus cannot be transmitted through food handling, handshakes, coughing, sneezing or other daily contact. We must educate the public that the HIV virus is transmitted through sexual contact and the sharing of needles with infected persons.

Congress should redouble its efforts to educate the public about AIDS and continue to greatly increase prevention and treatment programs. We ought to leave no stone unturned in appropriating dollars to find a cure for AIDS and in helping those afflicted and their families.

In a recent speech, the President urged that we treat people suffering from AIDS with compassion and without discrimination. I believe that these types of statements will help end the paranoia which exists about AIDS.

Many respected health representatives, such as the American Medical Association, the American Nurses Association and the American Public Health Association, oppose the Chapman amendment. If this bill posed a threat to the health of the public, do you think these organizations would oppose the Chapman amendment? Of course not. It is very significant that these organizations, which represent medical professionals dealing with AIDS on a daily basis, oppose this amendment.

The Chapman amendment is also opposed by the leadership Conference on Civil Rights, AFL-CIO, UAW, United Food and Commercial Workers, AFSCME, National Council of Churches, American Jewish Committee, and American Civil Liberties Union.

I urge my colleagues to end the hysteria, paranoia and discrimination surrounding this tragic disease and vote against this amendment.

Mr. FISH. Mr. Chairman, I yield myself the balance of my time.

Mr. Chairman, the gentleman from Maryland [Mr. HOYER] just alluded to the letter to Speaker FOLEY from Louis Sullivan, Secretary of Health and Human Services. I will just read briefly two or three sentences.

We need to defeat discrimination rather than to submit to it. The administration is strongly committed to ensuring that all Americans with disabilities, including HIV infection, are protected from discrimination, and believe that the Americans With Disabilities Act should furnish the protection.

Mr. Chairman, the bill before us now says that a person with a disability who poses a significant risk to the health and safety of others cannot claim a right under this act that is before us.

But with the amendment before us we are asked to grant an additional benefit to employers of food handlers. If we agree, they can then deny employment to qualified workers, but it is not alleged that food handlers pose a health threat. The evidence is all to the contrary.

In short, we are asked to sanction discrimination because public misperception about the disease of AIDS will be bad for business.

Mr. Chairman, can this body, sympathetic as we are, bow to a contemporary public perception when writing law for the future?

Mr. Chairman, we know the AIDS virus is not transmitted through food handling activities. We should not make exceptions to the principle in ADA that employment decisions should not be based on myth or stereotypes.

Mr. Chairman, the Congress must not enshrine ignorance and prejudice in the law.

Ms. PELOSI. Mr. Chairman, I rise in opposition to the Chapman amendment to the Americans With Disabilities Act. This amendment would allow employers to move an employee with a communicable or infectious disease of public health significance out of a food-handling position, provided that the employer offers the employee an alternative employment opportunity for which the employee is

qualified and for which the employee would sustain no economic damage.

The ADA bill already permits a food service operator to remove from food-handling positions any individual with a disease or infection that can be transmitted to customers. There is no need for this amendment, which unfortunately fosters the same type of irrational discrimination that the ADA bill is intended to eliminate.

We cannot and must not discriminate against people with AIDS and people who do not pose a risk to the public. We cannot allow public ignorance and fear to provide a basis for discrimination. We must remember the principles and the goal of the Americans With Disabilities Act ultimate goal—to prohibit discrimination.

HIV, the virus that causes AIDS, is not foodborn or air-born. Dr. Roper, director of the Centers for Disease Control [CDC], stated in a letter that the human immunodeficiency virus cannot be transmitted through casual contact in the workplace. We have examples of 400 families, where HIV has not been transmitted between members of the family through casual contact. We should allow the health professionals to make crucial decisions regarding public health safety and also not undermine the work they have done to educate the public on AIDS.

I urge my colleagues to vote against the Chapman amendment.

Mr. MATSUI. Mr. Chairman, I am rising in strong opposition to the amendment being offered today by my colleague, Mr. Chapman. I believe this amendment is another effort to further discriminate against individuals who are suffering from AIDS.

As written, the Americans with Disabilities Act already excludes from coverage any food handler who has a communicable disease that could be transmitted through contact with the food. This amendment is duplicative and would serve only to fan the fires of hysteria that already surround people's ignorance about AIDS.

It has been proven that AIDS is not a disease that can be transmitted through casual contact. This includes the handling of food. There is no justification for this amendment.

The effect of this amendment would be further stigmatization of individuals with AIDS. I believe these people face enough battles in their lives that they certainly don't need the Congress compounding the discrimination they already experience.

While it is true we cannot sanction the public to embrace those with disabilities or those who have AIDS, our laws must reflect compassion and acceptance. We cannot force people to drop their preconceptions and stereotypes about individuals with AIDS, but we can legislate that they be treated fairly in their jobs. This is what the ADA does.

The challenge is for Congress to invest in ways of curing and treating the AIDS virus, not to spend time debating ways to further restrict the options for these people. This amendment is unconstructive and serves only to further negative stereotypes and unfair treatment of individuals who already are suffering.

I urge my colleagues to vote against the Chapman amendment.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Texas [Mr. CHAPMAN].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. CHAPMAN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were ayes 199, noes 187, not voting 46, as follows:

[Roll No. 118]

□ 1848

The Clerk announced the following pairs:

On the vote:

Mr. Pashayan for, with Mr. Matsui against.

Mr. Thomas of California for, with Mr. Yates against.

Mr. Smith of Texas for, with Mr. Mazzoli against.

Mr. Craig for, with Mr. Solarz against.

Ms. SNOWE and Mr. WHITTEN changed their vote from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. LEWIS of Florida. Mr. Chairman, due to a White House briefing with President Bush concerning potential oil drilling and exploration off the Florida coastline, I was unable to cast my vote on three crucial amendments to H.R. 2273, the Americans With Disabilities Act. Had I been present, I would have voted "Aye" on the following: Rollcalls Nos. 116, 117, and 118.

Mr. HOYER. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker having resumed the chair, Mr. MFUME, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2273) to establish a clear and comprehensive prohibition of discrimination on the basis of disability, had come to no resolution thereon.

## GENERAL LEAVE

Mr. HOYER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on the bill, H.R. 2273.

The SPEAKER. Is there objection to the request of the gentleman from Maryland?

There was no objection.

## PERSONAL EXPLANATION

Mr. NELSON of Florida. Mr. Speaker, had I been present, I would have voted "aye" on rollcall No. 112, No. 116, and No. 118; "nay" on rollcall No. 117; and "present" for rollcall No. 115.

## PERSONAL EXPLANATION

Mr. MAZZOLI. Mr. Speaker, I was unavoidably absent. Had I been present, I would have voted:

"Yea" on rollcall No. 116, an amendment to H.R. 2273;

"Nay" on rollcall No. 117, an amendment to H.R. 2273; and

"Nay" on rollcall No. 118, an amendment to H.R. 2273.

## PERMISSION TO HAVE UNTIL MIDNIGHT, FRIDAY, MAY 18, 1990, TO FILE CONFERENCE REPORT ON H.R. 4404, DIRE EMERGENCY SUPPLEMENTAL APPROPRIATION, 1990

Mr. WHITTEN. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tomorrow, Friday, May 18, 1990 to file a conference report on the bill (H.R. 4404) making dire emergency supplemental appropriations for the fiscal year ending September 30, 1990, and for other purposes.

The SPEAKER. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

□ 1850

## GENERAL LEAVE

Mr. HOYER. Mr. Speaker, I ask unanimous consent that I may have 5 legislative days in which to revise and extend my remarks, and to include a description of the provisions of the bill, H.R. 2273, to appear in the RECORD following general debate.

The SPEAKER. Is there objection to the request of the gentleman from Maryland?

There was no objection.

## PERMISSION FOR COMMITTEE ON THE JUDICIARY TO SIT ON TUESDAY, MAY 22, 1990, DURING THE 5-MINUTE RULE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary may be permitted to sit on Tuesday, May 22, 1990, while the House is reading for amendment under the 5-minute rule.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

## LEGISLATIVE PROGRAM

(Mr. GINGRICH asked and was given permission to address the House for 1 minute.)

Mr. GINGRICH. Mr. Speaker, I have asked to proceed for the purpose of receiving the schedule from the distinguished Democratic whip.

Mr. GRAY. Mr. Speaker, will the gentleman yield?

Mr. GINGRICH. I yield to the gentleman from Pennsylvania.

Mr. GRAY. Mr. Speaker, to my distinguished colleague, the gentleman from Georgia, the minority whip, let me say that the schedule for next week would be for us to meet at 12 noon on Monday, when we will have three suspensions. Those suspensions are as follows:

S. 286, Petroglyph National Monument Establishment Act.

House Concurrent Resolution 324, regarding Burmese elections; and

House Resolution 393, concerning the first anniversary of the Tiananmen square massacre.

Mr. Speaker, the votes on those suspensions will be rolled over until Tuesday, if there are votes requested.

We will then begin general debate only on the Clean Air Act Amendments of 1989.

It would be our hope that on Tuesday we will be able to convene at 10 a.m., when the recorded votes on suspensions would take place. We would hopefully complete consideration of the Americans With Disabilities Act and then move toward the Supplemental Assistance For Emerging Democracies Act of 1990. It is our expectation that it will be a late night on Tuesday, and also on Wednesday and potentially Thursday.

On Wednesday, we have not yet come to an agreement as to the time that we will begin. The majority and minority are still talking about the possibility of coming in early because we want to avoid a Friday session. But at this time we have no agreement. On Wednesday and the balance of the week we would do the Clean Air Act Amendments of 1989 and hopefully complete consideration and then take up the conference report on the dire emergency appropriations.

It is our expectation that we will be working late Tuesday and Wednesday and potentially Thursday, if necessary, in order to complete all of this legislation.

Mr. GINGRICH. Mr. Speaker, let me ask just one or two questions.

First of all, as we look forward to the Memorial Day break and come back after the district work period, I wonder if the gentleman could enlighten the House as to whether or not there is any possibility in June, 1 year after the President sent up his crime and drug package, of the Judiciary Committee actually reporting the crime and drug package only a year later after the President's request. I wonder if the gentleman might have any information on that?

Mr. GRAY. Mr. Speaker, the distinguished majority leader has already made it clear that we are planning to have the drug and crime bill on the floor this year. Exactly whether it will be the first thing up when we return, I am not able to say, but I can assure the gentleman from Georgia that the majority leader has stated publicly that it is our expectation that we will complete consideration of that bill in this session of Congress.

Mr. GINGRICH. Mr. Speaker, we were just hoping that maybe the first anniversary would be a good date to sort of schedule an opportunity for legislation on the President's request on drugs. But that is all right. We understand that may not be a high priority for the Democratic leadership.

Let me ask this question also. Really the gentleman might check with the leadership on his side. I do not know whether he has had a chance yet to check with the Democratic leadership in the other body on the length of time they will take to pass the conference report on the dire supplemental appropriations, but one of the concerns we would have, if we wait until Thursday to deal with that, is whether or not in fact it could get through the

other body before adjournment. I would simply hope that the gentleman's leadership would be working with the Senate leadership to be sure that we would have actually passage of that legislation in both Houses before adjournment.

Mr. GRAY. Mr. Speaker, it is my understanding that the conference report has been finished today. It is our expectation that working together here in the House, we will be able to bring that up and dispose of the conference report prior to the need for any Friday session. We look forward to working with the minority side to allow the House to work its will, and we expect that the conference report will be up next week. That is why we mentioned that it is slated at this time for consideration Wednesday or the balance of the week which should be more than enough time to insure that we get it done prior to our departure for the Memorial Day break.

I think it is very clear that the Democratic leadership is very concerned about several issues in that supplemental, particularly as it relates to support of emerging democracies and the need to show that support as soon as possible.

I would also assure my colleague, the gentleman from Georgia, that the Democratic majority also wishes to see this House work its will on a strong drug and crime bill. We are deeply concerned about it, as we will be doing so in the appropriation process and as we will be doing so in the budget process, and certainly we expect, as a result of our commitment to this important issue, to debate and pass an authorization bill that reflects the appropriate strategies for dealing with drugs and crime in the Nation.

Mr. GINGRICH. Mr. Speaker, let me say in closing that we on the Republican side very much want to work in a collegial and bipartisan way with the Democratic leadership in passing upon the Clean Air Act, which we regard as a very major environmental achievement. It is one of President Bush's major commitments for 1990, and it is something that we think is a very important step to take for the country. And that is true also on the Americans With Disabilities Act. It is my hope that by working together and smoothing out the legislative process next week, while it will take long hours, we will be able by late on Thursday to have completed the process.

Mr. GRAY. Mr. Speaker, let me join the gentleman by saying that we on the majority side do believe that this schedule, although it is a full schedule and not like any we have seen in the last few weeks, is an achievable schedule. If we can work together and expedite some procedures, we will be able to deal with all this legislation and provide the House the opportunity to work its will and get to the President the necessary legislation that he is seeking, as well as move the legislative process forward. So I look forward to working with the gentleman from Georgia.

Mr. GINGRICH. Mr. Speaker, I thank the gentleman from Pennsylvania.

## ADJOURNMENT UNTIL MONDAY, MAY 21, 1990

Mr. GRAY. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at noon on Monday next.

The SPEAKER pro tempore (Mr. FROST). Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

## HOUR OF MEETING ON TUESDAY, MAY 22, 1990

Mr. GRAY. Mr. Speaker, I ask unanimous consent that when the House adjourns on Monday, May 21, 1990, it adjourn to meet at 10 a.m. on Tuesday, May 22, 1990.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

## DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. GRAY. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday Rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

□ 1900

## ERIC AND LUCY MURRAY OF MISHAWAKA, IN

(Mr. HILER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HILER. Mr. Speaker, I rise today to inform you and the rest of my colleagues of a community effort and the two people who have kept the dreams of children and the young at heart alive. These two outstanding citizens, Eric and Lucy Murray, have been inspirations to their community.

Located in my district in Mishawaka, IN, the Res encompasses 24 acres of wildlife preserve enjoyed by the community. Formerly a Boy Scout reservation, the Res has operated since entirely on private funds and the generous endeavors of local citizens like the Murrays.

When you visit the Res, you are impressed not only by the scenery, but by the visitors as well. It is refreshing to see today's youth working hard to build animal shelters, cleaning up campsites, and taking an active part in preserving nature due to the encouragement of the Murrays.

For the past 20 years, the Murrays have been the driving force behind the Res. Their commitment to the Res has been the backbone in developing this model for other communities.

The Res is not just a place, it is a spirit, a feeling you get when you are there. This spirit is embodied in Eric and Lucy Murray. Although the Murrays are retiring from their positions as park ranger and office manager, the Res will continue to be a vital part of the community thanks to their many years of service. Eric and Lucy Murray have left a lifetime of values for people to enjoy.

## THE PEANUT PROGRAM MODERNIZATION ACT OF 1990

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. ARMEY] is recognized for 5 minutes.

Mr. ARMEY. Mr. Speaker, today, the gentleman from Indiana [Mr. JACOBS] and I are introducing the Peanut Program Modernization Act of 1990. This legislation will eliminate the Peanut Program's archaic quota system and replace it with a conventional price support system similar to those covering other food crops. By so doing, it will reduce consumer food costs, correct severe distortions in the market, allow greater growth in peanut production, and make the peanut program more consistent with American principles.

### MANDATORY SUPPLY CONTROLS

Mr. Speaker, peanuts have been the most tightly controlled food crop in American history. For years after the peanut program was initiated in 1941, no American farmer was allowed to grow peanuts without first receiving Government permission in the form of a quota, a Government peanut-growing license. Such mandatory supply controls were quite common during the Great Depression, but they were abandoned for virtually every other food crop over 20 years ago. Peanuts are the exception. To this day, a person cannot grow peanuts in any significant amount and sell them to his fellow citizens to eat without having a Federal license.

This Government control has led to many peculiarities. Originally, the quota licenses were given to anyone who was growing peanuts when the program began. Federal officials simply measured each farmer's peanut acreage and gave him a license to continue producing a specific amount and no more. Virtually all other peanut growing and selling was prohibited.

After that, few new quotas were issued, but the fortunate few who had them were allowed to pass them on to their descendants, who in turn were allowed to sell or rent them to others who wanted to grow peanuts, provided

only—in most cases—that the quota remained in the original county.

Consequently, in 1990, the Government controlled right to grow peanuts to be eaten in the United States is generally distributed not according to any rational plan, but based on who was growing peanuts in this country in 1941. It is quite common for a person to have a license to grow peanuts solely because he inherited it from a family member who was growing peanuts almost 50 years ago.

I believe this system violates fundamental principles in our society. It is a form of feudalism. Under the quota system, if a supposedly free American wishes to grow peanuts and sell them to his fellow citizens to eat, he has little choice but to rent a quota from one of the favored few who hold them. He must, in effect, pay a tribute to a quota lord, someone who holds a quota only because his grandfather was growing peanuts in 1941.

TWO-TIER PRICE SUPPORT

In addition to the quota system, the Peanut Program has a unique two-tier price support in which foreigners are allowed to buy American peanuts at one price, while Americans are forced to buy them for another. The result: Americans pay almost 50 percent more for their own peanuts than foreigners do.

Until 1977, the price of virtually all domestically grown peanuts was supported by the Government at a high level. This had the tragic but predictable effect of blowing American peanuts out of potential export markets overseas.

That year, Congress tried to fix the problem. It kept the price support high for all peanuts to be sold inside the United States, but it lowered it for any additional peanuts that were bound for export.

Under this two-tier price support, peanuts for export are grown and sold profitably at about market prices, while peanuts for domestic edible use are sold at prices kept artificially high by the U.S. Government. That means that Americans pay 50 percent more for American peanuts as foreigners pay for American peanuts.

THE CONSUMER IMPACT

The purpose of this system, freely admitted by its supporters, is to create an artificial scarcity of peanuts on the domestic market and drive up consumer food prices. To quote a basic USDA document, "The Federal peanut program supports the price received by farmers and raises the costs of peanuts and peanut products for consumers." The Peanut Program essentially functions like a cartel. It inflates the price of peanuts in much the same way that the OPEC cartel has inflated the price of oil—the main difference being that under the peanut program American consumers are bilked not by wealthy Arab oil sheiks, but by their own Government.

Although it is difficult to measure exactly, the size of this consumer overcharge is in the hundreds of millions of dollars. The USDA estimates that the peanut program raises consumer prices by $190 million annually. It concedes, however, that this is a conservative figure since it does not take into account the costs that the Peanut Program itself imposes on farmers. The Peanut Butter & Nut Processors Association estimates more realistically that the overcharge is $369 million at the wholesale level.

Considering that peanut butter is an important source of protein for our children, particularly children in lower income families, this is no small matter. Without the quota system, consumers could save as much as 40 cents on an 18 ounce jar of peanut butter priced at $1.79. The Federal Government should do a lot of things; forcing our citizens to pay higher prices to feed their children should not be one of them.

THE PEANUT PROGRAM MODERNIZATION ACT

Mr. Speaker, except perhaps for its sheer antiquity, there is no rational justification for continuing this program in its current, anachronistic form. Our legislation will modernize the program by doing two things:

First, it will eliminate the quota system by striking the provisions which authorized it in the Agriculture Adjustment Act of 1938 and the Agriculture Act of 1949. The two-tier price support will not be reauthorized.

Second, in place of this current program, this act will continue to protect peanut farmers by directing the Secretary of Agriculture to support the price of peanuts. The Secretary will do this using the conventional means that are used to support the price of other crops such as soybeans and corn. In setting the price support level, the legislation directs the Secretary to consider a number of factors, including the cost of peanut production and the demand for peanuts. These are factors which traditionally have been used in agriculture policy to arrive at rational levels of support.

Mr. Speaker, the Peanut Program Modernization Act would essentially bring the peanut program into the 1990's by eliminating its depression-era features and making it similar to our other farm program.

I urge my colleagues to support this long overdue reform legislation.

## INTRODUCTION OF SUBSTANCE ABUSE TREATMENT CORPS LEGISLATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. STARK] is recognized for 5 minutes.

Mr. STARK. Mr. Speaker, Representatives BILL GREEN, DAN GLICKMAN, BILL GRANT and I are today introducing a bill to ensure more alcohol and drug abuse treatment personnel, who will work in underserved inner city and rural areas in exchange for Federal financial help with their educational expenses.

The bill adopts the ideas of the National Health Service Corps to address one of the most glaring gaps in our national war on drugs: the fact that six out of seven Americans who seek drug and alcohol rehab services are turned away because of a lack of facilities and qualified personnel. The lack of adequately trained personnel is particularly severe in remote rural regions and our devastated inner cities.

Therefore the legislation proposes to pay up to $20,000 per year of educational expenses for each year of drug and alcohol treatment work in an underserved area. The educational expenses would be expenses for a degree as a medical doctor, psychiatrist, clinical psychologist, physicians assistant, nurse, nurse practitioner, psychiatric nurse, marriage or family therapist, social worker, or a graduate of a school of public health. The underserved regions would be determined by the Secretary and include regions with significant incidence of alcohol and drug abuse and an inadequate availability of such services as measured by a number of criteria.

The bill authorizes $26 million for the new corps. This is a most modest figure, given the magnitude of the problem. But I believe that as the Corps gets started and proves itself, it will soon justify a larger level of support.

Mr. Speaker, study after study has shown that the best, most cost effective way to deal with the drug crisis is through antidrug education, treatment, and rehabilitation. As long as there is a large demand for drugs in our society, some poor peasant in some jungle country will be raising coca and poppies and someone will be smuggling it across our wide open borders—and all the King's men and all the King's horses won't be able to stop that flow. We must destroy the demand for drugs and the reasons for alcohol abuse. I believe the Drug Corps is one way to help dampen the demand.

We have indications of support for this idea from various groups such as the American Psychological Association, the National Association of State Alcohol & Drug Abuse Directors, the American Association for Marriage & Family Therapy, the American Society of Addiction Medicine, and the National Association of Social Workers.

I hope that it may have the early support of this House.

## TRIBUTE TO HON. EDWARD J. DERWINSKI

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Mr. Speaker, I rise to congratulate our former colleague and my good friend from Illinois, the Honorable Edward J. Derwinski, Secretary of the Department of Veterans Affairs, who today received the 1990 Distinguished Service Award from the United States Association of Former Members of Congress during a ceremony held in the House Chamber.

Ed is an outstanding American who served with distinction in the House of Representatives from 1959 to 1983, and it was an honor to work with him during the 18 years we served together in Congress. He is most worthy of the recognition he has received, and this award truly reflects the highest respect and admiration with which his former colleagues regard him.

After compiling an admirable record of achievement as a Member of Congress, Ed continued his exemplary career and commitment to our Nation: as counselor of the Department of State; as Under Secretary of State for Security Assistance, Science and Technology; and presently, as the first Secretary of the Department of Veterans Affairs.

Mr. Speaker, again I congratulate Ed on receiving this Distinguished Service Award, and I

extend to him my best wishes as he continues to serve our Nation and our Nation's veterans in devotion to the highest principles.

## FIT AND READY TO FIGHT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Mississippi [Mr. MONTGOMERY] is recognized for 5 minutes.

Mr. MONTGOMERY. Mr. Speaker, I want to continue to share with my colleagues a series of articles which appeared in the Roll Call newspaper in the April 30, 1990 edition in a special policy brief, titled "National Guard and Reserves In a Changing World." This brief was developed to describe the roles and missions of the Reserve components and to educate the readers. I wrote the lead article in hope of generating interest by the readers to learn more about the Guard and Reserve. I commend my colleagues to read these articles to gain a better appreciation of the Guard and Reserve. Today I'm sharing another in the series of articles that appeared in that April 30 Roll Call edition.

[From Roll Call, Apr. 30, 1990]

FIT AND READY TO FIGHT

(By John Marsh, Jr.)

Today's National Guard and Reserve units are composed of higher quality personnel, are being more effectively trained, and have more modern equipment than they did 15 years ago.

The Reserve components are better prepared than ever to perform their vital mission: to be ready to fight in the event of mobilization. Even with the fast-moving, highly significant changes taking place throughout the world, this mission will not change substantially in the near future.

Composed of the Army National Guard, Air Force National Guard, Army Reserve, Marine Corps Reserve, Naval Reserve, Air Force Reserve, and Coast Guard Reserve, the Reserve components' capability deters an adversary and maintains peace.

History has proven that a force that is ready to fight is less likely to have to fight.

An important challenge for civilian and military defense planners, in the face of the rapidly changing world situation, is to determine the force mix of the US Armed Forces, while maintaining the high state of readiness of the Reserve components.

At the direction of Congress, a Total Force Study Group, of which I am a member, has been created within the Department of Defense. It is composed of high-level civilian and military leaders from the DoD, Active components, and Reserve components

The findings of this group should greatly influence the force structure of the United States Armed Forces for years to come.

DoD policy is, and will continue to be, to maintain as small an Active peacetime Force as national security policy, military strategy, and overseas commitments allow.

The Active Force should be large enough to deal with low-to-mid-intensity conflicts of short duration without reliance on the Reserve components. Reserve component units and individuals should be prepared to augment active forces as required.

The Reserve components provide a cost-effective means for augmenting the Active Forces and maintaining a strong national defense. Recognizing this, budget makers are likely to try to save dollars, while maintaining capability, by transferring more missions and force structure from the Active to the Reserve components.

The Reserve components stand ready to accept additional responsibilities. However, the added missions and force structure must be adequately resourced, and must be of the type that are best supported within the parameters of Reserve component recruiting, retention, and training.

It must be remembered that Reserve component units are expected to maintain readiness in less than 20 percent of the time available to Active component units. To demand more could adversely impact recruiting and retention. To allow less would hurt readiness.

Another major concern I have about Reserve component readiness is the tendency to think in terms of "equal share" reductions when budget cuts are required. This is particularly inappropriate at a time when additional missions and force structure are being given to the Reserve components.

Reserve component budget reductions should not be made on an automatic equal share basis with the Active components, but on the basis of what best maintains total force capability.

Today's Reserve components are high quality, well equipped, well trained, and ready to fight. Continued attention must be paid to persistent problem areas. Additions to the missions and force structure of the Reserve components must be carefully considered and adequately funded.

Clearly, the Reserve components are going to have greater responsibilities for national security in the years ahead. They deserve the support of Congress in this important endeavor.

## MOUNT VERNON'S FINEST

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from New York [Mrs. LOWEY] is recognized for 5 minutes.

Mrs. LOWEY of New York. Mr. Speaker, May 13 through May 19 is National Police Week, and I rise today to pay particular tribute to the men and women of the Mount Vernon Police Department. Mayor Ronald A. Blackwood has designated May 18, 1990 as Police Appreciation Day in Mount Vernon, NY. This is a fitting tribute to the men and women in uniform who face danger on a daily basis to make our lives safer.

Law enforcement officers around the Nation are truly our first line of defense against crime. At a time when we are all committed to ending the scourge of drugs and restoring safety to our streets and neighborhoods, we, as a nation, should provide the support our law enforcement officers need and deserve. While we need to increase the resources available to law enforcement, as I am working to do, we also must lend our moral support to those who are working to prevent and respond to crime.

On May 18, the Mount Vernon Police Department will honor several of their members who have distinguished themselves in the performance of their duties and will also pay tribute to civilians who have been instrumental in assisting the Department. This is a most fitting recognition of their dedication and commitment. In addition, a memorial service will be held to honor those who have been struck down in the line of duty. Their lives were lost for their fellow residents whose safety they were protecting. Theirs was the ultimate sacrifice.

The officers who will be honored are:

Lt. Kevin Geberth.
Sgt. Richard Burke, Jr.
Sgt. Michael Carpentieri.
Sgt. John Roland.
Sgt. Joseph Hunce.
Sgt. John DeMascio.
Sgt. Walter Roland.
Detective Karyn Addison.
Detective Robert Caluori.
Detective Joseph Radzinski.
Detective Mario Manganiello.
Detective Davy Rhodes.
Detective Dante Barrera.
Detective Ronald DeVito.
Detective Thomas Gormley.
Detective Kevin Mandel.
Detective James Garcia.
Police officer Salvatore Ardisi.
Police Officer Douglas Beale.
Police officer Larry Bland.
Police officer Michael Gonzalez.
Police officer Thomas Campone.
Police officer Thomas Duffy.
Police officer Albert Fontecchio.
Police officer Lloyd Green.
Police officer Edward Gorman.
Police officer Steven Kelly.
Police officer Matthew Lombardo.
Police officer Robert McMenamin.
Police officer Marcel Olifiers.
Police officer Michael Olifiers.
Police officer Neil Rosenberg.
Police officer Anthony Rozzi.
Police officer Michael Rossetti.
Police officer Mark Sievertsen.
Police officer Anthony Mastrogiorgio.
Police officer Thomas Strauss.
Police officer Courtney Besley.
Police officer Joseph Clark.
Police officer Michael DeGrego.
Police officer Paul Fertig.
Police officer Arthur Glover.
Police officer Roger Bock.
Police officer John Jones.
Police officer Thomas Luisa.
Police officer Gregory Paci.
Police officer Salvatore Nargi.
Police officer Thomas Odell.
Police officer Michael Olivo.
Police officer Rocky Rosado.
Police officer Elio Rucci.
Police officer Richard Veglia.
Police officer Mario Scavelli.
Emergency service dispatcher Emma Baluvelt.
Emergency service dispatcher Richard Brenner.

CIVILIAN AWARDS

Larry Barnes.
Joseph Coniglio.
Firefighter Nicholas Ionta.
Glenory Manderson.
Joseph Mosca.

## CONCERN ABOUT FAIRNESS OF ROMANIAN ELECTIONS

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tleman from Virginia [Mr. WOLF] is recognized for 30 minutes.

Mr. WOLF. Mr. Speaker, on Sunday, the people of Romania will go to the ballot box for the first time since 1947. But as Romanians prepare to elect new leaders, serious questions are being raised about whether the election will really be as free and fair as was promised by the current leadership, the National Salvation Front [NSF].

CONCERN ABOUT FAIRNESS OF THE ELECTIONS

Former United States Ambassador to Romania David B. Funderburk, joined by several Members of this body, yesterday presented strong and convincing evidence that the upcoming elections would be anything but free and fair.

Ambassador Funderburk said yesterday, and I quote:

For months now, the NSF Communists have controlled the election process through Secret Police intimidation and even beating up opposition candidates; destruction of the only private independent newspapers * * *; monopolizing TV coverage of the elections so that the main opposition parties cannot get on television; and the continued operations of the Secret Police of Ceausescu (which taps telephones, makes threatening calls and harasses and intimidates opposition to the NSF Communists).

An editorial in yesterday's Washington Post carries a similar theme. It reads in part:

When Secretary of State James Baker was in Romania last February, he urged the NSF to disband the Ceausescu regime's notorious security force, the Securitate, and to give the non-Communist opposition parties broader access to the voting public. The NSF has done neither. While the Securitate has receded into the shadows, it is still apparently in operation. While the opposition is able to publish its own newspapers, it is having trouble getting them distributed * * * [t]he government and its supporters have evidently created an atmosphere of intimidation.

THE PRESIDENTIAL DELEGATION TO OBSERVE THE ELECTIONS IN ROMANIA

Yesterday, Mr. Speaker, the White House announced the composition of the Presidential Delegation to Observe the Elections in Romania.

Quite frankly Mr. Speaker, in light of the very serious concerns I just mentioned about the fairness of the election process in Romania, the composition of that group is a major disappointment.

It is a letdown to the people of Romania who fought for freedom in last December's popular uprising.

I have three concerns about the delegation.

COMPOSITION OF THE PRESIDENTIAL DELEGATION

Individually, I am sure that the members President Bush selected are fine members of the community, competent at what they do and I have no qualms about their being included in the Presidential delegation.

My concern is that the delegation does not reflect the balance and expertise one would expect from a delegation to monitor such an important election.

The delegation should have included widely recognized, distinguished experts who could provide balance, diversity, and expertise to complement one another.

At a minimum, any group whose purpose is to monitor an international election should be balanced with members who possess certain basic skills:

A thorough knowledge of the language, culture, politics, and history of the country whose election they are monitoring;

Experience with the electoral process and in monitoring international elections;

Expertise in the area of human rights;

Simply stated, the White House delegation does not reflect that balance. And that sends the wrong message to the people of Romania who have struggled for freedom.

What will the Romanian people think?

The young men and women who took up arms against President Ceasesescu and the Securitate, risking their lives and their families deserve better. They deserve a strong, balanced, experienced delegation.

The people of Timisora who lost family and friends standing up to the Securitate in the name of freedom. They deserve a strong, balanced, experienced delegation.

At the most critical moment in their struggle for freedom, the Romanian people will wonder why the United States delegation to monitor their elections does not reflect greater diversity. Why the members are not names they recognize. Why none are experts in human rights?

TIMING OF APPOINTMENT OF THE DELEGATION

I am also disappointed, Mr. Speaker, that the White House waited until just 4 days before the beginning of the elections to make their selections. This leaves little time for briefings and education to assist in understanding the political dynamics of the country, its language, people, and culture.

The delegation should have been appointed weeks ago so that members would have had time to thoroughly prepare for their mission.

DURATION OF MONITORING ACTIVITIES

Perhaps my most serious concern, however, Mr. Speaker, is that the United States delegation is scheduled to return to the United States before the counting of the ballots in Romania is completed.

The National Salvation Front [NSF], currently in power, has indicated it will take several days to complete counting the ballots. They had originally said it would take 6 days. They originally had said they would not count the ballots for 6 days. The U.S. delegation is set to be back in the United States on May 23.

Prior to the elections in Nicaragua, the Carter Presidential Center outlined what it considered to be the important roles for the elections there. These include:

Being present at polling sites on election day before hand to prepare for the day's election activities;

Observing the voting and counting by going in and out of the polling sites throughout the day;

Receiving copies of the vote tally sheets from randomly selected sample of sites for rapid assessment of the results;

Receiving two copies of the vote tally sheets from each of the polling places for a parallel tabulation of the results;

Conduct appropriate quick counts or paralled vote tabulations;

Exercise unimpeded access to all voting sites;

Witness all voting activities, handling of ballots, and tabulation and transmission of vote counts;

Observe and assist in the day's closing election acts.

Mr. Speaker, granted that these criteria were developed especially for the Nicaraguan election, but the same concepts apply to the Romanian election. Perhaps even more so.

Mr. Speaker, the U.S. delegation will not be able to monitor the counting of the ballots because they will not be there for the whole process. They will not be able to randomly analyze vote tally sheets. They will not be able to conduct parallel tabulations. They will not be able to witness handling of the ballots, tabulations or transmissions of vote counts. They will have already returned to the United States when these activities are completed.

The Carter Center's report concluded that lapses in duties might call into question the integrity of the election.

THE NEED FOR ELECTION MONITORING

Today's New York Times carries an article which explains many of the concerns in the world community about the upcoming Romanian elections.

Opposition party candidates are attacked regularly by unidentified assailants. I was told in a meeting this morning that many of the candidates stay in a different location every night for safety. The Liberal Party presidential candidate, Radu Campeanu, was attacked in a provincial town last week. The New York Times reports that the Peasants Party candidate, Ion Ratiu, has reported similar assaults.

The opposition parties have also had difficulty reaching the people of Romania through the mass media. I have been told that the NSF has deliberately made it difficult if not impossible for the opposition to distribute its

newspapers. First they were told no paper was available. Then no ink. Workers at the printing facility—government controlled—then refused to print the papers and the oppositon was not allowed to obtain a printing press for itself. Once they obtained the printing press electricity and water to the location were cutoff. When they tried to generate their own power, they were told that they were going have to return the building in which they were housed and find a new location.

Similar problems exist regarding access to television. Originally, each party was to have a half hour each on television on a rotating basis. Suddenly, however, overnight over 40 political parties were formed. Most were sympathetic to the NSF and many believe they were formed by the NSF to dilute the ability of the opposition parties to access the electronic media.

With the new parties sharing in available television time, opposition parties would be on the air for one-half hour every 2 months. Hardly enough to get any message across.

As yesterday's Washington Post pointed out, the opposition parties are having trouble getting their messages to the voters. That alone is enough to create concern about the integrity of the elections.

When one considers the additional fact that the NSF does not intend to count the ballots for 3 days, the level of concern grows.

Who will guard the ballots to ensure they are not tampered with? I have been told it will be the army. Does that mean the Securitate, or Romanian Intelligence Service as it is now called, will be involved? Either way, why wait to count the ballots?

CONCERN ABOUT THE PAST

Under the leadership of President Ceausescu, Romania was one of the worst violators of human rights in the world.

They persecuted different religious faiths. Bulldozed synagogues and churches—sometimes with people still in the churches. They beat up a Catholic priest who said that Christmas should be a holiday and later killed him.

They persecuted Hungarians and other minorities.

Freedom of speech, of the press, of religion were all strictly controlled.

Some of the same people who perpetrated these systematic abuses of human rights are the same people who make up the National Salvation Front which now rules Romania and which, many believe, are responsible for the many difficulties the opposition parties in Romania are experiencing.

As the New York Times reported today:

The main objection to the front is that it is filled with former communists who [have] not abandoned either the party's ideology or its old methods.

CONCLUSION

Mr. Speaker, Ambassador Funderburk may be correct when he calls the elections in Romania a sham. There are certainly many concerns being expressed by a wide divergence of sources about the integrity, fairness and openness of the coming elections.

The United States, the symbol of democracy throughout the world, has an obligation—an obligation to the people of Romania who have suffered and fought for freedom—to do what it can to help foster democracy in that country. To ensure the elections are fair and free.

The official delegation, while composed of fine individuals, is not up to that task.

Having been to Romania three times, both before and after the revolution, I feel for the Romanian people and I share in their disappointment.

Perhaps because of the disappointing U.S. response, in the future our Government will have an obligation to be more aggressive in aiding democracy and peace in Romania.

□ 1920

## LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. LOWERY of California (at the request of Mr. MICHEL), from 4 p.m. today, on account of attending a funeral.

Mr. HAMMERSCHMIDT (at the request of Mr. MICHEL), for today, on account of representing the President at the Inauguration of President Lee Teng-Hui of the Republic of Taiwan.

## SPECIAL ORDERS GRANTED

Mr. GINGRICH, for 60 minutes each day, on May 21, 22, 23, 24, and 25.

(The following Members (at the request of Mr. GONZALEZ) to revise and extend their remarks and include extraneous material:)

Mr. STARK, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. MONTGOMERY, for 5 minutes, today.

Mrs. LOWEY, of New York, for 5 minutes, today.

Mr. SKELTON, for 30 minutes, on May 21.

## EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. MICHEL (at the request of Mr. BARTLETT) to follow rollcall No. 116, the vote of the LAFALCE amendment, on H.R. 2273, in the Committee of the Whole today.

(The following Members (at the request of Mr. STEARNS) and to include extraneous matter:)

Mr. BUECHNER.
Mr. SCHIFF.
Mr. BROOMFIELD.
Mr. GRADISON.
Mr. PORTER in two instances.
Mr. HORTON.
Mr. GREEN of New York in two instances.
Mr. MOLINARI.
Mrs. MORELLA.
Mr. STANGELAND.
Mr. BLILEY in two instances.
Mr. KYL.
Mr. MARLENEE.
Mr. BLAZ.
Mr. CONTE in four instances.
Mr. MACHTLEY.
Mr. MCEWEN.
Ms. ROS-LEHTINEN.
Mr. WELDON.
Mr. BALLENGER.
Ms. SNOWE.
Mr. LAGOMARSINO.
Mr. MICHEL.
Mr. BURTON of Indiana.
Mr. BROWN of Colorado.

(The following Members (at the request of Mr. GONZALEZ) and to include extraneous matter:)

Mr. BONIOR in two instances.
Mr. RANGEL.
Mr. ACKERMAN.
Ms. OAKAR.
Mr. FASCELL in two instances.
Mr. KASTENMEIER.
Mr. STARK in two instances.
Mr. DARDEN.
Mr. SKELTON in two instances.
Mrs. COLLINS.
Mr. ROE in two instances.
Mr. TRAXLER.
Mr. GRAY.
Mr. KOSTMAYER.
Mr. EVANS.
Mr. MCMILLEN of Maryland.
Mr. ATKINS in 20 instances.
Mr. FAZIO in three instances.
Mrs. BOGGS.
Mr. MAVROULES.
Mr. NELSON of Florida.
Mr. GLICKMAN.
Mr. DORGAN of North Dakota.
Mr. BROWN of California.
Mr. STOKES.
Mr. FROST.
Mr. LAFALCE.
Mr. WEISS.
Mr. ROSTENKOWSKI.
Mr. SWIFT.
Mr. ASPIN.
Mr. TRAFICANT.
Mr. PENNY.

Mr. BRYANT.

Mr. TORRES.

## SENATE JOINT RESOLUTION REFERRED

Joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res. 264. Joint resolution to commemorate the 50th anniversary of the National Sheriffs' Association; to the Committee on Post Office and Civil Service.

## ENROLLED BILL SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 3910. An act to require the Secretary of Education to conduct a comprehensive national assessment of programs carried out with assistance under chapter 1 of title I of the Elementary and Secondary Education Act of 1965.

## ADJOURNMENT

Mr. WOLF. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 23 minutes p.m.) under its previous order, the House adjourned until Monday, May 21, 1990, at 12 o'clock noon.

## EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3197. A letter from the Secretary, Interstate Commerce Commission, transmitting a notification that the Commission in Finance Docket No. 31424, "Acquisition by Tampa Bay & Western Trans., Inc., of CSX Transp., Inc., Line Between Sulphur Springs and Broco, FL" has extended the time period for issuing a final decision by 70 days, pursuant to 49 U.S.C. 11345(e); to the Committee on Energy and Commerce.

3198. A letter from the Deputy Associate Director for Collection and Disbursement, Department of the Interior, transmitting a notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

3199. A letter from the Deputy Associate Director for Collection and Disbursement, Department of the Interior, transmitting a notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

3200. A letter from the Deputy Associate Director for Collection and Disbursement, Department of the Interior, transmitting a notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

3201. A letter from the Assistant Secretary of the Army (Civil Works), transmitting a report on the impact of the proposed municipal landfill (Balefill) project on the Newark Valley Aquifer near Bartlett, IL, pursuant to Public Law 100-676, section 47(b) (102 Stat. 4042); to the Committee on Public Works and Transportation.

3202. A letter from the Assistant Secretary of the Army (Civil Works), transmitting a report from the Chief of Engineers, Department of the Army, on Ecorse Creek Drainage Basin, Wayne County, MI, together with other pertinent reports and comments (H. Doc. No. 101-193); to the Committee on Public Works and Transportation and ordered to be printed.

3203. A letter from the Assistant Secretary of the Army (Civil Works), transmitting recommendations of the Secretary on a report dated Janaury 3, 1989, from the Chief of Engineers, on Rio de la Plata, PR, together with other pertinent reports and comments (H. Doc. No. 101-194); to the Committee on Public Works and Transportation and ordered to be printed.

3204. A letter from the General Counsel, Department of Transportation, transmitting copies of the fiscal year 1991 budget requests of the Federal Aviation Administration to the Department, including requests for "Facilities and Equipment" and "Research, Engineering, and Development," pursuant to 49 U.S.C. app. 2205(f); jointly, to the Committees on Public Works and Transportation and Science, Space, and Technology.

## REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. DINGELL: Committee on Energy and Commerce. H.R. 3030. A bill to amend the Clean Air Act to provide for the attainment and maintenance of the national ambient air quality standards, the control of toxic air pollutants, the prevention of acid deposition, and other improvements in the quality of the Nation's air, with an amendment; referred to the Committee on Public Works and Transportation and the Committee on Ways and Means for a period ending not later than May 21, 1990, for consideration of such provisions of the bill and amendment as fall within the respective jurisdictions of those committees pursuant to clauses 1(p) and 1(v), Rule X (Rept. 101-490, pt. 1). Ordered to be printed.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. CONTE:

H.R. 4841. A bill making dire emergency supplemental appropriations for assistance to Panama and Nicaragua and for refugee assistance for the fiscal year ending September 30, 1990, and for other purposes; to the Committee on Appropriations.

By Mr. BRYANT:

H.R. 4842. A bill to prohibit States from participating in any betting or gambling scheme on professional or amateur sporting events; jointly, to the Committees on the Judiciary and Government Operations.

H.R. 4843. A bill to amend title 18, chapter 61, section 1307 to clarify the exemption of State-conducted lotteries; to the Committee on the Judiciary.

H.R. 4844. A bill to amend the Trademark Act of 1946 to protect the service marks of professional sports organizations from misappropriation by State lotteries; to the Committee on the Judiciary.

By Mr. ARMEY (for himself and Mr. JACOBS):

H.R. 4845. A bill to repeal the existing quota and price support program for peanuts and to authorize the Secretary of Agriculture to support the price of peanuts at a level to be determined by the Secretary; to the Committee on Agriculture.

By Mr. BLAZ:

H.R. 4846. A bill to extend the supplemental security income benefits program to residents of Guam, and for other purposes; to the Committee on Ways and Means.

By Mr. BLILEY (for himself, Mr. HOLLAWAY, and Mr. HASTERT):

H.R. 4847. A bill to amend the Public Health Service Act to establish, in the program of block grants under part B of title XIX of such act, a requirement regarding health care for infants with congenital conditions caused by the substance abuse of the mothers of the infants, and for other purposes; to the Committee on Energy and Commerce.

By Mr. COUGHLIN (for himself and Mr. HUGHES):

H.R. 4848. A bill to provide for testing for the use, without lawful authorization, of alcohol or controlled substances by the operators of aircraft, railroads, commercial motor vehicles, and mass transportation vehicles, and for other purposes; jointly, to the Committees on Public Works and Transportation and Energy and Commerce.

By Mr. EVANS (for himself, Mr. ROHRABACHER, Mr. STARK, and Mr. DYSON):

H.R. 4849. A bill to amend title 10, United States Code, to authorize the appointment of chiropractors as commissioned officers in the Armed Forces to provide chiropractic care, and to amend title 37, United States Code, to provide special pay for chiropractic officers in the Armed Forces; to the Committee on Armed Services.

By Mr. FAWELL (for himself, Mr. BLILEY, Mr. DONNELLY, Mr. HOLLOWAY, Mr. SMITH of Texas, Mr. MOLLOHAN, Mr. HASTERT, Mr. VISCLOSKY, Mr. WALSH, Mr. SMITH of Vermont, Mr. DREIER of California, Mrs. VUCANOVICH, Mr. MILLER of Washington, and Mr. CHANDLER):

H.R. 4850. A bill to amend part E of title IV of the Social Security Act to prevent abandoned babies from experiencing prolonged foster care where a permanent adoptive home is available; to the Committee on Ways and Means.

By Mr. GRADISON:

H.R. 4851. A bill to reorganize and simplify the financial institution regulatory and deposity insurance structure and provide the Secretary of the Treasury with oversight authority for banking agencies, and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

By Mrs. JOHNSON of Connecticut (for herself, Mr. SPRATT, Mr. KASICH, Mr. GUARINI, Mrs. MARTIN of Illinois, Mr. ROWLAND of Connecticut, and Mr. SHAYS):

H.R. 4852. A bill to provide manufacturers deemed critical to the national defense with an incentive to commit capital to invest-

ment in productive equipment, and for other purposes; jointly, to the Committees on Ways and Means and Armed Services.

By Mr. LEHMAN of California (for himself, Mr. LAGOMARSINO, Mr. FAZIO, Mr. CONDIT, and Mr. PASHAYAN):

H.R. 4853. A bill to amend the Reclamation States Drought Assistance Act of 1988 to extend the period of time during which drought assistance may be provided by the Secretary of the Interior, and for other purposes; to the Committee on Interior and Insular Affairs.

By Mrs. LLOYD (for herself, Mr. STALLINGS, Mr. MORRISON of Washington, and Mr. FAWELL):

H.R. 4854. A bill to establish a national advanced civilian reactor research, development, and demonstration program to make available new, improved, and economical nuclear energy generation units, and to give strategic focus to existing programs in nuclear fission research at the Department of Energy; to the Committee on Science, Space, and Technology.

By Mr. PEASE:

H.R. 4855. A bill to amend the Solid Waste Disposal Act and the Toxic Substances Control Act to require the Administrator of the Environmental Protection Agency, in determining whether to issue a permit for a hazardous waste facility or to issue an approval for the incineration of polychlorinated biphenyls, to consider an applicant's record in owning or operating other hazardous waste facilities or incineration facilities; to the Committee on Energy and Commerce.

H.R. 4856. A bill to amend the Solid Waste Disposal Act to authorize the Environmental Protection Agency to award grants to groups for technical assistance to oppose the issuance of permits under that act; to the Committee on Energy and Commerce.

By Mr. PENNY (for himself, Mr. TALLON, Mr. JOHNSON of South Dakota, Mr. DORGAN of North Dakota, Mr. GRANDY, Mr. STALLINGS, and Mr. TAUKE):

H.R. 4857. A bill to amend the Consolidated Farm and Rural Development Act to provide credit assistance to qualified beginning farmers and ranchers, and for other purposes; to the Committee on Agriculture.

By Mr. RICHARDSON (for himself and Mr. TOWNS):

H.R. 4858. A bill to amend the Communications Act of 1934 to assure equal employment opportunities are afforded by radio and television broadcasting stations; to the Committee on Energy and Commerce.

By Mr. RITTER (for himself, Mr. CAMPBELL of California, Mr. DELAY, Mr. HILER, Mr. HYDE, Mr. BOEHLERT, Mr. BUECHNER, Mr. INHOFE, Mr. BARTLETT, Mr. HASTERT, Mr. PAXON, Mr. LIVINGSTON, Mr. LEWIS of California, Mr. WALKER, and Mr. LENT):

H.R. 4859. A bill to amend the Internal Revenue Code of 1986 to provide a variable capital gains deduction and to index the basis of capital assets; to the Committee on Ways and Means.

By Mr. RITTER (for himself, Mr. CAMPBELL of California, Mr. DELAY, Mr. HYDE, Mr. BOEHLERT, Mr. BUECHNER, Mr. INHOFE, Mr. BARTLETT, Mr. HASTERT, Mr. PAXON, Mr. LIVINGSTON, Mr. LEWIS of California, Mr. WALKER, and Mr. LENT):

H.R. 4860. A bill to amend the Internal Revenue Code of 1986 to encourage investments in new manufacturing equipment by allowing an investment tax credit for such investments; to the Committee on Ways and Means.

H.R. 4861. A bill to amend the Internal Revenue Code of 1986 to encourage investments in manufacturing companies by providing special treatment for losses on such investments; to the Committee on Ways and Means.

By Mr. RITTER (for himself, Mr. CAMPBELL of California, Mr. DELAY, Mr. HILER, Mr. HYDE, Mr. BOEHLERT, Mr. BUECHNER, Mr. INHOFE, Mr. BARTLETT, Mr. HASTERT, Mr. PAXON, Mr. LIVINGSTON, Mr. LEWIS of California, Mr. WALKER, and Mr. LENT):

H.R. 4862. A bill to amend the Internal Revenue Code of 1986 to provide a partial exclusion of dividends and interests received by individuals; to the Committee on Ways and Means.

By Mr. ROYBAL (for himself and Ms. OAKAR):

H.R. 4863. A bill to provide for an intensified national effort to improve the health and enhance the independence of older Americans through research, training, treatment, and other means, and for other purposes; to the Committee on Energy and Commerce.

By Ms. SNOWE (for herself, Mr. DOWNEY, Mr. DONNELLY, Mrs. JOHNSON of Connecticut, Mr. PAYNE of New Jersey, Mrs. SAIKI, Mrs. LLOYD, Mrs. SCHROEDER, Ms. LONG, Mr. RINALDO, Mrs. UNSOELD, Mr. STAGGERS, Mrs. BOXER, Ms. OAKAR, Mrs. MORELLA, and Mrs. VUCANOVICH):

H.R. 4864. A bill to amend the Public Health Service Act to establish and coordinate research programs for osteoporosis and related bone disorders, and other purposes; to the Committee on Energy and Commerce.

By Ms. SNOWE (for herself, Mr. DONNELLY, Mr. DOWNEY, Mr. PAYNE of New Jersey, Mrs. SAIKI, Mrs. LLOYD, Mrs. SCHROEDER, Ms. LONG, Mr. RINALDO, Mrs. UNSOELD, Mr. STAGGERS, Mrs. BOXER, Ms. OAKAR, and Mrs. VUCANOVICH):

H.R. 4865. A bill to amend title XVIII of the Social Security Act to provide for coverage of bone mass measurements for certain individuals under part B of the Medicare Program; jointly, to the Committees on Ways and Means and Energy and Commerce.

By Mr. SOLOMON (for himself, Mr. MARKEY, Mr. ROSE, and Mr. SCHULZE):

H.R. 4866. A bill to deny the People's Republic of China most-favored-nation trade treatment; to the Committee on Ways and Means.

By Mr. STANGELAND (by request):

H.R. 4867. A bill entitled, "Water Resources Development Act of 1990"; jointly, to the Committees on Public Works and Transportation and Ways and Means.

By Mr. STARK (for himself, Mr. GREEN, Mr. GLICKMAN, and Mr. GRANT):

H.R. 4868. A bill to amend the Public Health Service Act to establish a Substance Abuse Treatment Corps; to the Committee on Energy and Commerce.

By Mr. TAYLOR (for himself, Mr. HARRIS, Mr. MONTGOMERY, Mr. BROWDER, Mr. PARKER, Mrs. LLOYD, Mr. HALL of Texas, Mr. JONES of Georgia, Mr. WATKINS, Mr. HAYES of Louisiana, Mr. HUCKABY, Mr. PICKETT, Mrs. BYRON, Mr. LANCASTER, Mr. RAY, Mr. GEREN, Mr. DYSON, Mr. STENHOLM, Mr. LAUGHLIN, Mr. PAYNE of Virginia, Mr. TAUZIN, Mrs. UNSOELD, Mrs. PATTERSON, and Mr. BENNETT):

H.R. 4869. A bill to amend chapter 11 of title 31, United States Code, to require that the budget submitted by the President be in balance; to the Committee on Govermnent Operations.

By Mr. WILSON:

H.R. 4870. A bill to amend the Internal Revenue Code of 1986 to make it easier for tax-exempt bonds to be issued to provide electric power facilities for rural areas; to the Committee on Ways and Means.

By Mrs. COLLINS (for herself, Mrs. MORELLA, Mr. WAXMAN, Mr. MOAKLEY, Mrs. BOXER, Ms. PELOSI, Mr. WYDEN, Mr. RINALDO, Mrs. VUCANOVICH, Ms. SLAUGHTER of New York, Mr. RICHARDSON, Mr. BILIRAKIS, Mrs. UNSOELD, Mrs. SAIKI, Mr. WALGREN, Mr. FAZIO, Mrs. BOGGS, Ms. MOLINARI, Mr. MYERS of Indiana, Mr. BOSCO, Mrs. BYRON, Mrs. BENTLEY, Mr. SCHULZE, Mr. MCGRATH, Ms. OAKAR, Mrs. MARTIN of Illinois, Mr. GALLO, and Mr. CHANDLER):

H.J. Res. 570. Joint resolution designating October 1990 as "National Breast Cancer Awareness Month"; to the Committee on Post Office and Civil Service.

By Ms. OAKAR (for herself, Mr. BLILEY, Mr. HARRIS, Mr. HORTON, Mrs. JOHNSON of Connecticut, Ms. KAPTUR, Mr. LAFALCE, Mr. LEHMAN of Florida, Mr. MCNULTY, and Mr. VALENTINE):

H.J. Res. 571. Joint resolution designating 1991 as the "Year of the Lifetime Reader"; to the Committee on Post Office and Civil Service.

By Mr. RICHARDSON:

H.J. Res. 572. Joint resolution to designate May 17, 1991, as "High School Reserve Officer Training Corps Recognition Day"; to the Committee on Post Office and Civil Service.

By Mrs. MORELLA:

H. Con. Res. 331. Concurrent resolution calling for the maximum participation by the Organization for Economic Cooperation and Development in assisting the transition of Eastern European countries to free market democracies; to the Committee on Foreign Affairs.

By Mr. DORGAN of North Dakota (for himself, Mr. HALL of Ohio, Mr. MRAZEK, Mrs. MORELLA, and Mr. LEACH of Iowa):

H. Res. 396. Resolution expressing the sense of the House of Representatives that the Peace Corps should develop a business persons volunteer program for Eastern Europe to assist emerging democracies there in business and agriculture; to the Committee on Foreign Affairs.

By Mr. SCHUETTE:

H. Res. 397. Resolution to recognize the independence of Lithuania; to the Committee on Foreign Affairs.

## MEMORIALS

Under clause 4 of rule XXII,

391. The SPEAKER presented a memorial of the Assembly of the State of California, relative to Amerasian refugee family reunification; to the Committee on the Judiciary.

## PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII.

Mr. JONES of North Carolina introduced a bill (H.R. 4871) to authorize coastwise documentation for the vessel *Rough Point;* to the Committee on Merchant Marine and Fisheries.

## ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 21: Mr. SERRANO.

H.R. 39: Mr. ROWLAND of Connecticut.

H.R. 66: Mr. SHARP.

H.R. 173: Mr. CRANE, Mrs. VUCANOVICH, Mrs. MARTIN of Illinois, Mr. CLARKE, Mr. HOUGHTON, Ms. PELOSI, and Mr. JONTZ.

H.R. 211: Mr. BROWDER.

H.R. 220: Mrs. BYRON, Mr. LAGOMARSINO, Mr. CROCKETT, Mr. VALENTINE, Mr. HORTON, Mrs. LLOYD, Mr. FOGLIETTA, and Mr. OWENS of Utah.

H.R. 222: Mr. LEHMAN of Florida.

H.R. 446: Mr. HUCKABY.

H.R. 467: Mr. GEPHARDT, Mr. SYNAR, and Mr. UDALL.

H.R. 796: Mr. PAYNE of Virginia, Mr. PERKINS, Mr. MRAZEK, and Mr. GOODLING.

H.R. 851: Mr. CAMPBELL of California.

H.R. 931: Mr. LEVINE of California.

H.R. 1636: Mr. CAMPBELL of California, Mr. DELAY, Mr. HILER, Mr. HYDE, Mr. BOEHLERT, Mr. BUECHNER, Mr. INHOFE, Mr. BARTLETT, Mr. HASTERT, Mr. PAXON, Mr. LIVINGSTON, Mr. LEWIS of Calfiornia, Mr. WALKER, and Mr. LENT.

H.R. 1899: Mrs. SCHROEDER, Mr. SCHEUER, Mr. PAYNE of New Jersey, and Mr. RANGEL.

H.R. 2025: Mr. FUSTER, Mr. SOLARZ, Mr. MANTON, and Mr. LANTOS.

H.R. 2168: Mr. OBERSTAR, Mr. PERKINS, and Mr. MARTINEZ.

H.R. 2174: Mr. HORTON, Mr. TOWNS, Mr. BLAZ, and Mr. MICHEL.

H.R. 2270: Mr. JAMES and Mr. MCNULTY.

H.R. 2353: Mr. PAYNE of Virginia.

H.R. 2380: Mr. HYDE.

H.R. 2418: Mr. HAMILTON and Mr. DURBIN.

H.R. 2437: Mrs. BENTLEY, Mr. GREEN, Mr. HOUGHTON, Mr. MCHUGH, Mr. JACOBS, Mr. MACHTLEY, and Mr. OWENS of New York.

H.R. 2584: Mr. KILDEE.

H.R. 2596: Mr. WILSON, Mr. WHEAT, and Mr. HORTON.

H.R. 2700: Mr. MORRISON of Washington.

H.R. 2852: Mr. SHAYS and Mr. MARKEY.

H.R. 2951: Mr. ROE and Mrs. SCHROEDER.

H.R. 2952: Mr. ROE and Mrs. SCHROEDER.

H.R. 3004: Mr. CLEMENT, Mr. MCCLOSKEY, and Mr. SCHEUER.

H.R. 3037: Mr. FAZIO.

H.R. 3098: Mr. TRAFICANT.

H.R. 3205: Mr. WOLPE.

H.R. 3243: Mr. JONES of Georgia and Mr. HARRIS.

H.R. 3280: Mr. KANJORSKI, Mr. CONDIT, Mr. FISH, Mr. CLEMENT, Mr. THOMAS of Wyoming, Mr. MILLER of Washington, Ms. OAKAR, and Mrs. SCHROEDER.

H.R. 3500: Mr. CLARKE.

H.R. 3651: Mr. FLIPPO.

H.R. 3732: Mr. DICKINSON, Mr. HOLLOWAY, Mr. BRENNAN, Mr. STENHOLM, Mr. DUNCAN, Mr. HAMMERSCHMIDT, Mr. OLIN, and Mr. SKEEN.

H.R. 3733: Mr. THOMAS A. LUKEN, Mr. COLEMAN of Texas, Mr. MARTINEZ, Mr. DYMALLY, Mr, OBERSTAR, Mr. BORSKI, Mr. MCNULTY, Mr. WEISS, Mr. DORGAN of North Dakota, and Mr. KOLTER.

# SENATE—*Thursday, May 17, 1990*

*(Legislative day of Wednesday, April 18, 1990)*

The Senate met at 9:31 a.m. on the expiration of the recess, and was called to order by the Honorable ALAN CRANSTON, a Senator from the State of California.

## PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

*Blessed are they which do hunger and thirst after righteousness: for they shall be filled.*—Matthew 5:6.

Eternal God, giver of "life and breath and all things", we ask Thy special blessing upon DANIEL AKAKA and his loved ones as he comes to sit at the desk occupied by our beloved Spark Matsunaga. Thank Thee for the heritage he brings to the Senate, reflected in the motto of his State: "The life of the land is perpetuated in righteousness." Our hearts warm within us when we hear the words of Prime Minister Kalanimoku of Old Hawaii who said: "My desire is that we love God who has given us the Word of Life. Let us keep His commandments and turn to do right. * * * Let us be mindful of the good words of Jesus. * * * I want all the people to obey God * * * from Hawaii to Kauai. Let us faithfully keep the laws of God. These are the laws of benefit to all nations."

God help us all to be faithful to such a glorious legacy. In the name of Him who is our righteousness. Amen.

## APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER (Mr. HARKIN). The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
*Washington, DC, May 17, 1990.*

*To the Senate:*

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM HARKIN, a Senator from the State of Iowa, to perform the duties of the Chair.

ROBERT C. BYRD,
*President pro tempore.*

Mr. HARKIN thereupon assumed the chair as Acting President pro tempore.

## RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The acting majority leader is recognized.

## THE JOURNAL

Mr. CRANSTON. Mr. President, I ask unanimous consent that the Journal of the proceedings be approved to date.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

## SCHEDULE

Mr. CRANSTON. Mr. President, following the time for the two leaders this morning, there will be a period for morning business not to extend beyond 10 a.m., with Senators permitted to speak therein for up to 5 minutes each.

At 10 o'clock this morning, the Senate will resume consideration of S. 195, the chemical and biological weapons bill. Consideration of this bill could extend into this evening with the possibility of rollcall votes occurring this evening.

Mr. President, yesterday, the majority leader indicated on the floor that during Friday's session, it is his intention that there be debate only on the subject of campaign finance reform. I have been asked to point out, however, that even though the campaign finance issue will be discussed Friday, there is still the possibility that rollcall votes are possible with regard to the chemical weapons bill.

## RESERVATION OF LEADER TIME

Mr. CRANSTON. Mr. President, I reserve the remainder of the majority leader's time and the time allocated to the Republican leader.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

## MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will be a period for the transaction of morning business not to extend beyond the hour of 10 a.m., with Senators permitted to speak therein for up to 5 minutes each.

Mr. CRANSTON. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CRANSTON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

## RECESS UNTIL 10 A.M.

Mr. CRANSTON. Mr. President, I move that the Senate recess until 10 a.m.

The motion was agreed to, and at 9:38 a.m., the Senate recessed until 10 a.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer [Mr. KOHL].

Mr. WALLOP. Mr. President, I ask unanimous consent that I might proceed as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PRESIDENT LEE TENG-HUI'S INAUGURATION

Mr. WALLOP. Mr. President, I rise today to pay respect and honor President Lee Teng-Hui of the Republic of China on Taiwan. On May 20, the Chinese people on Taiwan will be celebrating Mr. Lee's inauguration as the eighth President of the Republic. While world attention has been focused on mainland China's violent suppression of its prodemocracy movement, across the Taiwan strait, Taipei has been transforming itself step by step into a Chinese example of democracy.

Let me take a moment of the Senate's time to commend the good work of Taiwan's leadership and to comment on the importance of the United States-Republic of China relationship to their progress. The Republic of China's expansion of democratization began on December 6, 1986, when the 12 million voting-age citizens of the Republic of China for the first time in the history of Nationalist Chinese rule of the island were allowed to cast ballots for an organized political opposition, the Democratic Progressive Party [DPP]. The process continued on July 15, 1987, when the 1949-imposed martial law was lifted, and again last December 2 when, in an island-wide legislative and local elections, the opposition DPP won 35 percent of the vote. As the Wall Street Journal then commented, "Taiwan has flourished—at

first economically and now, increasingly, as a democracy."

The Republic of China's economic miracle is now well-known; the United States have played a key role in their economic and political development. There are deep personal ties between our two countries—many of the Republic of China's leaders study in the United States, as do over 30,000 Republic of China university students today. Moreover, America is the Republic of China's largest trading partner, largest export market, and its second largest import supplier after Japan. Among Taiwan's principal American imports are agricultural products, electronics, and machinery. Finally, the 1979 Taiwan Relations Act [TRA] commits Washington to assist Taipei in maintaining its defense against possible threats from mainland China.

Although the United States-Republic of China relationship is not without problems—the difficulty of balancing America's relations with Taipei and Beijing and the Republic of China's current trade surplus with the United States—these difficulties do not diminish the very positive aspects of a continued strong and healthy bond of friendship between the United States and the Republic of China.

In the Republic of China's progress toward becoming a fully functioning democracy, President Lee's inauguration becomes another important marker. In many ways, the late President Chiang Ching-Kuo's backing of Mr. Lee further signifies the Republic of China's democratic transition. Taiwanization of the ruling Kuomintang's highest reaches was both good politics and a reflection of the irreversible and undeniable trends in Taiwan. President Lee will become the country's first President born in Taiwan.

President Lee has the overwhelming support of the people of the Republic of China. He received 96 percent of the votes from the members of the National Assembly, the Republic of China's electoral college. An independent island-wide poll immediately following the election revealed that 90 percent of the respondents would have voted the same way as their electors.

Mr. Lee's contribution to Taiwan's economic blossoming is significant. President Lee received his Ph.D. in agricultural economics from Cornell University in 1968. Throughout the sixties and seventies, in various capacities at the United States-Republic of China Joint Commission on Rural Commission, he contributed a great deal to the Republic of China's agricultural development—paving the way for Taiwan's economic success. In the late seventies and early eighties, as a mayor of Taipei and later Governor of Taiwan Province, he was responsible for the construction of highways and reservoirs, oversaw the modernization of sewage disposal, initiated agricultural reforms and improved greatly the livelihood of farmers. Mr. Lee was elected Vice President in 1984.

In the last 2 years, President Lee has proven to be a dynamic leader and political reformer. He has carried on President Chiang's democratic reforms by rejuvenating the legislature and urging a more flexible approach in dealing with political and diplomatic challenges. Flexible diplomacy—the willingness of Taipei to accept a nation's recognition of both it and Beijing—is great progress. I might add that in this morning's paper it was reported that President Lee said he would open talks on a nation-to-nation basis with Beijing. It facilitates America's task of balancing our relationship with Taipei and Beijing; and President Lee can take much of the credit. He has promoted actively an international role for his country and has facilitated travel to mainland China—trade between the Republic of China and South China, the most reform-minded and market-oriented provinces on the mainland, has expanded steadily and is estimated to exceed $3 billion annually. Under Mr. Lee's influence of the past few years, the leadership has permitted the formation of new political parties, freed the press, relaxed foreign exchange controls, allowed strikes and the formation of unions, and lifted the ban on its citizens' travel to mainland China.

I myself was privileged to have been received by President Lee during my most recent visit to Taiwan. President Lee, a modest and caring man, eloquently expressed his visions for the relationship between his country and the United States. Under his leadership, I am confident that Taiwan will continue to move forward in democracy, and continue to be influenced by a successful, market-based economy.

The Chinese people on Taiwan are most fortunate to have Mr. Lee as their President for the next 6 years. With the support of his people, I am confident that President Lee will lead his country toward even greater economic prosperity and full constitutional democracy.

In honor of President Lee's inauguration on May 20, I wish to acknowledge the hard work and the open-mindedness that has characterized his career. I also wish to assure him that the relationship between our two countries is healthy and strong and that his government is well-represented by Minister Ding Mou-Shih. I also wish to join President Lee's many friends in the U.S. Congress in wishing him and his people the best of luck and good fortune in the years ahead.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PUYALLUP LAND SETTLEMENT

Mr. ADAMS. Mr. President, just over a week ago, members of the Puyallup Indian Tribe in Tacoma, WA, received their individual payments of $20,000 as part of the tribe's $162 million land-claim settlement with Federal, State, and local governments and with the private sector. For the 1,600 members of the Puyallup Tribe, this historic settlement brings to an end 6 years of often frustrating negotiations, many years of litigation, and nearly a century of land disputes with their neighbors.

This settlement represents the largest settlement ever negotiated with an individual Indian tribe, and is exceeded only by the Alaska Native Claims Settlement Act of 1971. But much more was achieved than just the magnitude and scope of this settlement. In clearing up complicated disputess that have clouded title to hundreds of acres of land along the Puyallup River, the Puyallup Tribe has demonstrated its desire to be an equity partner in the future growth and prosperity of Pierce County and the entire region.

Mr. President, the Puyallup Tribe of Indians Settlement Act of 1989 was the work of many individuals, governments, and other parties. But the catalyst for what has been described as a national model for future negotiations of this type was one man. I know I speak for all citizens of my State when I say that we will never forget the dedication, the leadership, and the unparalleled determination exhibited by the distinguished chairman of the Senate Select Committee on Indian Affairs, my friend the senior Senator from Hawaii, Senator DANIEL INOUYE.

Over the last several years Chairman INOUYE made over a dozen trips to the State of Washington to meet with the parties, to encourage them to keep negotiations alive, and ultimately to come to the table for a final agreement.

These were exceptionally difficult negotiations for both sides. For instance, the Puyallup Tribe had not been involved in such an important and historic undertaking since the signing of the Treaty of Medicine Creek in 1854. This agreement was made not just for the present members of the tribe, but for all future generations. To achieve the level of trust needed to reach such an agreement, in light of many years of mistrust and sometimes outright hostility, was a major step for the Puyallup

Indian Tribe. There were times during the course of these lengthy negotiations when settlement appeared to elude the parties, in spite of their best efforts.

Each time it appeared that these discussions seemed headed back to court for expensive and bitter litigation, Chairman INOUYE would step forward, patiently listen to all sides, and gently but firmly guide the parties back to the negotiating table.

Mr. President, the Pacific Northwest has seen far too many disputes over the years between Federal treaty tribes and local government and non-Indian citizens. Almost a century of court decisions, including numerous U.S. Supreme Court decisions—some of which involved the Puyallup Indian Tribe—has not contributed to a climate of mutual respect and cooperation. It took the leadership of a dedicated U.S. Senator, who earned the respect and admiration of our entire State, to bring this historic agreement to fruition. Our gratitude to Senator DAN INOUYE can never be fully expressed in words, but will remain a part of this important event in the history of the State of Washington.

## TERRY ANDERSON

Mr. MOYNIHAN. Mr. President, I rise to inform my colleagues that today marks the 1,888th day that Terry Anderson has been held in captivity in Beirut.

I ask unanimous consent that a recent article from the Rochester-Times Union concerning Terry Anderson's condition in captivity be printed at this point in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

ANDERSON NOT BEATEN, REED SAYS

[From the Rochester Times-Union, May 8, 1990]

WASHINGTON.—Terry Anderson, the longest held of the 16 Western hostages, helped fellow prisoners make Scrabble and Monopoly games to amuse themselves, according to newly freed captive Frank Reed.

His guards are giving him and other hostages plenty of diversions, according to an account given by Reed to Anderson's sister, Peggy Say.

"They have a lot of things which was encouraging to me; at least they did at the time Frank was there," Say said. These included boxes of books, writing materials and dominoes.

Although Anderson, 42, is in good physical condition from plenty of exercise, he is tired and needs dental care, Say said. She said the hostages are blindfolded and chained in line with their preference.

"Frank preferred a chain on his wrist," she said. "Terry preferred a chain on his ankle so that his arms are free to write and play cards."

Unlike Reed, who said he was brutally beaten by his kidnappers for trying to escape, Anderson was left alone. Say said Reed told her Anderson was not beaten.

The closest she and Reed were able to calculate that he last saw Anderson was somewhere between a year and 18 months ago. Reed spent 20 months with Anderson and Thomas Sutherland in Lebanon. For a period of time, the three American hostages were together with two others, John McCarthy and Brian Keenan.

Reed, the director of the private Lebanon International School, was freed April 30 after being held for 44 months. He is undergoing medical checkups at Andrews Air Force Base in suburban Maryland and met with Say last night.

Anderson, formerly of Batavia, is the chief Middle East correspondent for The Associated Press and is in his sixth year of captivity. Sutherland was a dean at the American University of Beirut. McCarthy is a British television journalist. Keenan, who is Irish, taught English at American University.

"He is still a vindictive hearts player," Say said of her brother. Reed told her Anderson reads a book a day.

Reed said Anderson could pick up some things in Arabic from the radio and have at least some idea of what he thought was going on in the world. But his guards have made a concerted effort to keep from him news of the deaths of his father and brother, both from cancer, in 1986. Say believes that he still does not know.

"That's very difficult," she said. "Part of you wants him to have known and dealt with it and part of you believes it might be too much for him if he found out in captivity."

But with his mind sharp, he thinks of new birthdays that were not celebrated for the two daughters he cares for so deeply.

He is wracked with anguish at missing more than five years with them, unable to savor the passage of Gabrielle from child to young woman. In Anderson's sixth year of captivity, Gabrielle turned 14 on April 26.

## COL. WILLIAM HIGGINS

Mr. WARNER. Mr. President, recently we witnessed the release of two American hostages from Lebanon. We are all heartened by this and hope that it leads to the rapid return of the remaining hostages.

Today, I would like to bring to your attention the continuing case of Col. William Higgins, a brave marine officer taken hostage while serving with the United Nations peacekeeping force in Lebanon. His captors have alleged that he was executed, a fact we have been unable to confirm.

As the United States continues to press for the release of all remaining hostages, we must never forget Colonel Higgins. Reports of his execution should not reduce our drive for his return. As an American who devoted his life to his country, Colonel Higgins and his family deserve nothing less than our Nation's total support and understanding. All evidence on this case must be given to the United States of America.

We must never give up hope and shall continue to keep our vigil.

## MRS. HARRIMAN'S SPEECH ON THE SOVIET UNION

Mr. PELL. Mr. President, I would like to draw the attention of my colleagues to the extremely thoughtful and perceptive speech given by Mrs. Averell Harriman on May 16 following her recent trip to the Soviet Union.

In this speech, she describes the immense problems facing the Soviet Union and its leadership, particularly the economy and the nationalities. It is not an optimistic report, but it is realistic, and it describes with great personal immediacy some of the significant changes sweeping the Soviet Union as well as the strengths and weaknesses of its leaders.

At the end, she concludes with a message of hope—and it is a message with which I fully concur. This message is that the changes in the Soviet Union offer America an unparalleled opportunity in history to promote freedom and a safer, more secure existence for humanity. In this momentous time in history, as she so rightly states, "America is too great a nation to stand idly by."

Few Americans have known and followed events in the Soviet Union as well as its leadership so closely over as many years as has Pamela Harriman. Her breadth of experience and her personal knowledge make this report of value to all Americans.

Mr. President, I ask unanimous consent that the full text of Mrs. Harriman's speech be printed at this point in the RECORD.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

REMARKS OF PAMELA C. HARRIMAN, WOMAN'S NATIONAL DEMOCRATIC CLUB, WASHINGTON, DC, MAY 16, 1990

First, let me thank Dick Gephardt for that generous introduction. Everything I have seen on the trip I have just taken confirms the foresight and wisdom of the Majority Leader's speech of two months ago.

He represents a new generation of leadership for our Party, a new source of hope for our ideals, a new source of possibility about our prospects.

Tonight, I would like to give you a report on my recent trip to the Soviet Union. This may seem like an easy thing to do, but I can assure you it is not. For the Soviet Union, long the most certain of nations, is today a vast kaleidoscope of uncertainty.

We were in the Soviet Union for almost two weeks, primarily in Moscow and in the Republic of Georgia. With me were Robert Legvold, the Director of the Harriman Institute for Advanced Study of the Soviet Union at Columbia University, Ed Hewett and Judith Kipper of the Brookings Institution, Colette Shulman, and Strobe Talbot of *Time* magazine.

We met with some of President Gorbachev's top advisors; we met with foreign observers; we met with local officials, academicians and Institute members; we met with young Russian leaders; we met with average Soviet citizens; and I met with Raisa Gorbachev for more than two hours.

It is one thing to read in newspapers and journals of the recent changes in the Soviet Union. But not even the dramatic TV images we have all seen can begin to prepare one for the actual experience of the change sweeping the country. And the shock is even greater if one has known old Soviet Union, which I have followed closely since the Second World War. My last visit was with Averell in 1983 when we met with President Andropov. The contrast is immense.

We arrived in Moscow in time for the May Day parade in Red Square. The scene was amazing. There were many speeches from the podium, one from a woman who works in the famous Moscow textile factory. I particularly remember two of her phrases. The first: "In a proper society nothing should be easier than feeding our children." The second: "If you can do what needs to be done, then do it; if not, then step out of the way." Then she repeated the word "solidarity." And she was standing three feet from President Gorbachev!

Another speaker, a young union organizer, said: "Never again a Tianamen Square, particularly not on this square."

And in the parade, the lines and lines of workers with banners and slogans, many homemade, passed before our eyes for what seemed like over an hour. The slogans said such things as "Gorbachev is President of the Kremlin not the country"—"Seventy-five years on the road to nowhere"—"Marxism-Leninism on the garbage heap of history." It was a sight surely never seen in Red Square before, and it was a vivid lesson for the assembled Soviet leadership as well as for us—of just how volatile the situation is today in the Soviet Union.

To put it in the clearest terms, that nation is in the midst of a second Russian Revolution.

Let me focus on the two most obvious and most critical problems of that revolution—the economy and the nationalities.

For the Soviet economy, the good news is that the leadership now accepts the fact that a market economy is the only way out. This is a major step forward from even a year ago when President Gorbachev seemed to be doing everything he could to avoid that simple truth.

The bad news is that a combination of political fear and ignorance about how markets really work permits Soviet leaders to think that they can adopt measures outlining a market economy—and then slowly introduce them without the same sort of shock to the people as in Poland. Or, as told to us by Yevegeny Primakov, a top advisor to Gorbachev and member of the new Presidential Council, in somewhat different words: "We know we have to jump out of the window, but from which floor?"

They fail to understand that markets by definition are shock therapy when first introduced. Markets force people to discover and to exploit potentials unknown even to themselves.

The reason for this caution is that the leadership appears to be genuinely frightened by a volatile situation which they can manage only with great care. In essence, they are acutely aware that they have no legitimacy from the ballot box, so they feel compelled to buy off popular opinion by assuring that the public won't be hurt by economic reform.

Yet the truth is that economic pain for many will be impossible to avoid. And moving slowly will make things worse from almost every point of view. Socially, it will heighten anxiety about what the future will bring, such as inflation and unemployment. Economically, it permits enterprises to postpone hard decisions, continue inefficient operations, and it suspends the entire economy in a state of confusion over its future. The result can only lead the economy further downhill at a pace certain to be accelerated by strikes and social unrest, probably this summer.

There may still be time for a way out, via a combination of speedy creation of a free market and protection for the poor and the unemployed.

But I am not optimistic that such a course will be adopted in time. And if it is not, then the coming years could be very fragile indeed.

The second obvious and critical problem facing the Soviet Union is the union itself—in other words, the political and economic future of the nationalities.

During our visit, we took a fascinating trip to Tbilisi in Georgia. In Tbilisi, there are already 12 or more political parties. Georgians told us over and over again that the economy was getting worse, that drastic steps were needed to privatize and to create a free market economy; that the old political and economic structures are in irreparable decay; that Soviet military forces are viewed as an occupation force; that they would like to negotiate directly with the west, but have no mechanism to do so. They wished we had a consulate office in Tbilisi.

We visited three of the leaders of the new political groups in Georgia. One of the most powerful of them is Zviad Gamsukhurdia. Sometimes known as the Sakarov of Georgia, he is the son of one of Georgia's most renowned writers and a distinguished literary critic himself. We visited him in his elegant house. He was very gracious and showed us around his magnificent library filled with memorabilia. A good looking, distinguished, but rather sad man, he has been jailed five times since 1956, one time for as long as seven years, the last time as recently as April last year. He sees no scenario of compromise in the future—only total independence for Georgia. He talks of peaceful civil disobedience, but I wonder how they can accomplish their ultimate purpose without provoking bloodshed. As we left his house, they had to restrain his fierce guard dogs before we could leave.

Back in Moscow, Soviet reformers and the elites alike are thinking and speculating about options and scenarios for the nationalities problem. We heard several. One hardheaded, and I think possible, scenario foresees that in a few years' time the Baltics and one or two other republics will have seceded. Georgia, Azerbaijan, and Moldavia are good candidates. This same scenario also predicts that the Ukraine and Belorussia will be, if not independent, then largely autonomous. Another scenario, this one articulated by a very senior official, sees a future confederation, genuinely so, not merely in words.

Yet no one should underestimate the depth and complexity of the problem. Economically, it makes the breakup of a marriage seem the essence of simplicity. Politically and emotionally, the problems are amplified. For example, how many people here tonight realize that 40 percent of all the inhabitants of Latvia and 33 percent of those of Estonia are Russians? Are they to be herded back to Russia if independence comes? Can they be integrated into these new entities? And if old ethnic antagonisms burst to the surface in violence who will protect this minority—and what would be the complications for world peace if the Soviets felt compelled and justified to intervene to protect Russians against genuine persecution?

And we have all seen the savagery and deep-seated, often centuries-old, hatreds, as in Azerbaijan last winter. I can assure you these same animosities are bubbling scarcely beneath the surface in Soviet Georgia, with some violence already occurring between various groups. In many areas of the Soviet Union, such conflicts may come soon after the lid of Soviet control is lifted. And they may even burst forth despite every effort to stop them.

With such an array of problems in the nationalities, the last thing America should do is meddle, or worse, stir up false expectations which we are not, in truth, prepared to act upon.

Let me give one small example of how routine political actions here expanded in significance when seen from within the Soviet Union. Recently, Senator Helms sponsored Senate Resolution 110, which endorsed Georgian claims that they were railroaded into the USSR in 1922 and deserve independence. Here in Washington, we know what such resolutions really mean and what they do not. Georgian nationalist leaders, by contrast, believe that this resolution actually had real political significance—that it was a reason for them to press their case sooner and harder. Their misunderstanding could lead to tragic miscalculation on their part—a miscalculation that no American politician would be willing to set right with American blood. Politics for these people is not a game. It is deadly serious and should be deadly serious to us as well.

We must give Gorbachev time. This is one issue that the Soviets have to handle on their own terms. I say this not only for the sake of broader U.S./Soviet relations but for the sake of the nationalities as well. I believe they can achieve vast new freedoms, and even independence if they combine persistence with patience. Above all our role should be to keep both sides talking, to encourage economic development and stability, as Dick Gephardt has so eloquently stated, and not to let either side get backed into positions from which neither can withdraw.

For those who want to draw lines in the sand, for whom slogans mean more than results, that will not be the right solution. For me, however, and for those who want freedom, it is the only solution.

Finally, let me share my own sense of Soviet trends and culture. First, the Soviet leadership. Perhaps the leadership is confident that it knows what the traffic will bear, that it is slowly coming to understand economic reform and how to achieve it in proper sequence. But I am more inclined, after our conversations, to believe that they are simply tyring to keep their boat right side up in heavy seas and, with luck, headed toward safer waters.

My guess is that in the coming years, we will see an apparently contradictory picture. On the one hand, we will see signs that Gorbachev and his allies will seek to revamp the economy, negotiate a different relationship with the Republics, and live with a genuinely pluralistic political order. But, at the same time, I think the leadership will show more of an iron fist in dealing with every challenge to order and will keep the brakes on any surge of spontaneous, political protest. There is still plenty of power behind this iron fist. Make no mistake, even today,

after five years of perestroika, NYET! still pervades Soviet everyday life.

To be sure, this is, at best, a strategy for coping and not one for dealing with a very real crisis. The result is that the leadership, I believe, will be forced before long to move more decisively—with the outcome very difficult to predict.

In view of all that he has changed, one of the most depressing observations I picked up on my trip was how little credit President Gorbachev gets for what he has done under the banners of glasnost and democratization. While some, such as a young Moscow City Council member we met did say "everything good we have gotten in the last five years has come from Gorbachev," people now take these gains for granted—or, as Raisa Gorbachev told me: "Their expectations have risen." Worse still, Gorbachev is blamed for having allowed all kinds of suspect elements—anarchy, greed, old nationalisms—to march under the same banners that have brought so much hope.

Despite this, there is no clear leadership alternative. And, interestingly, we heard on many occasions even critics of Gorbachev say, "At the end of the day, he is still most people's second choice!" (They have no first choice.)

Another observation, and not an encouraging one, is how pervasively 73 years of Communism have washed away any sense of individual inititative. In Eastern Europe, and China, there are those who can still remember a different system; in the Soviet Union, virtually none. Instead of competing, showing initiative or seeking responsibility, the all-too-common reaction is envy and furty at those who get ahead. In dining one evening at the home of a senior member of one of the institutes, he told me, after he had had several vodkas, that a colleague had recently left the institute to run a cooperative and was now making four times his institute salary. This, my host said, was very unfair and should not be allowed. It was a depressing revelation from someone who should have known better.

Tonight, I have not painted a rosy picture. But in no way do I want to leave the impression that all is without hope. My trip is like a snapshot in time, not a movie that adds perspective. It is easy for ourselves, too, even as foreign observers, to become victims of the "resolution of rising expectations." To do so is wrong. To do so is to forget the aged leadership and still repressive society I saw on my last visit in 1983. To do so is to forget that just a few short years ago dissidents were still sent to labor camps and mental hospitals. To do so is to forget how recently the nuclear arms race was running at full speed with no clear end in sight. To do so is to forget the enormous explosion of peace and freedom in the last year—even a fraction of which should by right earn men and nations a lasting place in history. But, above all, to do so would be to imprison in caution our own leadership—and to block the positive role America itself can play.

We owe a great debt of gratitude to Gorbachev. We should make no mistake about it: It is in the clear interest of the United States to see the continuation of Soviet reforms rather than their collapse. For the first time since the end of World War II, it is truly possible for vital U.S. and Soviet objectives to be in concert. We also owe a great debt to citizens all over the former Soviet bloc. Seeking freedom for themselves, they have given new freedom to us as well—the freedom of peace, the freedom to assist in their future, the freedom to make our nation a better nation here at home.

The Soviet Union is now a very uncertain place. But if I can leave you, all tonight with one thought, it is that of opportunity—and the privilege of opportunity history has given us. Generations fought and died for this opportunity. Whether it is ensuring and not just talking about new arms agreements, whether it is active economic assistance, we should encourage this opportunity and build on it. Yes, we should even sacrifice for it and what it can bring. America is too great a nation to stand idly by.

Let us help to turn the second Russian Revolution in the direction of liberty and justice and a more peaceful world.

## EARTH DAY 1990 CONTEST

Mr. COHEN. Mr. President, I am pleased to submit into the RECORD the winning entries of a contest which I sponsored for Maine schoolchildren in grades K-8. The purpose of the contest was to enhance environmental awareness as the Nation prepared to commemorate the 20th anniversary of Earth Day.

The essays and poems which are printed here represent the best of over 4,000 entries submitted by students from 200 schools throughout the State of Maine. The entries were reviewed by an independent panel of judges, who felt that these works best symbolized the importance of the environment and the concerns that our youth have for their future.

The winners of my Earth Day contest have demonstrated a good understanding of the need to bring healthy habits to our use of the Earth's resources. They want to ensure a healthy planet for themselves, their friends, and for the future. The children present a range of messages, from the importance of treating pollution as a global problem to starting in our own homes with recycling.

I think you will be pleasantly surprised by the levels of ingenuity and innovation which the students used to express themselves. These poems and essays will remind all of us of the keen insight possessed by our youth in areas too often labeled as adult issues. I am proud of our Maine children, and I am glad to have this opportunity to share some of their talent with others.

There being no objection, the list of winners was ordered to be printed in the RECORD, as follows:

POEMS, GRADES K-2

1st Place: Jessica Reuter, Hartford-Sumner Elementary School, Buckfield, Maine.

2nd Place: Shannon Knox, Katelyn Matychowiak, and Alysha Wagner, Young School, Saco, Maine.

3rd Place: Sarah Sprague, Abraham Lincoln School, Bangor, Maine.

Honorable Mention: Jessica Martin and Robert Fitzcharles, Bridgton Elementary School, Bridgton, Maine.

POEMS, GRADES 3-5

1st Place: John Brochu, Home Schooled, Jefferson, Maine.

2nd Place: Kati Toher and Brita Wanger, Rumford Elementary, Rumford, Maine.

3rd Place: Abby Chandler, Belgrade Central School, Belgrade, Maine.

Honorable Mention: Rachael Dunton, Etna-Dixmont School, Etna, Maine.

POEMS, GRADES 6-8

1st Place: Rebecca Hardman, Nobleboro Central School, Nobleboro, Maine.

2nd Place: Juliana Spier, Gardiner Regional Junior High School, Gardiner, Maine.

3rd Place: Adam Collemer, Wiscasset Middle School, Wiscasset, Maine.

Honorable Mention: Bethany diRobbio, Yarmouth Intermediate School, Yarmouth, Maine.

ESSAYS, GRADES K-2

1st Place: Elizabeth Roberts Johnson, Bridgton Elementary School, Bridgeton, Maine.

2nd Place: Kristy Decesere, Abraham Lincoln School, Bangor, Maine.

3rd Place: Dawn Douglas, Abraham Lincoln School, Bangor, Maine.

Honorable Mention: Ian Michael Downs, Jordan Acres School, Brunswick, Maine.

ESSAYS, GRADES 3-5

1st Place: Angela Elizabeth Bourne, George B. Weatherbee School, Hampden, Maine.

2nd Place: Michelle April Michaud, George B. Weatherbee School, Hampden, Maine.

3rd Place: David Michaud, Winthrop Grade School, Winthrop, Maine.

Honorable Mention: Marja Murawski, Congin School, Westbrook, Maine.

ESSAYS, GRADES 6-8

1st Place: Marc Rodrigue, Maranacook Community School, Readfield, Maine.

2nd Place: Rowena Alley, Skyway Middle School, Presque Isle, Maine.

3rd Place: Emily Record, Maranacook Community School, Readfield, Maine.

Honorable Mention: Sandra Pomerantz and Rebecca Coburn, Great Falls Intermediate School, Auburn, Maine.

POEMS/CLASS ENTRY/K-2

1st Place: Transitional/First Grade, Wilton Primary School, Wilton, Maine.

2nd Place: Miss Grass' Grade Two, Benton Elementary School, Waterville, Maine.

3rd Place: First Grade of Lamoine School, Lamoine Consolidated School, Lamoine, Maine.

Honorable Mention: Mrs. Shorey's Grade 1 Class, Abraham Lincoln School, Bangor, Maine.

POEMS/CLASS ENTRY/GRADES 3-5

1st Place: Mrs Jones' Grade 4 Class, Friendship Village School, Friendship, Maine.

2nd Place: Lisa Hogan's Grade 4 Class, West Harpswell Elementary School, South Harpswell, Maine.

MY WONDERFUL WORLD

(By Jessica Reuter)

Earth,
My wonderful world,
Full of many great friends,
Humpback whales and my pet cat.
Raccoons, bears, and monkeys are mine.
Even prickly friends are nice,
Porcupines and scorpions.
My wonderful world,
Earth.

RECYCLING

(By Shannon Knox, Katelyn Matychowiak, and Alysha Wagner)

Recycling is the thing we must do
To keep our big sky so blue.

Paper bags instead of plastic
Will do the trick just like magic.

Soda cans hold what we like to drink;
Crush them and flatten them, quick as a wink!

Bring all your stuff to the store
And help fight the recycling war!

---

DINOSAUR POEM

(By Sarah Sprague)

Here and there and everywhere,
Dinosaurs on the loose, beware.
Dancing about, clumsy and big,
Round and about, doing the jig.

Dinosaurs like to joke and play,
They go about on their merry way.
Running and jumping and having fun,
Playing around in the noonday sun.

Although dinosaurs are here no more,
We find as we walk along the shore.
The bones in rocks that make a fossil,
The evidence we find—so colossil!

---

OUR ENVIRONMENT

(By Jessica Martin and Robby Fitzcharles)

Our environment needs care
Everyone must do their share.
Is there a way to throw it away
If there is no place that is away.
Fix your broken toys, don't make as much noise.
Littering makes a mess
Which isn't best.
Everything and everyone
Can and should join the fun.
Recycle all that you can
There are very few things that you can't recycle
You can recycle bicycles and many other things.

---

MOTHER EARTH

(By John Brochu)

Mother Earth, do not despair
We're really trying to improve the air.
We are really trying to be a part
Of all the things close to our heart.
Despite the oil spills that cause us pain;
Despite the horrible acid rain;
Despite the ozone claim to shame;
Despite everyone we try to blame;
There are many who feel we must
Keep a world we all can trust.
So cheer up folks and dry your tears,
We'll save the Earth for future years.

---

SAVE THE EARTH!

(Written and illustrated by Kati Toher and Brita Wanger)

Save the Earth,
For it is worth,
Everything,
With the joy it brings.
Keep it clean,
Be a team,
Lend a hand,
And save the land,
Keep it turning,
Never burning.
Save the sky,
For those that fly,
Save the ocean,
From pollution,
Save the streams,
By all means,
Save the water,
For the otter.
Save the Earth,
For it is worth,
Everything,
With the joy it brings.

---

Water and land are just a few;
Of the everyday things that effect me and you.

The sun in the sky, a woodsy smell;
They let me know that some things are still well.

Like climbing a tree on a warm, breezy day,
It gives me a feeling that words can't explain.

Like smelling wildflowers beside a stream,
It makes me so happy like a good dream.

I like these feelings, I hope you do too;
Saving the environment is up to me and you!

*—Abby Chandler.*

---

OUR WORLD

(By Rachael Dunton)

The earth is our home
We must remember we are not here alone.
We share our world with all living things.
It would be a quiet world without the bird that sings.
It's time for us to stand up and be aware,
Of all the poisons that pollute our air.
It's not too late to clean our space,
So let's get started and save the human race.

---

CHANGE OR LET HER DIE

(By Rebecca Hardman)

What does anybody think
who lives upon earth's ground?
Is she just some sturdy land
with oceans sprinkled 'round?

She is the life supporting us,
the time that makes our year,
the third and greatest from the sun,
the force that brought us here.

Reading in the textbooks now
she seems so far away.
Kinda weird to have to think
we live here every day.

Her time goes back way to the first,
(several billion years).
We are but a blink in her life,
but with us death appears.

Billions of miracles at work
to keep the chain alive.
It's only we who make the choice to change or let her die.

---

WHEN THE WORLD WAS YOUNG

(By Juliana Spier)

When the world was young,
God looked down and said, "I have done well"
The mountains, the trees,
Even the breeze had their own story to tell.

When Jesus was young,
He thought everything was sacred and of worth
Things were still beautiful then
And nature was always giving new birth.

When the settlers were young,
This land was vast, mysterious and wild
It was beautiful and serene,
Like the imagination of a small child.

When the 1900's were young,
People shouted progress when factories appeared
But soon after that
Pollution's ugly head reared.

The decades passed by,
The air became quite foul.
Nothing was safe
From small sparrow to owl.

Litter grew dense
All the waterways got filled.
Seafaring animals
Got diseased and then killed.

And now you see
Pollution hurts everyone.
Why can't it be like
When the world was young.

---

IS HE OKAY?

(By Adam Collemer)

Mars and Saturn did converse
About their fellow friend, the earth.

"I fear," says Mars, showing much pain,
That earth is going down the drain."

"The people don't seem to realize
Their doom is right before their eyes."

"They're throwing garbage in the drink
and make the wildlife extinct."

"The rain forests are falling fast
and coal does not have long to last."

"I think," says Mars, "without a doubt,
They'll perish when their fuel runs out."

"But Mars," said Saturn in dismay,
"What about this new Earth Day?"

Said Mars, "The ozone layer's thin,
They'll get cancer on their skin."

"Sewege in their giant bay,
is driving all the fish away."

Saturn cut in: "That was then,
The won't make those goofs again."

"Recycling is a new plan
to get their garbage off their land."

"And if they're weaned from fossil fuels
You could not say they were such fools."

"Said Mars, "Earth did tell me a few
Good things the humans plan to do."

"Getting power from the sun
is what he said human have done."

"They've written new laws, and they say
That species can't be blown away."

"Some write books and songs and plays
To show them what's wrong with their ways."

The two were interrupted then
By an asteroid named Ben.

---

THE WHALE

(By Bethany DiRobbio)

I was free, free in the ocean,
Swimming and singing my song,
Not a care in the world free falling,
Nothing but nothing could be wrong.

One day the humans came sailing,
Floating so curiously in the sea,
They looked so gentile and friendly,
And I thought they'd be kind to me.

I swam closer to the unusual ship,
"Thar she blows!" I heard one of them cry,
I swam closer to them with friendship and joy,
And breached as I swam by.

Than all of a sudden my heart leapt with joy,
My friends were coming down,
They were lowered down in tiny boats,
And hit the water with a splashing sound.

They came so close to my gigantic self,
Unaware of their deadly plan,
They drove a spear through my heart,
Away away I swam.

The humans were rapidly chasing me,
The spear still in my heart,
And when I just gave up, too tired to go on,

I had ripped the small boat apart.
But when I thought I had won the war,
I saw another boat right behind,
I panicked when I realized my friends had turned on me,
And it was me they were coming to find.
I tried to weakly defend myself,
I whacked the boat with a thud,
That's when my friends ripped open my lungs,
And I choked on my own blood.
The pain I felt was like no other,
My last living sound was a cry,
My brand new friends were not friends at all,
They only wanted me to die.
The pain that I felt inside of me,
Was not the pain of the deadly dart,
But the pain of an untrue friendship,
The pain came from within my heart.
I did not live to see the setting sun,
I painfully slowly died,
We wanted so badly to be your friend's,
You killed us, humans, . . . why?

---

RECYCLING

(By Elizabeth Roberts Johnson)

If everyone put their garbage in the dump the whole world would change from a nice place to a bad place with lots of garbage. Then we would not have a place to live. Our school is recycling. Our class is trying to recycle tin foil. We used to have styrofoam lunch trays. We recycled those. Then we got cardboard trays. Then we got plastic trays. You can recycle almost anything if you try. It is a lot of work to recycle but it is worth it. It is fun to recycle. Here is a list of some things you can recycle: Paper, polystirene, cardboard, plastic, glass, oil, aluminum cans, wax paper, tin foil, wood, cloth, string, yarn, metal, paper bags, rope, milk cartons, straws, magnets, water crayons, plastic milk jugs, bulletin boards, paper plates, napkins, carpets, cotton, stickers and dolls, blackboard erasers, bricks, bells, rubber, wire and glue.

Nature even recycles. Like when an animal dies, very slowly it starts to turn into soil. My friend Katie once had a snake in their yard and they killed it. After a long time Katie saw that there was only the skeleton left. She let me see it. It was very neat.

---

STOP KILLING

(By Kristy DeCesere)

People need to stop killing dolphins, humpback whales and other wildlife because there won't be anymore. They will be extinct.

Stop killing bald eagles. It is the symbol of the United States.

Stop killing plants because they are food for the animals and our food too.

People shouldn't buy yellow tunafish because dolphins get killed too.

I watched the news and it said dolphins were dying because people ride them and keep them in cages.

Elephants are in danger too because hunters kill them for their tusks.

Some ducks are extinct because people kill them.

Stop killing fish with oil spills. Some fish are already endangered species.

Stop cutting down trees because it is the animals' home.

Please take care of our animals.

Stop killing!

WAYS TO MAKE OUR EARTH BETTER

(By Dawn Douglas)

People need to stop hurting the Earth. Our Earth is getting worse. Animals are getting less. They will get extinct or be endangered.

Everyone needs to stop polluting the Earth and killing the animals.

People need to stop smoking.

People need to stop killing whales and the dolphins.

People need to stop polluting water.

People need to stop being greedy.

Celebrate Earth Day on April 22 and help make the Earth better.

---

OIL SPILLS

(By Ian Michael Downs)

I do not like oil spills. I think animals should live in peace. It pollutes waters of all kinds, seas, lakes, ponds and rivers. It kills lots of animals. It smells awful and is black and yucky. It costs millions of dollars for people to clean up oil spills. Before boats sail, people should check the ships to see if they have a hole. Captains should pay more attention to rocks and icebergs.

I like swimming and I feel bad if there is oil on the beach. I like finding shellfish and other animals. I am mad about oil spills and I do not want them to happen!

---

"EXXON-VALDEZ" OIL SPILL

(By Angela Bourne)

MARCH 25, 1989.

DEAR DIARY: Today I woke up and thought it would be a regular day. I took a shower, got dressed, fixed my hair, and ate breakfast. The front page of the daily paper caught my attention. My eyes grew very wide. A headline stated, "Oil Spill Occurs in Prince William Sound, Alaska. Eleven Million Gallons of Crude Oil Cover the Water." I could not believe it! The article continued, "If you would like to help clean up Prince William Sound, please notify the Sea Otter Rescue Center, in Valdez, Alaska." The people in Alaska need help! And the animals!—oh, those poor creatures are in danger! I am going to Fleet Travel Agency today to make arrangements to go to Valdez, Alaska! They need all the help they can get!

ANGELA.

MARCH 29, 1989.

DEAR DIARY: Well, now I am on a Delta plane, flying over Alberta, Canada, on my way to Alaska! Will everything be black?

ANGELA.

MARCH 30, 1989.

DEAR DIARY: Today I found the Sea Otter Rescue Center. People from the Exxon Oil Company informed all volunteers to wear rubber boots, gloves, pants, and jackets. No one knows what effects oil has on people.

Many volunteers and I got dressed and we headed over to one of the beaches nearby. It was really disgusting. Dead, black-coated animals were floating in the black water and on black-covered rocks.

I picked up a bald eagle, two otters, four seagulls, and several washed-up fish and put them into trash bags. Some animals were to be frozen to use in law suits. I helped blot rocks, clean up living animals, and hose down the beach. This was the first beach I had been to that was actually depressing.

Things called skimmers were gathering some of the oil in the water, while planes were putting some stuff in the water to make it look cleaner.

ANGELA.

APRIL 1, 1989.

DEAR DIARY: Most of the beach on Naked Island was cleaned up today! I continued picking up dead animals and packing them into trash bags. Prince William Sound was so still and beautiful, with snow-capped blue mountains surrounding it. Why did this have to happen?

On April 22nd, I will be leaving Alaska, for safety reasons.

ANGELA.

APRIL 14, 1989.

DEAR DIARY: Today I only hosed down the beach. I couldn't bear to see anymore dead animals. The cleanup has been exhausting! We start work at 6 A.M. and finish at 5 P.M. I've been getting to bed at 6:30 P.M.! Isn't that amazing?

ANGELA.

APRIL 21, 1989.

DEAR DIARY: Tomorrow I will be leaving Alaska. I am sitting on a big rock at a beach on Eleanor Island. This beach was literally surrounded by oil. Most of the oil here is gone, but there is still more cleaning to do! I have to go home because scientists do not know what harm oil can do to you. I certainly do not want to risk anything. I absolutely love the stillness of the water and the crisp, cold air.

ANGELA.

APRIL 23, 1989.

DEAR DIARY: Last night I got home! I was so, so tired! I received good pay for my help $1,800 a week. I really feel good about helping clean up the oil spill! I also feel good about Lazarus. He was a sea otter who was barely alive and was brought back to health at the Sea Otter Rescue Center.

Our world could be destroyed through carelessness. We should unite and make this world a beautiful, safe place.

ANGELA.

---

THE EARTH

(By Michelle April Michaud)

One day there were some aliens from Jupiter that were building a space-shuttle to go exploring in the outer world. When the astroaliens were ready to leave for the outer world they said farewell to their family and friends.

When they were half-an-hour into the trip the monitor flashed a planet. After their discovery the monitor said, "You are now approaching the planet Earth. There is very little life on planet Earth. OH, buckle your seat belts we're coming into a crash landing." The aliens quickly buckled there seat belts but they landed nice and smooth on the ground. "Something must be wrong with this stupid monitor", said one of the aliens. "I know", said the other. "When we were building it we had a lot of parts left over." "OH" said the other alien which was named Bud and the other ones name was A.L.F. They both got out of the space ship to take a look around.

When they got out A.L.F. said, "Look there's an over sized flush-tush." "No stupid", said Bud, "that's a lake, I read it in a Knowledge book on planet Jup." "I knew that," said A.L.F. "Yea and I know Benjamin Franklin," said Bud. "Let's get a move on we'll never get to see anything at this rate.

They looked around, they noticed that the ground was clean, the lakes had clean water and the air was nice and fresh.

"Well, let's start to head home. The air is getting black and I'm getting scared." Scary

cat" said But. "Hey don't say that I might start eating myself during the night again."

When they were at planet Jup. Rhonda was waiting for A.L.F. at the Grilled Cats Restaurant.

"Oh A.L.F. I'm so glad to see you." said Rhonda. "Me too," said A.L.F. "Me too."

20 YEARS LATER

One day when A.L.F. and Bud were eating at the Grilled Cats Restaurant they started to talk about their trip to Earth and they decided to make another trip and they invited Rhonda. Rhonda agreed gleefully. On their way A.L.F. was telling Rhonda how lovely it was there.

When they got there they saw garbage all over the land and brown water in the lakes. "Ahhh maybe we landed on the wrong area" said Bud. "No we didn't I remember that's the lake I so called an over sized flush-tush." "Then what happened? The environment used to be so clean." "People threw garbage on the ground and polluted the lakes and because of all these cars the air is full of smog," said A.L.F. This bothered all of them so they decide to go back home to Jup. They were very disappointed that the beautiful earth they had visited twenty years before was no longer.

---

EARTH

(By David Michaud)

A group of the world's best scientists met at Science Hall, famed college and university, to discuss what to do about the world's increasing percentage of waste, pollution, and economic hazards.

Here is a brief report on each of the participating scientists.

Edward T. Baxter—a representative of Super Cybernetics Corporation (Physicist).

William R. Mendoza—an independent scientist (Aerodynamics Engineer).

Frederick S. Church—a representative of Techtronics Inc. (Computer Specialist).

Richard S. Gamhill—a representative of NASA (Chemist).

Vladimir P. Tzchov—a representaitve of Moscow Technologies Inc. (Biologist).

Here is a file that the Science Hall stenographer loaned us. The file has the last name of the person speaking on the front of the dialog.

Baxter has been chosen as head of the council.

Baxter: My fellow scientists, we are met here for a grave and serious purpose. Thousands of tons of waste are currently being dumped into our water, atmosphere, and ground. I have realized, as I am sure every one of you have, that if we do not put a stop to this soon, that our Earth would be better off being totally obliterated by a major nuclear meltdown. We have only a short time before we each have to go and catch a plane, headed for different parts of the world. I am ready to hear your ideas on making a last, hopefully successful effort to save our dying world.

Gamhill: I have been working on a molecular disentigrator acid. So far, only small use can be made of it, for no container can hold more than a few drops. If I were given a research grant of $5,000, I probably would be able to develop this compound enough for large scale use. It would prove invaluable in the situation of landfills, factory wastes, and atomic wastes as well.

Baxter: That is a worthwhile project, Dr. Gamill. I hope that you will find a container strong enough to hold this substance.

Church: I move that a research grant of $5,000 be given to develop this project.

Mendoza: I second the motion.

Baxter: The grant has been moved and seconded. All those in favor say "aye". (All say aye.)

Baxter: 5 to 0. I will send this movement to the Science Hall senate.

Tzchov: I have a project that you may find as interesting as Dr. Gamhill's. I have discovered a substance that destroys harmful water pollution. It does not need container development, but it does need to be strengthened. It is currently very weak, and does not last very long where it is needed most. But with a $1,000 grant, I would be able to give this substance strength, and be able to save our marine life and our drinking water.

Church: Dr. Tzchov, this substance is very interesting. I move that you get a grant of $1,000.

Gamhill: I second the motion.

Baxter: The motion has been carried, 5 to 0. I will send this to the senate along with Dr. Gamhill's project. And Now I have a contribution. With all this about gases entering the Earth's atmosphere, I have devised, along with the help of Dr. Mendoza, and the computer imaging provided by Dr. Church, a cheap missile that can be built for a few dollars, that has an onboard 10-gallon tank. The gas wastes can be pumped into this tank, and then is shot at a certain trajectory, to head for the Earth's largest incineration plant, the Sun. This craft, made of light plastic, and a reusable computer guidance system. It has an explosive bolt at the bottom of the craft, behind the holding tank. From ground control, this bolt will explode, and hurdle the holding tank at even greater velocity towards the sun. The guidance-thruster computer system will turn 180 degrees, and will fire an OMS (Orbital Maneuvering System) burn. Then the liquid engines will reignite, and rocket back to Earth. The holding tank will rocket closer and closer toward the Sun, until it's eventual spontaneous combustion. I may add again that this is a safe, inexpensive, and clean way to incinerate gaseous wastes. I thank Dr. Mendoza and Dr. Church for their input and help in this project.

The problem seems to be that no one is willing to sponsor this project. Unless we all want to be soon wearing gas masks every time we step outside, then I think that this is our only solution. Each craft has an average retail cost of $5.25. Smaller sized craft can be made for $2.50, with 5-gallon holding tanks. Without this, our atmosphere will become a mess of chlorofluorocarbons.

Gamhill: I am very interested in your project, Dr. Baxter. You and your colleagues have been designing a system to save our Earth's vital atmosphere. I move that this be sent in along with Dr. Tzchov's and my projects to the Senate.

Tzchov: I agree with Dr. Gamhill, I second the motion.

Baxter: The motion has been moved and seconded, all those in favor say "aye" (All say "aye" except for Church, who is modest.)

Baxter: (smiling at Church) 5 to 0. (pauses) Are there any other contributions? (There is silence)

Church: (looking at the clock) Oh no! Look at the time! We have to be at the airport in 15 minutes!

Mendoza: (looking at the clock) We'll have to get a taxi, and fast!

Baxter: Oh, no. This is rush hour. You'll never get a taxi, but I can give you a ride and see you off at the airport.

(They stand up, shake hands, and then go to the elevator for a ride in Baxter's new Porsche. Not surprisingly, they make it to the airport on time . . .)

---

EARTH DAY

(By Marja Murawski)

I used to know a land that had fresh air, green grass, green bushes, red and green trees, and flowers of all colors. Then factories, cars and other things started to let poisonous gases and chemicals into the air. Acid rain came, most junk yard material wouldn't rot or when it did it put poison in the ground. Now we have a big hole in the atmosphere. Sooner or later we won't have any atmosphere at all and we will need oxygen masks and tanks and space suits too. Please help save the Earth. Try to write letters to Congress and tell them to cover the pipes on factories, mills, and vehicles, and make laws to stop pollution. It would work only if everybody helped.

---

A FEW TREES

(By Marc Rodrigue)

I did a lot of my growing up in a special place in the woods. It wasn't an incredible place, at least it wouldn't seem that way to an adult, but it was a place where I felt wanted and needed. I called that place Eternia, probably because it wasn't a word you heard a lot in public. The trees that surrounded Eternia stood straight and proud, towering over the rest of the forest. Those trees were different from others. They were like a higher authority of nature commanding the forest around them. But you had to look closely with a watchful eye to discover that. I suppose I was the only person who ever took the time to take a closer look. Those trees meant a lot to me. I appreciated their being there.

I never told anyone about Eternia. I sort of considered it my place; not as if I owned it, but just the only person that knew of it, or cared to know of it. Whenever I felt frightened or uneasy of something I would go to Eternia and just sit and think for a while. I never felt out of place there. I could always forget my troubles that lay beyond those trees.

One day when I went to Eternia just to sit and think in the peace and quiet of the forest around me. I discovered a broken beer bottle smashed up against one of those trees. I did my best to pick up every piece of the broken glass, but just the thought of some thing that didn't come from these woods, was sort of scary. The thing that was kind of odd, in some bizarre way, the tree looked frightened too. Its beautiful limbs and branches, which used to stretch to the sky, were hung lower, closer to the earth, as if it was trying to hide from the world around it.

This one broken beer bottle turned into two and then into three. Eventually it became a habit for me to pack a trash bag. As time went on, those amazing trees which I had loved and cared for so much, became distorted by broken glass. I guess I felt those trees were my responsibility. I always tried as hard as I could to make them look as they had before, but it became an impossible task as time went on and the wounds grew. I believe the wounds those trees suffered were deeper than their bark. I could never put into words the way I felt, but I don't think it was hate towards the people that hurt the trees, but more pity.

When the autumn had fallen and hunting season had begun, I forgot my fears, of being shot, and remembered Eternia. A floor of leaves had given the forest a com-

fortable feeling. A feeling that I treasured in my mind, on the trips back and forth, as the shots of rifles rang out around me. I now was filling three and sometimes four trash bags with the hunter's remnants left in Eternia while passing through. I've always wondered if any of those hunters ever looked up at those trees, not in admiration as I did, but just in regard for nature. Most likely they would have been too interested in taking another part of nature home with them.

The most tragic day, but at the same time the most important day of my childhood, came when I found one of those brilliant trees laying on the earth, dead. The tree just lay there. No one had dragged it away to use for firewood or lumber. They had just chopped it to the ground for amusement, probably to see who could destroy the most of nature. The trees surrounding it seemed to look mournfully down at their dead friend. I stared up at those trees that were still standing for a while that day. We had understood each other. We shared the same feelings. We had lost a friend. I sat down on the fallen tree, hung my head, and cried, not for the dead member of Eternia, but for those trees which were still standing. It was almost as if they knew, as well as I, that they would be taken in the same meaningless way.

For close to a year, I was afraid to return to Eternia. I thought I would find yet another murdered friend. During those months, I often attempted to dream of a forest where the trees could grow freely, knowing no harm would come to them. I suppose that was just a wishful dream.

The next time I went to Eternia, I met my new neighbors. I didn't cry that day. There were no trees left standing to cry for.

---

OUR ENVIRONMENT: A MATTER OF LIFE AND DEATH

(By Rowena Alley)

We should be very concerned about our environment because it is essential to man's survival. Conserving energy will play a big part in saving our environment. The burning of coal and petroleum is hurting the environment. If we conserve those resources of energy then in trade it will do two things for us. It will save our ozone layer and it will extend the life of our fossil fuel resources.

Landfills should be done away with so that we will have more good land and because they don't work. No matter how long the garbage is buried it will always be there. There is no air down under the ground so the garbage can't be broken down or rot. The burning of trash is no good either because it releases harmful substances like C.F.C's into the atmosphere. Chloro-flouro carbons (C.F.C's) break down and destroy the ozone layer.

Recycling is the only answer to our garbage problem. Everything that can be recycled should be recycled. Glass, plastic, paper, and many metals are recyclable. Large appliances such as refrigerators, washers, dryers, dish washers, and stoves do pose a problem. We need to find a safe way to get rid of them and not dump them in a swamp somewhere.

Another thing that is destroying our environment is the destruction of our forests. Trees are being cut down and land cleared for the construction of large factories. These factories produce smoke which pollutes the air we breathe and waste which pollutes the water that we drink. The more trees cut down the less oxygen is produced. The destruction of forests also upsets the eco-system by destroying homes and food sources of many animals.

Saving the environment is going to take work and cooperation from everyone. There are medicines to cure diseases but what is going to save us from our own ignorance about the environment. Education is the key to our survival because if we destroy the environment, we destroy ourselves.

---

LISTEN TO ME

(By Emily Record)

The quiet sanctuary of the salt marsh surprised me. Even though I was only a few hundred feet away from a heavily trafficked road, I couldn't hear the zoom of the cars as they raced around corners, or smell the mild stench of burnt rubber and litter. I sighed and sank to my knees, the water slid around the cattails with a quiet swish, and then recoiled gently. I could hear the distant crying of seagulls, they always struck me as distressed. No wonder, I thought. Even though the salt marsh was a government-protected area, buildings and roads surrounded it closely on three sides. The other side led to the open water of the Atlantic Ocean. The salt marsh had taken on a man-made look and the edges were littered and dirty. Osprey sat on their perches, gazing at the world solemly with wisdom and dismay.

I looked at the sky, it was a soft blue, and the sun, a blazing red, was beginning to set. As night came the city began to "transform" slowly. The dogs began to bark and the houses lit up. Police cars began their patrol, and the street gangs formed out of nowhere. It never got fully dark, light pollution cast the sky in a hazy glow, I hadn't seen stars in a long time. The nuclear power plant across the bay took away all the natural beauty of the ocean at night. The moon looked to me a pasty yellow, and the trees, most likely planted to provide shade for tourists, began to tremble and creak ominously in the still darkness.

The future generation was roaming the streets, throwing empty beer cans out of their cars into the woods, and smoking behind the clubhouse. A baby was crying, distressed, just like the seagulls. I was saddened by this familiar scene. My father went outside to lock the car doors and put the bicycles in the shed.

It's the people, the people are destroying the earth. Murdering wildlife and nature, as if it's their right to. Destroying the serenity and peacefulness of our once beautiful earth. What has become of the vast forests and prairies? They have been cut, they are bleeding, and we aren't mending them. Before man were animals extinct? We are losing our understanding of the value of life, and how to make the best that we can out of our life. Listen to me, the forests are bleeding, the seagulls and babies are crying. Now listen to them.

---

EARTH DAY '90

(By Sandra Pomerantz and Rebecca Coburn)

SCENE 1

*Setting—Woods by Page's house, Time—11:30 A.M.*

SARAH. You know, Page. I love walking through the woods.

PAGE. I do too. Oh, look. There's some old tires that people have thrown. Man, are people wasteful.

SARAH. What's so big about throwing tires?

PAGE. What do you mean "What's so big about throwing tires"?! It will ruin our environment.

SARAH. Look around you. I don't think a couple of tires will ruin the place.

PAGE. O.K. then, I dare you not to touch or use anything that harms the environment, for the next whole week.

SARAH. O.K., It's a deal! (two girls shake hands).

PAGE. I'm hungry. Wana get some lunch?

SARAH. O.K.! Come on!

SCENE 2

*Setting—Page's Kitchen, Time—12:07 P.M.*

PAGE. So, do you want cheese on your sandwich or not?

SARAH. No way man! I hate that stuff!

PAGE. A simple no would have done it.

SARAH. Page, will you quit acting like my mom.

PAGE. O.K., here you go. One smoked turkey breast on rye.

SARAH. (nerdy). Thank You. Now, can you pass the container of coleslaw.

PAGE. What container is it?

SARAH. The plastic one over there.

PAGE. I'm sorry Sarah, but you are not supposed to touch anything that harms the environment. After all, plastic is bad for the environment. When people are making plastic, they put harmful gasses in the air, and plus, plastic is not biodegradable, so it will sit there forever and ever, and clutter up our world.

SARAH. Fine. I guess I can live without coleslaw. Oh, come on. My mom said she'd take us to the mall after lunch, so eat up.

SCENE 3

*Setting—Page's bathroom, Time—1:03*

PAGE. What do you think about this shade of eye shadow?

SARAH. Oh! Cool! I love it! Can I try some?

PAGE. No. Are you forgetting our bet? They test cosmetic products on animals. After all, they test ingredients on animals. And animals are part of the environment. Toms is the only company I know of that doesn't test the ingredients on animals, because all the ingredients are natural.

Beep Beep

PAGE. Oh, that must be your mother. Come on.

SARAH. Aha, now is the time for hair spray.

PAGE (enters room). That's what you think. (grabs hair spray) Aerosol cans are bad for the ozone layer.

SARAH. Yeah, I know, I know. Now come on.

SCENE 4

*Setting—Sara's house, Time—4:56.*

(Sarah and Page have returned from the mall.)

SARAH. I can't believe you Page! You gave me such a hard time at the mall! You wouldn't let me get anything I wanted! I quit this stupid dare! It's impossible!

PAGE. I know, Sarah. We're living in a material world. We practically can't buy anything that doesn't harm the environment. I just did it to make you understand how important our environment is to us. But there are things you can do to help. Like not littering, buying products that are in a cardboard box instead of a plastic container, not throwing trash in lakes and streams—

SARAH. And not using makeup or aerosol cans.

PAGE. And don't dump toxic waste (antifreeze, etc.). Use unleaded gas if that is the kind of gas you put in your car, and of

course, you can celebrate Earth Day 1990 and Arbor day by planting trees.

SARAH. Gee, you've really taught me a lesson about our environment. I think we should go pick up those tires in the woods.

---

BY TRANSITIONAL/FIRST GRADE, WILTON PRIMARY SCHOOL

We love the Earth.
She likes to play with us,
And she likes us to get around her
And give her a hug.
She likes it when we plant flowers
So she is beautiful,
And when we pour water on her
So she can get a drink.
She likes it when it rains, too,
And when she feels the hotness of the sun
And then gets cooled off with the snow.
She likes us to be kind.
She likes it when we ride our bikes
But not when we skid.
She likes us to be healthy
So she gives us food and nice gardens
And pretty rocks and worms and waterfalls.
She grows grass for us
And gives us a place to lay down
And she gives us peace and quite.
We love the Earth,
And she loves us.

We are children of the Earth.
We are children of the Sun.
Come together now,
Take hands
And we shall dance as one.

Beasts of the field,
And birds that fly
Fish that swim in the sea,
Come together now and dance
For brothers and sisters are we.

---

MY WORLD

A clean green forest
A sparkling pond
A blue sky.

We hear,
Birds singing in the trees
Deer walking down a path
Rabbits hopping through the woods
Fish jumping in a pond.

We see,
Fawns blending into the bushes
Birds feeding their babies
Moose shaking the forest as they walk
Moss on rocks
Flowers blooming everywhere.

Pollution came.

We hear,
Nothing.
No birds singing
No deer walking
No rabbits hopping
No brook splashing
No fish jumping.

We see,
No fawns blending into bushes
No birds feeding babies
No moose shaking the forest
No moss on rocks
No flowers blooming—anywhere.,

My world?

(Written by Miss Grass' Grade Two, Benton Elementary School, Waterville, ME)

---

FIRST GRADE, LAMOINE SCHOOL

We love the Earth

We love the earth,
It's the place of our birth.

Keep the land clean,
And make sure it's green.

Keep the air clear,
We like to breathe here.

Keep the water blue,
So we can swim, too.

Make our earth a clean place,
So we can have a smiley face.

---

MRS. SHOREY'S FIRST GRADE CLASS, ABRAHAM LINCOLN SCHOOL

EARTH DAY

Earth Day,
Earth Day,
Please don't pollute.
We don't need trash.
Let's think of ways
to save Our Earth.

OUR HOME

Earth, Earth is our place at birth.
We love our home the Earth.
Dinosaurs walked on our home first,
they died.
We weren't yet alive.
So keep our air clean.
Don't pollute our water and land.
We hope you all understand.

---

GONE WITH THE WIND

They are endangered species,
That's all we know about them.
Just the fact that they are in danger of becoming extinct
And extinct is forever and ever.

The spotted leopard, Spanish lynx,
Wide-eyed ocelot such beautiful cats.
The blue whale, the sperm whale—
Proud monarchs of the sea.
African elephants with ivory tusks,
The panda, grizzly or polar bears
And marsupials like the koala and Tasmanian wolf—
Why are they endangered?

Maybe it's because there's killing and poaching.
We're building on and taking over habitats.
There's too much pollution, littering and interference with Nature.

We think about them a lot.
If you see an endangered species, consider this
Just think what the world would be like without them.
If they roam the earth no more
It would be a tragedy.

(Mrs. Jones' fourth grade class, Friendship Village School.)

---

FOURTH GRADE, WEST HARPSWELL ELEMENTARY SCHOOL

Smokestacks
Belching thick black smoke
Darkening our clear, blue skies
Devastating earth.

---

## CONCLUSION OF MORNING BUSINESS

Mr. PELL. Mr. President, I ask what is the pending business?

The PRESIDING OFFICER. We are currently in morning business.

Mr. PELL. I ask that morning business be completed, and that we return to the bill that was before us.

The PRESIDING OFFICER. Morning business is closed.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The PRESIDING OFFICER. The Senate will resume consideration of S. 195, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 195) entitled the "Chemical and Biological Weapons Control Act of 1989."

The Senate resumed consideration of the bill.

Pending:

Pell/Helms Amendment No. 1631, in the nature of a substitute, to require the imposition of specified sanctions against any foreign country which uses chemical or biological weapons in violation of international law or against its own citizens.

Mr. PELL. Mr. President, I ask unanimous consent that the committee substitute be modified to reflect the substitute language as contained in amendment No. 1631.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The committee amendment in the nature of a substitute, as modified, is the pending business before the Senate.)

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. THURMOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

---

## ORDER OF PROCEDURE

Mr. THURMOND. Mr. President, I ask unanimous consent to speak as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

---

## NATIONAL TOURISM WEEK

Mr. THURMOND. Mr. President, as a member of the Senate Tourism Caucus, I rise today to salute the more than 6 million citizens who work in our Nation's third largest retail industry—tourism. The dedication, hospitality, and old fashioned American know-how of these individuals have combined to create one of our Nation's most successful and productive industries. In recognition of their fine efforts, the week of May 13 through May 19, 1990, has been designated as "national tourism week." This week serves to remind us all that America is not only a nice place to live but a great place to visit. It is clear that tourism works.

Tourism works for our economy. According to the U.S. Department of Commerce, spending on travel services in the United States reached approximately $350 billion in 1989. In fact,

travel spending in our country averaged $959 million each day, $40 million each hour, $666,000 each minute and $11,000 each second. Tourism represents 6.7 percent of the gross national product and 13 percent of the services sector. Last year, Federal, State and local tax revenues generated from travel expenditures totaled $42.8 billion. Of this amount, the Federal Government received approximately $23 billion.

Tourism puts Americans to work. The travel industry directly generates more jobs than any other industry in the United States except health services. Over the past decade, travel industry employment has grown more than twice the growth rate of all U.S. industries the 2.9 million new jobs provided by the industry since 1979 account for 15.4 percent of the national increase in employment, in addition, the travel industry provides a disproportionate number of jobs for the historically disadvantaged blacks, Hispanics, and women.

Tourism works for recreation. Of the $350 billion spent on travel services last year, $316 billion or 90 percent was spent domestically. Americans spent more on travel than on clothing, accessories, jewelry, and personal care combined, or on household utilities, including telephone service. In 1989, Americans took 1.3 billion trips 100 miles or more away from home and spent 5.2 billion nights away from home. Even in times of economic depression, the tourism industry has continued to flourish with employment in the industry having risen every year since 1958.

Tourism works for foreign vistors. Tourism is America's largest export ranking ahead of agricultural goods, chemicals and motor vehicles. Among all nations, America ranks No. 1 in international travel receipts. In 1989, our Nation welcomed 38.7 million foreign visitors; and total U.S. travel receipts, including foreign visitors international fare payments to U.S. carriers, reached $43 billon. This represents an increase of 16 percent over 1988 or $5.9 billion expenditures by foreign visitors in this country directly supported an estimated 570,000 jobs and foreign tourist-generated tax revenues totaled over $4 billion last year, of which approximately $2.1 billion accrued to the Federal Government.

Finally, tourism works for the Palmetto State. In my home State of South Carolina, travel and tourism represents the State's second largest industry. Tourism generates more than $6.93 billion in total State revenue for the State, employs more than 189,000 South Carolinians, and produces a payroll of more than $1.37 billion. Even following the devastation of Hurricane Hugo, our tourism industry continues to grow. The South Carolina Department of Parks, Recreation, and Tourism reports that the tourism division processed over 180,000 requests for information in the last 6 months, a 16-percent increase over last year's rate.

Mr. President, it is clear that tourism works for America. I hope that my colleagues will take a moment to reflect upon the important role that the travel and tourism industry plays in the lives of all Americans. This thriving industry deserves our support and our thanks for a job well done.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Chair recognizes Senator HELMS.

Mr. HELMS. Mr. President, I thank the Chair for recognizing me. I also ask unanimous consent to speak as if in morning business. I have another matter to discuss.

The PRESIDING OFFICER. Without objection, it is so ordered.

## CHINESE GULAG

Mr. HELMS. Mr. President, I have here a full page advertisement published in the New York Times on May 15. This advertisement I am delighted to say is promoting an article in the June issue of Reader's Digest.

I am delighted that the Reader's Digest is publishing the article, or has published it, and I am delighted that the Reader's Digest is promoting readership of the article in the New York Times and perhaps in other newspapers. The article was written by a veteran foreign correspondent, Fergus M. Bordewich. Anybody who has read the article as I have will understand that it contains information essential for the enlightenment of the American people.

The Reader's Digest article will go to 50 million Reader's Digest readers in the United States and then it will appear in nine international editions in June and in July. That will be followed by 10 more international editions which will publish the Reader's Digest article. By the end of the summer then as many as 100 million people worldwide will have seen this article by Mr. Bordewich. The article bears the title "Into the Bamboo Gulag." It details the Chinese Communist way of doing things. Based on interviews with former prisoners, the article outlines the actual conditions in the prisons and in the slave labor camps.

Mr. President, in the words of the author, and for a little while I will be quoting from the article, he says:

No one bathes. You are given one bowl of water each day. You could either drink it or you can wash with it. You drink it.

Then he goes on:

Twice a day, you are given a couple of pieces of turnip in hot water. They call it soup. * * * Your energy diminishes day by day until you are unable to walk without holding onto the wall.

Mr. President, that raises a question: How does someone become a prisoner in Communist China today? Well, according to the author of this Reader's Digest piece:

Your trial is just a formality anyway. A party-dominated committee decides the verdict before the trial even begins. Releases and acquittal are rarely on the agenda.

And I continue to quote:

In court, you are not allowed to call witnesses, or see the evidence against you. Guilt is presumed. Any attempt to argue your innocence is taken as further proof of guilt.

Then the author of the article in Reader's Digest says:

Since 1949, China's masters have imprisoned or killed tens of millions of China's people. Now they want Western loans and assistance. They want to export products—textiles, machinery, consumer goods—some made by political prisoners—

Some made by slave labor—

They pretend that there is no gulag, that there are no prisoners of conscience, that the Tiananmen massacre never happened.

This advertisement to which I just alluded and the article itself in the Reader's Digest both called on the United States to remember the sacrifice of the brave Chinese people who are suffering today in the Communist gulag of China. They are pleading for our support. And I am not sure that I can find anybody who feels comfortable about the measure of support that the United States is giving these people.

But Senators are going to have an opportunity to do just that before very long. I am in the process of drafting legislation to slam the door on slave labor products coming into the United States from Communist China or any other country which condones this vile practice. Passage of the legislation will remove the United States as a market for slave labor-produced goods. I am hopeful, of course, that, seeing the example of the United States, other countries may get around to following suit, so that the Communists will have less incentive to maintain that slave labor system.

Mr. President, I ask unanimous consent that the advertisement from the New York Times be printed in the RECORD.

There being no objection, the item was ordered to be printed in the RECORD, as follows:

[An advertisement in the New York Times, May 15, 1990]

DEMOCRACY'S HEROES VANISH IN CHINA'S GULAG

(One year after the Tiananmen massacre, many of China's protestors for democracy

languish in the most far-reaching system of political prisoners in the world. Veteran foreign correspondent Fergus M. Bordewich has talked with survivors who were released after many years in China's prison camps, and with the friends and relatives of those who have dropped from sight. In the June Reader's Digest, he takes you "Into the Bamboo Gulag"—through the eyes of its victims)

Leave your name at the door. You have become a number. If you stay long enough, you may forget you had a name.

You and 30 others share a 20-by-20-foot cell in Beijing's infamous Banbuqiao Prison. Walls are stained with crushed ticks, fleas and bedbugs. The floor is covered with mucus and spittle.

All day you sit on a dirty cotton mat. You're not allowed to move or talk. You can get up only to use the toilet. Once a day.

The guard blows a whistle that tells you when to sleep and when to wake. At night, you are packed together so tightly that everyone has to turn at the same time.

No one bathes. You are given one small bowl of water each day. You can either drink it or wash with it. You drink it.

Twice a day, you are given a couple of pieces of turnip in hot water. They call it soup. You're so hungry you vomit bile. Your energy diminishes day by day until you are unable to walk without holding onto the wall.

You have been held incommunicado for months. The law says that your family must be notified of your arrest—unless that would "hinder the investigation." Your family has not been notified.

Your trial is just a formality anyway. A Party-dominated committee decides the verdict before the trial even begins. Releases and acquittals are rarely on the agenda.

In court, you are not allowed to call witnesses, or see the evidence against you. Guilt is presumed. Any attempt to argue your innocence is taken as further proof of guilt. Don't expect justice in a Chinese Communist court.

OUTPOURING OF SUPPORT

Wang Juntao ran in 1980 as an independent candidate in China's first contested election since 1949. Although he lost, he told supporters, "If we want democracy, we've got to show people how it's done." Later he established one of China's first independent educational programs so working people could study in their spare time. Then he helped set up an influential institute that urged free-market capitalist. He never joined the Communist Party. If he was to be an official, he wanted to be elected freely.

The Democracy Movement of 1989 was the opportunity he had dreamed of. He gave the students food and published their daily newsletter. He helped organize hundreds of Chinese journalists to join the demonstrations, to call for freedom of the press. That helped turn the student protest into a vast popular outpouring of support, as doctors, teachers, workers, and even delegations from the police and the Communist Party school began marching to Tiananmen Square.

He set up the "underground railroad" that enabled some of the student leaders to flee to the West after the military crackdown June 3.

Wang stayed in China to help others escape, until it was too late to save himself. He was arrested as he was about to cross into Hong Kong—and disappeared into the Bamboo Gulag.

TRUTH SUPPRESSED

Liu Xiaobo was a visiting scholar in the United States last year. When news of the Democracy Movement reached him, he flew to Beijing, and threw himself into helping the students.

Some say Liu's June 2 speech was the most important of the entire movement. Liu has a stammer, but thousands of young faces gave him courage as he spoke in Tiananmen Square: "We advocate the peaceful democratization of China. We seek to end the rule of the bayonet and lie! We must now build a new politics, free of enemies and hatred, based instead on tolerance and compromise, and functioning through discussion and the electoral process."

The government accused Liu of advocating armed rebellion. The truth has never mattered to the Communists. The regime may kill him to intimidate others, to remind the people that anyone can be destroyed for his ideas.

Liu, too, has disappeared into the Bamboo Gulag.

Han Dongfang was a simple worker, a maintenance man for the state railway. He was tired of watching Communist Party officials get rich while the people suffered.

The students in Tiananmen Square gave him the strength to stand up for himself at last. In the square, he made the first speech of his life, denouncing the state's exploitation of workers.

On May 19, he and a group of other dissident workers set up Communist China's first free trade union, striking at the heart of the Communist state. Inspired by his actions, others formed similar unions across China.

The night before government troops invaded Tiananmen Square, the atmosphere in Han's tent was tense. "I'm not afraid to die," he told a friend. He hoped there would be an international outcry if the government moved against them.

Han has also disappeared into the Bamboo Gulag.

NO ESCAPE

For the last two days you have ridden in the back of a truck across the sandy wastes of western Qinghai Province. Soon you see a high brick wall and towers. In them are soldiers with machine guns and they're pointed at you.

Welcome to your new home. You live in a room with 40 other prisoners. You're not allowed private possessions; no books, no photographs, no keepsakes, no clothes. Nothing.

You dig irrigation ditches from sunrise to sunset, seven days a week. When there is a full moon, you work at night too. You come to hate the moon.

Guards don't wait for an infraction to punish you. They tie your elbows behind your back with a wet thong that tightens as it dries. After an hour, you go numb.

The next time, guards push wires through the flesh of your ankles, put an iron band around your skull and tighten it until your head cracks. Then they handcuff your arms underneath one leg, raising it tight against your chest. They leave you like that for days, sometimes weeks.

No one escapes from the camp. There's nowhere to go, just sand in every direction for hundreds of miles.

Since 1949, China's masters have imprisoned or killed tens of millions of China's people. Now they want Western loans and assistance. They want to export products—textiles, machinery, consumer goods—some made by political prisoners. They pretend there is no gulag, that there are no prisoners of conscience, that the Tiananmen massacre never happened.

Bullets and blood may have silenced the heroes of Tiananmen Square—for now. But they will be back, again and again, as long as freedom is suppressed. As the world's beacon of democracy, the United States must not ignore their cause—or their sacrifice.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The Senate continued with the consideration of the bill.

Mr. HELMS. Mr. President, I see the distinguished Senator from Arizona on the floor, Mr. MCCAIN. I wonder if he is prepared to proceed with his amendment.

Mr. McCAIN. Mr. President, I believe that in about 3 or 4 minutes I should be ready, I say to my friend from North Carolina.

Mr. HELMS. Very well.

PRIVILEGES OF THE FLOOR

Mr. HELMS. Mr. President, on behalf of the distinguished Senator from Minnesota [Mr. BOSCHWITZ], I ask unanimous consent that a legislative fellow in Mr. BOSCHWITZ' office, Mr. Kenneth Sichel, be granted privileges of the floor today and on each day that S. 195 is being considered.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The assistant legislative clerk proceeded to call the roll.

Mr. McCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCAIN. Mr. President, I had anticipated proposing three amendments to this bill, the present legislation we are considering, today. I have had discussions with the sponsors of this legislation and we have reached a basic agreement as to how to dispose of all three of these amendments to the satisfaction of the sponsors and to me.

AMENDMENT NO. 1634

(Purpose: To impose sanctions against persons who engage in the trade of, or assist others in the trade of, missile technology which could be used in the construction of certain ballistic missile systems)

Mr. McCAIN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 1634.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 14, line 3, after the word "weapons", insert the phrase: "and the means of their delivery".

On page 14, after line 3, insert the following:

SEC. 200. ENFORCEMENT OF INTERNATIONAL CONTROLS ON MISSILE TECHNOLOGY.

(a) DETERMINATION BY THE PRESIDENT.—The President shall impose one or more of the applicable sanctions prescribed in subsection (b) in any case in which the President determines there is reliable evidence—

(1) in the case of a United States person, that the person—

(A) is exporting, transferring, or otherwise engaging in the trade of any internationally controlled missile technology in violation of the provisions of section 38 of the Arms Export Control Act (22 U.S.C. 2778), section 5 or 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404, 2405), or any regulations issued under any such provisions;

(B) is conspiring to or attempting to engage in the export, transfer, or trade of such technology in violation of any provision of law or regulation referred to in subparagraph (A), or

(C) is knowingly facilitating the export, transfer, or trade by any other person of such technology in violation of any provision of law or regulation referred to in subparagraph (A);

(2) in the case of a foreign person, that the person—

(A) is exporting, transferring, or otherwise engaging in the trade of any internationally controlled missile technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such person exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation;

(B) is conspiring to or attempting to engage in the export, transfer, or trade of any such technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such persons exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation; or

(C) is knowingly facilitating the export, transfer, or trade by any other person of any such technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such person exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation; or

(3) in the case of a developing country, that such country—

(A) is importing internationally controlled missile technology; or

(B) is equipping its armed forces with new or additional types of missile systems or other weapons delivery systems configured to use weapons of mass destruction.

(b) SANCTIONS.—(1) The sanctions applicable to a United States person under subsection (a) are the following:

(A) Denial of all export licenses under section 38 of the Arms Export Control Act (22 U.S.C. 2778) and sections 5 and 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404 and 2405).

(B) Prohibition on all contracting with, and the procurement of any product or service from, such person by any department, agency, or instrumentality of the United States Government.

(C) In any case in which the President determines that the acts of the person are not destabilizing and that the person has not previously committed any act described in subsection (a), the sanctions specified in subparagraphs (A) and (B) shall apply, but only with respect to internationally controlled missile technology.

(2) The sanctions applicable to a foreign person under subsection (a) are the following:

(A) Denial of the issuance of any export license under section 38 of the Arms Export Control Act (22 U.S.C. 2778) or section 5 or section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404, 2405) if the foreign person is the designated consignee or end-user in the application for such export license or if the President has reason to believe that the foreign person will benefit from the issuance of such export license.

(B) Prohibition on all contracting with, and the procurement of any product or service from, such foreign person by any department, agency, or instrumentality of the United States Government.

(C) In any case in which the President determines that the acts of the person are not destabilizing and that the person has not previously committed any act described in subsection (a), the sanctions specified in subparagraphs (A) and (B), but only with respect to internationally controlled missile technology.

(3) The sanctions applicable to a developing country under subsection (a) are the following:

(A) Denial of some or all technical assistance in aviation, electronics, missiles, or space systems or space-related equipment under the control of the United States Government.

(B) Denial of the transfer of all or selected technology in aviation, electronics, missiles, or space systems or space-related equipment under the control of the United States Government, except for items the export of which to a controlled country (within the meaning of the Export Administration Act of 1979) would require only notification of the participating governments of the Coordinating Committee on Export Controls.

(c) EXCEPTIONS.—Paragraphs (1)(B) and (2)(B) of subsection (b) shall not apply with respect to any contract that provides for the supply of products or services valued at whichever is the lesser of—

(A) $20,000 of the value in the case of a finished commodity; or

(B) 3 percent of the average unit cost in the case of a finished commodity.

(d) TERM OF SANCTION.—Sanctions under this section shall be imposed for a period of not less than two years and not more than five years.

(e) WAIVER.—The President may waive the imposition of sanctions on a United States person, foreign person, or a developing country under subsection (a) with respect to a product or service if the President submits to Congress a certification that—

(1) the product or service is essential to the national security of the United States;

(2) the person or country is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met from another source in a timely manner by improved manufacturing processes or technological developments; and

(3) the United States Government is the end-user of the product or service.

(f) INAPPLICABILITY TO PERSONS COMPLYING WITH FOREIGN LAWS.—Subsection (a) shall not apply to any export, transfer, or other trade activity carried out in good faith by any person if (1) the export, transfer, or other trade activity is in compliance with the laws of the country from which the export, transfer, or other activity is being carried out, and (2) that country controls the export of internationally controlled missile technology pursuant to an international agreement to which the United States is a party.

(g) SUSPENSION OF SANCTIONS.—The President may suspend all or part of any sanctions that have been imposed under this section against a person on account of acts described in subsection (a) if a country that controls the export of internationally controlled missile technology pursuant to an international agreement to which the United States is a party is taking judicial or other enforcement action against that person on account of those acts. The President may terminate the sanctions if the President determines that, pursuant to that country's enforcement action, the person has been found not to have committed those acts or has been severely punished under that country's laws on account of those acts.

On page 25, after line 4, insert the following:

"(3) The term "developing country" does not include any member of the political organ of the North Atlantic Treaty Organization (NATO), any member of the Warsaw Treaty Organization, Austria, Australia, Israel, Japan, New Zealand, or Switzerland."

Mr. McCAIN. Mr. President, I am an original cosponsor and a strong supporter of S. 195, the Chemical and Biological Weapons Act of 1989. It contains reporting provisions that I actively encouraged.

The amendment which I have sent to the desk expands the provisions of the pending legislation to establish the controls on the technologies critical to the development of long range ballistic missiles used to deliver weapons of mass destruction. The amendment imposes sanctions on United States and foreign persons who knowingly export the same type of missile technologies covered by the missile technology control regime. Unlike much of last year's legislation, it does not target a single country, or focus only on chemical weapons—improvements in such legislation that I strongly recommended.

As currently drafted, S. 195 will provide a useful political, moral, and economic deterrent to the use of chemical and biological weapons. I strongly support all the various provisions of this bill and will vote for them.

At the same time, I believe that much stronger action is necessary. The day before yesterday I introduced a comprehensive approach to fighting proliferation called the "Weapons of Mass Destruction Control Act." In doing so, I was responding to one central fact: Proliferation is the greatest single threat to peace we face in the 1990's, and we must address every aspect of proliferation—atomic, biological, chemical, and the means to deliver these weapons—and not simply selected weapons of mass destruction.

THE NEED TO RESTRICT THE PROLIFERATION OF LONG RANGE MISSILES

It is not enough to attack the use of chemical and biological weapons, and it is not enough to concentrate our attention on the most reckless and threatening developing countries.

Mr. President, our current policy tends to treat the world as if there were good proliferators and there were bad proliferators. The grim fact is that there are no good proliferators, and we have to judge any developing nation that proliferates weapons of mass destruction or the means to deliver them as a threat to peace. This is why we need legislation that will attack the growing proliferation of long-range missiles. This is why we need legislation to attack a threat to peace which is already underway in nearly 20 countries.

We have heard repeated warnings about the risks of the proliferation of such missiles from our senior military commanders and intelligence officials. We have learned from them that countries like Argentina, Brazil, Egypt, India, Iran, Iraq, North Korea, South Korea, Libya, Pakistan, Saudi Arabia, and South Yemen are actively involved in such proliferation.

The full list of such countries is classified, but it is striking that the blanked portion of recently declassified testimony by Admiral Brooks, the Director of Naval Intelligence, containing such a list was three pages long.

It is equally striking that Admiral Brooks should state that, and I quote:

Efforts to control proliferation—such as the Missile Technology Control Regime [MTCR] and various nuclear non-proliferation treaties have been largely ineffective and are likely to remain so.

The MTCR, for example, requires only a non-export pledge from signatories, several major producers * * * have not joined, and major loopholes exist—for example, missile components and technologies can be exported if the buyer pledges they are destined for space launch efforts rather than for military utility.

AMENDING S. 195 TO BECOME A COMPREHENSIVE MASS DESTRUCTION CONTROL ACT

This is why I believe that we need to amend S. 195 to address the proliferation of long-range missiles, as a first step in creating the comprehensive and integrated approach we need to take to fight proliferation.

Mr. President, let me give a more specific example of the reason we need to take such action. The Iraqis recently tested what seems to have been a multistage ballistic missile. They at first advertised this system as a system for space use. In fact, such a missile can be used to attack enemies of other states and the purported enemies of Iraq, at very long distances—targets that include the State of Israel.

A couple of weeks later Mr. Saddam Hussein, in my view a ruthless and unprincipled man who is surrounded by ruthless and unprincipled men, announced that he would retaliate to any attack on Iraq by Israel by using poison gas against half the population of Israel. Mr. President, long-range missiles are giving him the capability to deliver on that threat.

In fact, Iraq now seems to have three launch sites with sheltered missiles, one of which may already have missiles targeted on Israel. Its other sites may target friendly Gulf States, and it may soon have biological and chemical warheads for its missiles, if it does not already have them.

The amendment I now propose would meet this challenge. It adds the key provisions of the Gore-McCain Act, S. 1830, to the pending legislation. It would establish sanctions against persons, corporations, and State entities that sell long-range missiles or missile technology which is covered by the missile technology control regime. It would also establish limited sanctions against those developing nations which seek to build or buy long-range missile systems.

This amendment is carefully drafted to match the punishment to the crime. Like S. 195, it provides the President with ample flexibility to exempt certain persons or countries to protect national security. Its primary sanctions are to limit access to the American market to those persons, companies, or countries that sell MTCR controlled technologies to third parties, and it would not add additional sanctions in those cases where other nations, who are signators to the MTCR, take legal action.

The sanctions against developing countries affect only those selected areas of technology transfer which have significant military potential. No steps would be taken to cut off economic aid, those forms of military assistance that are vital to national defense, or any aid and credits affecting food supplies.

Mr. President, unless we take such action to halt the proliferation of long-range missiles, we will only be addressing a small portion of the problem. We will have failed to establish the mix of barriers to proliferation that we must have to be effective, and we will encourage a situation where nations are already rushing to acquire delivery systems which ultimately have no value unless they are used to deliver weapons of mass destruction.

Mr. President, I thank Senator GORE for the role he has played in shaping the original bill on which I have drawn, and also Senator WILSON and Senator GORTON for their contributions.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I ask unanimous consent that Senator CRANSTON be added as a cosponsor of S. 195.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I commend the Senator from Arizona on his initiative. I, and after consultation with Senator HELMS, Senator HELMS and other members of the committee agree that Congress should move to enact legislation dealing with missile proliferation.

The committee staff has been working with the Senator's staff and other staffs to develop legislation in this area. Accordingly, I would ask that rather than pursue his amendment at this time, the Senator from Arizona join with us in an effort to enact legislation which would have more comprehensive support, and I am prepared to consider such compromise legislation in the Committee on Foreign Relations at the first available time in a business meeting following the Memorial Day recess.

I look forward, if this is acceptable to the Senator, to working with him to produce successful legislation, and I hope the Senator will join with me in this and will consider withdrawing his amendment.

Mr. McCAIN. Mr. President, I thank the distinguished chairman of the Foreign Relations Committee for his understanding and his consideration and, indeed, his keen appreciation of the enormity of the problem, the urgency of the problem, and the requirement that we address it as a Nation before it becomes a threat to millions of American lives. I do not believe I exaggerate when I make that statement.

I would be more than happy to withdraw my amendment. I am grateful for the commitment by the distinguished chairman that this legislation would be considered upon completion of the next recess. I am very hopeful we could get legislation through the Congress this year, because clearly the urgency of the issue dictates that. So I thank my friend from Rhode Island.

Mr. President, at this time I ask unanimous consent to withdraw my amendment.

The PRESIDING OFFICER. The Senator has a right to withdraw his amendment. The amendment is withdrawn.

The amendment No. 1634 was withdrawn.

Mr. McCAIN. I thank the Chair.

AMENDMENT NO. 1635

(Purpose: To establish comprehensive reporting requirements on the proliferation of nuclear, chemical, and biological weapons, and the technologies used in delivering these weapons of mass destruction)

Mr. McCAIN. Mr. President, as I mentioned earlier, I have three amendments that I will be proposing this morning.

I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 1635.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike section 106 and insert in lieu thereof the following:

SEC. 106. SEMI-ANNUAL REPORTS ON THE PROLIFERATION OF MISSILES CAPABLE OF DELIVERING WEAPONS OF MASS DESTRUCTION AND ON THE PROLIFERATION OF BIOLOGICAL WEAPONS, CHEMICAL WEAPONS, AND NUCLEAR WEAPONS.

(a) REPORTS.—Not later than 90 days after the date of the enactment of this Act, and every 180 days thereafter, the President shall submit to Congress a report described in subsection (b).

(b) CONTENTS OF REPORT.—Each report under subsection (a) shall—

(1) describe in detail the efforts of all foreign countries to acquire biological weapons, chemical weapons, nuclear weapons, and long-range missiles and destabilizing offensive aircraft and to acquire the material and technology to produce and deliver such weapons;

(2) include an assessment of the present and future capability of those countries to produce and deliver such weapons;

(3) include a determination of whether and to what degree any Communist-bloc country has assisted any foreign country in its efforts to acquire any weapons system, aircraft, material, or technology referred to in paragraph (1);

(4) identify—

(A) each person who in the past has assisted any foreign country in those efforts; and

(B) each person who continues to assist any foreign country in those efforts as of the date of the report;

(5) indicate whether any person included on the list referred to in paragraph (3)(A) or (3)(B) was aware that the assistance provided by that country was for the purpose of developing biological weapons, chemical weapons, nuclear weapons, or a long-range missile or offensive aircraft;

(6) include any confirmed or credible intelligence or other information that indicates that a non-Communist country has provided assistance in developing biological weapons, chemical weapons, nuclear weapons, or long-range missiles or offensive aircraft to another country, either directly by selling to such foreign country biological weapons, chemical weapons, nuclear weapons, or missiles or aircraft or indirectly by facilitating the activity of a person included on a list referred to in paragraph (3)(A) or (3)(B), but took no action to halt or discourage such activity.

(c) PROTECTION OF CLASSIFIED AND INTELLIGENCE INFORMATION.—Classified portions of any report prepared under this section may be issued in a separate annex to the report. In addition, the President may, with respect to the matters addressed in any such report, limit the transmission of intelligence information to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives if the President determines that such information could disclose intelligence sources and methods.

(d) EXCLUDED INFORMATION.—If the President, consistent with subsection (c), decides not to list any person or country in that part of the report required under paragraphs (3) and (5) of subsection (b) that would have otherwise been listed, the President shall include that fact in the report and his reasons for not listing the person or country.

Mr. McCAIN. Mr. President, if we are to make a concerted effort to fight proliferation, then there are several areas where the existing reporting provisions in S. 195 need to be strengthened. As a result, this amendment recognizes the fact that the merchants and buyers of weapons of mass destruction cannot stand public exposure.

This amendment builds upon the reporting provisions of S. 195 to require semiannual reporting on proliferation of long-range missiles, destabilizing long-range aircraft, and nuclear weapons, in addition to the existing requirement for reporting on proliferation of chemical and biological weapons.

The amendment requires semiannual reporting because the world's media have already shown that only constant public monitoring can keep up the kind of pressure required to prevent further proliferation.

The amendment requires reporting on all developing countries, an area that is somewhat ambiguous in S. 195. Today's or yesterday's terrorist countries may not be tomorrow's proliferators, and we must deal with proliferation as a general problem in every area of the developing world, and not simply as a problem affecting currently hostile countries in the Middle East and Persian Gulf.

Mr. President, this amendment singles out Communist bloc States for careful monitoring because of the role that the U.S.S.R. and People's Republic of China have played in supplying systems like the Scud and the SS-21, and possibly the technologies or stocks for chemical and nuclear weapons.

There are also ample legal provisions to allow the President to protect national security and classified information.

The key rationale behind this amendment is that no person, company, or country will ever feel safe from public exposure. It will reinforce the efforts of the media and various research organizations and force the merchants of mass destruction out into the open. It will stop the Kim Il Sungs and Saddam Husseins of the world from hiding behind denials and countercharges.

Mr. President, in April of this year, the Carnegie Endowment for International Peace issued a very interesting paper entitled "Nuclear Exports: The Challenge of Control."

I will not ask for this report's inclusion in the RECORD because it is quite long, but I would like to read just a couple of relevant paragraphs from this report to show why we must have reporting on nuclear proliferation as well as that of chemical and biological weapons. I commend it to my colleagues and their staffs because I think it gives an accurate depiction of the incredible risks we face from the increasing risk of nuclear proliferation. I quote:

As the 1990's begin, two overlapping patterns of nuclear trade are seriously undermining global efforts to slow the spread of nuclear arms. The first is the growing ability of emerging nuclear States to obtain weapons-relevant nuclear commodities clandestinely from the advanced industrialized nations—the traditional nuclear supplier countries. These transfers have played a central role in advancing the nuclear weapons capabilities of Pakistan, India, Argentina, Brazil, and Iraq.

The second threatening trend has been the expanding commerce in weapons-relevant nuclear goods—both overt and covert—involving a group of less developed States with growing domestic nuclear industries. Only a minority of these "second-tier" or "emerging" nuclear supplier countries have formally accepted the strict nuclear export standards adopted by the advanced nuclear supplier States. Commerce involving the second-tier suppliers has already contributed importantly to nuclear weapon capabilities in India and Pakistan and is likely to grow in significance in the years ahead.

These two patterns of nuclear commerce have been observable for a number of years. However, a stream of disclosures since late 1988 have revealed that both were far more pervasive than previously thought.

Mr. President, this report by the Carnegie Endowment for International Peace is required reading for anyone who is concerned about the issue.

In short, I believe we must have the strongest, most comprehensive, and all inclusive reporting possible on the proliferation of weapons of mass destruction, and take every possible step to make public disclosure a weapon we

use against the sellers and buyers of such weapons. We must give the process of proliferation the kind of visibility and the kind of scrutiny that is necessary if we are ever to try to address this problem in a comprehensive fashion.

Mr. President, I urge adoption of this amendment. I yield the floor.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1636 TO AMENDMENT NO. 1635

Mr. PELL. Mr. President, I offer an amendment to the amendment proposed by the Senator from Arizona. I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows.

The Senator from Rhode Island [Mr. PELL] proposes an amendment numbered 1636 to amendment numbered 1635.

Mr. PELL. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In lieu of the matter proposed to be inserted, insert the following:

SEC. 106. PRESIDENTIAL REPORTS.

Not later than 90 days after the date of enactment of this Act, and every 12 months thereafter, the President shall submit to the Speaker of the House of Representatives and the President of the Senate, a report—

(1) detailing efforts by countries or subnational groups that threaten United States security interests or regional stability (including efforts by Iran, Iraq, Libya, and Syria and other developing countries or subnational groups) to acquire the materials and technology to develop, produce, stockpile, and deliver chemical, biological, and nuclear weapons, together with an assessment of the present and future capabilities of such countries or subnational groups to develop, produce, stockpile, and deliver chemical, and biological or nuclear weapons.

(2) describing the degree to which any country or foreign person has aided or abetted the government of any country or a subnational group to engage in any activity in connection with the acquisition of any such chemical, biological, and nuclear weapon; and

(3) listing all United States persons against whom administrative, civil, or criminal penalties have been applied for shipment of goods and technology controlled for chemical, biological, and nuclear weapons proliferation purposes pursuant to the Export Administration Act of 1979 or the Arms Export Control Act.

To the extent practicable, reports submitted pursuant to this section should be based on unclassified information. Portions of each such report may be classified.

Mr. PELL. Mr. President, my amendment would expand reporting requirements to cover nuclear transfers as well as the chemical and biological transfers. I believe that the expansion of the reporting requirement to cover dangerous nuclear-related transfers is useful, and I am glad to offer this amendment to meet the concerns of the Senator from Arizona. I hope very much that the Senator from Arizona will concur in this amendment.

Mr. McCAIN. Mr. President, I concur in the amendment. I again thank my friend from Rhode Island. I urge adoption of the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment of the Senator from Rhode Island.

The amendment (No. 1636) was agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Is there further debate on amendment 1635, as amended?

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for a quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I ask that the Senate now consider the original amendment, as amended.

The PRESIDING OFFICER. Is there further debate on amendment 1635, as amended? If not, the question is on agreeing to the amendment.

The amendment (No. 1635), as amended, was agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. McCAIN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1637

(Purpose: To impose sanctions against persons who engage in the trade or use of nuclear weapons)

Mr. McCAIN. Mr. President, I have an amendment at the desk and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 1637.

Mr. McCAIN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER (Mr. WIRTH). Without objection, it is so ordered.

The amendment is as follows:

On page 2, line 24, after the word "carrying", insert the phrase: "nuclear,"

On page 3, line 1, after the word "of", insert the phrase: "nuclear,"

On page 3, line 9, after the word "a", insert the phrase: "nuclear,"

On page 3, line 13, after the word "of", insert the phrase: "nuclear,"

On page 3, line 18, after the word "use", insert the phrase: "nuclear,"

On page 3, line 19, after the word "use", insert the phrase: "nuclear,"

On page 3, line 25, after the word "deliver", insert the phrase: "nuclear,"

On page 4, line 3, after the word "to", insert the phrase: "nuclear,"

On page 4, line 6, after the word "with", insert the phrase: "nuclear,"

On page 4, line 14, after the word "a", insert the phrase: "nuclear,"

On page 4, line 17, after the word "of", insert the phrase: "nuclear,"

On page 4, line 24, after the word "used", insert the phrase: "nuclear,"

On page 5, line 3, after the word "used", insert the phrase: "nuclear,"

On page 5, line 4, after the word "used", insert the phrase: "nuclear,"

On page 5, line 14, after the word "used", insert the word: "nuclear,"

On page 5, line 15, after the word "used", insert the phrase: "nuclear,"

On page 6, line 9, after the word "of", insert the phrase: "nuclear,"

On page 6, line 14, after the word "used", insert the phrase: "nuclear,"

On page 6, line 16, after the word "used", insert the phrase: "nuclear,"

On page 8, line 10, after the word "of", insert the phrase: "nuclear,"

On page 8, line 11, after the word "of", insert the phrase: "nuclear,"

On page 9, line 11, after the word "using", insert the phrase: "nuclear,"

On page 9, line 12, after the word "using", insert the phrase: "nuclear,"

On page 9, line 21, after the word "using", insert the phrase: "nuclear,"

On page 9, line 22, after the word "using", insert the phrase: "nuclear,"

On page 10, line 19, after the word "of", insert the phrase: "nuclear,"

On page 10, line 21, after the word "of", insert the phrase: "nuclear,"

On page 10, line 25, after the word "of", insert the phrase: "nuclear,"

On page 11, line 2, after the word "of", insert the phrase: "nuclear,"

On page 12, line 22, after the word "to", insert the phrase: "nuclear,"

On page 13, line 2, after the word "carrying", insert the phrase: "nuclear,"

On page 13, line 15, after the word "uses", insert the phrase: "nuclear,"

On page 13, line 21, after the word "a", insert the phrase: "nuclear,"

On page 14, line 2, after the word "of", insert the phrase: "nuclear,"

On page 14, line 7, after the word "of", insert the phrase: "nuclear,"

On page 14, line 18, after the word "use", insert the phrase: "nuclear,"

On page 14, line 23, after the word "(q)", insert the phrase: "nuclear,"

On page 15, line 3, after the word "deliver", insert the phrase: "nuclear,"

On page 16, line 8, after the word "acquire", insert the phrase: "nuclear,"

On page 16, line 11, after the word "used", insert the phrase: "nuclear,"

On page 16, line 13, after the word "used", insert the phrase: "nuclear,"

On page 20, line 14, after the word "acquire", insert the phrase: "nuclear,"

On page 20, line 17, after the word "used", insert the phrase: "nuclear,"

On page 20, line 19, after the word "used", insert the phrase: "nuclear,"

Mr. McCAIN. Mr. President, the amendment expands S. 195 to cover the proliferation of nuclear weapons. It is the last step necessary to make S. 195 a comprehensive approach to fighting proliferation. It is the last step necessary to respond to one central fact: Proliferation is the greatest single threat to peace we face in the 1990's, and we must address every aspect of proliferation, and not simply selected weapons of mass destruction.

Let me stress this point: It is not enough to attack the use of chemical and biological weapons, and it is not enough to concentrate our attention on the most reckless and threatening developing countries. We must develop and pass legislation that will attack the proliferation of nuclear weapons.

The precise details of the number of nations seeking nuclear weapons are classified. However, Rear Admiral Brooks, the Director of Naval Intelligence, has testified that, "a dozen or so countries will be able to deploy weapons by the year 2000." (HASC, March 14, 1990, p. 52).

As I have previously mentioned, a recent study by the Carnegie Endowment has made it painfully clear that the Nuclear Non-Proliferation Treaty is failing to achieve its objective in terms of putting effective restraints on both supplier and buyer countries.

The Carnegie study indicates that proliferation is taking place in nations as diverse as Argentina, Brazil, India, Iraq, Iran, North Korea, Pakistan, and South Africa. It states that:

> The former states have had to circumvent the export controls of the industrialized countries—either by means of clandestine exports involving these advanced nuclear suppliers themselves, or by turning to less conscientious nuclear supplier countries in the developing world. (Leonard S. Spector, "Nuclear Exports: The Challenge of Control, A Special Report", Carnegie Endowment for International Peace, April 1990, p. i).

This report goes on to state that:

> As the 1990's being, two overlapping patterns of nuclear trade are seriously undermining global efforts to slow the spread of nuclear arms. The first is the growing ability of emerging nuclear states to obtain weapons-relevant nuclear commodities clandestinely from the advanced industrialized nations—the traditional nuclear supplier countries. These transfers have played a central role in advancing the nuclear weapons capabilities of Pakistan, India, Argentina, Brazil, and Iraq.
>
> The second threatening trend has been the expanding commerce in weapons-relevant nuclear goods—both overt and covert—involving a group of less developed states with growing nuclear industries . . . Commerce involving the second-tier suppliers has already contributed importantly to nuclear weapon capabilities in India and Pakistan, and is likely to grow in significance in the years ahead.

The Carnegie report indicates that this growing nuclear blackmarket may already include suppliers located in the People's Republic of China, South Korea, Spain, and Taiwan.

These warnings make it painfully clear that proliferation does not involve a single type of weapon of mass destruction, and that our existing framework of treaties and agreements threatens to become a Potemkin village—a facade that hides the grim reality of a massive threat to world peace and all mankind.

My amendment will add the word nuclear to every relevent portion of S. 195 and the amended form of S. 195. It will expand S. 195 to deal with all forms of weapons of mass destruction, and add the teeth to our efforts to control proliferation that the NPT so sadly lacks.

Mr. President, each week leads to the disclosure of new efforts to acquire weapons of mass destruction and the means to deliver them. It has now been more than 6 years since the first major use of chemical weapons in the Iran-Iraq War. During that time we have spoken many words, issued many resolutions, and tried less formal means of dealing with the problem. We have temporized and we have delayed.

It is painfully obvious that the problem of proliferation will not go away. It is painfully obvious that talk and conventional diplomacy are not enough, and it is painfully obvious that good intentions are meaningless without teeth and a formal demonstration that this nation is truly committed to the fight against proliferation.

It is equally obvious that we cannot limit such action to a few of the more extreme developing countries. Once again, let me stress that there are no good proliferators. No one can guarantee that turbulent states in turbulent regions remain friendly. No one can guarantee that what seems to be a stable pattern of peace or deterrence will remain stable.

Mr. President, there are some problems whose consequences are too serious to ignore until they become crises. We may only face limited regional threats today, but they will be threats to our forces in Asia and the Middle East tomorrow, if they are not threats already. By the mid-1990's, they will be massive threats to friendly and allied nations throughout the world, and by the end of the 1990's, they will be threats to our own territory.

Equally important, we have a moral responsibility.

I do not believe we can wait to act until another Halabjah focuses our attention on the horror such weapons inevitably inflict. Half a century ago, we turned a blind eye to the very real threat to millions of Jews with results that none of us can ever forget. We now know all too well that genocide can be a grim reality, and we must never ignore such risks again.

Mr. President, I urge my colleagues to support this amendment and I urge its consideration.

I yield to my colleague from Rhode Island.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I commend very much indeed the Senator from Arizona for his concerns regarding nuclear proliferation. I share them, and every Member of this body shares them. I do not believe, however, that concerns about nuclear weapons use or the proliferation of nuclear weapons-related equipment, materials, and technology can be addressed properly by tying them to chemical and biological weapons legislation.

I want the Senator to know that I will be glad to ask our staffs to work together at an early date to see if good legislation can be developed in that area focusing on nuclear proliferation. There is absolutely no argument on any of this with regard to the urgency and vital necessity of the problem.

I believe that we can work together and, accordingly, I ask if the Senator might consider withdrawing his amendment.

Mr. McCAIN. Mr. President, it is with great respect for the distinguished chairman of the committee, and with great reluctance, that I accept his request to withdraw the amendment in favor of another vehicle for this much-needed legislative measure. It is not necessary to do so, but I do remind my friend from Rhode Island that right now there are no prohibitions, no sanctions, no exposure for the acquisition of nuclear materials. It is badly needed, and I am pleased by his commitment that the Foreign Relations Committee will address this issue at the earliest opportunity.

Accordingly, Mr. President, I ask unanimous consent to withdraw my amendment.

The PRESIDING OFFICER. The Senator can withdraw his amendment. Without objection, it is so ordered.

The amendment No. 1637 was withdrawn.

Mr. PELL. I thank my colleague and friend from Arizona very much indeed. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Was the leader's time reserved?

The PRESIDING OFFICER. Leader time was reserved.

Mr. DOLE. I ask that I may use that time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Kansas is recognized.

Mr. DOLE. I thank the Chair.

(The remarks of Mr. DOLE pertaining to the submission of Senate Concurrent Resolution 131 are located in today's RECORD under "Submission of Concurrent and Senate Resolutions.")

Mr. PELL. Mr. President, I add that on the bill before us, with exception of the amendment, we will accept observations of the Senator from Florida [Mr. MACK] and observations of the Senator from Utah, the problems he may have. As far as I know this bill is ready to be voted upon.

Having said that, seeing no immediate desire to move forward, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HEINZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. KERREY). Without objection, it is so ordered.

Mr. HEINZ. Mr. President, today the United States is faced with a moral and political crisis that may very well alter our entire concept of national security. Through an almost universal consensus, nuclear weapons and effective delivery systems have been limited to the United States, the Soviet Union, and a handful of other nations. To a large degree, the close control of these weapons has been related to the relative peace of the last 44 years. This is not to imply that many long and bloody wars have not been fought—indeed they have, particularly in the Persian Gulf—but rather that they have not been allowed to escalate into a superpower confrontation. Equally important, the belligerents have not been able to drag each other into nuclear oblivion.

The spread of biological and chemical weapons may change this situation. The use of chemical weapons as a poor man's nuke will upset the current international balance of power and will enable irrational countries, such as Libya, to conduct terrorism at a much more dangerous and grisly level. It is our duty to prevent this from happening.

Chemical and biological weapons have a long, infamous history. During Ghengis Khan's march into Europe, he herded disease-infected peasants and animals ahead of him to spread contagians in order to aid his conquest. Several hundred years later, the Turks flung plague infested bodies into Constantinople during the siege. The 20th century, however, has seen the most extensive use of such weapons. World War I was characterized by the development and use of chlorine, phosphene, and mustard gas, all of which were developed during the war. In spite of the 1925 Geneva protocol which banned the use of chemicals as weapons, the practice continued. The Italians and Japanese used chemicals during the 1930's in their attempted subjugation of Ethiopia and China, respectively.

The 1970's and 1980's have seen even more use of these hideous devices. The Soviets have used the most contemporary chemical weapons in their occupation of Afghanistan. Indeed, they apparently even used a toxic gas to break up a demonstration in Tbilisi, the capital of Georgia, in the Soviet Union, on April 9, 1989. The Iranians and Iraqis gassed each other, and their own people, in spite of international condemnation. In Southeast Asia there have been numerous instances of yellow rain and several chemical attacks conducted by the Vietnamese against the Cambodians. In addition, the Journal of Defense and Diplomacy has reported many cases of chemical use in Africa. The Libyans used chemicals many times against Chadian forces. Furthermore, the Marxist regimes of Ethiopia, Angola, and Mozambique have each used a variety of chemical devices against anti-Communist resistance movements.

The result of all these cases, especially the Iraqi one, has been the establishment of precedent. Each time a country gets away with this intentional outrage, it becomes easier for it to happen again. The Iraqis ignored the international community and used a variety of chemical systems against poorly protected Iranian forces. Iran, with a population three times that of Iraq, was stalemated. Regardless of the fact that it possessed a 3-to-1 superiority, which in military circles is the requirement for a successful attack, Iran was forced to the negotiating table. The use of chemical weapons by Iraqi forces was a major factor in their success. Furthermore, what was previously considered an unacceptable weapon was used in massive proportions in spite of the public outcry. Thus, what was once considered to be an extravagant luxury only for the superpowers may soon by considered, if you will, a necessity for Third World nations.

In order to prevent the rampant spread of chemical weapons, especially to unstable, irrational, or morally deviant nations, the United States must act now. It is for this reason that Senator DOLE, Senator GARN, Senator DODD, myself, and others sponsored the Chemical and Biological Weapons Control Act, S. 8. The primary goal of our bill is to discourage the proliferation of technology and materials necessary to produce chemical and biological weapons and their delivery systems. In order to facilitate this, the bill also creates a domestic control system by which U.S. technology and material are controlled to problem countries.

Mr. President, this bill is designed to impact only on those who choose to aid morally deviant nations. Essentially, it creates a three-tiered system for domestic controls. Any company that follows these guidelines will have no difficulty whatsoever. Only those firms that choose to violate this process will face repercussions.

The first tier is a list of countries, to be compiled by the President, that have either attempted, or are currently attempting, to acquire material and technology utilized in biological or chemical weapons.

The second tier is a list of materials which are unique or particular to the production of such substances or to their delivery systems. Items on this list are to be considered controlled materials requiring a special license for export and may not be sold to any of the nations listed in the first tier.

The third tier is comprised of ordinary items which are considered to be dual use in that they are utilized in the production of both ordinary items and chemical-biological weapons. These items are not to be controlled in most circumstances, unless they are sold: First, to nations listed in the first tier; second, in conjunction with items listed in the second tier; or third, they are sold to nations that are currently receiving shipments of components from the second tier but not from the same company that is selling the dual use items. In these cases exports of dual use items must be subject to license for export, and hence control.

Mr. President, this bill differs from other measures which put a blanket halt on American goods as a tactic of foreign policy, as President Carter's 1980 grain embargo and President Reagan's 1982 pipeline embargo did. These measures have a history of predominantly hurting only American firms while barely affecting their target, in this case the Soviet Union. This bill, S. 8, will only limit trade to

certain countries in a few particular items. Furthermore, we hope that our friends and allies will follow our lead in this area and will help to place an effective quarantine on undesirable nations to keep them from acquiring chemical weapons capabilities. It would be ideal if all countries would accept the responsibility of ensuring that their businesses adhered to the same moral standards by which nations are judged. Companies like Toshiba and Imhausen would then be much less inclined to put profits before the people of the world.

Nevertheless, should others shrink from their responsibility, the bill provides for action against foreign companies who violate these standards. While the United States can neither fine nor imprison violators, sanctions can be imposed by the President. Such companies can be denied the privilege to import goods into the United States or to participate in U.S. Government procurement procedures. While we sincerely hope that such measures will not have to be taken, they will be if businesses refuse to accept their moral and social responsibilities.

Mr. President, it is well known that I am not one to join country of the month movements. I do not see how much improvised schemes further the role and the respectability of the United States and its Congress. Yet sometimes they contain the roots of the problem, and if refined can be a useful and responsible solution. Chemical and biological weapons legislation is an outgrowth of such a movement. It has evolved from focusing on four specific countries to addressing the proliferation of biological and chemical weapons worldwide. It has both been honed and refined to meet both current and future needs of the United States, criteria that all legislation should be expected to maintain.

Part of that refining process has been the development of separate legislation in the Foreign Relations Committee. I commend that committee on its efforts and on its product. I regret that my own committee, the Banking Committee, was not as diligent in developing and reporting S. 8, which, in my judgment, is a superior bill.

Like Senators GARN and SARBANES, I want also to commend the Foreign Relations Committee for its willingness to accept most of the Banking Committee's amendments.

Unfortunately, it declined to accept the most important of the amendments—those that clarify the legal basis for imposing sanctions on companies that sell biological weapons or chemical weapons or the means to produce or deliver them. As a result, I have no choice but to side with the Senator from Utah and other members of the Banking Committee in opposing the bill in its present form.

Part of the debate yesterday concerned jurisdiction, which is an element of the issue, but not the only one. Let me comment briefly on the more important substantive question that is at stake here. That issue is the statutory basis for the company sanctions in the bill. The original Foreign Relations Committe bill created a free standing law which did not distinguish between munitions, dual-use, and civilian items, even though that distinction is the basis for virtually all of our current export controls.

The substitute for S. 195 that is pending today attempts to accommodate Banking Committee concerns by placing generic sanctions language in both the Arms Export Control Act and the Export Administration Act, the two statutes that govern exports of munitions and other items, respectively. Such duplication can only lead to confusion and bureaucratic uncertainty. Moreover, it flies directly in the face of a continuing effort by the Banking Committee and the House Foreign Affairs Committee to conform our various control lists more closely to Cocom's lists and thereby to eliminate overlaps, inconsistencies, and duplications.

That will be one of the goals of our EAA markup later this year because it is in the interest of exporters in the business community and control officals alike. As part of a general streamlining effort, it will speed up the licensing process, reduce time-consuming disputes within the bureaucracy and make our exporters more competitive.

Although the sanctions in this bill do not directly relate to the licensing process—indeed, the Toshiba sanctions, upon which all this language is based, are enforced by a completely different agency, the Treasury Department—the confusion generated by the ambiguity in the substitute, however, can only aggravate an already complicated situation.

The alternative proposed by the Banking Committee, on the other hand, would facilitate the clarification between lists. It would also place sanctions legislation in both acts but would make clear that the Arms Export Control Act language is to be used to impose sanctions relating to violations affecting items on the munitions list, that is weapons and weapons systems, and that the EAA language is to serve the same purpose for items controlled by that act. That does not, by the way, place the process in the hands of the Commerce Department, As I mentioned, sanctions in these cases will follow the Toshiba model and be administered by the Treasury Department.

That, of course, raises the jurisdictional question. The Banking Committee alternative would maintain the status quo. By separating the two statutes, sanctions taken pursuant to the AECA would be under the jurisdiction of the Foreign Relations Committee, and sanctions taken pursuant to the EAA will be under the jurisdiction of the Banking Committee.

The provisions of the substitute, in contrast, would encourage further confusion between the committees and make it more difficult for the Senate to deal with these issues effectively in the future.

As I said earlier, Mr. President, this matters to the Banking Committee, but the substantive difference should matter to the entire Senate.

In conclusion, I want to urge prompt action on chemical weapons legislation. The threat is very real, very present. Maybe not today, not tomorrow, or possibly not even next month, but soon. Sooner than we all wish, irresponsible nations will be threatening civilized society and holding chemical and biological weapons over each others' heads. We must act now to bring some sense into this most dangerous situation, but we must act wisely.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HEINZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1638

(Purpose: To establish a policy for the negotiation of multilateral controls on the proliferation of chemical or biological weapons, and for other purposes)

Mr. HEINZ. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Pennsylvania [Mr. HEINZ] proposes an amendment numbered 1638.

Mr. HEINZ. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of section 201, add the following and redesignate succeeding sections accordingly:

It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to undertake a diplomatic initiative to strengthen the Australia Group's objectives

to support the norms and restraints against the spread and the use of chemical warfare, advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by introducing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a permanent secretariat,

(B) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accuring to Australia Group members,

(C) liaison officers to the secretariat from within the diplomatic missions,

(D) a close working relationship between the Group and industry,

(E) a public unclassified warning list of controlled chemical agents, precursors, and equipment,

(F) information-exchange channels of suspected proliferants,

(G) a "denial" list of firms and individuals who violate the Group's export control provisions, and

(H) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

SEC. 202. PRINCIPLES GUIDING THE ADOPTION OF A MULTILATERAL EXPORT CONTROL SYSTEM.

(a) IN GENERAL.—The United States Government should propose to the Australia Group that its objectives should be guided by taking all appropriate measures—

(1) to ensure that the measures are effective in impeding the production of chemical weapons,

(2) to ensure that the measures are easy and economical to implement, and that they are practical; and

(3) to ensure that the measures do not impede the normal trade of chemicals and equipment used for legitimate purposes.

(b) DEFINITIONS.—For the purpose of section 201 and this section, the term "Australia Group" means the group of nineteen OECD nations dedicated to the control of the export of certain chemicals, including Australia, New Zealand, Austria, Belgium, Denmark, Canada, Japan, Norway, United States, United Kingdom, Federal Republic of Germany, France, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Luxembourg, and Switzerland.

Mr. HEINZ. Mr. President, on April 2, 1990, Iraqi President Saddam Hussein delivered a fiery speech to his armed forces, warning that Iraq would use its extensive stockpile of sophisticated binary chemical weapons as strategic weapons capable of delivering retaliatory blows to any country that committed aggression against Iraq. He singled out Israel as an example. Binary chemical weapons do not become lethal until they are fired, but once fired they combine to form a lethal mixture of mustard and nerve gases. The administration correctly branded Hussein's remarks as "inflammatory, irresponsible, and outrageous."

Iraq's boast was not an idle one. According to a Department of Defense study of the final stages of the Iran-Iraq War, in March 1989, Iraq and Iran both conducted one of the worst civilian massacres of the war in the Iraqi Kurdish city of Halabja. Artillery shells filled with deadly cyanide gas, mustard gas, and a nerve gas, sarin, were fired indiscriminately into the city of nearly 50,000 inhabitants.

We know that there are at least 20 Third World countries actively seeking chemical precursors and agents for the development of chemical weapons arsenals. We also know that these same 20 countries are actively seeking technology and equipment to develop missile delivery systems. As I have said during banking hearings on export controls, I cannot think of anything more terrifying than missiles equipped with chemical warheads in the hands of well-known terrorist groups supported by terrorist countries on our foreign policy control list, specifically, Iran, Iraq, Syria, and Libya.

But I am perhaps most dismayed by the lack of a multilateral effort to deal with the proliferation of chemical weapons. Regrettably, the only multilateral effort currently underway to negotiate a verifiable global ban on chemical weapons—the 40-Nation Conference on Disarmament meeting in Geneva—does not include those countries whose avowed objective is to develop a chemical weapons stockpile and delivery system. This is not an American problem; it is a global problem.

S. 195 falls short of what is required to mobilize those civilized countries that would rid the Earth of the scourge of chemical weapons.

I, therefore, offer an amendment to strengthen the multilateral diplomatic efforts of the U.S. Government to control the proliferation of chemical agents, precursors, and equipment that would assist the ability of certain countries to acquire a chemical weapons capability that threatens the security of the United States, its allies, and friends.

There is only one international organization dedicated to preventing the spread of chemical and biological weapons: the Australia group whose members include all NATO countries except Greece and Turkey; all EC-12 countries, Japan, Austria, Australia, New Zealand, and Switzerland. This group, unfortunately, is an informal working group.

I strongly believe that the Australia group must take the necessary steps to transform itself from an informal group to a formal organization with a decisionmaking structure to meet the challenges of the next decade.

Specifically, the amendment establishes the policy of the United States Government by taking all appropriate multilateral diplomatic measures to strengthen the Australia group's objectives to support restraints against the spread and the use of chemical warfare, advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be used to produce chemical weapons.

The United States Government should introduce steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, by proposing that the Australia group establish.

First, a permanent secretariat. In fact, the Australian chair already serves the function of a permanent secretariat, through its contact point in Australia's Department of Foreign Affairs and Trade.

Second, a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia group members. Indeed, the group's work is already consultative, with the express aim of harmonizing export controls and sharing information and experiences.

Third, liaison officers to the secretariat from within the diplomatic missions. There exists already support for this idea—Japan proposed it—and it represents a modest amendment to the current system of contacts within national governments and informal contacts with missions in Canberra.

Fourth, a close working relationship between the group and industry. An important aspect of the group's work is in promoting close cooperation between government and industry, thus the notion of a partnership between the two groups should be a natural one. Whether industry should be extended formal membership in the Australia group is for the group and industry to determine.

Fifth, a public unclassified warning list of controlled chemical agents, precursors, and equipment. In fact, the group already publishes a public unclassified warning list of 50 chemical weapons precursors that is made available to national chemical industries. Most of these chemicals are also under national export control legislation. Indeed, work is already underway on an equipment warning list. Sensitivity may be required if the potential for the lists to be used by would-be proliferants is apparent.

Sixth, information-exchange channels of suspected proliferants. The

group already shares information and it is recognized by the group that information-sharing may form a useful common base on which to harmonize export control policy positions.

Seventh, a denial list of firms and individuals who violate the group's export control provisions should be established. This, of course, would include members of the group who have reported violations by their own companies, and so forth. This provision may force members to scrutinize their own export control systems more closely, and I hope it does.

Eighth, broader cooperation between the Australia group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the group should also be encouraged and initiated. The group has added two new members recently, Austria and Switzerland. It should be encouraged to add more even if it means increasing the size and I suppose the bureaucracy of the group. This is probably the main reason the group prefers to stay small and informal at this point.

I have discussed these eight points with some of the governments of the Australia group. There is, by and large, some acceptance for my amendment, but predictably there is also some resistance. Interestingly, most of the resistance has come from the U.S. Government. This alone tells me that this is probably a good idea.

Mr. President, I think it is important that we move forward on a multilateral approach to dealing with this problem. That is the only approach that will guarantee an effective end to chemical weapons. Amplifying the role of the Australia group will help achieve that objective, and I hope we will be able to adopt this amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. Is there further debate on the amendment?

The Senator from Rhode Island.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SHELBY). Without objection, it is so ordered.

Mr. DOLE. What is the pending business?

The PRESIDING OFFICER. The pending business is the Heinz amendment.

Mr. DOLE. Mr. President, yesterday evening we started serious work on S. 195—the Foreign Relations Committee-reported chemical weapons bill.

There have been some amendments addressed, some adopted; a Heinz amendment is pending. We are trying to work out something on our side of the aisle involving Senator HEINZ and Senator GARN, and we hope that can be resolved. If that can be resolved, there is a good opportunity we can complete action on this bill at a reasonable time today.

At this point, I just want to make a brief overall statement on the bill.

First, I think this is a critically important subject. Just as we are making real progress with the Soviets in scaling down and ultimately eliminating our own chemical weapons programs, the capacity to produce and use chemical weapons has spread like a terrible poison to more than 20 countries around the world.

We all know of the horror of the use of chemical weapons by both sides in the Iran-Iraq War. We know of the overwhelming evidence that Libya's Qadhafi is busily developing a chemical weapons capacity.

We know that, for many Third World countries, chemical weapons are seen as the "bargain basement" weapon of mass destruction.

Last month, along with four other Senators, I visited Iraq. Our delegation met with Iraq's President Saddam Hussein, who makes no bones about producing chemical weapons.

If Israel attacks Iraq, he says, Iraq will retaliate. If Israel launches a nuclear attack, he adds, Iraq will retaliate with chemical weapons.

For Saddam Hussein, chemical weapons are bargain basement deterrence—or perhaps bargain basement blackmail.

Many months ago, I said that the evil genie of chemical weapons is already out of the bottle. It is even more critical today that we do everything we can to see that the genie does not spread his poison more widely.

So this is an urgent issue, and one that has been of great interest to me.

At the end of the last Congress, I introduced a chemical weapons bill—the first major legislation aimed at imposing sanctions on foreign firms aiding and abetting nations trying to develop chemical weapons. That bill was cosponsored by Senators GARN, HEINZ, HELMS, MCCAIN, and others—some of the Senators now cosponsoring S. 195, or who intend to offer amendments.

On the first day of this Congress, I introduced S. 8—the Dole-Garn-Heinz chemical weapons bill. It was the first bill on chemical weapons introduced in this Congress and was an improved version of our original bill.

As Senator GARN noted in his statement yesterday, our bill was referred to the Banking Committee—which has jurisdiction over the Export Administration Act, which our bill amends.

I and Senators GARN and HEINZ hoped that the Banking Committee would puruse our bill more aggressively. I wrote to the chairmen of both the full committee, Senator RIEGLE, and relevant subcommittee, Senator SARBANES, shortly after introducing our bill, asking for prompt committee action.

Mr. President, I ask unanimous consent to print in the RECORD their replies.

There being no objection, the replies were ordered to be printed in the RECORD, as follows:

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS,
*Washington, DC, April 5, 1989.*

Hon. ROBERT DOLE,
*U.S. Senate,*
*Washington, DC.*

DEAR BOB: Thank you very much for your recent letter urging the Banking Committee to begin consideration of S. 8, a bill which you have introduced with Senators Garn, Heinz, and others to tighten United States controls on chemical exports to certain countries and to impose sanctions on foreign firms which are aiding and abetting the development and proliferation of chemical weapons. That bill, which would amend the Export Administration Act, was referred to the Banking Committee. Senator Sarbanes, who chairs our Committee's International Finance Subcommittee, has informed me of his intention to schedule timely hearings on the subject of your legislative proposal. He will advise you as soon as the hearing dates have been arranged.

I strongly share your concern about the need to tighten up our domestic controls on types of chemical exports and to secure greater cooperation from our allies in similar efforts so as to slow the development of chemical weapons by certain irresponsible foreign governments. This is an urgent issue and I look forward to working with you, and the other co-sponsors of your bill, as consideration of it by the Banking Committee proceeds.

Thank you again for letting me know of your very strong interest in this matter.

With best wishes,

Sincerely,

DONALD W. RIEGLE, Jr.,
*Chairman.*

---

COMMITTEE ON BANKING, HOUSING AND URBAN AFFAIRS,
*Washington, DC, March 16, 1989.*

Hon. ROBERT DOLE,
*U.S. Senate,*
*Washington, DC.*

DEAR BOB: Thank you very much for your letter about hearings on S. 8, the bill which you have introduced with Senators Garn, Heinz, and others to impose sanctions on foreign firms which are aiding and abetting the proliferation of chemical weapons. I want to assure you that it is my intention to schedule timely hearings in the International Finance Subcommittee of the Banking Committee on S. 8 and related bills in the Subcommittee's jurisdiction and will let you know as soon as the hearing dates have been arranged.

I strongly share your concern about widespread reports of chemical weapons production in a number of countries around the world. This trend is a very serious matter indeed, in my view requiring a forthright and effective response. Legislation to address this urgent issue is high on the Subcommittee's agenda, and I look forward to working with the coming months.

With best regards,
Sincerely,

PAUL S. SARBANES,
*Chairman, Subcommittee on International Finance and Monetary Policy.*

Mr. DOLE. Mr. President, I was encouraged by those replies but, unfortunately, our bill did not get past the stage of a single hearing. There never was a markup.

I do not fault the committee, per se. I know that there was a bipartisan effort by the committee to work out a deal with the Foreign Relations Committee, for some legislation incorporating the principal elements of both S. 8 and S. 195.

I do regret, though, that—as those negotiations failed to reach a final agreement—the Banking Committee did not complete action on S. 8. It seems to me that, as the first bill on this issue introduced, it might have been the best course to report it out, too—of course, with whatever changes the Banking Committee wished to make—so that we could be dealing with both bills now.

Again, this should not be a partisan matter, but I happen to think some of the provisions of S. 8 are superior to the comparable provisions of S. 195. As I indicated, I may be joining Senator GARN in offering amendments incorporating those particular provisions, as we work our way through S. 195.

In any case, the committee process is now water over the dam. We do have S. 195 before us. It has borrowed some of the concepts and some of the language of both the bill I introduced in the last Congress and S. 8. It is a useful starting point for our floor action.

I might also note that the House has already passed chemical weapons legislation, which the administration has endorsed. By contrast, the administration does not support S. 195 in its current form.

In fact, the differences are not all that great. It may be that—here on the floor, or in conference, when it comes to that—there can be a very careful look at the House bill to see if it offers some guidance on how to end up with a bill the administration will embrace.

Maybe we can bring the administratio around. It seems to me this is an issue they ought to take a hard look at, and I think they will be fairly hard lined with reference to.

But the bottom line is: This is an urgent issue. S. 195 is the vehicle we will use to tackle this issue.

It deserves our serious and prompt attention.

I am certainly pleased that we begun the process and, hopefully, by day's end, we will complete action on S. 195 with any appropriate amendments which may be adopted, or whatever.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I thank the minority leader for his statement, his thoughts and views, and share with him a desire to see this matter resolved. I regret it was not done in the committee process, but that is water behind us. The point is to try to secure a reasonable compromise at this time that involves both sides.

Mr. DOLE. I indicate to the manager of the bill, and also the majority leader, because I know he may be wondering when he sees the quorum call light go on if anything is happening. I can tell him we are making progress on this side resolving one of the issues that might have kept us here for a day or two.

I hope the majority leader and the chairman understand that.

Mr. PELL. I do. I wish that the people making the recommendation now represented both sides of the aisle.

I thank the Senator.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COATS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Indiana is recognized.

AMENDMENT NO. 1639

(Purpose: To provide treatment of solid waste by States)

Mr. COATS. Mr. President, I ask unanimous consent that amendment No. 1638 be laid aside until after disposition of the amendment which I send to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered. The clerk will report.

The legislative clerk read as follows:

The Senator from Indiana [Mr. COATS] proposes an amendment numbered 1639.

Mr. COATS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 25, immediately after line 4, add the following:

TITLE III—TREATMENT AND DISPOSAL OF SOLID WASTE

SEC. 301. SOLID WASTE.

(a) UNLAWFUL ACT.—It is unlawful for any person to ship or transport or cause to be shipped or transported any solid waste generated within a State into another State for its treatment or disposal therein, if such shipment or transportation into a State is in violation of the laws of that State.

(b) STATE LAWS.—Each State is authorized to enact and enforce laws regulating the treatment and disposition of solid waste within such State, including laws imposing a ban on the importing into such State or any part thereof, of solid waste for its treatment or other disposition, laws otherwise regulating the importing into such State of solid waste for its treatment or other disposition, and laws imposing and collecting fees or other charges in connection with the treatment and disposition within such State of solid waste generated in another State.

(c) VIOLATIONS.—Any person violating subsection (a) of this section shall, for the first such violation, be fined not more than $35,000, and for a second or subsequent violation, such person shall be fined not more than $70,000, or imprisoned for not more than 10 years, or both.

(d) EFFECTIVE DATE.—The foregoing provisions of this section shall take effect upon the expiration of the 12-month period following the date of the enactment of this Act.

SEC. 302. REPORTING.

(a) REGULATIONS.—Within the 180-day period following the date of the enactment of this Act, the Administrator of the Environmental Protection Agency, by regulation, shall establish a program pursuant to which each person who transports or ships or causes to be transported or shipped in interstate commerce any solid waste in excess of 100 pounds shall be required to prepare and submit to the Administrator, on an annual basis, a registration statement. Such statement shall include such person's name, principal place of business, the location of each activity handling solid waste, and a complete list and quantities of all solid waste transported or shipped in interstate commerce during the calendar year preceding such statement.

(b) PUBLIC AVAILABILITY.—The Administrator shall make such registration statements available, upon request, to the public.

SEC. 303. DEFINITIONS.

As used in this title, the term—

(1) "person" includes any State or political subdivision of a State or any individual, corporation, or other legal entity;

(2) "solid waste" shall have the same meaning as that provided in section 1004(27) of the Solid Waste Disposal Act; and

(3) "interstate commerce" shall have the same meaning as the provided in section 10 of title 18, United States Code.

Mr. COATS. Mr. President, during this Congress we have worked hard on environmental legislation. I think we have done some good things. We have acted on a landmark clean air bill, which I was pleased to support, and yet in the midst of the clean air debate the Midwest was targeted as a source of environmental problems.

As a part of the clean air process, I and other Midwestern Senators, did our best to meet the air quality goals of the legislation before us without dismantling our industry and throwing hundreds of thousands out of work, and I think we made some real progress on that issue in the Senate. Yet I stand here today to say that the Midwest also has a pressing environmental crisis which we must now address, for environmental problems not only move from west to east, as implicated in the clean air legislation, but also from east to west.

The environmental crisis currently threatening Indiana and the Midwest

region is the importation of solid waste, a problem no less serious than acid rain or urban smog. In 1983, Indiana had 143 active landfills. Today that number is just 70, and 31 are scheduled to close within the next 5 years. Surveys indicate that Indiana has less than 8 years of capacity remaining in its landfills.

The problem is not just one of inadequate space. Landfills can be environmental threats; methane gas fires and contamination of ground water are becoming more and more common. Two hundred thirty-three landfills are on the list of America's most hazardous waste sites and another 6,000 require investigation for serious contamination.

All of this is to say that Indiana and other States have enough problems of their own in dealing with waste generated within their State boundaries. But that is not all that we are asked to do. We are being asked to import and have dumped in our landfills hundreds of thousands of tons of trash every year. There is no secret where much of it comes from.

According to Newsweek magazine 3 States in the Northeast alone export 8,000,000 tons of garbage each year. About 30,000 tons travel America's highways every day in convoys of trucks moving from east to west to find landfill space in the Midwest to dump their trash.

Citizens around one landfill in Indiana called the Centerpoint Landfill in Brazil have documented as many as 30 trucks hauling in east coast trash on a daily basis. Recently a number of rail cars from the east coast sat for weeks in our State's capital leaking unknown substances. At one of our landfills in Allen County, Indiana, more than half the waste generated is generated out of State. Recently a company from one east coast State set up a transfer station in Indiana. Then they advertised in national magazines to "Send up your trash."

All across the country, Mr. President, States are trying their best to deal with this rising tide of trash. In the long-term, communities will need to recycle and make us of environmentally safe incinerators. Currently though only 5 percent of America's rubbish is recycled. But our avalanche of refuse requires some immediate answers as well.

Several States, including my State of Indiana, have taken the simple step of trying to limit some of their landfill capacity for their own use. But in each case, including in Indiana, court challenges have been immediate, and have indicated and ruled that States cannot ban or regulate the importation of interstate trash. Under the Constitution, these courts say the responsibility for interstate commerce lies with the Congress.

I therefore today am proposing an amendment which simply authorizes the State to regulate wastes within interstate commerce. It does not dictate to any State how it should handle interstate waste disposal issues. That flexibility ought to be given to the State, but it simply gives them the tools to meaningfully address the issue.

What does my bill do? First, it will give States the right to refuse trash coming in from other States. Not all interstate transportation of garbage should be forbidden but States like Indiana should have the right to reserve its limited capacity for its own use. I want to stress this point again.

This amendment and the provisions of this amendment do not ban the interstate transfer of trash but they give the State authorities the right to regulate that trash where necessary, ban it if it is not acceptable, or, if they do not have the capacity to impose fees, to impose reasonable regulations so that it can determine its own destiny in disposing of its trash and other trash. There may be instances where States will want to enter into bistate compacts or multistate compacts or work out arrangements in which to dispose of trash across State lines.

So this amendment does not ban importation of trash but it gives the State authorities the authority to do so or to regulate.

Second, my measure will allow States to charge a fee on imported trash. They money raised could be used to properly monitor landfills, or develop other landfills, or preserve the purity of the groundwater and the safety of local communities. It should be noted that States already have the authority to handle intrastate disposal issues. This has led to a series of ironies. There is only one State in the Nation which can effectively protect itself from New Jersey's trash. That State is New Jersey. The State of New Jersey strictly controls all aspects of waste management. The State sets up the tipping fee and determines where each city will dispose its trash. Intrastate dumping is strictly forbidden. But the State continues to rely on out-of-State dumping as a method to handle its excess disposing problems.

In addition, the State of New Jersey pays $5 per ton of trash disposed to be given to the community wherever it is dumped. These funds can be used in whatever way the communities want. It often adds up to millions of dollars annually. It is a violation of the commerce clause of the Constitution though to ask New Jersey to pay Indiana communities that same fee, $5, for every ton of trash generated.

Maine has effectively handled the out-of-State trash issue by outlawing all for-profit trash industries within the State.

I think failure to act on this legislation today will limit commerce far more stringently than relying on the States to responsibly act. I think the States will responsibly act in this regard. But if we do not do this, then States are going to have to take drastic measures in which to control intrastate dumping of trash as well as interstate dumping of trash. We are going to have lawsuits across the land.

It is very important particularly for a number of States that are the refuse dumping States that we give our governing authorities the right to set reasonable fees to enter into agreements and to deal with this pressing problem. Because if we are to deal effectively with the environment, the Senate must address this growing crisis.

The Midwest has proven itself willing to do its part for cleaner air. Now we will be asking for fair play for States that glut our limited landfills with trash, threatening our groundwater, and the health of our people. We feel we have done our part but our environmental challenges are just as acute. We ask for fair consideration as well.

I think this is a reasonable amendment. I think it goes to a problem that has been growing exponentially in just the last few years. Many States in the Midwest and other Western States have become repositories for out-of-State trash. Our own landfill capacity is shrinking rapidly. We have serious problems in just addressing disposal of our own waste, and yet because of interpretations by the Court of the commerce clause we are not able to deal effectively and efficiently with our trash and with disposing of others.

So this amendment would grant States the authority to do that. It gives specific congressional authority for States to determine their destiny in terms of waste disposal. I think this amendment is an important amendment that needs to be adopted.

Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. FORD. Mr. President, I ask unanimous consent that I be made a cosponsor of this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FORD. Mr. President, let me compliment the distinguished Senator from Indiana. He has hit upon an idea that I think will work. My State is becoming a dumping ground for solid waste. We are having tremendous trouble.

The collection stations are being put up at the crossroads of interstate

highways. Advertisements are being made, as the distinguished Senator from Indiana said, and they are advertising through books and magazines to send it. I think the States ought to have and should have the authority to issue regulations. They ought to be allowed to have the ability to set fees.

As my distinguished friend said from Indiana, they pay New Jersey but we are not allowed under the interstate commerce laws to receive that payment. Yet we get their solid waste.

I was just told this morning that at a site in northern Kentucky, 53 18-wheelers were lined up on a narrow county blacktop road. The residents could not even get through because of the out-of-State 18-wheelers in there dumping in this landfill. There is very little we can do about it unless we have the kind of law that Senator COATS has offered in this amendment to this bill.

Mr. President, I think the States should be given the authority. Day in and day out I have talked with my people at home, and the problem is multiplying daily. If we do not give our States the authority to do this, then I do not know what some Midwest States are going to do.

The mileage from east to our area is not too short. I think it is a good several hundred miles. But hauling the solid waste in by truck, by barge, by rail car, any way they can get it in, because of the interpretation of the interstate commerce law, we find ourselves incapable of regulating our own and having the responsibility of regulation.

So, Mr. President, I do compliment the Senator from Indiana for his effort. His staff was very good to us by sending it around yesterday, and we discussed it with them, and I compliment him for his position and say that I support it 100 percent.

I will call on my colleagues to help. If we have to have a vote, I think this is an amendment that ought to be accepted and we would not have to go through a rollcall vote. I am not sure that is going to happen. But it is so important to us, Mr. President, that this amendment be passed that I urge my colleagues to support Senator COATS in his effort here.

Mr. MCCONNELL. Mr. President, I rise to commend the Senator from Indiana for his amendment. It is a very, very important issue in the State of Kentucky, as well as in Indiana. We have indeed begun to become the dumping ground of the eastern part of the United States. It seems to me that the Senator from Indiana has offered an approach that would be constitutional, that would give us a chance to regulate the flow of out-of-State waste.

Mr. President, I ask unanimous consent that I be added as a cosponsor to Senator COATS' amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCONNELL. The Senator's bill addresses an issue of vital importance to the Commonwealth of Kentucky and to many other Midwest States. The inability of State and local officials to control the flow of out-of-State waste coming over their borders.

Mr. President, the Nation, as well as my home State of Kentucky, is in the midst of a serious garbage crisis. Shrinking landfill capacity, public opposition to new landfills, ground water contamination from leaking landfills, and lack of funding to upgrade and modernize these landfills are big problems facing the State and counties.

Matters are worse in Kentucky because other States are dumping hundreds of thousands of tons of their garbage into our landfills, and Kentucky can do very little about it. Last year, almost a half-million tons of out-of-State waste wound up in Kentucky landfills. This year there are plans on the drawing board for new, bigger dumps in my State which will import garbage in amounts which could easily double or triple the inflow of waste.

The situation is similar in other Midwest States. New Jersey waste is contaminating Midwest ground water, garbage trucks from Pennsylvania are tearing up Midwest roads, and New York trash is polluting the Midwest countryside. In short, the Midwest is rapidly on its way to becoming the garbage barge of America.

Mr. President, giving States the authority to differentiate between in-State and out-of-State waste is a critical first step toward addressing this pressing environmental issue. I have discussed this issue with environmentalists and State and local officials in my own State, and it is clear that they want more authority to control waste coming into Kentucky. While these officials may not necessarily want to completely ban out-of-State waste, they do want to ensure that if other States send their garbage to Kentucky, the residents of those States, and not Kentuckians, pay the true costs of disposing of it.

The amendment offered by the Senator from Indiana does just that. Clearly, Mr. President, this bill is not intended to be the final solution to the national garbage crisis. Federal, State, and local officials must work together to develop a comprehensive strategy for dealing with solid waste management.

Ultimately, this problem will be solved only through a responsible strategy which relies on a combination of source reduction, recycling, combustion and landfilling. In the meantime, let us give States the authority to deal with the immediate problem of out-of-State waste. The amendment offered by the Senator from Indiana does just that.

Let me just say in summary, Mr. President, that there is considerable authority that a ban on out-of-State waste may be unconstitutional, even after a statute such as the amendment the Senator from Indiana is offering. But there is every reason to believe that the option of setting a higher fee on out-of-State garbage versus in-State garbage would stand constitutional muster, and the amendment of the Senator from Indiana offers that option. There is every reason to believe that this amendment will cure the problem. I commend the Senator for his outstanding work in this field, and I urge the Senate to adopt the amendment.

Mr. President, I yield the floor.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. COATS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Indiana.

Mr. COATS. Mr. President, is it appropriate to ask unanimous consent to set aside the pending business in order to enter into the morning business to read a statement into the RECORD in another matter?

The PRESIDING OFFICER. It is.

Mr. COATS. Mr. President, I ask unanimous consent to set aside the pending amendment and proceed as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Indiana.

## NATIONAL PEACE OFFICERS MEMORIAL DAY

Mr. COATS. Mr. President, 2 days ago, thousands of law enforcement officers from all across the country came to Washington to observe National Peace Officers Memorial Day. That observance was in commemoration of the 163 men and women killed in the line of duty, slain protecting us from the rising tide of violent crime.

At the ceremony on the Mall, the officers gave a resounding response to Vice President DAN QUAYLE'S address. And with good reason. His speech was both a moving tribute to those who have lost their lives and a strong remainder of what must be done to ensure that those heroes have not died in vain. I recommend it to my colleagues and ask unanimous consent that it be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. COATS. Mr. President, one of the most important steps we can take to help law enforcement officers protect the American people is to enact the anticrime legislation President Bush submitted to the Congress a year ago. The Vice President made that point and asked the Congress to move forward on this urgently needed bill. He did not single out the House or the Senate, a particular committee or particular Members. He did note, entirely accurately, that "For one whole year, the Congress of the United States has sat on the President's anticrime package."

Yes, last year we did appropriate more money for law enforcement. And President Bush, in a speech in Kansas City on January 23, 1990, thanked the Congress for those funds. But he also pointed out that "it's time for Congress * * * to finish the job, because it does no good to send the troops into battle wearing handcuffs." It is past time to take off the handcuffs and to enact—not just bring up for debate—the President's tough, no-nonsense anticrime package.

I welcome the decision by the distinguished majority leader, in consultation with the distinguished minority leader, to consider comprehensive anticrime legislation next week. When the Senate does turn to that bill, it may be helpful to remember that, all across America, thousands of law enforcement officers will be watching us, watching what we do and, perhaps more important, what we do not do.

And watching with them will be the American people: fed up with violent crime, sick of the fear that haunts their streets and neighborhoods, and increasingly wise to the lame excuses some public officials use to cover up their inaction, or permissiveness, toward those who murder, rape, and maim.

Mr. President, if we fail to do the job the American people expect of us in supporting the President's anticrime package, we will hear deafening echoes of Mr. QUAYLE's speech from the people who sent us here to represent them. It behooves us to pay attention now, before we consider that legislation next week.

EXHIBIT 1

TEXT OF REMARKS BY THE VICE PRESIDENT, NATIONAL PEACE OFFICERS MEMORIAL DAY CEREMONY, WASHINGTON, DC

Thank you, Dewey for those inspiring and thought provoking words. You are all lucky to have found a great and tough leader in Dewey Stokes.

We are gathered here today in the name of the American people. We have come to commemorate 163 men and women who have made the highest sacrifice that any human being can make. These men and women, whose names will be read shortly, gave their lives so that we, their fellow citizens, could live freely and in peace. We are moved by what they have done for us, by the love we feel for them, and in the cases of the family members present by the memories of those who were most treasured by them in life.

And so it is that we have set aside this day every year to come together as a nation to honor those who have fallen in the line of duty. We come here seeking each other's company, to contemplate the terrible loss we have suffered, to express our frustration over the senseless violent acts of criminals, and to ask why God in His infinite wisdom has taken from us those who were so good and who we most loved.

There are no easy answers to questions such as these. But perhaps we should begin by keeping in mind the example set by the men and women who founded this country. They handed this special land on to us as a sanctuary of freedom, a "Shining City on a hill." But they did so only at a great cost in lives lost, both in wars overseas and in the struggle against crime at home.

We face the same reality that our forefathers confronted—that freedom is dearly bought and dearly maintained. And, that the price is paid in a never ending war against crime, as well as in ceaseless vigilance against threats from our enemies overseas.

The war against crime and drugs, which so taxes our patience and ability to persevere as a nation, is every bit as much a struggle for national survival as any other that this country has faced. The enemy within—the violent criminal and the drug dealer—threatens not only our freedom and way of life, but the very idea of civilization itself.

We who have not made the ultimate sacrifice must resolve to be as brave, as dutiful, and as generous as those whom we now honor. Let us live up to that obligation by leaving this Ceremony today pledged to do three things: First, to honor those who have died; second, to carry on their life's work; and third, to learn from their example.

We should begin by honoring those who have died this past year with the recognition that they are in fact American heroes. The fallen peace officers of 1989, and of every other year, gave their lives for their country as valiantly and as courageously as any of America's war heroes have done.

Today, we formally recognize and express our gratitude for that sacrifice. The National Law Enforcement Memorial, which will be completed soon, and which will be the site of this Ceremony in future years, will further express our admiration as a nation for the bravery, character, and love shown in the line of duty by these men and women.

Second, we should leave this Ceremony today pledged to carry on the life's work of those who have died. There is one piece of unfinished business in particular that, above all others, we should pledge to complete.

One year ago today, President Bush spoke at this Ceremony. He urged us to keep faith with the sacrifice of those peace officers who've died in the line of duty by waging a renewed and total war on crime. He called for "a national strategy, a partnership with America's cities and States, to take back the streets." And, he proposed a broad legislative initiative to fight violent crime which he sent to the Congress.

This Comprehensive Violent Crime Control Act would fight crime: by greatly broadening the availability of the death penalty, by reducing the power of judges to exclude evidence of crimes, by reforming overly complicated habeas corpus procedures, and by keeping firearms out of the hands of criminals.

For one whole year, the Congress of the United States has sat on the President's anti-crime package. And it has done nothing at all during that time. It has not even scheduled a floor vote in either House.

Ladies and gentlemen, Congress needs to quit footdragging on the President's violent crime control package and pass it NOW! We owe it to the men and women whose deaths we now commemorate to do everything we can to stop violent crime.

Third, let's leave this Ceremony today having learned from the example of those who have died. Let's depart here determined to remember that there are heroes and villains in this world just as surely as there is good and evil. And, let's remember that just as we should emulate the heroes who we commemorate today, we should have no compunctions about punishing the villains.

Unfortunately, it sometimes seems that as a society we have forgotten some simple, basic truths one of which is that there are evil people in the world who are intent on doing wicked things.

We sometimes hear it said that society is more to blame for crimes than are criminals. Or that crime is caused by parents who are too distant or who pamper their children too much. Or that crime is caused by America's poverty, or that it's actually America's prosperity that is to blame. TV violence, boredom, passionate impulses—everything and everyone is blamed. Everyone—except the criminal.

However, those who have been out on the streets know better. They know, as President Bush has said many times, that the criminal chooses his way of life, his companions, and the kinds of crimes he commits. They know that it is the criminal who chooses to reject society and its values. And, they know the criminal is not the victim, he is the victimizer. Any law-abiding society has a duty to punish wrongdoers. And punishment is not an unseemly indulgence in revenge but a civilized response to wrongdoing.

At the same time, let us not forget that there are many good people in the world as well as the evildoers. And, let's be proud that among those good people, there are the heroes who we honor with this Ceremony today.

We should be proud that our history shows some 30,000 heroes have given their lives in the war against crime. That staggering number does not even include those law enforcement officers who were wounded or disabled.

It does include many men like Charlie Hill, a good family man, who was active in his church and neighborhood and was loved by all who knew him. On March 23rd of last year, Charlie Hill went to serve an eviction notice and ended up losing his life. He was killed in a shootout with a thug, who was holding a hostage in a crack house. Another officer, Andrew Chelchowski, was seriously wounded in the exchange. Charlie Hill's mother, his wife Virginia, and his sons Robert and Charles, Jr., are here with us today.

Another of the heroes we honor with this Ceremony is State Trooper Jerry Hines. On February 20th of last year, at 11:55 p.m., he pulled a car over on the Interstate because he suspected the driver was drunk. The driver, who had committed several other murders only hours before, shot Jerry Hines repeatedly with a hand gun and left him to die. Jerry Hines' wife, Carol, his daughter, Jennifer, and his sister, Maria, are also with us today.

Sadly, there are so many other families, like Charlie Hill's and Jerry Hines', represented and honored here today. Next year, they may be joined by the families of the two latest heroes, Greg Hauser and Ray Kilroy of Chicago, who lost their lives just this past Sunday night when they responded to a plea for help from a grandmother who was being harassed by her own grandson.

Let us resolve, as a society, to do more for the families of these fallen law enforcement heroes—and for all the other victims of crime. As far as I am concerned, we have spent far too much time worrying about the rights of criminals and not nearly enough time worrying about the rights of victims.

We need to restore some balance to the scales of justice by putting victims' rights first—where they belong. Let us leave this place inspired by the example of sacrifice and love set by those whom we honor, like Charlie Hill and Jerry Hines. Let us commit ourselves to carry on their life's work by passing tough anticrime laws and by winning the war on crime. And, let us determine never to forget that there are heroes and villains in the world, and that we are privileged to walk in the footsteps of some of the finest and bravest men and women this country has ever produced. These men and women honored us by the manner in which they lived and by the manner in which they died.

Receive them, O Lord, into your heavenly kingdom, and hold them in Your arms while they await us, and the day when we shall all be together again.

Thank you all, and God bless you.

Mr. COATS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceed to call the roll.

Mr. SHELBY. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. ADAMS). Without objection, it is so ordered.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The Senate continued with the consideration of the bill.

Mr. SHELBY. Mr. President, what is the pending business?

The PRESIDING OFFICER. The pending business is the Coats amendment.

Mr. SHELBY. Mr. President, I rise today to ensure that the voice of Alabama is heard in this debate concerning S. 195, the Chemical and Biological Weapons Control Act.

War is not pleasant. Death is not pleasant. Death caused by chemical or biological weapons can be excruciating.

In Alabama, the specter of chemical warfare has a special meaning. You see, Mr. President, Alabama is home for the Army's Chemical Corps School at Fort McClellan. We also store 7 percent of what is believed to be our Nation's 30,000-ton chemical weapons stockpile at the Anniston Army Depot.

People in Alabama do not need to be convinced of the special horrors of chemical warfare. Yet we are also convinced of the necessity of a strong deterrent force to convince any adversary never to resort to its use against us.

But Mr. President, not all our adversaries are rational. Do you trust the Soviets not to use chemical weapons? There is evidence of their use in Afghanistan. Do you trust the Vietnamese never again to use chemical weapons? Iran? Iraq? How about Libya?

I understand that the United States and the Soviet Union are expected to agree on destruction of all but 5,000 tons of chemical weapons at the May 30 Bush-Gorbachev summit. But Libya will not be a cosignatory. Nor will Iraq. Nor China. And there is still a lot of death in 5,000 tons of deadly chemicals.

I urge my colleagues to support S. 195. It is a necessary companion piece to the pending Bush-Gorbachev agreement. It will take a necessary first step toward the total destruction of the world's chemical and biological weapon arsenal.

However, Mr. President, even with the passage of this bill we are still a nation at risk. Are we to ask our sons and daughters serving in our Armed Forces to go defenseless into a potential conflict, where any two-bit terrorist state could blackmail us with a threat to use the poor man's nuclear weapon?

Of course not. The prudent thing to do is to maintain our capability to defend against the threat of such weapons; to retain a strong research capability in this regard; and to retain in our Armed Forces the experienced corps of specialists necessary to defend against this threat.

Mr. President, the Army is doing this necessary and thankless job well. And I might add that we, in Alabama, will stand to be counted. We recognize the necessity to retain a deterrent capability. We recognize the necessity to retain a strong systemic defensive capability. We recognize the folly of disturbing our institutional capabilities in this regard. We recognize, too, the need for a national strategy that assures the vision, foresight, and structure necessary to protect and defend us from this scourge.

And Mr. President, as I have stated, Alabamians will some day welcome the destruction of all chemical and biological weapons in the world. But we are not there yet. Because the world is not stable, we need this bill before us. It requires the administration to report concerning chemical or biological threats to our interests; to control the export of such technology; and to impose sanctions against other nations who would tap this well-spring of horror in support of international terrorism.

Mr. President, I have spoken before on the need to protect against the transfer of critical technology that can be used against us. We do not need any more Toshiba transfers.

Therefore, from my seat on both the Armed Services and Banking Committees, I support the export controls and sanctions against foreign entities that are proposed by this bill.

There is no place in this world for anyone or any nation, who would knowingly and substantially assist the chemical or biological weapons program of any country that has these weapons illegally; has murdered its own citizens with these weapons; or which supports international terrorism.

I wish I could state that the Bush-Gorbachev agreement will eliminate all chemical and biological weapons in the world. I wish I could assert that this bill will halt the flow of critical technology and capability to produce these weapons. I wish that we did not need to retain a strong deterrent, research, and defensive infrastructure.

I cannot state these things. Yet, S. 195 is a step in the right direction. It provides the means to dissuade the proliferation of these dreadful weapons. But I want to make it very clear, Mr. President, this bill does not eliminate chemical or biological weapons, nor the will to use them, from the hands of a madman. And therein lies a dilemma that will remain with us for as long as a chemical weapon capability exists.

Mr. President, I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the pending amendment be laid aside.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

### AMENDMENT NO. 1640

(Purpose: To restrict United States assistance for the Republic of Iraq until that country opens to international inspection sites suspected of being involved in the production of nuclear, chemical or biological weapons, and ratifies the Convention on Biological Weapons)

Mr. D'AMATO. Mr. President, I send an amendment to the desk on behalf of myself and Senator DECONCINI and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New York [Mr. D'AMATO], for himself and Mr. DECONCINI, proposes an amendment numbered 1640.

Mr. D'AMATO. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following new title:

TITLE III—IRAQ SANCTIONS

SEC. 301. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) indisputable evidence exists that Iraq used chemical weapons both in its war with Iran and against its own Kurdish minority;

(2) Iraq has sought through means legal and illegal to acquire the technology necessary to develop and build nuclear weapons;

(3) Iraq has flouted its obligations under the Geneva Convention and the Nuclear Non-Proliferation Treaty;

(4) Iraq has failed to ratify the Convention on Biological Weapons and may be developing such weapons; and

(5) President Hussein has threatened, without provocation, to destroy the State of Israel by using chemical weapons.

SEC. 302. RESTRICTION ON ASSISTANCE FOR IRAQ.

(a) RESTRICTION ON ASSISTANCE.—Unless the President certifies to the Congress that the Government of Iraq has opened suspect sites to international inspection and ratified the Convention on Biological Weapons, no United States assistance (including funds appropriated before the date of enactment of this title) may be furnished for Iraq.

(b) DEFINITION.—For the purposes of this section, the term "United States assistance" means assistance of any kind which is provided by grant, sale, loan, lease, credit, guaranty, or insurance, or by any other means, by any agency or instrumentality of the United States Government to any foreign country, including—

(1) assistance under the Foreign Assistance Act of 1961 (including programs under title IV of chapter 2 of part I of such Act);

(2) sales, credits, and guaranties under the Arms Export Control Act;

(3) sales under title I or III and donations under title II of the Agricultural Trade Development and Assistance Act of 1954 of nonfood commodities;

(4) other financing programs of the Commodity Credit Corporation for export sales of nonfood commodities; and

(5) financing under the Export-Import Bank Act of 1945.

SEC. 303. SUSPENSION OF MULTILATERAL ASSISTANCE.

Unless the President makes the certification described in section 302(a), the Secretary of the Treasury shall instruct the United States executive directors of the International Monetary Fund, the International Bank for Reconstruction and Development and the International Development Association to vote against any loan or other utilization of the funds of their respective institutions to or for Iraq.

SEC. 304. SUSPENSION OF AIR TRAVEL.

(a) IN GENERAL.—Unless the President makes the certification in section 302(a)—

(1) the President shall direct the Secretary of Transportation to revoke the right of any air carrier designated by the Government of Iraq under the air transportation agreement between the United States and that country to provide service pursuant to that agreement:

(2) the Secretary of State shall terminate that agreement in accordance with the provisions of that agreement;

(3) upon termination of that agreement, the Secretary of Transportation shall prohibit any aircraft of a foreign air carrier owned, directly or indirectly, by the Government or Iraq or by nationals of that country from engaging in air transportation with respect to the United States; and

(4) the Secretary of Transportation shall provide for such exceptions from the prohibition contained in paragraph (3) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(b) DEFINITION.—For purposes of this section, the terms "aircraft", "air transportation", and "foreign air carrier" have meanings given those terms in section 101 of the Federal Aviation Act of 1958 (49 U.S.C. 1301).

SEC. 305. DENIAL OF TRADE PREFERENCES AND IMPOSITION OF ADDITIONAL DUTY.

Notwithstanding any other provision of law, unless the President makes the certification described in section 302(a)—

(1) the President shall terminate, withdraw, or suspend any portion of any trade agreement or treaty to the extent the agreement or treaty requires the provision of nondiscriminatory (most-favored-nation) trade treatment to Iraq;

(2) Iraq shall be denied nondiscriminatory (most-favored-nation) trade treatment by the United States and the products of Iraq shall be subject to the rates of duty set forth in rate of duty column number 2 of the Harmonized Tariff Schedule of the United States;

(3) the provisions of title V of the Trade Act of 1974 (19 U.S.C. 2461, et seq.) shall not apply with respect to the products of Iraq; and

(4) the products of Iraq that do not receive duty-free treatment on the day before the date of enactment of this title shall be subject to an additional duty at the rate of 50 percent ad valorem.

The PRESIDING OFFICER. The Senator from New York.

Mr. D'AMATO. Mr. President, I send this amendment to the desk, an amendment to S. 195, the Chemical and Biological Weapons Control Act of 1989, and I could not think of a more appropriate time in which to bring this matter before the Senate; indeed, the people of the United States and the administration.

My amendment will prohibit United States assistance to Iraq unless the President certifies to the Congress that the Government of Iraq has opened sites suspected to the development and/or production of nuclear, biological, and chemical weapons to international inspection and, second, has ratified the Convention on Biological Weapons.

Mr. President, to say that Saddam Hussein, known as the Butcher of Baghdad, is not a very endearing personality, is to put it mildly. Indeed, some have said that he has become the new "mad dog of the Middle East," displacing Mu'ammar Qadhafi.

First, he threatened to unleash chemical weapons against Israel. Next, he schemed to obtain nuclear triggers and smuggle a super cannon to Iraq. And now Hussein claims to have not only successfully obtained an American nuclear trigger, but also to have copied it.

While this is going on, Mr. President, it may be hard to believe we are doing business as if everything is fine; there are no problems. Not only do we help support this killer, but we help finance his undertakings. Last year, we purchased 447,000 barrels of oil a day. We are talking about an expenditure of more than $2 billion a year.

I find it hard to believe that we should be helping to subsidize Iraq. I find it more difficult to believe that we provided $700 million last year in loan guarantees and insurance; $700 million. I do not think the American people know that. It is outrageous. While we are subsidizing a terrorist nation, while we have American citizens held hostage, while we have the world placed in a precarious position, we continue to do business as if nothing is wrong. So what if we buy almost 500,000 barrels of oil a day; so what if we enrich his Treasury by $2 billion annually; so what if we make loan guarantees and assistance of $700 million.

I think it is time to say that we stand for freedom and that we stand against those who pose a threat to world peace, who pose a threat to the stability of the Middle East, who pose a threat to Israel, who pose a threat to everything that the United States and those who cherish freedom stand for.

What would this amendment do? Some may have difficulty with it. Some in the State Department may even raise some questions. Should you deal with Hussein in this manner? I suggest that this is a rather effective way and the least that we should do.

This amendment would halt all assistance, defined as "any assistance which is provided by grant, sale, loan, lease, credit, guarantee, or insurance provided by the United States to the Government of Iraq." It would require United States directors sitting on the boards of all multilateral lenders to vote against assistance to Iraq. It would suspend trade preference and apply additional duties on goods. Mr. President, it would prohibit us from buying 447,000 barrels of oil a day and giving to the butcher of Baghdad over $2 billion a year. Let him sell his oil on the spot market. Let him get a lot less for it. Let us stand up for what is right and what is decent.

Saddam Hussein represents one of the greatest threats to world peace today. Cynics rejoiced at the Iran-Iraq war because it hamstrung two of the three most volatile regimes in the region. With the war over, Hussein demonstrates that he is hellbent on establishing Iraq as the dominant Arab power at everyone's expense, at the

expense of those who cherish freedom. And only through pressure, economic pressure, can we halt the deadly course that Hussein has set his nation upon.

Let him sell his oil and ply his trade elsewhere. Let us not participate in this. I think we have to make it abundantly clear to Hussein that his activities will not be tolerated, and that we have the moral courage to back up our words with action. This is the least I believe we can and should be doing.

Mr. President, let me again refer to part of the amendment. It would restrict assistance and trade with Iraq. Those restrictions would be placed upon him and the country of Iraq—I am going to take the time to read this from the amendment:

Unless the President certifies to the Congress that the Government of Iraq has opened suspect sites to international inspection.

It seems to me that is the least we should do if we are going to be loaning and guaranteeing $700 million, as we did last year, to Iraq. It seems to me that is the least we should do if we are talking about a nation that threatens others with annihilation. It seems to me, when we are talking about a nation that has used chemical weapons in the past, it takes some courage to stand and say we are not going to sit by idly and see the situation become more threatening, more devastating. I think we make a great mistake if we continue with business as usual. That is why I have submitted this amendment. If we are talking about dealing with the problems attendant to chemical warfare, then there is no better place to start, no better action that we can take at this point in time.

Mr. President, I call for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is not a sufficient second. The request can be renewed at a later time, but there is not a sufficient second.

Mr. D'AMATO. Mr. President, I would renew that request at another time because I believe that we do not have present someone on the Democratic side.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO addressed the Chair.

The PRESIDING OFFICER. The Senator from New York.

Mr. D'AMATO. I renew my request once again for the yeas and nays on the pending the amendment.

The PRESIDING OFFICER. Is there a sufficient second second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1641 TO AMENDMENT NO. 1640

(Purpose: To restrict United States assistance for the Republic of Iraq until that country opens to international inspection sites suspected of being involved in the production of nuclear, chemical and biological weapons and ratifies the Convention on Biological Weapons)

Mr. D'AMATO. Mr. President, I send a second-degree amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New York [Mr. D'AMATO], for himself, and Mr. MACK, proposes an amendment numbered 1641.

Mr. D'AMATO. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike all after the word "title" in the pending amendment and insert:

III. IRAQ SANCTIONS.

SEC. 301. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) indisputable evidence exists that Iraq used chemical weapons both in its war with Iran and against its own Kurdish minority;

(2) Iraq has sought through means legal and illegal to acquire the technology necessary to develop and build nuclear weapons;

(3) Iraq has flouted its obligations under the Geneva Convention and the Nuclear Non-Proliferation Treaty;

(4) Iraq has failed to ratify the Convention on Biological Weapons and may be developing such weapons; and

(5) President Hussein has threatened, without provocation, to destroy the State of Israel by using chemical weapons.

SEC. 302. RESTRICTION ON ASSISTANCE FOR IRAQ.

(a) RESTRICTION ON ASSISTANCE.—Unless the President certifies to the Congress that the Government of Iraq has opened suspect sites to international inspection and ratified the Convention on Biological Weapons, no United States assistance (including funds appropriated before the date of enactment of this title) may be furnished for Iraq.

(b) DEFINITION.—For the purposes of this section, the term "United States assistance" means assistance of any kind which is provided by grant, sale, loan, lease, credit, guaranty, or insurance, or by any other means, by any agency or instrumentality of the United States Government to any foreign country, including—

(1) assistance under the Foreign Assistance Act of 1961 (including programs under title IV of chapter 2 of part I of such Act);

(2) sales, credits, and guarantees under the Arms Export Control Act;

(3) sales under title I or III and donations under title II of the Agricultural Trade Development and Assistance Act of 1954 of nonfood commodities;

(4) other financing programs of the Commodity Credit Corporation for export sales of nonfood commodities; and

(5) financing under the Export-Import Bank Act of 1945.

SEC. 303. SUSPENSION OF MULTILATERAL ASSISTANCE.

Unless the President makes the certification described in section 302(a), the Secretary of the Treasury shall instruct the United States executive directors of the International Monetary Fund, the International Bank for Reconstruction and Development, and the International Development Association to vote against any loan or other utilization of the funds of their respective institutions to or for Iraq.

SEC. 304. SUSPENSION OF AIR TRAVEL.

(a) IN GENERAL.—Unless the President makes the certification in section 302(a)—

(1) the President shall direct the Secretary of Transportation to revoke the right of any air carrier designated by the Government of Iraq under the air transportation agreement between the United States and that country to provide service pursuant to that agreement;

(2) the Secretary of State shall terminate that agreement in accordance with the provisions of that agreement;

(3) upon termination of that agreement, the Secretary of Transportation shall prohibit any aircraft of a foreign air carrier owned, directly or indirectly, by the Government of Iraq or by nationals of that country from engaging in air transportation with respect to the United States; and

(4) the Secretary of Transportation shall provide for such exceptions from the prohibition contained in paragraph (3) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(b) DEFINITION.—For purposes of this section, the terms "aircraft", "air transportation", and "foreign air carrier" have meanings given those terms in section 101 of the Federal Aviation Act of 1958 (49 U.S.C. 1301).

SEC. 305. DENIAL OF TRADE PREFERENCES AND IMPOSTION OF ADDITIONAL DUTY.

Notwithstanding any other provision of law, unless the President makes the certification described in section 302(a)—

(1) the President shall terminate, withdraw, or suspend any portion of any trade agreement or treaty to the extent the agreement or treaty requires the provision of nondiscriminatory (most-favored-nation) trade treatment to Iraq;

(2) Iraq shall be denied nondiscriminatory (most-favored-nation) trade treament by the United States and the products of Iraq shall be subject to the rates of duty set forth in rate of duty column number 2 of the Harmonized Tariff Schedule of the United States;

(3) the provisons of title V of the Trade Act of 1974 (19 U.S.C. 2461, et seq.) shall not apply with respect to the products of Iraq; and

(4) the products of Iraq that do not receive duty-free treatment on the day before the date of enactment of this title shall be

subject to an additional duty at the rate of 100 percent ad valorem.

Mr. D'AMATO. Mr. President, I ask permission that Senator MACK be added as an original cosponsor to this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO. Basically, what we have done, Mr. President, as it relates to the underlying amendment, is simply to say that if we are going to have Iraqi oil coming into this country there will be a 100-percent ad valorem tax. So we are not prohibiting their oil. In essence, we are saying there are a lot of other countries that have oil. It is a lot cheaper.

The United States is going to live up to a principle whereby we care for freedom, we care that nations are not going to intimidate their neighbors, and that we are not going to count the use of superior military weapons, and weapons of destruction and mass annihilation.

We have seen the Iraqis use these weapons against their own people, against the Iranians, against women and children. We should not be lulled into a false sense of security to think that they will not use these weapons given the history of the Iranians in attempting to build their super cannon, attempting to build nuclear reactors, and attempting to and using weapons of chemical destruction.

Mr. President, I hope at some point in time we would have further debate. I intend to pursue this matter to the fullest. At this time I am simply going to ask for the yeas and nays on the second-degree amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

There is a sufficient second.

The yeas and nays were ordered.

Mr. D'AMATO. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, will you inform the Senator from Nevada as to the parliamentary status of the proceedings?

The PRESIDING OFFICER. There is presently pending a second-degree amendment to the amendment of the Senator from New York [Mr. D'AMATO].

Mr. REID. Is that the amendment offered by the Senator from Indiana, the Coats amendment?

The PRESIDING OFFICER. No. That amendment by the Senator from Indiana has been temporarily laid aside.

Mr. REID. Mr. President, I wish to make a statement regarding the amendment that has been temporarily laid aside.

The PRESIDING OFFICER. The Senator has the floor.

AMENDMENT NO. 1639

Mr. REID. Mr. President, it is interesting to hear the debate and listen to the discussion on the amendment offered by Senator COATS; in effect it deals with whether or not a State should have some say in whether or not another State dumps garbage in that State.

Mr. President, many, many times over the past 3½ years I have discussed on this floor the unfairness of Nevada being forced to accept another form of the Nation's garbage—the garbage we call nuclear waste.

If the problem of being forced to accept solid waste from other States is as serious as the Senators have described today—and I believe it is—then how much more serious is the problem of Nevada being forced to accept nuclear waste from other States? Nuclear waste is far more poisonous, far more hazardous, far more dangerous than any other form of solid waste. Nuclear waste is the most poisonous substance known to man. Nevertheless, this body and the other body have, almost with contempt, said Nevada has no say in whether or not nuclear waste is placed in the great State of Nevada.

So, I point out to the Members of this body again, if, in fact, solid waste is considered to be a serious problem, as I think it is and my colleagues from Kentucky and Indiana have described, then certainly we should take a look at the nuclear waste issue again.

Mr. President, we have a serious problem here. The States of this Nation are being divided into two categories. Some States are becoming primarily waste producers; we all know who they are. Other States are being singled out to become waste acceptors. This is wrong. This is unfair. There is only one right national policy on any kind of waste, hazardous, solid or nuclear. If you produce it, then you should find a way to eliminate it.

The delegation and the citizenry of the State of Nevada are opposed to becoming the Nation's nuclear waste dump. Some have said this is attributed to NIMBY, the "Not In My Back Yard" syndrome. The reality is that, instead of NIMBY, we should be talking about PIIMNBY, the "Put It In My Neighbor's Back Yard" syndrome.

In fact, that is what has prevailed. Since we cannot handle our solid waste, we haul it someplace else. Let somebody else take it. Put it in my neighbor's back yard. Make it their problem.

So, Mr. President, I hope the States that are opposed to becoming the recipients of the Nation's garbage now understand our concern in Nevada: Why have we been singled out as the Nation's nuclear waste dump? We do not produce any of the waste, but we are told that we must accept it!

A majority of Members in this Senate refused to approve language that would ensure—and this is hard for me to comprehend—ensure that the health and safety of the public in Nevada be considered first. That amendment was defeated in this very body. An amendment offered by this Senator from Nevada suggesting that, if in fact you are going to try to site a nuclear waste repository in Nevada, then we should have, as the No. 1 consideration, the health and safety of the public in Nevada. Unfortunately, it was defeated.

In light of what we are learning now—and we have learned more since the amendment was offered—we need to take another hard look at that proposal. All Americans should be assured that it is public policy that the health and safety of the public is the No. 1 criteria in locating a nuclear waste repository anyplace.

In recent reports we read that the damage done to the American public's health as a result of exposure, including that from nuclear tests, is far greater than anyone has imagined; nuclear waste is far more dangerous than anyone realized. So, I think that public health and safety needs to be given primary consideration. I am not sure that it was one of this body's shining moments when more Members voted against making public health and safety a No. 1 consideration than voted in favor.

I hope the underlying premise of the Coats amendment is better appreciated. I hope it passes because, fundamentally, it is right. Why should the States of Indiana or Kentucky, or any other State have no say as to whether somebody is going to haul and dump any kind of garbage in their State? I hope this body, after passing the Coats amendment, will be consistent and take the next logical step: lift the burden of being forced to accept the nuclear waste of this Nation from the backs of the people of the State of Nevada.

Realizing that no one is seeking recognition, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DIXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Illinois is recognized.

Mr. DIXON. Mr. President, I ask unanimous consent to proceed as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

## THE BUDGET DEFICIT

Mr. DIXON. Mr. President, as we all know, the second session of the budget summit will be held today. President Bush has restated his willingness to enter into budget negotiations with Congress with no preconditions. A budget summit operating under these parameters thus represents the really first serious effort on the part of the executive branch to work with the Congress to honestly reduce our suffocating budget deficit in over a decade.

Past budget summits have not produced the results that were expected. These summits resulted in nothing more than slide-by budgets; they did not produce real, lasting deficit reduction.

I know that Congress is prepared to work responsibly with the President on our deficit crisis. This budget summit will achieve nothing more than previous ones, however, if the President of the United States backs down from his responsibility to exercise Presidential leadership.

Given the lack of progress made at the initial summit meeting and unwillingness of the President to tell the congressional negotiators how he would like to address the deficit problem, the final outcome of this budget summit does not appear to be real promising right now.

The President, leader of the free world, favors secret negotiations behind closed doors. I do not object to closed door negotiations from time to time. In fact, that is often the only way to negotiate out a tough problem. It's very tough to negotiate, however, when one party has no position. Because of the President's silence, that is the situation we face right now.

The White House acknowledges that the budget proposal sent to Congress earlier this year, reducing the deficit by $29.4 billion, does not achieve the deficit reduction needed. While the President acknowledges this fact, he declines to offer any recommendations or specific measures that would reduce our Nation's deficit and ensure continued economic prosperity.

The House of Representatives has passed a budget resolution that projects a deficit reduction of $36.7 billion, substantially under what the President sent us. The Senate budget Committee has marked up a budget resolution estimated to achieve $4.4 billion in deficit reduction, even a further reduction. Congress has presented a starting point for the negotiations. It is now time for a Presidential initiative and Presidential leadership.

Mr. President, this summit can only produce the results that our Nation so desperately needs if two essential conditions are met. First, everything must be on the table. Second, President Bush must be an active participant.

The President has to clearly state which programs he wants to cut and which revenues, if any, he wants to raise. He is the President. He ought to state that.

Posturing and passing the buck does not reduce the deficit, nor does it serve the needs and interests of our country. Calls for budget process reforms are OK, but only if they are not used as a substitute for real genuine action, and only if they are not used to divert attention from the important issues that must be settled now. After all, they generate very little in the way of real deficit reduction we need this year and next year. They are, therefore, no substitute for having the political will necessary to make tough choices that must be made if we are to resolve the budget disaster we are facing in October.

The time for straight talk has arrived. Relying on claims that economic growth and budget cuts alone will bring down our deficit may be politically popular, but it is reckless policy for the long-term interests of this country.

The results of a decade of this self-deception is evident now for everyone in the country to see. Today, our economy is afflicted with interest rates that continue to go up, economic growth which remains sluggish or is going down, inflation at its highest level since 1982, corporate profits dropping, and the cost of the savings and loan bailout dramatically soaring.

The reality of the situation is that our deficit problem is getting worse, much worse. The Gramm-Rudman-Hollings deficit reduction target for this fiscal year is $100 billion.

The bipartisan Congressional Budget Office has just released their re-revised numbers, estimating the deficit for the current fiscal year at somewhere between $180 billion and $200 billion, double the Gramm-Rudman target. This is nothing less than scandalous.

At the very least, our Nation's deficit is draining away productive investment by Americans and eroding the quality of life for the next generation. These deficits have handicapped our ability to effectively deal with the social and strategic problems at home and abroad.

The budget deficit limits our ability to respond to urgent national priorities. Improving education, fighting the war on drugs, providing affordable housing and better health care, and a whole host of other important domestic programs are undermined by the deficit. At the same time, the deficit hinders our ability to adequately maintain a modest level of defense and foreign aid, repair a deteriorating infrastructure all over America, ensure that the American economy is competitive internationally, control inflation, and protect the environment.

These deficits have one additional effect that is perhaps the worse of all. The persistent gaps between what the Office of Management and Budget says the deficit is going to be and what the deficit turns out to be in reality is destroying the American people's faith in government.

The American people are increasingly cynical about their Government; they no longer trust the Federal Government to be an active force to promote the public welfare. And why should they?

After all, we are lying to them every year about the deficit. The OMB knows the figures are a lie when they send them up to Congress in January of each year, and Congress knows they are a lie when we ratify them in each year's budget resolution.

It seems to me that we have to stop these lies. We simply cannot afford them, not just because of what the deficit is doing to the country, but because of the terrible damage these persistent lies are having on the political process that is the foundation of our country.

To continue to avoid the tough choices necessary to deal directly with our mounting Federal budget deficit is a serious disservice to the American people. I believe that a strong, bipartisan majority in Congress is ready to move responsibly and honestly to arrest our crushing budget deficit. I urge the President of the United States to provide the kind of leadership that will make that kind of progress possible.

Mr. President, in conclusion let me say this:

The President is enormously popular. He has a huge reservoir of political capital. I cannot think of anything more worthy of spending some of that capital on than a real, substantive plan to reduce Federal deficits. In fact, I think that the President would find that, by providing strong leadership, he would be investing his capital, rather than spending it. It is my belief that such an investment would pay the President—and all Americans—back many, many times over.

Mr. President, I yield the floor to my distinguished friend from Rhode Island.

The PRESIDING OFFICER. The Senator from Rhode Island.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The Senate continued with the consideration of the bill.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GORTON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BRYAN). Without objection, it is so ordered.

Mr. GORTON. Mr. President, I ask unanimous consent that I be permitted to proceed for a few moments as if in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

## VOLUNTEER AMERICA

Mr. GORTON. Mr. President, on Saturday, May 12, during his commencement address at the University of South Carolina, President Bush announced his intention to form a Democracy Corps to assist the fledgling democracies of Eastern Europe. I commend the President for his plan of action.

The President's plan is virtually identical to the 5,000-member Volunteer America Corps which Senator PRYOR, Senator KASSEBAUM, and I proposed in a bill introduced on March 8 of this year.

During the past several days there has been a great deal of debate over who actually originated the idea. I agree with my colleague from Arkansas [Mr. PRYOR], that at this point that is not an important question. What is important is that we join together to move forward with this worthy project.

Essentially both plans call for the creation of an organization to facilitate and coordinate volunteer assistance to Eastern Europe. In each case, the Government would provide minimal startup funds. After these initial funds had been expended, the program would rely on support from the private sector.

The only major difference between our plan and that of the President is that we feel strongly that the organization should be directed by the private sector, not the State Department. But we all agree that by sharing our economic expertise with the people of Eastern Europe, the United States can make a significant contribution to the growth and development of democracy in those countries.

The people of Eastern Europe have made tremendous progress toward democracy in the past year. The American people are excited about this progress and want to help. My office has received dozens of calls from people seeking to volunteer. They come from all walks of life, but all have one thing in common—a genuine desire to be part of the monumental changes taking place in Eastern Europe. We should provide U.S. volunteers with that opportunity.

I commend the President for putting forth this proposal, and look forward to working with him to ensure speedy passage and implementation of this worthy project.

## SWEARING IN OF ART FLETCHER AS CHAIRMAN OF THE U.S. COMMISSION ON CIVIL RIGHTS

Mr. GORTON. Mr. President, today at the White House President Bush swore in Art A. Fletcher as Chairman of the U.S. Commission on Civil Rights. Art Fletcher is a long-time personal friend. I strongly supported his appointment to the Commission, and highly commend the President for making Mr. Fletcher his choice as Chairman.

My association with Art Fletcher goes back many years to his days as city councilman in Pasco, WA. In fact, Art and I ran on the same platform when he was a candidate for Lieutenant Governor and I for attorney general of the State of Washington in 1968. Art was even then full of innovative ideas during a trying time of social change in U.S. history.

Art Fletcher continues to have innovative ideas and brings a fresh approach to issues of civil rights; an approach which is needed for continued progress in providing all citizens equal protection under the law, and equality of opportunity in education, housing, and employment. Art served his country well under both Presidents Nixon and Carter. He was Assistant Secretary of Labor under President Nixon; and Deputy Assistant to the President for Urban Affairs under President Carter. I am proud to see Art Fletcher serving our country again. As Chairman of the U.S. Commission on Civil Rights, I know he will successfully bring us into a new era in civil rights for all Americans.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Republican leader.

Mr. DOLE. Mr. President, first let me join my colleague from Washington in mentioning the President for naming Arthur Flethcher as Chairman of the Civil Rights Commission. Art Fletcher is himself a long-time personal friend of mine. He was originally a Kansan. He lived in a number of States. We are all very proud of his accomplishments.

I was honored to be there this morning when we had the ceremony with reference to Arthur Fletcher, and also a number of other new commissioners, including Russell Redenbaugh, who is the first disabled person to be named on the Civil Rights Commission. He happens to be a nephew of the distinguished Senator from Utah [Mr. GARN]. He is from Pittsburgh, PA. He is an outstanding young man. I think he will do great credit to the Civil Rights Commission.

There is also to be a recognition that the 30- or 40-some million disabled Americans will have representation on this very prestigious commission. I thank the Senator from Washington.

Mr. President, as the Republican leader, I encourage my colleagues to speed up this process a little bit, if we can. I understand there are about three amendments filed, the latest being one by Senator D'AMATO on Iraq. I will be speaking against that amendment at the appropriate time.

If we can get an agreement on how many amendments will be offered, no time limit, just how many will be offered, then I think the majority leader will be in a position to indicate to us how late we will be here tonight and how long we will be here tomorrow.

If we do not finish this bill today, I think I can say that we will be here tomorrow, and there will be votes tomorrow on this legislation. I hope some of those having other plans to be away from Washington tomorrow will cooperate with us in trying to get something started here.

I know the majority leader mentioned it to me earlier, and I indicated I would do my best to get people moving on this side of the aisle. I say to my colleagues that if we can agree on the number of amendments, we ought to get the agreement. We might even finish this early this evening.

So again I urge my colleagues to give us their amendments, and we will put them on the list, and we will try to get an agreement to protect your rights. Let us try to finish this bill by 6:30 or 7 o'clock.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BENTSEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BENTSEN. Mr. President, what is the pending business?

The PRESIDING OFFICER. The pending business is the D'Amato amendment.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The Senate continued with the consideration of the bill.

Mr. BENTSEN. Mr. President, I strongly support the objectives of the distinguished Senator from New York. He wants to stop the proliferation of biological weapons. But the problem we are running into here is that he is talking about putting a 100-percent

duty on imports from Iraq. He is talking about taking away MFN and GSP from Iraq.

That involves revenue to the Government. The Constitution says that revenue measures have to start on the House side. They remind us of that time and time again. I was in the budget summit meeting working on that when this was brought to my attention.

The distinguished chairman of the Ways and Means Committee is in those meetings. I called him out to discuss this with him, because I do not want to see the objectives of the underlying piece of legislation stopped; in effect, to punish Iraq for what they are trying to do.

But I am totally convinced, after talking to the chairman of the Ways and Means Committee, that if the amendemnt by the Senator from New York is adopted on this bill, this bill would be blue slipped in the House. In fact, the chairman of the Ways and Means Committee, not more than 15 minutes ago, advised me that if this amendment by the distinguished Senator from New York is attached to this legislation, he would personally blue slip it and that, in effect, would kill the bill.

I know that is not the intention and desire of the distinguished Senator from New York, and I am sure that is not the desire of the managers of this bill. But that is what happens.

In addition to that, the amendment is an absolute violation of the jurisdiction of the Finance Committee. I am advised that there are other amendments in the offering with respect to this piece of legislation, that also might cause it to be blue slipped on the House side.

So I urge my colleagues who are considering such initiatives not to try them. What we are trying to do is finish this bill today. If we continue in this mode, we obviously will not finish today, and I would seriously be concerned about finishing it this week.

At the appropriate time, I want to move to table the amendment, but I would be pleased to have time to let the Senator from New York make any comments he would make concerning it.

I yield to the Republican leader.

Mr. DOLE. Mr. President, I thank the distinguished chairman of the Finance Committee, the Senator from Texas. I think there will be others on this side who wish to speak against the amendment as presented.

I agree with the Senator from Texas that perhaps the thrust of the amendment you might agree with. But I also add there were some of us, about five of us, who were in Iraq less than a month ago, and we had a lengthy visit with President Saddam Hussein. We raised a number of specific issues with him, including whether or not he had nuclear capability; whether they were developing chemical weapons; and whether they were engaged in the development of any germ warfare, viruses, whatever.

He indicated, as to chemical weapons, yes; but he had no nuclear weapons, and he had no plans for any nuclear weapons, and all they were doing in the so-called biological area was basic research.

There is a great deal of difficulty in that part of the world. It is the one area where we can look around and find that peace is not breaking out, in the Mideast. There are many good and valid reasons for it.

Iraq, if we are going to have a comprehensive settlement in the Mideast, is going to have to be part of it. They have the second largest oil supply, next to Saudi Arabia; the second largest army; it is the second largest country in that area. They just experienced a 7-year war with Iran. They have had hundreds of thousands of deaths in their own country.

There is no doubt about Saddam Hussein's hostility toward the State of Israel. He made it clear to us.

We presented President Saddam Hussein with a letter signed by the five of us, a letter which was read in advance to President Bush the night before we went to visit Iraq.

The President indicated to us he would like to improve our relations with that country and with its people notwithstanding the record of President Saddam Hussein. We indicated to the President that there were some potential for improving our relationships. Since our return we have met with the Iraqi Ambassador. We again spelled out some of the concerns we have as Americans and some of the concerns the American people have.

It just seems to me that this amendment at this time on this legislation would, in effect, kill it. As the chairman pointed out, it would be blue slipped on the other side of the aisle. But, in effect, it is saying to Saddam Hussein, "Keep up your tactics; we do not want to improve our relationship, we do not want any influence in that part of the world." And I believe it would be a major mistake.

I hope there may be some way that the Senator from New York can find to withdraw the amendment or put it somewhere else because I share the view expressed earlier that we would like to complete action on this bill this evening, and I am fearful, if it is insisted we vote on this amendment, there is going to be considerable debate. I know the Senator from Pennsylvania [Mr. SPECTER] wishes to speak on amendment. As I understand, the Senator from Mississippi [Mr. COCHRAN] has some concern and the Senator from Ohio [Mr. METZENBAUM]. For those reasons, and others I might spell out later, I urge my colleague, my friend from New York, not to push the amendment at this time. There may come a time when we all want to join him in this effort, maybe even go further, but I think it is inappropriate at this time, and I wish he would not press the amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio [Mr. METZENBAUM].

Mr. METZENBAUM. Mr. President, I rise in opposition to this amendment and I share the concerns just expressed by the distinguished Senator from Kansas and the Senator from Texas.

It is my understanding the Senator from Rhode Island has previously addressed himself to the matter.

I do so, having been on a recent trip to the Middle East, having met with Saddam Hussein, recognizing that Saddam Hussein is probably one of the most militarily minded leaders in the Middle East and that he spent much time telling us of his military strength, and, yes, he also told us and shared with us his great antipathy toward the State of Israel.

My colleagues in this body know that I am a strong supporter of the State of Israel's independence and Israel's need for security. Since we returned from the Middle East, the Ambassador from Iraq sought a meeting with those of us who were on the Middle East trip—Senator SPECTER was present as well—and indicated that Iraq would like to move toward developing more economic relations with our country.

Let me say that my response to President Saddam Hussein, my comments to the Ambassador from Iraq, were all of the same mind, and that is that it is an accepted fact that Saddam Hussein has built a mighty military machine and that, in doing so, he has acquired a reputation for much strength. Some have called him names in connection with his muscle flexing. I do not rise to call him any names. It is my view that someday, sometime, somewhere, hopefully sooner rather than later, peace is going to have to be achieved in the Middle East, and because Saddam Hussein and his country have such military strength as he now probably boasts about, and I understand that, because of that he is in a particularly good position to be a spokesperson for peace in the Middle East. When you are weak you can talk about peace and people say, well, of course, it is because you are weak. But Saddam Hussein is not weak, he is strong, and he could be an effective force for peace in the Middle East, and all he has to do is to take one step, or two steps, in that direction.

Permitting all the PLO to make their headquarters in Iraq, an action which occurred recently, raises a number of questions and raises ques-

tions whether the PLO and some of their terrorists are going to Iraq to get new work, to get new instructions, to involve themselves more in terrorist activities. I hope that is not the case.

As has been indicated by the minority leader, there may be a time when action such as that called for in this amendment would be appropriate. This Senator believes that Saddam Hussein should be given an opportunity, not a long opportunity, a reasonable period of time, to see whether or not he is prepared to take that first step on the road to peace in the Middle East. I cannot think of any first step that could be taken by any leader in the Middle East that would be more effective, more meaningful than Saddam Hussein could take. But because I think he ought to be given an adequate amount of time, a reasonable amount of time, 1 week, 1 month, whatever, in order to see if he is willing to move in that direction, I rise to urge my colleagues not to adopt the D'Amato amendment. I think it could be counterproductive. I think it could create a greater schism between Iraq and the United States and in doing so make it that much more difficult to bring about peace in the Middle East.

It is for that reason that I hope that this body will see fit not to adopt this resolution. I say that with full cognizance and with full representation that 1 month, 2 months, or 3 months from now I might be on the floor of this Senate supporting such a resolution. But I think Saddam Hussein is entitled to a reasonble amount of time to see whether he is willing to take the first step.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi [Mr. COCHRAN] is recognized.

Mr. COCHRAN. Mr. President, let me add a few words in opposition to this amendment. It concerns me that the Senate is being urged to take action that could have devastating consequences for U.S. farmers and those involved in businesses that would be directly affected in a serious and adverse way if this amendment were adopted.

Let me bring to the attention of the Senate a few facts about the development of agricultural trade relationships with Iraq in recent years. Iraq has become a major market for United States agricultural products and is our largest market for rice. Other than rice, the most important commodities we sell are feedgrains, wheat, protein concentrates, wood products, and sugar.

Iraq has become a major market for high-valued commodities such as dairy products. Between 1982 and 1988, Iraq's annual imports of agricultural commodities averaged $2.4 billion. These imports rose to an estimated $2.9 billion in 1989. Rice imports alone amounted to $180 million, and other feed and grain products were worth millions of dollars to U.S. exporters. I bring these facts out simply to acquaint the Senate with the implications of this amendment. I hope the Senate will refrain from adopting this amendment and that a motion to table will be approved.

Mr. DOLE. Mr. President, let me just indicate again the issue is not whether Saddam Hussein is developing chemical weapons. He makes no bones about it. He says he is. He does not intend to use them unless there is a first strike, nuclear strike, and then he would retaliate. He said, what would you do if you are attacked by some country? If there is a nuclear strike in the United States, what do we do? It is not even the fact that we deplore the development of chemical weapons. And we are offended by his rhetoric at times.

I think the issue is, Does this get us what we want in Iraq on chemical weapons, biological weapons, nuclear weapons or anything else? And the answer is, it does not. Iraq benefits from our trade, its sale of oil to us, its imports of our products, but it does not live or die because of economic ties with the Untied States.

Again I would say he told us if you cut off aid, it is all right with him; he did not get anything. Well, he does get something, he gets Commodity Credit Corporation sales of rice, as the distinguished Senator from Mississippi pointed out.

He says it can find other places to sell its oil and find other places for other things it buys from us. Well, it just seems to me that we do not gain anything at this point. As the Senator from Ohio pointed out, maybe 30 days, 60 days whatever, if there is not some improvement—we are waiting for improvement; we indicated that to the Ambassador just last week—when perhaps an amendment of this type or some variation of it might be appropriate.

Again, I hope that the distinguished Senator from New York would be willing to withdraw the amendment. But if not, I think, awaiting Senator SPECTER and perhaps Senator MCCLURE and Senator SIMPSON, that I would be happy to join the Senator from Texas in an effort to table the motion. But first let me check with the Senator from New York to see if he intends to pursue the amendment.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. EXON). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO. Mr. President, while I have not been on the floor during the course of all of the comments that have been made by my colleagues in the Senate in opposition to the pending amendment, I was able to hear a number of their concerns. I would like to address just some of them.

Before I do that, I would like to indicate that notwithstanding the fact that there indeed may be a legislative impediment to the enactment of this legislation in its present form, and that would, of necessity, raise not a point of order, but a parliamentary rejection, so to speak, by the House of Representatives as there is a technical provision, I am given to understand, that when in this instance we might be saying oil from Iraq could no longer come here, or would be subjected to a tax and that obviously replacement oil from other countries might come in, and while there might not be any dollar change, the House has heretofore blue-slipped, I believe that is the jargon that is used, which in the final analyses means that the bill would be rejected and sent back to the Senate for action.

So this Senator has no desire to subject my colleagues to this position of having then to take the bill up once again. However, I want to make very clear that I have not heard any substantial reason, on the merits of the question, of doing business with a butcher as if everything is right. I have not heard, for example, that last week or last month there have been any questions about Hussein as it relates to a moderation of his position. No one has come and said anything other than a killer, a person who gases his own people, a person who threatened annihilation whether by chemical weapon or nuclear arms.

On the contrary, I have heard that this is a great powerful force and that we should acquiesce as if it is not taking place, his threats, his bullying, his tactics. What would we need? Do we need a nuclear attack before we do something?

I remember back in 1981, as we sat like little mutes, indeed, the press condemned a country for knocking out a nuclear facility. Could you imagine if this madman had the capabilities, if that plant had not been knocked out then? You saw him use chemical weapons—we saw that against his own people; against the Iranians.

What about the use of nuclear arms? Are we to wait until he is going to attack, or do we say, no, that as the leaders of the free world are we going to stand. We are going to say to you: We are not going to give you $2.5 billion a year; sell your oil someplace else. It may depress the market somewhat. Some other people's oil we will purchase, and indeed he may not be able to get a premium.

Are we going to continue to do business as usual as it relates to $700 million in terms of Exim in loan guarantees to the "Killer of Baghdad?" I cannot really believe it. I have not seen how he has moderated one iota.

I would like somebody to come forth and say to this body, well, Senator, we are getting very encouraging signs from Mr. Hussein. I am not talking about our own wishful thinking, but somehow we will have some dialog at some time.

Here he is building a cannon to project these missiles, whether they be nuclear or whether they be chemical weapons. And are we to say, no, it has not happened and it is not happening? What leads us to believe that at some point in time you do not have to stand and say to him, we are not going to treat you with the kind of respect and dignity that a nation that seeks peace and tranquility with its own people and neighbors should be treated; that you are an outlaw; and until you adhere to the common traditions that we respect, we will use at least our economic power; you are a leper as far as we are concerned. And maybe we can get some other nations of the world to similarly respond.

We cannot be effective. But I do not see our allies in Western Europe having the courage to come forth unless we demonstrate that we have commitment to this purpose.

Mr. President, I will, at some point, move to dispose of this amendment in a manner which will not lay it open to parliamentary recommitment, being sent back here. I do not look to subject my colleagues to that unnecessary undertaking because that would be unfair. However, I do intend to submit an amendment to this bill and bring it to a vote, as it relates to those issues and those matters, that will not subject it to the fate of a premature death.

I believe there are areas in which we can still make ourselves known clearly to Iraq, and I think they deal with the other aspects of the legislation. I am attempting to work that out with the staff of the distinguished chairman of the Foreign Relations Committee. So we will have a bill that will say something to Hussein, the Butcher of Baghdad. That is what he is, a terrorist, a man who threatens civilization, and a man with whom we should not have business. We should not be conducting business with him. We have no right to do that and say we stand for freedom. Business as usual. I cannot believe it.

While I certainly do not question the sincerity of my distinguished colleagues, I simply say at some point in time we have to stop acting like the State Department here, which would have us believe nothing goes wrong at any time until it becomes so apparent they cannot deny it.

I do not know what more we need. Do we need a missile attack? Do we need to see these launches in other territories—we have seen them already—before we begin to say enough is enough.

Do we think by acquiescing to the bully we are going to improve our position or the position of other nations that are threatened? I do not believe that is the way we should go.

While I may not push forward with a vote as it relates to this amendment now, I will submit an amendment and ask for a vote that relates to the things we can do that will not lay this open to a point of order or rejection by a blue slip in the House of Representatives.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. MURKOWSKI. Mr. President, let me thank my friend and colleague, the junior Senator from New York, for bringing this up. I think it is appropriate and, despite statements to the contrary, I think it is timely.

However, in all deference, I think I have a little different conclusion as to the advisability of the amendment before this body. Having had the privilege of being with the minority leader and three others of my colleagues in visiting Saddam Hussein, I had an opportunity to make a judgment based not only on the extended conversation that we had but the interpretation that there was clearly a mood in the Mideast to try to address, somehow, a peace process. I think that is what we have to keep in mind as the bottom line as we address how we dispose of the amendment that is before us.

We went to Iraq with misgivings. I think it is fair to say we probably would not have gone had not President Mubarak of Egypt strongly suggested that we go and made the arrangements in our presence. This was done after extended conversations that took place, first in Syria with President Assad, and then after a lengthy discussion with President Mubarak.

The reason I mention this is because the tenor of the discussion was about a peace process. Could it occur? This was, of course, before we had the outcome of the situation in Israel, and there was a good deal of optimism that perhaps Peres would be able to organize the government to take advantage of that particular opportunity.

Unfortunately that did not occur. But the point is the communciation that was set by Mubarak, and the consequential meeting that we had with Saddam Hussein, was about peace. It was about ways to establish communications among leaders of that part of the world, many of whom have no communication.

We felt we were offering, if you will, a liaison of some kind that might be helpful. I think it is fair to say the collective judgment, whether it be based on conversation we had with Saddam Hussein or the further conversations that we had in Jordan, with King Hussein, all pointed to the general consensus to pursue a peace process.

I think we have to ask ourselves: If we take this action, clearly are not we moving Saddam Hussein away from any effort to be a party to a peace process that may occur?

It is appropriate we examine the record and the positions of world leaders. I have grave doubts about the statements Saddam Hussein made to us concerning the cannon which was allegedly part of a refinery project in Iraq, or the situation concerning an individual who had been picked up in San Diego.

But the point is, is this the time to simply break whatever input that Saddam Hussein wants to contribute toward this process? The Senator from Alaska does not think so.

I think we should give a little more time for the process to occur; a little more time to Saddam Hussein, whose record is certainly tarnished and whose record is certainly subject to question.

My friend from New York suggests, and quite appropriately, that there is a risk. Nevertheless, you have to call them as you see them. I think pursuing this amendment now would be a giant step backward in pursuing the peace process, which we certainly hope will occur in the Mideast.

I am not going to talk about the business as usual aspects. We are all aware we sell agricultural products; we are all aware the oil industry has a stake over there. But I think all of us went into the Mideast with the idea of making up our own minds. And if there is any possibility of a peace process occurring, I think it is fair to say that one cannot occur without Iraq.

There is a reintergration, if you will, of some of the countries that had been somewhat isolated from the general process of communication. I think it is fair to say Syria was one of those. We got the distinct impression that Assad, in Syria, was interested; he wanted to be more of a party to the developments in the Mideast.

We have situations over there that are not uniform. You have the haves and the have-nots. Countries that have oil, such as Iraq—which is, I think, the third largest producer in the Mideast—obviously have a capability for a substantial military effort. We have already seen the Iraqis are in a state of war with Iran.

But the question is, Is Saddam Hussein going to depart from past procedures, past record, and genuinely be a part of this process? I hope so. I'm an optimist. This Senator wants the window to remain open for a reasona-

ble amount of time to determine if, indeed, Iraq has changed its direction, if it wants to join with the Arab countries in a peace process that all the Mideast can participate in.

It was clear in the Mideast that there is a feeling that what happened in Eastern Europe can perhaps be transferred over to the Mideast. Who would have thought a year ago that we would have achieved the tremendous changes? The euphoria associated with that is evident in the Mideast today, and the people of the Mideast want the process to occur. I think there is a chance that it can occur.

Mr. President, I thank the Chair and yield the floor at this time.

Mr. D'AMATO addressed the Chair.

The PRESIDING OFFICER (Mr. DECONCINI). The Senator from New York.

Mr. D'AMATO. Mr. President, I ask unanimous consent I be permitted to withdraw the amendments presently pending, both in the first and second degree, and submit another amendment in its place on behalf of Senators PELL, HELMS, DECONCINI, and MACK.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The amendments are withdrawn.

Amendment Nos. 1640 and 1641 were withdrawn.

AMENDMENT NO. 1642

Mr. D'AMATO. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

Mr. President, I am not going to ask the clerk to withhold the reading of this amendment for a very specific reason because I think that the amendment adequately spells out what the record is. I think it is important to note because this is substance, and I will then confine myself to very limited remarks, as I might find necessary. For that reason, I will not ask the clerk to suspend.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from New York [Mr. D'AMATO], for himself, Mr. PELL, Mr. HELMS, Mr. DECONCINI, and Mr. MACK, proposes an amendment numbered 1642.

At the end of the bill, add the following new title

CONGRESSIONAL FINDINGS:

(a) The Congress finds that—

(1) The Government of Iraq has systematically detained, tortured, and executed thousands of its own citizens;

(2) The government of Iraq has destroyed more than one thousand villages and towns in the Kurdish regions of Iraq, effectively depopulating the rural areas of Iraqi Kurdistan;

(3) Iraq has used chemical weapons on an extensive scale against its own Kurdish citizens, resulting in tens of thousands of deaths and more than fifty thousand refugees;

(4) Amnesty International has documented extensive violations of human rights by the Government of Iraq, including the torture and murder of children as a means of punishing their parents;

(5) Iraq has blatently violated international law in initiating use of chemical weapons in the Iran-Iraq war and in its use of chemical weapons during and after the war on its own Kurdish citizens;

(6) Iraq has failed to ratify the Convention on Biological Weapons and persuasive evidence exists that Iraq is developing biological weapons in violation of international law;

(7) Iraqi President Saddam Hussein has threatened to use chemical weapons against other nations, including issuing a threat without provocation to destroy the state of Israel;

(b) The Congress finds and determines—

(1) That Iraq has engaged in a consistent pattern of gross violations of internationally recognized human rights;

(2) Iraq's repeated disregard for international law, including violations of its obligations under the United Nation's Charter and the 1925 Geneva Protocol, places Iraq outside the community of civilized nations.

SEC. . ENFORCEMENT OF UNITED STATES LAW.

The President shall enforce against Iraq all provisions of law which impose sanctions against a country that engage in a consistent pattern of gross violations of internationally recognized human rights.

The PRESIDING OFFICER. The Senator from New York.

Mr. D'AMATO. Mr. President, I believe the record is clear that, to borrow the legal terminology, it is clear, it is convincing and it cannot be denied Iraq's use of chemical weapons, its destruction to its own people, its threatening the peace and tranquillity of all of those in the Mideast. And yet somehow there is an argument that by saying that the United States shall enforce the laws of this land—and what we do here is we say the President shall enforce against Iraq all provisions of law which impose sanctions against a country that engages in a consistent pattern—consistent pattern—of gross violations of internationally recognized human rights.

If we are going to assume that this is not the case, if there is someone who can tell me that Hussein has come forward and somehow he is moving in a direction to moderate, I would like to know when and I would like to know has the treatment of his own citizens changed; is the danger that he preaches changed? Has his armies been diminished? Has he been less threatening? I have not seen them.

So I suggest that there comes a time when we stand for what is right. We stand up for, yes, maybe those nations who do not have the power to stand up to the great military might and machine and the madman Hussein. I would like to know, in light of failure after failure of the systematic deprivation of human rights and the threat and the use of mass weapons of destruction, how it is that we can just say let us leave it as it is because somehow in the next 30 or 60 days things are going to get better? They have not gotten better since 1981. The fact of the matter is, he has become more determined to become and to take the place of the mad dog of the Middle East, Muammar Qadhafi. He is the new mad dog of the Mideast and he poses real and significant dangers to the peace of mankind. Certainly as it relates to human rights, he has no regard whatsoever for them. If we do not stand, who does?

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Mr. President, I respect the position and the arguments made by the distinguished Senator from New York in support of this amendment, and I can well understand and in all probability would support the thrust of this amendment 30 days, 60 days from now. But I do believe that there are the slightest indicators, just the slightest indicators, that there may be a chance of moving the President of Iraq, Saddam Hussein, toward the peace process. I am satisfied that if we accept this, we may get our kicks out of it, we may get a great sense of satisfaction that we really told him off, but when all is said and done, I do not believe we will have done anything to help the peace process.

What I am concerned about is that we will just exacerbate the situation. We will aggravate the situation. We will irritate the situation.

I sympathize, I understand—"sympathize" is probably the wrong word. I identify with the remarks of the Senator from New York. But having said that, I firmly believe that this Senate would serve a more useful purpose if we did not adopt the D'Amato amendment.

I hope that the distinguished Senator from New York would see fit to withdraw it. I say to him that if nothing transpires, if there are no developments, if that first step is not taken by Saddam Hussein in Iraq, I would be happy to join with him at some time in the future, not longer than 30 or 60 days from now. But if we do not give the President of Iraq the chance to indicate that he is indeed, interested in moving in that direction, then I think we err, and I think we err on the side of more misery and more trial and more tribulation for the peoples who live in the Middle East.

Saddam Hussein has spent a good deal of time in recent years indicating his military strength, and I believe that whether he has the new weapon,

this new long pipe that was coming to Iraq from England and certain other countries in Europe, whether he obtained it or did not, whether he has a certain kind of capacitor, whether he does not have it, it is a given fact that Iraq is militarily strong, and so be it. I understand that.

It is all the more reason that Saddam Hussein is in a position to move toward peace, because he has convinced the world he does have military might. But military might does not solve many problems. It may solve them temporarily, but on a long-range basis it does not solve them. It is my view that peace is breaking out, changes are happening all over the world, whether it is Nicaragua, whether it is Panama, or whether it is the Eastern European nations, wherever it may be I firmly believe we ought to permit some opportunity to move toward peace in the Middle East. Give Saddam Hussein 30 or 60 days to see whether or not he will take a step in the right direction. Therefore, I hope we would not see fit to adopt the D'Amato amendment.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. D'AMATO. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

Is there a sufficient second in the Chamber for the yeas and nays on the amendment by the Senator from New York? There is a sufficient second.

The yeas and nays were ordered.

Mr. D'AMATO. I thank the Chair.

Mr. SPECTER. Mr. President, the pending amendment calling for sanctions against Iraq is extraordinarily complicated. I had first notice of its pendency when I saw Senator D'AMATO on C-Span television earlier this afternoon, and I then came to the floor to discuss the matter informally with Senator D'AMATO and others in the Chamber.

My view is that the U.S. Government and the Congress and the Senate ought to do everything we can to promote the Mideast peace process. That is our shared objective.

The issue then arises as the whether the peace process can be best promoted by efforts to establish a dialog with Iraq, its President, Saddam Hussein, and others in Iraq, or whether it is better to attempt to isolate Iraq through an amendment which imposes sanctions.

I have traveled extensively in the Mideast for many years and have concluded that the key to the peace process in the Mideast is the establishment of mutual security, the security of Israel to be free from potential attack from other nations in the region or elsewhere, and similarly the interest of security for Arab nations in the region.

Since the Camp David accords between Israel and Egypt, the principal threats to peace in the region appear to me to be potential conflicts between Israel and Syria and Israel and Iraq. It has been my considered judgment for some time that if Syria and Israel can be brought to the bargaining table, and Israel and Iraq could be brought to another bargaining table, the interests of those countries could be negotiated for a peace treaty like the Camp David accords. Then the primary threats to security of the area would be eliminated and many of the other problems in the Mideast could fall into place. That would not necessarily be easy, because these are extremely thorny problems, but they would be relatively easy once the tension is eliminated between Syria and Israel and also between Iraq and Israel.

I have formulated that judgment, Mr. President, after traveling to Syria on a number of occasions and finding the political climate different there between my visits in 1984 and 1988. In the intervening years there had been a change in the relationship between the Soviet Union and Syria. In the spring of 1987, the Soviet Union, through its leader, then General Secretary Gorbachev, now President Gorbachev, took the position that there would not be the same level of Soviet aid to Syria which had been extended in the past.

When I returned to Syria in January 1988, Mr. President, I found that the Syrians were more interested in a dialog with the United States. I had a constructive meeting with President Assad and also Foreign Minister Shara, and I had similar lengthy and constructive dialogs in January 1989 and January of this year.

It was my view and is my view that the efforts to pursue peace negotiations between Syria and Israel are worth pursuing.

I have discussed at some length the relationship between Syria and Israel because I think it has a very material bearing on the relationship between Iraq and Israel, for many reasons.

When I saw President Assad in January of this year, Mr. President, I noted a significant difference in the position which he took this year from the position which he took a year ago. I had been advised before my meeting with President Assad this January, advised by our distinguished Ambassador there, Mr. Djerejian, that there had been a shift, and now Syria was willing to go to an international conference sponsored only by the United States and the Soviet Union instead of its previous view of an international conference sponsored only by the five members of the U.N. Security Council.

That, Mr. President, was a significant difference because if the conference were sponsored by the five Security Council members, the lineup would be 4 to 1 against Israel. But with only the United States and the Soviet Union convening such a conference, it would be one to one and more likely to have the acquiescence of Israel and more likely to yield fruitful results.

My view is that if the United States were to pursue on an active basis efforts to bring Syria and Israel to the bargaining table, there would be a some likelihood that that could occur.

Mr. President, I have wanted to visit Iraq for many years, but could not do so because of the pendency of the Iran-Iraq war. When that was concluded, at my first opportunity I made a visit to Baghdad in January 1989.

I did not, on that occasion, meet with President Saddam Hussein, but I met with a number of other Iraqi officials. I found that there was some conciliatory talk, that there was a willingness to have discussions on relationships or some negotiations with Israel in the context of an international conference if Israel would accept U.N. Resolutions 242 and 338, and if some progress could be made on the Palestinian question.

That was, of course, a limited advance, but it offered some hope for more significant results.

This year, Senator SHELBY and I visited Iraq and had a chance to meet with President Saddam Hussein and other officials. During the course of our meeting with President Saddam Hussein, we discussed a wide variety of matters.

Senator SHELBY and I urged President Saddam Hussein to undertake negotiations with Israel. President Hussein said that he was preoccupied with Iraq's problems with Iran, Iraq was not a bordering state with Israel, and he did not think it appropriate to pursue that particular line.

Mr. President, when Senator SHELBY and I visited with President Saddam Hussein, we discussed a wide variety of concerns which we had about Iraq, many of which are enumerated in the pending amendment offered by the distinguished Senator from New York.

At the conclusion of our meeting, it was our thought, or at least my thought—Senator SHELBY, of course, speaks for himself and may seek to address this issue; that, of course, is his option—but it was my thought that it was definitely worth pursuing discussions with President Saddam Hussein and with Iraq.

When President Hussein made the comment about setting fire to half of Israel if Israel were to attack Iraq, I was very much concerned about the inflammatory nature of that comment and the escalation of rhetoric. And I took occasion to write to President Hussein urging that such comments not be pursued but that peace talks be pursued instead.

I wrote as well as the President of the United States to urge our action to try to bring Israel and Iraq to the bargaining table.

I might say, parenthetically, Mr. President, that I had occasion to report to President Bush on the visits which I made to Iraq and Syria. I made that report to President Bush in late January of this year, and urged President Bush, as I do today, that the United States make an effort to bring Iraq and Israel to the bargaining table, as well as Syria and Israel to the bargaining table.

Mr. President, I then had occasion to urge some of my colleagues, Senator DOLE and the congressional delegation which he led, to visit in Iraq when he made the trip to the Mideast this year. After he visited with President Assad in Syria and President Mubarak in Egypt, arrangements were made for Senator DOLE and five other Senators to visit with President Saddam Hussein in Iraq.

Mr. President, I think it highly significant that Senator MURKOWSKI and Senator METZENBAUM will take to the Senate floor and speak in opposition to the amendment by the distinguished Senator from New York, with Senator MURKOWSKI of Alaska emphasizing the view that the peace efforts ought to be attempted and that that ought to be the principal concern.

Senator METZENBAUM spoke about pursuing peace with Iraq as well.

Mr. President, after returning from Iraq, Senator SHELBY and I had occasion to visit with the Iraqi Ambassador. We had lunch with him and discussed a great many issues. We discussed with the Iraqi Ambassador many of the matters which are addressed in the amendment by the distinguished Senator from New York.

Then a week ago today, Senator DOLE convened a meeting with the Iraqi Ambassador attended by all of the Senators who were in his congressional delegation: Senator SIMPSON, Senator MCCLURE, Senator METZENBAUM, and Senator MURKOWSKI; and I attended as well.

That conversation was a very candid and frank conversation, which is the parlance used to describe these talks, customarily. But I would add, Mr. President, that it was a blunt conversation.

In the conversation with the Iraqi Ambassador, we talked about the triggering devices and expressed our concern. We talked about the enormous cannon and expressed concern.

In the previous conversations, we had talked about the issue of the use of poison gas, the issue of the Kurds, and the issue of the Iran-Iraq war. We discussed the items which are enumerated in the amendment by the distinguished Senator from New York.

So the efforts have been very signficant up until this time, Mr. President, to try to establish a dialog with Iraq and with its President, Saddam Hussein.

Mr. President, when I traveled in the Mideast, I found an approach which is significantly different from the approaches which may characterize bargaining and discussions, say, for example, in the Chamber of the U.S. Senate. I have heard diplomats from Mideastern countries, and Arab countries, say that the United States does not approach the Arab nations with sufficient dignity and with sufficient courtesy; that there is not appropriate demeanor by the United States in dealing with the Arab countries; that there is condescension.

I believe it is a very difficult matter to open dialogs with many countries where their officials have very, very different points of view. It was an extremely difficult matter to open negotiations with Egypt which led to the Camp David accords. There was a Herculean effort made by former President Carter in that regard, and great movement by Egypt's President Sadat and by Israel's Prime Minister Begin. They accomplished what most thought to be an impossibility.

The consequences of war and conflict are so horrendous, Mr. President, that we must use every vehicle and every avenue at our disposal to seek peace. There is tremendous weaponry on all sides in the Mideast.

I must say, Mr. President, that the United States has increased the availability of weaponry there, contrary to amendments which were offered by the Presiding Officer and this Senator, and the Specter-DeConcini amendment seeking to stop the sale of missiles to Kuwait a couple of years ago. Our efforts have to be unceasing because we must not let war occur. We must not let the terrible weaponry which exists in the Mideast be used by one nation against another.

That is why, Mr. President, that it seems to me we should make every conceivable effort to bring the parties to the bargaining table. That should be the premier effort of the U.S. Government.

I have spoken at some length, Mr. President, for a couple of reasons. One is I had a few things I wanted to say; and second, the distinguished Republican leader has left the floor because he is engaged in a number of other major matters and wanted an opportunity to return to the floor before this matter was moved upon.

It is my further thought, Mr. President, that this resolution is a no-win situation. If this resolution is enacted, it may do considerable damage to the efforts of the U.S. Government.

I am advised that the administration is forcefully opposed to this kind of an amendment. I do not know that the administration has had an opportunity to examine the most recent amendment or has had an opportunity to comment officially, but there may be damage to United States efforts and efforts by others to establish a dialog with Iraq. If the amendment is defeated, or if the amendment is tabled, there may be an inference that the conduct which has been described in the "whereas" clauses here is not factually true and that the Senate condones the conduct which has been targeted for denunciation by the distinguished Senator from New York. So that any way the amendment comes out, it is fraught with peril. And those who vote either way are subject—as is not uncommon in this body—to have their votes either misunderstood or misconstrued.

It is still my hope, Mr. President, as we debate this issue, that there might be a reference of this amendment and this issue to the Foreign Relations Committee, so that there could be hearings on the issue and that there could be deliberation about the matter. Those who are viewing this debate on C-SPAN II, if any are, may not know the procedures of the Senate, which permit an amendment to be brought at any time by any Senator or any issue on any bill, and thereupon, after debate, call for a vote.

On the floor at the present time there are 6 U.S. Senators; 94 now are not present. Some may be viewing this on television, and some may be listening on the squawk box, but there is really not the kind of analysis and deliberation which follows our customary procedures and which this amendment deserves. When we have hearings, a markup, Senators sit around a table and decide what the resolution should say. When there is a committee report, there is an opportunity to study that, when we know an issue is coming to the floor.

Mr. SIMON. Will my colleague yield?

Mr. SPECTER. I am delighted to yield.

Mr. SIMON. I thank him for his comments. I think he has accurately described what is a no-win situation. The amendment that is being offered by our colleague from New York is factually accurate. I do not think there is any question that the statements in there—at least from my perspective; we have not held hearings on it—are factually accurate. The question is, does this contribute to peace in the Middle East at this point?

And there I have real questions about the wisdom of proceeding. One of the things that we get involved in—and I have been guilty, and perhaps even the Senator from Pennsylvania has been guilty of it from time to time—is micromanaging foreign affairs. And I think we have to be careful. I toss this out to my colleague

from New York as a possibility, and I do not speak for the chairman of the Foreign Relations Committee in this. The one way we could have a win-win situation, instead of a no-win situation—and my guess is that the administration would welcome this option, just as I understand they oppose the amendment as it is offered right now—would be to withdraw it, with the understanding that within the next 30 or 45 days, the Foreign Relations Committee would hold hearings and report out either this resolution or something else.

I do not know the reaction of my colleague from Pennsylvania. I would be interested in his reaction since he was kind enough to yield. I would also be interested in the reaction of the Senator from New York.

Mr. SPECTER. I thank my colleague from Illinois for his comments. I think that that is a splendid idea. It is an idea which crossed my mind when I came to the floor earlier this afternoon, and I discussed it very briefly with the distinguished Senator from Rhode Island, the chairman of the Foreign Relations Committee, about the possibility of doing so. And I undertook that because, as I took a look at this amendment, there is peril in voting yes and there is peril in voting no. Either way votes are cast leads to a considerable down side.

I think that many of our colleagues will come to the floor and find this amendment pending with only the 15-minute notice. I think most people do not realize that many Senators are not even aware of the pendency of a matter when it comes up on the spur of the moment like this, without a committee listening in advance, and will not have an opportunity to digest all of the ramifications; and they will say to themselves, "If I vote for this resolution, I vote against the administration, and this may have a chilling effect on discussions. If I vote against this amendment, then I may be saying I do not believe, for example, that there were problems with chemical warfare." It could be misunderstood to that extent.

So in the interest of having our colleagues understand and in the interest of holding hearings and in the interest of an explanatory process to those in other parts of the world, including the citizens of Iraq—and it would be a useful thing for them to see what happens. I do not know if my colleague from Illinois was on the floor when I commented earlier that a few months ago there was a delegation from Iraq of parliamentarians and, in accordance with our custom, we abbreviated the proceedings and welcomed them on the floor, because our practice is to grant access to the floor to visiting parliamentarians. Short speeches were made welcoming them, and, as is our practice, the Unites States Senators greeted the visiting Iraqi parliamentarians, and they were very interested in our process.

I can say that when I had an opportunity to talk to President Saddam Hussein, he was unaware of some of our practices. We had discussion, for example, on immigration. President Saddam Hussein said to me, "Why does the United States exclude Jews from the Soviet Union, in order to compel them to go to Israel?"

I explained that we do not do that, that there is a limit, 50,000, which is a limit applied to every class of immigrants who seek to come to this country. So that explanation was of significance.

Obviously, Iraqi officials will be concerned about this kind of a proceeding, and it will enlighten them as to our process. I think that if we had the kind of deferral of judgment here, as the distinguished Senator from Ohio spoke about, perhaps being willing to vote for such a resolution 30 days or 60 days from now—I see that the majority leader seeks recognition. I yield.

Mr. D'AMATO. Mr. President, in response to the suggestion put forth by my distinguished colleague from Illinois and my good friend, Senator SPECTER from Pennsylvania, I will have to say that I do not believe there is a better time for moving on this issue than now. We are talking about chemical weapons. we are talking about weapons of mass destruction. I do not want to go much further because I think that would be abusing the latitude which the Senator has given me in terms of asking whether I would be willing to put this aside. But I really do believe there is a time and place for us to stand and make a decision.

Whether it might be misinterpreted by some, certainly no one could misinterpret the motivation of the distinguished Senator from Pennsylvania who seeks peace, who seeks every opportunity to make that, given an opportunity, ripen, and I certainly understand and would never question that motivation. I do not believe that and hope that no one else would. I would be the first to rise to the defense of the Senator from Pennsylvania and any others who are opposed to this amendment for their own stated reasons.

I am going to articulate, at least attempt to articulate further, the reasons that I feel we should go forward at this time because I do believe it will aid in the process of peace.

Mr. SPECTER. Mr. President, I suggest that there is no disagreement between the distinguished Senator from New York and this Senator about the advisability and necessity not to see chemical weapons or weapons of mass destruction used in the Mideast or, for that matter, anywhere in the world.

The issue then arises as to what is the better course, to try to pursue the dialog which has been undertaken by the administration through the Secretary of State and the informal efforts which have been undertaken by a number of Senators, or the alternative of this kind of an amendment which talks of the imposition of sanctions in terms of what is the better way to proceed.

I have expressed my thoughts on the subject in terms of my view that central to the problem of solution of the problem of the Mideast is dealing with the relationship between Iraq and Israel, as well as Syria and Israel, and the issue is really how to do it to encourage support for the dialog and the peace process by Iraq, by pursuing negotiations or pursuing the amendment at hand.

I thank the Chair, and I yield the floor.

Mr. MITCHELL addresed the Chair.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. MITCHELL. Mr. President, I have discussed this pending legislation with the distinguished Republican leader and with the manager of the bill and with other interested parties. We are now at a point where we have been on the bill for about 24 hours. It came up about this time yesterday. We have had a full day on it. There has not been a vote on an amendment yet.

I am advised that there are several amendments that are being considered. Most of the amendments which have been described to me are unrelated to the subject matter of the bill.

As Senators know I previously indicated, following consultation with the Republican leader, that we would turn to the crime bill next week. We have 4 full days set aside for that and I think it will take all of that to complete action on that bill. It is my intention to complete action before we leave for recess and that means we are now coming close to backing up into that bill.

It is my intention, so that all Members of the Senate can be aware, that we will stay here for as long as is necessary this evening, and if we have a prospect of completing action on the bill we will do so. If not, then I will consider at an appropriate time this evening filing a cloture motion, and I have discussed this with the distinguished Republican leader, which would then mature for cloture vote on Monday morning.

If that were necessary, and cloture were then obtained, we would then remain on the bill immediately following that vote until such time as action is completed on the bill and we can turn to the crime bill at that time as on schedule.

I hope that will not be necessary. I hope that there is a better alternative, but Senators should be aware that we have to finish this bill before we get to

the crime bill, and we have made a commitment to get to the crime bill by Monday. So I hope it will be possible in one fashion or another, and I would prefer the alternative that will inconvenience the least number of Senators, that we are able to finish the bill.

Mr. President, I now yield to the distinguished Republican leader and invite any comments he may have on this.

The PRESIDING OFFICER (Mr. LAUTENBERG). The Republican leader.

Mr. DOLE. Mr. President, I thank the majority leader.

I understand, as I count the amendments, there may be additional ones that I am not aware of. There are 14 amendments. I also understand that, and I think we asked for the regular order, we would be back on the Heinz amendment, which I understand will be accepted; followed by the Coats amendment, and I understand there will be a vote on that; and then we are back to the D'Amato amendment.

But the sticking point is the jurisdictional issue. That has been resolved on this side. Apparently the result on this side is not acceptable to the other side. I am advised by the Senator from Utah [Mr. GARN] that he feels strongly about the jurisdictional issue. He can speak to that himself. But if that could be resolved, I think maybe some of the other amendments—I do not say disappear but maybe they could be disposed of in other ways.

But I do not disagree. We have made a commitment on the crime bill and it seems to me that those who have an interest in that are going to be prepared on Monday to proceed to that, and either we complete action on this by continuing debate without any votes or maybe filing cloture would be the quickest way to solve the problem, because this is important legislation. This is legislation that many of us have addressed and I think there is widespread interest on both sides of the aisle.

So if the majority leader would like, I would go back and check. I think every amendment is from this side. He may have additional amendments. So all the amendments are on this side. I will ask staff to go back and check with the proposed sponsors of the amendments and give the majority leader a report by 5:45 p.m. so he then may make a judgment.

Mr. MITCHELL. I thank my colleague. Mr. President, I know of the distinguished Republican leader's interest in the subject. I believe he introduced the first legislation relating to this subject matter. So this is something in which he has been involved and has a keen interest. Therefore, I am very appreciative of his cooperation in this regard.

I repeat that it is not my desire to file cloture and to proceed to have the vote thereon on Monday, and other votes, but I will do that if it is the only recourse left available. And that decision will have to be made before the close of business this evening. So I hope that we are able to make progress.

I am aware of the keen interest of the distinguished Senator from Utah. I hope that matter can be worked out.

In any event, we will just proceed in the hopes that we can complete action. I wanted Senators to be aware of that, and Senators should understand that as of now there may be votes tomorrow and there may be votes on Monday. It all depends upon if and when we can complete action on this legislation and which course of action is required to do so.

Mr. President, I thank my colleagues.

AMENDMENT NO. 1643 TO AMENDMENT NO. 1642

The PRESIDING OFFICER. The Senator from New York.

Mr. D'AMATO. Mr. President, I send an amendment to the desk in the nature of a second-degree amendment, and I ask unanimous consent that the Senator from New Jersey [Mr. LAUTENBERG] be added as an original cosponsor, and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment will be stated.

The legislative clerk read as follows:

The Senator from New York [Mr. D'AMATO], for himself and Mr. LAUTENBERG, proposes an amendment numbered 1643.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

After "SEC. 301" strike all and insert in lieu thereof:

CONGRESSIONAL FINDINGS.

(a) The Congress finds that—

(1) The Government of Iraq has systematically detained, tortured, and executed thousands of its own citizens;

(2) The Government of Iraq has destroyed more than one thousand villages and towns in the Kurdish regions of Iraq, effectively depopulating the rural areas of Iraqi Kurdistan;

(3) Iraq has used chemical weapons on an extensive scale against its own Kurdish citizens, resulting in tens of thousands of deaths and more than fifty thousand refugees;

(4) Amnesty International has documented extensive violations of human rights by the government of Iraq, including the torture and murder of children as a means of punishing their parents;

(5) Iraq has blatantly violated international law in initiating use of chemical weapons in the Iran-Iraq war and in its use of chemical weapons during and after the war on its own Kurdish citizens;

(6) Iraq has failed to ratify the Convention of Biological Weapons and persuasive evidence exists that Iraq is developing biological weapons in violation of international law;

(7) Iraqi President Saddam Hussein has threatened to use chemical weapons against other nations, including making a threat without provocation to destroy the state of Israel.

(b) The Congress finds and determines—

(1) That Iraq has engaged in a consistent pattern of gross violations of internationally recognized human rights;

(2) Iraq's repeated disregard for international law, including violations of its obligations under the United Nation's Charter and the 1925 Geneva Protocol, places Iraq outside the community of civilized nations;

SEC. 302. ENFORCEMENT OF UNITED STATES LAW.

The President shall enforce against Iraq all provisions of law which impose sanctions against a country that engages in a consistent pattern of gross violations of internationally recognized human rights.

Mr. D'AMATO. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is not a sufficient second.

Mr. DOLE. I call for the regular order.

The PRESIDING OFFICER. The regular order is the Heinz amendment No. 1638.

AMENDMENT NO. 1638

Mr. DOLE. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to cal the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

VOTE ON AMENDMENT NO. 1638

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Pennsylvania [Mr. HEINZ]. The yeas and nays have been ordered and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Connecticut [Mr. LIEBERMAN] is absent on official business.

I further announce that, if present and voting, the Senator from Connecticut [Mr. LIEBERMAN] would vote "yea."

Mr. SIMPSON. I announce that the Senator from Colorado [Mr. ARMSTRONG] and the Senator from Vermont [Mr. JEFFORDS] are necessarily absent.

I also announce that the Senator from Idaho [Mr. SYMMS] is absent on official business.

The PRESIDING OFFICER (Mr. SANFORD). Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 96, nays 0, as follows:

[Rollcall Vote No. 98 Leg.]

YEAS—96

| | | |
|---|---|---|
| Adams | Ford | McClure |
| Akaka | Fowler | McConnell |
| Baucus | Garn | Metzenbaum |
| Bentsen | Glenn | Mikulski |
| Biden | Gore | Mitchell |
| Bingaman | Gorton | Moynihan |
| Bond | Graham | Murkowski |

NAYS—0

NOT VOTING—4

| | |
|---|---|
| Armstrong | Lieberman |
| Jeffords | Symms |

So, the amendment (No. 1638) was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Republican leader.

AMENDMENT NO. 1644 TO AMENDMENT NO. 1639

Mr. DOLE. Mr. President, I have been discussing a problem with the Coats amendment with the distinguished Senator from Indiana. I think through a drafting error the Coats amendment defines solid waste, which happens to include municipal waste and solid hazardous waste. Many States, including Kansas, have interstate compacts on hazardous waste disposal. For example, we send all our solid waste to Missouri and Iowa, but we take liquid hazardous waste, incinerate and dispose of it in our State. I am going to send a second-degree amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE] proposes an amendment numbered 1644 to amendment No. 1639.

Mr. DOLE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 1 of amendment 1639 insert between lines 5 and 6 the following: "Section 4002 of the Solid Waste Disposal Act is amended by adding at the end thereof the following subsections:"

On page 1, line 11, after the word "State" add the following: "for the purposes of this section the term 'solid waste' does not include 'Hazardous waste' or 'hazardous substance' as defined in this Act or the Comprehensive Emergency Response Compensation and Liability Act (P.L. 96-510)".

On page 1, line 6, strike "(a)" and insert "(d)".

On page 2, line 1, strike "(b)" and insert "(e)".

On page 2, line 11, strike "(c)" and insert "(f)".

On page 2, line 17, strike "(d)" and insert "(g)".

On page 2, line 20, add " after "Act."

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. BAUCUS addressed the Chair.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, we have not seen this amendment. I wonder if we can see a copy of the amendment so we are in a position to know whether or not to accept it, debate it, whatnot. This is the first time I heard of this amendment. I think Senators need to see a copy of the amendment so we know what we are dealing with.

Mr. DOLE. Mr. President, I agree with the Senator from Montana.

Mr. COATS addressed the Chair.

The PRESIDING OFFICER. Will the Senator from Montana yield? The Senator from Indiana.

Mr. COATS. Mr. President, if I might ask the minority leader a couple questions regarding the second-degree amendment. My understanding is the amendment is offered solely for the purpose of defining solid waste so as not to include hazardous waste.

Mr. DOLE. That is correct.

Mr. COATS. It was never my intention to include hazardous waste. In drafting this measure, we identify solid waste but apparently there is some confusion relative to the reference to another statute. My understanding is the Senator's amendment is simply to clarify that hazardous waste is not included in this legislation. That is perfectly acceptable to me. That was our intent right from the beginning.

Mr. DOLE. That is an accurate description.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, I think this clarification of the definition of solid waste is a good one and I accept it.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. COATS. Mr. President, I ask for the yeas and nays on the amendment.

Mr. LAUTENBERG. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ETHIOPIAN CIVIL WAR AND FAMINE

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the Senator from Ohio be permitted to send a resolution to the desk on behalf of myself, Senators DOLE, SIMPSON, MURKOWSKI, PELL, SIMON, LUGAR, BOREN, and MCCLURE and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 287) expressing the sense of the Senate with respect to the possibility of Organization of African Unity mediation in the Ethiopian civil war.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. METZENBAUM. Mr. President, the resolution that I send to the desk calls on the Organization of African Unity to take a more active role in mediating regional conflicts, particularly in Ethiopia. This resolution is cosponsored by the five Senators who recently made a trip to the Middle East, as well as by Senator PELL, Senator LUGAR, and Senator SIMON.

I am pleased to say that the Department of State supports the resolution as well.

We are currently faced with a situation in Ethiopia in which a nearly 30-year-old civil war is compounding the effects of devastating famine. This is the second time we have faced such a situation in less than 5 years. Efforts of the United Nations, or even through the good offices of the United States have failed to have any impact upon the conflict. But the fact is that the Ethiopian conflict is causing literally hundreds of thousands of people to be starved to death because relief cannot be brought into the country; 5 million people may be at risk. Food is available, but due to the ongoing conflict it cannot be transported. All parties to this conflict have not done everything they could be doing to alleviate the famine.

This Senator understands there is a loss of life whenever there is a war. But in Ethiopia we are not talking about the loss of life that occurs solely

among warring parties. We are talking about a massive loss of life that is occurring because people are starving, as a direct result of the civil war.

It is our feeling that the Organization of African Unity, which is currently chaired by the very able President Mubarak of Egypt, is in a position to provide some leadership to bring about a resolution of the Ethiopian conflict.

This resolution calls upon the Organization of African Unity to provide leadership, to step into the situation and determine whether or not it can bring about a peaceful resolution. Alternatively, a resolution which allows, at a minimum, famine relief to flow freely into affected areas.

I think this is a message that needs to be sent to the Organization of African Unity. I think it is the kind of message that tells Mr. Mubarak and others that we want him to move on this crisis, and to move with dispatch.

Those of us who recently met with President Mubarak found that he would be very receptive to initiatives in this area. I think that OAU mediation in Ethiopia would meet with his approval. I think it would meet with the approval of all peoples of the world. Senate Resolution 287 can be of some assistance in this respect. It is my hope, therefore, that the Members of the Senate will see fit to agree to this resolution.

Mr. President, I ask unanimous consent that Senator BOREN be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER (Mr. DIXON). The Republican leader.

Mr. DOLE. Mr. President, I want to join my colleague from Ohio. We visited with President Mubarak about such a resolution, and the fact that it might be helpful.

This is a tragedy. It seems to me this is something that we might do that is going to be accepted, I think, universally in a positive side.

So I applaud the Senator from Ohio. I am pleased to be a cosponsor.

The PRESIDING OFFICER. Is there further debate on the resolution?

If not, the question is on agreeing to the resolution.

The resolution (S. Res. 287) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, is as follows:

S. RES. 287

Whereas the likelihood of devastating famine is facing the Horn of Africa, and specifically Ethiopia, for the second time in five years;

Whereas international relief agencies' attempts to respond to this crisis are being hampered by the nearly thirty-year old Ethiopian civil war;

Whereas parties to the Ethiopian dispute have manipulated famine relief supplies in order to achieve their own goals;

Whereas several non-African parties have used their good offices in pursuit of peace in Ethiopia, although with little success as yet;

Whereas the Arab Republic of Egypt currently occupies the Chairmanship of the Organization of African Unity;

Whereas the Arab Republic of Egypt has demonstrated the efficacy of OAU mediation in regional conflicts;

Whereas the search for peace in the Horn of Africa generally, and in Ethiopia in particular, would be facilitated by diplomatic intervention on the part of the Organization of African Unity: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that—

(1) the Organization of African Unity should actively promote solutions to regional African problems;

(2) the OAU should seek an immediate cessation of hostilities in Ethiopia in order that famine relief effort should be allowed to proceed, and to build the foundation for a permanent settlement of the Ethiopian civil war.

Mr. METZENBAUM. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. METZENBAUM. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. MACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT OF 1989

The Senate continued with the consideration of the bill.

The PRESIDING OFFICER. The Senator from Florida is recognized.

Mr. MACK. Mr. President, I ask unanimous consent that the pending amendments numbered 1639, 1642, 1643, an 1644 be laid aside temporarily so I may be permitted to offer an amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1645

(Purpose: Adds new subsection (c) at the end of section 202 regarding Export Controls)

Mr. MACK. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Florida [Mr. MACK] proposes an amendment numbered 1645.

Mr. MACK. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 15 of the Committee substitute, after line 20, add the following:

"(c) IMPROVED VERIFICATION OF EXPORT CONTROLS.—The Secretary of Commerce should, in order to supplement existing means of verification of export controls relating to chemical and biological weapons, take measures to encourage voluntary utilization of appropriate independent inspection companies to inspect and certify shipments and end-users of chemicals that could be used in the development of chemical and biological weapons."

Mr. MACK. Mr. President, the amendment I am offering, which adds a one-paragraph subsection called Improved Verification of Export Controls has been cleared by the managers of this bill, Chairman PELL and Senator HELMS.

The purpose of the amendment is to encourage the Department of Commerce to utilize the capabilities of independent inspection companies in the verification of export controls. This is a win-win amendment. It will help exporters expedite the licensing process, help prevent the diversion of chemical precursors to weapons manufacturers, all without cost to the taxpayers.

By the way, I believe this idea could be applied not only to the problem of chemical and biological weapon proliferation but also to nuclear proliferation and to Cocom's controls concerning technology transfers.

I would like to emphasize that the program envisioned by this amendment would be entirely voluntary and would not involve the delegation of any authority by the U.S. Government.

The intention of this amendment is to encourage the Commerce Department to designate suitable independent inspection companies whose certification would expedite export license applications. I thank the managers of the bill for accepting this amendment and urge its adoption by the Senate.

Mr. President, this amendment is nonbinding and noncontroversial and has been accepted by the managers of the bill.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I thank the Senator from Florida.

It is adding on page 15 of the committee substitute, after line 20, "(c) Improved Verification Export Controls." Is that correct?

Mr. MACK. The Senator is correct.

Mr. PELL. That is acceptable to this side and the committee will support it.

The PRESIDING OFFICER. Is there further discussion of the amendment of the Senator from Florida?

The question is on agreeing to the amendment of the Senator from Florida.

The amendment (No. 1645) was agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. LAUTENBERG. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1646

(Purpose: To require limitations and restrictions concerning trade and other transactions with Cuba)

Mr. MACK. Mr. President, I ask unanimous consent that the pending amendments numbered 1639, 1642, 1643, and 1644 be temporarily laid aside so I may be permitted to offer an amendment.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Florida?

Without objection, it is so ordered.

The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Florida [Mr. MACK], for himself, Mr. GRAHAM, Mr. LIEBERMAN, Mr. MCCAIN, Mr. GRAMM, and Mr. D'AMATO, proposes an amendment numbered 1646.

Mr. MACK. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection it is so ordered.

The amendment is as follows:

At the end of the substitute, add the following new title:

TITLE —ADDITIONAL RESTRICTIONS ON TRADE WITH CUBA

SEC. . PROHIBITION ON CERTAIN TRANSACTIONS BETWEEN CERTAIN UNITED STATES FIRMS AND CUBA.

Notwithstanding any other provision of law, no license may be issued for any transaction described in section 515.559 of title 31, Code of Federal Regulations, as in effect on July 1, 1989.

Mr. MACK. Mr. President, the amendment that I am offering is an amendment dealing with the need to tighten the economic embargo on Cuba. Our foreign policy for some 200 years, two centuries, has been driven on the principle of freedom, to defend and protect freedom around the world.

As a result of the commitment to that principle, we see today countries experiencing freedom and democracy that not too long ago we thought would be impossible. I believe that a continued commitment to that principle is called for today and that it is time again for us to act.

Yesterday, the other body passed a resolution condemning Castro for human rights violations. I think it is important that we make a statement at this time about those continued human rights violations.

Mr. President, I ask unanimous consent to have printed in the RECORD an article entitled "Is Castro Planning Another Mock Trial?"

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Mar. 27, 1990]

IS CASTRO PLANNING ANOTHER MOCK TRIAL?

(By Heberto Padilla and Belkis Cuza Male)

PRINCETON, NJ.—Tania Diaz Castro, a respected poet who recently campaigned for signatures for a referendum on the legitimacy of Fidel Castro's 31-year dictatorship, again is the target of Government repression, Cuban exiles believe, with good reason, that her life may be in danger.

Early this month, she was jailed along with six colleagues from the Human Rights Party, which she helped found in 1988. It was the first opposition party formed in Cuba since 1959. The seven are accused of membership in an "illegal association," which can draw at least a year in prison, and participating in "illegal demonstrations," which can draw another year.

But in a recent speech, Defense Minister Raúl Castro said they might be treated as "the highest traitors in the history of Cuba." The threat must be taken seriously.

Ricardo Bóffill, an exile in Miami who helped found the Committee for Human Rights in 1976, says: "We have spoken with Tania's family in Havana, and the political police told them that she will be charged with high treason."

The crime of "high treason against the nation" carries a maximum sentence of the death penalty, and a minimum of 20 years' imprisonment.

Since Tania Díaz Castro, more than anyone else in Cuba, represents the unifying force behind the opposition to President Castro (who is not a relative of hers), it is not inconceivable that she could be sent before a firing squad on fabricated charges.

There is a possible precedent: the recent execution, after a mock trial, of Gen Arnolds Ochoa on trumped-up drug charges in spite of all the revolutionary honors bestowed on him.

Sources high in the regime already are linking Ms. Díaz Castro to the Central Intelligence Agency and are accusing her of promoting another invasion of the island by the U.S.

In November 1988, Tania Diaz Castro was arrested while visiting a veteran political prisoner and fellow poet, Ernesto Díaz Rodríguez, in jail, where he had served time for more than 20 years. She was sentenced to a year's imprisonment on charges of creating a public disturbance and civil disobedience.

In 1989, after being released, she collected 10,000 signatures on behalf of forming the Human Rights Party, and tried as the party's general secretary, to register it with the Justice Ministry. She was not successful.

Earlier this month, shortly after an overwhelming majority vote by the International Commission on Human Rights in Geneva censored Cuba for human rights violations—a vote that included several Eastern European countries—the regime retaliated by moving against activists in Havana.

State security officials encouraged threats against and beating of these dissidents, and staged a mob action outside the residence of two well-known activists, Gustavo Arcos Bergnes and Sebastián Arcos Bergnes.

The arrests were clearly precipitated by the isolated Mr. Castro, one of the world's few remaining Communist leaders, who is trying to rid himself of all viable democratic opponents. He will not succeed.

Mr. MACK. Mr. President, the article deals with Tania Diaz Castro, a respected poet in Cuba who has already spent time in a Cuban jail, and is presently imprisoned a second time, and the words that come out of Cuba today would indicate that they may intend to try her for treason. In Cuba, if found guilty of treason, that would call for death. A precedent has been set and I think it is important that we express our deep concern about the human rights violations in Cuba.

I recently attended a conference in Geneva, a human rights conference of the United Nations. I was there to try to encourage our colleagues from around the world to support a resolution condemning Cuba, condemning Castro, for human rights violations. We lost that vote last year. We won the vote this year. We had support from countries like Hungary, Poland Czechoslovakia, Bulgaria—a total change in the attitude throughout this world of ours.

But the interesting thing is that it seems like Castro has the feeling that he can act with impunity, that he is somehow free from the impact of world public opinion.

One of the Members of the other body, after the passage of that resolution yesterday, made a statement that there was not really anything else that we could do other than to pass the resolution which condemns the actions for violations of human rights. But I would suggest that through this amendment, that is, tightening the economic embargo on Cuba, that there is action that we can take.

I have found that there has been some 1.5 billion dollars' worth of trade still going on between foreign subsidiaries of U.S. companies—$1.5 billion over a 5-year period—some $300 million a year. This amendment would eliminate that. This amendment would tighten the embargo. This amendment would take us back to the pre-1975 language. So I encourage my colleagues to support this amendment.

I understand that there is a willingness for the acceptance of this amendment—not that everyone might be in total agreement with the amendment—but there is agreement that we should move forward and there is acceptance, I believe, of the amendment that I am offering today.

I thank the Chair.

The PRESIDING OFFICER. Is there any further debate? The Senator from Florida.

Mr. GRAHAM. Mr. President, I rise for the purpose of speaking on behalf of the amendment which has been offered by my colleague, Senator MACK, and myself, and also for purposes of offering a second-degree amendment to this amendment.

Mr. President, the amendment which has been offered would restore a 1975 provision relative to the embargo imposed by the United States on Cuba.

Mr. President, Fidel Castro remains one of the last political dinosaurs on the world scene today. As a Democratic tide breaks over the world, East and West, Castro stands with his finger in the Socialist dike, trying almost comically to hold back the forces of change. It would be comical if not for the continuing violence of his rule. Although Castro is headed for the dustbin of history, it is taking longer for him to get there than any of us would like.

In the meantime, his own people continue to pay a stiff price. Within the last several months Castro has renewed his crackdown on human rights activists. He has jailed nine human rights leaders within the last several weeks. His jails now hold 200 political prisoners. His dismal human rights record has been condemned by the U.N. Human Rights Commission in each of the last 2 years. This year, for the first time, Czechoslovakia and Bulgaria joined with the United States to condemn Castro.

Outside of Cuba, Castro continues to try to destabilize Democratic governments in the region. His assistance provided the FMLN the wherewithal to mount last year's offensive, which resulted in hundreds of civilian deaths.

I suggest that it is not in the interest of the United States to contribute in any way to prolonging the agony of Castro's rule. That is why we are embarking on an important effort today to put the teeth back into our trade embargo against Cuba. I say "put back" because, until 1975, our embargo against Cuba was much tougher than it is today. At that time the embargo applied to American owned or controlled subsidiaries in foreign countries. This amendment would restore that important provision.

Mr. President, our main objective, however, is to restore the embargo provision removed in 1975. Including subsidiaries in our embargo is entirely consistent with provisions we enforce in our embargoes with North Korea, Cambodia, and Vietnam. Moreover, the Senate approved an identical provision last year by a vote of 82 to 13. And no wonder. The majority of our colleagues agreed that without this particular provision, an embargo can be easily circumvented. And in Cuba's case, with great effect.

By exploiting this loophole, Cuba is able to do more than $300 million in hard currency trade through subsidiaries. That is about one-sixth of the total $1.7 billion trade Cuba does with the non-Communist world. This figure is certain to grow as Cuba actively seeks trading partners in the West to replace a probable decline in trade with Eastern Europe and the Soviet Union. At a time when the Soviet Union itself is seriously reconsidering its continuing subsidy of the Cuban economy to the annual tune of $3 billion, it makes no sense for United States subsidiaries to be allowed to pick up the slack.

Mr. President, at a time when even the countries of Eastern Europe are souring on their relationship with Cuba, it makes absolutely no sense for the United States to step in to give what in effect is a helping hand to Fidel Castro.

Mr. President, I urge the adoption of the amendment as offered by Senator MACK.

Mr. HELMS. Mr. President, I am pleased to join with the Senator from Florida in supporting this timely amendment to tighten the restrictions on trade with Cuba.

Mr. President, the United States imposed a total trade embargo on Cuba in 1963. Unfortunately, in 1975 a loophole was created in that embargo allowing United States subsidiaries abroad to trade with Cuba. According to the Office of Foreign Asserts Control at the Department of Treasury, this loophole has resulted in more than $2 billion in trade with Cuba since 1980. Needless to say, this trade has become a major source of hard currency for Fidel Castro's drug-running Communist dictatorship.

Therefore on July 20, of last year, the Senate adopted overwhelmingly by a vote of 82 to 13 an important amendment to the State Department Authorization Act offered by the junior Senator from Florida that applies the United States embargo on Cuba to "American owned or controlled foreign firms." In short, the Mack amendment would have restored the Cuba embargo to its pre-1975 status. As the ranking member of the Foreign Relations Committee, I strongly supported that provision in conference with the House. Unfortunately, our colleagues on the House Foreign Affairs Committee refused to accept the Senate amendment during the conference, and as a result Fidel Castro continues to benefit from the current status.

Mr. President, the amendment that the Senator is offering today is identical to the amendment that passed the Senate last July. This amendment sets no precedents with regard to tightening the ban on foreign subsidiaries. The United States currently maintains embargoes on North Korea, Cambodia, and Vietnam. Those embargoes to apply to U.S. subsidiaries abroad. But by permitting the loophole to remain in effect, the U.S. is effectively providing an exemption to the Castro Communist dictatorship.

Therefore, I strongly support the amendment and I urge its overwhelming adoption.

AMENDMENT NO. 1647 TO AMENDMENT NO. 1646

(Purpose: Expressing the sense of the Congress that a serious problem in the U.S.-Soviet relations is the Soviet Union's continuing support for Cuba and that the Soviet Union, in reexamining its relationship with Cuba, should cease military aid to the Castro regime and take all other possible steps to further the policies of glasnost and perestroika by adopting polices supporting the political and economic rights of the Cuban people)

Mr. GRAHAM. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Florida [Mr. GRAHAM], for himself, Mr. MACK, Mr. DECONCINI, Mr. MCCAIN, and Mr. LIEBERMAN, proposes an amendment numbered 1647 to amendment No. 1646.

Mr. GRAHAM. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the amendment add:

Since totalitarian rule is giving way to democratic rule around the world:

Since the people of Eastern Europe have led the way, embracing Mikhail Gorbachev's policies of glasnost and perestroika and replacing totalitarian regimes with elected governments that respect human rights;

Since Fidel Castro's totalitarian rule stands in stark contrast to the democracy sweeping through Eastern Europe, Latin America, and other parts of the world;

Since after thirty years of rule Castro still stubbornly clings to power, publicly attacking the new policies and governments of Eastern Europe, and openly criticizing the policies of Mikhail Gorbachev;

Since despite these attacks the Soviet Union continues to prop up the Castro government, subsidizing the Cuban economy at an annual rate of at least $5.5 billion, $1.5 billion of it in military assistance;

Since Soviet Deputy Prime Minister Leonid Abalkin has publicly stated that commercial ties between the two countries might be expanded and perhaps even substantially increased;

Since the Soviet Union continues to modernize the Cuban armed forces, delivering six new advanced Mig-29 fighters earlier this year;

Since this business-as-usual support continues at a time when Castro has launched a new wave of repression, arresting human rights activists, underground political leaders, dissidents, university students, and religious leaders;

Since Castro has executed, arrested, and dismissed key members of his military high command, state security ministry, personal body guard, Cuban Communist Party Central Committee, and diplomatic corps during the past year, in an ongoing purge to consolidate control and discourage reform;

Since Castro has arrested and deported international journalists for reporting the growing human rights and pro-democracy movement in Cuba; and

Since Castro has gone so far as to deport Eastern bloc reporters who "compare Cuba to Romania—the calm before the storm," take Soviet publications such as Moscow News out of circulation, and ban perestroika by Mikhail Gorbachev: Now, therefore, be it the sense of the Congress; That—

(1) continuing Soviet support of Cuba remains a serious problem in United States-Soviet relations;

(2) the Soviet Union, in reexaming its relationship with Cuba, should cease military aid to the Castro regime and take all other possible steps to further the policies of glasnost and perestroika by adopting policies supporting the political, economic rights, and human rights of the Cuban people.

Mr. GRAHAM. Mr. President, I am offering a second-degree amendment to the Mack-Graham Cuban embargo amendment calling on the Soviet Union to cease its military aid to Cuba and to further the policies of glasnost and perestroika by adopting policies supporting the political, economic, and human rights of the Cuban people.

I am glad to be joined by Senators MACK DECONCINI and MCCAIN in offering this amendment.

Mr. President, totalitarian rule is giving way to democratic rule around the world. The people of Eastern Europe have led the way, embracing Mikhail Gorbachev's policies of glasnost and perestroika and replacing totalitarian regimes with elected governments that respect human rights. Castro's totalitarian rule stands out like a sore thumb. It certainly does in this hemisphere where there has been a veritable binge of elections in the last year. Just about everywhere except for Cuba. After 30 years of rule, Castro still stubbornly clings to power, publicly attacking the new policies and governments of Eastern Europe and openly criticizing the policies of Mikhail Gorbachev.

Despite Castro's public statements and actions, the Soviet Union continues to prop up the Castro government, subsidizing the Cuban economy at an annual rate of at least $5.5 billion, $1.5 billion of it in military assistance. Indeed, Soviet Deputy Prime Minister Leonid Abalkin has publicly stated that commercial ties between the two countries might be expanded and perhaps even substantially increased.

Mr. President, I ask unanimous consent to have printed in the RECORD an April 20 Christian Science Monitor article reporting his remarks.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

SOVIET "REASSURANCES" STILL LEAVE CUBANS GUESSING ON SUBSIDY

(By Alex Wynter)

LONDON.—Cuba won economic breathing space Wednesday when visiting Soviet Deputy Prime Minister Leonid Abalkin told a news conference in Havana he thought commercial ties between the two countries might be expanded "and perhaps even substantially increased."

Mr. Abalkin, whose job it is to steer the Soviet Union toward a market economy, headed a Soviet delegation in week-long talks in Havana on bilateral trade. During his stay, he signed a trade agreement for 1990 worth $14 billion.

But his comments left observers guessing as to whether, after this year, Moscow intends to go on subsidizing the Cuban economy to the tune of at least $3 billion a year by Western estimates.

Soviet aid to Cuba has long been delivered via a system of preferential trading: Moscow buys Cuban sugar at higher-than-world-market prices and sells oil to the island at bargain-basement rates. President Fidel Castro's open criticism of Soviet reforms and the Soviet Union's own economic problems had given rise to the expectation that the subsidy was to be cut.

In sending Abalkin to Havana, President Mikhail Gorbachev was asking Cuba to deal with a man whose economic philosophy resembles that of British Prime Minister Margaret Thatcher's more than the views of Mr. Castro.

In a more ominous sign, the Soviet press began calling for the Soviet-Cuban arrangement to be renegotiated in the Soviet Union's favor. A few days before Abalkin set off for Havana, the Soviet Communist Party daily Pravda spoke of the need for a "radical overhaul" of Soviet aid.

At his news conference, Abalkin spoke only of the volume, not the terms, of Soviet-Cuban trade—leaving the question of the future of the subsidy open. This has been left to a special joint commission, which Abalkin helped to set up.

The existing five-year trade agreement between the two countries expires at the end of 1990. Beyond that date, the Soviet minister would say only that both sides wanted to "radically perfect" their relations.

A hint of what it might mean was given by Yuri Petrov, the Soviet ambassador to Cuba, in an interview in Havana last month. He stressed that the Cubans were still "our friends," and not to be sold out or abandoned. But he also spoke of the need for "balance in the commercial sphere," a reference to world market prices and the present setup under which they are ignored.

Privately, Soviet officials in Havana say the next long-term trade agreement will probably last for two instead of five years, and will "take into account" Soviet economic reforms.

Castro has explicitly acknowledged the possibility that Soviet aid to Cuba may be reduced or halted altogether. He said the Soviet Union is "making a great effort, in the midst of its own difficulties, to continue development of economic relations with this country."

But he said changes in Eastern Europe had left Cuba with fewer friends. Castro has vowed to uphold his country's socialist system rather than implement democratic and economic reforms.

The Cuban government has even begun contingency planning for just that. One of the biggest steelworks in the country recently spent a day burning wood instead of imported Soviet oil as an energy-saving exercise.

Western diplomats in Havana say the political price of Moscow's continued support for Cuba could rise to unacceptable levels. The United States has been citing Soviet military and economic aid to Castro as one of the last remaining problems in superpower relations.

And with the Soviet Union hungry for Western development aid and rapid progress on strategic arms reduction, these diplomats say it is only a matter of time before Washington plays the Cuba card.

Mr. GRAHAM. Mr. President, in addition to the economic aid, the Soviets continue to modernize the Cuban Armed Forces, delivering six new advanced Mig-29 fighters earlier this year. While this business-as-usual support continues, Castro has launched a new wave of repression, arresting human rights activists, underground political leaders, dissidents, and university and religious leaders.

Mr. President, it is time this body sent the Soviet Union a clear message that the Soviets' continuing support for Fidel Castro will remain a serious problem in United States-Soviet relations. Current Soviet policy simply does not square with Gorbachev's often stated commitment to glasnost and perestroika. Actions speak louder than words. In the case of Cuba, we are waiting for some tangible action by the Soviets.

The PRESIDING OFFICER. Is there further debate on the amendment of the Senator from Florida?

The Senator from Rhode Island.

Mr. PELL. The amendment, by both Senators from Florida, is most acceptable, and I recommend adoption.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment of the Senator from Florida.

The amendment (No. 1647) was agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote.

Mr. LAUTENBERG. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. If there be no further debate, the question now is on agreeing to the amendment, as amended, of the junior Senator from Florida.

The amendment (No. 1646), as amended, was agreed to.

Mr. GRAHAM. Mr. President, I move to reconsider the vote.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LAUTENBERG. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded for the purposes of propounding a unanimous-consent agreement.

The PRESIDING OFFICER. Is there objection to the suspension of the calling of the role?

Mr. PELL. I must object at this time.

Mr. D'AMATO. If the distinguished chairman objects, I will withdraw that request.

The PRESIDING OFFICER. Objection is heard. The clerk will have to call the roll until such objection is resolved.

The assistant legislative clerk proceeded to call the roll.

Mr. McCLURE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCLURE. Mr. President, I do not know what the parliamentary situation is at the present time, and I do not want to interfere with the pending business. I have an amendment I wish to offer and have considered.

The PRESIDING OFFICER. May I say to the Senator, the pending amendment is Dole amendment No. 1644 to Coats amendment No. 1639.

Mr. McCLURE. Mr. President, would it be in order that the Senator from Idaho ask unanimous consent the pending amendments be temporarily set aside, and the amendment of the Senator from Idaho may be considered?

The PRESIDING OFFICER. That is in order.

Mr. McCLURE. I make that request.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The Senator from Idaho is recognized.

AMENDMENT NO. 1648

Mr. McCLURE. Mr. President, I send an amendment to the desk on behalf of myself and Senators WALLOP, HELMS, SYMMS, LOTT, HUMPHREY, THURMOND, and McCAIN, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Idaho [Mr. McCLURE], for himself, Mr. WALLOP, Mr. HELMS, Mr. LOTT, Mr. HUMPHREY, Mr. THURMOND, and Mr. McCAIN, proposes an amendment numbered 1648.

Mr. McCLURE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert:

The Senate finds:

(1) According to recent press reports, in three separate incidents on March 9th and 10th, 1990, Soviet personnel breached their obligation under the INF Treaty to allow United States monitoring rights at the Votkinsk missile factory;

(2) The Soviet Union refused to allow American personnel at the Votkinsk missile factory to utilize the INF Treaty-authorized monitoring device, called "Cargoscan," the verification x-ray system used to assure the United States that SS-20 missiles banned by the INF Treaty are not exiting from this facility;

(3) On March 9, 1990, the Soviets insisted on removing a missile from the plant without allowing the U.S. officials on the scene to use "Cargoscan", and again on March 10 two additional missiles were removed without imaging;

(4) In recent months, according to press reports and open testimony to the Senate, U.S. intelligence has discovered in East Germany several launchers for the INF Treaty-limited SS-23 missile system, and East Germany has admitted having four SS-23 launchers and twenty-four SS-23 missiles, and other SS-23 equipment;

(5) On March 27, 1990, the Soviet Union, in response to a diplomatic inquiry from the U.S., admitted that they had transferred as many as one hundred or more SS-23 missiles to Bulgaria, East Germany, and Czechoslovakia, possibly in violation of the 1987 INF Treaty;

(6) The Czechoslovak Government confirmed to the U.S. that they have SS-23 missiles, and the Bulgarian government has indicated that they also have SS-23 missiles;

(7) The Soviet Union has failed repeatedly to declare these SS-23 launchers and missiles controlled by the U.S.S.R. and allegedly transferred to East European allies as part of the Soviet INF inventory;

(8) Such Soviet covert SS-23 mobile missile deployment was successfully concealed for over two years;

(9) U.S. Intelligence has also detected non-declared SS-4 INF missile equipment at a non-declared facility inside the Soviet Union, and this was confirmed by ACDA Director Lehman in open testimony to the Senate;

(10) U.S. INF negotiators have reportedly termed the Soviet denials that they had transferred SS-23's to Soviet Warsaw Pact allies as "mendacity", and a top U.S. arms control negotiator has stated that this Soviet covert deployment of SS-23's "cuts the heart out of the INF Treaty."

(11) The Soviet Union has rebuffed vigorous protests on these issues to the Soviet Embassy in Washington, as well as personal communications from Secretary of State Baker to Soviet Foreign Minister Eduard Shevardnadze: Therefore

It is the sense of the Senate that:

(1) Serious questions exist concerning the U.S. capability to monitor and verify any treaty which covers mobile missile systems;

(2) The Soviet Union should be condemned for its willful act denying our Treaty right to image the three Soviet missiles which exited the facility at Votkinsk on March 9-10, 1990;

(3) In order to expedite U.S. decision-making about the appropriate proportionate response to these Soviet INF compliance problems, and before entering into any further arms control agreements, the Administration should report its findings on these problems to the Senate as soon as possible.

Mr. McCLURE. Mr. President, this amendment is a sense-of-the-Senate resolution dealing with the question of INF violations.

On three separate occasions during the weekend of March 9 and 10, Soviet personnel at the Votkinsk missile factory breached an obligation of the INF Treaty that allowed United States personnel on-site inspection at certain missile factories. This violated both the letter and the spirit of the treaty's verification regime.

The Soviet Union refused to allow American personnel at Votkinsk to utilize the INF Treaty-authorized monitoring device, nicknamed "cargoscan," a verification x ray used to ensure the SS-20's banned by the INF Treaty are no longer exiting from the facility.

On March 9, the Soviets insisted on removing a missile from the Votkinsk plant without allowing United States officials to use the cargoscan x ray. This scene was repeated again on March 10 when two additional missiles were removed without imaging.

In recents weeks, United States intelligence has discovered in East Germany a number of launchers—reportedly six—for the SS-23 missile system—an intermediate range system banned by the 1987 treaty. Along with these launchers were as many as 24 associated missiles.

On March 27, the Soviet Union, in response to a diplomatic inquiry from the United States, admitted they had transferred SS-23 missiles to Bulgaria, East Germany, and Czechoslovakia, possibly in violation of the INF Treaty. As you know, Mr. President, the treaty prohibits transfer of intermediate range missiles after its implementation.

Both the Czechoslovak and Bulgarian Governments have confirmed these reports, but the Soviet Union evidently has failed to declare these launchers and missiles as part of Soviet or East Germany inventory.

What is most disturbing is that these covert mobile missile deployments have been concealed successfully for over 2 years. Further, Mr. President, I remind my colleagues that during the INF negotiations, United States negotiators sought assurances from the Soviets on 10 separate occasions that no INF missiles had been transferred to Warsaw Pact allies and 10 times they said no. One State Department arms control official claimed that "if we had known about these missiles before the 1987 treaty was signed, we would not have recommended that Ronald Reagan sign it."

The Soviet Union, despite all the positive rhetoric and "new thinking," has rebuffed vigorous protests on these issues to the Soviet Embassy in Washington as well as a personal communication from Secretary of State Baker to Soviet Foreign Minister Shevardnadze.

This series of events brings to mind serious doubts about our ability to

verify a treaty which covers mobile missile systems.

The covert deployments of covered missiles in Eastern Europe strongly suggests that the Soviets entered into the INF agreement in bad faith. It is also worth mentioning that, according to one official, the Bush administration has found nearly 300 technical and other Soviet violations of the INF Treaty since 1988, not to mention the Krasnoyarsk radar that Mr. Gorbachev admits is a violation of the ABM Treaty yet still stands today.

Just as a parenthetical footnote, I might say, Mr. President, the Senate has unanimously agreed that indeed the Krasnoyarsk radar is a treaty violation.

Mr. President, the resolution which I have offered has 11 statements of fact, roughly paralleling the statement that I have just made. I will not repeat those statements of fact. It then has three findings or sense-of-the-Senate statements, and I will take time to read those so that all Members may be informed what it is we are saying:

1. Serious questions exist concerning the U.S. capability to monitor and verify any treaty which covers mobile missile systems.

2. The Soviet Union should be condemned for its willful act denying our treaty right to image the three Soviet missiles which existed in the facility at Votkinsk on March 9–10, 1990.

3. In order to expedite U.S. decisionmaking about the appropriate proportionate response to these Soviet INF compliance problems and before entering into any further arms control agreements, the administration should report its findings on these problems to the Senate as soon as possible.

Mr. President, that is the resolution as I have presented it to the Senate. It parallels actions which the Senate has taken in the past with respect to other alleged treaty violations, expressing our concern, outlining the reasons why we have the concern, asking the administration to supply us with information so that we may make judgments and, hopefully, so that the administration will focus on those judgments as well while they are engaged in the talks right now.

There is a time-sensitive question with respect to this matter because, as you know, our Secretary of State is in conversations with Mr. Shevardnadze as we talk with respect to further treaty negotiations.

I want to make it very plain the Senator from Idaho is not saying he should not be there. I am not saying, and I do not ask the Senate to say, that we should not negotiate further agreements. I am not saying, and I do not want the Senate to say, it is our belief that no further agreement should be signed. But I am saying, and I believe the Senate should say, we ought to know what their performance has been with respect to these very obvious concerns before we go forward with further agreements. It seems to me that it is useful for us at this precise time to let our administration know and to tell the Soviets very clearly that we regard these as serious matters and we should have information with respect to them as we even now negotiate further agreements with them.

The PRESIDING OFFICER (Mr. WIRTH). The question is on the amendment. Is there any further debate?

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LEAHY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEAHY. Mr. President, I do not want to interfere with whatever negotiations are going on, on the floor. But I would simply urge those negotiating to consider the exact situation. We have had, I think, 3 or 4 or 5 hours of quorum calls today, which has been of great interest to anybody who likes to check the color balance on their TV monitors, and see whether the letters that say "The U.S. Senate is in a quorum call," are straight. I am sure it has been a good opportunity for anybody who might want to go to the gym or, perhaps leave the floor to go elsewhere.

But I know the distinguished majority leader has tried a number of times to get this bill to move forward. He has urged the parties to do so. I would just suggest, for those who feel that this is more their home than anywhere else, that some of us also have another home. We love the Senate, of course. We spend millions of dollars to show our love for the Senate in getting here. But we also have other homes. I happen to have a home with a wife of nearly 30 years; loving children; a wonderful son-in-law; a mother-in-law; even a dog. I would like to be home with them.

The good Senator from Idaho knows exactly what I am saying. I would love to be home with that family. I would like to spend some time with them now, see my wife, son, daughter, son-in-law, mother-in-law all, and the rest—living like a real human being.

I only suggest this. Of course I will stay. We have to. But, I appeal to those Senators who have almost a Dracula-like instinct and who seem only able to operate when the Sun goes down. To those I suggest the rest of us would like to operate in the daytime, and if it is at all possible for the negotiators of these various issues to negotiate them in the daytime. If not, maybe we ought to bring these issues up and vote on them—up or down.

Mr. President, I suggest the absence of a quorum.

Mr. COATS. Mr. President, will the Senator withhold?

The PRESIDING OFFICER. Does the Senator withhold?

Mr. LEAHY. Yes.

I withhold my request.

I yield the floor.

Mr. COATS addressed the Chair.

Mr. BRADLEY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum, having been suggested, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCLURE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. McCLURE. Mr. President, I understand that we are ready to vote on the——

The PRESIDING OFFICER. The Senate is not in order. The Senate will be in order.

Mr. McCLURE. I understand that it is in order to vote on the McClure amendment at this time.

The PRESIDING OFFICER. The McClure amendment is the pending question.

Mr. McCLURE. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. BRADLEY. Mr. President, I oppose the amendment. It will not further U.S. interests.

The PRESIDING OFFICER. Is there further debate?

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I am afraid I must oppose the amendment of the Senator from Idaho. First, it attempts to deal with a very serious compliance issue which is being pursued by the administration at this very moment. I do not believe there is a need to prejudge the issue now.

Moreover, it seeks the administration judgment as a precondition to any further arms control agreements on the very eve of the Washington summit. I do not believe this would be a good idea. For that reason, I shall move to table.

Mr. McCLURE. Will the Senator withhold the motion to table for just a moment?

Mr. PELL. Certainly.

Mr. McCLURE. Mr. President, this resolution is not judgmental. This resolution recites a series of facts, and then asks the administration to provide us with information with respect to those series of facts. In my judg-

ment, although certain judgments might vary, it does not do anything to the pending negotiations with the exception of saying to both our administration and the Soviet Government that these violations are regarded by the Senate as potentially important factual questions. Therefore, I hope that the motion to table, when made, would not be agreed to.

Mr. PELL. I thank the Senator for his statement. I would mention that the resolution says the Soviet Union should be condemned for its willful act. To my mind that is a judgmental statement. But there is no point arguing on it.

I move to table the amendment.

Mr. HELMS. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. WALLOP. Mr. President, I rise today to present the more realistic side of a phenomenon that has become near and dear to so many peoples' hearts—perestroika and glasnost. A phenomenon that, while changing dramatically how Mr. Gorbachev is perceived in the West, has done very little to change the realities of Soviet behavior at home and abroad. Despite the positive rhetoric from the Soviet Government, we continue to see the kind of malevolent tinkering that has characterized that country for so many years—in Angola, in Afghanistan, in El Salvador, and most immediately in the beleaguered Republic of Lithuania, whose courageous citizens, on March 11, declared their rightful independence.

Today, Mr. President, I wish to underscore recent developments in the arms control arena which have been most distressing to this Senator and, I know, to many of my colleagues. Mr. President, I am speaking of the reports of the past few weeks of Soviet willful violations of the 1987 INF Treaty. These violations have received relatively little coverage in our press, and I would suppose the reason to be that they dare not claim precious space from reporting on the now nonextant Soviet threat and the ensuing peace dividend. But this kind of Soviet behavior merits much greater attention as it affects dramatically our current security posture vis-a-vis the Soviet Union, despite what our press would have us believe.

Soviet violations of the INF Treaty in recent weeks are further testimony to the need for an operational strategic defense system. If we are going to continue to ratify treaties limiting strategic forces—given our low concern for compliance and given continuing Soviets violations on the INF and ABM Treaties to date—we must have some way to insure ourselves against those violations.

In three separate incidents over the weekend of March 9 and 10, Soviet personnel at the Votkinsk Missile factory breached their obligations under the INF accord—they refused to allow American personnel to use a monitoring device, nicknamed "cargoscan." This verification x ray is the only means that the United States has to insure that this missile facility is no longer producing the SS-20 missiles which were banned under the INF Treaty.

Mr. President, Soviet refusal to comply with this most basic of verification requirements gives way to serious doubts about the good faith of the Soviets. It gives this Senator serious doubts as to why we are barrelling head on to sign agreement after agreement with the Soviets when we have seemingly no concern for their willingness to comply. Where, I am forced to ask, are our priorities? Where do we place security in our list of reasons for arms control agreements these days?

Beyond the three missiles which the Soviets removed from this facility without allowing U.S. cargoscan imaging, there have been other disturbing reports. In recent weeks, U.S. intelligence has discovered in East Germany a number of launchers, reportedly six for the INF Treaty-limited SS-23 missile system, together with as many as 24 associated missiles. Moreover, in reponse to an American diplomatic inquiry, the Soviet Union admitted that it has transferred SS-23 missiles to Bulgaria, East Germany, and Czechoslovakia, possibly in violation of INF. Shortly thereafter, the Czechoslovak and Bulgarian Governments confirmed the existence of these missiles. Evidently, Mr. President, the Soviet Union failed to delcare these launchers and missiles as part of Soviet or East German inventory in the negotiations preceding the signing of the INF Treaty, despite numerous questions put to Soviet negotiators on this very point. Moreover, as difficult as it may be to believe, these deployments were successfully concealed from the United States for over 2 years. Needless to say, it is anyone's guess as to what else we may be missing.

What is perhaps most disturbing on this front, Mr. President, is that the Soviet Union has shown no cooperative spirit in trying to clarify or resolve this matter. They have rebuffed vigorously protests on this matter made to the Soviet Embassy in Washington and in the form of a personal communication from Secretary of State Baker to Soviet Foreign Minister Eduard Shevardnadze. Such a lack of cooperation, in my mind, only serves to confirm the willful and less-than-well-intentioned nature of these events.

Moreover, these violations should raise several red flags over the verifiability of a future START agreement, as we are intent upon modeling a verification structure for START on the one we employ for the INF Treaty. How can we have any sense of assurance over our ability to verify a treaty which includes mobile systems? We have just now discovered INF-banned missiles and launchers in East Germany and Bulgaria that have been hanging around for more than 2 years.

In conclusion, Mr. President, I would just say that this resolution comes at a time when the Soviet image cup in the West is brimming with all things good. Mr. Gorbachev, a master of public relations, has so dramatically changed the way the West thinks about the Soviet Union and her intentions that we have declared our willingness to sacrifice Lithuania for the sake of President Gorbachev's survival. But I would assert that Gorbachev's assiduous efforts to cultivate a positive image in the West has also given the United States a tool. Namely, with the new image of the Soviet Union in the West there has also come new expectations. In other words, we don't expect the Soviet Union to engage in the kind of deceptive, adventuristic behavior that we expected of the "evil empire" at the height of the cold war.

So let us use this tool, the new-found leverage—greater expectations that stem from this benevolent image of Mr. Gorbachev—to call the Soviet Union on their violations of the INF Treaty. Let us not be remiss in our willingness to call the Soviet Union on what was clearly an act of bad faith when they signed onto the INF agreement. The United States should send a clear signal of our extreme reluctance to sign any new arms control agreement with the Soviet Union until all Soviet violation of existing treaties have been resolved.

Mr. President, thank you. I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Rhode Island to lay on the table the amendment of the Senator from Idaho. On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Connecticut [Mr. LIEBERMAN] is absent on official business.

I further announce that, if present and voting, the Senator from Connecticut [Mr. LIEBERMAN] would vote "yea."

Mr. SIMPSON. I announce that the Senator from Colorado [Mr. ARMSTRONG], the Senator from Vermont [Mr. JEFFORDS], and the Senator from Oklahoma [Mr. NIKLES] are necessarily absent.

I also announce that the Senator from Idaho [Mr. SYMMS] is absent on official business.

The PRESIDING OFFICER. Are there other Senators in the Chamber who desire to vote?

The result was announced—yeas 56, nays 39, as follows:

[Rollcall Vote No. 99 Leg.]

YEAS—56

| | | |
|---|---|---|
| Adams | Durenberger | Metzenbaum |
| Akaka | Exon | Mikulski |
| Baucus | Fowler | Mitchell |
| Bentsen | Glenn | Moynihan |
| Biden | Gore | Nunn |
| Bingaman | Graham | Packwood |
| Boren | Harkin | Pell |
| Bradley | Hatfield | Pryor |
| Breaux | Inouye | Reid |
| Bryan | Johnston | Riegle |
| Bumpers | Kassebaum | Robb |
| Burdick | Kennedy | Rudman |
| Chafee | Kerrey | Sanford |

| Ford | Mack | Wallop |
| Garn | McCain | Wilson |

NOT VOTING—5

| | | |
|---|---|---|
| Armstrong | Lieberman | Symms |
| Jeffords | Nickles | |

So the motion to lay on the table amendment (No. 1648) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote.

Mr. MITCHELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1649

(Purpose: To provide substitute language)

Mr. HELMS. Mr. President, we finally resolved a little turf matter and I send an amendment to the desk and ask it be stated.

The PRESIDING OFFICER. There are pending amendments.

Mr. HELMS. I ask unanimous consent that the pending amendments be laid aside.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The clerk will report.

The bill clerk read as follows:

The Senator from North Carolina [Mr. HELMS], proposes an amendment numbered 1649.

On page 16, line 6, after "contributed" insert: "through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States, or through any transaction, other than of goods and technology, not subject to sanctions pursuant to the Export Administration Act,"

On page 20, line 12, after "contributed" insert: "through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States pursuant to this Act,"

On page 14, line 24, after the word "State" insert: "and the Secretary of Defense."

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. May we have order, please, Mr. President?

The PRESIDING OFFICER. The Senate is not in order. The Senate is not in order.

The Senator from North Carolina.

Mr. HELMS. Mr. President, this amendment needs no debate. It has been agreed to. The amendment resolves a turf matter, as I said earlier.

The PRESIDING OFFICER. Is there further debate.

Mr. PELL. Mr. President, I think it is an excellent amendment. It was worked out. It took quite a struggle. I suggest we vote for it.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from North Carolina.

The amendment (No. 1649) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, what is the pending business?

The PRESIDING OFFICER. The pending business before the Senate is the amendment offered by Senators DOLE and COATS.

Mr. BRADLEY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. D'AMATO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. D'AMATO. Mr. President, the legislation which was submitted, as it relates to sanctions for Iraq, and which the chairman of the Foreign Relations Committee and the ranking member, Senator HELMS, have sponsored, providing automatic sanctions where the use of chemical weapons has been undertaken, had it been a law, I think Iraq would have thought twice before using these poisonous gases and killing thousands of citizens.

I understand the strong opposition to continuing now on these legislative amendments. I do not want to delay passage of this important and timely chemical and biological weapons bill, S. 195. However, I have to indicate very clearly that I do intend to press forward in this matter. To that extent, I have spoken to the chairman of the committee and the ranking member. I look forward to working with them as it relates to developing a program of effective sanctions that I believe the United States should impose against nations that have the kind of record, the killer record, the disregard of human rights of its own citizens and others, and presents a very real threat to world peace.

So I hope that, while I am going to move to withdraw the amendment, I can look forward to working with the Foreign Relations Committee and the chairman and the ranking member to pursue legislation that I believe, after all of the facts are held both in open hearing and in closed hearing if necessary to get the people who understand, whether it be the CIA and others who tell the committee firsthand what is taking place, that we will be able to move forward with legislation that will give true meaning to standing up for those who have been brutalized by the Iraqis and letting them know that we are sincere in our efforts at curtailing this kind of treatment.

I see the chairman is on the floor and I yield to him for any comments he may wish to make.

Mr. PELL. Mr. President, our committee had actually scheduled a hearing for May 23 on this subject but it had to be postponed because of the Kelly mission to South Asia. I well recall our own efforts in the last Congress to sanction Iraq for its use of chemical weapons against the Kurds. Three times the Senate passed my bill for tough sanctions. I look forward to working with the Senator from New York on this very central issue and to having a hearing before too long on it.

Mr. HELMS. Mr. President, let me say to my friend from New York, I know that when he says he is going to press on with something he will press on. I commend him and I will press on with him. We will push it.

Mr. DOLE. Mr. President, will the Senator yield?

Mr. D'AMATO. Yes.

Mr. DOLE. Mr. President, I thank my friend from New York [Mr. D'AMATO]. I appreciate his willingness to cooperate. This is an important issue, an important issue he raised.

Nobody wants to be misunderstood on the issue. I think we should go through the orderly process of having hearings, hoping all the time that we will have some positive signal from President Saddam Husayn, an indication that they want to become a part of the outside world.

So I thank my colleague from New York [Mr. D'AMATO]. And I would say to him that I am certainly willing to cooperate in every way possible.

As the chairman has pointed out, we passed, I think, at least three amendments or resolutions through this body with reference to the use of chemical weapons. We raised this with president Saddam Husayn when we were in Iraq a month ago.

But, notwithstanding that, if we really want to accomplish the purpose—and the purpose is to try to end the paranoia in that country and try to bring Iraq into the mainstream—it may not be possible. But they are very important if we want a comprehensive peace settlement in that part of the world. They do produce the second largest amount of oil. They are the second largest country geographically. They have the second largest army.

So there are a lot of reasons why they should be players.

As my friend from Ohio [Mr. METZENBAUM] pointed out earlier, there is an opportunity there. Whether or not they grasp it depends on President Saddam Husayn.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, what is the pending business?

The PRESIDING OFFICER. The pending business is the amendment by Senators DOLE and COATS to the amendment of Senator COATS.

Mr. HELMS. I understand the Senator from New York has withdrawn his amendment?

The PRESIDING OFFICER. The Senator from New York has not withdrawn his amendment, since it is not pending business. It would require unanimous consent.

Mr. D'AMATO. Mr. President, I ask the pending business be laid aside for the purpose of asking unanimous consent to withdraw the amendment we have submitted as it relates to Iraq sanctions.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

AMENDMENT NUMBERED 1642 AND 1643

The PRESIDING OFFICER. The pending business is now the amendment of the Senator from New York.

Mr. D'AMATO. Mr. President, I ask unanimous consent I may be permitted to withdraw the amendment submitted.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendments numbered 1642 and 1643 were withdrawn.

The PRESIDING OFFICER. The majority leader.

Mr. MITCHELL. Mr. President, if I may have my colleagues' attention to describe the situation with respect to this legislation now, and the possibilities with respect to the schedule between now and the Memorial Day recess.

As all Senator know, I have previously, and some time ago, announced an intention to proceed to the crime bill on next Monday. This followed discussions with the distinguished Republican leader prior to the most recent recess as to an appropriate time to bring that bill up.

It is an important bill to all concerned, and it had been my intention to spend all of next week on it. I hope we will be able to complete action on it next week. That is my intention. That means we would have 4 days, ending Thursday evening. If we do not finish, and if we can do so, it may mean we will go into Friday. I hope that is not necessary.

In any event, it is imperative that we complete action on the bill now before us so we can proceed to the crime bill. The bill not before us is an important measure. If we can complete action on this bill this evening, then there will be no votes on tomorrow or on Monday.

Tomorrow will be devoted to debate on the campaign finance reform issue. Monday, the crime bill would be laid down and Monday would be devoted to debate on that issue. That is, if we can finish this bill tonight.

If we cannot finish this bill tonight, then we will be here tomorrow voting on it. And if we cannot finish it tomorrow, then we will be here Monday voting on it.

Those are the possibilities with respect to the schedule and votes.

With respect to this bill, we have reached an impasse. That requires me, with reluctance, to file a cloture motion. It is my intention to shortly file this cloture motion. Unless unanimous consent is obtained to pursue a different course, the cloture motion would ripen for vote 1 hour after the Senate comes into session on Monday, and that would be Monday morning.

And then, if cloture is invoked, we would attempt to complete action on the bill as soon thereafter as possible. If cloture is not invoked, then we would continue to debate the bill. And I will, in the meantime, have filed a second cloture motion which will ripen for a cloture vote on Tuesday, and we will just stay with it as long as we can. That will almost guarantee that we will be here next weekend dealing with the crime bill.

Following my filing of the cloture motion, I am going to ask unanimous consent that we proceed to vote on the cloture motion immediately or after a very short period of time this evening. That would permit us, with restraint and good luck—neither of which are much in evidence here—to complete action on this bill this evening.

Every Senator should understand, so no one is disadvantaged, of course, that voting on a cloture motion shortly after its filing means that Senators are precluded from filing amendments which they otherwise would be permitted to do if the rules were observed in accordance with their terms.

In other words, if this were filed this evening, in the ordinary course of events, Senators would have until 1 p.m. tomorrow to file amendments which might be germane. That right will be foreclosed if we proceed directly to a cloture vote. So every Senator should be well aware of what is being requested here in this regard.

If unanimous consent is not obtained to vote on cloture this evening, we will simply stay on the bill, continue as long as we can, and I will ask unanimous consent that we vote tomorrow morning. If any Senator objects to that, as each Senator has the right to do, then we will simply proceed with further action on the bill to the extent we can tonight and tomorrow, and then the cloture vote would occur Monday morning and we will proceed thereafter.

Those are the choices facing the Senators. As I said, I do this with great reluctance, but after consulting with the managers and the distinguished Republican leader and all of the interested parties, I do not see any other course available to us.

I will be pleased now to yield to the distinguished Republican leader for any comment he wishes to make on this subject before I take any action, as indicated.

Mr. DOLE. Mr. President, I think we are making progress. I am just looking over the amendments that were pending earlier.

If cloture is invoked, obviously the nongermane amendments would fall. I may offer one germane amendment. It is just a question of whether it is 9 months or 1 year. We are trying to avoid a veto on this bill. Maybe it is something that could be accepted.

A Specter international conference amendment, as I understand, may be accepted. Then there is a Helms amendment which may be accepted, concerning a PLO report. That would leave another amendment by the Senator from Indiana on hazardous waste,

which would also be nongermane and which would fall.

As far as I know, there are no other amendments, so it would seem to me we could complete action and be on the way home by 8:45, with a little luck, and on the part of the managers, a little generosity in some cases.

I think the Senator from Indiana is willing to permit us to do this almost immediately. I commend him for it. I do not know whether he has any choice.

Both Senators from New Jersey have made it clear this bill is not going to pass if this amendment remains, and it seems to me the Senator from Indiana is willing to accommodate the majority leader.

In my view, we can wrap this up fairly quickly, and there will be no votes tomorrow, but we will be in talking about campaign finance reform.

I think on Monday, those who have an interest in the crime bill on this side I hope will be here. I cannot speak for those on the other side. Senator THURMOND is here, and I hope he and others will be available on Monday to discuss the crime bill, because that 4 days is going to pass very quickly.

I would say with reference to coming in next weekend, I do not know whether we could get unanimous consent for that. Maybe we do not need it. But at least the leaders could come in next weekend and work out a compromise.

In any event, we are prepared. I think the Senator from Indiana wanted to be recognized, and then perhaps we can vote almost immediately on the cloture motion.

Mr. METZENBAUM. Will the majority leader yield for a question?

Mr. MITCHELL. Yes.

Mr. METZENBAUM. First, I want to commend the majority leader for his efforts to get a cloture motion filed and acted on promptly. I recognize that takes unanimous consent. I also recognize that somebody might object just because they have some amendment that they wish to lay down and they will be precluded from doing so. I have none, so I am not speaking for myself.

I wonder if the majority leader would give consideration, in order to protect the rights of those individuals, that for a period of time, such as a half an hour after the laying down of the cloture motion, germane amendments could be filed so those persons would not be precluded from an opportunity that they otherwise would have if the matter laid over for 2 days.

I suggest it. I do not have an amendment of my own. It seems to me it may keep somebody from offering an objection that otherwies they might offer.

Mr. MITCHELL. I thank the Senator for his suggestion. I think it best to proceed and, if an objection is raised on those grounds, then I will consider that suggestion. Let me say I do want to thank the Senator from Indiana. He has, as always, been unfailingly courteous. I appreciate his willingness. He would have a right to object to the vote on the cloture this evening, and he has indicated he does not intend to do so.

I want to emphasize to my colleagues that the course of action that we are pursuing has only two objectives. That is to move this important legislation forward and to inconvenience the least number of Senators. We will attempt to do it in the way that accomplishes the task we all recognize we have and to provide the maximum amount of convenience for as many Senators as possible. Mr. President, I yield to the Senator from Indiana and thank him very much for his courtesy on this matter.

Mr. COATS. I thank the majority leader for yielding. Mr. President, I deeply regret we have to take this action. I understand, however, that we are at an impasse. It is impossible to go forward with my amendment. Given the current procedural situation, the amendment that I offered at 1 p.m. this afternoon was not debated in the negative by any Senator in this body. Senator BAUCUS had some concerns early on, and Senator DOLE, relative to the misunderstanding about the definition of solid waste.

We worked those argeements out, and we were prepared to proceed with a vote. However, as is every Senator's right, the two Senators from New Jersey objected to the legislation before us. I regret that we were not even able to discuss or negotiate those objections. Nevertheless, under the rights of the Senate, they had every right to do so. That left us at an impasse. I am conscious of the fact that while I would be within my rights to object to voting on cloture this evening, that would serve no constructive purpose. Therefore, I informed the majority leader that I would not do so.

I regret, as I said, that we could not proceed on this issue. I think it is an important issue, supported by a substantial majority of Senators on the floor of the Senate and in this body. As I said, no one came to the floor to offer objections to this particular legislation. We had, through serious negotiations with the Senator from Montana and the Senator from Louisiana, worked out what we all thought was an acceptable compromise. Nevertheless, we cannot go forward. I recognize that. I will not hold up the Senate. I realize it will serve no constructive purpose.

I just want to say that this is an issue that is critical not only to my State but to many States. Hundreds of thousands, if not millions, of tons of solid waste are being exported into our State and dumped in our State at a time when our landfills are filling up. We cannot even dispose of our own waste, let alone someone else's. The Governor of our State, our State legislature—all of us—have recognized this problem. They have specifically requested that Congress do something about this. They need congressional authority in order to act to effect regulations affecting the importation of trash.

My amendment was simple. It said:

Each State is authorized to enact and enforce laws regulating the treatment and disposition of solid waste within such State, including laws imposing a ban on the importing into such State or any part thereof, of solid waste for its treatment or other disposition, laws otherwise regulating the importing into such State of solid waste for its treatment or other disposition, and laws imposing and collecting fees * * *.

And so forth.

It was a simple amendment. It was up front. We are dealing with a problem that, without congressional authority, the State cannot deal with.

Mr. President, I ask unanimous consent to have printed in the RECORD a letter from our Gov. Evan Bayh, outlining his deep concerns about this problem.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

OFFICE OF THE GOVERNOR,
*Indianapolis, IN, November 21, 1989.*

Hon. DAN COATS,
*U.S. Senate,*
*Washington, DC.*

DEAR DAN: Environmental protection is one of our greatest challenges. As with other difficult areas of public policy, there are opportunities for bipartisan consensus and action on environmental issues. I believe the issue of out-of-state municipal solid waste flowing into Indiana presents us with one such opportunity.

I have been concerned about this issue since before taking office. The cornerstone of my legislative package in the environmental area in the 1989 session of the General Assembly was a comprehensive solid waste management bill. The heart of the bill was an effort to stem the tide of out-of-state trash into Indiana by equalizing landfill tipping fees for waste from out of state. Also included was a system of regional solid waste planning that would permit single- or multi-county regions to prohibit the importation of waste if necessary to achieve the region's long-range planning goals. Unfortunately, a compromise was not reached on the different versions of the bill that passed the Senate and the House.

Since the end of the legislative session, evidence has been accumulating rapidly revealing the broad scope and dangers of the out-of-state waste problem. Landfills are filling at an accelerated pace jeopardizing disposal capacity for Indiana communities. Boxcars filled with trash arrive in Indiana without legal authority to off-load the waste, and put the safety and health of Hoosiers at risk as they sit dormant for days. Virtual convoys of semis carrying east coast garbage clog Hoosier roads and unload their cargo into Indiana soil around the clock.

Last Thursday I issued an executive order targeted at Indiana's solid waste manage-

ment problems. I have enclosed a copy of the order with this letter. Under the executive order, Indiana will strictly enforce environmental and transportation laws against those who haul waste in rail cars and tractor-trailers. I called for new regulations to restrict the hauling of food and other products in trash trucks, to create a landfill permitting procedure based on local disposal needs, to require backgrond checks on landfill permit applicants, and to require on-site recycling by landfill operators. I also ordered the preparation of a long-range solid waste managment plan for the State of Indiana and announced a legislative package emphasizing source reduction and recycling of solid waste.

We will fight against out-of-state waste with the weapons available to us at the state level and we will make progress. However, we do not have the ultimate weapon at our disposal—the ability to ban the importation of garbage into Indiana outright. For this we need the help of Congress, and the purpose of this letter is to seek your support for a federal law to effectively protect Indiana and other states in a similar position from the burden of being a dumping ground for out-of-state wastes.

While the U.S. Constitution limits a state's right to ban garbage importation outright, the Constitution does not prohibit Congress from acting to achieve the same goal.

This is a vital issue for Indiana's future. I hope we can work together to protect the health and safety of the people of Indiana by reversing the onslaught of out-of-state-trash that shows no sign of letting up of its own accord. I look forward to receiving your comments and suggestions on my proposals as well as on how I can assist you.

Warmest regards,

EVAN BAYH.

Mr. COATS. Mr. President, I just want to inform my colleagues, while I recognize this amendment is not germane to this piece of legislation, I have searched in vain since the beginning of this year for legislation to which this amendment is germane. I have been informed recently that the RCRA reauthorization, to which I hoped to offer this amendment, will not be before the Senate this session. The House has delayed its action more than 2 months, and it looks like we will not have a bill to which this amendment might be germane.

In the meantime, daily convoys of trucks and trains full of waste from other States are being dumped into Indiana. We have a serious problem with this, not only from a disposal standpoint, but from a potential health and safety standpoint. We need to do something about it. We have to do something about it. I intend to pursue every course open to me as a Senator to offer this amendment to appropriate legislation and, if no appropriate legislation is available, to exercise my rights to offer a nongermane amendment.

I thank the majority leader for his understanding of this. I understand, again, his position and the need to file a cloture motion to move forward with important legislation.

Mr. LEVIN. Mr. President, I am pleased to be a cosponsor of the amendment offered by Senator COATS to make it unlawful for any person to ship solid waste generated within one State into another State for disposal if that other State has enacted legislation prohibiting the transportation of solid waste into it. The disposal of solid waste is a serious problem in Michigan, which is made even more difficult by the transportation into Michigan of non-Michigan solid waste.

I understand that if cloture is invoked on the Chemical and Biological Weapons Control Act currently before the Senate, then Senator COATS will offer this amendment to another legislative vehicle. At that time, I would be pleased to again be a cosponsor of his solid waste amendment and will support him in his efforts.

Mr. BRADLEY. Mr. President, New Jerseyites are no strangers to solid waste imports. Up until 1988, in fact, more waste came into the State of New Jersey than left it. New Jerseyites did not appreciate out-of-State garbage and tried to shut off the flow. But we could not. The Constitution, with its commerce clause, was determined by the U.S. Supreme Court, to prevent New Jersey from shutting its doors to other States.

Our landfills are filled to capacity. Most closed. For the last decade, we have struggled with solid waste problems that most States have yet to face. Frankly, we are in the middle of our own crisis. Anyone familiar with solid waste issues knows there is no obvious solution or miracle technologies. Siting presents enormous problems. My colleagues can scarcely appreciate the difficulty of creating new waste management facilities, given all of the public's concerns, in a State where on average 1,000 people live in each square mile.

It is no secret that New Jersey now exports large quantities of solid waste. New Jersey is trying to be responsible. We have enacted statewide mandatory recycling programs. We have made waste reduction and recycling first-order priorities. We are doing some outstanding technical work on plastics recycling. Last week on the Urgent Supplemental Appropriations bill, I sought a small amount of money for the State. The goal of that effort was the 100-percent recovery and recycling of lead storage batteries—not your average request and one that is relevant to the discussion today.

Mr. President, this amendment is out of place on this bill.

Solid waste issues are very serious. I understand the Senate Committee on Environment and Public Works will consider this carefully when it tackles the very difficult task of reauthorizing the Resource Conservation and Recovery Act. To accept this amendment on its face value, without hearings and public comment as to its implications, would represent a mistake of astonishing proportions.

Mr. President, if the cloture vote succeeds and cloture is invoked, the amendment of the Senator from Indiana will fall. I am pleased that the Senator from Indiana has not chosen to object to the majority leader's unanimous-consent request.

The PRESIDING OFFICER. Is there an objection to the majority leader's request? The majority leader.

Mr. MITCHELL. Mr. President, I have not made the request. I would like now to make it. I stated my intention to do so earlier because I wanted to give every Senator the opportunity to understand fully what was occurring so that no Senator would be disadvantaged as a result of not being aware of the request. I am just going to summarize it, and then I will put the request.

I am going to file a cloture motion. Acting in accordance with the suggestions of the Senator from Ohio, I am going to ask that the vote on cloture occur immediately; that the live quorum be waived; and that for a period of 30 minutes from the commencement of the vote that any Senator be permitted to file an amendment at the desk. It gives people time to do that. I know of none that are going to be filed. No Senator has expressed an intention to do so on either side, to my knowledge.

This at least gives everybody that opportunity to do so, and people who have not been here during this discussion will know of it and learn of it during the vote. Then we will vote on cloture immediately. If cloture is invoked, we will proceed to try to finish the bill this evening and then proceed in accordance with the schedule as I have outlined for tomorrow and Monday.

CLOTURE MOTION

Mr. MITCHELL. Mr. President, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the committee substitute, as modified and amended, to S. 195, a bill entitled the "Chemical and Biological Weapons Control Act of 1989".

George J. Mitchell, Howard M. Metzenbaum, Bob Kerrey, Lloyd Bentsen, Claiborne Pell, Paul Simon, Quentin Burdick, Patrick Leahy, Max Baucus, Frank R. Lautenberg, Brock Adams, Daniel K. Inouye, Herb Kohl, Barbara A. Mikulski, Paul Sarbanes, David Pryor, Charles S. Robb, Terry Sanford.

UNANIMOUS-CONSENT AGREEMENT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the vote on the cloture motion occur immediately with no intervening debate or action; that the live quorum be waived; that for a period of 30 minutes, following the commencement of the vote, any Senator be permitted to file a germane amendment at the desk.

The PRESIDING OFFICER. Is there objection?

Mr. BRADLEY. Mr. President, reserving the right to object, and I will not object, I simply want to take this occasion to thank the distinguished Senator from Indiana for the action that he has chosen to follow tonight.

The PRESIDING OFFICER. Is there objection to the majority leader's request?

Mr. LAUTENBERG. Mr. President, reserving the right to object, and I will not object either, I just also want to say to the Senator from Indiana that this is a complex issue, and I think it deserves the kind of review and debate that would be expected as a result of this. I thank him for withdrawing it.

Mr. President, had the Senator from Indiana offered his amendment I would have opposed it vigorously. The amendment would under cut the ongoing efforts to address the waste transport problem and have a draconian effect on States like New Jersey which now export garbage but which are now working hard to become self-sufficient in garbage management.

Mr. President, there are a number of problems with the amendment. First, it had nothing to do with the bill we are discussing.

Second, the amendment would pit State against State in addressing our Nation's solid waste problem. But solid waste is a national problem. We are literally choking on our own garbage. Americans generate 160 millions tons of municipal solid waste a year.

That is roughly 1,300 pounds for ever person in the United States per year or 3.5 pound per person per day. And our generation of waste is expected to grow to over 190 million tons in the year 2000.

At the same time, we are running out of landfill capacity for disposing of this waste. Nationally, 80 percent of all municipal solid waste goes to landfills. More than one-third of all landfills operating in 1979 were closed by 1986 and of this amount, EPA expects nearly half to close by 1991. As a result, communities are transporting their wastes greater distances for disposal resulting in increased costs.

Mr. President, we need to develop a national response to deal without solid waste problem. These are questions which must be addressed. But they cannot be addressed in a piecemeal fashion. Interstate transport of solid waste is an integral component of our solid waste policy. You cannot simply allow States to ban exports without having a comprehensive program for addressing solid waste management.

We will be developing this comprehensive policy during the reauthorization of RCRA. It is in the reauthorization process where we should be addressing this issue.

And bills introduced by Senators BAUCUS and CHAFEE which I have cosponsored would require States to develop plans to manage their solid waste. We need to go through the normal hearing and process to address these important issues.

Finally, the amendment would thwart the existing efforts my State has made to eliminate exports of solid waste. New Jersey recognized a few years ago that it needed to develop a solid waste program to reduce its exports of solid waste. In 1987, New Jersey enacted one of the Nation's first mandatory recycling laws. The State established a goal of recycling 25 percent of its waste and already is recycling almost 20 percent of its waste.

We have taken an active role with other Northeastern States in developing initiatives to reduce unnecessary and wasteful packaging practices which increase the amount of waste we must dispose of.

And one of our new Gov. Jim Florio's first actions upon taking office was to establish a task force to report to him by the end of June on ways to increase recycling and to address solid waste disposal capacity problems.

Mr. President, New Jerseyans want to take care of the wastes they generate. There is a high level of environmental consciousness in the State.

And there is an economic incentive to manage our wastes in State. Some garbage fees to export solid waste now exceed $100 per ton. It will cost New Jerseyans an estimated $1 billion over the next 4 years to ship its garbage out-of-State.

It is not surprising that according to a recent poll, two-thirds of New Jerseyans consider garbage disposal an extremely serious matter and that garbage disposal was ranked as more serious than taxes, crime, inflation, or traffic congestion.

So New Jersey wants to reduce its export of solid waste and already has taken a series of actions to accomplish that goal. But it cannot happen overnight. New Jersey has little landfill capacity left. Exporting States like New Jersey need time to make the necessary adjustments to reduce their exports.

The amendment would not provide that time. It irresponsibly would have prohibited waste exports without an adjustment period. It irresponsibly would have attempted to establish a piecemeal solid waste management policy. It needlessly would have pitted States against each other.

So I am pleased that the amendment will not be offered.

The PRESIDING OFFICER. The Senator from New York.

Mr. MOYNIHAN. Reserving the right to object, and I will not object, I would like to join my colleagues from New Jersey in expressing appreciation for the thoughtfulness and courtesy of the Senator from Indiana and to assure him that the Committee on Environment and Public Works is fully cognizant of the issues he raises, and we mean to address them.

I am not able to agree with the particular things that he proposes. It seems to me to raise very serious constitutional issues. Quite apart from that, there is a serious environmental issue and an issue of interstate comity. He is right to have raised it. We will try to see if we cannot resolve it. It will not happen perhaps in this month or perhaps this Congress. This decade is going to have to address these matters.

The PRESIDING OFFICER. The majority leader.

Mr. MITCHELL. Mr. President, I will yield to any Senator.

Mr. CHAFEE. Mr. President, I commend the Senator from Indiana. The point he raises is a very serious one, and we recognize it. In serving on the Environment Committee, we are determined to do everything we can to solve the problem he raised. But he is quite right in saying the solution is not going to go quickly. I commend him for his thoughtfulness in the drafting of the legislation and his being receptive to a solution. I am sorry we could not have come to that solution, but certainly the Senator from Indiana did, indeed, help solve the problem.

Mr. MITCHELL. Mr. President, we have had a lot of commendation, in which I have joined. There is one point I would like to make before we vote, and that is if we do not invoke cloture, we are right back where we were before we started all this process and commendation. So I hope my colleagues, having listened to all this and aware of what the schedule will be, will be prepared to invoke cloture so we can proceed to take action on this bill as earlier stated.

The PRESIDING OFFICER. Is there objection to the request? The Chair hears none, and it is so ordered.

## CALL OF THE ROLL

The PRESIDING OFFICER. By unanimous consent, the quorum call has been waived.

## VOTE

The PRESIDING OFFICER. The question is, is it the sense of the Senate that debate on the committee substitute for the bill S. 195, entitled

the Chemical and Biological Weapons Control Act of 1989, shall be brought to a close?

The yeas and nays are required. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Washington [Mr. ADAMS] is necessarily absent.

I further announce that the Senator from Connecticut [Mr. LIEBERMAN] is absent on official business.

I further announce that, if present and voting, the Senator from Connecticut [Mr. LIEBERMAN] would vote "Yea."

Mr. SIMPSON. I announce that the Senator from Colorado [Mr. ARMSTRONG], the Senator from Texas [Mr. GRAMM], the Senator from New Hampshire [Mr. HUMPHREY], the Senator from Vermont [Mr. JEFFORDS], the Senator from Oklahoma [Mr. NICKLES], and the Senator from Wyoming [Mr. WALLOP] are necessarily absent.

I also announce that the Senator from Idaho [Mr. SYMMS] is absent on official business.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The yeas and nays resulted—yeas 87, nays 4, as follows:

[Rollcall Vote No. 100 Leg.]

YEAS—87

The PRESIDING OFFICER. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Mr. PELL addressed the Chair.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, the Senate is not in order.

The PRESIDING OFFICER. The Senate will be in order.

Mr. PELL. Mr. President, what is the pending business?

The PRESIDING OFFICER. The two pending amendments are not germane. Since cloture has been invoked, the amendments fall.

Mr. PELL. Are there any amendments that are germane pending before us at this time?

The PRESIDING OFFICER. The only pending amendment is the committee substitute, as modified.

Mr. HELMS. Mr. President, will the Senator yield?

Mr. PELL. Yes.

The PRESIDING OFFICER. The Senator from North Carolina.

AMENDMENT NO. 1657

(Purpose: To require additional reports)

Mr. HELMS. I call up amendment No. 1657.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS] proposes an amendment numbered 1657.

Mr. HELMS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Add at the end of the bill, the following new section:

"SEC. . (a) During the next round of talks with the PLO, should such talks occur after the date of enactment of this Act, the representative of the United States should obtain from the representative of the PLO a full accounting of the following attempted incursions into Israel which occurred after Yasser Arafat's statement of December 14, 1988:

"(1) On August 7, 1989, a rocket attack on the settlement of Maoz Haim by members of the PLO-affiliated Popular Front for the Liberation of Palestine.

"(2) On February 4, 1990, an unprovoked ambush by the Popular Front for the Liberation of Palestine-General Command on an Israeli tour bus in Egypt that killed 9 and wounded 15 Israelis.

"(3) On September 6, 1989, a rocket attack by the PLO-affiliated Popular Front for the Liberation of Palestine aimed at Kibbutz Tel-Katzir that fell on Kibbutz Sha'ar Hagolan.

"(4) On January 26, 1990, an attack on an Israeli Army patrol by at least three terrorist of the PLO-affiliated Democratic Front for the Liberation of Palestine headed for Kibbutz Misgav-Am.

"(5) On May 28, 1989, an attack by the Popular Front for the Liberation of Palestine and the Palestine Liberation Front, both PLO-affiliated organizations, in which a one-year-old Israeli was injured by a Katyusha rocket.

"(6) On October 7, 1989, an attempted raid on Kibbutz Misgav-Am by a squad of terrorists armed with machine guns and anti-tank missiles from the PLO-aligned Palestine Liberation Front.

"(7) On April 13, 1990, an attempted infiltration into northern Israel by boat by four terrorists of Yasser Arafat's Al-Fatah, equipped with machine guns and grenades.

"(b) In the event that talks are held with the PLO after the date of enactment of this Act, the Secretary of State, shall include in the next report provided to the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate under Section 804 of the Foreign Relations Authorization Act for Fiscal Years 1990 an 1991 any accounting provided by the representatives of the PLO of the incidents described in subsection (a) and the relationship between those groups responsible for these attacks and the PLO; provided, that such report shall also include a list of all individuals participating in discussions held between representatives of the United States and of the Palestine Liberation Organization since January 1, 1989; and, that such report should also include any additional known affiliations of such representatives of the PLO.

"(c) No later than 60 days after enactment, the Commissioner of the Customs Service shall provide the President of the Senate and Speaker of the House of Representatives with a report outlining illegal activities being undertaken in the United States by the Palestine Liberation Organization or on behalf of the Palestine Liberation Organization; including such activities as illegal drug trafficking, money laundering, weapons purchases and arms shipments; estimating the amount of funds associated with such activities; and describing the extent to which Members of the PLO Executive Committee, the PLO Central Council and the Palestine National Council are aware of, or are involved in such illegal activities.".

Mr. HELMS. Mr. President, this amendment expresses the sense of the Senate that the State Department should ask the representatives of the Palestine Liberation Organization, with whom the United States is negotiating, to answer for a number of terrorist attacks that have occurred since PLO Chairman Yasser Arafat's supposed "renunciation of terrorism" in December 1988.

The amendment also requires that the Secretary of State to report to Congress any explanation of these events provided by the PLO, the names of the PLO members involved in discussions with the United States, the relationship between the PLO and the terrorists involved in the attacks, and the specific PLO-group affiliation of the representatives of the PLO.

In addition, Mr. President, this amendment requires a report on an ongoing joint Federal/local investigation in Florida in which 13 people were arrested on charges of money laundering and other money schemes—all suspected of being a coverup for funneling money to the PLO.

An April 4 report in The Sun Sentinel of Fort Lauderdale quotes a U.S. Customs Service agent: "We have been looking into it for some time. It looks

like it is widespread." I believe Senators have a need to know the full implications of these arrests and charges, inasmuch as the State Department is engaged in official dialog with the Palestine Liberation Organization.

Mr. President, on December 14, 1988, the State Department determined, by virtue of a statement by Yasser Arafat, that the PLO had fulfilled the conditions required by law for discussions with U.S. officials to commence.

At that time, many observers felt that our Government made a tactical error in dealing with Yasser Arafat. I publicly questioned the wisdom of trying to combat terrorism by negotiating with terrorists. The State Department should have required that the conditions in the law—that the PLO renounce terrorism, recognize Israel, and accept U.N. Resolutions 242 and 338—be met not just in words, but in practice as well.

There was doubt then, and now, that the PLO would and will honor their commitments. Yasser Arafat is a terrorist and the PLO is a terrorist group—and we cannot expect terrorists to keep their word.

Indeed, statements made since then by a number of key PLO leaders are entirely inconsistent with the commitments made by Arafat in December 1988.

Arafat himself has flouted his renunication of terrorism, and he even admitted in October 1989, that on a specific occasion he "gave * * * execution warrants"—A-Rai, October 10, 1989. Not only does Arafat endorse terrorism against innocent Israelis, he also condones the savage slaughter of hundreds of Palestinians, the very people of when he claims to be the sole representative. The London Daily Telegraph reported on October 29, 1989, that Arafat's special arm of the PLO, Al-Fatah, has recently been responsible for killing at least two Palestinians each day. In fact, according to some reports, up to 60 percent of the Palestinian casualties and property damage in 1989 were perpetrated by these supposed representatives of the Palestinian people.

I am troubled that PLO terrorism and other violent activity appears to be continuing. Since the Arafat commitment of December 1988, there have been no fewer then 16 reported terrorist or attempted terrorist acts involving PLO affiliated groups reported in the Western media.

As part of section 804 of the Foreign Relations Authorization Act for fiscal years 1990 and 1991, the administration is urged to ask representatives of the PLO about nine terrorist attacks. But since that time there have been at least seven other events, some carried out by groups whose members are reportedly participating in the ongoing negotiations between our State Department and the PLO.

Mr. President, this amendment lists these seven other reported terrorist or attempted terrorist or violent acts involving PLO-affiliated groups, urges the State Department to obtain from the PLO an accounting of these incidents, and asks the Secretary of State to report to the Senate on the accounting provided by the PLO.

Mr. President, the longer the PLO continues its violent activities, the longer it will take to bring about a real peace in the Middle East. To the extent the United States ignores violence and other activity in violation of the Yasser Arafat pledge, it, in fact, delays the time when peace will come to the Holy Land. The Senate should do its part by making certain that continued terrorism and other violent activity by the PLO does not go unnoticed nor unanswered.

Mr. President, I ask unanimous consent that various news articles reporting on incidents referred to in the amendment be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Paris Radio Monte Carlo, Aug. 8, 1989]

PFLP CLAIMS SHELLING WEST BANK SETTLEMENT

The Popular Front for the Liberation of Palestine [PFLP] announced that a group of its fighters today shelled the settlement of Ma'oz Hayyim near Bet She'an in occupied Palestine from the Jordanian territory. A PFLP statement added that the rockets accurately hit their targets and ambulances were seen evacuating the dead and wounded. The PFLP stressed that all members of the group returned safely to base.

ISRAELIS SPECULATE ON ATTACK'S PLOTTERS

(By Joel Brinkley)

JERUSALEM.—Israeli military officials speculated this evening that the attackers of an Israeli tourist bus near Cairo were members of a guerrilla organization that sent assassins across the Egyptian border into Israel in December.

But with little evidence to go on, the officials said, they could not be certain which group was responsible.

On Dec. 5, the Israeli Army said its troops had killed five heavily armed Arab guerrillas in the western Negev region of Israel after chasing them for a short distance.

The army said the guerrillas had crossed into Israel from Egypt through the Sinai and apparently had timed the infiltration to coincide with the second anniversary of the Palestinian uprising. But it was not clear then to which organization the guerrillas belonged.

Prime Minister Yitzhak Shamir said the attack on the bus today was "shocking, and proof that hostility towards Israel still prevails around us."

He and other officials said that the Egyptian authorities had been cooperative, with the Egyptian Foreign Minister calling Foreign Minister Moshe Arens several times this evening to relay what Egypt knew of the attack.

President Hosni Mubarak of Egypt, who has snubbed Mr. Shamir on several diplomatic occasions in recent months, called him to express sympathy for the families of the victims.

Mr. Shamir said he had urged Mr. Mubarak to catch the attackers and bring them to trial, though he added: "We have no illusions. It's not an easy mission."

Shimon Peres, the Deputy Prime Minister and Labor Party leader, said "It's clear that we have to overcome murderers. We cannot deliver the fate of the peace process into the hands of terrorists."

Tens of thousands of Israeli tourists visit Egypt each year, and serious incidents have been rare.

This evening, the Israeli military sent a plane of physicians and other medical personnel to Cairo to treat the wounded and bring them back to Israel if possible. Egyptian and Israeli authorities said that eight Israelis apparently were killed and 17 were wounded.

NO HEBREW MARKINGS ON BUS

About 30 Israelis and one Swede were reported to have been traveling on the bus as part of an eight-day tour arranged by the Ofakim travel service in Tel Aviv. The bus itself was Egyptian and carried no Hebrew markings or other indications of the occupant's nationality, an official of the travel company said.

But the travel official added that any bus traveling along the road to Cairo from the Rafah border crossing could easily be assumed to be carrying Israeli tourists, since hardly any other buses use the road. The passengers had been scheduled to visit Cairo, Luxor, and Aswan.

"With the arrival of these reports." Mr. Shamir said, "I get the impression that this murderous attack on Israeli tourists was organized, and its purpose was simply to murder a large number of Jews from Israel."

The Prime Minister said he could not predict what effect the attack would have on Israeli relations with Egypt, but added. "We need to check on the security of our citizens in Egypt."

[From the New York Times, Feb. 5, 1990]

EIGHT KILLED AND 17 WOUNDED IN RAID ON BUS OF ISRAELI TOURISTS IN EGYPT

(By Alan Cowell)

CAIRO.—Assailants armed with rifles and grenades attacked a tour bus carrying a group of Israeli academics and their wives on a main highway east of Cairo today, killing 8 Israelis and wounding 17 others, Israeli and Egyptian officials said.

The attack was among the worst on Israelis in Egypt since the two countries signed a peace treaty in 1979, and Western diplomats said it would bring new uncertainty to the latest United States Middle East peace diplomacy.

[In Washington, the State Department called the attack a "horrible act of terrorism and said it was "an obvious attempt by the enemies of peace to halt efforts at reconciliation and dialogue," Reuters reported.]

FUNDAMENTALISTS' RALLYING CRY

A man claiming to represent a previously unheard-of Egyptian group calling itself the Organization for the Defense of the Oppressed of Egypt's Prisons called an international news agency here to take responsibility for the attack, but there was no immediate way to verify the claim.

The caller, speaking Arabic with an Egyptian accent, said the attack had been carried

out to protest torture in Egyptian prisons. Reporters who heard the call quoted him as saying "God is great," the rallying cry of Islamic fundamentalists. Western and Israeli officials said they had no direct knowledge of who was responsible.

Israeli officials said an Israeli military airplane would evacuate some of the wounded, who were initially taken to a hospital in the Cairo suburb of Hellopolis.

At the scene of the attack, 30 miles east of Cairo and close to 10th of Ramdan City—one of a string of new towns built to ease congestion in the capital—the bus could be seen toppled onto its side, with its windows smashed. The police did not permit reporters to examine the bus, which was operated by an Egyptian company.

Israeli officials said the bus, carrying 31 academics from Israeli universities and scholarly institutions and their family members, had been on its way from Rafah on Egypt's border with the Israeli-occupied Gaza Strip to Cairo via the Suez Canal port city of Ismailia.

The officials said it was normal practice for buses carrying Israelis to be escorted by the Eygptian police as far as Ismailia. But from there it proceeded alone.

Israeli officials said a car swerved in front of the bus and masked attackers opened fire with assault rifles, possibly causing the bus to fall onto its side as the driver swerved. Then the attackers lobbed hand grenades into the wreckage and sped off, the officials said, speaking on condition of anonymity.

The Egyptian Interior Ministry said two men speaking Arabic with a non-Egyptian accent launched the attack from a white Peugeot sedan. After forcing the bus to halt, they opened fire on the passengers with automatic weapons and threw four grenades, two which exploded. Then, they fled, the ministry's statement said.

ATTACK "SERIOUS AND SHOCKING"

The Israeli Prime Minister, Yitzhak Shamir, told Israeli television that the attack was "serious and shocking."

"This attack proves that hatred for Israel still exists and is running wild in the area," Mr. Shamir said. "I hope the Egyptian authorities will take all measures to find the attackers and punish them."

Hundreds of thousands of Israelis have visited Egypt since the 1979 peace treaty—the only one between Israel and an Arab country—and their presence has become routine.

In 1985, however, a crazed Egyptian soldier opened fire on Israeli tourists at the resort of Ras Burka on the Sinai peninsula, killing seven. An Israeli official said that while the 1985 attack seemed to have been undertaken by "a soldier who was mad at the time," today's killing was apparently a planned and premeditated attack.

From 1984 to 1986, anti-Government Egyptians armed with automatic weapons carried out a series of attacks on Israeli diplomats, killing two and wounding others. Those on trial on charges related to those attacks include Khaled Abdel Nasser, son of the late President Gamal Abdel Nasser.

In Israel, Trade and Industry Minister Ariel Sharon, who is strongly opposed to Prime Minister Shamir's approach to America peace diplomacy, blamed the Palestine Liberation Organization for today's attack.

"I believe these are P.L.O. terrorists," he said. "I cannot believe for a moment, though it has happened in the past, that it could be Egyptians."

Mr. Sharon opposed efforts by the United States to bring the Egyptian and Israeli Foreign Ministers together with Secretary of State James A. Baker 3d for talks to arrange direct negotiations between Israelis and Palestinians on the future of the Israel-occupied West Bank and Gaza Strip.

Egyptian officials told newspapers here before today's killings that the talks could take place within days in Geneva. After the attack, however, it is unclear whether any Israeli official will feel politically able to discuss the possibility of a direct encounter with Palestinians as long as the identity of the assailants remains unclear.

"Who knows?" said an Israeli official. "It could be Egypt's Revolution, fundamentalists. All these groups are trying to hurt us." The official was referring to dissident Egyptain movements opposed to the policies of President Hosni Mubarak and his slain predecessor, Anwar Sadat, who signed the peace treaty with Israel in 1979.

---

[From United Press International, Oct. 5, 1989]

JORDAN ARRESTS SEVEN PALESTINIANS

AMMAN, JORDAN.—Jordanian authorities have arrested seven members of the radical Popular Front for the Liberation of Palestine in an apparent crackdown against anti-Israeli guerrilla activity from Jordan, sources said Thursday.

Jordanian officials had no comment on the arrests, which were carried out late Wednesday.

The PFLP, based in Damascus and headed by George Habash, has claimed responsibility for a Sept. 6 rocket attack on Israel from Jordanian territory.

The sources named the detainees as Azmi Khawaja, head of the PFLP in Jordan, and PFLP members Abu Mashhour, Ahmad Dahbour, Ahmad Al Mahseeri, Nabil Nijm, Abu Kifah and Hamdi Matar.

In a recent interview, Khawaja said he was questioned by Jordanian authorities after the Sept. 6 rocket attack and threatened with deportation.

[From the Washington Post, Feb. 21, 1990]

ISRAEL ACCUSES PLO OF CONTINUING TERRORISM

(By Jackson Diehl)

JERUSALEM, February 20—As efforts to arrange Israeli-Palestinian negotiations reach a crucial phase, the United States and Israel are at odds over what the government here says have been clear violations by the Palestine Liberation Organization of its 1988 pledge to give up terrorism.

Despite repeated protests by Israel, the United States has conducted a dialogue with the PLO over the last 14 months and tacitly conceded the organization an indirect role in the current Middle East peace process. In theory, Washington has strictly conditioned the connection on adherence by the PLO to Chairman Yasser Arafat's November 1988 declaration recognizing Israel and renouncing acts of terror against civilian targets.

Israeli officials, however, have been arguing to the Bush administration with increasing vehemence that PLO attacks against Israel have not ceased. Since the beginning of 1989, security officials here say, there have been at least six attempts to penetrate Israel's northern border by guerrillas associated with the Democratic Front for the Liberation of Palestine, a leftist faction within the PLO. The most recent was late last month by a group apparently aiming to attack a kibbutz in northern Israel.

Moreover, senior Israeli officials say they have presented the United States with evidence that Arafat's own Fatah movement launched a raid from Egypt into Israel's Negev desert on Dec. 5. A heavily armed group of five guerrillas crossed the border that night, but were killed by Israeli army troops before they could carry out any attacks.

Defense Minister Yitzhak Rabin told a closed session of Israel's parliament recently that "there is no argument between our military and [U.S.] military about the facts" of the alleged Fatah raid. The United States, he said, agreed that the evidence showed Arafat's group was responsible.

Sources here said that the Bush administration had raised the Negev raid with the PLO leadership in Tunis, and that U.S. officials believed the attack had occurred without Arafat's knowledge or authorization. U.S. officials, the sources added, maintain that Israel has not offered Washington any conclusive evidence connecting Fatah to the attack.

Nevertheless, Israeli officials argue that the United States is ignoring its own policy by keeping the incident quiet and by failing to insist that the PLO denounce the attacks and expel members responsible for them.

According to the "talking points" conveyed by the United States to the PLO at their first official meeting in Tunis in December 1988, no American administration would continue the dialogue if terrorism continued "by the PLO or any of its factions." Moreover, Washington stipulated that in the event of a Palestinian act of terrorism, Tunis would be expected to "not only condemn this action publicly but also discipline those responsible for it."

"Not only has the PLO failed to fulfill these requirements, but Arafat's own Fatah organization, in particular, has itself engaged in terrorist acts," said a report recently prepared by the office of Prime Minister Yitzhak Shamir and delivered to U.S. Ambassador William Brown. "It has encouraged and lauded these attacks even in the midst of the dialogue."

The issue has become particularly sensitive in the wake of a terrorist attack this month on a tour bus outside Cairo in which nine Israelis died. Although the PLO is not suspected of involvement in the incident, it failed to condemn it.

Israel is also pressing the United States about the various commando attacks because the PLO's present role as a silent partner in the peace process is a major irritant to Shamir and the leadership of his right-wing Likud Party.

In the latest incident, an Israeli army patrol came under attack Jan. 26 near Taibeh in southern Lebanon from at least three fighters from the Democratic Front for the Liberation of Palestine, a pro-Syrian faction of the PLO.

The PLO has frequently said that its abandonment of "terrorism" does not include ending attacks on Israeli military targets such as the patrols in Lebanon, and the United States has tacitly accepted this statement.

Israeli security sources say the group at Taibeh was carrying a map of approaches to the Misgav Am kibbutz in Israel, and wire cutters to penetrate the kibbutz's security fence. Moreover, Israeli reports said, a spokesman of the Democratic Front announced publicly after the attack that the group was headed for Misgav Am.

[From the Jerusalem Domestic Service, May 28, 1989]

"SEVERAL" KATYUSHAS HIT SETTLEMENT IN GALILEE

Several Katyusha rockets hit a settlement in Upper Galilee last night. A 1-year-old baby was slightly hurt by flying glass shattered in the explosion. The baby was treated on the spot and did not have to be hospitalized.

Reporter Alan Ben-Ami says there was also a heavy exchange of fire in the security zone in south Lebanon overnight. Israeli and SLA [South Lebanese Army] fire was directed at terrorist targets north of the zone. Last night's Katyusha attack came after 2 months of quiet in the Galilee border area.

---

[From Al-Nahar (Lebanon), Oct. 9, 1989]

The "Palestine Liberation Front" [1] announced that a squad belonging to the "Unit of Nahariya Martyrs" was intercepted on October 7, 1989 by a joint patrol of Israeli forces and the South Lebanese Army near the town of Al-Taibeh.

---

The squad was on its way to attack Kibbutz Misgav Am. The squad fought the force for some time, using machine guns and anti-tank missiles, and thereby causing the disabling of an armored personnel carrier and casualties among the men on it.

The "Front" announced that its fighters "succeeded in forcing a way open for themselves and withdraw towards Wadi Al-Litani."

---

[From the New York Times, Apr. 14, 1990]

ISRAELIS ARE REPORTED TO SINK DINGHY CARRYING 4 GUERRILLAS

BEIRUT, LEBANON, April 13.—The Israeli Navy sank a dinghy carrying four Palestininian guerrillas trying to enter northern Israel from the Lebanese coast, members of the Lebanese and Isreali security forces said today.

They said the guerrillas, equipped with machine guns and grenades, left late Thursday night from a small port near the Rasnidlye refugee district, 46 miles south of Beirut, heading to Israel.

The dinghy was intercepted by an Israeli gunboat and the Israelis shouted by loudspeaker ordering the crew of the dinghy to stop, then opened fire. The fate of those on board is not known.

Lebanese security sources in Tyre said the guerrillas belonged to Al Fatah, the Palestine Liberation Organization group led by Yasir Arafat. P.L.O. representatives in the area declined to comment on the incident.

---

[From the Fort Lauderdale Sentinal, Apr. 4, 1990]

ARAB STORE OWNERS' TIES TO PLO UNDER INQUIRY

(By Buddy Nevins)

MIAMI.—Federal agents and a federal grand jury are investigating whether Arab owners of convenience stores in South Florida are funneling money illegally to the Palestine Liberation Organization.

"We've been looking into it for some time. It looks like it's widespread," U.S. Customs Service Agent Ken Stroud said.

The investigation centers on whether there have been violations of U.S. currency laws, which require any transfer of $10,000 or more outside the country to be reported to U.S. authorities, Stroud said.

A local spokesman for the American-Arab Anti-Discrimination Committee branded the accusations "racist." Mounem Kat-tours said government agents look at Palestinians and automatically think PLO.

Customs agents, however, think that at least $1 million in cash has been moved from this area to the PLO, Stroud said.

Customs agents are particularly interested in 12 people arrested on March 7 on charges of dealing in stolen property at six Liberty City convenience stores. Metro-Dade police charged them with 53 felonies and 35 misdemeanors.

Those arrested are Adman Bahhur, Emed Bahhur, Linda Bahhur, Salameh Bahhur, Tamor Chaudhary, Ribhi Farraj, Mahmud Mohammed, Fathi Mustafa, Kamal Rishg, Mohammead Samhan, Mohamad Shouman and a 15-year-old juvenile.

Mr. HELMS. This amendment has been discussed and agreed to on both sides.

Mr. PELL. Mr. President, this is a good amendment which we have cleared. I recommend its adoption.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from North Carolina.

The amendment (No. 1657) was agreed to.

Mr. HELMS. I move to reconsider the vote.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1658

AMENDMENT NO. 1659

Mr. HELMS. Mr. President, I have two other amendments which have been agreed to on both sides of the aisle. I ask that amendments numbered 1658 and 1659 be called up and considered en bloc.

The PRESIDING OFFICER. The clerk will report the amendments.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS] proposes amendments numbered 1658 and 1659 en bloc.

Mr. HELMS. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT NO. 1658

On page 18 line 6, strike all beginning with "that" through "subsection (a)(1)." on line 7 and insert the following: "that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsection (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person, or to import goods or services from such foreign person.

---

AMENDMENT NO. 1659

On page 17, line 16, strike all after "SANCTIONS.—" through "following," on line 17 and insert: "The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, are as follows:"

Mr. PELL. Mr. President, I believe these amendments are in good order and should be adopted.

The PRESIDING OFFICER. The question is on agreeing to the amendments of the Senator from North Carolina.

The amendments (Nos. 1658 and 1659) were agreed to, en bloc.

Mr. HELMS. I move to reconsider the vote.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1660

(Purpose: To provide substitute language)

AMENDMENT NO. 1661

(Purpose: To provide substitute language)

Mr. HELMS. I send to the desk amendments numbered 1660 and 1661 which are in the same category, and I ask unanimous consent that they be considered en bloc.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS], for Mr. GARN, proposes amendments numbered 1660 and 1661 en bloc.

Mr. HELMS. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT NO. 1660

On page 22, line 11, strike all beginning with "that" through "subsection (a)(1)." on line 12 and insert the following: "that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsecton (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person or to import goods or services from such foreign person.

---

AMENDMENT NO. 1661

On page 21, line 21, strike all after "Sanctions.—" through "following;" on line 22 and insert: "The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, and are as follows:

[1] The two rival PLF groups which split in 1984—Tala' at Yaaqub and Abu al-Abbas—have reunited in Tunisia under the auspices of Arafat. Hakham Bilawi, the PLO's representative in Tunisia and Yassir Abd Rabo, a member of the PLO Executive Committee (both participants in the dialogue with the U.S.) were present at the reunification ceremony. Abu al-Abbas heads the united PLF.

The PRESIDING OFFICER. Is there further debate?

Mr. PELL. Mr. President, I am familiar with these amendments, and believe they should be passed.

The PRESIDING OFFICER. The question is on agreeing to the amendments of the Senator from Utah, en bloc.

The amendments (Nos. 1660 and 1661) were agreed to.

AMENDMENT NO. 1654

(Purpose: To revise sanctions provided by the legislation)

AMENDMENT NO. 1655

(Purpose: To revise sanctions provided by the legislation)

AMENDMENT NO. 1656

(Purpose: To revise sanctions provided by the legislation)

Mr. PELL. Mr. President, I call up three amendments which have been filed on behalf of Senator BENTSEN, myself, Senator HELMS, and they are offered by request of the chairman of the Finance Committee to delete import sanctions within the jurisdiction of the Finance Committee.

I ask unanimous consent that they be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Rhode Island [Mr. PELL], for himself, Mr. BENTSEN, and Mr. HELMS, proposes amendments numbered 1654, 1655, and 1656, en bloc.

Mr. PELL. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

AMENDMENT No. 1654

On page 7, strike lines 15 and 16.

AMENDMENT No. 1655

On page 17, strike lines 22 through 24.

AMENDMENT No. 1656

On page 22, strike lines 3 through 5.

Mr. PELL. Mr. President, together with Senator HELMS and Senator BENTSEN, I offer a motion to strike three provisions of the substitute. The effect of this motion is to delete three provisions of the bill relating to import sanctions. The motion is offered because the three provisions to be stricken are within the jurisdiction of the Committee on Finance. The committee has had neither time nor opportunity to review them. Senator BENTSEN and I understand that the Finance Committee will participate with the Foreign Relations Committee in the House-Senate conference on the bill, solely on provisions within the jurisdiction of the Finance Committee. Furthermore, we understand that the Finance Committee conferees will cooperate with the Foreign Relations Committee conferees in fashioning similar and strong import sanctions to prevent the use of chemical and biological weapons. Do I correctly describe the understanding of the Senator from Texas?

Mr. BENTSEN. The distinguished chairman of the Senate Foreign Relations Committee correctly describes our understanding. I want to go to conference to help him fashion similar and strong import sanctions. I support the import sanctions approach and raised the matter solely on account of my concern for the jurisdictional integrity of my committee.

The PRESIDING OFFICER. The question is on agreeing to the amendments of the Senator from Rhode Island.

The amendments (Nos. 1654, 1655, and 1656) were agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. PELL. What is the pending amendment, Mr. President?

The PRESIDING OFFICER. The pending question is the committee amendment, as amended.

AMENDMENT NO. 1652

(Purpose: Expressing the Sense of the Senate regarding the proliferation of ballistic missile technology used for the delivery of chemical, biological, and nuclear weapons)

Mr. SPECTER. Mr. President, I call up amendment No. 1652.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Pennsylvania [Mr. SPECTER], for himself, Mr. MCCAIN, Mr. D'AMATO, and Mr. HELMS, proposes an amendment numbered 1652.

Mr. SPECTER. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the bill, insert the following:

Since the proliferation of ballistic and cruise missile technology poses a significant threat to global stability;

Since 17 developing countries are now acquiring technology which would enable them to develop, deploy and deliver biological, chemical, and/or nuclear weapons;

Since currently there is no formal international treaty to restrict the proliferation of ballistic and cruise missile technology or technology what would enable the development of such systems;

Since more extensive international public exposure of developing nations' acquisitions of ballistic and cruise missile technology may help dissuade them from such activities;

Since more extensive international exposure of nations supplying ballistic and cruise missile technology may help dissuade them from such activities;

Since an international effort to discuss proliferation of ballistic and cruise missile technologies would complement strategic and chemical arms control negotiations currently being pursued by the United States and the Soviet Union;

Since an international effort to discuss proliferation of ballistic and cruise missile technologies would complement the objectives of the Nuclear Non-Proliferation Review Conference to be held in Geneva beginning in August of this year;

Therefore the Senate hereby—

(1) Requests that an international conference on the proliferation of ballistic and cruise missile technology used in the delivery of chemical, biological and nuclear weapons be convened following the Nuclear Non-Proliferation Review Conference to be held August 20, to September 14, 1990, and no later than January 1, 1991.

(2) Requests that such conference be sponsored jointly by the United States and the Soviet Union in cooperation with the United Nations and should invite the participation of all member nations.

(3) Requests that the purpose of the conference be to provide international forum for the discussion of means to encourage states to pursue regional efforts to restrict proliferation of ballistic and cruise missile technology used in the delivery of chemical, biological and nuclear weapons.

Mr. SPECTER. Mr. President, this is an amendment which calls for an international conference on proliferation of ballistics and missile technology, and after discussing the matter with the managers, it is acceptable to this Senator that the issue be considered in a committee meeting.

I want to say, Mr. President, that cosponsors on this amendment were Senator HELMS, Senator MCCAIN, and Senator D'AMATO. I formally withdraw the amendment on the understanding that it will be taken up at a hearing of the Foreign Relations Committee.

I yield the floor.

The amendment No. 1652 was withdrawn.

Mr. PELL. Mr. President, I confirm the understanding of the Senator from Pennsylvania, that it will be considered at the appropriate time.

The PRESIDING OFFICER. Is there further debate?

The question is on agreeing to the committee substitute, as amended.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Republican leader.

AMENDMENT NO. 1662

Mr. DOLE. Mr. President, I have an amendment at the desk, and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE] proposes an amendment numbered 1662.

Mr. DOLE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 8, line 8 of the substitute, delete the word "nine" and insert in its place the word "twelve".

On page 8, line 19 of the bill, after the words "if necessary", add the following: "and would facilitate the purposes outlined in Section 3 of this Act. Such a waiver may be renewed at Presidential discretion".

Mr. DOLE. Mr. President, if I could have the attention of my colleagues, I will take only a couple minutes to explain this amendment. It is straightforward. It is important on two counts.

First, it gives the President some very important flexibility in administering this act.

Second, I hope to be able to state also if it were included it would lead the administration to drop its announced intention to veto the bill in its current form.

What I want is not only a bill passed by the Senate but one enacted into law. In its present form it will not be enacted into law except over the veto of the President. I cannot see it would serve anyone's interest to force the President to veto this legislation, except some who might see some partisan advantage in forcing the President to veto an otherwise strong chemical weapons bill.

I believe this issue is too important for that kind of partisan consideration. Certainly our action on it to this point has been in a very bipartisan spirit. I commend the chairman and ranking member of the Foreign Relations Committee—the managers of the bill—for their bipartisanship.

The amendment is very simple. Right now, in that section of the bill dealing with sanctions against those nations which use, or are trying to acquire the capacity to use, chemical weapons—the President can delay the imposition of those sanctions for 9 months, while he tries to get the offending nation to mend its ways.

This amendment would extend the President's power to delay imposition of the sanctions from 9 months to 1 year, not a very substantial change, I might add, but it would permit the President to renew that delay annually by certifying that an additional year of delay is in the national interest of the United States, and would facilitate the purposes outline, in section 3 of this bill.

Mr. President, I think we should give the President that flexibility. I think if we put a flat 9-month period in there the President could try for 8 months to try to work things out, he might have everything worked out, the Parliament in that country might not be able to address legislation within the last 30 days, so the sanction would be imposed. There has to be some way for the President to have some flexibility in the future so we do not have some misunderstandings and some mistakes made.

Plus I think this would help enhance the President signing this bill.

Since I filed my amendment I am advised the administration would like to have an additional waiver. I do not happen to share the view for additional waiver authority talking about companies. The administration would like to have it apply to companies as well. We are talking about countries, not companies. We have a 2-year authority now, as I understand it, on companies.

I do not know any real objection to the amendment except the managers of the bill, and that is fairly formidable.

I am pleased to hear from the manager of the bill.

Mr. PELL. Mr. President, with the greatest respect for the minority leader, I must oppose the amendment. It would allow the President, as he suggested, to waive the effect of this bill; not only waive the effect for 9 months, but by renewing the request to waive the effect of it forever.

The President already has the authority to impose all the sanctions that are set forth in the bill, and this bill would impose mandating sanctions for the use of chemical weapons in violation of international law, and to waive that would wipe out the effect of it. So unless anyone else would like to speak——

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1662, AS MODIFIED

Mr. DOLE. Mr. President, I send a modification to the desk.

The amendment (No. 1662) as modified is as follows:

On page 8, line 8 of the substitute, delete the word "nine" and insert in its place the word "twelve".

Mr. DOLE. Mr. President, I believe this will be acceptable. I know of no requests for a vote on this amendment or any request for vote on final passage.

Mr. PELL. Is there a request for vote on final passage?

The PRESIDING OFFICER. The yeas and nays have not been requested.

The question is on agreeing to the amendment, as modified, of the Senator from Kansas.

The amendment (No. 1662), as modified, was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment as modified, was agreed to.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. JEFFORDS. Mr. President, I am pleased that the Chemical and Biological Weapons Control Act has finally come before the Senate for consideration. It is critical that we take action to curb the export of technology for use in chemical weapons development and that U.S. policy delineate clear sanctions against the use of these weapons.

I am an original cosponsor of one of the first bills introduced in the 101st Congress, S. 8, the Chemical and Biological Weapons Control Act. I am pleased that many provisions of S. 8 have been incorporated into the bill before us today.

Two years ago, Iraq's use of chemical weapons against the Kurdish people of northern Iraq shocked the world. While there have been other incidents of chemical weapons use in the past, the horror of the killing of the Kurds added impetus to long-running negotiations on a chemical weapons ban and to attempts to restrict the availability of chemical and biological weapons technology.

In the wake of this incident, closer examination of international chemical weapons capabilities has brought to light some disturbing facts. In March 1989, CIA Director William Webster testified before the Senate Foreign Relations Committee that as many as 20 countries may be developing chemical weapons and at least 10 are working toward production of biological weapons. Just as disturbing is information that by the year 2000, 15 Third World countries are expected to be producing their own ballistic missiles with the potential of carrying chemical warheads.

Now is the time to enact strong controls on the export of technology and materials related to chemical and biological weapons production. This legislation would give the President greater authority to control these technologies and prevent their export to countries suspected of trying to develop these weapons. The bill would allow the imposition of sanctions against a foreign person if the President determines that he or she has contributed to a nation's effort to acquire chemical or biological weapons.

It is critical that U.S. policy clearly state the steps that the United States will take against any nation that uses these weapons against another nation or its own people. Upon Presidential determination that these weapons have been used in violation of international law, under this legislation, 10 sanctions would go into effect automatically. These include termination

of all U.S. non-emergency human needs foreign assistance and all military sales, and denial of any new loans or international financial assistance. The bill urges the administration to press for international support for United Nations Security Council Resolution 620, which calls for similar multilateral sanctions.

This approach should not be viewed as a substitute to the Bush administration's efforts to negotiate an end to U.S. and Soviet chemical weapons production and a worldwide ban on poison gas. I wholeheartedly support the President's recent decision to halt U.S. chemical weapons modernization and production if the Soviet Union agrees to ban production. I hope that substantial progress can be made in these talks in the very near future.

Mr. President, there is a very broad bipartisan support for this legislation in this body. I urge the other body to take immediate action on S. 195 and I urge President Bush to support its enactment. There is no time to lose if we are going to stop the spread of chemical and biological weapons and prevent the reoccurance of the grizzly nightmare of the Kurds.

Mr. RIEGLE. Mr. President, I rise to support Senate passage of S. 195, the Chemical and Biological Weapons Control Act of 1990. We confront a situation today in which irresponsible governments and terrorist groups are attempting to develop chemical and biological weapons to blackmail civilized governments and threaten the peace of the international community. S. 195 seeks to stem the proliferation and use of such weapons.

Title I of the bill requires the President to impose sanctions on any country that uses chemical or biological weapons in violation of international law or against its own citizens. The sanctions would include the termination of all foreign aid and military sales to any such country, the denial of credit to that country from the Export-Import Bank of the United States, and a prohibition on all lending by U.S. banks to that country.

Title II of the bill deals with sanctions on companies that assist countries or terrorist groups in developing and producing chemical and biological weapons. If the President determined companies were aiding the development or production of such weapons, he could, among other things, ban imports by such companies into the United States.

S. 195 was reported by the Senate Foreign Relations Committee on October 17. After it was reported, the Banking Committee sought a short sequential referral as the bill does make important amendments to the Export-Import Bank Charter and the Export Administration Act, two statutes within our committee's jurisdiction. Since a sequential referral requires a unanimous-consent agreement we were unable to get a referral, as not every member of the Foreign Relations Committee agreed to certain amendments we believed were important to safeguard our committee's jurisdiction on these matters.

On November 17, the Banking Committee unanimously adopted a 17-point amendment that was proposed by Senator GARN. None of the points in the amendment adopted by the Banking Committee in any way weakened the bill reported by the Foreign Relations Committee. In fact, some of the proposed points reduced thresholds of proof and made it easier for the administration to enforce that act's provisions.

In adopting Senator GARN's amendment, members of the Banking Committee urged me and Senator GARN to pursue negotiations with Foreign Relations to get acceptance of the 17-point amendment. We did negotiate with the Foreign Relations Committee, and that committee has now agreed to take 15 points of our 17-point amendment in total and to give us a compromise on the other 2 points that safeguard our jurisdictional claims. On the two points they did not take entirely, they agreed to put provisions for sanctions against foreign companies that aid in the development of chemical weapons in both the Export Administration Act [EAA], and the Arms Export Control Act [AECA]. The Export Administration Act, a Banking Committee statute, will be specifically amended to provide sanctions against foreign companies if they ship dual use items and the Arms Export Control Act, a Foreign Relations Committee statute, will be specifically amended to provide sanctions against foreign companies if they ship munitions or any other items, not controlled under the Export Administration Act, that assist a violating country to make chemical or biological weapons. This agreement safeguards our committee's jurisdiction over dual use items.

Under the agreement, when the President puts sanctions on a foreign company for shipping dual-use items that aid in the development of chemical and biological weapons, he will rely on the new authority being put into the Export Administration Act by S. 195. If sanctions are imposed for shipments of munitions or any other items, the President would rely on the new authority that S. 195 puts into the Arms Export Control Act.

In addition to getting satisfaction on the Banking Committee's 17-point amendment, our negotiations with Foreign Relations have produced an agreement that Banking Committee members will be named as Senate conferees on this legislation, and that in the Conference our jurisdictional concerns will be taken fully into account when crafting final bill language. As chairman of the Banking Committee, I am satisfied that this overall agreement fully protects our jurisdictional concerns and allows the Senate to move forward to consider this most important piece of legislation.

I want to commend Senator PELL, the chairman of the Foreign Relations Committee for his leadership in crafting this bill which demonstrates his determination to keep the world community free from the menace that the proliferation of chemical and biological weapons pose to us all. Let me also commend Senators DOLE and GARN who have also expressed a keen interest in passing legislation to help stop the spread and use of these dangerous weapons. I strongly endorse the passage of this bill which will create a clear and serious deterrent against countries that would develop and use chemical weapons, and the companies that would help them along the way.

The PRESIDING OFFICER. Is there further debate?

Mr. PELL. Mr. President, the question now, as I see it, is on agreeing to the committee substitute as amended.

The PRESIDING OFFICER. The Senator is correct. The question is on agreeing to the committee amendment, as amended.

The committee amendment, as amended, was agreed to.

Mr. PELL. Mr. President, I move to reconsider the vote.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and the third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3033, Calendar Order No. 382, the House companion bill.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3033) to control the export, to countries pursuing or expanding the ability to produce or deliver chemical or biological weapons, of items that would assist such countries in acquiring such ability, to impose sanctions against companies which have aided in the proliferation of chemical or biological weapons, to provide for sanctions against countries which use or prepare to use chemical or biological weapons in violation of international law, and for other purposes.

Mr. PELL. Mr. President, I ask unanimous consent that all after the enacting clause be stricken and the

text of S. 195, as amended, be substituted for the House language.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time.

The bill was read the third time.

Mr. PELL. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is, Shall the bill pass?

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Connecticut [Mr. LIEBERMAN] is absent on official business.

I further announce that, if present and voting, the Senator from Connecticut [Mr. LIEBERMAN] would vote "yea."

Mr. SIMPSON. I announce that the Senator from Colorado [Mr. ARMSTRONG], the Senator from Texas [Mr. GRAMM], the Senator from New Hampshire [Mr. HUMPHREY], the Senator from Vermont [Mr. JEFFORDS], the Senator from Oklahoma [Mr. NICKLES], and the Senator from Wyoming [Mr. WALLOP], are necessarily absent. I also announce that the Senator from Idaho [Mr. SYMMS] is absent on official business.

The result was announced—yeas 92, nays 0, as follows:

[Rollcall Vote No. 101 Leg.]

So the bill (H.R. 3033), as amended, was passed; as follows:

*Resolved*, That the bill from the House of Representatives (H.R. 3033) entitled "An Act to control the export, to countries pursuing or expanding the ability to produce or deliver chemical or biological weapons, of items that would assist such countries in acquiring such ability, to impose sanctions against companies which have aided in the proliferation of chemical or biological weapons, to provide for sanctions against countries which use or prepare to use chemical or biological weapons in violation of international law, and for other purposes," do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Chemical and Biological Weapons Control Act of 1990".

SEC. 2. FINDINGS.

The Congress finds that—

(1) chemical weapons were employed in the recent Iran-Iraq war and by Iraq in attacks against its Kurdish minority;

(2) the use of chemical and biological weapons in violation of international law is abhorrent and requires immediate and effective sanctions;

(3) United Nations Security Council Resolution 620, adopted on August 26, 1988, states the intention of the Security Council to consider immediately "appropriate and effective" sanctions against any country using chemical or biological weapons in violation of international law;

(4) the Declaration of the Paris Conference on the Prohibition of Chemical Weapons demonstrates the resolve of most countries to reaffirm support for the 1925 protocol banning the use of chemical and bacteriological weapons and to press for attainment of a ban on the production and possession of chemical weapons;

(5) as many as 20 countries, including Iran, Iraq, Syria, and Libya have or are seeking the capability to produce chemical weapons;

(6) as many as 10 countries are working to produce biological weapons;

(7) by the year 2000, at least 15 developing countries will have the ability to produce ballistic missiles capable of carrying chemical or biological warheads;

(8) the further spread of chemical or biological weapons capabilities would pose a threat of incalculable proportions to friends and allies of the United States and undermine the national security of the United States;

(9) the United Nations should create an effective means of monitoring and reporting regularly on commerce in equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability; and

(10) every effort should be made to conclude an early agreement banning the production and stockpiling of chemical or biological weapons.

SEC. 3. PURPOSE.

It is the purpose of this Act—

(1) to mandate United States sanctions and to encourage international sanctions against countries that use chemical or biological weapons in violation of international law or use lethal chemical or biological weapons against their own nationals;

(2) to require presidential reports on efforts that threaten United States interests or regional stability by Iran, Iraq, Syria, Libya, and others to acquire the materials and technology to develop, produce, stockpile, and deliver chemical and biological weapons;

(3) to urge cooperation with other supplier nations to devise effective controls on the transfer of materials, equipment, and technology applicable to chemical or biological weapons production;

(4) to promote agreements banning the transfer of missiles suitable for armament with chemical or biological warheads;

(5) to encourage an early agreement banning the development, production, and stockpiling of chemical weapons; and

(6) to seek effective international means of monitoring and reporting regularly on commerce in equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability.

TITLE I—SANCTIONS AGAINST THE USE OF CHEMICAL AND BIOLOGICAL WEAPONS

SEC. 101. SANCTIONS FOR THE USE OF CHEMICAL WEAPONS.

(a) DETERMINATION BY THE PRESIDENT.—(1) Whenever information becomes available to the United States Government indicating the substantial possibility that, on or after the date of enactment of this Act, a foreign country has used chemical or biological weapons, the President shall, within 60 days of the receipt of such information by the United States Government, make a determination as to whether that foreign country, on or after such date, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals.

(2) Not later than 60 days after the chairman of the Committee on Foreign Relations of the Senate, upon consultation with the ranking minority member of such Committee, or the chairman of the Committee on Foreign Affairs of the House of Representatives, upon consultation with the ranking minority member of such Committee, requests the President to make a determination as to whether or not a foreign country, on or after the date of enactment of this Act, has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals, the President shall make such determination and so report in writing to the chairmen of such Committees.

(3) In making the determination under paragraph (1) or (2), the President shall consider the following:

(A) All physical and circumstantial evidence available bearing on the possible use of such weapons.

(B) All information provided by alleged victims, witnesses, and independent observers.

(C) The extent of the availability of the weapons in question to the purported user.

(D) All official and unofficial statements bearing on the possible use of such weapons.

(E) Whether, and to what extent, the country in question is willing to honor a request from the Secretary General of the United Nations to grant timely access to a United Nations fact-finding team to investigate the possibility of chemical or biological

weapons use or to grant such access to other legitimate outside parties.

(b) SANCTIONS. —In the event of a Presidential determination under subsection (a) that, on or after the date of enactment of this Act, a foreign country has used chemical or biological weapons in violation of international law or has used lethal chemical or biological weapons against its own nationals, then the President shall—

(1) terminate assistance to that country under the Foreign Assistance Act of 1961, except for urgent humanitarian assistance, or for the purpose of purchasing food or other agricultural products;

(2) terminate all foreign military sales financing under the Arms Export Control Act with respect to that country;

(3) terminate United States Government sales to that country of any defense articles or defense services;

(4) prohibit the issuance of any licenses for the export to that country of any item on the United States Munitions List;

(5) prohibit, under the authorities of section 6 of the Export Administration Act of 1979, the export to that country of any goods or technology except food or other agricultural products;

(6) oppose, in accordance with section 701 of the International Financial Institutions Act, the extension of any loan or financial or technical assistance to that country by international financial institutions;

(7) deny that country any credit or credit guarantees though the Export-Import Bank of the United States;

(8) prohibit any United States bank from making any loan or providing any credit to that country, except for loans or credits for the purpose of purchasing food or other agricultural products; and

(9) terminate, consistent with international law, the landing rights in the United States of any airline owned by the government of that country at the earliest practicable date.

SEC. 102. WAIVER.

The President may waive the applicability of some or all of the sanctions listed in section 101 with respect to a specific country for a period of not to exceed twelve months beginning on the date of the determination by the President of use by that country of chemical or biological weapons in violation of international law, or the use of lethal chemical or biological weapons against its own nationals, if he determines that such waiver is in the national interest of the United States and so certifies to the Speaker of the House of Representatives and the President of the Senate. Together with such certification, the President shall submit in writing a statement containing a detailed explanation of the national interest requiring a waiver, which may include a classified addendum if necessary.

SEC. 103. NOTIFICATION.

Not later than five days after he imposes any sanction described in section 101 against a country or waives under section 102 the applicability of any such sanction, the President shall so notify in writing the Speaker of the House of Representatives and the President of the Senate.

SEC. 104 CONTRACT SANCTITY.

(a) SANCTIONS NOT APPLIED TO EXISTING CONTRACTS.— No sanction described in paragraphs (6) through (10) of section 101(b) shall apply to any activity pursuant to any contract or international agreement entered into before the date of the appropriate presidential determination under section 101(a) unless the President determines, on a case-by-case basis, that to so apply such sanction would prevent the performance of a contract or agreement that would have the effect of assisting a country in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals.

(2)(A) The same restrictions of section 6(m) of the Export Administration Act of 1979 which are applicable to exports prohibited under section 6 of that section shall apply to exports prohibited under section 101(b)(5).

(B) For purposes of subparagraph (A) of this paragraph, any contract or agreement the performance of which (as determined by the President) would have the effect of assisting a country in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals shall be treated as constituting a breach of the peace that poses a serious and direct threat to the strategic interest of the United States, within the meaning of subparagraph (A) of section 6(m) of that Act.

(b) SANCTIONS APPLIED TO EXISTING CONTRACTS.—The sanctions described in paragraphs (1), (2), (3), and (4) of section 101 shall apply to contracts and agreements, without regard to the date such contracts or agreements were entered into, except that such sanctions shall not apply to any contract or agreement entered into before the date of the appropriate presidential determination under section 101(a) if the President determines that the application of such sanction would be detrimental to the national security interests of the United States.

SEC. 105. REMOVAL OF SANCTIONS.

The President may remove the sanctions imposed pursuant to section 101 of this Act if the President determines and so certifies to the Speaker of the House of Representatives and the President of the Senate that the country under sanction—

(1) has renounced any use of chemical or biological weapons in violation of international law, or any use of lethal chemical or biological weapons against its own nationals, and has provided reliable assurances to that effect; and

(2) has made satisfactory restitution to those affected in its earlier use of chemical or biological weapons in violation of international law or in its earlier use of lethal chemical or biological weapons against its own nationals.

SEC. 106. PRESIDENTIAL REPORTS.

Not later than 90 days after the date of enactment of this Act, and every 12 months thereafter, the President shall submit to the Speaker of the House of Representatives and the President of the Senate, a report—

(1) detailing efforts by countries or subnational groups that threaten United States security interests or regional stability (including efforts by Iran, Iraq, Libya, and Syria and other developing countries or subnational groups) to acquire the materials and technology to develop, produce, stockpile, and deliver chemical, biological or nuclear weapons, together with an assessment of the present and future capabilities of such countries or subnational groups to develop, produce, stockpile, and deliver chemical, biological or nuclear weapons;

(2) describing the degree to which any country or foreign person has aided or abetted the government of any country or a subnational group to engage in any activity in connection with the acquisition of any such chemical, biological or nuclear weapon; and

(3) listing all United States persons against whom administrative, civil, or criminal penalties have been applied for shipment of goods and technology controlled for chemical, biological and nuclear weapons proliferation purposes pursuant to the Export Administration Act of 1979 or the Arms Export Control Act.

To the extent practicable, reports submitted pursuant to this section should be based on unclassified information. Portions of each such report may be classified.

SEC. 107. MULTILATERAL EFFORTS.

The President is urged—

(1) to continue close cooperation with others in the Australia Group in support of its current efforts and in devising additional means to monitor and control the supply of chemicals applicable to weapons production to Iraq, Iran, Syria, and Libya—countries that currently support or have recently supported acts of international terrorism;

(2) to work closely with other countries also capable of supplying equipment, materials, and technology with particular applicability to chemical or biological weapons production to devise the most effective controls possible on the transfer of such materials, equipment, and technology;

(3) to seek agreements with countries that produce ballistic missiles suitable for carrying chemical or biological warheads that would prevent the transfer of such missiles; and

(4) to take the initiative in pressing for early conclusion of an international agreement banning the development, production, and stockpiling of chemical weapons.

SEC. 108. UNITED NATIONS INVOLVEMENT.

The President is urged to give full support to—

(1) the United Nations Security Council, in furtherance of Security Council Resolution 620, adopted August 26, 1988, in developing sanctions comparable to those enumerated in section 101 of this Act, to be imposed in the event that any country uses chemical or biological weapons in violation of international law; and

(2) the creation of an effective multilateral means of monitoring and reporting regularly on commerce in chemical equipment, materials, and technology applicable to the attainment of a chemical or biological weapons capability.

## TITLE II—MEASURES TO PREVENT THE PROLIFERATION OF CHEMICAL AND BIOLOGICAL WEAPONS

SEC. 201. MULTILATERAL EFFORTS.

It is the policy of the United States to seek multilaterally coordinated efforts with other countries to control the proliferation of chemical and biological weapons.

It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to undertake a diplomatic initiative to strengthen the Australia Group's objectives to support the norms and restraints against the spread and the use of chemical warfare, advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Group's domestic industries against inadvertent association with supply of feedstock chemical

equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by introducing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a permanent secretariat,

(B) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia Group members.

(C) liaison officers to the secretariat from within the diplomatic missions.

(D) a close working relationship between the Group and industry.

(E) A public unclassified warning list of controlled chemical agents, precursors, and equipment,

(F) information-exchange channels of suspected proliferants,

(G) a "denial" list of firms and individuals who violate the Group's export control provisions, and

(H) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

SEC. 202. PRINCIPLES GUIDING THE ADOPTION OF A MULTILATERAL EXPORT CONTROL SYSTEM.

(a) IN GENERAL.—The United States Government should propose to the Australia Group that its objectives should be guided by taking all appropriate measures—

(1) to ensure that the measures are effective in impeding the production of chemical weapons,

(2) to ensure that the measures are easy and economical to implement, and that they are practical; and

(3) to ensure that the measures do not impede the normal trade of chemicals and equipment used for legitimate purposes.

(b) DEFINITIONS.—For the purpose of section 201 and this section, the term "Australia Group" means the group of nineteen OECS nations dedicated to the control of the export of certain chemicals, including Australia, New Zealand, Austria, Belgium, Denmark, Canada, Japan, Norway, United States, United Kingdom, Federal Republic of Germany, France, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Luxembourg, and Switzerland.

SEC. 202. EXPORT CONTROLS.

(a) IN GENERAL.—The President shall—

(1) use the authorities of the Arms Export Control Act to control the export of those defense articles and defense services, and

(2) use the authorities of the Export Administration Act of 1979 to control the export of those goods and technologies.

that the President determines would assist a country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons.

(b) EXPORT ADMINISTRATION ACT.—Section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405) is amended by adding at the end thereof the following new subsection:

"(q) CHEMICAL AND BIOLOGICAL WEAPONS.—The Secretary, in consultation with the Secretary of State and the Secretary of Defense shall establish and maintain a list of goods and technology that would directly and substantially assist a country or group in acquiring the capability to develop, produce, stockpile, or deliver chemical or biological weapons, the licensing of which would be effective in barring acquisition or enhancement of such capability;

"(2) The Secretary shall require a validated license for any export of goods or technology listed under paragraph (1) to any country except those with whose governments the United States has entered into bilateral or multilateral arrangements for the control of such goods or technology and such other countries as the President shall designate consistent with the purposes of this Act.

"(3) Notwithstanding any other provision of this Act, a determination of the Secretary to approve or deny an export license for the export of goods or technology under this subsection may be made only after consultation with the Secretary of State. If the Secretary disagrees with the Secretary of State regarding any determination under paragraph (1) or (2), the matter shall be referred to the President for resolution.".

(c) IMPROVED VERIFICATION OF EXPORT CONTROLS.—The Secretary of Commerce should, in order to supplement existing means of verification of export controls relating to chemical and biological weapons, take measures to encourage voluntary utilization of appropriate independent inspection companies to inspect and certify shipments and end-users of chemicals that could be used in the development of chemical and biological weapons."

SEC. 204. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

The Arms Export Control Act is amended by inserting after section 38 the following new section:

"SEC. 38A. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

"(a) DETERMINATION BY THE PRESIDENT.—

"(1) IMPOSITION OF SANCTIONS.—The President subject to subsection (d), shall impose on a foreign person the sanctions under subsection (b) if the President determines that the foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed 'through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States, or through any transaction, other than of goods and technology, not subject to sanctions pursuant to the Export Administration Act, to the efforts to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons by any country that the President has determined has at any time after January 1, 1980—

"(A) use chemical or biological weapons in violation of international law;

"(B) use lethal chemical or biological weapons against its own nationals:

"(C) made substantial preparations to do the activities described in clause (A) or (B); or

"(D) been designated pursuant to section 6(j) of the Export Administration Act of 1979 as a country which supports international terrorism.

"(2) CONSULTATIONS WITH THE ACTIONS BY GOVERNMENT OF JURISDICTION.—The President may delay imposition of sanctions against a foreign person for a period of up to 90 days in order to pursue consultations with the government with primary jurisdiction over that foreign person involved in the activities cited in paragraph (1). Following these consultations, the President shall impose sanctions against the foreign person unless he has determined and certified to the Congress that such government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in such activities.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 30 days after making a determination under paragraph (1), on the status of consultations with the appropriate government under paragraph (2), and the basis for any determination under paragraph (2) that such government has taken specific corrective actions.

"(b) SANCTIONS.—The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as any parent, affiliate, subsidiary, and successor entity of the foreign person, are as follows:

"(1) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from the foreign person.

"(c) TERMINATION OF SANCTION.—A sanction imposed on a foreign person under this section shall apply for a period of at least 24 months and in no case shall cease to apply to that foreign person until the expiration of the 12-month period beginning on the date the President determines and certifies to the Congress that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsection (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person, or to import goods or services from such foreign person.

(d) EXCEPTIONS.—The President shall not be required under this section to apply sanctions—

"(1) in the case of procurement of defense articles or defense services—

"(A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(B) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(C) if the President determines that such articles or services are essential to the national security under defense coproduction agreement;

"(2) to products or services provided under contracts entered into before the data on which the President publishes his intention to impose sanctions;

"(3) to—

"(A) spare parts,

"(B) component parts, but not finished products, essential to United States products or production, or

"(C) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(4) to information and technology not directly useful for the development, production, or stockpiling of chemical or biological weapons; or

"(5) to medical or other humanitarian items.

"(e) DEFINITION.—For the purposes of this section, the term 'foreign person' means—

"(A) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(B) a corporation, partnership, or other entity, including any parent or subsidiary entity thereof, which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.".

SEC. 205. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

The Export Administration Act of 1979 (50 U.S.C. App. 2410) is amended by inserting after section 11A the following new section:

"CHEMICAL AND BIOLOGICAL WEAPONS PROLIFERATION

"SEC. 11B. (a) DETERMINATION BY THE PRESIDENT.—

"(1) IMPOSITION OF SANCTIONS.—The President, subject to subsection (d), shall impose on a foreign person the sanctions under subsection (b) if the President determines that the foreign person, on or after the date of the enactment of this section, has knowingly and materially contributed through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States pursuant to this Act; to the efforts to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons by any country that the President has determined has at any time after January 1, 1980—

"(A) used chemical or biological weapons in violation of international law;

"(B) use lethal chemical or biological weapons against its own nationals;

"(C) made substantial preparations to do the activities described in clause (A) or (B); or

"(D) been designated pursuant to section 6(j) of this Act as a country which supports international terrorism.

"(2) CONSULTATIONS WITH AND ACTIONS BY GOVERNMENT OF JURISDICTION.—The President may delay imposition of sanctions against a foreign person for a period of up to 90 days in order to pursue consultations with the government with primary jurisdiction over that foreign person involved in the activities cited in paragraph (1). Following these consultations, the President shall impose sanctions against the foreign person unless he has determined and certified to the Congress that such government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in such activities.

"(3) REPORT TO CONGRESS.—The President shall report to the Congress, not later than 30 days after making a determination under paragraph (1), on the status of consultations with the appropriate government under paragraph (2), and the basis for any determination under paragraph (2) that such government has taken specific corrective actions.

"(b) SANCTIONS.—The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, and are as follows:

"(1) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from that foreign person.

"(c) TERMINATION OF SANCTIONS.—A sanction imposed on a foreign person under this section shall apply for a period of at least 24 months and in no case shall cease to apply to that foreign person until the expiration of the 12-month period beginning on the date the President determines and certifies to the Congress that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsection (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person or to import goods or services from such foreign person.

(d) EXCEPTIONS.—The President shall not be required under this section to apply sanctions—

"(1) in the case of procurement of defense articles or defense services—

"(A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

"(B) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

"(C) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

"(2) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose sanctions;

"(3) to—

"(A) spare parts,

"(B) component parts, but not finished products, essential to United States products or production, or

"(C) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

"(4) to information and technology not directly useful for the development, production, or stockpiling of chemical or biological weapons; or

"(5) to medical or other humanitarian items.

"(e) DEFINITION.—For the purposes of this section, the term 'foreign person' means—

"(1) the term 'foreign person' means—

"(A) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

"(B) a corporation, partnership, or other entity, including any parent or subsidiary entity thereof, which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States: and

"(2) the terms 'defense article' and 'defense service' have the same meanings as are given to such terms by paragraphs (3) and (4), respectively, of section 47 of the Arms Export Control Act.".

SEC. 206. DEFINITIONS.

For the purposes of this Act—

(1) the term "foreign person" means—

(A) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

(B) a corporation, partnership, or other entity, including any parent or subsidiary entity thereof, which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States; and

(2) the terms "defense article" and "defense service" have the same meanings as are given to such terms by paragraphs (3) and (4), respectively, of section 47 of the Arms Export Control Act.

## TITLE III—ADDITIONAL RESTRICTIONS ON TRADE WITH CUBA

SEC. 301. PROHIBITION ON CERTAIN TRANSACTIONS BETWEEN CERTAIN UNITED STATES FIRMS AND CUBA.

Notwithstanding any other provision of law, no license may be issued for any transaction described in section 515.559 of title 31, Code of Federal Regulations, as in effect on July 1, 1989.

SEC. 302. MILITARY AID TO CUBA.

(a)(1) Since totalitarian rule is giving way to democratic rule around the world:

(2) Since the people of Eastern Europe have led the way, embracing Mikhail Gorbachev's policies of Glasnost and Perestroika and replacing totalitarian regimes with elected governments that respect human rights;

(3) Since Fidel Castro's totalitarian rule stands in stark contrast to the democracy sweeping through Eastern Europe, Latin America, and other parts of the world;

(4) Since after thirty years of rule Castro still stubbornly clings to power, publicly attacking the new policies and governments of Eastern Europe, and openly criticizing the policies of Mikhail Gorbachev;

(5) Since despite these attacks the Soviet Union continued to prop up the Castro government, subsidizing the Cuban economy at an annual rate of at least $5.5 billion, $1.5 billion of it in military assistance.

(6) Since Soviet Deputy Prime Minister Leonid Abalkin has publicly stated that commercial ties between the two countries might be expanded and perhaps even substantially increased;

(7) Since the Soviet Union continues to modernize the Cuban armed forces, delivering six new advanced MIG-29 fighters earlier this year;

(8) Since this business as usual support continues at a time when Castro has launched a new wave of repression, arresting human rights activists, underground political leaders, dissidents, university students, and religious leaders;

(9) Since Castro has executed, arrested, and dismissed key members of his military high command, state security ministry, personal body guard, Cuban Communist Party Central Committee, and diplomatic corps during the past year, in an ongoing purge to consolidate control and discourage reform;

(10) Since Castro has arrested and deported international journalists for reporting the growing human rights and pro-democracy movement in Cuba; and

(11) Since Castro has gone so far as to deport Eastern bloc reporters who "compare Cuba to Romania—the calm before the storm," take Soviet publications such as Moscow News out of circulation, and ban Perestroika by Mikhail Gorbachev.

(b) it is the sense of the Congress that—

(1) continuing Soviet support of Cuba remains a serious problem in United States-Soviet relations;

(2) the Soviet Union, in re-examining its relationship with Cuba, should cease military aid to the Castro regime and take all other possible steps to further the policies of Glasnost and Perestroika by adopting policies supporting the political, economic rights, and human rights of the Cuban people.

TITLE IV—GENERAL PROVISIONS

SEC. 401. INCURSIONS INTO ISRAEL.

(a) During the next round of talks with the PLO, should such talks occur after the date of enactment of this Act, the representatives of the United States should obtain from the Represenatives of the PLO a full accounting of the following attempted incursions into Israel which occurred after Yasser Arafat's statement of December 1, 1988:

(1) On August 7, 1989, a rocket attack on the settlement of Maoz Haim by members of the PLO-affiliated Popular Front for the Liberation of Palestine.

(2) On February 4, 1990, an unprovoked ambush by the Popular Front for the Liberation of Palestine-General Command on an Israeili tour bus in Egypt that killed 9 and wounded 15 Israelis.

(3) On September 6, 1989, a rocket attack by the PLO-affiliated Popular Front for the Liberation of Palestine aimed at Kibbutz Tel-Katzir that fell on Kibbutz Sha'ar Hagolan.

(4) On January 26, 1990, an attack on an Israeli Army patrol by at least three terrorists of the PLO-affiliated Democratic Front for the Liberation of Palestine headed for Kibbutz Misaay-Am.

(5) On May 28, 1989, an attack by the Popular Front for the Liberation of Palestine and the Palestine Liberation Front, both PLO-affiliated organizations, in which a one-year old Israeli was injured by a Katyush rocket.

(6) On October 7, 1989, an attempted raid on Kibbutz Misgav-Am by a squad of terrorists armed with machine guns and anti-tank missiles from the PLO-aligned Palestine Liberation Front.

(7) On April 13, 1990, an attempted infiltration into northern Israel by boat by four terrorists of Yasser Arafat's Al-Fatah, equipped with machine guns and grenades.

(b) In the event that talks are held with the PLO after the date of enactment of this Act, the Secretary of State, shall include in the next report provided to the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate under section 804 of the Foreign Relations Authorization Act for Fiscal Years 1990 and 1991 any accounting provided by the subsection (a) and the relationship between those groups responsible for these attacks and the PLO: *Provided*, That such report shall also include a list of all individuals participating in discussions held between representatives of the United States and of the Palestine Liberation Organization since January 1, 1989; and, that such report should also include any additional affiliations of such representatives of the PLO.

(c) No later than 60 days after enactment, the Commissioner of the Customs Service shall provide the President of the Senate and Speaker of the House of Representatives with a report outlining illegal activities being undertaken in the United States by the Palestine Liberation Organization or on behalf of the Palestine Liberation Organization; including such activities as illegal drug trafficking, money laundering, weapons purchases and arms shipments; estimating the amount of funds associated with such activities; and describing the extent to which members of the PLO Executive Committee, and the PLO Central Council and the Palestine National Council are aware of, or are involved in such illegal activities".

Mr. PELL. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. MITCHELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER (Mr. CONRAD). The Senator from Rhode Island.

Mr. PELL. Mr. President, the deliberations on S. 195 have been long today, but we have finished this bill in good time and in good order. Passage of the Chemical and Biological Weapons Control Act of 1989 puts the Senate firmly on record in favor of a strong U.S. policy against the use and proliferation of chemical and biological weapons and moves us one step closer to enactment into law of this comprehensive legislation.

The need for this type of legislation cannot be underestimated. Chemical weapons were used repeatedly in the last decade in the Iran-Iraq War. Moreover, Iraq used chemical weapons against its own citizens. Now Iraq is threatening to use chemical weapons again. There is abundant evidence that other nations are developing or seeking to acquire their own chemical and biological weapons.

In light of these events, it is clear that the inhibitions against the use of chemical weapons are slipping and that the civilized nations of the world move to arrest this alarming trend toward the proliferation and use of chemical and biological weapons.

We would do well at this happy moment to remember those now verdant battlefields in France that were witness to the terrible use of poison gas in World War I. The passage of time has not caused us to forget the horror of gas in that war and the revulsion of the nations of the world afterward that led to the agreement upon the Geneva Protocol of 1925. We are now reasserting that concern and showing that the United States is willing to move back into the forefront of those nations that abhor the use of chemical weapons and will make a serious effort and comprehensive attempt to remove chemical and biological weapons from the face of this Earth. It is a solemn and serious responsibility we have undertaken, and I believe we are meeting that responsibility with distinction.

I thank my many colleagues for joining in making this a fine piece of legislation of which we can all be very proud.

I am particularly gratified to see the unanimous vote in this regard.

Mr. President, I ask unanimous consent that S. 195 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PELL. Mr. President, I move that the Senate insist on its amendment and request a conference with the House on the disagreeing votes thereon and that the Chair be authorized to appoint the conferees on the part of the Senate.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. PELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

## MORNING BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent that there be a period for morning business with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

## VA ADVISORY COMMITTEE DECISION ON SOFT-TISSUE SARCOMA

Mr. DASCHLE. Mr. President, today veterans exposed to agent orange have won a tremendous victory—one they should have celebrated long ago. This afternoon the VA's Advisory Committee on Environmental Hazards concluded that there is a significant statistical association between soft-tissue sarcoma and Vietnam veterans' exposure to agent orange. they will recommend to Secretary Derwinski that veterans suffering from soft-tissues sarcoma be provided VA disability compensation.

Let me explain the significance of this event. The VA's Advisory Committee on Environmental Hazards is very possibly the group least likely to come up with such a recommendation. This is the group that recommended that veterans exposed to atomic radiation not be compensated for radiation-related diseases. This is the group that recommended in November 1989 that veterans exposed to agent orange not be compensated for non-Hodgkin's lymphoma.

Nevertheless, this same group found a significant statistical association between exposure to agent orange and soft-tissue sarcoma, a rare, terminal cancer that has disabled and killed many Vietnam veterans. Several of the Advisory Committee members said the

conclusion was "unavoidable." This conclusion confirms what we who have been involved in the effort to compensate veterans for agent organe-related illnesses have been saying. The evidence is there. Veterans suffering from soft-tissue sarcoma deserve compensation.

Confirmation of that fact from the Advisory Committee should set the record straight once and for all and should pave the way for consideration—by the Advisory Committee, the Secretary of Veterans Affairs, and the Congress—of compensation for other agent orange-related diseases. First among those diseases to be considered should be those outlined in the Agent Orange Scientific Task Force report and Adm. E.R. Zumwalt, Jr.'s, recent report to the Secretary.

Although I have stated some of my strong concerns about the work of the Advisory Committee in the past, some encouraging actions that should improve the Advisory Committee's review procedures were taken today. The Advisory Committee decided to strengthen its future review procedures in two important ways.

First, the Advisory Committee has decided to include more improved statistical analyses of studies based on detailed "power statements" that should allow the group to give proper weight to each study and consider all the studies together in a systematic way. Second, the Advisory Committee has decided to bring in ad hoc committee members who are expert in highly specialized fields, such as reproductive epidemiology and immunology. These experts should enhance the Advisory Committee's ability to review the scientific literature related to reproductive and immunologic effects. These actions should prove helpful in the effort to ensure expert, comprehensive, evenhanded treatment of the scientific evidence.

In spite of these encouraging signs, I remain concerned about the VA's Advisory Committee process. In addition to my general concern about the Advisory Committee's past work, I am extremely skeptical about the Advisory Committee's ability to address the full list of diseases potentially associated with agent orange in a reasonable time frame. This is certainly not the fault of the Advisory Committee members. The body of scientific evidence to be reviewed is formidable, and it simply will not be possible for the Advisory Committee to issue conclusions on each of the diseases suspected to be associated with agent orange before the VA issues its October regulations.

This situation highlights the need for an independent body to review the scientific literature, and the importance of the provision in the agent orange legislation, passed by the Senate and pending in the House, to establish such a review procedure through the National Academy of Sciences. It is important that these issues are resolved in a fair, timely manner, and the National Academy of Sciences can play an important role in that effort.

In conclusion, Mr. President, I hope this is the beginning of the end of the ordeal agent orange victims have suffered—not just for non-Hodgkin's lymphoma or soft-tissue sarcoma victims, but for all veterans disabled by their exposure to agent orange.

## REFORMULATED GASOLINE

Mr. DASCHLE. Mr. President, during the past 2 weeks, we have all been assaulted by a massive advertising blitz orchestrated by the American Petroleum Institute [API] that is designed to defeat the proposed Richardson-Madigan-Waxman amendment to the Clean Air Act. This amendment, which is very similar to the Daschle-Dole-Harkin amendment adopted by the Senate last month, would require the use of cleaner burning gasoline in the Nation's dirtiest cities.

I would like to take a few moments of my colleagues' time today to address some of the charges that have been levied against the delineation of a reformulated gasoline standard in the Clean Air Act amendments.

The catchword of API's media campaign is Government gas. I'm sure all my colleagues have heard this catchy slogan during the last 2 weeks.

Government gas, to hear API tell it, is an evil creation of the U.S. Congress that is capable of polluting our cities and sending the Nation into bankruptcy, all for the benefit of a few corn farmers in South Dakota and Kansas.

That is nonsense.

In reality, Government gas is the multi-million-dollar substance that is being belched from the advertising departments of the multinational oil companies' Washington trade association, the American Petroleum Institute. An API spokesman has confirmed that the organization has alotted $2 million for media buys alone.

Two million dollars for advertisements; that is what the API is spending to mislead the public about the effect of this single amendment. This evidently does not include what is being spent in creative fees and consultants' fees.

And just why is the API pursuing this strategy?

They are trying to obscure the fact that gasoline has become almost 50 percent more toxic in the last decade alone, and that 85 percent of the benzene in the air now comes from gasoline combustion and evaporation.

They are trying to obscure the fact that 50 percent of the cancer deaths attributed to air pollution comes from mobile source pollution.

Let's walk through some of the assertions and half-truths being propagated by the API.

Charge No. 1: Scientists—not politicians—should decide how and when to reformulate gasoline. Does the API really expect anyone to believe that the reformulated gas standards that passed the Senate and are now before the House were pulled from thin air?

Just the opposite is true. The standards were the result of months of working closely with petroleum industry experts, auto makers, State air quality officials, and environmentalists. In fact, the standards are almost identical to the ideal standards outlined by General Motors; they closely mirror recommendations from ARCO and other oil companies; and they are very similar to the gasolines already being marketed by Marathon, Phillips, Conoco, and others.

Charge No. 2: The amendment will cut into efficiency. Would General Motors be recommending an even tougher gasoline standard if it reduced auto efficiency?

One of the many problems with today's high-octane, high-aromatic gasoline is that it clogs fuel injectors and can literally cripple catalytic converters. Cleaner gasoline not only produces less pollution, it also burns cleaner in your engine, making for longer engine life and a more fuel-efficient car.

Charge No. 3: Smog will increase because of Government gas. This may be the most reprehensible charge of all.

All Government data and almost all industry data clearly show that reducing aromatics and increasing oxygen makes a car burn far more cleanly. I would strongly urge the API to look at current EPA data on the subject, and to look at the December 6 Oil and Gas Journal, where an Arco scientist lays out data that clearly show that adding oxygen and reducing aromatics decreases $NO_x$, unburned hydrocarbons, and carbon monoxide, and therefore dramatically decreases smog.

What is the most outrageous about the API comments is that it appears that their propagandists have not even read either the Daschle/Dole/Harkin or Richardson/Madigan/Waxman amendments. Under the terms of the amendments, if a fuel does not decrease smog by at least 15 percent, it cannot be certified by the EPA Administrator. If ethanol cannot meet this standard, it cannot be used.

Charge No. 4: The amendment will cost billions of dollars. The API likes to claim that reformulating gasoline will cost between 15 and 25 cents per gallon. This contrasts with the facts of the marketplace, where several members of the API are already marketing reformulated gasolines that essentially meet the standards of the proposed amendment at little or no additional

cost. Information Resources, Inc., has prepared a cost estimate of the Daschle/Dole/Harkin amendment that states that its cost will run from −2.7 cents per gallon to +2.23 cents, depending on the type of fuel that is used to meet the standard.

Finally, I have in my possession a cost estimate from the Environmental Protection Agency that says the amendment will cost only 2.9 to 3.9 cents per gallon. This estimate had to be leaked, as the millions of dollars spent by the API to discredit the amendment seem to have stalled an official cost estimate from leaving the Agency. I will insert the text of the estimate into the RECORD so my colleagues may see EPA's assumptions and computations.

Mr. President, it is time to set the record straight about the real reason for the oil industry's opposition to our clean gasoline standard. Their priority is not air quality; it is control and market share.

The multinational oil companies, in particular, are fixated on maintaining their stranglehold on the traditional hydrocarbon-only gasoline business. The clean-burning ethers and alcohols that would be required to manufacture clean gasolines would amount to less than 10 percent of the oil industry's 115 billion gallons of gasoline used in the United States each year. Yet, the API's hysterical, distortion-filled ad campaign makes it clear that they regard this intrusion as a serious threat that must be beaten back at all costs.

I sincerely hope that we all consider the source of the Government gas propaganda and keep an objective eye on the facts. The Richardson-Madigan-Waxman amendment, like its counterpart already adopted by the Senate 69 to 30, is good for our environment, our health, our energy security, and our motorists. It should be adopted.

Mr. President, I now ask unanimous consent that the text of the estimate, previously referred to, be printed in the RECORD.

There being no objection, the estimate was ordered to be printed in the RECORD, as follows:

EPA ESTIMATE ON COST OF DASCHLE GASOLINE

The final Daschle gasoline (1996) will be sold in the nine severe ozone nonattainment areas (22% of U.S. fuel consumption) and must meet the following specifications:

(a) Maximum benzene content of 1.0 volume %

(b) Maximum aromatics content of 25 vol. %

(c) Minimum oxygen content of 2.7 wt. %

(d) 15% reduction in ozone forming potential (VOCs)

(e) No increase in $NO_x$

Assuming MTBE is used, 15 vol. % will be needed. The octane provided by the MTBE will allow refiners to back off on reformer severity and reduce aromatics to the 25 vol. % level without any other changes to the refinery. This will also reduce benzene levels to about 1.2 vol. %. The remainder of the benzene reduction can be achieved with existing technology, possible with existing equipment.

Most of the required 15% reduction in ozone forming VOC emissions will result from the addition of oxygenate. The remainder can be achieved by reducing RVP below 9 RVP by 0.6–0.8 RVP in 1992 and by only 0.2–0.5 RVP in 1994 and beyond. The technology for this also exists and is readily available. It is also possible that methods for reducing the photochemical reactivity of VOC emissions will be confirmed by this time, allowing less costly solutions to be developed, such as reducing olefin and/or heavy aromatic concentration.

MTBE is already being produced from isobutane (and many plants are under construction), indicating that current prices (80–95¢ per gallon) will support expanded production from this source. Ample isobutane is available to provide for sufficient MTBE for this and other oxygenate programs.

The cost of Daschle gasoline is as follows:

MTBE (15 vol. % at 28¢/gal over gasoline)—4.2¢/gal.

Savings from the octane value of MTBE—−2.0.

Aromatics control to 25 vol. % (free w/ MTBE)—0.0.

Benzene control to 1 vol. %—0.5–1.0.

RVP control to 8.2–8.2 RVP—0.2–0.7.

Total cost—2.9–3.9.

FEASIBILITY AND COST OF REFORMULATED GASOLINE IN THE NINE SEVERE OZONE AREAS

(1) Daschle Amendment definitely applies to the nine severe ozone nonattainment areas representing 22% of U.S. fuel consumption, could also apply to some additional areas since a population cutoff is not included (also some uncertainty concerning whether 0.179 ppm ozone is considered 0.18 ppm or greater, which could include two more cities)

(2) All gasoline sold in these areas must have:

(a) Maximum benzene content of 1.0 volume %

(b) Maximum aromatics content of: 30 vol. % as of Jan. 1, 1992; 28 vol. % as of Jan. 1, 1994; and 25 vol. % as of Jan. 1, 1996.

(c) Minimum oxygen content of: 2.0 wt. % as of Jan. 1, 1992; 2.5 wt. % as of Jan. 1, 1993; and 2.7 wt. % as of Jan. 1, 1994.

(d) Must produce a 15% reduction in ozone forming potential of volatile organic compounds (VOCs) and no increase in $NO_x$ emitted during the high ozone season (relative to 1989, 9 RVP fuel).

(e) Provisions allow other formulations which comply with (c) and (d) above and which produce the emission reductions associated with (a) and (b) above.

(f) Other provisions allow waivers of the above requirements and extension of the requirements to other areas; these will not be addressed here.

(3) The volume of gasoline affected (22% of U.S. fuel consumption) will grow from 22 to 23 billion gallons annually between 1992 and 1996.

(4) Assuming MTBE is used as the oxygenate, 2.4 and 3.4 billions of gallons per year will be required in 1992 and 1994, respectively. This assumes no spillover to fuel in areas outside of those mandated. To expect 10 or 20% spillover would be more reasonable, so total MTBE demand may be about 2.6–2.9 and 3.7–4.1 billion gallons in 1992 and 1994, respectively.

(5) Current state-mandated wintertime CO reduction programs affect 3.0% of U.S. fuel consumption and will require 0.35 billion gallons of MTBE capacity or 0.2–0.3 billion gallons of ethanol capacity in the mid-1990s. The current breakdown of MTBE/ethanol use in state programs is about 75/25.

Current U.S. ethanol capacity is nearly 1 billion gallons, so this could suffice if economically desirable (ethanol would be preferentially used in the state CO programs over the 9-city program due to the absence of an aromatics limit). However, straight use of ethanol would certain imply an increase in the cost of these programs, so that won't be assumed here. Thus, current state oxygenate programs add about 0.2 billion gallons per year to total U.S. MTBE requirements. (The Federal 3.1 wt. % oxygen mandate contained in the Senate bill has not yet been factored into this analysis, but it is not expected to substantially affect the conclusions.)

(6) Current U.S. MTBE capacity is about 2.0 billion gallons, with worldwide capacity at roughly 3.6 billion gallons, with much of the overseas capacity focused on the U.S. market. Worldwide supply is projected to grow at 20% per year for at least five years. Thus, by 1992 and 1994, U.S. capacity should be roughly 2.9 and 3.0 billion gallons per year, while worldwide capacity should be roughly 5.9 and 6.9 billion gallons per year. Thus, the requirements of the 9-city program plus the state oxygenate programs should require essentially all U.S. capacity, but only 50% and 60% of worldwide capacity in 1992 and 1994, respectively, which is lower than the historic U.S. usage of total worldwide supply. Thus, MTBE plants may or may not need to be built specifically to supply the 9-city program, particularly in 1992, where leadtime is the shortest. Given the geographical dispersion of the nine cities, most, if not all, of the MTBE currently produced in the U.S. could be shifted to those areas without much logistical disruption (excepting the need to segregate the 9-cities gasoline from that going to other areas, which is inherent in the program). Also, overseas capacity can easily be shipped to the 9 cities, since all are major seaports. Certainly no more than half of the required MTBE capacity should need to be built specifically for this program.

(7) MTBE is produced from methanol and isobutylene. Methanol is a commodity chemical available throughout the world at competitive prices. Isobutylene is not widely available. Thus, MTBE plants tend to be located near inexpensive sources of isobutylene. The first wave of MTBE plants were based on isobutylene already available within refineries. Many such MTBE plants were built when gasoline prices were 45–50¢ per gallon and MTBE prices were 60–65¢ per gallon, indicating satisfactory profits could be made at this price. Most refinery isobutylene is already or will soon be utilized to produce MTBE. The second wave of MTBE plants will use isobutylene produced from isobutane contained in field butane (butanes removed from natural gas). Almost all large overseas MTBE plants utilize this process. When gasoline costs rose to its recent range of 55–65¢ per gallon and MTBE costs rose to 80–95¢ per gallon, isobutane based MTBE plants began to be constructed even in North America. This indicates that MTBE can be profitably produced from isobutane and methanol for about 25–30¢ per gallon more than gasoline. The amount of isobutane available far exceeds the amount

needed to supply MTBE to the nine U.S. cities, even considering worldwide demand for MTBE.

(8) Using a midpoint of 28¢ per gallon, a 15 vol.% MTBE blend would add 3.3 octane numbers and 4.2¢ per gallon to the price of gasoline. Historically, the incremental price of premium gasoline over that of regular has been based on the cost of increasing reformer severity and throughput. This price differential has rarely been below 3¢ per gallon (0.5¢ per octane gallon) and has usually been 5, 6 and even 9¢ per gallon (0.8, 1.0 and 1.5¢ per octane gallon, respectively). Using a figure of 0.6¢ per octane gallon (conservatively near the low end of this range, the 3.3 octane gallons supplied by the 15 vol.% MTBE is worth 2.0¢ per gallon in refinery savings. Thus, the net cost of achieving the 2.7 wt.% oxygen and 25 vol.% aromatics requirements is 2.2¢ per gallon. This has been also generally confirmed by Bonner and Moore refinery modelling, which showed the cost of a nationwide 25 vol.% aromatics limit (A much more stringent requirement) was only 2.5¢ per gallon starting from a much higher 37 vol.% aromatics base level.

(9) MTBE plants based on isobutane require about $1 per annual gallon capacity to construct. Thus, if all of the MTBE were to come from new plants, then there plants would cost $2.6–2.9 billion in 1992 and an additional $1.1–1.2 billion in 1994. Actual capital costs resulting from the 9-city program should be less than half this amount.

(10) Use of MTBE to meet the oxygen requirement will result in the following aromatics contents (based on refinery modelling and a baseline aromatics content of 33 vol.%): 1992, 27 vol.%; 1993, 25 vol.%; 1994, 25 vol.%; and 1996, 25 vol.%.

(11) The aromatics contents resulting from MTBE use will naturally comply with the aromatics limits shown in (2b) above.

(12) The natural aromatics reduction arises primarily from reducing reformer severity and reformer throughput. Since the reformer increases octane at the expense of gasoline volume, adding oxygenates improves the refinery's yield of gasoline and reduces internal refinery costs. Thus, both the oxygen and aromatics requirements can be met for the cost of the oxygenate minus the savings associated with less reformer use.

(13) When reformer severity and throughput are reduced, benzene levels should fall proportionately to total aromatics levels, though this will vary from refinery to refinery. With aromatics being reduced from about 33 vol.% today to 25 vol.%, benzene levels should drop from 1.6 vol.% today to 1.2 vol.%. Based on a survey of California refiners, the California Air Resources Board has estimated that reducing benzene from 1.4 to 1.2 vol.% and 0.8 vol.% would cost 1.0 and 1.5¢ per gallon, respectively. Starting at a lower base level, and ending higher should then cost no more than 0.5 to 1.0¢ per gallon. The technology required is readily available, usually consisting of simply distilling benzene precursors (primarily cyclohexanes) from the reformer feed. The capital cost per gallon is roughly 5–7.5¢ per annual gallon capacity for the two California cases described above. Thus, the capital cost for the 9-city program should be about 2.5–5¢ per annual gallon, or $0.5–1.0 billion.

(14) The final cost component is that associated with the 15% ozone reduction. No date is given for this requirement. It will be assumed here to apply in 1992. The combination of 2.0 wt.% oxygen and a 0.6–0.8 RVP reduction should provide the required ozone reduction. With 2.7 wt.% oxygen in 1994, only a 0.3–0.5 RVP reduction should be required. EPA has said Bonner and Moore evaluate such controls in the past for its RVP control rulemaking. There, the cost of a 1.0 psi RVP reduction from 9 RVP was estimated to cost 0.8¢ per gallon. Thus, for the Class C areas (all except Los Angeles, San Diego, and Houston), the additional cost of RVP control should only add 0.5–0.6¢ per gallon in 1992–1993 and only 0.2–0.4¢ per gallon in 1994 and beyond. In the remaining areas, the cost will be roughly 30% higher, due to the lower base RVP in those areas. Assuming a conservative 50/50 split between the gasoline volume in the two groups of cities, the cost of RVP control will be 0.6–0.7¢ per gallon in 1992–93 and 0.2–0.5¢ per gallon in 1994 and beyond. The capital cost of reducing RVP from 9 to 8 was found to be about 0.2¢ per annual gallon capacity. Even allowing for a five-fold increase for the Class B areas, the average capital cost would be only 0.5¢ per gallon, or roughly $0.1 billion in total.

(15) The analysis in (11) above assumes that EPA will not be able to identify any methods for reducing the reactivity of gasoline-related emissions. If the expected benefits of lower olefin and heavy aromatics are confirmed, then even cheaper ozone reducing techniques may be utilized and overall costs reduced.

(16) Adding the cost of MTBE (4.2¢), the related refinery savings (2.0¢), the cost of benzene control (0.5–1.0¢) and that of RVP control (0.6–0.7¢ in 1992–1993 and 0.2–0.5 beyond) results in an overall cost of 3.3–3.9¢ per gallon in 1992–93 and 2.9–3.7¢ per gallon beyond. Capital costs will total $3.2–4.0 billion in 1992, if all the required MTBE is produced from new plants resulting from this program. However, MTBE producers are already anticipating increased demand for MTBE and it is unlikely that more than half this amount will be needed. For 1994, capital costs should total no more than $1.1–1.2 billion.

## A RHODE ISLAND SCHOOL TAKES AN IMPORTANT INITIATIVE TO WORK FOR RELEASE OF HOSTAGES

Mr. PELL. Mr. President, we recently welcomed the return from Lebanon of two American hostages—Robert Polhill and Frank Reed. While we rejoice at their homecoming, I believe it is important to remember that six more Americans and several Europeans still are being held against their will in Lebanon.

Ms. Maggie Fennessey, a teacher at the Ponaganset Middle School in North Scituate, RI, has developed an innovative educational program, Project F.A.T.H.E.R., to focus attention on the plight of the remaining hostages in Lebanon. Ms. Fennessey is calling upon U.S. teachers and students to commemorate Father's Day by participating in a letter writing campaign to plead for the release of the hostages.

This valuable program demonstrates to the hostages and their families that we have not forgotten them and that we continue to work for the hostages' freedom. I believe that it is important for our young people to become involved in this process; students throughout the country could benefit greatly from participation in Project F.A.T.H.E.R. Accordingly, I commend the Ponaganset Middle School's project to my colleagues, and ask unanimous consent that material about Project F.A.T.H.E.R. be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AMERICAN HOSTAGES

* Terry A. Anderson (3/16/85).
* Thomas Sutherland (6/9/85).
* Joseph James Cicippio (9/12/86).
* Edward Austin Tracy (10/21/86).
* Alann Steen (1/24/87).
* Jesse Jonathan Turner (1/24/87).

OTHER HOSTAGES

* Terry A. Waite, Great Britain (1/20/87).
* Alec Collett, Great Britain (3/25/85).
*John McCarthy, Great Britain (4/17/86).
* Alberto Molinari, Italy (9/11/85).
* Brian Keenan, Ireland (4/11/86).
* Jack Mann, Great Britain (5/12/89).
* Heinrich Stuebig, Thomas Kemptner, West Germany (5/16/89).
* Elio Erriquez, Emmanuel Christen, Swiss Red Cross (10/16/89).

PROJECT F.A.T.H.E.R.—FREE AMERICANS TAKEN HOSTAGE BY ELICITING RESPONSE

We as educators try to teach our students that what we do as individuals makes a difference, that the actions of a few have an impact on the many. We attempt to teach our children to write for a reason, to address a specific audience and concerns which are meaningful to them. I propose a campaign which incorporates all these objectives; specifically, that students in our schools write to plead for the release of the hostages held in the Middle East and that the children do this as a national response to Father's Day, June 17.

Teachers can implement this letter writing campaign as part of a lesson. We can be instrumental in mobilizing our students to write letters which, when gathered together, will be overwhelming in number and influence.

The students' letters should contain two parts: first, an explanation of what June 17, Father's Day, means to us as Americans; and second, a plea for the release of the hostages so they, as fathers or sons of fathers, could be reunited with their families to celebrate this special day.

The students should mention each hostage by name in their letters. For this purpose, a list of the hostages' names is enclosed. It might also be appropriate to have students research or read about each man. This would be determined according to the ages of the students, and the time constraints, and the teacher.

The address to be used is: Ali Akbar Hashemi Rafsanjani c/o Iranian Mission to the U.N., 34th Floor, New York, New York 10017.

The target date for completed letters is May 25, 1990. All students letters should be gathered either by school or district and mailed to: M.A. Fennessey c/o Ponaganset Middle School, 91 Anan Wade Road, North Scituate, RI 02857.

I look forward to hearing from all fifty states, from all students in America. It is to

be hoped that this Father's Day can be celebrated by all.

## THE WALTER BRACKEN ELEMENTARY SCHOOL

Mr. BRYAN. Mr. President, I rise today to congratulate one of Nevada's finest educational institutions. The Walter Bracken Elementary School has been chosen by the U.S. Department of Education as one of the United States Blue Ribbon elementary schools. This is an achievement of which we are all very proud.

Blue ribbon elementary schools are very special. The criteria includes academic achievement and responsible behavior on the part of students, as well as a can-do attitude toward problem solving among the faculty and administration. These qualities are reflected in the inherent ability of both the faculty and student body of Bracken Elementary.

However, even more is required of a blue ribbon elementary school. The school must offer an atmosphere of visionary leadership, and a sense of shared purpose among administrators, faculty, students, and parents. Moreover, there must be a climate conducive to effective teaching, and an environment that says that children of all ability levels can learn.

These are the qualities represented by the Walter Bracken Elementary School. With the leadership of Dr. Bernard Hamilton, Jr., and his staff, Bracken Elementary School has used parental cooperation and a great community effort to reach beyond the status quo. At Bracken, there is a team atmosphere in which there is a true commitment to the well-being of every student. Bracken makes a conscious effort to develop individual educational strategies to try to ensure each child's full potential.

As we grapple with the problems of drug abuse, budget deficits, and insufficient educational opportunities for our students, it has become increasingly apparent that we must harness every possible resource. The Bracken Elementary School has done this. The parents, students, faculty, and staff have displayed the cooperation and dedication to make them all winners.

Mr. President, Dr. Hamilton and the administrators, teachers, parents, and students at Bracken have set an example for our State and for our Nation. I want to congratulate them all, not only for their results, but also for their methods. Their strength is most aptly described by the Walter Bracken Elementary School motto: "We care. We share. We work together."

## FREEDOM AND HUMAN RIGHTS IN CHINA AND TIBET

Mr. PELL. Mr. President, last Friday President Bush signed the enrolled version of Senate Joint Resolution 275 and issued a proclamation declaring May 13 the "National Day in Support of Freedom and Human Rights in China and Tibet." I introduced Senate Joint Resolution 275 earlier this year, which was cosponsored by more than 50 Members of the Senate at the time of its passage. The joint resolution commemorates the anniversary of last year's hunger strikes by Chinese students in Tiananmen Square, which led to the bloody June 4 massacre of the students by the Chinese leadership. It also marks the violent crackdowns by China against peaceful demonstrators protesting Chinese rule in Tibet.

As the infamous June 4 anniversary approaches, it is crucial that we support the continuing efforts by Chinese students and Tibetans to initiate dialog with Chinese leaders. In signing the resolution, President Bush has indicated to the Chinese leadership that we stand behind the courageous Chinese and Tibetans who exemplify the universal standards of freedom and human rights.

I must stress that we chose to commemorate May 13, the day that the peaceful hunger strikes were initiated, rather than June 4, the day of the massacres. June 4 is a date that belongs to the Chinese regime, a date that will likely prove to be its Pyrrhic victory. May 13 is a day of tribute to the nonviolent ideals of the democracy movements in China and Tibet, ideals that found fruition in Eastern Europe but were crushed in China itself.

Mr. President, I ask unanimous consent that at the conclusion of my remarks, the full texts of Senate Joint Resolution 275 and the proclamation issued by President Bush be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S.J. RES. 275

Whereas the United States supports the legitimate and democratic aspirations for freedom of peoples throughout the world;

Whereas student and citizen groups throughout the world have taken great risks in pursuit of reform;

Whereas on May 13, 1989, Chinese students began a hunger strike in Tiananmen Square seeking nonviolent dialogue with the Chinese Government;

Whereas the Chinese Government responded to the Chinese students with violence, killing many;

Whereas the non-violent resistance of the people of Tibet to the Chinese Government has also been met with violence;

Whereas the Chinese students and the Tibetan people follow the tradition of the Dalai Lama's and Mahatma Gandhi's doctrine of non-violence, and have inspired the world;

Whereas student organizations throughout the United States and around the world have declared May 13, 1990, as an international day of fasting in support of democratic reforms in China and Tibet; and

Whereas this effort is being undertaken in the hope of bringing the current tragedies in China and Tibet to a peaceful end, and in the hope that productive dialogue will replace an atmosphere of suspicion and reprisal: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the President is authorized and requested to issue a proclamation designating May 13, 1990, as the "National Day in Support of Freedom and Human Rights in China and Tibet," and calling on the people of the United States to observe such a day with appropriate ceremonies and activities.

NATIONAL DAY IN SUPPORT OF FREEDOM AND HUMAN RIGHTS

[A proclamation by the President of the United States of America]

From mid-April to early June of last year, millions of citizens of the People's Republic of China participated in massive demonstrations in scores of Chinese cities in a remarkable display of peaceful political activity. The goals they espoused—greater freedoms, more respect for human rights, more meaningful opportunities for participation in political processes—are goals cherished by all Americans.

Tragically, on the night of June 3-4, lethal force was used to crush the demonstrations. This action, far beyond the legitimate requirements of law and order, resulted in the deaths of hundreds of unarmed citizens. In the months that followed, many thousands more were detained and otherwise punished for their peaceful expression of political views. Harsh penalties were imposed for activities connected with the demonstrations.

This suppression of dissent in Beijing and other major cities in June echoed the suppression of peaceful demonstrations in Tibet, where a series of demonstrations between October 1987 and March 1989 were put down with increasing severity by Chinese security forces, resulting in the deaths of scores of persons. Participants in subsequent, smaller demonstrations were also imprisoned or otherwise punished for nonviolent political dissent, and martial law was imposed on Tibet's capital from March 1989 until May 1, 1990.

Steps have been taken in recent months that have resulted in some improvement. China lifted martial law in Beijing and Lhasa, announced the release of hundreds of prisoners who had been held for political activities, and stated its willingness to receive officially sponsored U.S. scholars and Peace Corps volunteers. The United States hopes that these steps will be followed by others that will demonstrate China's return to the path of reform.

The Congress, by Senate Joint Resolution 275, has authorized and requested the President to issue this proclamation in support of freedom and human rights.

Now, therefore, I, George Bush, President of the United States of America, do hereby proclaim May 13, 1990, as a National Day in Support of Freedom and Human Rights. I call upon the people of the United States to observe this day in the spirit of commemorating those who died; drawing inspiration from the courage of those who held fast to their ideals in the face of violent suppression; and urging the Chinese Government to respond positively to the fundamental aspirations for freedom expressed in last year's demonstrations. These are the same fundamental aspirations so profoundly expressed by people around the world during the momentous events we are still witnessing—

events that are daily advancing the cause of freedom and human rights.

In witness whereof, I have hereunto set my hand this twelfth day of May, in the year of our Lord nineteen hundred and ninety, and of the Independence of the United States of America the two hundred and fourteenth.

GEORGE BUSH.

## LITERACY

Mr. PELL. Mr. President, as we are all aware the problem of literacy has become one of the most alarming issues facing our Nation today. There are a great many individuals in our country who do not know how to read. The Department of Education, for example, estimates there are more than 20 million adults in need of literacy training in the United States. In my own State of Rhode Island, it is estimated that there are at least 100,000 adults who are lacking in literacy competence. The growth of illiteracy is a threat to our strength and a waste of our potential.

Literacy is critical to the health of our Nation, for as a democracy we depend upon an educated and active citizenry. The vitality of our economy rests heavily upon the educational skills of our people—the most fundamental and basic of which is the ability to read. Our strength in the competition with the newly formed European Community and with the Japanese and Asian trading bloc will require that we call upon a highly skilled and educated work force. It will ask of us nothing less than utilizing the full talents of all of our people. To my mind, an investment in literacy is an investment in the future growth and productivity of this Nation. We cannot afford to allow one citizen to fall short of his or her full productive potential because they have not received adequate assistance to help them learn to read.

Very recently, the president of Brown University, Vartan Gregorian, wrote a very perceptive and insightful commentary on this subject. It appeared in the April 29, 1990 edition of the Providence Sunday Journal.

Mr. President, I ask unanimous consent that the article be printed in the RECORD for all my colleagues to read.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Providence Sunday Journal, Apr. 29, 1990]

### LITERACY IS A MEANS TO FREEDOM

(By Vartan Gregorian)

There is a longing nationally in the culture for centrality, for unity, for universality, for cohesion, for logic, for a sense of progress and inclusiveness. The issue is how to do it.

We are 49th among 160 Nations of the United Nations in literacy. That means that 23 to 30 million Americans don't or can't read. Worse, there are also those who know how to read and write, but who won't read.

The concept of literacy itself has been fragmentized. We are now using the term "illiterate" as a euphemism for ignorance of a subject matter. Each discipline is advocating literacy for its own particular subject matter—mathematical literacy, ethical literacy, scientific literacy, artistic literacy, historical literacy and cultural literacy, a term coined by Mortimer Adler, whose final judgment was that education is killing culture; therefore, culture has to be rescued from education.

Literacy in a democracy enhances our humanity. If we are literate, we may expand the ways in which we can learn, understand and appreciate the world around us. Through literacy, we enlarge the range of our vicarious experiences, through our command of written materials and through formulation of new ideas by the reader. To learn to express, to decide and to do, together permit us to become more autonomous, less circumscribed by conditions of social class, sex and ethnicity into which we are born.

Literacy is a means to freedom. It makes it possible for people to determine for themselves what they wish to know and in what depth. It enables people to transcend the boundaries set by others.

That is why throughout history people in power have sought to control the written word. Book burning, censorship and the perpetuation of illiteracy through active or benign neglect have all been means to that end.

Literacy is also memory. History and human experience are best preserved in writing. Literacy gives one access to one's past and continuity of identity, a means to transfer past and present into the future. Literacy makes possible depth and breadth, the pursuit of inquiry in any direction. The illiterate must be satisfied with the knowledge supplied by others; the literate has free choice.

Reading and writing are the essence of thinking, for thought does not exist without them. In a memorable essay on the decay of language, George Orwell observed that when we begin to prefer the vague to the exact, we reduce the range of our consciousness. Eventually, he predicted, we will not know, and we will not care.

Literacy also means the book. Jorge Luis Borges, in one of the last pieces of literature he wrote in the form of a preface for the New York Public Library's exhibition on the treasures of Spain, said, "There are people who cannot imagine a world without birds; there are people who cannot imagine a world without water. As for myself, I am unable to imagine a world without books . . . Of all of mankind's diverse tools, undoubtedly the most astonishing are his books. All the others are extensions of his body."

Books are fragile and, at the same time, powerful objects. They not only permit us to share the imagination of the world, but they grant us at once the right word. Recognizing ourselves in that word, we desire it for everyone. But books need readers. We must remember the dictim of Sir Francis Bacon, who wrote around 1600 that "Reading makes a full man, conversation makes a ready man and writing makes an exact man."

Therefore, it is particularly sad and ironic that in this time and age, one finds oneself speaking in defense of conventional literacy, rather than taking it for granted.

We must defend literacy by the act of reading itself. Since language, according to many anthropologists, defines man and organizes his or her activities, reading appears as an unarguable necessity. To read is to be fully human.

Throughout history, however, the relationship between the book, as a container of information and knowledge and insight, and the reader, the receiver, has been a dialectical and a collaborative one. The relationship assumed a process: understanding and digestion. The process has never been a passive one, for books cannot nourish or even be said to exist until they are digested.

The reader completes a job only begun by an author. This is still true, even at a time when consumption has replaced digestion.

The other aspect of this collaboration between the book and the reader is its intimacy, its privacy. We must not forget that pleasure, discretion, silence and creative solitude are the primary aspects of a life of reading—its most tangible justification and most immediate reward. A person reading is a person suspended between the immediate and the timeless.

Reading constitutes also a self-renewal, an imaginative and humane act. It forces us to see how we would be poorer, what kind of experience we would be missing and what strength we would lack if we did not read. The qualities we would miss by not reading are active, imaginative collaboration and critical distance. These have implications for what even our libraries are and what our learning institutions are.

That is why it is so important for us to remember that literacy and unity of culture, as well as curiosity, must be a life-time purpose. In any democracy, especially ours, we cannot afford to allow one-third of our nation to drift into a permanent underclass. We cannot afford to ride in the *Titanic* as first-class passengers, because when its sinks, there is no solace for any of the passengers.

(Vartan Gregorian, president of Brown, is the former president of the New York Public Library.)

## LEGAL IMMIGRATION REFORM

Mr. SIMPSON. Mr. President, I rise to comment on legal immigration legislation now pending in the House Judiciary Committee.

As my colleagues are aware, Senator KENNEDY and I are cosponsors of legislation (S. 358) which passed the Senate last July. Its purpose is to reform our legal immigration system. While I was rather displeased with that legislation after it was significantly amended on the Senate floor, I found it difficult to vote against legislation on which I had worked so hard and on which the full Senate had spoken its mind.

However, I feel I must now clearly speak out about certain provisions of the House version of this legislation, H.R. 4300, which will soon be considered by the Judiciary Committee. While many provisions in the bill are problematic, I am particularly opposed to: First, removal of the numerical limitation on the second preference, and second, the amnesty program for certain illegal aliens who entered the United States on January 1, 1990, or before.

SECOND PREFERENCE CHANGES

Under current law, U.S. citizens enjoy the full privilege of bringing to the United States their spouse and minor children immediately, without any numerical limitation. All other family and business relationships are subject to an annual numerical limitation of 270,000.

In addition, current law grants immigration benefits to the spouse and children of any alien who receives permanent resident status in the United States. Thus, when an alien receives a permanent immigrant visa, his or her spouse and children may enter the country with him or her. Or, if an alien wishes, he or she may enter without the family, work in the United States until he or she is economically established, and then have his or her spouse and children follow to join as soon as they may want to. As long as the spouse and children were in existence at the time the alien was issued the visa, they may enter when they wish, without restriction.

For those aliens who were not married at the time their visa was issued, the second preference is available. This immigration category allows an alien to bring newly acquired spouses and children to the United States—that is, a family that was started after the original visa was issued. Current law allows approximately 110,000 visas per year to be issued in this category. Because of the large demand for visas in this category, there are backlogs and waiting lists for the second preference.

The Senate bill responded to these backlogs by increasing the number of visas allocated to the second preference: S. 358 contained an increase of approximately 40,000 visas per year. Unfortunately—and startlingly—the House bill responds to the backlogs by deleting entirely the numerical limitation on the spouses and children of permanent resident aliens.

I find the change in the House bill unacceptable for a number of reasons. First, it would grant to permanent resident aliens one of the very few privileges now reserved only for U.S. citizens: The right to receive immediate issuance of visas to spouses and children whose family relationship to the alien began after the alien entered the United States. There are precious few incentives left at the present time for aliens to become U.S. citizens. By removing this clear distinction, we remove yet another reason for aliens to become citizens. I believe assimilation should be promoted, and that this provision would have just the opposite effect.

Second, this change would dramatically increase immigration levels in the next few years. Because of the recent amnesty and special agricultural worker programs in the Immigration Reform and Control Act of 1986, a large number of formerly illegal aliens will soon be able to petition for their family members. According to the ranking Republican member of the House Immigration Subcommittee—my friend Congressman LAMAR SMITH—with no numerical restrictions on the second preference, the numbers immigrating in this category might rise from 110,000 per year to as much as 600,000 per year. I do not believe that such large numbers should be allowed to enter without some method to regulate the flow in order to make it more manageable and orderly. H.R. 4300 creates a new immigration entitlement, and I believe that entitlements are very bad immigration policy.

Finally, some advocates of this change have incorrectly described the lifting of the numerical restriction on the second preference as an effort to "keep families together." That is very misleading and incorrect. In fact, it is current law that keeps families together, through the accompanying or following to join provisions of the law that allow existing immigrant families to come to the United States together—or to join the immigrant spouse and parent at a later date. H.R. 4300, on the other hand, creates an entitlement to immediate immigrant visas for aliens who go abroad and start new families after those aliens have been granted permanent residence in the United States. I fail to see any justification for such a broad, new entitlement, given the protection that current law provides for families in existence when the visas are issued.

Two things must be remembered: First, if an alien leaves his country with family members still residing back home, it was the alien who voluntarily chose to break up the family; and second, if an alien without family immigrates to the United States, he may become a U.S. citizen in 5 years, and then any new family may join him immediately.

AMNESTY PROGRAM

In addition, H.R. 4300 would grant amnesty to illegal aliens, and to temporary legal alien visitors, who were present in the United States on or before January 1, 1990, and who come from countries that were adversely affected by the 1965 immigration amendments.

I strongly object to this second amnesty on a number of grounds. First, we promised this Nation back in 1986 that the amnesty in the Immigration Reform and Control Act [IRCA] was to be a one-time-only proposition, and that the cutoff date for amnesty benefits would not advance beyond January 1, 1982, the most generous proposal ever to pass either House of Congress. The amnesty in H.R. 4300 specifically breaks that promise, and I find it most troubling and unacceptable.

Second, the cutoff date in the House amnesty proposal rewards persons who illegally immigrated to the United States after the enactment of IRCA on November 6, 1986. I believe it is ludicrous to state that we are serious about stopping illegal immigration as of late 1986, and then to give another amnesty to aliens entering illegally 3 years later, wholly absurd. Yet that is exactly what H.R. 4300 does. In fact, it would give amnesty to illegal aliens who entered as recently as 6 months ago. There is simply no justification whatever for this provision.

Finally, H.R. 4300's amnesty program only gives benefits to persons from 36 countries who were adversely affected by the 1965 amendments to our immigration law. While I oppose any new amnesty program, I also believe that it is inequitable to limit amnesty benefits based solely on an alien's nationality. I did not oppose granting a limited number of legal immigrant visas to those from adversely affected countries under the "NP-5" program, but I do object to running amnesty programs only for illegal aliens from certain countries.

This is not a complete catalog of my objections to H.R. 4300. I see many other areas of disagreement—for example, the lack of a numerical limitation on the family members of employment-based immigrants, and the changes made to the Immigration Reform and Control Act. However, I did want to discuss some of H.R. 4300's most serious flaws. I could not work for in conference nor support any legal immigration reform bill with provisions such as those that I have just described.

## MESSAGES FROM THE HOUSE

At 9:38 a.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 29. An act to amend the Clayton Act regarding interlocking directorates and officers.

---

At 11:42 a.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 286. Concurrent resolution authorizing the 1990 Special Olympics Torch Relay to the run through the Capitol Grounds.

---

At 12:24 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has agreed to the following concurrent resolution,

in which it requests the concurrence of the Senate:

H. Con. Res. 311. Concurrent resolution providing for printing of additional copies of the booklet entitled "Our Flag."

ENROLLED BILL SIGNED

At 7:29 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 3910. An act to require the Secretary of Education to conduct a comprehensive national assessment of programs carried out with assistance under chapter 1 of title I of the Elementary and Secondary Education Act of 1965.

The enrolled bill was subsequently signed by the President pro tempore [Mr. BYRD].

## MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second time by unanimous consent, and placed on the calendar:

H.R. 29. An act to amend the Clayton Act regarding interlocking directorates and officers.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-2986. A communication from the Under Secretary of Defense (Acquisition), transmitting, pursuant to law, the selected acquisition reports for the quarter ended March 31, 1990; to the Committee on Armed Services.

EC-2987. A communication from the Secretary of Commerce, transmitting a draft of proposed legislation to amend title 13 of the United States Code to provide for sharing statistical establishment list information with the Bureau of Economic Analysis to augment, and improve the quality of, its international data; to the Committee on Commerce, Science, and Transportation.

EC-2988. A communication from the Secretary of Agriculture, transmitting, pursuant to law, notice of the intention of the Department to accept a 60 acre land donation and include it within the boundary of the Mount Sneffels Wilderness Area, Uncompahgre National Forest, Colorado; to the Committee on Energy and Natural Resources.

EC-2989. A communication from the Commissioner of the Bureau of Reclamation, Department of the Interior, transmitting, pursuant to law, a report stating that it is necessary to construct modifications to the Deer Flat Dams, Boise Project Idaho; to the Committee on Energy and Natural Resources.

EC-2990. A communication from the Assistant Secretary of the Interior, transmitting a draft of proposed legislation to provide for increases in appropriation ceilings for land acquisition and development in certain units of the National Park System, and for other purposes; to the Committee on Energy and Natural Resources.

EC-2991. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-2992. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-2993. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-2994. A communication from the Deputy Associate Director for Collection and Disbursement, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-2995. A communication from the Chairman of the Lower Mississippi Delta Development Commission, transmitting, pursuant to law, the final report of the Commission; to the Committee on Environment and Public Works.

EC-2996. A communication from the Assistant Secretary of the Treasury (Tax Policy), transmitting a draft of proposed legislation to amend the Omnibus Budget Reconciliation Act of 1987, P.L. 100-203, to extend the existing user fees on each request for a letter ruling, determination letter, opinion letter, or other similar ruling or determination from the Internal Revenue Service; to the Committee on Finance.

EC-2997. A communication from the Chairman of the Physician Payment Review Commission, transmitting, pursuant to law, the Commission's recommendations on the Medicare Volume Performance Standard for fiscal year 1991; to the Committee on Finance.

EC-2998. A communication from the Chairman of the United States International Trade Commission, transmitting a draft of proposed legislation to provide authorization of appropriations for the United States International Trade Commission for fiscal year 1992; to the Committee on Finance.

EC-2999. A communication from the Assistant Legal Advisor for Treaty Affairs, Department of State, transmitting, pursuant to law, a report on international agreements, other than treaties, entered into by the United States in the sixty day period prior to May 10, 1990; to the Committee on Foreign Relations.

EC-3000. A communication from the Acting Comptroller General of the United States, transmitting, pursuant to law, a report and recommenations with respect to a claim for reimbursement of expenses; to the Committee on Governmental Affairs.

EC-3001. A communication from the Director of the National Legislative Commission of the American Legion, transmitting, pursuant to law, the annual audit report of the American Legion for calendar year 1989; to the Committee on the Judiciary.

EC-3002. A communication from the Secretary of Health and Human Services, transmitting a draft of proposed legislation to extend and amend programs under the Developmental Disabilities Assistance and Bill of Rights Act; to the Committee on Labor and Human Resources.

EC-3003. A communication from the Secretary of the Senate, transmitting, pursuant to law, a full and complete statement of the receipts and expenditures of the Senate, showing in detail the items of expense under proper appropriations, the aggregate thereof, and exhibiting the exact condition of all public moneys received, paid out, and remaining in his possession from October 1, 1989 through March 31, 1990; ordered to lie on the table.

## PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-491. A resolution adopted by the Senate of the State of Hawaii to the Committee on Agriculture, Nutrition, and Forestry.

"SENATE RESOLUTION 203

"Whereas, the agricultural development in Hawaii has been burdened by land limitations, transportation costs of shipping equipment, chemicals, feed, and high labor costs; and

"Whereas, the optimum development and diversification among all segments of the agricultural industry requires constant reexamination of agricultural objectives and policies, and adjustments to refine the industry's ability to adapt to changing markets and demands; and

"Whereas, the small size of the average farm in Hawaii only makes the problems for farmers more acute and the obstacles to the growth of the diversified agriculture industry more formidable; and

"Whereas, the success of diversified agriculture in Hawaii depends upon its ability to cope with the challenges of the national and international marketplaces by: implementing efficient production methods; developing larger and more businesslike farms to offset capital costs; starting aggressive product promotion and advertising programs; utilizing sophisticated and innovative marketing analysis and development; and obtaining adequate and affordable financing; and

"Whereas, the blending of these economic and social elements into an environment conducive to the development of agricultural enterprises in Hawaii requires careful evaluation of the existing policies, systems, and institutions that have an impact on agricultural development and the development of new, bold, and innovative policies and structures to facilitate the development of successful agricultural enterprises; and

"Whereas, the effective evaluation and amendment of existing policies, systems, and institutions affecting agricultural development requires people from many disciplines including, among others; economics, finance, agribusiness, marketing, advertising, and transportation: Now, therefore, be it

*Resolved* by the Senate of the Fifteenth Legislature of the State of Hawaii, Regular Session of 1990, That the President of the Senate and the Speaker of the House of Representatives shall appoint a task force to evaluate existing policies, systems, and institutions that affect agriculture and to

identify those policies, systems, and institutions that hinder the development of agricultural enterprises; and be it further

*Resolved,* That the task force shall be chaired by the chairperson of the Senate Committee on Agriculture, and shall include members with knowledge and experience in economics, finance, agribusiness, marketing, advertising, transportation, or other expertise determined by the chairpersons of the task force to be essential to the work of the task force; and be it further

*Resolved,* That the task force shall submit a report of findings and recommendations to the Legislature twenty days prior to the convening of the Regular Session of 1991; and be it further

*Resolved,* That certified copies of this Resolution be transmitted to the President of the Senate, the Speaker of the House of Representatives, the Chairperson of the Senate Committee on Agriculture, and the Chairperson of the House Committee on Agriculture."

---

POM-492. A resolution adopted by the Senate of the State of Hawaii; to the Committee on Environment and Public Works:

"SENATE RESOLUTION 2

"Whereas, all of the states in this country are increasing their reliance on waste reduction and recycling as part of an overall solid waste management approach; and

"Whereas, plastics are becoming an increasing portion of the waste stream and present significant challenges to recycling efforts; and

"Whereas, a viable recycling system includes reliable and cost-effective collection, processing, and end use markets; and

"Whereas, the Society of the Plastics Industry, Inc. (SPI) has developed voluntary coding guidelines to facilitate identification of plastic for purposes of recycling; and

"Whereas, the SPI coding guidelines incorporate seven code numbers with associated acronyms set off by a commonly recognized three arrow recycling symbol; now, therefore be it

*"Resolved* by the Senate of the Fifteenth Legislature of the State of Hawaii, Regular Session of 1990, that this body supports the adoption of a nationwide system of labeling uniformity in plastic material identification codes, which leads to the recycling of those materials; and be it further

*Resolved* that the Administrator of the Environmental Protection Agency is urged to develop rules for uniform recycling symbols in conjunction with plastic material identification codes; and be it further

*"Resolved* that certified copies of this Resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, the Environmental Protection Agency, Hawaii's Congressional delegation, and to each of the presiding officers of the legislative bodies of each state of the United States of America."

---

POM-493. A resolution adopted by the Senate of the State of Hawaii; to the Committee on Foreign Relations:

"SENATE RESOLUTION 43

"Whereas, driftnet fishing fleets, which are capable of spinning out approximately 30,000 miles of net every day, are decimating the Pacific fisheries resource and illegally trapping and killing endangered or threatened marine life and seabirds having little or no commercial value; and

"Whereas, these fine, monofilament nets stretch as much as thirty miles in length and forty feet down, indiscriminately trapping whales, dolphins, sharks, fur seals, billfish, salmon, tuna, and albatross, brutalizing and killing them; and

"Whereas, these dead or dying creatures are then discarded, left to rot or die slow, agonizing deaths; and

"Whereas, the devastation caused by lost or abandoned driftnets is perhaps worse, as these highly durable nets continue to "ghost fish" indefinitely, continuing to trap and ensnare fish and other marine life for no beneficial purpose whatsoever; and

"Whereas, these nets sink with the weight of their helpless victims, only to rise up again as the corpses rot and decompose to renew the devastating cycle; and

"Whereas, at the South Pacific Fisheries Forum held in June 1989, twenty nations called for the Asian driftnet fishing fleets to end their plunder of the Pacific; and

"Whereas, a 'Proclamation on High Seas Driftnet Fisheries in the North Pacific Ocean,' dated October 1989, was signed by the Premier of British Columbia and the Governors of Alaska, Washington, Oregon, Idaho, California, and Hawaii to urge Canada and the United States to initiate diplomatic efforts through the United Nations and other appropriate forums to secure an international ban on driftnet fishing on the high seas; and

"Whereas, only Japan and Taiwan, which maintain large driftnet fleets, refused to join in this effort, and South Korea, although it pulled its driftnet fishing vessels out of the south Pacific, continues to maintain driftnet fishing operations in the north Pacific; and

"Whereas, despite Japan's contention that there is insufficient scientific data to prove driftnet fishing is harmful to the environment, Japan has banned driftnets closer than 700 miles to its shores for the last ten years to protect its own fisheries; and

"Whereas, existing evidence tends to refute Japan's position, for example:

(1) In 1988-1989, driftnetters caught between 40,000 and 50,000 tons of albacore tuna, which is four to five times greater than the sustainable yield of the Pacific, and such exploitation could cause a collapse of the fishery within two years;

(2) Research by Canadian fisheries biologists has revealed unacceptable numbers of mortalities for various species of whales, dolphins, porpoise, seals, seabirds, and other marine life as a result of driftnet fishing;

(3) Biologists believe that hundreds of thousands, perhaps millions, of seabirds perish each year in driftnets of the more than 1,000 fishing vessels in the Pacific ocean; and

(4) Scientists studying whale populations fear that driftnetting may pose an even greater threat to the existence of whales than commercial whaling;

and

"Whereas, newly outfitted fishing vessels can carry twice the amount of driftnet as older vessels; and

"Whereas, the Hawaii State Legislature has previously acted to prohibit the deplorable practice of driftnet fishing in Hawaiian waters by enacting Act 345 during the Regular Session of 1989; and

"Whereas, stronger measures must be taken to send a message to driftnet fishing nations that the brutal and indiscriminate killing of marine life through the use of driftnets will no longer be tolerated: Now, therefore, be it

*"Resolved* by the Senate of the Fifteenth Legislature of the State of Hawaii, Regular Session of 1990, that the Senate hereby publicly condemns the practice of driftnet fishing and expresses its deep concern over the continuation of the practice; and be it further

*"Resolved* that the President of the United States and the United States Congress are urged to suspend trade relations with any nation supporting or sanctioning the practice of driftnet fishing; and be it further

*"Resolved* that certified copies of this Resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, and Hawaii's congressional delegation."

---

POM-494. A resolution adopted by the House of Representatives of the State of Kentucky; to the Committee on the Judiciary:

"RESOLUTION

"Whereas, the 'Star Spangled Banner' has been the National Anthem of the United States since 1931; and

"Whereas, thousands of Americans have fought in wars and conflicts all over the world under the banner of the United States Flag; and

"Whereas, the efforts necessary to defend the flag, and the great ideals for which it stands, takes active defense against foes from within and without the United States; and

"Whereas, House Resolution 225, now pending in the United States Congress, proposes to change the National Anthem of the United States from the 'Star Spangled Banner'; and

"Whereas, Mr. George Lloyd Dennis of Bowling Green, Kentucky, a decorated veteran of the United States Army, having served with distinction in the defense of United States and the flag in the 101st Airborne Division, has taken it upon himself to work for the retention of the 'Star Spangled Banner' as our National Anthem; and

"Whereas, in undertaking this project, Mr. Dennis has mortgaged his home and undertaken considerable other financial risks in order to establish a telephone survey to take the opinion of the American public regarding the changing of the National Anthem; and

"Whereas, the 900 phone number poll will begin May 1, 1990; and

"Whereas, the 900 number to call in support of the 'Star Spangled Banner' is 1-900-490-6351; and

"Whereas, the number in opposition to the 'Star Spangled Banner' is 1-900-490-6352; and

"Whereas, the General Assembly supports the one man army of Mr. George Lloyd Dennis in his effort to assure an impartial poll of Americans in regard to HR-225; Now, therefore, be it

*"Resolved* by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

"Section 1. That the House of Representatives does hereby congratulate and commend Mr. George Lloyd Dennis in his single-handed effort in support of the 'Star Spangled Banner'.

"Section 2. That the House of Representatives does hereby support the proposition of keeping the 'Star Spangled Banner' as our National Anthem.

"Section 3. That the House of Representatives does hereby oppose HR-225;

"Section 4. That a copy of this Resolution be sent to Mr. George Lloyd Dennis, the Kentucky Congressional Delegation, the sponsor of HR-225, the President and the Vice President of the United States, the Majority and Minority Leaders."

## INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. CHAFEE (for himself, Mr. HARKIN, Mr. CRANSTON, and Mr. DECONCINI):

S. 2646. A bill to amend the Public Health Service Act to establish a Substance Abuse Treatment Corps, and for other purposes; to the Committee on Labor and Human Resources.

By Mr. KENNEDY (for himself, Mr. SIMON, and Mr. GORE):

S. 2647. A bill to provide for the admission of the State of New Columbia into the Union; to the Committee on Governmental Affairs.

By Mr. BIDEN (for himself and Mr. THURMOND):

S. 2648. A bill to amend title 28, United States Code, to provide for civil justice expense and delay reduction plans, authorize additional judicial positions for the courts of appeals and district courts of the United States, and for other purposes; to the Committee on the Judiciary.

By Mr. KENNEDY:

S. 2649. A bill to provide for improved drug abuse treatment and prevention; to the Committee on Labor and Human Resources.

By Mr. BIDEN:

S. 2650. A bill to implement a National Drug Strategy to prevent illegal use of drugs, and for other purposes; to the Committee on the Judiciary.

By Mr. D'AMATO (for himself, Mr. DODD, Mr. WILSON, Mr. DECONCINI, Mr. DOLE, Mr. COATS, and Mr. THURMOND):

S. 2651. A bill to amend chapter 53 of title 31, United States Code, to require the Department of the Treasury to issue regulations concerning the identification of nonbank financial institutions subject to the Bank Secrecy Act, to prohibit illegal money transmitting businesses, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. MOYNIHAN (for himself and Mr. GARN):

S.J. Res. 318. Joint resolution providing for the appointment of Ira Michael Heyman of California as a citizen regent of the Board of Regents of the Smithsonian Institution; to the Committee on Rules and Administration.

By Mr. DOMENICI:

S.J. Res. 319. Joint resolution designating May 1990 as "Take Pride in America Month"; to the Committee on the Judiciary.

## SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. METZENBAUM (for himself, Mr. DOLE, Mr. SIMPSON, Mr. MURKOWSKI, Mr. PELL, Mr. LUGAR, Mr. SIMON, Mr. MCCLURE, and Mr. BOREN):

S. Res. 287. A resolution expressing the sense of the Senate with respect to the possibility of Organization of African Unity mediation in the Ethiopian civil war; considered and agreed to.

By Mr. DOLE (for himself, Mr. LAUTENBERG, Mr. ARMSTRONG, Mr. LUGAR, Mr. HELMS, and Mr. DODD):

S. Con. Res. 131. Concurrent resolution urging free and fair elections and respect for fundamental human rights in Romania; to the Committee on Foreign Relations.

By Mr. HEFLIN:

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CHAFEE (for himself, Mr. HARKIN, Mr. CRANSTON, and Mr. DECONCINI):

S. 2646. A bill to amend the Public Health Service Act to establish a Substance Abuse Treatment Corps, and for other purposes; to the Committee on Labor and Human Resources.

SUBSTANCE ABUSE TREATMENT CORPS ACT

● Mr. CHAFEE. Mr. President, I am pleased to be joined by Senators HARKIN, DECONCINI, and CRANSTON in introducing the Substance Abuse Treatment Corps Act. This legislation is designed to recruit critically needed health professionals to provide drug and alcohol abuse counseling and treatment in underserved areas.

One of the most powerful weapons in fighting the war on illegal drugs is treatment. By helping addicts conquer their dependence on drugs we reduce demand. Over the past 5 years, we have recognized this and more than doubled Federal funding for treatment programs. Yet the availability of appropriate counseling and treatment programs remains severely limited.

In 1989, approximately 1,400,000 individuals were admitted to alcohol and drug treatment programs. Nearly 70,000 people, however, were on waiting lists for assistance, and over 10 million additional people were identified as needed some form of treatment.

The lack of health care professionals who are qualified to provide drug and alcohol treatment is a primary reason that care remains unavailable for so many. Part of the problem is that substance abuse counselors often shy away from providing services in inner city or rural settings.

The implications of the unavailability of treatment and counseling for those with drug and alcohol problems, particularly adolescents, are very serious. The Substance Abuse Treatment Corps [SATC] would help expand access to these critical services in both urban and rural settings.

Under our bill, health professionals would be recruited to provide drug and alcohol abuse counseling and treatment in underserved areas through a scholarship program that assists people in financing their education and training and a loan repayment program that repays a portion of an individual's school loans.

For each year an individual receives assistance, through either the scholarship or loan repayment program, the individual must provide 1 year of alcohol and drug abuse treatment in an underserved area. Many Corps members are likely to be placed in community health centers, rural health clinics, community mental health centers and other facilities serving low-income populations.

The SATC would be equitably allocated among urban and rural areas. Although fewer people in rural areas are addicted to crack or heroine than in inner cities, rural areas face an equally devastating problem with excessive alcohol use.

Our legislation is modeled after the National Health Service Corps, which has been largely successful in recruiting health professionals to provide care in underserved areas. Our objective is not to compete for limited National Health Service Corps funds, but to supplement the NHSC by expanding the availability of drug and alcohol treatment.

I urge my colleagues to recognize the need for expanding treatment in underserved areas and support the establishment of the Substance Abuse Treatment Corps.

Mr. President, I ask unanimous consent that six letters of support for this legislation, and the bill itself, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 2646

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Substance Abuse Treatment Corps Act".

SEC. 2. ESTABLISHMENT OF SUBSTANCE ABUSE TREATMENT CORPS.

Part D of title III of the Public Health Service Act (42 U.S.C. 254b et seq.) is amended by adding at the end the following new subpart:

"Subpart VI—Substance Abuse Treatment Corps

"SEC. 340A. ESTABLISHMENT OF TREATMENT CORPS.

"(a) ESTABLISHMENT.—There is established within the Service a unit to be known as the Substance Abuse Treatment Corps. The purpose of the Treatment Corps is to in-

crease the availability of treatment for alcohol and drug abuse in geographic areas in which there is a significant incidence of such abuse and an inadequate availability of such services. The Secretary may carry out such purpose only through the assignment, in accordance with this section, of Treatment Corps members to provide such services for such areas.

"(b) COMPOSITION.—

"(1) IN GENERAL.—The Treatment Corps shall, subject to paragraph (2), consist of such officers of the Regular and Reserve Corps of the Service as the Secretary may designate, such civilian employees of the United States as the Secretary may appoint, and such other individuals who are not employees of the United States.

"(2) REQUIREMENT OF LICENSE OR CERTIFICATION FOR PROVISION OF TREATMENT.—The Treatment Corps shall consist only of individuals who have been licensed or certified by a State to provide treatment for the abuse of alcohol or drugs or who have been certified by the Secretary as being qualified to provide such treatment services.

"(3) CRITERIA REGARDING OTHER LICENSES OR CERTIFICATIONS.—

"(A) IN GENERAL.—If an individual has been licensed or certified for purposes of paragraph (1), the individual may, subject to subparagraph (B), serve in the Treatment Corps without regard to whether the individual has received education regarding the provision of health services other than treatment for the abuse of alcohol or drugs.

"(B) LIMITATION.—Of individuals who have been licensed or certified for purposes of paragraph (2) and who hold additional licenses or certifications in the health professions, mental health professions, or professions regarding social services, such an individual may serve in the Treatment Corps only if the individual is a physician, psychiatrist, clinical psychologist, physicians assistant, nurse, nurse practitioner, psychiatric nurse, marriage therapist, family therapist, social worker, or a graduate of a school of public health.

"(c) DETERMINATION OF ELIGIBLE GEOGRAPHIC AREAS.—

"(1) CONSIDERATION OF CERTAIN FACTORS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall by regulation establish criteria for determining the geographic areas that are geographic areas described in subsection (a). In establishing such criteria, the Secretary—

"(A) shall first consider the ratio of available providers of treatment for alcohol and drug abuse to the number of individuals in the geographic area involved; and

"(B) shall in addition consider indicators of need, notwithstanding the supply of such providers, for treatment for alcohol and drug abuse in the geographic area, with special consideration to indicators of—

"(i) the incidence of alcoholism and alcohol abuse;

"(ii) the incidence among pregnant women of addiction to drugs;

"(iii) the incidence among adolescents of the use of alcohol and drugs;

"(iv) the access to treatment for alcohol and drug abuse; and

"(v) the ability to pay for such treatment.

"(2) ADDITIONAL MINIMUM REQUIREMENTS.—The Secretary may not assign a Treatment Corps member to a geographic area described in subsection (a) unless the Secretary has conducted an evaluation regarding the area and has determined that—

"(A) there is a need and demand in the area for treatment for alcohol or drug abuse;

"(B) public and private entities in the area have made unsuccessful efforts to secure such treatment for the area; and

"(C) there is community support for an assignment of a Treatment Corps member for the area.

"(d) ASSIGNMENT OF MEMBERS OF TREATMENT CORPS.—

"(1) IN GENERAL.—The Secretary may assign a Treatment Corps member only to a public or nonprofit private entity that—

"(A) provides health services or treatment for substance abuse to a geographic area described in subsection (a); and

"(B) enters into an agreement with the Secretary regarding—

"(i) the duration of the assignment to the entity of the Treatment Corps member; and

"(ii) the allocation between the Secretary and the entity of costs relating to the assignment.

"(2) LIMITATION REGARDING LICENSURE BY STATE INVOLVED.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary may not assign a Treatment Corps member to an entity unless the State in which the entity is located has licensed or certified the member to provide treatment for alcohol or drug abuse.

"(B) EXCEPTION.—In the case of a State that does not require that an individual be licensed or certified as a precondition to providing treatment for alcohol and drug abuse, the Secretary may assign a Treatment Corps member to an entity in the State only if the Secretary has certified the member as being qualified to provide such services. In providing such certifications, the Secretary shall consider relevant standards developed by nationally recognized medical-specialty societies.

"(3) EQUITABLE ALLOCATION.—The Secretary shall ensure that the services of the Treatment Corps are equitably allocated among the principal geographic regions of the United States, and that not less than 50 percent of such services are equitably allocated among rural areas of the United States.

"(4) REQUIREMENT OF APPLICATION.—The Secretary may not make an assignment of a Treatment Corps member under paragraph (1) unless an application for the assignment is submitted to the Secretary and the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

"(e) SCHOLARSHIP PROGRAM.—

"(1) IN GENERAL.—With respect to any student described in paragraph (2), the Secretary shall establish a program of entering into contracts with such students under which the students agree to serve in the Treatment Corps on obtaining the educational degree involved in consideration of the Federal Government agreeing, for each school year for which the scholarship is provided—

"(A) to pay on behalf of the student for each such school year—

"(i) tuition for the student; and

"(ii) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the student for each such year; and

"(B) to pay to the student a stipend not in excess of $400 per month for each of the 12 consecutive months beginning with the first month of each such school year.

"(2) ELIGIBLE STUDENTS.—A student referred to in paragraph (1) shall be a full-time student enrolled (or accepted for enrollment) in an accredited educational institution in a course, study, or program leading to a degree regarding service as a provider of treatment regarding alcohol and drug abuse, leading to a degree regarding service as a physician, psychiatrist, clinical psychologist, physicians assistant, nurse, nurse practitioner, psychiatric nurse, marriage therapist, family therapist, or social worker, or leading to a degree from a school of public health.

"(3) APPLICABILITY OF CERTAIN PROVISIONS.—Except to the extent inconsistent with paragraph (1), the provisions of subpart III shall apply to the program established in paragraph (1) to the same extent and in the same manner as such provisions apply to the loan repayment program established in section 338A.

"(f) LOAN REPAYMENT PROGRAM.—

"(1) IN GENERAL.—The Secretary shall establish a program of entering into contracts with individuals described in paragraph (2) under which the individuals agree to serve in such Corps in consideration of the Federal Government agreeing to repay, for each year of service in the Corps, not more than $20,000 of the principal and interest of the educational loans of the individuals.

"(2) ELIGIBLE INDIVIDUALS.—An individual referred to in paragraph (1) shall be an individual who has been licensed or certified for purposes of subsection (b)(2), any individual who is a physician, psychiatrist, clinical psychologist, physicians assistant, nurse, nurse practitioner, psychiatric nurse, marriage therapist, family therapist, social worker, or a graduate of a school of public health, and any individual who is a full-time student enrolled (or accepted for enrollment) in an accredited educational institution in a course, study, or program leading to a degree regarding any of such professions.

"(3) APPLICABILITY OF CERTAIN PROVISIONS.—Except to the extent inconsistent with paragraph (1), the provisions of subpart III shall apply to the program established in paragraph (1) to the same extent and in the same manner as such provisions apply to the loan repayment program established in section 338B.

"(g) DEFINITIONS.—For purposes of this section:

"(1) RURAL AREA.—The term 'rural area' has the meaning given such term in section 1886(d)(2)(D) of the Social Security Act.

"(2) TREATMENT CORPS.—The term 'Treatment Corps' means the National Substance Abuse Treatment Corps established under subsection (a).

"(3) TREATMENT CORPS MEMBER.—The term 'Treatment Corps member' means each of the individuals of which the Treatment Corps consist pursuant to subsection (b).

"(h) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there is authorized to be appropriated $26,000,000 for fiscal year 1991.".

SEC. 3. EFFECTIVE DATE.

The amendments made by this Act shall take effect October 1, 1991, or on the date of the enactment of this Act, whichever occurs later.

AMERICAN ACADEMY OF PEDIATRICS,
*Washington, DC, May 16, 1990.*

Hon. JOHN H. CHAFEE,
*U.S. Senate,*
*Washington, DC.*

DEAR SENATOR CHAFEE: On behalf of the Academy, whose 39,000 members are dedi-

cated to child and adolescent health, I want to convey to you formally our strong support of the new Substance Abuse Treatment Corps Act, which will be introduced presently. This important measure should go a long way toward providing more drug and alcohol abuse treatment personnel to our nation's areas of need, both urban and rural. It also promises to expand access to treatment and counseling for thousands of American children and youth whose needs are urgent and yet unmet.

You are to be commended for your continuing efforts to promote the health of infants, children and adolescents. The Academy looks forward to working with you again, as always, to that end.

Sincerely,

BIRT HARVEY,
*President.*

---

NATIONAL ASSOCIATION OF COMMUNITY HEALTH CENTERS, INC.,
*Washington, DC, April 16, 1990.*

Hon. JOHN CHAFEE,
*U.S. Senate,*
*Washington, DC.*

DEAR SENATOR CHAFEE: The National Association of Community Health Centers is pleased to support the Substance Abuse Treatment Corps Act of 1990, which we understand you will soon introduce. This bill responds directly to the need Community Health Centers have been experiencing for several years now—a lack of capacity for the treatment of substance abuse in the populations they serve.

Even the new targeted federal efforts of the past few years to address the needs of women and children in high-risk areas cannot expand capacity in existing treatment settings fast enough to meet the present crisis in the many families newly threatened by drugs.

While we are aware that facilities, as well as personnel, will be needed to truly augment capacity, and space is already a major problem at many Health Centers, we feel that your efforts give sorely needed leadership in addressing key health care system implications of new epidemics such as substance abuse, and provide a most timely model for general capacity development.

We are concerned—particularly at this time—that more federal resources are desperately needed to sustain the general National Health Service Corps (NHSC) to meet the pressing needs of Community and Migrant Health Centers; we are heartened by your assurances that funding for the new Substance Abuse Treatment Corps will not come at the expense or the NHSC appropriations. Clearly, the needs are so great here that increased overall resources for these efforts are absolutely necessary.

Please let us know what more we can do to help to forward this important legislation.

Sincerely,

DANIEL R. HAWKINS, Jr.,
*Director, Policy Analysis.*

---

AMERICAN PSYCHOLOGICAL ASSOCIATION,
*Washington, DC, May 17, 1990.*

Hon. JOHN CHAFEE,
*U.S. Senate,*
*Washington, DC.*

DEAR SENATOR CHAFEE: The American Psychological Association (APA), the leading scientific and professional assocation representing over 100,000 clinicians, researchers, educators, consultants and students, commends you for your efforts in introducing the Substance Abuse Treatment Corps Act. Psychology plays an integral role in drug abuse treatment, rehabilitation and prevention. Psychologists are currently actively involved in the war against drugs on all levels, but there remains a need to attract more qualified mental health health care professionals to provide services where they are critically needed and often inadequate or unavailable.

The APA supports the concept of the Substance Abuse Treatment Corps Act which will establish a special unit within the National Health Service Corps as a means to encourage qualified professionals, including mental health professionals, to enter the field of substance abuse treatment. Students or professionals making a commitment to work in public/no-profit treatment programs will become eligible for tuition assistance or loan repayment. This program will provide the necessary assistance to enable individuals to work in programs that are often underfunded and understaffed.

Research clearly demonstrates that drug treatment can work so long as those who are providing the treatment have the necessary skills and training and adequate funds are made available to sustain treatment services and aftercare. We believe acknowledging the need to ensure an adequate pool of qualified personnel is a critical component to any serious nation drug control strategy.

We thank you again for your continued efforts and support in the development of policy and programs to fight substance abuse. We look forward to working with you on this proposal to ensure passage of legislation which will substantially enlarge the pool of qualified professionals willing to devote themselves to drug abuse prevention, treatment and rehabilitation.

Sincerely,

BRYANT WELCH, J.D., PH.D.,
*Executive Director*
*for Professional Practice.*

---

NATIONAL ASSOCIATION OF STATE ALCOHOL AND DRUG ABUSE DIRECTORS,
*Washington, DC, April 2, 1990.*

Hon. JOHN CHAFEE,
*U.S. Senate,*
*Washington, DC.*

DEAR SENATOR CHAFEE: I am writing on behalf of the members of the National Association of State Alcohol and Drug Abuse Directors (NASADAD) to express our strong support for your leadership in introducing legislation to address the critical shortage of available alcohol and other drug abuse treatment professionals.

As administrators of the State and Territorial publicly funded alcohol and other drug abuse treatment and prevention system, we know the frustration local treatment programs are experiencing in attracting and keeping qualified professional staff. Unfortunately, low salaries, deplorable physical facilities, more physically sick and dying clients due to AIDS/HIV, and staggering caseloads inhibit our ability to recruit undergraduate and graduate students into the substance abuse field.

Your legislation, which will reimburse educational costs in exchange for service in alcohol and other drug abuse treatment programs, will provide a much needed incentive to attract more professionals. Establishment of a Drug Abuse Treatment Corps will also serve to heighten awareness of the manpower shortages that exist throughout the country and to foster support for an increased pool of dedicated and qualified individuals.

Thank you for your leadership on this issue. If there is any way in which NASADAD can assist you, please contact me or Diane Canova, Director of Public Policy, at (202) 783-6868.

Sincerely,

JOHN S. GUSTAFSON,
*President.*

---

AMERICAN ASSOCIATION FOR MARRIAGE AND FAMILY THERAPY,
*Washington, DC, April 3, 1990.*

Senator JOHN CHAFEE,
*Washington, DC.*

DEAR SENATOR CHAFEE: The American Association for Marriage and Family Therapy (AAMFT) is pleased to offer its support for legislation which you will introduce shortly to add a distinct Drug Abuse Treatment Corps component to the existing National Health Service Corps. You are to be commended for your effort to address the demand side of the substance abuse problem that continues to plague individuals and families in both rural and urban America.

It is my understanding that the addition of a Drug Abuse Treatment Corps is intended to complement the heroic efforts of the National Health Service Corps program by recruiting new personnel to provide substance abuse treatment in both rural and urban communities designated as Health Manpower Shortage Areas. It is not intended to supplant or detract from current or future Corps activities.

On behalf of the 17,000 members of AAMFT, thank you for working to address our nation's critical need for enhanced substance abuse treatment. AAMFT looks forward to working with you to achieve enactment of this important proposal at the earliest possible date.

Sincerely,

MARK R. GINSBERG, PH.D.
*Executive Director.*

---

THERAPEUTIC COMMUNITIES OF AMERICA,
*Washington, DC, April 23, 1990.*

Hon. JOHN CHAFEE,
*U.S. Senate,*
*Washington, DC.*

DEAR SENATOR CHAFEE: On behalf of the Therapeutic Communities of America, an association of residential substance abuse treatment programs with over 300 sites nationwide. I encourage you to support the Substance Abuse Treatment Corps Act of 1990.

As you know, drug abuse is one of our nation's most pressing problems. The continual rise in the number of individuals seeking treatment, (the average waiting list for entrance into a residential treatment program is 3-6 months) combined with the increase in the incidence of poly drug use (which requires more complex treatment methods), support the need for more qualified health care professionals.

The establishment of a Substance Abuse Treatment Corps (SATC) will address this need by recruiting qualified health care professionals, ensure that they are licensed or certified and provide financial assistance to students in specific health professions. Your serious consideration of SATC is greatly appreciated.

Sincerely,

R. DOUGLAS CHIAPPETTA,
*Director, National Office.*●

By Mr. KENNEDY (for himself, Mr. SIMON, and Mr. GORE):

S. 2647. A bill to provide for the admission of the State of New Columbia into the Union; to the Committee on Governmental Affairs.

NEW COLUMBIA ADMISSION ACT

● Mr. KENNEDY. Mr. President, on behalf of Senator SIMON, Senator GORE, and myself, I am introducing legislation to grant statehood to the District of Columbia.

The measure is not new—but it is overdue. Statehood is a matter of simple justice for the 600,000 citizens of the District of Columbia.

No one doubts this will be a difficult uphill struggle—but we are committed to the effort, and today we move it into higher gear.

I continue to be amazed—and appalled—by the hypocrisy of Members of Congress opposing this measure. They honor democracy everywhere else—why not in the capital of their own country?

Members of Congress enthusiastically support democracy for foreign citizens who live 5,000 miles away in Eastern Europe—why not for Americans who live less than 5 miles from here in the eastern market?

Members of Congress staunchly oppose dictators from Nicaragua to Lithuania to Beijing—but they bask in their own role and cling to their own power as dictators of the District.

As we begin this new national campaign for statehood, we hope public opinion around the country will hasten the end of this harsh plantation mentality in Congress. Now is the time to stop the disgraceful double standard that makes the District of Columbia "America's Last Colony."

A new breeze of democracy is sweeping across Europe and many other parts of the world. We believe the time is right to open the eyes of the rest of America to the plight of the District—and to open the windows of the Capitol, so that all Members of Congress can feel the breeze of democracy too.

The people of this city deserve the same fundamental rights that all other Americans enjoy—to elect Members of the Senate and House of Representatives and participate in making the Federal laws by which they are governed.

Denial of statehood condemns citizens of the District to second class status, and makes a mockery of the principle of representative government on which America is founded. Taxation without representation is as wrong in 1990 as it was in 1776.

Making the District of Columbia part of Maryland is no answer. We cannot turn back the clock 200 years and begin anew. Part-way measures and half-hearted initiatives do not satisfy the basic principle of self-determination. The people of the District of Columbia deserve their full rights. That means statehood, nothing less.

No part of the Constitution prohibits its enactment of this legislation. Congress will still keep control of the specifically Federal areas of the District, which is all the Constitution requires. Those areas represent less than 20 percent of the territory of the District; the other 80 percent deserves statehood.

The District of Columbia clearly meets the long-accepted constitutional and historical criteria for admitting States to the Union. It has more people than three States. It provides more Federal tax revenues than eight States. It is clearly committed to the principles of democracy. Its resources and population are clearly sufficient to support statehood. The will of the people has been clearly expressed. Surely, by any fair test, the District is entitled to statehood. It is time to end the longstanding hypocrisy and make the District of Columbia America's 51st State.

Mr. President, I ask unanimous consent that the text of the bill and a section-by-section analysis may be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 2647

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "New Columbia Admission Act".

SEC. 2. ADMISSION INTO THE UNION.

Subject to the provisions of this Act, and upon issuance of the proclamation required by section 7(d)(1) of this Act, the State of New Columbia (hereinafter referred to as "the State") is declared to be a State of the United States of America, is declared admitted into the Union on an equal footing with the other States in all respects whatever, and the constitution adopted by the Council of the District of Columbia in the Constitution for the State of New Columbia Approval Act of 1987 (D.C. Bill 7-154), subject to ratification by a majority of the registered qualified electors of the District of Columbia, is found to be republican in form and in conformity with the Constitution of the United States and the principles of the Declaration of Independence and is accepted, ratified, and confirmed.

SEC. 3. CONSTITUTION.

The constitution of the State of New Columbia shall always be republican in form and shall not be repugnant to the Constitution of the United States and the principles of the Declaration of Independence.

SEC. 4. TERRITORIES AND BOUNDARIES.

(a) Subject to the provisions of this section, the State of New Columbia shall consist of all of the territory, together with the territorial waters, of the District of Columbia. The State of New Columbia shall not include the National Capital Service Area of the District of Columbia, which is described in subsection (b). As of the date of admission of New Columbia into the Union, the District of Columbia shall consist of the National Capital Service Area.

(b) The National Capital Service Area, subject to the provisions of section 16, is comprised of the principal Federal monuments, the White House, the Capitol Building, the United States Supreme Court Building, and the Federal executive, legislative, and judicial office buildings located adjacent to the Mall and the Capitol Building.

(c) Notwithstanding any other provision of this section or of section 16, the boundaries of the State of New Columbia shall include the District Building.

SEC. 5. COMPACT WITH UNITED STATES; CLAIMS TO FEDERAL LANDS AND PROPERTY.

(a) As a compact with the United States, the State and its people disclaim all right and title to any lands or other property not granted or confirmed to the State or its political subdivisions by or under the authority of this Act, the right or title to which is held by the United States or subject to disposition by the United States.

(b)(1) Nothing contained in this Act shall recognize, deny, enlarge, impair, or otherwise affect any claim against the United States, and any such claim shall be governed by applicable laws of the United States.

(2) Nothing in this Act is intended or shall be construed as a finding, interpretation, or construction by the Congress that any applicable law authorizes, establishes, recognizes, or confirms the validity or invalidity of any such claim, and the determination of the applicability or effect of any law to any such claim shall be unaffected by anything in this Act.

(c) No taxes shall be imposed by the State upon any lands or other property now owned or hereafter acquired by the United States.

(d)(1) Subject to paragraph (2), notwithstanding any other provision of law, the annual Federal payment authorized to be appropriated to the District of Columbia pursuant to section 502 of the District of Columbia Self-Government and Governmental Reorganization Act (D.C. Code, sec. 47-3406) shall be authorized to be appropriated to the State of New Columbia.

(2) The Governor shall submit the Governor's request, with respect to the amount of an annual Federal payment, to the Congress not less than seven months before the beginning of a fiscal year for which a request is made. As part of such request, the Governor shall report on the following items:

(A) Services rendered to the Federal Government and the cost to the State of New Columbia for providing such services.

(B) Potential revenues lost because of certain factors brought on by the presence of the Federal Government within the State, including height restrictions on buildings located within the State and revenues not obtainable because of lack of taxable property and business income within the State.

(C) Potential revenues gained because of the presence of the Federal Government within the State.

The Governor shall submit copies of the request to the Congressional Budget Office and to the Office of Management and Budget upon submission of the request to the Congress. Each such office shall report to the Congress, within 30 days after receipt of the copy of the request, concerning the office's analysis of the Federal payment requested and of the items reported by the Governor.

SEC. 6. STATE TITLE TO LANDS AND PROPERTY.

(a) The State of New Columbia and its political subdivisions shall have and retain title or jurisdiction for purposes of administration and maintenance to all property, real and personal, with respect to which title or jurisdiction for purposes of administration and maintenance is held by the territory of the District of Columbia as of the date of the enactment of this Act.

(b) All laws of the United States reserving to the United States the free use or enjoyment of property which vests in or is conveyed to the State of New Columbia or its political subdivisions pursuant to this section or reserving the right to alter, amend, or repeal laws relating thereto shall cease to be effective upon the admission of the State of New Columbia into the Union.

SEC. 7. ELECTIONS.

(a)(1) Not more than sixty days after the date of enactment of this Act, the President of the United States shall certify such enactment to the Mayor of the District of Columbia. Not more than thirty days after such certification the Mayor of the District of Columbia shall issue a proclamation for the elections, subject to the provisions of this Act, for officers of all State elective offices provided for by the constitution of the proposed State of New Columbia and for two Senators and one Representative in Congress.

(2) In the first election of Senators from the State (pursuant to paragraph (1)) the two senatorial offices shall be separately identified and designated, and no person may be a candidate for both offices. No such identification or designation of either of the two senatorial offices shall refer to or be taken to refer to the terms of such offices, or in any way impair the privilege of the Senate to determine the class to which each of the Senators elected shall be assigned.

(b) The proclamation of the Mayor of the District of Columbia required by subsection (a) shall provide for the holding of a primary election and a general election and at such elections the officers required to be elected as provided in subsection (a) shall be chosen by the people. Such elections shall be held, and the qualifications of voters shall be, as prescribed by the constitution of the proposed State of New Columbia for the election of members of the proposed State legislature. Election returns shall be made and certified in such manner as the constitution of the proposed State of New Columbia may prescribe. The Mayor of the District of Columbia shall certify the results of such elections to the President of the United States.

(c)(1) At an election designated by proclamation of the Mayor of the District of Columbia, which may be the primary or the general election held pursuant to subsection (b), a territorial general election, or a special election, there shall be submitted to the electors qualified to vote in such election, for adoption or rejection, the following propositions:

(A) New Columbia shall immediately be admitted into the Union as a State.

(B) The boundaries of the State of New Columbia shall be as prescribed in the New Columbia Admission Act and all claims of the State to any areas of land or sea outside the boundaries so prescribed are hereby irrevocably relinquished to the United States.

(C) All provisions of the New Columbia Admission Act, including provisions reserving rights or powers to the United States and provisions prescribing the terms or conditions of the grants of lands or other property made to the State of New Columbia, are consented to fully by the State and its people.

(2) In the event the propositions under paragraph (1) are adopted in such election by a majority of the legal votes cast on such submission, the proposed constitution of the proposed State of New Columbia, adopted by the Council of the District of Columbia in the Constitution for the State of New Columbia Approval Act of 1987 (D.C. Bill 7-154), shall be deemed amended accordingly.

(3) In the event any one of the propositions under paragraph (1) is not adopted at such election by a majority of the legal votes cast on such submission, the provisions of this Act shall cease to be effective.

(4) The Mayor of the District of Columbia is authorized and directed to take such action as may be necessary or appropriate to ensure the submission of such propositions to the people. The return of the votes cast on such propositions shall be made by the election officers directly to the Board of Elections of the District of Columbia, which shall certify the results of the submission to the Mayor. The Mayor shall certify the results of such submission to the President of the United States.

(d)(1) If the President finds that the propositions set forth in subsection (c)(1) have been duly adopted by the people of New Columbia, the President, upon certification of the returns of the election of the officers required to be elected as provided in subsection (a), shall issue a proclamation announcing the results of such election as so ascertained. Upon the issuance of such proclamation by the President, the State of New Columbia shall be deemed admitted into the Union as provided in section 2 of this Act.

(2) Until the State of New Columbia is admitted into the Union, individuals holding legislative, executive, and judicial offices of the District of Columbia, including the Delegate in Congress from the District of Columbia, shall continue to discharge the duties of their respective offices. Upon the issuance of such proclamation by the President of the United States and the admission of the State of New Columbia into the Union, the officers elected at such election, and qualified under the provisions of the constitution and laws of such State, shall proceed to exercise all the functions pertaining to their offices in, under, or by authority of the government of such State, and offices not required to be elected at such initial election shall be selected or continued in office as provided by the constitution and laws of such State. The Governor of such State shall certify the election of the Senators and Representative in the manner required by law, and the Senators and Representative shall be entitled to be admitted to seats in Congress and to all the rights and privileges of Senators and Representatives of other States in the Congress of the United States.

SEC. 8. HOUSE OF REPRESENTATIVES MEMBERSHIP.

The State of New Columbia upon its admission into the Union shall be entitled to one Representative until the taking effect of the next reapportionment, and such Representative shall be in addition to the membership of the House of Representatives as now prescribed by law, except that such temporary increase in the membership shall not operate to either increase or decrease the permanent membership of the House of Representatives or affect the basis of apportionment for the Congress.

SEC. 9. LAWS IN EFFECT.

Upon admission of the State of New Columbia into the Union, all of the territorial laws then in force in the Territory of the District of Columbia shall be and continue in force and effect throughout the State, except as modified or changed by this Act, or by the Constitution of the State, or as thereafter modified or changed by the legislature of the State. All of the laws of the United States shall have the same force and effect within the State as elsewhere in the United States.

SEC. 10. CONTINUATION OF SUITS.

(a) No writ, action, indictment, cause, or proceeding pending in any court of the District of Columbia or in the United States District Court for the District of Columbia shall abate by reason of the admission of the State of New Columbia into the Union, but shall be transferred and shall proceed within such appropriate State courts as shall be established under the constitution of the State, or shall continue in the United States District Court for the District of Columbia, as the nature of the case may require. And no writ, action, indictment, cause, or proceeding shall abate by reason of any change in the courts, but shall proceed within the State or United States courts according to the laws thereof, respectively. The appropriate State courts shall be the successors of the courts of the District of Columbia as to all cases arising within the limits embraced within the jurisdiction of such courts, respectively, with full power to proceed with such cases, and award mesne or final process therein, and all files, records, indictments, and proceedings relating to any such writ, action, indictment, cause, or proceeding shall be transferred to such appropriate State courts and shall be proceeded with therein in due course of law.

(b) All civil causes of action and all criminal offenses which shall have arisen or been committed prior to the admission of the State, but as to which no writ, action, indictment, or proceeding shall be pending at the date of such admission, shall be subject to prosecution in the appropriate State courts or in the United States District Court for the District of Columbia in like manner, to the same extent, and with like right of appellate review, as if such State had been created and such State courts had been established prior to the accrual of such causes of action or the commission of such offenses. The admission of the State shall effect no change in the substantive or criminal law governing causes of action and criminal offenses which shall have arisen or been committed, and any such criminal offenses as shall have been committed against the laws of the District of Columbia shall be tried and punished by the appropriate courts of the State, and any such criminal offenses as shall have been committed against the laws of the United States shall be tried and punished in the United States District Court for the District of Columbia.

SEC. 11. APPEALS.

Parties shall have the same rights of appeal from and appellate review of final decisions of the United States District Court for the District of Columbia or the District of Columbia Court of Appeals in any case finally decided prior to the admission of the State of New Columbia into the Union, whether or not an appeal therefrom shall have been perfected prior to such admission. The United States Court of Appeals for the District of Columbia Circuit and the Supreme Court of the United States shall

have the same jurisdiction in such cases as by law provided prior to the admission of the State into the Union. Any mandate issued subsequent to the admission of the State shall be to the United States District Court for the District of Columbia or a court of the State, as appropriate. Parties shall have the same rights of appeal from and appellate review of all orders, judgments, and decrees of the United States District Court for the District of Columbia and of the Supreme Court of the State of New Columbia, as successor to the District of Columbia Court of Appeals, in any case pending at the time of admission of the State into the Union, and the United States Court of Appeals for the District of Columbia Circuit and the Supreme Court of the United States shall have the same jurisdiction therein, as by law provided in any case arising subsequent to the admission of the State into the Union.

SEC. 12. JUDICIAL AND CRIMINAL PROVISIONS.

Effective upon the admission of New Columbia into the Union—

(1) Section 41 of title 28, United States Code is amended in the second column by inserting ", New Columbia" after "District of Columbia".

(2) The first paragraph of section 88 of title 28, United States Code, is amended to read as follows:

"The District of Columbia and the State of New Columbia comprise one judicial district.".

SEC. 13. MILITARY LANDS.

(a) Subject to subsection (b) and notwithstanding the admission of the State of New Columbia into the Union, authority is reserved in the United States for the exercise by the Congress of the United States of the power of exclusive legislation, as provided by article I, section 8, clause 17, of the Constitution of the United States, in all cases whatsoever over such tracts or parcels of land as, immediately prior to the admission of the State, are controlled or owned by the United States and held for defense or Coast Guard purposes.

(b)(1) The State of New Columbia shall always have the right to serve civil or criminal process within such tracts or parcels of land in suits or prosecutions for or on account of rights acquired, obligations incurred, or crimes committed within the State but outside of such tracts or parcels of land.

(2) The reservation of authority in the United States for the exercise by the Congress of the United States of the power of exclusive legislation over such lands shall not operate to prevent such lands from being a part of the State of New Columbia, or to prevent the State from exercising over or upon such lands, concurrently with the States, any jurisdiction which it would have in the absence of such reservation of authority and which is consistent with the laws hereafter enacted by the Congress pursuant to such reservation of authority.

(3) The power of exclusive legislation shall vest and remain in the United States only so long as the particular tract or parcel of land involved is controlled or owned by the United States and used for defense or Coast Guard purposes, except that the United States shall continue to have sole and exclusive jurisdiction over such military installations as have been or may be determined to be critical areas as delineated by the President of the United States or the Secretary of Defense.

SEC. 14. UNITED STATES NATIONALITY.

No provision of this Act shall operate to confer United States nationality, to terminate nationality lawfully acquired, or to restore nationality terminated or lost under any law of the United States or under any treaty to which the United States is or was a party.

SEC. 15. RELATIONSHIP TO OTHER LAWS.

No law or regulation which is in force on the effective date of this Act shall be deemed amended or repealed by this Act except to the extent specifically provided herein or to the extent that such law or regulation is inconsistent with this Act.

SEC. 16. NATIONAL CAPITAL SERVICE AREA.

(a) The National Capital Service Area referred to in section 4 is more particularly described as follows:

Beginning at the point on the present Virginia-District of Columbia boundary due west of the northernmost point of Theodore Roosevelt Island and running due east of the eastern shore of the Potomac River;

thence generally south along the shore at the mean high water mark to the northwest corner of the Kennedy Center;

thence east along the north side of the Kennedy Center to a point where it reaches the E Street Expressway;

thence east on the expressway to E Street Northwest and thence east on E Street Northwest to Eighteenth Street Northwest;

thence south on Eighteenth Street Northwest to Constitution Avenue Northwest;

thence east on Constitution Avenue to Seventeenth Street Northwest;

thence north on Seventeenth Street Northwest to Pennsylvania Avenue Northwest;

thence east on Pennsylvania Avenue to Jackson Place Northwest;

thence north on Jackson Place to H Street Northwest;

thence east on H Street Northwest to Madison Place Northwest;

thence south on Madison Place Northwest to Pennsylvania Avenue Northwest;

thence east on Pennsylvania Avenue Northwest to Fifteenth Street Northwest;

thence south on Fifteenth Street Northwest to Pennsylvania Avenue Northwest;

thence southeast on Pennsylvania Avenue Northwest to John Marshall Place Northwest;

thence north on John Marshall Place Northwest to C Street Northwest;

thence east on C Street Northwest to Third Street Northwest;

thence north on Third Street Northwest to D Street Northwest;

thence east on D Street Northwest to Second Street Northwest;

thence south on Second Street Northwest to the intersection of Constitution Avenue Northwest and Louisiana Avenue Northwest;

thence northeast on Louisiana Avenue Northwest to North Capitol Street;

thence north on North Capitol Street to Massachusetts Avenue Northwest;

thence southeast on Massachusetts Avenue Northwest so as to encompass Union Square;

thence following Union Square to F Street Northeast;

thence east on F Street Northeast to Second Street Northeast;

thence south on Second Street Northeast to D Street Northeast;

thence west on D Street Northeast to First Street Northeast;

thence south on First Street Northeast to Maryland Avenue Northeast;

thence generally north and east on Maryland Avenue to Second Street Northeast;

thence south on Second Street Northeast to C Street Southeast;

thence west on C Street Southeast to New Jersey Avenue Southeast;

thence south on New Jersey Avenue Southeast to D Street Southeast;

thence west on D Street Southeast to Canal Street Parkway;

thence southeast on Canal Street Parkway to E Street Southeast;

thence west on E Street Southeast to the intersection of Canal Street Southwest and South Capital Street;

thence northwest on Canal Street Southwest to Second Street Southwest;

thence south on Second Street Southwest to Virginia Avenue Southwest;

thence generally west on Virginia Avenue to Third Street Southwest;

thence north on Third Street Southwest to C Street Southwest;

thence west on C Street Southwest to Sixth Street Southwest;

thence north on Sixth Street Southwest to Independence Avenue;

thence west on Independence Avenue to Twelfth Street Southwest;

thence south on Twelfth Street Southwest to D Street Southwest;

thence west on D Street Southwest to Fourteenth Street Southwest;

thence south on Fourteenth Street Southwest to the middle of the Washington Channel;

thence generally south and east along the midchannel of the Washington Channel to a point due west of the northern boundary line of Fort Lesley McNair;

thence due east to the side of the Washington Channel;

thence following generally south and east along the side of the Washington Channel at the mean high water mark, to the point of confluence with the Anacostia River, and along the northern shore at the mean high water mark to the northernmost point of the Eleventh Street Bridge;

thence generally south and west along such shore at the mean high water mark to the point of confluence of the Anacostia and Potomac Rivers;

thence generally south and east along the northern side of the Eleventh Street Bridge to the eastern shore of the Anacostia River;

thence generally south along the eastern shore at the mean high water mark of the Potomac River to the point where it meets the present southeastern boundary line of the District of Columbia;

thence south and west along such southeastern boundary line to the point where it meets the present Virginia-District of Columbia boundary;

thence generally north and west up the Potomac River along the Virginia-District of Columbia boundary to the point of beginning.

(b) Where the area in subsection (a) is bounded by any street, such street, and any sidewalk thereof, shall be included within such area.

(c)(1) Any Federal real property affronting or abutting, as of the date of the enactment of this Act, the area described in subsection (a) shall be deemed to be within such area.

(2) For the purposes of paragraph (1) Federal real property affronting or abutting such area described in subsection (a) shall—

(A) be deemed to include, but not limited to, Fort Lesley McNair, the Washington Navy Yard, the Anacostia Naval Annex, the United States Naval Station, Bolling Air

Force Base, and the Naval Research Laboratory; and

(B) not be construed to include any area situated outside of the District of Columbia boundary as it existed immediately prior to the date of the enactment of this Act, nor be construed to include any portion of the Anacostia Park situated east of the northern side of the Eleventh Street Bridge, or any portion of the Rock Creek Park.

SEC. 17. STATEHOOD TRANSITION COMMISSION.

(a) There is established a Statehood Transition Commission.

(b) The Commission shall be composed of thirteen members appointed as follows:

(1) three shall be appointed by the President;

(2) two shall be appointed by the Speaker of the House;

(3) two shall be appointed by the President of the Senate;

(4) three shall be appointed by the Mayor of the District of Columbia; and

(5) three shall be appointed by the Council of the District of Columbia.

(c) The Commission shall advise the President, the Congress, the Mayor, the Council, and the Governor and House of Delegates for the State of New Columbia, as appropriate, concerning necessary procedures to effect an orderly transition to statehood for the District of Columbia. The Commission shall submit such reports as the Commission considers appropriate or as may be requested.

(d) The Commission shall cease to exist 180 days after the date of the admission into the Union of the State of New Columbia.

---

SECTION BY SECTION OUTLINE

A Bill to provide for the admission of the State of New Columbia into the Union.

Section 1. Short Title.—"New Columbia Admission Act."

Section 2.—Sets forth declaration that the State of New Columbia is a State of the United States and is admitted into the Union on an equal basis with all other States.

The declaration is conditioned upon the President of the United States issuing a proclamation (provided for in Section 7(d)(1) of this Act) finding that the voters in the District of Columbia have adopted the following propositions (found in Section 7(c)(1) of this Act):

(A) That New Columbia shall be admitted into the Union.

(B) That the Boundaries as described in this Act shall be the boundaries of the State of New Columbia.

(C) That the provisions of this Act are fully consented to by the people of New Columbia.

Section 3.—Provides that the Constitution of New Columbia shall always be Republican in form and not repugnant to the Constitution of the United States.

Section 4.—Establishes the boundaries of New Columbia as consisting of the territory and waters of the District of Columbia, including the District Building, but excluding the National Capital Service Area (the National Capital Service Area is described in Section 16).

Section 5.—Provides that New Columbia surrenders all right and title to lands not granted to the State and preserves existing claims against the United States. Further provides that New Columbia may not impose taxes on property of the United States and preserves the annual federal payment to the State as established in Section 502 of the District of Columbia Self-Government and Governmental Reorganization Act (Public Law 93-198).

Section 6.—Provides for the retention of all right and title by New Columbia of all property within the boundaries of New Columbia and not set aside for use of the United States. Property set aside for use by the United States, except that five years after the date of admission of New Columbia each Federal agency having control over property retained by the United States must determine if it is needed, and if it is not needed, it shall be conveyed to New Columbia.

Section 7.—Establishes the election procedures for all State elective offices and for two Senators and one Representative in Congress. Not more than sixty days after enactment of this Act, the President must certify its enactment to the Mayor and not more than thirty days after the President's certification, the Mayor must issue a proclamation for the elections.

The Mayor's proclamation shall provide for both a primary and general election. The two senatorial offices must be separately identified so that no person may be a candidate for both. The Constitution of New Columbia will govern the elections.

The Mayor must also issue a proclamation (which may be a part of the proclamation for elections) submitting to the voters for adoption or rejection, certain propositions (detailed in Section 2 of this Outline). If the propositions are adopted, the Constitution of New Columbia will be deemed amended accordingly. If the propositions are rejected, this Act is no longer effective.

Until New Columbia is admitted into the Union, officials of the District of Columbia will retain their authority. Once admitted, non-elected officials will continue to function under the government of New Columbia.

The Governor of New Columbia certifies the election of Senators and the Representative, and these officials will serve in the Congress on the same basis as Senators and Representatives from the other states.

Section 8.—Provides for the election of one member of the United States House of Representatives from New Columbia until the next reapportionment and increases the membership in the House by one on an interim basis.

Section 9.—All laws of the District of Columbia will remain in effect upon admission of New Columbia into the Union, unless modified by this Act or the Constitution of New Columbia. All laws of the United States will be of the same force and effect as in any other State.

Section 10.—All civil suits and criminal prosecutions and all civil causes of action and criminal offenses pending in the District of Columbia at the time of admission shall continue in effect and be transferred to New Columbia. Substantive law, criminal and civil, in effect at the time of admission shall remain in effect.

Section 11.—Appellate rights, civil and criminal, are preserved and transferred to New Columbia.

Section 12.—Upon the admission of New Columbia into the Union, New Columbia will join the District of Columbia as part of the District of Columbia Circuit for the United States Courts of Appeal.

The District of Columbia and the State of New Columbia will constitute one judicial District.

Section 13.—Property owned or controlled by the United States immediately prior to the admission of New Columbia shall remain under the exclusive legislative authority of the Congress upon admission. New Columbia however shall retain the right to serve criminal or civil process within such property, and such property may be transferred to New Columbia. Even if such property is transferred, military installations within such property shall remain under the exclusive legislative authority of Congress.

Section 14.—U.S. Nationality is unaffected by this Act.

Section 15.—All acts in conflict with this Act are repealed.

Section 16.—Outlines the boundaries of the National Capital Service Area (identical to boundaries of the National Capital Service Area found at Section 739(f)(1) of the D.C. Self Government and Governmental Reorganization Act, P.L. 93-198).●

● Mr. SIMON. Mr. President, I am pleased today to join my colleague Senator KENNEDY as I did in 1987 during the 100th Congress to reintroduce legislation to admit the State of New Columbia into the Union. The residents of the District of Columbia have voted on and duly presented their application for statehood to Congress. I believe the Congress should debate and, ultimately, honor the request for admission.

I have supported national representation for residents of the District of Columbia since I was a House Member in the 1970's. It is simply unfair, unseemly, and illogical for D.C. residents to be the hosts of Congress and yet have no voting representation in either the House or the Senate.

SELF DETERMINATION: AN AMERICAN RIGHT

As Americans, we take for granted our right to contribute to national policy and have representation in government. But those living in the District of Columbia have been without some basic constitutional rights from the outset. Those who move from Illinois or another State to Washington, DC, lose those rights they once enjoyed. They lose the right to voting representation in Congress as well as some measure of control over local schools and government. This situation is discriminatory, yet it is correctable.

Our bill responds to the petition for statehood approved by the residents of the District of Columbia. It grants equal rights to the two-thirds of a million Americans who live in the District of Columbia. It gives them the right to do what other Americans have the right to do—elect two U.S. Senators and a voting Member of the U.S. House of Representatives. The bill further removes congressional control over many local activities of the District government and puts that power in the hands of local residents, where it belongs.

There are those who say that statehood for the District of Columbia requires an amendment to the Constitution rather than action by Congress on

a statute. As chairman of the Senate Constitution Subcommittee, I have considered that argument and am convinced that a constitutional amendment is not required.

Article I, section 8, clause 17 of the U.S. Constitution provides for a district of not more than 100 square miles, outside of the boundaries of any State, to serve as the Nation's Capital. At present, the District measures 68.25 square miles. The Constitution specifies no minimum area. A bill that grants statehood to much of the District while leaving a federal enclave to serve as a capital under the control of Congress would meet the requirements of article I. Our bill does that.

ILLINOIS' LEGACY OF LEADERSHIP

For the hundreds of thousands of people who are District residents, statehood is a long time in coming. I am proud of the legacy of leadership my State has offered on behalf of representation for the District's residents. I believe the citizens of the District of Columbia will always be grateful for our State's leadership. Illinoisans have historically spoken out in favor of national representation for the District of Columbia. In the 75th Congress, Senator Lewis of my State introduced legislation to grant DC voting representation in the House, the Senate, and the Electoral College. Chauncey Reed, a Republican from DuPage County who was chairman of the House Judiciary Committee in the 83d Congress, also joined the campaign for national representation for the District of Columbia.

Today, the residents of the District of Columbia outnumber the residents of five States—Wyoming, Alaska, Vermont, Delaware, and North Dakota. They pay more in Federal taxes than those same States as well as three others—Idaho, Montana, and South Dakota, yet they have no voice when Congress votes on these taxes. When President Monroe signed the proclamation to make Illinois the 21st State in 1818, our Illinois population was just 55,211, less than 10 percent of today's District population.

U.S. citizens in the District of Columbia serve in the military and have been subject to the draft. However, they cannot vote for those in Congress who set our defense, foreign, and military policies. Can we just sit back and continue to accept this inequity within our country? I believe we cannot.

THE WINDS OF DEMOCRATIC CHANGE

We have welcomed the Democratic change sweeping Eastern Europe. It is ironic that the residents of Warsaw, Prague, and the other East European capitals all will have voices in their new legislatures, while the citizens of our Capital still do not.

Honoring the District of Columbia's petition for statehood will once and for all end that inequity for these citizens of the United States of America. It is time for their status to evolve to full statehood.●

---

By Mr. BIDEN (for himself and Mr. THURMOND):

S. 2648. A bill to amend title 28, United States Code, to provide for civil justice expense and delay reduction plans, authorize additional judicial positions for the courts of appeals and district courts of the United States, and for other purposes; to the Committee on the Judiciary.

JUDICIAL IMPROVEMENTS ACT

Mr. BIDEN. Mr. President, I rise today, joined by my very good friend and the distinguished ranking member of the Judiciary Committee, Senator THURMOND, to introduce legislation that will go a long way, in my view, toward improving the delivery of justice in our Nation's courts.

And the sad truth of the matter, Mr. President, is that we do in fact have a long way to go. Our courts are suffering today under the scourge of two related and worsening plagues.

First, costs and delays in civil litigation have gotten so excessive that the middle class has nearly been priced out, if you will, of the civil litigation market.

Access the courts, once available to everyone, has become for middle-class Americans a luxury that only others can afford.

Second, the increasing number and complexity of drug cases threaten to bring many trial courts to a standstill. In some areas, there aren't enough judges to hear all the drug cases. In other areas, the drug cases are being heard, but there aren't any judges left to hear the civil cases.

A sampling of the many available statistics shows: Since 1980, drug-related criminal cases have increased by 229 percent, compared with a 56-percent increase in criminal case filings generally and a 42-percent increase in overall Federal case filings; and the number of drug cases has increased more than 15 percent in 1988 and 1989.

Put simply, in many areas, our courts resemble the Los Angeles Freeway at 5 o'clock on a Friday afternoon—gridlock, with not enough judges to handle the cases.

The legislation that I am introducing today attacks these two related problems straight up and head on.

Title 1 is the civil justice legislation that Senator THURMOND, myself, and others introduced in January, revised after extensive consultation, discussion and negotiation with the Judicial Conference of the United States and many individual judges across the country.

Title 2 would create 77 new Federal district court and circuit court judgeships. As I said as far back as last October, I believe a comprehensive judgeships bill is necessary to ensure that high-intensity drug areas receive the judges that are necessary to hear the increasing volume of drug cases. Title 2 of this legislation accomplishes that objective.

The civil justice title of this legislation reflects a number of changes we have made in the original bill. I believe that these changes make a good bill even better. Briefly, let me highlight three of the principal changes we've made:

First, while we have retained the fundamental principle that the courts need to distinguish between simple cases that need little or no judicial intervention and complex cases that need intense and well-focused judicial management, we have determined that one way of applying that principle—case tracking—ought to be tested in a few districts before it is implemented nationwide.

Second, in response to testimony at the Judiciary Committee's first hearing on the original bill and based on additional information we've recently analyzed, we have decided to restore the full role of magistrates in the pretrial process.

Third, when it comes to that the district courts are required to do under this legislation, we've given the districts more flexibility than they would have had under the original bill. We've set out what we want them to do in terms of core principles and guidelines, rather than more specific requirements.

In a nutshell, these are some of the principal changes we've made in response to questions and concerns that were raised about the original legislation. In my view, these changes improve the bill while maintaining our commitment to comprehensive civil justice reform.

Importantly, the revised civil justice legislation retains and reaffirms our commitment to reform from the bottom up: Each district court must still establish its own civil justice expense and delay reduction plan; and each court must do so after considering the recommendations of an expert advisory group that is to be convened in each district.

Calling for districtwide input is the best way, in my view, to ensure districtwide solidarity for improving the civil justice system.

I want to commend Judge Robert Peckham for his invaluable assistance in developing the changes reflected in title 1 of this legislation. As chairman of the Judicial Conference's task force created to work specifically with us on this bill, Judge Peckham has demonstrated the wisdom, foresight, and ingenuity that has made him one of the most respected judges in the country and a leader in civil justice reform.

Title 2 of this legislation would create 77 new Federal judgeships. It

has been crafted to ensure that high intensity drug areas get the resources they so desperately need to hear the cases, preside over the trials, and sentence those who are convicted.

As many of my colleagues know, when it comes to judgeships, the Judicial Conference formulates a series of recommendations about where new judgeships should go. Together with Senator THURMOND, I have studied these recommendations very carefully during the past several months.

We have taken the recommendations seriously, as the Judiciary Committee has always done. But in the end, in this Senator's view, the Judicial Conference's recommendations are just that—recommendations—nothing more, nothing less.

We have, therefore, made changes in what the Judicial Conference has recommended. We have made these changes to make sure that the top 20 districts in terms of drug caseloads get an additional judgeship.

Under the legislation I'm introducing today, places such as Miami, San Diego, Tallahassee, Spokane, WA, Portland, ME, and Charleston, WV, will receive a new judge.

These and other areas are each getting a new judge because under the drug criteria we've developed, each is clearly suffering under the weight of heavy drug caseloads. And each would not receive a judgeship if we followed the Judicial Conference's official recommendations.

Quite simply, these changes had to be made if we were to fulfill the responsibility I believe we have to ensure that areas with heavy drug caseloads have the judges they need to hear the cases.

Between the judges I've added and the judges officially recommended by the Judicial Conference, the 20 district courts hardest hit by drug cases will each be getting at least one judge.

Mr. President, while it's not yet in this bill, I expect that—with the able assistance of Senator HEFLIN and Senator GRASSLEY—we will be adding a third title. This would include a package of noncontroversial recommendations of the Federal Courts Study Committee.

I have indicated to Senators HEFLIN and GRASSLEY—who were the Senate's Members on the Federal Courts Study Committee—that when these noncontroversial recommendations are finalized, we will be happy to add them to the bill we're introducing today, should that be their desire.

Mr. President, the legislation that Senator THURMOND and I are introducing today strikes at the crisis that's putting a stranglehold on our courts.

It is aimed at making the civil justice system more accessible, more prompt in the resolution of disputes, and less expensive. We've go to restore the confidence that middle class Americans have lost in the ability of the civil justice system to provide a fair forum—a forum they can call upon without having, quite frankly, to hock their savings to do so.

The legislation is also aimed at the drug crisis. By creating 77 new judgeships and concentrating on areas hardest hit by drugs, we will help ensure that drug cases are heard, trials are conducted, and convicted defendants are sentenced.

The Judiciary Committee will hold a hearing on this legislation on Tuesday, June 12. We will then seek to move the legislation out of committee as soon as possible.

We have problems—serious problems, Mr. President—in our courts and in their ability to deliver justice in a fair, timely, and inexpensive manner. The time to act to address these problems is upon us. I urge my colleagues to support this legislation when it comes to the floor.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2648

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Judicial Improvements Act of 1990".

TITLE I—CIVIL JUSTICE EXPENSE AND DELAY REDUCTION PLANS

SEC. 101. SHORT TITLE.

This title may be cited as the "Civil Justice Reform Act of 1990".

SEC. 102. FINDINGS.

The Congress finds that:

(1) The problems of cost and delay in civil litigation in any United States district court must be addressed in the context of the full range of demands made on the district court's resources by both civil and criminal matters.

(2) The court, the litigants, and the litigants' attorneys share responsibility for cost and delay in civil litigation and its impact on access to the courts and the ability of the civil justice system to provide proper and timely judicial relief for aggrieved parties.

(3) The solutions to problems of cost and delay must include significant contributions by the court, the litigants, and the litigants' attorneys.

(4) In identifying, developing, and implementing solutions to problems of cost and delay in civil litigation, it is necessary to achieve a method of consultation so that individual judicial officers, litigants, and litigants' attorneys who have developed techniques for litigation management and cost and delay reduction can effectively and promptly communicate those techniques to all participants in the civil justice system.

(5) Evidence suggests that an effective litigation management and cost and delay reduction program should incorporate several interrelated principles, including—

(A) the differential treatment of cases that provides for individualized and specific management according to their needs and probable litigation careers;

(B) early involvement of a judicial officer in planning the progress of a case, controlling the discovery process, and scheduling litigation events;

(C) regular communication between a judicial officer and attorneys during the pretrial process; and

(D) utilization of alternative dispute resolution programs in appropriate cases.

(6) Because the increasing volume and complexity of civil and criminal cases imposes increasingly heavy workload burdens on judicial officers, clerks of court, and other court personnel, it is necessary to create an effective administrative structure to ensure ongoing consultation and communication regarding effective litigation management and cost and delay reduction principles and techniques.

SEC. 103. AMENDMENTS TO TITLE 28, UNITED STATES CODE.

(a) CIVIL JUSTICE EXPENSE AND DELAY REDUCTION PLANS.—Title 28, United States Code, is amended by inserting after chapter 21 the following new chapter:

"CHAPTER 23—CIVIL JUSTICE EXPENSE AND DELAY REDUCTION PLANS

"Sec.
"471. Requirement for a district court civil justice expense and delay reduction plan.
"472. Development and implementation of a civil justice expense and delay reduction plan.
"473. Content of civil justice expense and delay reduction plans.
"474. Review of district court action.
"475. Periodic district court assessment.
"476. Model civil justice expense and delay reduction plan.
"477. Advisory groups.
"478. Information on litigation management and cost and delay reduction.
"479. Training programs.
"480. Automated case disposition information.
"481. Definitions.

"§ 471. Requirement for a district court civil justice expense and delay reduction plan

"There shall be implemented by each United States district court, in accordance with this title, a civil justice expense and delay reduction plan. The plan may be a plan developed by such district court or a model plan developed by the Judicial Conference of the United States. The purposes of each plan are to facilitate deliberate adjudication of civil cases on the merits, monitor discovery, improve litigation management, and ensure just, speedy, and inexpensive resolutions of civil disputes.

"§ 472. Development and implementation of a civil justice expense and delay reduction plan

"(a) The civil justice expense and delay reduction plan implemented by a district court shall be developed or selected, as the case may be, after consideration of the recommendations of an advisory group appointed in accordance with section 477 of this title.

"(b) The advisory group of a United States district court shall submit to the court a report, which shall be made available to the public and which shall include—

"(1) an assessment of the matters referred to in subsection (c)(1);

"(2) the basis for its recommendation that the district court develop a plan or select a model plan;

"(3) recommended measures, rules and programs; and

"(4) an explanation of the manner in which the recommended plan complies with section 473 of this title.

"(c)(1) In developing its recommendations, the advisory group of a district court shall promptly complete a thorough assessment of the state of the court's civil and criminal dockets. In performing the assessment for a district court, the advisory group shall—

"(A) determine the condition of the civil and criminal dockets;

"(B) identify trends in case filings and in the demands being placed on the court's resources; and

"(C) identify the principal causes of cost and delay in civil litigation, giving consideration to such potential causes as court procedures and the ways in which litigants and their attorneys approach and conduct litigation.

"(2) In developing its recommendations, the advisory group of a district court shall take into account the particular needs and circumstances of the district court, litigants in such court, and the litigants' attorneys.

"(3) The advisory group of a district court shall ensure that its recommended actions include significant contributions to be made by the court, the litigants and the litigants' attorneys toward reducing cost and delay and thereby facilitating access to the courts.

"(d) The chief judge of the district court shall transmit a copy of the plan implemented in accordance with subsection (a) and the report prepared in accordance with subsection (b) of this section to—

"(1) the Director of the Administrative Office of the United States Courts;

"(2) the judicial council of the circuit in which the district court is located; and

"(3) the chief judge of each of the other United States district courts located in such circuit.

**"§ 473. Content of civil justice expense and delay reduction plans**

"(a) A civil justice expense and delay reduction plan developed and implemented under this chapter shall include provisions applying the following principles and guidelines of litigation management and cost and delay reduction:

"(1) systematic, differential treatment of civil cases that tailors the level of individualized and case specific management to such criteria as case complexity, the amount of time reasonably needed to prepare the case for trial, and the judicial and other resources required for the preparation and disposition of the case;

"(2) early and ongoing control of the pretrial process through involvement of a judicial officer in—

"(A) assessing and planning the progress of a case;

"(B) setting early, firm trial dates, such that the trial is scheduled to occur within eighteen months of the filing of the complaint, unless a judicial officer certifies that the trial cannot reasonably be held within such time because of the complexity of the case or the number or complexity of pending criminal cases;

"(C) controlling the extent of discovery and the time for completion of discovery, and ensuring compliance with requested discovery in a timely fashion; and

"(D) setting deadlines for the filing of motions and target dates for the deciding of motions;

"(3) for all cases that the court or an individual judicial officer determines are complex and any other appropriate cases, careful and deliberate monitoring through a discovery-case management conference or a series of such conferences at which the presiding judicial officer—

"(A) explores the parties' receptivity to, and the propriety of, settlement or proceeding with the litigation;

"(B) identifies or formulates the principal issues in contention and, in appropriate cases, provides for the staged resolution or bifurcation of issues for trial consistent with Rule 42(b) of the Federal Rules of Civil Procedure;

"(C) prepares a discovery schedule and plan consistent with any presumptive time limits that a district court may set for the completion of discovery and with any procedures a district court may develop to—

"(i) identify and limit the volume of discovery available to avoid unnecessary or unduly burdensome or expensive discovery; and

"(ii) phase discovery into two or more stages; and

"(D) establishes deadlines for filing motions and target dates for deciding motions;

"(4) encouragement of cost-effective discovery through voluntary exchange of information among litigants and their attorneys and through the use of cooperative discovery devices;

"(5) conservation of judicial resources by prohibiting the consideration of discovery motions unless accompanied by a statement that the moving party has made a reasonable and good faith effort to reach agreement with opposing counsel on the matters set forth in the motion;

"(6) authorization to refer appropriate cases to alternative dispute resolution programs that—

"(A) have been designated for use in a district court; or

"(B) the court may make available, including mediation, minitrial, and summary jury trial; and

"(7) enhancement of the accountability of each judicial officer in a district court through semiannual reports, available to the public, that disclose for each judicial officer the number of motions that have been pending for more than six months, the number of bench trials that have been submitted for more than six months, and the number of cases that have not been terminated within three years of filing.

"(b) In formulating the provisions of its civil justice expense and delay reduction plan, each United States district court, in consultation with an advisory group appointed under section 477 of this title, shall consider adopting the following litigation management and cost and delay reduction techniques:

"(1) a requirement that counsel for each party to a case jointly present a discovery-case management plan for the case at the initial pretrial conference, or explain the reasons for their failure to do so;

"(2) a requirement that each party be represented at each pretrial conference by an attorney who has the authority to bind that party regarding all matters previously identified by the court for discussion at the conference and all reasonably related matters;

"(3) a requirement that all requests for extensions of deadlines for completion of discovery or for postponement of the trial be signed by the attorney and the party making the request;

"(4) a neutral evaluation program for the presentation of the legal and factual bases of a case to a neutral court representative at a nonbinding conference conducted early in the litigation;

"(5) a requirement that, upon notice by the court, representatives of the parties with authority to bind them in settlement discussions be present or available by telephone during any settlement conference; and

"(6) such other features as the district court considers appropriate after considering the recommendations of the advisory group referred to in section 472(a) of this title.

**"§ 474. Review of district court action**

"(a)(1) The chief judge of a circuit court and the chief judges of each district court in a circuit shall, as a committee—

"(A) review each plan and report submitted pursuant to section 472(d) of this title; and

"(B) make such suggestions for additional actions or modified actions of that district court as the committee considers appropriate for reducing cost and delay in civil litigation in the district court.

"(2) The chief judge of a circuit court and the chief judge of a district court may designate another judge of such court to perform the chief judge's responsibilities under paragraph (1) of this subsection.

"(b) The Judicial Conference of the United States—

"(1) shall review each plan and report submitted by a district court pursuant to section 472(d) of this title; and

"(2) may request the district court to take additional action if the Judicial Conference determines that such court has not adequately responded to the conditions relevant to the civil and criminal dockets of the court or to the recommendations of the district court's advisory group.

**"§ 475. Periodic district court assessment**

"After developing or selecting a civil justice expense and delay reduction plan, each United States district court shall assess, at least once every two years, the condition of the court's civil and criminal dockets with a view to determining appropriate additional actions that may be taken by the court to reduce cost and delay in civil litigation and to improve the litigation management practices of the court. In performing such assessment, the court shall consult with an advisory group appointed in accordance with section 477 of this title.

**"§ 476. Model civil justice expense and delay reduction plan**

"(a)(1) Based on the plans developed and implemented by the United States district courts designated as Early Implementation District Courts pursuant to section 103(c) of the Civil Justice Reform Act of 1990, the Judicial Conference of the United States may develop one or more model civil justice and expense delay reduction plans. Any such model plan shall be accompanied by a report explaining the manner in which the plan complies with section 473 of this title.

"(2) The Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts may make recommendations to the Judicial Conference regarding the development of any model civil justice expense and delay reduction plan.

"(b) The Director of the Administrative Office of the United States Courts shall transmit to the United States district courts and to the Committees on the Judiciary of the Senate and the House of Representatives copies of any model plan and accompanying report.

**"§ 477. Advisory groups**

"(a) Within ninety days after the date of enactment of this chapter, the advisory

group required in each United States district court in accordance with section 472 of this title shall be appointed by the chief judge of each district court, after consultation with the other judges of such court.

"(b) The advisory group of a district court shall be balanced and include attorneys and other persons who are representative of major categories of litigants in such court, as determined by the chief judge of such court.

"(c) In no event shall any member of the advisory group serve longer than four years.

"(d) The chief judge of a United States district court shall designate a reporter for each advisory group, who may be compensated in accordance with guidelines established by the Judicial Conference of the United States.

**"§ 478. Information on litigation management and cost and delay reduction**

"(a) Within four years after the date of the enactment of this chapter, the Judicial Conference of the United States Courts shall prepare a comprehensive report on all plans received pursuant to section 472(d) of this title. The Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts may make recommendations regarding such report.

"(b) The Judicial Conference of the United States shall, on a continuing basis—

"(1) study ways to improve litigation management and dispute resolution services in the district courts; and

"(2) make recommendations to the district courts on ways to improve such services.

"(c)(1) The Judicial Conference of the United States shall prepare, periodically revise, and transmit to the United States district courts a Manual for Litigation Management and Cost and Delay Reduction. The Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts may make recommendations regarding the preparation of and any subsequent revisions to the Manual.

"(2) The Manual shall be developed after careful evaluation of the plans implemented under section 472 of this title and the litigation management and cost and delay reduction demonstration programs that the Judicial Conference shall conduct under this title.

"(3) The Manual shall contain a description and analysis of the litigation management, cost and delay reduction principles and techniques, and alternative dispute resolution programs considered most effective by the Judicial Conference, the Director of the Federal Judicial Center, and the Director of the Administrative Office of the United States Courts.

**"§ 479. Training programs**

"The Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts shall develop and conduct comprehensive education and training programs to ensure that all judicial officers, clerks of court, courtroom deputies and other appropriate court personnel are thoroughly familiar with the most recent available information and analyses about litigation management and other techniques for reducing cost and expediting the resolution of civil litigation. The curriculum of such training programs shall be periodically revised to reflect such information and analyses.

**"§ 480. Automated case disposition information**

"(a) The Director of the Administrative Office of the United States Courts shall ensure that each United States district court has the automated capability readily to retrieve information about the status of each case in such court.

"(b)(1) In carrying out subsection (a), the Director shall prescribe—

"(A) the information to be recorded in district court automated systems; and

"(B) standards for uniform categorization or characterization of judicial actions for the purpose of recording information on judicial actions in the district court automated systems.

"(2) The uniform standards prescribed under paragraph (1)(B) of this subsection shall include a definition of what constitutes a dismissal of a case and standards for measuring the period for which a motion has been pending.

"(c) Each United States district court shall record information as prescribed pursuant to subsection (b) of this section.

**"§ 481. Definitions**

"As used in this chapter the term 'judicial officer' means a United States district court judge or a United States magistrate.".

(b) IMPLEMENTATION.—(1) Within three years after the date of the enactment of this title, each United States district court shall implement a civil justice expense and delay reduction plan under section 471 of title 28, United States Code, as added by subsection (a).

(2) The requirements set forth in sections 471 through 477 of title 28, United States Code, as added by subsection (a), shall remain in effect for seven years after the date of the enactment of this title.

(c) EARLY IMPLEMENTATION DISTRICT COURTS.—

(1) Any United States district court that, no earlier than six months and no later than twelve months after the date of the enactment of this title, develops and implements a civil justice expense and delay reduction plan under chapter 23 of title 28, United States Code, as added by subsection (a), shall be designated by the Judicial Conference of the United States as an Early Implementation District Court.

(2) The chief judge of a district so designated may apply to the Judicial Conference for additional resources, including technological and personnel support and information systems, necessary to implement its civil justice expense and delay reduction plan. The Judicial Conference may, in its discretion, provide such resources out of funds appropriated pursuant to section 105(a).

(3) Within eighteen months after the date of the enactment of this title, the Judicial Conference shall prepare a report on the plans developed and implemented by the Early Implementation District Courts.

(4) The Director of the Administrative Office of the United States Courts shall transmit to the United States district courts and to the Committees on the Judiciary of the Senate and House of Representatives—

(A) copies of the plans developed and implemented by the Early Implementation District Courts;

(B) the reports submitted by such districts pursuant to section 472(d) of title 28, United States Code, as added by subsection (a); and

(C) the report prepared in accordance with paragraph (3) of this subsection.

(d) TECHNICAL AND CONFORMING AMENDMENT.—The table of chapters for part I of title 28, United States Code, is amended by adding at the end thereof:

"23. Civil justice expense and delay reduction plans ..... 471".

SEC. 104. DEMONSTRATION PROGRAM.

(a) IN GENERAL.—(1) During the four-year period beginning on January 1, 1991, the Judicial Conference of the United States shall conduct a demonstration program in accordance with subsection (b).

(2) A district court participating in the demonstration program may also be an Early Implementation District Court under section 103(c).

(b) PROGRAM REQUIREMENT.—(1) The United States District Court for the Western District of Michigan and the United States District Court for the Northern District of Ohio shall experiment with systems of differentiated case management that provide specifically for the assignment of cases to appropriate processing tracks that operate under distinct and explicit rules, procedures and timeframes for the completion of discovery and for trial.

(2) The United States District Court for the Northern District of California, the United States District Court for the Northern District of West Virginia, and the United States District Court for the Western District of Missouri shall experiment with various methods of reducing cost and delay in civil litigation, including alternative dispute resolution, that such district courts and the Judicial Conference of the United States shall select.

(c) STUDY OF RESULTS.—The Judicial Conference of the United States, in consultation with the Director of the Federal Judicial Center and the Director of the Administrative Office of the United States Courts, shall study the experience of the district courts under the demonstration program.

(d) REPORT.—Not later than March 31, 1995, the Judicial Conference of the United States shall transmit to the Committees on the Judiciary of the Senate and the House of Representatives a report of the results of the demonstration program.

SEC. 105. AUTHORIZATION.

(a) EARLY IMPLEMENTATION DISTRICT COURTS.—There is authorized to be appropriated not more than $15,000,000 for fiscal year 1990 to carry out the resource and planning needs necessary for the implementation of section 103(c).

(b) IMPLEMENTATION OF CHAPTER 23.—There is authorized to be appropriated not more than $5,000,000 for fiscal year 1990 to implement chapter 23 of title 28, United States Code.

(c) DEMONSTRATION PROGRAM.—There is authorized to be appropriated not more than $5,000,000 for fiscal year 1990 to carry out the provisions of section 104.

## TITLE II—FEDERAL JUDGESHIPS

SECTION 201. SHORT TITLE.

This title may be cited as the "Federal Judgeship Act of 1990".

SEC. 202. CIRCUIT JUDGES FOR THE CIRCUIT COURT OF APPEALS.

(a) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate—

(1) 2 additional circuit judges for the third circuit court of appeals;

(2) 4 additional circuit judges for the fourth circuit court of appeals;

(3) 1 additional circuit judge for the fifth circuit court of appeals;

(4) 1 additional circuit judge for the sixth circuit court of appeals;

(5) 1 additional circuit judge for the eighth circuit court of appeals; and

(6) 2 additional circuit judges for the tenth circuit court of appeals.

(b) TABLES.—In order that the table contained in section 44(a) of title 28, United States Code, will, with respect to each judicial circuit, reflect the changes in the total number of permanent circuit judgeships authorized as a result of subsection (a) of this section, such table is amended to read as follows:

| "Circuits | Number of Judges |
|---|---|
| District of Columbia | 12 |
| First | 6 |
| Second | 13 |
| Third | 14 |
| Fourth | 15 |
| Fifth | 17 |
| Sixth | 16 |
| Seventh | 11 |
| Eighth | 11 |
| Ninth | 28 |
| Tenth | 12 |
| Eleventh | 12 |
| Federal | 12.". |

SEC. 203. DISTRICT JUDGES FOR THE DISTRICT COURTS.

(a) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate—

(1) 1 additional district judge for the western district of Arkansas;

(2) 2 additional district judges for the northern district of California;

(3) 5 additional district judges for the central district of California;

(4) 1 additional district judge for the southern district of California;

(5) 2 additional district judges for the district of Connecticut;

(6) 2 additional district judges for the middle district of Florida;

(7) 1 additional district judge for the northern district of Florida;

(8) 1 additional district judge for the southern district of Florida;

(9) 1 additional district judge for the middle district of Georgia;

(10) 1 additional district judge for the northern district of Illinois;

(11) 1 additional district judge for the southern district of Iowa;

(12) 1 additional district judge for the western district of Louisiana;

(13) 1 additional district judge for the district of Maine;

(14) 1 additional district judge for the district of Massachusetts;

(15) 1 additional district judge for the southern district of Mississippi;

(16) 1 additional district judge for the eastern district of Missouri;

(17) 1 additional district judge for the district of New Hampshire;

(18) 3 additional district judges for the district of New Jersey;

(19) 1 additional district judge for the district of New Mexico;

(20) 1 additional district judge for the southern district of New York;

(21) 1 additional district judge for the eastern district of New York;

(22) 1 additional district judge for the middle district of North Carolina;

(23) 1 additional district judge for the northern district of Oklahoma;

(24) 1 additional district judge for the western district of Oklahoma;

(25) 1 additional district judge for the district of Oregon;

(26) 3 additional district judges for the eastern district of Pennsylvania;

(27) 1 additional district judge for the middle district of Pennsylvania;

(28) 1 additional district judge for the district of South Carolina;

(29) 1 additional district judge for the eastern district of Tennessee;

(30) 1 additional district judge for the western district of Tennessee;

(31) 1 additional district judge for the northern district of Texas;

(32) 3 additional district judges for the southern district of Texas;

(33) 1 additional district judge for the western district of Texas;

(34) 1 additional district judge for the district of Utah;

(35) 1 additional district judge for the eastern district of Washington;

(36) 1 additional district judge for the northern district of West Virginia;

(37) 1 additional district judge for the southern district of West Virginia; and

(38) 1 additional district judge for the district of Wyoming.

(b) EXISTING JUDGESHIPS.—(1) The existing district judgeships for the western district of Arkansas, the northern district of Illinois, the northern district of Indiana, the district of Massachusetts, the western district of New York, the eastern district of North Carolina, the northern district of Ohio, and the western district of Washington authorized by section 202(b) of the Bankruptcy Amendments and Federal Judgeship Act of 1984 (Public Law 98-353, 98 Stat. 347-348) shall, as of the effective date of this title, be authorized under section 133 of title 28, United States Code, and the incumbents in those offices shall hold the office under section 133 of title 28, United States Code, as amended by this title.

(2)(A) The existing two district judgeships for the eastern and western districts of Arkansas (provided by section 133 of title 28, United States Code, as in effect on the day before the effective date of this title) shall be district judgeships for the eastern district of Arkansas only, and the incumbents of such judgeships shall hold the offices under section 133 of title 28, United States Code, as amended by this title.

(B) The existing district judgeship for the northern and southern districts of Iowa (provided by section 133 of title 28, United States Code, as in effect on the day before the effective date of this title) shall be a district judgeship for the northern district of Iowa only, and the incumbent of such judgeship shall hold the office under section 133 of title 28, United States Code, as amended by this title.

(C) The existing district judgeship for the northern, eastern, and western districts of Oklahoma (provided by section 133 of title 28, United States Code, as in effect on the day before the effective date of this title) and the occupant of which has his official duty station at Oklahoma City on the date of enactment of this title, shall be a district judgeship for the western district of Oklahoma only, and the incumbent of such judgeship shall hold the office under section 133 of title 28, United States Code, as amended by this title.

(c) TEMPORARY JUDGESHIPS.—The President shall appoint, by and with the advice and consent of the Senate—

(1) 1 additional district judge for the northern district of Alabama;

(2) 1 additional district judge for the eastern district of California;

(3) 1 additional district judge for the district of Hawaii;

(4) 1 additional district judge for the central district of Illinois;

(5) 1 additional district judge for the southern district of Illinois;

(6) 1 additional district judge for the district of Kansas;

(7) 1 additional district judge for the western district of Michigan;

(8) 1 additional district judge for the eastern district of Missouri;

(9) 1 additional district judge for the district of Nebraska;

(10) 1 additional district judge for the northern district of New York;

(11) 1 additional district judge for the northern district of Ohio;

(12) 1 additional district judge for the eastern district of Pennsylvania;

(13) 1 additional district judge for the eastern district of Texas; and

(14) 1 additional district judge for the eastern district of Virginia.

The first vacancy in the office of district judge in each of the judicial districts named in this subsection, occurring five years or more after the effective date of this title, shall not be filled.

(d) TABLES.—In order that the table contained in section 133 of title 28, United States Code, will, with respect to each judicial district, reflect the changes in the total number of permanent district judgeships authorized as a result of subsections (a) and (b) of this section, such table is amended to read as follows:

| "DISTRICTS | JUDGES |
|---|---|
| Alabama: | |
| Northern | 7 |
| Middle | 3 |
| Southern | 3 |
| Alaska | 3 |
| Arizona | 8 |
| Arkansas: | |

SEC. 204. VIRGIN ISLANDS.

(a) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate, one additional judge for the District Court of the Virgin Islands, who shall hold office for a term of 10 years and until a successor is chosen and qualified, unless sooner removed by the President for cause.

(b) AMENDMENT TO ORGANIC ACT.—In order to reflect the change in the total number of permanent judgeships authorized as a result of subsection (a) of this section, section 24(a) of the Revised Organic Act of the Virgin Islands (68 Stat. 506; 48 U.S.C. 1614(a)) is amended by striking "two" and inserting "three".

SEC. 205. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this title, including such sums as may be necessary to provide appropriate space and facilities for the judicial positions created by this title.

SEC. 206. EFFECTIVE DATE.

This title shall take effect on the date of enactment of this title.

Mr. THURMOND. Mr. President, today I rise along with Senator BIDEN to introduce the Judicial Improvements Act of 1990. This bill is designed to meet the needs of the Federal judiciary by developing within the Federal courts a procedure for implementing civil justice expense and delay reduction plans and to provide for additional Federal judgeships necessary to handle the increased criminal and civil caseload.

Title I is derived from the Civil Justice Reform Act introduced by Senator BIDEN and myself. Our goal is to reduce litigation costs and to increase the administrative efficiency of the civil litigation process in the Federal courts.

Over recent years, the workload of the Federal court system has increased dramatically. It is this committee's responsibility to assure that the manpower and equipment necessary to meet this increased workload is provided. Currently, there is a feeling among many members of the bench and bar that civil litigation in the Federal court system is much too costly and takes far too much time to resolve disputes.

Based upon these concerns, the legislation we are introducing today embodies principles from which each Federal district court will develop their own plan for creating greater efficiencies in the civil litigation process.

Mr. President, it is appropriate to consider procedural changes which will reduce the costs and delays confronted by those who seek to resolve their disputes through the civil litigation system. However, any attempt to reform the civil justice system is futile without providing adequate judicial manpower.

Title II of the bill will create 77 additional Federal judgeships. Recently enacted drug and crime legislation increased the caseload of many judges across the country. As a result of the needs of the judiciary from the specter of increased drug and crime related prosecution and its impact on the Federal docket, I believe more judgeships are vitally important. Additionally, we incorporated recommendations made by the Judicial Conference reflecting their assessment of where judicial manpower should be placed. The result is a provision to create additional Federal judgeships which we believe will adequately address the current needs of the judiciary.

Mr. President, as ranking member, I look forward to working with the chairman of the Judiciary Committee to create greater efficiency and increase the manpower in the Federal courts.

---

By Mr. KENNEDY:

S. 2649. A bill to provide for improved drug abuse treatment and prevention; to the Committee on Labor and Human Resources.

DRUG ABUSE TREATMENT AND PREVENTION IMPROVEMENT ACT

● Mr. KENNEDY. Mr. President, today I am introducing the Drug Abuse Treatment and Prevention Improvement Act of 1990.

Drug abuse in America continues to be a disease of epidemic proportions. Its symptoms have spread to every corner of our society and beyond. The epidemic manifests itself in shattered lives, devastated families, and overburdened courtrooms, classrooms, and emergency rooms throughout the country.

Historians remind us that we have been fighting one drug war or another for decades. But the release of the Bush administration's first antidrug strategy last September brought a new sense of energy to our efforts.

Eight months after the release of the strategy, it is too soon to say whether these efforts have borne fruit. In some pockets of society, encouraging historical trends have continued. But many of us remain concerned that the national drug strategy is seriously defective because it lacks balance. The President and his advisers fail to recognize the prominent role that treatment and prevention must play in combating drug abuse.

The long-term solution to the drug epidemic will not be found in distant cocafields in Colombia, or in overcrowded holding cells in inner-city police precincts. Instead, real gains against drugs will be made when schoolchildren are persuaded that drugs use is harmful, when communities rally to create a climate in which drug use is unacceptable, and when treatment is offered to all who wish to rid themselves of a drug habit.

The administration persists in the belief that crime control can solve the tangle of social factors that contribute to the self-destructive behavior of drug use. For the past 2 years, the administration has sent antidrug budgets to Congress in which 70 percent of the resources are devoted to reducing the supply of drugs, and only 30 percent to reducing demand.

Drug Policy Director William Bennett has used his office as a bully pulpit, but he has largely preached

the gospel of law enforcement. He has stubbornly refused to pay more than lipservice to the fundamental goal of treatment on request and, on occasion, he has belittled the importance of drug education.

The most recent evidence of the administration's misplaced priorities is the legislative package it transmitted to Congress yesterday. This massive proposal is brimming with new threats to civil liberties, new criminal penalties, imposing forfeiture provisions, and novel interdiction strategies. Yet it contains no proposals for drug abuse prevention and only two treatment-related proposals.

Whatever the merits of the supply-side proposals in the legislative package submitted yesterday, it is clear that they are the product of considerable effort and attention. It is equally clear that virtually no energy has been expended to devise bold and innovative means of reducing the demand for drugs.

Just as Congress last year redressed some of the budgetary imbalance in the President's drug strategy, the legislation I propose today is intended to redress the legislative imbalance. The bill contains a number of innovative demand reduction proposals that have either been generated by the legislative process in the past year or that have otherwise come to my attention. This proposals represent a comprehensive effort to improve the manner in which this country delivers drug treatment and prevention services to its citizens.

Title I of the bill improves and expands the categorical grant programs administered by the Department of Health and Human Services. These programs are designed to target populations that have an especially acute need for services. They will enable the Federal Government to sponsor model programs that can eventually be replicated by the States. The bill will sharpen the focus of current programs, such as the one for pregnant and post partum addicts and their infants. In addition, new grants will be offered for training treatment and prevention professionals, for drug treatment in the criminal justice system, for rural substance abuse, for more drug treatment in the national capital region, and for comprehensive community-based drug prevention.

Title II of the bill revises the ADAMHA Block Grant Program. The block grant is the principal means by which the Federal Government distributes treatment resources. We must engage in a multiyear strategy to fund this program at a level that will assure treatment on request for every addict seeking it.

First, the bill authorizes $2 billion for this program in fiscal year 1991, a one-third increase over the fiscal year 1990 authorization of $1.5 billion.

Second, the bill revises the formula under which block grant funds are distributed among the States, principally by reducing the urban weight component of the formula. Urban States continue to bear the heaviest burden of the drug epidemic and it is essential to maintain an urban weight component in the formula. However, in response to the concerns of smaller States that do not benefit as much from the current formula, the bill reduces the urban weight component from 0.4 to 0.34. I am confident that we can resolve this complicated issue in a manner that accommodates the various competing interests.

Third, the bill expands the ways in which States are permitted to use their block grant funds. In some circumstances, States should be permitted to use Federal funding for inpatient hospital care. It is also imperative that States be permitted to fund treatment initiatives in their criminal justice systems; the Committee on Labor and Human Resources held a hearing on May 2 of this year that made plain the need for increased resources in this critical area.

Fourth, the bill establishes a requirement that States prepare ADAMHA-approved comprehensive statewide treatment plans as a condition of their block grant funding. This is one of the two demand-side initiatives that the administration is seeking in its bill. I supported the proposal last year and I will continue to work for its enactment. State treatment plans will increase accountability and enable us to pursue Federal goals more aggressively.

Title III of the bill is a treatment research initiative that Senator BIDEN and I are proposing known as the Pharmacotherapy Development Act; it builds upon an amendment that we successfully offered to S. 1711 last year. This title will encourage the research and development of medicines that block the neurological craving for drugs or that ease the symptoms of withdrawal. Such medicines will be an important addition to the current array of treatment modalities.

The title authorizes a Medications Development Division at the National Institute on Drug Abuse, creates financial incentives for private sector development of antidrug abuse medicines, and authorizes a streamlined process for the approval of these medicines by the Food and Drug Administration. Finally, this title calls for a much-needed report by the surgeon general on the state of pharmacotherapeutic research in this country.

Title IV of the bill contains miscellaneous provisions, including the authorization of increased resources for the drug-free schools block grant. The bill does not contain other provisions with respect to the Drug-Free Schools Program because legislation improving that program was enacted into law at the end of last year—Public Law 101-226.

Mr. President, many of the provisions in this omnibus treatment and prevention bill were authored by, or were drawn from similar proposals authored by other Members of the Senate, and they deserve credit for their initiatives. I have already acknowledged Senator BIDEN's preeminent role in pharmacotherapy development. The rural drug treatment initiative was proposed last year by Senators BAUCUS and PRYOR. The community prevention grant initiative was proposed by Senator CRANSTON, who is a sponsor of this bill. Senators CHAFEE and MOYNIHAN have been leaders in the field of drug treatment in the criminal justice system, although my bill approaches the subject matter in a somewhat different way than the Chafee/Moynihan bill on this subject. Provisions pertaining to treatment of pregnant addicts and their infants were drawn, in part, from bills already introduced by Senators KOHL and DECONCINI. The section of this bill calling for a study on the relationship between the use of licit and illicit drugs was first proposed by Senator JEFFORDS.

Finally, I want to acknowledge the role of the ranking member of the Labor and Human Resources Committee, Senator HATCH. A number of the provisions in this bill were first introduced as floor amendments to S. 1711 by the Senator from Utah and myself.

Mr. President, drug use is a crime but it is also a disease. We must respond to this disease with the two tried and true weapons in the public health arsenal—treatment and prevention. The Drug Abuse Treatment and Improvement Act is an effort to meet that challenge and I urge my colleagues to support it.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2649

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Drug Abuse Treatment and Prevention Improvement Act of 1990".

SEC. 2. TABLE OF CONTENTS.

Sec. 1. Short title.
Sec. 2. Table of contents.

TITLE I—IMPROVEMENT AND EXPANSION OF GRANT PROGRAMS

Sec. 101. Establishment of Office for Treatment Improvement.
Sec. 102. Revision in program for reduction of waiting period for drug abuse treatment.

Sec. 103. Revision in program of model projects for reducing incidence of alcohol and drug abuse among pregnant and postpartum women and their infants.
Sec. 104. Revisions in program for drug abuse projects of national significance.
Sec. 105. Drug abuse treatment grant programs.
Sec. 106. Drug abuse prevention grant programs.
Sec. 107. Technical and conforming amendments.

TITLE II—REVISION OF THE ADAMHA BLOCK GRANT PROGRAM

Sec. 201. Authorization of appropriations.
Sec. 202. Revision of block grant formula.
Sec. 203. Revision with respect to the use of allotments.
Sec. 204. Establishment of requirement.

TITLE III—PHARMACOTHERAPY DEVELOPMENT

Sec. 301. Short title.
Sec. 302. Findings and purpose.

PART A—FEDERAL MEDICATION DEVELOPMENT PROGRAM

Sec. 311. Establishment of Medication Development Division.
Sec. 312. Authorization of appropriations.

PART B—PRIVATE SECTOR DEVELOPMENT OF PHARMACOTHERAPEUTICS

Sec. 321. Drugs for the treatment of addictions.

PART C—MEDICATIONS REVIEW PROCESS REFORM

Sec. 331. Investigational new drugs.
Sec. 332. Parallel track trials for medications to treat drug addiction.
Sec. 333. Waiver of mechanism of action requirement.
Sec. 334. Definition.

PART D—HIGH PRIORITY RESEARCH AREAS

Sec. 341. Sense of Congress.

PART E—REPORT BY THE SURGEON GENERAL

Sec. 351. Report by the Surgeon General.

TITLE IV—MISCELLANEOUS PROVISIONS

Sec. 401. Study on the relationship between the consumption of legal and illegal drugs.
Sec. 402. Omnibus Crime Control and Safe Streets Act of 1986.
Sec. 403. Drug-Free Schools and Communities Act of 1986.

## TITLE I—IMPROVEMENT AND EXPANSION OF GRANT PROGRAMS

### SEC. 101. ESTABLISHMENT OF OFFICE FOR TREATMENT IMPROVEMENT.

Title V of the Public Health Service Act (hereafter in this Act referred to as the "Act") (42 U.S.C. 290aa et seq.) is amended by inserting after section 507 the following new section:

"SEC. 507A. OFFICE FOR TREATMENT IMPROVEMENT.

"(a) IN GENERAL.—There is established in the Administration an Office for Treatment Improvement (hereafter in this section referred to as the "Treatment Office"). The Treatment Office shall be headed by a Director appointed by the Secretary from among individuals with extensive experience or academic qualifications in the treatment of drug or alcohol abuse. The Secretary, acting through the Director of the Treatment Office, shall carry out this section.

"(b) ALCOHOL AND DRUG ABUSE RESPONSIBILITIES.—With respect to alcohol and drug abuse, the Director of the Treatment Office shall—

"(1) collaborate with the Director of the Office for Substance Abuse Prevention in order to provide outreach services to identify individuals in need of treatment services, with emphasis on the provision of such services to racial and ethnic minorities, to adolescents, to pregnant and postpartum women and their infants, to individuals who abuse drugs intravenously, and to residents of publicly-assisted housing;

"(2) collaborate with the Director of the National Institute on Drug Abuse and with the States to promote the study of the outcomes of treatment services in order to identify the manner in which such treatment services can most effectively be provided;

"(3) collaborate with the Director of the National Institute on Drug Abuse in order to promote the dissemination and implementation of research findings that will improve the delivery and effectiveness of treatment services;

"(4) evaluate plans submitted by the States pursuant to section 1916B in order to advise the Administrator on whether the plans adequately provide for the allocation of the treatment resources of the States;

"(5) carry out the grant programs established in sections 509E, 509G(b), 509H, 509I, and 509J;

"(6) sponsor regional workshops on improving the quality and availability of treatment services;

"(7) provide technical assistance to public and nonprofit private entities that provide prevention and treatment services, including technical assistance with respect to the process of submitting to the Director applications for any program of grants carried out by the Director;

"(8) after consultation with organizations that represent providers of prehospital emergency medical services, carry out programs to train such providers with respect to responding to any emergency involving special problems that arise as a result of the abuse of alcohol or drugs by the victim of the emergency, including the problem of interacting with victims who are violent as a result of such abuse;

"(9) encourage State and Federal agencies offering treatment opportunities for individuals addicted to drugs or alcohol to utilize and establish self-run, self-supported recovery homes based on the Oxford House Model, as described in section 1916A;

"(10) provide treatment services by making grants to public and nonprofit private entities under any of sections 329, 330, and 340, and in making such grants, shall ensure that the grants are equitably allocated among the principal geographic regions of the United States, and between urban and rural areas, subject to the availability of qualified applicants for the grants;

"(11) improve coordination of the treatment resources of communities in order to ensure that the resources are applied in the manner most consistent with the needs of the communities, including referring individuals to the most appropriate provider of treatment services;

"(12) improve coordination between treatment facilities and agencies providing health, social, and employment services in order to assist, in a comprehensive manner, individuals undergoing treatment;

"(13) carry out activities to educate communities on the need for establishing treatment facilities within the communities;

"(14) encourage public and private entities that provide health insurance to provide benefits for drug treatment services; and

"(15) develop programs to increase the number of health professionals providing treatment services and to promote the increased integration into the health care system of the United States of programs for providing treatment services.

"(c) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out paragraph (10) of subsection (b), there is authorized to be appropriated $50,000,000 for each of the fiscal years 1991 and 1992.".

### SEC. 102. REVISION IN PROGRAM FOR REDUCTION OF WAITING PERIOD FOR DRUG ABUSE TREATMENT.

(a) ADMINISTRATOR OF PROGRAM.—Section 509E(a) of the Act (42 U.S.C. 290aa-12(a)) is amended by striking "the Administrator" and inserting "the Director of the Office for Treatment Improvement".

(b) IMPROVEMENT OF PROGRAM.—Section 509E of the Act (42 U.S.C. 290aa-12) is amended by—

(1) striking subsection (d) and redesignating subsection (c) as subsection (d);

(2) inserting after subsection (b) the following new subsection:

"(c) Subject to the availability of qualified applicants, in awarding grants under subsection (a), the Secretary shall give priority to applicants that provide, directly or through arrangements with public and nonprofit entities—

"(1) drug treatment services to pregnant and postpartum women; or

"(2) after-care services to prevent renewed substance abuse by individuals to whom a substance abuse program that receives assistance under this section has provided treatment services, except that a grantee shall not expend more than 50 percent of such grant to develop and provide such services.";

(3) redesignating paragraph (3) of subsection (e) as paragraph (4);

(4) striking "and" at the end of paragraph (2) of subsection (e); and

(5) inserting after paragraph (2) of subsection (e) the following new paragraph:

"(3) in the case of an applicant that is not a State, an agency of the State in which the applicant is located certifies that the applicant satisfies the conditions described in subsection (b); and".

(c) FUNDING.—Section 509E(f) of the Act (42 U.S.C. 290aa-12(f)) is amended—

(1) in paragraph (1), by striking "$100,000,000." and inserting "$140,000,000."; and

(2) in paragraph (3), by striking "$100,000,000" and inserting "$140,000,000".

(d) REPORT.—Not later than 6 months after the enactment of this Act, the Administrator of the Alcohol, Drug Abuse, and Mental Health Administration shall prepare and submit, to the Senate Committee on Labor and Human Resources and the House Committee on Energy and Commerce, a report concerning the waiting period reduction grant program under section 509E of the Act (42 U.S.C. 290aa-12). Such report shall include—

(1) a list and description of the programs that have been awarded grants under this section;

(2) a description of the process by which funds awarded under such section are expended for treatment services, including a description of the process by which grantees obligate and draw-down funds received under such section;

(3) an assessment of the validity of waiting lists as a measure of treatment need and, if the report concludes that waiting lists are not the most accurate measure of

treatment need, a description of other, more accurate means of measuring treatment need;

(4) the views of State, local and nongovernmental treatment experts with respect to—

(A) the validity of waiting lists as a measure of treatment need; and

(B) the efficacy of the waiting period reduction grant program; and

(5) any other information that the Administrator deems to be necessary to a thorough appraisal of the efficacy of the program under such section.

SEC. 103. REVISION IN PROGRAM OF MODEL PROJECTS FOR REDUCING INCIDENCE OF ALCOHOL AND DRUG ABUSE AMONG PREGNANT AND POSTPARTUM WOMEN AND THEIR INFANTS.

(a) IN GENERAL.—Section 509F of the Act (42 U.S.C. 290aa-13) is amended by striking subsections (b) through (e) and inserting the following:

"(b) In making grants under subsection (a), the Director of the Office shall give priority to projects—

"(1) that will provide treatment services; and

"(2) that include one or more of the following components:

"(A) Service delivery strategies and outreach services in the community involved to identify such women who are abusing alcohol or drugs and to encourage such women to undergo treatment for such abuse.

"(B) Prenatal and postpartum health care for women undergoing such treatment.

"(C) With respect to the infants and children of such women, ongoing pediatric health care.

"(D) Child care, transportation, and other support services with respect to such treatment.

"(E) As appropriate, referrals to facilities for necessary hospital services.

"(F) Employment counseling, skill building and other appropriate follow-up services to help prevent a relapse of alcohol or drug abuse.

"(G) Case management services, including assistance in establishing eligibility for assistance under Federal, State, and local programs providing health services, mental health services, or social services.

"(H) Efforts to preserve and support the family unit.

"(I) Direct intervention, treatment, or rehabilitation of infants, which may include other siblings, to reduce or prevent the impact of maternal substance abuse on such children.

"(J) Supportive services for biologic or foster parents of infants affected by maternal substance abuse.

"(K) Strategies for providing treatment resources to low-income pregnant and postpartum women.

"(L) Strategies for providing treatment resources to pregnant and postpartum women under criminal justice supervision.

"(M) Other services that will tend to improve pregnancy outcomes, reduce substance abuse among women of childbearing age, and increase the stability of the family home environment.

"(c) With respect to any health service under this section that is covered by the appropriate State plan approved under title XIX of the Social Security Act, the Director of the Office may not make a grant under subsection (a) unless—

"(1) the applicant for the grant will provide the health service directly, and the applicant has entered into a participation agreement under the appropriate State plan and is qualified to receive payments under such plan; or

"(2) the applicant for the grant has entered into a contract with an entity for the entity to provide the health service, and the entity has entered into such a participation agreement and is qualified to receive such payments.

"(d) The Director of the Office may not make a grant under subsection (a) unless the applicant for the grant agrees that, if a charge is imposed for the provision of services or activities under the grant, such charge—

"(1) will be made according to a schedule of charges that is made available to the public;

"(2) will be adjusted to reflect the income and resources of the woman involved; and

"(3) will not be imposed on any woman with an income of less than 100 percent of the official poverty line, as established by the Director of the Office for Management and Budget and revised by the Secretary in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

"(e) In making grants under subsection (a) for the provision of treatment services for alcohol and drug abuse, the Director of the Office shall ensure that the grants are distributed among projects that provide outpatient treatment and projects that provide residential treatment, in a manner that reflects the general desirability of residential treatment programs for pregnant addicts.

"(f) The Director of the Office may not make a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary;

"(2) the applicant for the grant agrees to submit to the Secretary an annual report that describes the number of women served, the number of infants served, the type and costs of services provided, and such other information as the Secretary determines to be appropriate;

"(3) with respect to carrying out the purpose for which the grant is to be made, the application provides assurances of compliance satisfactory to the Secretary;

"(4) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section; and

"(5) the application contains an assurance that the applicant will provide funds, other than Federal funds, in an amount that is not less than 10 percent of the amount of the grant under subsection (a).

"(g) The period during which payments are made by the Director of the Office under a grant under subsection (a) may not exceed 5 years, except that the Director of the Office may establish a procedure for renewal of grants under subsection (a).

"(h) Nothing in this section shall be construed to permit the Secretary to discriminate in the awarding of grants under subsection (a) against applicants that propose or provide residential or outpatient rehabilitation services under applicable requirements of State law, including applicants that provide services to substance abusing pregnant and postpartum women that receive treatment by order of a court or other appropriate public agency, so long as all such applications include measures that encourage substance abusing pregnant and postpartum women to seek prenatal care and rehabilitation.

"(i) The Director of the Office shall, after consultation with the Director of the National Institute on Drug Abuse, periodically conduct evaluations to determine the effectiveness of projects supported under subsection (a).

"(j) The Director of the Office shall annually submit to the Congress a report describing programs carried out pursuant to this section. Each such report shall include any evaluations conducted under subsection (i) during the preceding fiscal year.

"(k)(1) In making grants under subsection (a), the Director of the Office shall make a grant to an institution of the type described in paragraph (2) for the establishment of a National Resource and Information Center for Perinatal Addiction, unless the Director finds that the Office is performing each of the functions set forth in paragraph (3) and certifies such finding to the Senate Committee on Labor and Human Resources and the House Committee on Energy and Commerce.

"(2) The grant described in paragraph (1) shall be awarded, after a competitive search, to a private nonprofit institution that has an extensive background and experience in performing research on maternal substance abuse and in disseminating such information to professionals, policymakers, the general public and the media, as well as experience in providing educational services to maternal substance abusers and their exposed infants.

"(3) The Center established under subsection (a) shall—

"(A) coordinate and disseminate research on maternal substance abuse, treatment options for such women and infants of such women, and prevention strategies;

"(B) develop and distribute training and educational information and materials concerning maternal substance abuse;

"(C) act as a clearinghouse for information on treatment programs for pregnant women who are addicted to illegal substances;

"(D) develop and manage a national toll free hotline to provide information and referrals;

"(E) provide policy analysis and program evaluation to the Secretary of Health and Human Services; and

"(F) provide any other services designed to carry out the purposes of this subsection.

"(l) For the purpose of carrying out this section, there is authorized to be appropriated $75,000,000 for each of the fiscal years 1991 and 1992.".

(b) GRANTEES.—Section 509F(a) of such Act (42 U.S.C. 290aa-13(a)) is amended by inserting at the end thereof the following new sentence: "Such grants may be made only to public and nonprofit private entities and to appropriately qualified Indian tribes and tribal organizations (as defined in section 1913(b)(5)).".

SEC. 104. REVISIONS IN PROGRAM FOR DRUG ABUSE PROJECTS OF NATIONAL SIGNIFICANCE.

Section 509G of the Act (42 U.S.C. 290aa-14) is amended—

(1) in subsection (a)(1)—

(A) in the matter preceding subparagraph (A), by striking "the Administrator" and inserting "the Director of the National Institute on Drug Abuse"; and

(B)(i) by inserting "and" at the end of subparagraph (A);

(ii) by striking "; and" at the end of subparagraph (B) and inserting a period; and

(iii) by striking subparagraph (C);

(2) in subsection (a)(2), by inserting "a" before "result";

(3) in subsection (b)—

(A) in paragraph (1)—

(i) by inserting after "Secretary" the following: ", acting through the Director of the Office for Treatment Improvement,";

(ii) by striking "States" the first place such term appears and inserting "States and other public or nonprofit private entities"; and

(iii) by striking "States" the second place such term appears and inserting "such entities"; and

(B) in paragraph (4), by striking "State" and inserting "public or nonprofit private entity"; and

(4) by amending subsection (c)(1) to read as follows:

"(c)(1) For the purpose of carrying out this section, there are authorized to be appropriated $80,000,000 for each of the fiscal years 1991 and 1992.".

SEC. 105. DRUG ABUSE TREATMENT GRANT PROGRAMS.

Part A of title V of the Act (42 U.S.C. 290aa et seq.) is amended by inserting at the end thereof the following new sections:

"SEC. 509H. GRANTS FOR TRAINING OF DRUG TREATMENT PROFESSIONALS.

"(a) ESTABLISHMENT.—The Director of the Office for Treatment Improvement (hereafter in this section referred to as the 'Director') shall establish a program to provide grants to eligible institutions to enable such institutions to provide training services to increase the supply of drug treatment professionals.

"(b) ELIGIBLE INSTITUTIONS.—Institutions eligible to receive a grant under this section shall include government agencies, medical schools, schools of osteopathy, schools of nursing, schools of public health, schools of chiropractic services, schools of social work, and other appropriate institutions that submit an application in accordance with subsection (c).

"(c) APPLICATIONS.—To be eligible to receive a grant under this section, an eligible institution shall submit an application to the Director at such time, in such manner, and containing such information as the Director may reasonably require.

"(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section there are authorized to be appropriated $25,000,000 for each of the fiscal years 1991 and 1992.

"SEC. 509I. DEMONSTRATION GRANTS FOR DRUG TREATMENT IN THE CRIMINAL JUSTICE SYSTEM.

"(a) PROGRAM ESTABLISHED.—The Director of the Office for Treatment Improvement (hereafter in this section referred to as the 'Director') shall establish a program to provide grants to public and nonprofit private entities that provide drug treatment services to individuals under criminal justice supervision.

"(b) ELIGIBILITY.—In awarding grants under subsection (a), the Director shall ensure that the grants are reasonably distributed among projects that provide treatment services to individuals who are—

"(1) incarcerated in prisons, jails or community correctional settings; or

"(2) not incarcerated but under criminal justice supervision because of their status as pre-trial releases, post-trial releases, probationers, parolees, or supervised releases.

"(c) PRIORITY.—In awarding grants under subsection (a), the Director shall give priority to programs that provide—

"(1) a continuum of services for offenders as they proceed through and out of the criminal justice system, including identification and assessment, drug treatment, employment counseling, pre-release counseling and pre-release referrals with respect to housing and treatment;

"(2) referrals to treatment programs in the community for individuals soon to be released from incarceration;

"(3) treatment services for juvenile offenders;

"(4) treatment services for female offenders;

"(5) outreach services to identify individuals under criminal justice supervision who would benefit from drug treatment and to encourage such individuals to seek treatment; or

"(6) treatment services that function as an alternative to incarceration for appropriate categories of offenders or that otherwise enable individuals to remain under criminal justice supervision in the least restrictive setting consistent with public safety.

"(d) APPLICATION.—The Director of the Office may not make a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary; and

"(2) the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines necessary to carry out this section.

"(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $25,000,000 for each of the fiscal years 1991 and 1992.

"SEC. 509J. RURAL SUBSTANCE ABUSE TREATMENT.

"(a) IN GENERAL.—The Director of the Office for Treatment Improvement (hereafter in this section referred to as the 'Director') shall establish a program to provide grants to hospitals, community health centers, migrant health centers, health entities of Indian tribes and tribal organizations (as defined in section 1913(b)(5)), and other appropriate entities that serve nonmetropolitan areas to assist such entities in developing and implementing projects that provide, or expand the availability of, substance abuse treatment services.

"(b) REQUIREMENTS.—To receive a grant under this section a hospital, community health center, or treatment facility shall—

"(1) serve a nonmetropolitan area or have a substance abuse treatment program that is designed to serve a nonmetropolitan area;

"(2) operate, or have a plan to operate, an approved substance abuse treatment program;

"(3) agree to coordinate the project assisted under this section with substance abuse treatment activities within the State and local agencies responsible for substance abuse treatment; and

"(4) prepare and submit an application in accordance with subsection (c).

"(c) APPLICATION.—

"(1) IN GENERAL.—To be eligible to receive a grant under this section an entity shall submit an application to the Director at such time, in such manner, and containing such information as the Director shall require.

"(2) COORDINATED GRANT APPLICATIONS.—State agencies that are responsible for substance abuse treatment may submit coordinated grant applications on behalf of entities that are eligible for grants pursuant to subsection (b).

"(d) PREVENTION PROGRAMS.—

"(1) IN GENERAL.—Each entity receiving a grant under this section may use a portion of such grant funds to further community-based substance abuse prevention activities.

"(2) REGULATIONS.—The Director, in consultation with the Director of the Office of Substance Abuse Prevention, shall promulgate regulations regarding the activities described in paragraph (1).

"(e) SPECIAL CONSIDERATION.—In awarding grants under this section the Director shall give priority to—

"(1) projects sponsored by rural hospitals that are qualified to receive rural health care transition grants as provided for in section 4005(e) of the Omnibus Budget Reconciliation Act of 1987;

"(2) projects serving nonmetropolitan areas that establish links and coordinate activities between hospitals, community health centers, community mental health centers, and substance abuse treatment centers; and

"(3) projects that are designed to serve areas that have no available existing treatment facilities.

"(f) DURATION.—Grants awarded under subsection (a) shall be for a period not to exceed 3 years, except that the Director may establish a procedure for renewal of grants under subsection (a).

"(g) GEOGRAPHIC DISTRIBUTION.—Subject to the availability of qualified applicants, the Director shall ensure that grants awarded under this section shall be equitably allocated among the principal geographic regions of the United States.

"(h) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section there are authorized to be appropriated $25,000,000 for fiscal years 1991 and 1992.

"SEC. 509K. MODEL RESIDENTIAL PROJECTS FOR ALCOHOL AND DRUG ABUSING WOMEN AND THEIR CHILDREN.

"(a) PROJECT AUTHORIZED.—

"(1) IN GENERAL.—The Secretary, through the Director of the Office, shall make grants to establish not less than 5 projects in which addicted mothers in residential drug abuse treatment facilities are allowed to have their children reside with them during the course of such treatment. Such residential drug abuse treatment and prevention projects shall target economically disadvantaged addicted women and their children (age 10 years and younger) and shall offer child care, parenting and jobs skills, nutrition, and other health, social, education, and employment services as necessary.

"(2) DURATION.—The Secretary, through the Director of the Office, shall only award grants under this section for projects which will be operated for a period of at least 3 years.

"(b) APPLICATION.—Each entity desiring a grant under this section shall submit an application to the Director of the Office at such time, in such manner and accompanied by such information as the Director of the Office may reasonably require. Each such application shall include assurances that the mothers selected for participation in such project have been evaluated to ensure that such mothers are committed to remaining in drug abuse treatment and prevention projects assisted under this section.

"(c) EVALUATION.—The Director of the Office shall conduct evaluations to determine the effectiveness of the projects assisted under this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $7,000,000 for fiscal year 1991, and such sums as may be necessary for each fiscal year thereafter to carry out the provisions of this section.

"SEC. 509L. NATIONAL CAPITAL AREA DRUG ABUSE TREATMENT DEMONSTRATION PROGRAM.

"(a) IN GENERAL.—The Secretary, acting through the Director of the Office for Treatment Improvement shall make a demonstration grant for the establishment, within the national capital area, of a model program for providing comprehensive treatment services for drug abuse.

"(b) PURPOSES.—The Secretary may not make a grant under subsection (a) unless, with respect to the comprehensive treatment services to be offered by the program under such subsection, the applicant for the grant agrees—

"(1) to ensure, to the extent practicable that the program has the capacity to provide the services to all individuals who seek and would benefit from the services;

"(2) as appropriate, to provide aftercare, employment counseling and other services designed to prevent treated substance abusers from relapsing;

"(3) to provide services in locations accessible to drug abusers and, to the extent practicable, to provide services through mobile facilities;

"(4) to give priority to providing services to individuals who abuse drugs ravenously to pregnant women, to homeless individuals, and to residents of publicly-assisted housing;

"(5) with respect to women with dependent children, to provide child care to such women seeking treatment services for drug abuse;

"(6) to conduct outreach activities to inform individuals of the availability of the services of the program;

"(7) to conduct appropriate activities for the prevention of the abuse of drugs;

"(8) to provide case management services, including services to determine eligibility for assistance under Federal, State, and local programs providing health services, mental health services, or social services;

"(9) to ensure the establishment of one or more offices to oversee the coordination of the activities of the program, to ensure that treatment is available to those seeking it, to ensure that the program is administered efficiently, and to ensure that the public is informed that the offices are the locations at which individuals may make inquiries concerning the program, including the location of available treatment services within the national capital area; and

"(10) to develop and utilize standards for certifying the knowledge and training of individuals, and the quality of programs, to provide treatment services for drug abuse.

"(c) CERTAIN REQUIREMENTS.—

"(1) REGARDING ELIGIBILITY FOR GRANT.—

"(A) The Secretary may not make the grant under subsection (a) unless the applicant for the grant is an organization of the general-purpose local governments within the national capital area, or another public or nonprofit private entity, and the applicant submits to the Secretary assurances satisfactory to the Secretary that, with respect to the communities in which services will be offered, the local governments of the communities will participate in the program.

"(B) The Secretary may not make a grant under subsection (a) unless—

"(i) an application for the grant is submitted to the Secretary;

"(ii) with respect to carrying out the purpose for which the grant is to be made, the application provides assurances of compliance satisfactory to the Secretary; and

"(iii) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

"(2) AUTHORITY FOR COOPERATIVE ARRANGEMENTS.—The grantee under subsection (a) may provide the services required by such subsection directly or through arrangements with public and nonprofit private entities.

"(d) REQUIREMENT OF NON-FEDERAL CONTRIBUTIONS.—

"(1) IN GENERAL.—The Secretary may not make a grant under subsection (a) unless the applicant for the grant agrees, with respect to the costs to be incurred by the applicant in carrying out the purpose described in such subsection, to make available (directly or through donations from public or private entities) non-Federal contributions toward such costs in an amount equal to not less than $1 for each $4 of Federal funds provided under the grant.

"(2) DETERMINATION OF AMOUNT.—Non-Federal contributions required in paragraph (1) may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by the Federal Government, or services assisted or subsidized to any significant extent by the Federal Government, may not be included in determining the amount of such non-Federal contributions.

"(e) EVALUATION.—The Secretary shall provide for an independent evaluation of the effectiveness of the program carried out under subsection (a). In conducting the evaluation, the Secretary shall evaluate the extent to which the program has effectively utilized innovative methods for overcoming the resistance of the residents of communities to the establishment of treatment facilities within the communities.

"(f) REPORTS.—

"(1) INITIAL CRITERIA.—The Secretary shall make a determination of the appropriate criteria for carrying out the program required in subsection (a), including the anticipated need for, and range of, services under the program in the communities involved and the anticipated costs of the program. Not later than 90 days after the date of the enactment of the Drug Abuse Treatment and Prevention Improvement Act of 1990, the Secretary shall submit to the Congress a report describing the findings made as a result of the determination.

"(2) ANNUAL REPORTS.—Not later than 1 year after the date on which the grant is made under subsection (a), and annually thereafter, the Secretary shall submit to the Congress a report describing the extent to which the program carried out under subsection (a) has been effective in carrying out the purposes of the program.

"(g) DEFINITION.—For purposes of this section, the term 'national capital area' means the metropolitan Washington area, including the District of Columbia, the cities of Alexandria, Falls Church, and Fairfax in the State of Virginia, the counties of Arlington and Fairfax in such State (and the political subdivisions of such State located in such counties), and the counties of Montgomery and Prince George's in the State of Maryland (and the political subdivisions of such State located in such counties).

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $35,000,000 for fiscal year 1991 to carry out the provisions of this section.".

SEC. 106. DRUG ABUSE PREVENTION GRANT PROGRAMS.

Part A of title V of the Act (as amended in section 105) (42 U.S.C. 290aa et seq.) is further amended by inserting at the end thereof the following new sections:

"SEC. 509M. COMMUNITY COALITIONS ON SUBSTANCE ABUSE.

"(a) DEFINITION.—As used in this section, the term 'eligible coalition' means an association, consisting of at least seven organizations, agencies, and individuals that are concerned about preventing substance abuse, that shall include—

"(1) public and private organizations and agencies that represent law enforcement, schools, health and social service agencies, and community-based organizations; and

"(2) at least three representatives of nongovernmental interested parties such as the clergy, academia, business, parents, youth, the media, and civic and fraternal groups.

"(b) GRANT PROGRAM.—

"(1) IN GENERAL.—The Secretary, acting through the Director of the Office, shall make grants to eligible coalitions in order to—

"(A) plan and implement comprehensive long-term strategies for substance abuse prevention;

"(B) develop a detailed assessment of existing substance abuse prevention programs and activities to determine community resources and to identify major gaps and barriers in such programs and activities;

"(C) identify and solicit funding sources to enable such programs and activities to become self-sustaining;

"(D) develop a consensus regarding the priorities of a community concerning substance abuse;

"(E) develop a plan to implement such priorities; and

"(F) coordinate substance abuse services and activities, including prevention activities in the schools and communities and substance abuse treatment programs.

"(2) SPECIAL RULE.—In making grants pursuant to paragraph (1), the Secretary shall award at least 35 percent of the amount appropriated pursuant to the authority of subsection (f) in each fiscal year to communities with populations of no more than 250,000 individuals that have made substance abuse prevention a high priority, as determined by the Secretary.

"(c) COMMUNITY PARTICIPATION.—In developing and implementing a substance abuse prevention program, a coalition receiving funds under paragraph (1) shall—

"(1) emphasize and encourage substantial voluntary participation in the community, especially among individuals involved with youth such as teachers, coaches, parents, and clergy; and

"(2) emphasize and encourage the involvement of businesses, civic groups, and other community organizations and members.

"(d) APPLICATION.—An eligible coalition shall submit an application to the Secretary in order to receive a grant under this section. Such application shall—

"(1) describe and, to the extent possible, document the nature and extent of the substance abuse problem in the community in question;

"(2) describe the activities needing financial assistance;

"(3) identify participating agencies, organizations, and individuals;

"(4) identify the agency, organization, or individual that has responsibility for leading the coalition, and provide assurances that such agency, organization or individual

has previous substance abuse prevention experience;

"(5) describe a mechanism to evaluate the success of the coalition in developing and carrying out the substance abuse prevention plan referred to in subsection (b)(5); and

"(6) contain such additional information and assurances as the Secretary may prescribe.

"(e) PRIORITY.—In awarding grants under this section, the Secretary shall give priority to a community that—

"(1) provides evidence of significant substance abuse;

"(2) proposes a comprehensive and multifaceted approach to eliminating substance abuse;

"(3) encourages the involvement of businesses and community leaders in substance abuse prevention activities; and

"(4) demonstrates support from the community and State and local agencies for efforts to eliminate substance abuse.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for fiscal years 1991 and 1992.

"SEC. 509N. SUBSTANCE ABUSE PREVENTION TRAINING.

"(a) ESTABLISHMENT.—The Secretary, acting through the Director of the Office, shall establish a National Substance Abuse Prevention Training Program (hereinafter in this section referred to as the 'Program').

"(b) PROGRAM DIRECTOR.—The Program shall be headed by a Director who has extensive experience in substance abuse prevention (hereinafter in this section referred to as the 'Program Director').

"(c) DUTIES.—The Program Director shall—

"(1) develop a substance abuse prevention training curriculum for community groups in organizational development, program operation, prevention concepts, and models;

"(2) provide technical assistance and support for community training on substance abuse prevention, including organizing the community, developing skills, and establishing program goals;

"(3) develop specific training modules for problem areas such as substance abuse, teen pregnancy, and acquired immune deficiency syndrome and for professional groups that work with children and adolescents, such as juvenile court judges, pediatricians, coaches, and counselors;

"(4) provide substance abuse prevention outreach and support to communities with substantial minority populations through workshops and collaborative initiatives with organizations serving such populations;

"(5) disseminate successful curricula and training practices in substance abuse prevention in communities through involvement with parents, civic groups, members of the business community, clergy, law enforcement representatives, and community leaders; and

"(6) evaluate the appropriateness and effectiveness of substance abuse prevention training.

"(d) GRANT PROGRAM.—The Secretary, acting through the Director of the Office, shall make grants to States, local agencies, and community organizations in order to—

"(1) provide substance abuse prevention training to representatives of such organizations and agencies;

"(2) provide substance abuse prevention training to parents, teachers, clergy, the business community, and civic groups;

"(3) coordinate with other community resources and programs; and

"(4) provide specialized training programs for professional groups that work with children and adolescents, or that are targeted to specific population groups.

"(e) AUTHORIZATION.—There are authorized to be appropriated to carry out this section $30,000,000 for fiscal years 1991 and 1992, of which at least 50 percent shall be used to carry out the provisions of subsection (d).".

SEC. 107. TECHNICAL AND CONFORMING AMENDMENTS.

Part A of title V of the Act (42 U.S.C. 290aa et seq.) is further amended—

(1) in section 508(d)(1), by striking "sections 509, 509A, and 509F," and inserting "sections 509 and 509A,"; and

(2) in section 509F—

(A) in the heading, by striking "PREGNANT" and all that follows through "WOMEN" and inserting "PREGNANT AND POSTPARTUM WOMEN"; and

(B) in subsection (a), by striking "pregnant" and all that follows through "women" and inserting "pregnant and postpartum women".

## TITLE II—REVISION OF THE ADAMHA BLOCK GRANT PROGRAM

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

Section 1911(a) of the Act (42 U.S.C. 300x) is amended by striking "$1,500,000,000 for fiscal year 1989 and such sums as may be necessary for each of the fiscal years 1990 and 1991" and inserting "$2,000,000,000 for fiscal year 1991".

SEC. 202. REVISION OF BLOCK GRANT FORMULA.

Section 1912A of the Act (42 U.S.C. 300x-1a) is amended—

(1) in subsection (a)(4)(B)(i)—

(A) by striking "0.4" in subclause (I), and inserting "0.34"; and

(B) by striking "indicated by the most recent data collected by the Bureau of the Census" in subclause (II), and inserting "determined by multiplying the total population of the State, as indicated by the most recently available data, by a percentage equal to the percentage that, under data from the most recent decennial census conducted by the Bureau of the Census, is constituted by the ratio of the population of the State living in urbanized areas to the total population of the State";

(2) in subsection (a)(4)(B)(ii)(I), by striking "0.2" and inserting "0.22";

(3) in subsection (a)(4)(B)(iii)(I), by striking "0.2" and inserting "0.22";

(4) in subsection (a)(4)(B)(iv)(I), by striking "0.2" and inserting "0.22";

(5) in subsection (b)(1), by striking "$7,000,000" and inserting "$8,000,000";

(6) by amending subsection (b)(2) to read as follows:

"(2) an amount determined in accordance with the following formula:

$R \times (1 + (.25 \times E))$,

where "R" equals the amount the State received under this section in fiscal year 1989 and "E" equals the cumulative percentage by which the total amount appropriated under section 1911 has changed since fiscal year 1989.";

(7) in subsection (c)(1)(B)(i), by inserting "civilian" before "population";

(8) by inserting after subsection (c)(1)(B)(ii) the following flush sentence:

"In the absence of reliable recent population data with respect to a given territory, it shall be assumed that the population of that territory has changed at the same rate as the population of the territories generally."; and

(9) by amending subsection (f) to read as follows:

"(f) For purposes of subsection (e), the applicable amount for each fiscal year is $250,000,000.".

SEC. 203. REVISION WITH RESPECT TO THE USE OF ALLOTMENTS.

Section 1915 of the Act (42 U.S.C. 300x-3) is amended—

(1) in subsection (b)—

(A) by inserting after the comma in paragraph (1), the following: "except that funds may be used to pay for inpatient hospital drug treatment services pursuant to a contractual arrangement with a hospital if—

"(A) needed residential treatment services could not otherwise be provided; and

"(B) the rates paid for such services do not exceed 125 percent of the cost of the rates typically required for comparable residential services."; and

(B) by inserting after the fifth sentence in the matter following paragraph (5), the following new sentence: "The Secretary may waive or reduce the matching rate requirement of the preceding sentence if the State requests such a waiver and the Secretary determines that a failure to grant such a request would result in a reduction in the resources that would otherwise be used to provide direct treatment services and that are essential to implementation of the State drug abuse plan.";

(2) in subsection (c)(1)—

(A) by inserting "including social and health services necessary to improve treatment outcomes," after "drug abuse," in subparagraph (A);

(B) by striking "and" at the end of subparagraph (B);

(C) by striking the period and inserting a semicolon at the end of subparagraph (C); and

(D) by inserting at the end thereof the following new subparagraphs:

"(D) to provide counseling to family members of drug abusers, including such family members in group and family counseling service settings for the treatment of drug abusers; and

"(E) to develop, implement, and operate programs of treatment for adult and juvenile substance abusers in State and local criminal and juvenile justice systems, including treatment programs for individuals in prisons and jails and those on probation, parole, supervised release, and pretrial release."; and

(3) by inserting at the end of subsection (d) the following new sentence: "Expenses incurred for the training of individuals as required under this subpart shall not be included in determining the costs of administering funds made available under section 1914.".

SEC. 204. ESTABLISHMENT OF REQUIREMENT.

Title XIX of the Act (42 U.S.C. 300z et seq.) is amended by inserting after section 1916A (42 U.S.C. 300x-4a) the following new section:

"SEC. 1916B. STATEWIDE SUBSTANCE ABUSE TREATMENT PLAN.

"(a) NATURE OF THE PLAN.—To receive its allotment for a fiscal year under section 1912A, a State shall develop, implement, and submit as part of the application required by section 1916(a), an approved statewide Substance Abuse Treatment Plan, prepared according to standards issued by the Secretary, that shall—

"(1) contain a single, designated State agency for formulating and implementing the Statewide Substance Abuse Treatment Plan;

"(2) contain a description of the mechanism that shall be used to assess the needs for substance abuse treatment in localities throughout the State including the presentation of relevant data;

"(3) contain a description of a statewide plan that shall be implemented to expand treatment capacity and overcome obstacles that restrict the expansion of treatment capacity (such as zoning ordinances), or an explanation of why such a plan is unnecessary;

"(4) contain a description of performance-based criteria that shall be used to assist in the allocation of funds to substance abuse treatment facilities receiving assistance under this subpart;

"(5) contain a description of the mechanism that shall be used to make funding allocations under this subpart;

"(6) contain a description of the actions that shall be taken to improve the referral of substance abusers to treatment facilities that offer the most appropriate treatment modality;

"(7) contain a description of the program of training that shall be implemented for employees of treatment facilities receiving Federal funds, designed to permit such employees to stay abreast of the latest and most effective treatment techniques;

"(8) contain a description of the plan that shall be implemented to coordinate substance abuse treatment facilities with other social, health, correctional and vocational services in order to assist or properly refer those patients in need of such additional services;

"(9) contain a description of the plan that shall be implemented to expand drug treatment opportunities for individuals under criminal justice supervision;

"(10) contain a description of the plan that will be implemented to expand and improve efforts to deter women from knowingly abusing drugs during pregnancy, to contact and treat pregnant women who abuse drugs, and to provide appropriate follow-up services to their affected newborns;

"(11) provide for the targeting of funds toward areas of the greatest need in the State, using such criteria as the State may establish for determining such areas, including criteria for focusing on—

"(A) the current unmet treatment needs in the State including both the inpatient, outpatient, and long- and short-term substance abuse treatment service needs of defined populations and the availability of essential ancillary services;

"(B) the incidence of deliveries of infants who are adversely affected by maternal substance abuse;

"(C) the incidence of criminal activities related to substance abuse; and

"(D) the incidence of communicable diseases transmitted by substance abuse;

"(12) provide for the periodic testing of patients as appropriate for various treatment populations to determine the patients compliance with treatment regimens and the establishment of clinically appropriate policies for dealing with patients who fail such tests and provide that such testing conducted not be required to be more frequent than is necessary to achieve treatment objectives;

"(13) provide for aftercare or follow-up, either directly or through arrangements with other individuals or entities, for patients who have ended a course of treatment provided by the facility, that shall include periodic contacts with the patient to monitor the patient's progress and provide services or additional treatment as needed;

"(14) increase, if necessary, the availability of specialized services and facilities necessary to meet the needs of female and minority drug abusers; and

"(15) provide for the establishment of a program of interim assistance for individuals who apply for treatment, and who must wait for the availability of treatment opportunities, such as—

"(A) education and counseling concerning drug abuse; and

"(B) the referral to, or provision of, other necessary health and social services that may include primary health care, education, and vocational services.

"(b) SUBMISSION OF THE PLAN.—The plan required by subsection (a) shall be submitted to the Secretary annually for review and approval. The Secretary shall have the authority to review and approve or disapprove such State plans, and to propose changes to such plans.

"(c) GUIDELINES.—(1) The Secretary, in consultation with the States, shall develop guidelines for each area to be covered by the State plan prepared under subsection (a).

"(2) Beginning in fiscal year 1992, no payment shall be made to a State from its allotment under section 1912A unless such State has submitted a plan under this section that is in reasonable conformance with the guidelines developed under paragraph (1), except that with respect to the performance criteria for treatment facilities described in subsection (a)(4), the State plan shall provide a reasonable time for such conformance.

"(3) The Secretary shall monitor the compliance of the State with the plan submitted under this section and provide technical assistance to assist in achieving such compliance.

"(d) REPORTS.—Each State shall submit reports, in such form, and containing such information as the Secretary may, from time to time, require, and shall comply with such additional provisions as the Secretary may from time to time find necessary to verify the accuracy of such reports.

"(e) WAIVER OF PLAN REQUIREMENT.—At the discretion of the Secretary, the Secretary may waive any or all of the requirements of this section on the written request of a State, except that such waiver shall not be granted unless the State implements an alternative treatment plan that fulfills the objectives of this section.

"(f) MODEL STATE PLAN.—The Director of the Office for Treatment Improvement shall establish a model State substance abuse treatment plan to guide States in establishing State plans under subsection (a), and shall provide technical assistance to assist States in complying with such plan.

"(g) ADMINISTRATIVE EXPENSES.—Expenses incurred for the training of individuals as required under any plans submitted under this section shall not be included in determining the costs of administering funds made available under section 1914 with respect to alcohol and drug abuse.".

## TITLE III—PHARMACOTHERAPY DEVELOPMENT

### SEC. 301. SHORT TITLE.

This title may be cited as the "Pharmacotherapy Development Act of 1990".

### SEC. 302. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) drug addiction is a disease of epidemic proportions in the United States;

(2) current efforts to treat the disease of addiction are inadequate; and

(3) pharmacotherapy, the use of medicines to treat the disease of addiction, is one promising method of drug treatment, and the development of such medicines must be more aggressively promoted by the Federal Government.

(b) PURPOSE.—It is the purpose of this title to promote research, development, and production of pharmacotherapeutics used to reduce the prevalence of drug addiction in the United States.

## PART A—FEDERAL MEDICATION DEVELOPMENT PROGRAM

### SEC. 311. ESTABLISHMENT OF MEDICATION DEVELOPMENT DIVISION.

Section 515 of the Public Health Service Act (42 U.S.C. 290cc) is amended to read as follows:

"SEC. 515. PHARMACOTHERAPEUTICS DEVELOPMENT DIVISION.

"(a) ESTABLISHMENT.—There is established in the National Institute on Drug Abuse a Division to be known as the 'Medications Development Division' (hereinafter in this section and section 515A referred to as the 'Division').

"(b) ORGANIZATION.—

"(1) DIRECTOR.—The Division shall be headed by a Director appointed by the Director of the National Institute on Drug Abuse on the basis of scientific merit.

"(2) STAFFING.—The Director of the Division (hereinafter in this section and section 515A referred to as the 'Director') may appoint one or more Deputy Directors and shall employ administrators and researchers on the basis of scientific merit.

"(c) DUTIES.—The Director shall—

"(1) in consultation with the Commissioner of Food and Drugs, establish, not later than 1 year after the date of enactment of this section, new guidelines for the safety and efficacy trials of medications to treat drug addiction, with such guidelines to be implemented by the Commissioner of Food and Drugs in accordance with subchapter C of chapter V of the Federal Food, Drug and Cosmetic Act;

"(2) conduct periodic meetings with the Commissioner of Food and Drugs to discuss other measures that may facilitate the approval process of drug addiction treatments;

"(3) encourage and promote (through grants, contracts, or otherwise) expanded research programs, investigations, experiments, and studies, into the development of medications to treat drug addiction;

"(4) establish, or provide for the establishment of, clinical research facilities to carry out this section;

"(5) track the activities of the National Institutes of Health relating to the development and use of pharmacotherapeutic treatments for drug addiction;

"(6) collect, analyze, and disseminate data useful in the development and use of pharmacotherapeutic treatments for drug addiction and seek the establishment of an international research data bank to collect, catalog, analyze, and disseminate through international channels, the results of research undertaken in any country concerning pharmacotherapeutic treatments for drug addiction; and

"(7) support training in the fundamental sciences and clinical disciplines related to the pharmacotherapeutic treatment of drug addiction, including the use of training stipends, fellowships, and awards where appropriate.

"(d) ADMINISTRATION.—In carrying out the activities described in subsection (c), the Director may—

"(1) collect and disseminate through publications and other appropriate means, information pertaining to the research and other activities under this section;

"(2) make grants to or enter into contracts and cooperative agreements with individuals and public and private entities to further the goals of the Division;

"(3) acquire, construct, improve, repair, operate, and maintain pharmacotherapeutic centers, laboratories, research, and other necessary facilities and equipment, and related accommodations as may be necessary;

"(4) acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of the General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Division for a period not to exceed 10 years;

"(5) accept voluntary and uncompensated services;

"(6) accept gifts, or donations of services, money, or property, real, personal, or mixed, tangible or intangible; and

"(7) take necessary action to ensure that all channels for the dissemination and exchange of scientific knowledge and information are maintained between the Division and the other scientific, medical, and biomedical disciplines and organizations nationally and internationally.

"(e) REPORTS.—

"(1) IN GENERAL.—Not later than December 31, 1990, and each December 31 thereafter, the Director shall submit to the Office of National Drug Control Policy established under section 1002 of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1501) a report, in accordance with paragraph (3), that describes the objectives and activities of the Division.

"(2) INCORPORATION INTO NATIONAL DRUG CONTROL STRATEGY.—The Director of National Drug Control Policy shall incorporate, by reference or otherwise, each report submitted under this subsection in the National Drug Control Strategy submitted the following February 1 under section 1005 of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1504).

"(3) ADDITIONAL REPORTS.—The Director may prepare additional reports as appropriate.

"(f) PEER REVIEW.—The Director shall, by regulation, provide for the proper scientific review of all research grants, cooperative agreements, and contracts over which the Director has authority by—

"(1) utilizing, to the extent practicable, appropriate peer review groups established within the National Institute on Drug Abuse and composed primarily of non-Federal scientists and other experts in the scientific and disease fields; and

"(2) when appropriate, by establishing, with the approval of the Director of the National Institute on Drug Abuse, other formal peer review groups as may be required.".

SEC. 312. AUTHORIZATION OF APPROPRIATIONS.

Section 517 of the Public Health Service Act (42 U.S.C. 290cc-2) is amended to read as follows:

"SEC. 517. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out section 515—

"(1) $60,000,000 for fiscal year 1991;

"(2) $70,000,000 for fiscal year 1992;

"(3) $85,000,000 for fiscal year 1993;

"(4) $100,000,000 for fiscal year 1994;

"(5) $110,000,000 for fiscal year 1995; and

"(6) $115,000,000 for each of the fiscal years 1996 through 2000.".

PART B—PRIVATE SECTOR DEVELOPMENT OF PHARMACOTHERAPEUTICS

SEC. 321. DRUGS FOR THE TREATMENT OF ADDICTIONS.

Chapter V of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 351 et seq.) is amended by adding at the end thereof the following new subchapter:

"SUBCHAPTER C—DRUGS FOR THE TREATMENT OF ADDICTION TO ILLEGAL DRUGS

"SEC. 529A. RECOMMENDATIONS FOR INVESTIGATIONS OF DRUGS FOR THE TREATMENT OF ADDICTIONS TO ILLEGAL DRUGS.

"(a) IN GENERAL.—The sponsor of a drug for the treatment of addiction to illegal drugs may request the Secretary to provide written recommendations for the nonclinical and clinical investigations that must be conducted with the drug before—

"(1) it may be approved for treatment of such addiction under section 505;

"(2) if the drug is an antibiotic, it may be certified for treatment of such addiction under section 507; or

"(3) if the drug is a biological product, it may be licensed for treatment of such addiction under section 351 of the Public Health Service Act.

"(b) RECOMMENDATIONS FOR INVESTIGATIONS.—If the Secretary has reason to believe that a drug for which a request is made under this section is a drug for the treatment of addiction to illegal drugs, the Secretary shall provide the person making the request with written recommendations for the nonclinical and clinical investigations that the Secretary believes, on the basis of information available to the Secretary at the time of the request under this section, would be necessary for approval of such drug for treatment of such addiction under section 505, certification of such drug under section 507, or licensing of such drug under section 351 of the Public Health Service Act.

"(c) REGULATIONS.—The Secretary shall by regulation promulgate procedures for the implementation of subsections (a) and (b).

"SEC. 529B. DESIGNATION OF DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"(a) IN GENERAL.—

"(1) REQUEST.—The manufacturer or the sponsor of a drug may request the Secretary to designate the drug as a drug for the treatment of addiction to illegal drugs. A request for designation of a drug shall be made before the submission of an application under section 505(b) for the drug, the submission of an application for certification of the drug under section 507, or the submission of an application for licensing of the drug under section 351 of the Public Health Service Act. If the Secretary finds that a drug for which a request is submitted under this subsection is being or will be investigated for the treatment of addiction to illegal drugs and—

"(A) if an application for such drug is approved under section 505;

"(B) if a certification for such drug is issued under section 507; or

"(C) if a license for such drug is issued under section 351 of the Public Health Service Act;

the approval, certification, or license would be for use for treatment of such addiction, the Secretary may designate the drug as a drug for the treatment of an addiction to illegal drugs. A request for a designation of a drug under this subsection shall contain the consent of the applicant to notice being given by the Secretary under subsection (c) respecting the designation of the drug.

"(2) DEFINITION.—As used in paragraph (1)—

"(A) the term 'drugs for the treatment' means those pharmacological agents or medications that—

"(i) block the effects of abused drugs;

"(ii) reduce the craving for abused drugs;

"(iii) moderate or eliminate withdrawal symptoms;

"(iv) block or reverse the toxic effects of abused drugs; or

"(v) prevent, under certain conditions, the initiation of drug abuse;

"(B) the term 'addiction' means the state of an individual where that individual habitually uses an illegal drug in a manner that endangers the public morals, health, safety, or welfare, or who is so addicted to the use of illegal drugs that such individual loses the power of self-control with reference to such the addiction of such individual; and

"(C) the term 'illegal drugs' means a controlled substance, as defined in section 202 of the Controlled Substance Act (21 U.S.C. 812) the possession or distribution of which is unlawful under such Act.

"(b) CONDITIONS.—A designation of a drug under subsection (a) shall be subject to the condition that—

"(1) if an application was approved for the drug under section 505(b), a certificate was issued for the drug under section 507, or a license was issued for the drug under section 351 of the Public Health Service Act, the manufacturer of the drug will notify the Secretary of any discontinuance of the production of the drug at least one year before discontinuance, and

"(2) if an application has not been approved for the drug under section 505(b), a certificate has not been issued for the drug under section 507, or a license has not been issued for the drug under section 351 of the Public Health Service Act and if preclinical investigations or investigations under section 505(i) are being conducted with the drug, the manufacturer or sponsor of the drug will notify the Secretary of any decision to discontinue active pursuit of approval of an application under section 505(b), approval of an application for certification under section 507, or approval of a license under section 351 of the Public Health Service Act.

"(c) NOTICE.—Notice respecting the designation of a drug under subsection (a) shall be made available to the public.

"(d) REGULATION.—The Secretary shall by regulation promulgate procedures for the implementation of subsections (a), (b), and (c).

"SEC. 529C. PROTECTION FOR DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"(a) IN GENERAL.—Except as provided in subsection (b), if the Secretary—

"(1) approves an application filed pursuant to section 505;

"(2) issues a certification under section 507; or

"(3) issues a license under section 351 of the Public Health Service Act;

for a drug designated under section 529A for the treatment of addiction to illegal drugs, the Secretary may not approve another application under section 505, issue another certification under section 507, or issue another license under section 351 of the Public Health Service Act for such drug for the treatment of such addiction for a person who is not the holder of such approved ap-

plication, of such certification, or of such license until the expiration of 7 years from the date of the approval of the approved application, the issuance of the certification, or the issuance of the license. Section 505(c)(2) does not apply to the refusal to approve an application under the preceding sentence.

"(b) ISSUANCE OF ANOTHER LICENSE, APPLICATION, OR CERTIFICATION.—If an application filed pursuant to section 505 is approved for a drug designated under section 529A for the treatment of addiction to illegal drugs, if a certification is issued under section 507 for such a drug, or if a license is issued under section 351 of the Public Health Service Act for such a drug, the Secretary may, during the 7-year period beginning on the date of the application approval, of the issuance of the certification under section 507, or of the issuance of the license, approve another application under section 505, issue another certification under section 507, or issue a license under section 351 of the Public Health Service Act, for such drug for the treatment of such addiction for a person who is not the holder of such approved application, of such certification, or of such license if—

"(1) the Secretary finds, after providing the holder notice and opportunity for the submission of views, that in such period the holder of the approved application, of the certification, or of the license cannot assure the availability of sufficient quantities of the drug to meet the needs of persons with such addictions for which the drug was designated; or

"(2) such holder provides the Secretary in writing the consent of such holder for the approval of other applications, issuance of other certifications, or the issuance of other licenses before the expiration of such 7-year period.

"SEC. 529D. OPEN PROTOCOLS FOR INVESTIGATIONS OF DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"If a drug is designated under section 529A as a drug for the treatment of addiction to illegal drugs and if notice of a claimed exemption under section 505(i) or regulations issued thereunder is filed for such drug, the Secretary may encourage the sponsor of such drug to design protocols for clinical investigations of the drug which may be conducted under the exemption to permit the addition to the investigations of persons with such addictions who need the drug to treat such addiction and who cannot be satisfactorily treated by available alternative drugs.

"SEC. 529E. ENFORCEMENT.

"The provisions of title III relating to the breach of an exclusive marketing agreement shall apply to this subchapter.

"SEC. 529F. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out this subchapter, such sums as may be necessary in each of the fiscal years 1990 through 1992.".

## PART C—MEDICATIONS REVIEW PROCESS REFORM

SEC. 331. INVESTIGATIONAL NEW DRUGS.

(a) SUBMISSION OF APPLICATION.—Notwithstanding subpart B of part 312 of title 21, Code of Federal Regulations, in implementing the procedures required under subsection (b), the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may permit an entity submitting an investigational new drug application or protocol for medications to treat drug addiction to provide the information required by the Secretary as such information becomes available to such entity. The Secretary may permit such applications or protocols to be submitted in parts. If the Secretary withholds approval of any part of such application or protocol, the Secretary may require that the applying entity resubmit only that portion of such application or protocol that was not approved. Not later than 30 days after an entity submits such an application or protocol or part thereof, the Secretary shall notify such entity concerning the approval or rejection of such application or protocol or part thereof, and if such notification is not provided approval will be automatic.

(b) APPLICATION OF PROCEDURES.—The Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, shall apply investigational new drug procedures under part 312 of title 21, Code of Federal Regulations, to encourage the development and use of medications to treat drug addiction. The Secretary may waive the requirements contained in part 312.34(b)(1)(ii) of title 21, Code of Federal Regulations, if the Secretary determines that such a waiver is appropriate.

SEC. 332. PARALLEL TRACK TRIALS FOR MEDICATIONS TO TREAT DRUG ADDICTION.

(a) IN GENERAL.—In encouraging the development and marketing approval of medications to treat drug addiction, the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may permit parallel track trials to be used to permit access to such drugs in a manner similar to that applied to certain medications to treat individuals infected with the human immunodeficiency virus.

(b) DEFINITION.—As used in this section the term "parallel track trials" means the procedures used by the Food and Dug Administration under part 312.35 of title 21, Code of Federal Regulations.

SEC. 333. WAIVER OF MECHANISM OF ACTION REQUIREMENT.

Notwithstanding any other provision of law, the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may waive the application of the mechanism of action requirement for marketing approval of medications to treat drug addiction.

SEC. 334. DEFINITION.

As used in this title, the term "pharmacotherapeutics" means medications used to treat the symptoms and disease of drug addiction, including medications to—

(1) block the effects of abused drugs;

(2) reduce the craving for abused drugs;

(3) moderate or eliminate withdrawal symptoms;

(4) block or reverse the toxic effect of abused drugs; and

(5) prevent, under certain conditions, the initiation of drug abuse.

## PART D—HIGH PRIORITY RESEARCH AREAS

SEC. 341. SENSE OF CONGRESS.

It is the sense of Congress that the Medications Development Division of the National Institute on Drug Abuse shall devote special attention and adequate resources to achieve the following urgent goals—

(1) the development of a methadone alternative;

(2) the development of a long-acting narcotic antagonist;

(3) the development of a cocaine-blocking treatment;

(4) the development of a cocaine-blocker/narcotic antagonist treatment;

(5) the development of medications to treat addiction to drugs that are becoming increasingly prevalent, such as methamphetamine; and

(6) the development of medications to treat pregnant addicts and their fetuses.

## PART E—REPORT BY THE SURGEON GENERAL

SEC. 351. REPORT BY THE SURGEON GENERAL.

(a) PHARMACOTHERAPY REVIEW PANEL.—Not later than 120 days after the date of enactment of this Act, the Director of the Division established under section 515 of the Public Health Service Act (as amended by section 7011) shall establish a panel of independent experts in the field of pharmacotherapeutic treatment of drug addiction to assess the national strategy for developing such treatments and to make appropriate recommendations for the improvement of such strategy.

(b) REPORT.—Not later than January 1, 1992, the Surgeon General of the United States shall prepare and submit, to the appropriate Committees of Congress, a report that sets forth—

(1) the recommendations of the panel established under subsection (a);

(2) the state of the scientific knowledge with respect to pharmacotherapeutic treatment of drug addiction;

(3) the assessment of the Surgeon General of the progress of the nation toward the development of safe, efficacious pharmacological treatments for drug addiction; and

(4) any other information determined appropriate by the Surgeon General.

(c) AVAILABILITY.—The report prepared under subsection (b) shall be made available for use by the general public.

## TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. STUDY ON THE RELATIONSHIP BETWEEN THE CONSUMPTION OF LEGAL AND ILLEGAL DRUGS.

(a) IN GENERAL.—For assistance in designing prevention programs to reduce the likelihood of drug abuse, the Secretary of Health and Human Services shall conduct a study concerning the relationship between an individual's receptivity to use or consume legal drugs and the consumption or abuse by the individual of illegal drugs.

(b) CONTENTS.—The study conducted under subsection (a) shall contain information concerning—

(1) the effect of advertising and marketing campaigns that promote the use of legal drugs on the public;

(2) the correlation of legal drug abuse with illegal drug abuse; and

(3) other matters that the Secretary of Health and Human Services determines appropriate.

(c) DATA AND RESEARCH.—In conducting the study under subsection (a), the Secretary of Health and Human Services shall consider data collected and current research concerning drug abuse and gateway drugs.

(d) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary of Health and Human Services shall prepare and submit, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, a report containing the results of the study conducted under subsection (a).

SEC. 402. OMNIBUS CRIME CONTROL AND SAFE STREETS ACT OF 1986.

Subpart 3 of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1986 (42 U.S.C. 3766 et seq.) is amended by inserting at the end thereof the following new section:

"SEC. 523. DRUG TREATMENT PROGRAMS.

"(a) IN GENERAL.—Notwithstanding any other provision of law at least 20 percent of the amounts appropriated to carry out the provisions of this part shall be used for drug treatment programs in the criminal justice system.

"(b) PRIORITY RULES.—In carrying out the provisions of subsection (a), the Director shall give priority to programs that provide—

"(1) a continuum of services for offenders as they proceed through and out of the criminal justice system;

"(2) referrals to treatment programs in the community for individuals soon to be released from incarceration;

"(3) treatment services for juvenile offenders;

"(4) treatment services for female offenders;

"(5) outreach services to identify individuals under criminal justice supervision who would benefit from drug treatment and to encourage such individuals to seek treatment; or

"(6) treatment services that function as an alternative to incarceration for appropriate categories of offenders or that otherwise enable individuals to remain under criminal justice supervision in the least restrictive setting consistent with public safety.".

SEC. 403. DRUG-FREE SCHOOLS AND COMMUNITIES ACT OF 1986.

Section 5111(a) of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3181) is amended by striking "such sums as may be necessary" and inserting "$1,200,000,000".●

---

By Mr. BIDEN:

S. 2650. A bill to implement a national drug strategy to prevent illegal use of drugs, and for other purposes; to the Committee on the Judiciary.

NATIONAL DRUG CONTROL STRATEGY ACT

● Mr. BIDEN. Mr. President, today, I am introducing the National Drug Strategy Act of 1990, a comprehensive legislative drug strategy proposal. It is my belief that the proposals outlined in this bill offer real hope for meeting the greatest domestic challenge facing our Nation today: The epidemic of illegal drug use that is devastating our cities and towns, and decimating the next generation of Americans.

This bill is a legislative version of the alternative drug strategy that I released in January. I am introducing it today as the President is submitting his legislative proposals to implement the drug strategy plan he issued earlier this year.

In a minute, I want to discuss some of the highlights of this bill, and point out the principal differences between this strategy and the one that the administration has pursued thus far. Before I do, though, I want to make one thing clear: This bill does not represent a wholesale rejection of the administration's approach, or a criticism of the National Drug Control Policy Director, William Bennett.

As the principal sponsor of the provision creating the drug czar post, and requiring the President to submit an annual drug strategy report, I am pleased with the results this law has had thus far. I have had differences with Director Bennett—sometime pointed ones. But I still believe that Director Bennett and his deputies deserve the Nation's gratitude for what they have accomplished thus far.

I think that the administration's drug plan is making some progress—and the President deserves credit for that. But in fairness, some of this credit should be shared by the Congress, too. We passed the law that required the President to issue a national drug strategy, and to set national drug policy goals; and we beefed up his first drug fighting plan when it was offered last year.

So this bill is not intended a categorical rejection of the administration's legislation. On many issues, our bills are in accord. Instead, this bill is an effort to take the next step: Not to criticize what has been done thus far, but to ask, "Do we need to do even more in the year ahead?"

Mr. President, last week, the majority staff of the Judiciary Committee issued a report that indicated that there are 2.2 million hard-core cocaine addicts in this country—about 1 out of every 100 Americans.

This alarming report was not issued to criticize the administration's drug strategy—as I noted at the time, the 2.2 million figure might actually be down from where it was when George Bush took over. Rather, it was an effort to suggest that we have been seriously underestimating the scope of the cocaine addiction problem in America—and that we need answers as big as the problem.

The bill I am introducing today offers such answers. Hopefully, when compared with and combined with the legislation the administration has submitted, it will help take the Nation one step farther: To focus the debate more precisely on the different choices we have in fighting the drug scourge, and the different paths we can pursue.

Before I summarize this bill, I want to make one comment on the bill the President has submitted to Congress. Many things in it are sound, and some—such as new laws to crack down on drug-related corruption—are ideas that we in the Senate have approved already.

The administration's bill is largely a collection of new powers and new penalties for drug crimes. I support many of these proposals. But it it time we came to grips with reality about such measures: New powers and new penalties will do little to win the drug war—unless we back them up new police, new prosecutors, and new prisons to make these punishments stick.

That's what the bill I am introducing today is all about. Summarizing in a few paragraphs the 300-page bill I am about to introduce is difficult. But I want to highlight a few of the major premises of this bill, and a few of its major differences with the administrator's plan.

If this bill could be summarized in a single idea, it would be this: We must attack the drug problem at its roots—at the level of the hard-core users in America's cities and towns, the coca-growing farmers in the Andean mountains and the children in our schools who are at risk of becoming the next generation of drug addicts.

The administration's legislation has focused in large part of reducing the number of casual drug users in the United States. This effort is critical, but the fact is that casual drug use has been declining sharply in America in recent years; down 37 percent since 1985, for example. And the fact is that despite this decline, crime in American continues to rise, drug related medical emergencies are up, and the nightmare of crack babies and drug-related child abuse is soaring.

This is the devastating caused by hard-core users. And this is the place where the administration's strategy is most lacking. The only way to fight the crime menace is to fight the problem of hard-core drug addiction.

Thus, this bill proposes numerous measures to help make sure that—as soon as possible—every hard-core user in America is faced with one of two stark choices: Get into treatment, or go to jail, and get treatment there.

These measures include expanded drug treatment facilities; more aid to local law enforcement—which is called on to arrest and process these hard-core users—new prisons with drug treatment facilities; expanded and more flexible aid to cities hardest-hit by the drug problem; research into medical treatments that may some day cure drug addiction; and much, much more.

The second root of the drug problem addressed by this bill is found in the hillsides of the Andean nations. There, entire economies and societies are as addicted to the drug trade as hard-core addicts are to these nations' product.

It is no exaggeration to say that the economies of Bolivia and Peru, for example, are more dependent on coca that Detroit is on cars, or Pittsburgh is on steel.

The U.S. effort in the Andean region thus far has focused primarily—almost exclusively—on military aid to the governments in question. But these nations already have extensive military establishments, and most experts—and candid officials from the Andean na-

tions—agree that further military aid—without corresponding increases in economic aid—will bring only marginal returns.

My bill proposes a comprehensive, coordinated effort to move the Andean nations away from coca-based economies, and toward other commodities and industries. Specific proposals to swap debt relief for crop substitution and development, and to launch a narcotics free trade zone, are offered here, as well as other trade incentives. Increased economic aid is proposed as well.

In sum, the key is to reorient the economies of the Andean nations away from coca. Only through such an approach can sustained, long-range efforts to reduce the supply of cocaine be achieved.

The third root of the drug problem is closest to home: It lies within our children. If we do nothing else, we must adopt a drug policy that does all that it can to prevent them from becoming the next generation of drug users.

Mr. President, though the administration continues to disparage its value, we know that drug education works. More importantly, we know that it is the only tool we have to stop our kids from using drugs before they start.

As a result, my bill includes many initiatives aimed at protecting our children from the dangers of drug use. Chief among them is a plan for comprehensive drug education for all children, grades K through 12, by 1992—and prevention programs, like putting a boys and girls club in every public housing project in the country.

This is an overview of the major ideas behind this bill aimed at fighting the drug problem at three roots: Hardcore users in our streets, coca farmers in the Andes, and children in our schools and homes.

The bill itself is divided into eight titles: law enforcement, treatment, education, international interdiction, drug emergency areas, research and new technologies, and coordination. As I said before, it is almost 300 pages long, and contains literally dozens and dozens of individual proposals.

These specific proposals are summarized in materials that follow these remarks. Even a brief listing of them would take far longer than I have at this time.

In closing, I want to say that I owe a tremendous debt of gratitude to countless people for the ideas that went into this legislation.

Principal among these are my colleagues in the Senate. As the attached summary notes in the appropriate place, about 20 of my Senate colleagues, and a handful of House Members—Democratic and Republican—deserve credit for one or more of the proposals recommended here. Of course, their specific support for a specific proposal does not imply their endorsement of this bill as a whole.

Special mention must go to the distinguished chairman of the Labor and Human Resources Committee, Senator KENNEDY, who was the author and proponent of most of the treatment and education provisions included in this bill. He has long been a leader on this issue, and his pioneering work in the area of fighting the demand for drugs has pointed the way for us all.

Finally, let me reiterate my belief that we can—as we have in the past—have bipartisan cooperation on the drug issue. Working together, Democrats and Republicans, we can adopt a national drug policy that—to use the President's words—makes tremendous strides toward "ending this scourge."

Mr. President, I ask unanimous consent that the bill be printed in the RECORD, along with several factsheets and summaries of it.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 2650

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Drug Control Strategy Act of 1990."

TITLE I—LAW ENFORCEMENT

SEC. 1000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE I—LAW ENFORCEMENT

Sec. 1000. Table of contents.

Subtitle A—State and Local Law Enforcement Assistance

Sec. 1001. Base allocation for drug enforcement grants and improving the effectiveness of court process.
Sec. 1002. Community Substance Abuse Prevention Act.

Subtitle B—Drug Days

Sec. 1025. Assisting State and local prosecutors.

Subtitle C—Federal Law Enforcement

Sec. 1051. Additional authorizations.

Subtitle D—Rural Drug Enforcement

Sec. 1101. Short title.
Sec. 1102. Leadership on rural drug policy.
Sec. 1103. Rural drug enforcement assistance.
Sec. 1104. Federal drug enforcement assistance.
Sec. 1105. Training for rural law enforcement officers.

Subtitle E—Mandatory Detention

Sec. 1151. Short title.
Sec. 1152. Mandatory detention.
Sec. 1153. Technical amendments.

Subtitle F—Forfeiture

Sec. 1201. Uses of justice forfeiture fund.
Sec. 1202. Increasing effectiveness of administrative forfeitures.
Sec. 1203. Forfeiture of instrumentalities of a foreign drug offense.
Sec. 1204. Closing of loophole to defeat criminal forfeiture through bankruptcy.
Sec. 1205. Nonabatement of criminal forfeiture when defendant dies pending appeal.
Sec. 1206. Forfeiture of personal property used to facilitate a drug offense.
Sec. 1207. Forfeiture of proceeds traceable to conveyances used to facilitate drug violations.
Sec. 1208. Clarification of attorney general's forfeiture sale authority and administrative use.
Sec. 1209. Clarification of civil forfeiture seizure warrant authority.
Sec. 1210. Forfeiture and destruction of dangerous, toxic, and hazardous materials.
Sec. 1211. Elimination of restriction on disposal of judicially forfeited property by the Treasury Department and the Postal Service.
Sec. 1212. Forfeitability of real property under gambling statute.
Sec. 1213. Customs forfeiture fund.

Subtitle G—Public Corruption

Sec. 1251. Short title.
Sec. 1252. Offense.
Sec. 1253. Technical and conforming amendments.
Sec. 1254. Interstate commerce.
Sec. 1255. Narcotics-related public corruption.

Subtitle H—Juvenile Justice Anti-Gang Program

Sec. 1301. Grant program.
Sec. 1302. Conforming amendments.
Sec. 1303. Treatment of violent juveniles as adults.
Sec. 1304. Serious drug offenses by juveniles as Armed Career Criminal Act predicates.
Sec. 1305. Redesignation of confusing sections in the Controlled Substances Act pertaining to children.
Sec. 1306. Clarification of enhanced penalties under Controlled Substances Act.

Subtitle I—Federal Prisoner Drug Testing

Sec. 1401. Short title.
Sec. 1402. Conditions on probation.
Sec. 1403. Conditions on supervised release.
Sec. 1404. Conditions on parole.

Subtitle J—Boot Camps

Sec. 1451. Boot camps.

Subtitle K—Regional Prisons

Sec. 1501. Regional prisons.

Subtitle L—Victims of Child Abuse Act of 1990

Sec. 1551. Short title.

CHAPTER 1—DRUG-RELATED CHILD ABUSE; HABITUAL CHILD ABUSE OFFENSE

Sec. 1555. Abuse of children in connection with violations of the drug laws.

CHAPTER 2—IMPROVING INVESTIGATION AND PROSECUTION OF CHILD ABUSE CASES

Sec. 1561. Findings.

Sec. 1562. Authority of the administrator to make grants.
Sec. 1563. Grants for specialized technical assistance and training programs.
Sec. 1564. Authorizations of appropriations.
CHAPTER 3—COURT-APPOINTED SPECIAL ADVOCATE PROGRAM
Sec. 1565. Findings.
Sec. 1566. Purpose.
Sec. 1567. Strengthening of the court-appointed special advocate program.
Sec. 1568. Authorization of appropriations.
CHAPTER 4—CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS
Sec. 1571. Findings and purpose.
Sec. 1572. Grants for juvenile and family court personnel.
Sec. 1573. Specialized technical assistance and training programs.
Sec. 1574. Authorization of appropriations.
CHAPTER 5—FEDERAL VICTIMS' PROTECTIONS AND RIGHTS
Sec. 1575. Child victims' rights.
Sec. 1576. Child abuse reporting.
CHAPTER 6—CHILD CARE WORKER EMPLOYEE BACKGROUND CHECKS
Sec. 1581. Requirement for background checks.
Subtitle M—Steroid Trafficking Act of 1990
Sec. 1601. Short title.
CHAPTER 1—ANABOLIC STEROIDS
Sec. 1611. Steroids listed as controlled substances.
Sec. 1612. Regulations by attorney general.
CHAPTER 2—HUMAN GROWTH HORMONE
Sec. 1621. Amendment to the Federal Food, Drug, and Cosmetic Act.
Sec. 1622. Conviction of section 303(e) of the Federal Food, Drug, and Cosmetic Act.

**Subtitle A—State and Local Law Enforcement Assistance**

SEC. 1001. BASE ALLOCATION FOR DRUG ENFORCEMENT GRANTS AND IMPROVING THE EFFECTIVENESS OF COURT PROCESS.

(a) BASE ALLOCATION FOR DRUG ENFORCEMENT GRANT.—(1) Paragraph (5) of section 1001(a) of part J of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended to read as follows:

"(5) There are authorized to be appropriated $900,000,000 for fiscal year 1991 and such sums as may be necessary for fiscal year 1992 to carry out the programs under parts D and E of this title.".

(2) Section 504(a)(1) of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended by section 211 of the Department of Justice Appropriations Act, 1990 (Public Law 101-162), is amended by striking "1990" and inserting "1991".

(b) IMPROVING THE EFFECTIVENESS OF COURT PROCESS.—Paragraph (10) of section 501 of part D of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended to read as follows:

"(10) improving the operational effectiveness of the court process, by expanding prosecutorial, defender, and judicial resources, and implementing court delay reduction programs;".

SEC. 1002. COMMUNITY SUBSTANCE ABUSE PREVENTION ACT.

(a) SHORT TITLE.—This section may be cited as the "Department of Justice Community Substance Abuse Prevention Act of 1990".

(b) COMMUNITY PARTNERSHIPS.—(1) Part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended by adding at the end thereof the following:

"Subpart 4—Community Coalitions on Substance Abuse

"GRANTS TO COMBAT SUBSTANCE ABUSE

"SEC. 531. (a) DEFINITION.—As used in this section, the term 'eligible coalition' means an association, consisting of at least seven organizations, agencies, and individuals that are concerned about preventing substance abuse, that shall include—

"(1) public and private organizations and agencies that represent law enforcement, schools, health and social service agencies, and community-based organizations; and

"(2) representatives of three of the following groups: the clergy, academia, business, parents, youth, the media, civic and fraternal groups, or other nongovernmental interested parties.

"(b) GRANT PROGRAM.—The Attorney General, acting through the Director of the Bureau of Justice Assistance, shall make grants to eligible coalitions in order to—

"(1) plan and implement comprehensive long-term strategies for substance abuse prevention;

"(2) develop a detailed assessment of existing substance abuse prevention programs and activities to determine community resources and to identify major gaps and barriers in such programs and activities;

"(3) identify and solicit funding sources to enable such programs and activities to become self-sustaining;

"(4) develop a consensus regarding the priorities of a community concerning substance abuse;

"(5) develop a plan to implement such priorities; and

"(6) coordinate substance abuse services and activities, including prevention activities in the schools or communities and substance abuse treatment programs.

"(c) COMMUNITY PARTICIPATION.—In developing and implementing a substance abuse prevention program, a coalition receiving funds under subsection (b) shall—

"(1) emphasize and encourage substantial voluntary participation in the community, especially among individuals involved with youth such as teachers, coaches, parents, and clergy;

"(2) emphasize and encourage the involvement of businesses, civic groups, and other community organizations and members; and

"(3) initiate programs such as—

"(A) drug treatment and education;

"(B) street patrols against crime;

"(C) sealing up of deserted buildings;

"(D) youth activities and organizations;

"(E) other activities related to improving communication and information sharing with police; and

"(F) hire full-time or part-time staff to coordinate and direct the programs of the coalition.

"(d) APPLICATION.—An eligible coalition shall submit an application to the Attorney General in order to receive a grant under this section. Such application shall—

"(1) describe and, to the extent possible, document the nature and extent of the substance abuse problem, emphasizing who is at risk and specifying which groups of individuals should be targeted for prevention and intervention;

"(2) describe the activities needing financial assistance;

"(3) identify participating agencies, organizations, and individuals;

"(4) identify the agency, organization, or individual that has responsibility for leading the coalition, and provide assurances that such agency, organization or individual has previous substance abuse prevention experience;

"(5) describe a mechanism to evaluate the success of the coalition in developing and carrying out the substance abuse prevention plan referred to in subsection (b)(5) and to report on such plan to the Attorney General on an annual basis; and

"(6) contain such additional information and assurances as the Attorney General may prescribe.

"(e) PRIORITY.—In awarding grants under this section, the Attorney General shall give priority to a community that—

"(1) provides evidence of significant substance abuse;

"(2) proposes a comprehensive and multifaceted approach to eliminating substance abuse;

"(3) encourages the involvement of businesses and community leaders in substance abuse prevention activities;

"(4) demonstrates a commitment and a high priority for preventing substance abuse; and

"(5) demonstrates support from the community and State and local agencies for efforts to eliminate substance abuse.

"(f) REVIEW.—(1) Each coalition receiving money pursuant to the provisions of this section shall submit an annual report to the Attorney General evaluating the effectiveness of the plan described in subsection (b)(5) and containing such additional information as the Attorney General may prescribe.

(2) The Attorney General, in conjunction with the Director of the Bureau of Justice Assistance, shall submit an annual review to the Committees on the Judiciary of the United States Senate and United States House of Representatives. Such review shall—

"(1) evaluate the grant program established in this section to determine its effectiveness;

"(2) implement necessary changes to the program that can be done by the Attorney General; and

"(3) recommend any statutory changes that are necessary.

"(g) LIMITS ON GRANTS.—A grant awarded under this section shall not be less than $10,000 and not more than $250,000.

"(h) AUTHORIZATION OF APPROPRIATION.—There are authorized to be appropriated to carry out the provisions of this section $20,000,000 for fiscal year 1991 and $25,000,000 for fiscal year 1992.".

(2) The table of sections of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended by adding at the end thereof the following:

"SUBPART 4—COMMUNITY COALITION ON SUBSTANCE ABUSE

"Sec. 531. Grants to combat substance abuse.".

**Subtitle B—Drug Days**

SEC. 1025. ASSISTING STATE AND LOCAL PROSECUTORS.

(a) IN GENERAL.—Not later than 90 days after the date of enactment of this section, the Attorney General shall direct each of the several United States attorneys to—

(1) in consultation with the chief prosecutor in each State or local jurisdiction within the district, establish a program whereby all cases involving persons arrested on a desig-

nated day each month for offenses that are felony violations of the Controlled Substances Act or the Controlled Substances Export and Import Act are presented to a Federal grand jury and, if indicted, are prosecuted in Federal court; and

(2) in conjunction with State and local officials and the local heads of Federal law enforcement agencies, establish a program aimed at using Federal laws to seize and forfeit the automobiles of persons who use such vehicles in the commission of drug-related offenses, particularly drug-related offenses involving personal use quantities of drugs.

(b) REPORT.—Not less than 180 days after the enactment of this section, and annually thereafter, the Attorney General shall prepare a detailed report outlining what steps each United States attorney has taken to implement the directives issued pursuant to subsection (a) and a complete statistical analysis of the accomplishments achieved under this section.

(c) NO RIGHTS CREATED.—Nothing in this section shall be construed as creating any substantive or procedural right enforceable by law by any party in any proceeding.

**Subtitle C—Federal Law Enforcement**

SEC. 1051. ADDITIONAL AUTHORIZATIONS.

There are authorized to be appropriated for the fiscal year ending September 30, 1991, the following sums (which shall be in addition to any other appropriations)—

(1) For the Federal Bureau of Investigation, $98,000,000 for the hiring of additional agents and support personnel to be dedicated to the investigation of drug trafficking organizations;

(2) For the Drug Enforcement Administration, $100,500,000 which shall include—

(A) not to exceed $10,000,000 for enforcing provisions of Federal law regarding precursor and essential chemicals;

(B) not to exceed $37,500,000 for assigning not fewer than 250 agents and necessary support personnel to rural areas where State and local law enforcement agencies have identified the distribution of "crack" cocaine or the manufacture and distribution of methamphetamine to be a serious law enforcement problem that exceeds the resources of local law enforcement, and involves trafficking across State or national boundaries; and

(C) not to exceed $15,000,000 to expand DEA State and local task forces, including payment of State and local overtime equipment and personnel costs;

(3) For the United States courts, $9,000,000 for additional probation officers, judges, magistrates and other personnel including not to exceed $2,000,000 for training, document production, and other expenses related to the implementation of the Federal sentencing guidelines;

(4) For the United States attorneys, $24,000,000 for additional prosecutors and staff to implement a program of prosecuting in Federal court drug offenses arising out of arrests and investigations conducted by State and local law enforcement agencies;

(5) For defender services, $8,000,000 for the defense of persons prosecuted in Federal court for drug offenses arising out of arrests and investigations conducted by State and local law enforcement agencies;

(6) For the United States marshals, $9,000,000;

(7) For the Bureau of Alcohol, Tobacco and Firearms, $37,500,000 to be allocated as follows:

(A) $31,000,000 for the hiring, training, and equipping of no fewer than 240 full-time equivalent special agents and no fewer than 120 full-time equivalent inspectors, over such personnel levels on board as of September 30, 1990, for carrying out narcotics related investigation and enforcement activities authorized under sections 924 (c), (d), and (e) of title 18, United States Code, and for the purchase of law enforcement vehicles; and

(B) $6,500,000 for the hiring, training and equipping of no fewer than 50 full-time equivalent special agents and no fewer than 25 full-time equivalent inspectors, over such personnel levels on board as of September 30, 1990, for combatting the international trafficking of firearms used in narcotics-related activities;

(8) For the Internal Revenue Service, $30,000,000 to be allocated as follows:

(A) $18,000,000 for the hiring and training of no fewer than 347 full-time equivalent positions, over such personnel levels on board as of September 30, 1990, for the processing of currency transaction reports related to money laundering investigations; and

(B) $12,000,000 for the hiring, training, and equipping of no fewer than 120 special agents, over such personnel levels on board as of September 30, 1990, for the expansion of investigations into narcotics and other criminal-related activities.

**Subtitle D—Rural Drug Enforcement**

SEC. 1101. SHORT TITLE.

This subtitle may be cited as the "Rural Drug Enforcement Act".

SEC. 1102. LEADERSHIP ON RURAL DRUG POLICY.

(a) DESIGNATION OF OFFICIAL.—The Director of National Drug Control Policy (hereafter in this subtitle referred to as the "Director") shall designate an official in the Office of National Drug Control Policy to act as the Rural Drug Policy Coordinator.

(b) DUTIES OF OFFICIAL.—The Rural Drug Policy Coordinator shall—

(1) examine the special needs of rural areas in drug interdiction;

(2) recommend to the Director policy options for the enhancement of drug interdiction in rural areas;

(3) coordinate the drug interdiction efforts of Federal agencies (including the Drug Enforcement Administration, Bureau of Land Management, the Bureau of Indian Affairs, and the National Forest Service) in rural areas; and

(4) make available to law enforcement agencies in rural areas materials pertinent to drug interdiction in rural areas.

SEC. 1103. RURAL DRUG ENFORCEMENT ASSISTANCE.

(a) IN GENERAL.—(1) Subpart 1 of part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended by adding at the end thereof the following new section:

"RURAL DRUG ENFORCEMENT ASSISTANCE

"SEC. 509. (a) There is authorized to be appropriated for rural drug enforcement assistance $20,000,000 for fiscal year 1990 and such sums as may be necessary for each of the fiscal years 1991 and 1992.

"(b) Of the total amount appropriated for this section in any fiscal year:

"(1) 50 percent shall be allocated to and shared equally among rural States as described in subsection (c); and

"(2) 50 percent shall be allocated to the remaining States for use in nonmetropolitan areas within those States, as follows:

"(A) $100,000 to each nonrural State; and

"(B) of the total funds remaining after the allocation in clause (A), there shall be allocated to each State an amount which bears the same ratio to the amount of remaining funds described as the population of such State bears to the population of all States.

"(c) For the purpose of this section, the term 'rural State' means a State that has a population density of fifty-two or fewer persons per square mile or a State in which the largest county has fewer than one hundred and fifty thousand people.".

(2) The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711 et seq.) is amended in subpart 1 of part E by adding at the end thereof the following:

"Sec. 509. Rural drug enforcement assistance.".

(b) SEPARATE GRANT REQUEST.—Section 503(a) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3753(a)) is amended by inserting at the end thereof the following:

"(11) A separate and detailed request for a grant under section 509 of this subpart, including how the funds provided by a grant under section 506 shall be coordinated with funds provided by a grant under section 509.".

SEC. 1104. FEDERAL DRUG ENFORCEMENT ASSISTANCE.

(a) GENERAL STATE ASSISTANCE.—In order to provide adequate Federal drug enforcement assistance to each of the several States, and to encourage Federal, State and local drug enforcement cooperation, the Attorney General shall assign not less than 10 Drug Enforcement Administration special agents to each of the several States.

(b) RURAL STATES.—In order to provide adequate Federal drug enforcement assistance to rural States for any rural State that is currently assigned less than 10 Drug Enforcement Administration special agents, as of the date of enactment of this subtitle, the Attorney General shall assign not less than 4 additional Drug Enforcement Administration special agents to each rural State as defined in section 509(c) of title I of the Omnibus Crime Control and Safe Streets Act, as added by section 1103 of this subtitle.

SEC. 1105. TRAINING FOR RURAL LAW ENFORCEMENT OFFICERS.

(a) IN GENERAL.—The Secretary of the Treasury, acting through the Federal Law Enforcement Training Center, shall develop a drug training program for law enforcement officers in rural areas.

(b) TRAINING.—Not later than September 30, 1991, the Secretary of the Treasury shall double the number of law enforcement officers from rural jurisdictions in each of the several States that receive drug enforcement training.

(c) AUTHORIZATION.—There is authorized to be appropriated $1,000,000 for fiscal year 1990 and such sums as may be necessary for each of the fiscal years 1991 and 1992 to carry out the purposes of this section.

**Subtitle E—Mandatory Detention**

SEC. 1151. SHORT TITLE.

This subtitle may be cited as the "Mandatory Detention for Offenders Convicted of Serious Crimes Act".

SEC. 1152. MANDATORY DETENTION.

(a) PENDING SENTENCE.—Subsection (a) of section 3143 of title 18, United States Code, is amended by—

(1) striking "The judicial officer" and inserting:

"(1) Except as provided in paragraph (2), the judicial officer"; and

(2) inserting at the end thereof the following:

"(2) The judicial officer shall order that a person who has been found guilty of an offense in a case described in subparagraph (A), (B), or (C) of subsection (f)(1) of section 3142 and is awaiting imposition or execution of sentence be detained unless—

"(A)(i) the judicial officer finds there is a substantial likelihood that a motion for acquittal or new trial will be granted; or

"(ii) an attorney for the Government has recommended that no sentence of imprisonment be imposed on the person; and

"(B) the judicial officer finds by clear and convincing evidence that the person is not likely to flee or pose a danger to any other person or the community.".

(b) PENDING APPEAL.—Subsection (b) of section 3143 of title 18, United States Code, is amended by—

(1) striking "The judicial officer" and inserting:

"(1) Except as provided in paragraph (2), the judicial officer";

(2) redesignating subparagraphs (A), (B), (C), and (D) of paragraph (2) as clauses (i), (ii), (iii), and (iv), respectively;

(3) redesignating paragraphs (1) and (2) as subparagraphs (A) and (B); and

(4) adding at the end thereof the following:

"(2) The judicial officer shall order that a person who has been found guilty of an offense in a case described in subparagraph (A), (B), or (C) of subsection (f)(1) of section 3142 and sentenced to a term of imprisonment, and who has filed an appeal or a petition for a writ of certiorari, be detained.".

(c) EXCEPTIONAL CASES.—Subsection (c) of section 3145 of title 18, United States Code, is amended by adding at the end the following: "Upon an appeal of the Government, a person who has been detained by the judicial officer pursuant to section 3143 (a)(2) or (b)(2), and who meets the conditions of release set forth in section 3143 (a)(1) or (b)(1), may be ordered released, under appropriate conditions, by a court of appeals or a judge thereof, if it is clearly shown that there are exceptional reasons why such person's detention would not be appropriate.".

SEC. 1153. TECHNICAL AMENDMENTS.

(a) CORRECTION OF MISSPELLED WORD.—Subsection (a)(1) of section 3143 of title 18, United States Code, as redesignated by section 1152(b) of this subtitle, is amended by striking "waiting" and inserting "awaiting".

(b) CORRECTION OF REFERENCE TO REPEALED PROVISION.—Subsections (e) and (f) of section 3142 of title 18, United States Code, are each amended by striking "section 1 of the Act of September 15, 1980 (21 U.S.C. 955a)" and inserting "the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.)".

## Subtitle F—Forfeiture

SEC. 1201. USES OF JUSTICE FORFEITURE FUND.

(a) PURCHASE OF FIREARMS.—Section 524(c)(1) of title 28, United States Code, is amended—

(1) by striking "and" at the end of subparagraph (G);

(2) by redesignating subparagraph (H) as subparagraph (I);

(3) by inserting a new subparagraph (H) as follows:

"(H) for any fiscal year, not to exceed $10,000,000 for the purchase of firearms, ammunition, protective body armor, and other personal safety equipment for investigative and enforcement personnel of the Drug Enforcement Administration, Federal Bureau of Investigation, United States Marshals Service, and the Immigration and Naturalization Service who devote a substantial amount of their time to drug law enforcement activities; and";

(4) in subparagraph (A)(ii) by—

(A) inserting a comma after "forfeitable assets"; and

(B) inserting "or listed chemicals (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802))" after "storage, protection, and destruction of controlled substances";

(5) in subparagraph (B) by inserting before the semicolon ", or the money laundering offenses set forth in sections 1956 and 1957 of title 18 and sections 5313(a) and 5324 of title 31"; and

(6) in subparagraph (C) by inserting before the semicolon "or the money laundering provisions in sections 981 and 982 of title 18".

(b) DEFINITIONS AND PROCEDURES.—Subsection 524(c) of title 28, United States Code, is amended by adding at the end the following new paragraphs:

"(11) For the purposes of this subsection, the term 'firearm' means any rifle, handheld pistol or revolver, or other weapon that is authorized by the Attorney General, or his designee, to be carried by personnel of the Drug Enforcement Administration, Federal Bureau of Investigation, United States Marshals Service, and the Immigration and Naturalization Service.

"(12) Following the completion of procedures for the forfeiture of property pursuant to any law enforced or administered by the Department, the Attorney General is authorized, at his or her discretion, to warrant clear title to any subsequent purchaser or transferee of such property.".

(c) CONFORMING AMENDMENT.—Section 524(c)(9) of title 28, United States Code, is amended by striking "and (G)" and inserting "(G), and (H)".

SEC. 1202. INCREASING EFFECTIVENESS OF ADMINISTRATIVE FORFEITURES.

(a) AMENDMENTS TO THE TARIFF ACT OF 1930.—Subsection (a) of section 607 of the Tariff Act of 1930 (19 U.S.C. 1607(a)) is amended—

(1) in paragraph (1) by striking "$100,000" and inserting "$500,000";

(2) by striking "or" at the end of paragraph (2);

(3) by inserting "or" after the semicolon at the end of paragraph (3); and

(4) by adding after paragraph (3) the following:

"(4) such seized merchandise is monetary instruments;".

(b) CONFORMING AMENDMENT.—The section heading for section 607 of the Tariff Act of 1930 (19 U.S.C. 1607) is amended to read as follows:

"SEC. 1607. SEIZURE; VALUE $500,000 OR LESS, PROHIBITED ARTICLES, TRANSPORTING CONVEYANCES.".

SEC. 1203. FORFEITURE OF INSTRUMENTALITIES OF A FOREIGN DRUG OFFENSE.

Section 981(a)(1)(B) of title 18, United States Code, is amended—

(1) by inserting after "proceeds obtained directly or indirectly from" the following: "or which represents the instrumentalities of"; and

(2) by adding at the end thereof the following: "No conveyance shall be forfeited under this paragraph to the extent of an interest of an owner by reason of any act or omission established by that owner to have been committed or omitted without the knowledge, consent, or willful blindness of the owner.".

SEC. 1204. CLOSING OF LOOPHOLE TO DEFEAT CRIMINAL FORFEITURE THROUGH BANKRUPTCY.

(a) TITLE 18.—Section 1963(a) of title 18, United States Code, is amended by inserting after "shall forfeit to the United States irrespective of any provision of State law" the following: ", or of any bankruptcy proceeding instituted after or in contemplation of a prosecution under this chapter,".

(b) THE CONTROLLED SUBSTANCES ACT.—Section 413(a) of the Controlled Substances Act (21 U.S.C. 853(a)) is amended by inserting after "shall forfeit to the United States, irrespective of any provision of State law" the following: ", or of any bankruptcy proceeding instituted after or in contemplation of a prosecution of such violation,".

SEC. 1205. NONABATEMENT OF CRIMINAL FORFEITURE WHEN DEFENDANT DIES PENDING APPEAL.

(a) TITLE 18.—Section 1963 of title 18, United States Code, is amended by adding at the end thereof the following new subsection:

"(n) An order of forfeiture under this section shall not abate by reason of the death thereafter of any or all of the defendants or petitioners or potential petitioners.".

(b) THE CONTROLLED SUBSTANCES ACT.—Section 413 of the Controlled Substances Act (21 U.S.C. 853) is amended by adding at the end thereof the following new subsection:

"Nonabatement of Forfeiture Order

"(q) An order of forfeiture under this section shall not abate by reason of the death thereafter of any or all of the defendants or petitioners or potential petitioners.".

SEC. 1206. FORFEITURE OF PERSONAL PROPERTY USED TO FACILITATE A DRUG OFFENSE.

Section 511(a) of the Controlled Substances Act (21 U.S.C. 881(a)) is amended by adding at the end thereof the following new paragraph:

"(10) Any weapon, computer, or electronic communications device used or intended to be used to facilitate the transportation, sale, receipt, possession, or concealment of property described in paragraph (1) or (2) and any proceeds traceable to such property.".

SEC. 1207. FORFEITURE OF PROCEEDS TRACEABLE TO CONVEYANCES USED TO FACILITATE DRUG VIOLATIONS.

Section 511(a)(4) of the Controlled Substances Act (21 U.S.C. 881(a)(4)) is amended—

(1) by inserting "and any proceeds traceable to such conveyances" after "property described in paragraph (1) or (2),";

(2) in subparagraph (A), by inserting ", and no proceeds traceable to such conveyance," before "shall be forfeited"; and

(3) in subparagraphs (B) and (C), by inserting "and no proceeds traceable to such conveyance" before "shall be forfeited".

SEC. 1208. CLARIFICATION OF ATTORNEY GENERAL'S FORFEITURE SALE AUTHORITY AND ADMINISTRATIVE USE.

(a) CLARIFICATION OF AUTHORITY.—Section 511(e)(1)(B) of the Controlled Substances Act (21 U.S.C. 881(e)(1)(B)) and section 2254(f)(2) of title 18, United States Code, are each amended by inserting ", by public sale or any other commercially feasible means," after "sell".

(b) ADMINISTRATIVE EXPENSES.—Section 511(e)(1) of the Controlled Substances Act (21 U.S.C. 881(e)(1)) is amended by adding at the end thereof the following:

"In determining the equitable share of proceeds for a State or local law enforcement

agency from a drug-related asset seizure under subparagraph (A), the Attorney General shall not retain more than 10 percent of the total proceeds to cover the costs of administrative expenses.".

SEC. 1209. CLARIFICATION OF CIVIL FORFEITURE SEIZURE WARRANT AUTHORITY.

Section 981(b)(2) of title 18, United States Code, is amended by striking "has obtained a warrant for such seizure pursuant to the Federal Rules of Criminal Procedure" and inserting "has obtained a warrant for such seizure in the same manner as provided for a search warrant under the Federal Rules of Criminal Procedure".

SEC. 1210. FORFEITURE AND DESTRUCTION OF DANGEROUS, TOXIC, AND HAZARDOUS MATERIALS.

Section 511(f) (1) and (2) of the Controlled Substances Act (21 U.S.C. 881(f)) is amended by inserting ", all dangerous, toxic, or hazardous raw materials or products subject to forfeiture under subsection (a)(2) of this section, and any equipment or container subject to forfeiture under subsection (a)(2) or (3) which cannot be separated safely from such raw materials or products" after "this title".

SEC. 1211. ELIMINATION OF RESTRICTION ON DISPOSAL OF JUDICIALLY FORFEITED PROPERTY BY THE TREASURY DEPARTMENT AND THE POSTAL SERVICE.

Section 981(e) of title 18, United States Code, is amended by striking "The authority granted to the Secretary of the Treasury and the Postal Service pursuant to this subsection shall apply only to property that has been administratively forfeited.".

SEC. 1212. FORFEITABILITY OF REAL PROPERTY UNDER GAMBLING STATUTE.

(a) IN GENERAL.—Section 1955 of title 18, United States Code, is amended—

(1) in subsection (d), by striking ", including money," and inserting "of any kind, real or personal, tangible or intangible,"; and

(2) by inserting at the end thereof the following:

"(f) Any person convicted of a violation of this section shall forfeit to the United States, irrespective of any provision of State law, or of any bankruptcy proceeding instituted after or in contemplation of a prosecution under this section—

"(1) any property constituting or derived from any proceeds the person obtained, directly or indirectly, as a result of such violation; and

"(2) any of the person's property used or intended to be used, in any manner or part, to commit or to facilitate the commission of such violation.

The provisions of 511 of the Controlled Substances Act (21 U.S.C. 853) shall apply to property subject to forfeiture under this section, to any seizure or disposition thereof, and to any administrative or judicial proceeding in relation thereto, if not inconsistent with this section.".

(b) TECHNICAL AMENDMENT.—Section 1955(a) of title 18, United States Code, is amended by striking "shall be fined not more than $20,000 or" and inserting "shall be fined under this title,".

SEC. 1213. CUSTOMS FORFEITURE FUND.

Section 613A(a)(3)(F) of the Tariff Act of 1930 (19 U.S.C. 1613b(a)(3)(F)) is amended to read as follows:

"(F) payment of overtime, salaries, travel, fuel, training, equipment, and other similar costs of State and local law enforcement officers that are incurred in assisting the United States Customs Service in law enforcement activities.".

**Subtitle G—Public Corruption**

SEC. 1251. SHORT TITLE.

This subtitle may be cited as the "Anti-Corruption Act of 1990".

SEC. 1252. OFFENSE.

Chapter 11 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 225. Public corruption

"(a) Whoever, in a circumstance described in subsection (d), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of the honest services of an official or employee of such State, or political subdivision of a State, shall be fined under this title, or imprisoned for not more than ten years, or both.

"(b) Whoever, in a circumstance described in subsection (d), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of a fair and impartially conducted election process in any primary, run-off, special, or general election—

"(1) through the procurement, casting, or tabulation of ballots that are materially false, fictitious, or fraudulent or that are invalid, under the laws of the State in which the election is held;

"(2) through paying or offering to pay any person for voting;

"(3) through the procurement or submission of voter registrations that contain false material information, or omit material information; or

"(4) through the filing of any report required to be filed under State law regarding an election campaign that contains false material information or omits material information,

shall be fined under this title or imprisoned for not more than ten years, or both.

"(c) Whoever, being a public official or an official or employee of a State, or political subdivision of a State, in a circumstance described in subsection (d), deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of a State or political subdivision of a State of the right to have the affairs of the State or political subdivision conducted on the basis of complete, true, and accurate material information, shall be fined under this title or imprisoned for not more than ten years, or both.

"(d) The circumstances referred to in subsections (a), (b), and (c) are that—

"(1) for the purpose of executing or concealing such scheme or artifice or attempting to do so, the person so doing—

"(A) places in any post office or authorized depository for mail matter, any matter or thing whatever to be sent or delivered by the Postal Service, or takes or receives therefrom, any such matter or thing, or knowingly causes to be delivered by mail according to the direction thereon, or at the place at which it is directed to be delivered by the person to whom it is addressed, any such matter or thing;

"(B) transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce any writings, signs, signals, pictures, or sounds;

"(C) transports or causes to be transported any person or thing, or induces any person to travel in or to be transported in, interstate or foreign commerce; or

"(D) uses or causes to use of any facility of interstate or foreign commerce;

"(2) the scheme or artifice affects or constitutes an attempt to affect in any manner or degree, or would if executed or concealed so affect, interstate or foreign commerce; or

"(3) as applied to an offense under subsection (b), an objective of the scheme or artifice is to secure the election of an official who, if elected, would have some authority over the administration of funds derived from an Act of Congress totaling $10,000 or more during the twelve-month period immediately preceding or following the election or date of the offense.

"(e) Whoever deprives or defrauds, or endeavors to deprive or to defraud, by any scheme or artifice, the inhabitants of the United States of the honest services of a public official or person who has been selected to be a public official shall be fined under this title or imprisoned for not more than ten years, or both.

"(f) Whoever being an official, or public official, or person who has been selected to be a public official, directly or indirectly, discharges, demotes, suspends, threatens, harasses, or, in any manner, discriminates against any employee or official of the United States or any State or political subdivision of such State, or endeavors to do so, in order to carry out or to conceal any scheme or artifice described in this section, shall be fined under this title or subject to imprisonment of up to five years or both.

"(g)(1) Any employee or official of the United States or any State or political subdivision of such State who is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against because of lawful acts done by the employee as a result of a violation of subsection (e) or because of actions by the employee on behalf of himself or others in furtherance of a prosecution under this section (including investigation for, initiation of, testimony for, or assistance in such a prosecution) may in a civil action, obtain all relief necessary to make such individual whole. Such relief shall include reinstatement with the same seniority status such individual would have had but for the discrimination, three times the amount of back pay, interest on the back pay, and compensation for any special damages sustained as a result of the discrimination, including reasonable litigation costs and reasonable attorney's fees.

"(2) An individual is not eligible for such relief if that individual participated in the violation of this section with respect to which such relief would be awarded.

"(3) A civil action or proceeding authorized by this subsection shall be stayed by a court upon the certification of an attorney for the Government, stating that such action or proceeding may adversely affect the interests of the Government in an ongoing criminal investigation or proceeding. The attorney for the Government shall promptly notify the court when the stay may be lifted without such adverse effects.

"(h) For purposes of this section—

"(1) the term 'State' means a State of the United States, the District of Columbia, Puerto Rico, and any other commonwealth, territory, or possession of the United States;

"(2) the terms 'public official' and 'person who has been selected to be a public official' have the meaning set forth in section 201 of this title; the terms 'public official', and 'person who has been selected to be a public official' shall also include any person acting or pretending to act under color of official authority;

"(3) the term 'official' includes—

"(A) any person employed by, exercising any authority derived from, or holding any position in the government of a State or any subdivision of the executive, legislative, judicial, or other branch of government thereof, including a department, independent establishment, commission, administration, authority, board, and bureau, and a corporation or other legal entity established and subject to control by a government or governments for the execution of a governmental or intergovernmental program;

"(B) any person acting or pretending to act under color of official authority; and

"(C) includes any person who has been nominated, appointed or selected to be an official or who has been officially informed that he or she will be so nominated, appointed or selected;

"(4) the term 'under color of official authority' includes any person who represents that he or she controls, is an agent of, or otherwise acts on behalf of an official, public official, and person who has been selected to be a public official; and

"(5) the term 'uses any facility of interstate or foreign commerce' includes the intrastate use of any facility that may also be used in interstate or foreign commerce.".

SEC. 1253. TECHNICAL AND CONFORMING AMENDMENTS.

(a) TABLE OF SECTIONS.—The table of sections for chapter 11 of title 18, United States Code, is amended by adding at the end thereof the following item:

"225. Public corruption.".

(b) RICO.—Section 1961(1)(B) of title 18, United States Code, is amended by inserting "section 225 (relating to public corruption)," after "section 224 (relating to sports bribery),".

(c) INTERRUPTION OF COMMUNICATIONS.—Section 2516(1)(c) of title 18, United States Code, is amended by inserting "section 225 (relating to public corruption)," after "section 224 (bribery in sporting contests),".

SEC. 1254. INTERSTATE COMMERCE.

(a) IN GENERAL.—Section 1343 of title 18, United States Code, is amended by—

(1) striking "transmits or causes to be transmitted by means of wire, radio, or television communication in interstate or foreign commerce, any writings, signs, signals, pictures, or sounds" and inserting "uses or causes to be used any facility of interstate or foreign commerce"; and

(2) inserting "or attempting to do so," after "for the purpose of executing such scheme or artifice".

(b) CONFORMING AMENDMENTS.—(1) The heading of section 1343 of title 18, United States Code, is amended by striking "Fraud by wire, radio, or television" and inserting "Fraud by use of facility of interstate commerce".

(2) The chapter analysis for chapter 63 of title 18, United States Code, is amended by striking the analysis for section 1343 and inserting the following:

"1343. Fraud by use of facility of interstate commerce.".

SEC. 1255. NARCOTICS-RELATED PUBLIC CORRUPTION.

(a) IN GENERAL.—Chapter 11 of title 18, United States Code, is amended by inserting after section 219 the following new section:

"§ 220. Narcotics and public corruption

"(a) Any public official who, directly or indirectly, corruptly demands, seeks, receives, accepts, or agrees to receive or accept anything of value personally or for any other person in return for—

"(1) being influenced in the performance or nonperformance of any official act; or

"(2) being influenced to commit or to aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State,

shall be guilty of a class B felony.

"(b) Any person who, directly or indirectly, corruptly gives, offers, or promises anything of value to any public official, or offers or promises any public official to give anything of value to any other person, with intent—

"(1) to influence any official act;

"(2) to influence such public official to commit or aid in committing, or to collude in, or to allow or make opportunity for the commission of any offense against the United States or any State; or

"(3) to influence such public official to do or to omit to do any act in violation of such official's lawful duty;

shall be guilty of a class B felony.

"(c) There shall be Federal jurisdiction over an offense described in this section if such offense involves, is part of, or is intended to further or to conceal the illegal possession, importation, manufacture, transportation, or distribution of any controlled substance or controlled substance analogue.

"(d) For the purpose of this section—

"(1) the term 'public official' means—

"(A) an officer or employee or person acting for or on behalf of the United States, or any department, agency, or branch of Government thereof in any official function, under or by authority of any such department, agency, or branch of Government;

"(B) a juror;

"(C) an officer or employee or person acting for or on behalf of the government of any State, territory, or possession of the United States (including the District of Columbia), or any political subdivision thereof, in any official function, under or by the authority of any such State, territory, possession, or political subdivision; or

"(D) any person who has been nominated or appointed to be a public official as defined in subparagraph (A), (B), or (C), or has been officially informed that he or she will be so nominated or appointed;

"(2) the term 'official act' means any decision, action, or conduct regarding any question, matter, proceeding, cause, suit, investigation, or prosecution which may at any time be pending, or which may be brought before any public official, in such official's official capacity, or in such official's place of trust or profit; and

"(3) the terms 'controlled substance' and 'controlled substance analogue' have the meaning set forth in section 102 of the Controlled Substances Act.".

(b) CONFORMING AMENDMENTS.—(1) Section 1961(1)(B) of title 18, United States Code, is amended by inserting "section 220 (relating to narcotics and public corruption)," after "Section 201 (relating to bribery),"; and

(2) Section 2516(1)(c) of title 18, United States Code, is amended by inserting "section 220 (relating to narcotics and public corruption)," after "section 201 (bribery of public officials and witnesses),".

(c) SECTION ANALYSIS.—The section analysis at the beginning of chapter 11, title 18, United States Code, is amended by inserting the following:

"220. Narcotics and public corruption.".

**Subtitle H—Juvenile Justice Anti-Gang Program**

SEC. 1301. GRANT PROGRAM.

The Juvenile Justice and Delinquency Prevention Act of 1974 is amended in part B by—

(1) inserting after the heading for such part the following:

"Subpart I—General Grant Programs";

and

(2) adding at the end thereof a new subpart II, as follows:

"Subpart II—Juvenile Drug Trafficking and Gang Prevention Grants

"FORMULA GRANTS

"SEC. 231. (a) The Administrator is authorized to make grants to States and units of general local government or combinations thereof to assist them in planning, establishing, operating, coordinating, and evaluating projects directly or through grants and contracts with public and private agencies for the development of more effective programs to reduce the use and sale of illegal drugs by juveniles, including education, prevention, treatment and enforcement programs.

"(b) The grants made under this section can be used for any of the following specific purposes:

"(1) To reduce the participation of juveniles in drug related crimes (including drug trafficking and drug use), particularly in and around elementary and secondary schools;

"(2) To develop within the juvenile justice system, including the juvenile corrections system, new and innovative means to address the problems of juveniles convicted of serious criminal, drug-related and gang-related offenses;

"(3) To reduce juvenile involvement in organized crime, drug and gang-related activity, particularly activities that involve the distribution of drugs by or to juveniles;

"(4) To reduce juvenile drug and gang-related activity in public housing projects;

"(5) To provide technical assistance and training to personnel and agencies responsible for the adjudicatory and corrections components of the juvenile justice system to identify drug-dependent juvenile offenders and to provide appropriate counseling and treatment to such offenders;

"(6) To promote the involvement of juveniles in lawful activities, including in-school education and prevention programs and after-school programs;

"(7) To facilitate Federal and State cooperation with local school officials to develop education, prevention and treatment programs for juveniles who are likely to participate in the drug trafficking, drug use or gang-related activities;

"(8) To prevent juvenile drug and gang involvement in public housing projects through programs establishing youth sports and other activities, including girls club, boys club, scout troops, and little league;

"(9) To provide pre- and post-trial drug abuse treatment to juveniles in the juvenile justice system; with the highest possible priority to providing drug abuse treatment to drug-dependent pregnant juveniles and drug-dependent juvenile mothers; and

"(10) To provide drug abuse education and prevention involving police and juvenile justice personnel in demand reduction programs.

"(c) Of the funds made available to each State under this section (Formula Grants) 50 per centum of the funds made available to each State in any fiscal year shall be used

for juvenile drug supply reduction programs and 50 per centum shall be used for juvenile drug demand reduction programs.

"SPECIAL EMPHASIS DRUG DEMAND REDUCTION AND ENFORCEMENT GRANTS

"SEC. 232. (a) The purpose of this section is to provide additional Federal assistance and support to identify promising new juvenile drug demand reduction and enforcement programs, to replicate and demonstrate these programs to serve as national, regional or local models that could be used, in whole or in part, by other public and private juvenile justice programs, and to provide technical assistance and training to public or private organizations to implement similar programs. In making grants under this section, the Administrator shall give priority to programs aimed at juvenile involvement in organized gang- and drug-related activities, including supply and demand reduction programs.

"(b) The Administrator is authorized to make grants to, or enter into contracts with, public or private agencies, institutions, or organizations or individuals to carry out any purpose authorized in section 231. The Administrator shall have final authority over all funds awarded under this subchapter.

"(c) Of the total amount appropriated for this subchapter, 20 per centum shall be reserved and set aside for this section in a special discretionary fund for use by the Administrator to carry out the purposes specified in section 231. Grants made under this section may be made for amounts up to 100 per centum of the costs of the programs or projects.

"AUTHORIZATION

"SEC. 233. There is authorized to be appropriated $100,000,000 in fiscal year 1991 and such sums as may be necessary in fiscal year 1992 to carry out the purposes of this subpart.

"ALLOCATION OF FUND

"SEC. 234. Of the total amounts appropriated under this subpart in any fiscal year to carry out the purposes of section 231 (Formula Grants) the amount remaining after setting aside the amounts required to be reserved to carry out section 232 (Discretionary Grants) shall be allocated as follows:

"(1) $400,000 shall be allocated to each of the participating States; and

"(2) of the total funds remaining after the allocation under paragraph (a), there shall be allocated to each State an amount which bears the same ratio to the amount of remaining funds described in this paragraph as the population of such State bears to the population of all the States.

"APPLICATION

"SEC. 235. (a) Each State applying for grants under section 231 (Formula Grants) and each public or private entity applying for grants under section 232 (Discretionary Grants) shall submit an application to the Administrator in such form and containing such information as the Administrator shall prescribe.

"(b) To the extent practical, the Administrator shall prescribe regulations governing applications for this subpart that are substantially similar to the applications required under part I (general juvenile justice formula grant) and part C (special emphasis prevention and treatment grants), including the procedures relating to competition.

"(c) In addition to the requirements prescribed in subsection (b), each State application submitted under section 231 shall include a detailed description of how the funds made available shall be coordinated with Federal assistance provided in parts B and C of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 and by the Bureau of Justice Assistance under the Drug Control and System Improvement Grant program.

"REVIEW AND APPROVAL OF APPLICATIONS

"SEC. 236. The procedures and time limits imposed on the Federal and State Governments under sections 505 and 508 respectively, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 relating to the review of applications and distribution of Federal funds shall apply to the review of applications and distribution of funds under this subpart.".

SEC. 1302. CONFORMING AMENDMENTS.

(a) TITLE II.—Section 291 of title II of the Juvenile Justice Delinquency Prevention Act of 1974 (42 U.S.C. 5671) is amended—

(1) in subsection (a)—

(A) in paragraph (1) by striking "(other than part D)"; and

(B) and by striking paragraph (2) in its entirety; and

(2) in subsection (b) by striking "(other than part D)".

(b) PART D.—Part D of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 is repealed.

(c) PART E.—Part E of title II of such Act is redesignated as part D.

SEC. 1303. TREATMENT OF VIOLENT JUVENILES AS ADULTS.

(a) DESIGNATION OF UNNUMBERED PARAGRAPHS.—Section 5032 of title 18, United States Code, is amended by designating unnumbered paragraphs (1) through (11) as subsections (a) through (k), respectively.

(b) JURISDICTION OVER CERTAIN FIREARMS OFFENSES.—Section 5032(a)(3) of title 18, United States Code, as so designated by this section, is amended by striking "922(p)" and inserting "924 (b), (g), or (h)".

(c) ADULT STATUS OF JUVENILES WHO COMMIT FIREARMS OFFENSES.—Section 5032(d) of title 18, United States Code, as so designated by this section is amended—

(1) by striking "A juvenile" and inserting "(1) Except as provided in paragraphs (2) and (3), a juvenile";

(2) by striking ", except that," and inserting a period;

(3) by striking "with respect to" and inserting:

"(2) With respect to";

(4) by striking "; however, a juvenile" and inserting: "(3) A juvenile"; and

(5) by inserting in paragraph (2) "or section 924 (b), (g), or (h) of this title," after "959),".

(d) FACTORS FOR TRANSFERRING A JUVENILE TO ADULT STATUS.—Section 5032(e) of title 18, United States Code, as so designated by this section, is amended—

(1) by inserting "(1)" before "Evidence";

(2) by striking "intellectual development and psychological maturity;" and inserting "level of intellectual development and maturity; and";

(3) by inserting ", such as rehabilitation and substance abuse treatment," after "past treatment efforts";

(4) by striking "; the availability of programs designed to treat the juvenile's behavioral problems"; and

(5) by adding at the end the following:

"(2) In considering the nature of the offense, as required by this subsection, the court shall consider the extent to which the juvenile played a leadership role in an organization, or otherwise influenced other persons to take part in criminal activities, involving the use and distribution of controlled substances or firearms. Such factors, if found to exist, shall weigh heavily in favor of a transfer to adult status, but the absence of such factors shall not preclude a transfer to adult status.".

(e) WAIVING CONFIDENTIALITY IN CERTAIN JUVENILE PROCEEDINGS.—Section 5038 of title 18, United States Code, is amended by adding at the end the following:

"(g) In addition to any other provision of this section regarding disclosure of records if the law of the State in which a Federal juvenile delinquency proceeding takes place would permit or require the disclosure of records and information relating to a juvenile delinquency proceeding in certain circumstances, such disclosure shall be permitted under this section whenever the same circumstances exist.".

(f) CONFORMING AMENDMENT ADDING CERTAIN CONTROLLED SUBSTANCES OFFENSES AS REQUIRING FINGERPRINTING AND RECORDS FOR RECIDIVIST JUVENILES.—Sections 5038 (d) and (f) of title 18, United States Code, are amended by striking "or an offense described in section 841, 952(a), 955, or 959, of title 21," and inserting "or an offense described in section 401 of the Controlled Substances Act (21 U.S.C. 841) or section 1002(a), 1003, 1005, 1009, or 1010(b) (1), (2), or (3) of the Controlled Substances Import and Export Act (21 U.S.C. 952(a), 953, 955, 959, or 960(b) (1), (2), or (3)), or section 924 (b), (g) or (h) of this title,".

SEC. 1304. SERIOUS DRUG OFFENSES BY JUVENILES AS ARMED CAREER CRIMINAL ACT PREDICATES.

(a) ACT OF JUVENILE DELINQUENCY.—Section 924(e)(2)(A) of title 18, United States Code, is amended—

(1) by striking "or" at the end of clause (i);

(2) by striking "and" at the end of clause (ii) and inserting "or"; and

(3) by adding at the end thereof the following:

"(iii) any act of juvenile delinquency that if committed by an adult would be punishable under section 401(b)(1)(A) of the Controlled Substances Act (21 U.S.C. 841(b)(1)(A)); and".

(b) SERIOUS DRUG OFFENSE.—Section 924(e)(2)(C) of title 18, United States Code, is amended by adding "or serious drug offense" after "violent felony".

SEC. 1305. REDESIGNATION OF CONFUSING SECTIONS IN THE CONTROLLED SUBSTANCES ACT PERTAINING TO CHILDREN.

(a) SECTION 405—NEW SECTION 418.—(1) Section 405 of the Controlled Substances Act is redesignated as section 418.

(2) Section 418 of such Act (as redesignated by paragraph (1)) is amended—

(A) in subsection (a), by striking "section 405A" and inserting "section 419"; and

(B) in subsection (b) by striking "section 405A" and inserting "section 419".

(b) SECTION 405A—NEW SECTION 419.—Section 405A of the Controlled Substances Act is redesignated as section 419.

(c) SECTION 405B—NEW SECTION 420.—Section 405B of the Controlled Substances Act is redesignated as section 420.

(d) TRANSFER OF SECTION 5301 OF THE ANTI-DRUG ABUSE ACT OF 1988—NEW SECTION 421.—(1) Section 5301 of the Anti-Drug Abuse Act of 1988 is—

(A) transferred to the Controlled Substances Act; and

(B) redesignated as section 421 of the Controlled Substances Act.

(2) Section 421(a)(1) of the Controlled Substances Act, as amended by paragraph (1) of this subsection, is amended by striking "(as such terms are defined for purposes of the Controlled Substances Act)".

(e) CONFORMING AMENDMENTS TO OTHER SECTIONS.—(1) Section 401(b) of the Controlled Substances Act is amended by striking "section 405, 405A, or 405B" and inserting "section 418, 419, or 420".

(2) Section 401(c) of the Controlled Substances Act is amended by striking "section 405, 405A, or 405B" and inserting "section 418, 419, or 420".

(f) AMENDMENT TO TABLE OF CONTENTS.—The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended in part D of title II by striking the items for sections 405, 405A and 405B and inserting at the end thereof the following:

"418. Distribution to persons under age twenty-one.
"419. Distribution or manufacturing in or near schools and colleges.
"420. Employment of persons under 18 years of age.
"421. Denial of Federal benefits to drug traffickers and possessors.".

(g) TRANSFER OF SECTION 6486 OF THE ANTI-DRUG ABUSE ACT OF 1988—NEW SECTION 405.—(1) Section 6486 of the Anti-Drug Abuse Act of 1988 is—

(A) transferred to the Controlled Substances Act; and

(B) redesignated as section 405 of the Controlled Substances Act.

(2) Section 405 of the Controlled Substances Act, as amended by paragraph (1) of this subsection, is amended—

(A) in subsection (a), by—

(i) striking "of the Controlled Substances Act (21 U.S.C. 841(b)(1)(A))"; and

(ii) striking "of that Act (21 U.S.C. 841(b)(1)(A))";

(B) in subsection (c), by striking "as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802)"; and

(C) in subsection (j)(4), by striking "as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802)".

(3) The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (as amended by subsection (c) of this section) is amended in part D of title II by inserting after the item for section 404 the following:

"405. Civil penalty for possession of small amounts of certain controlled substances.".

(h) PART E OF THE CONTROLLED SUBSTANCES ACT.—

(1) SECTION 511A—NEW SECTION 518.—Section 511A of the Controlled Substances Act is redesignated as section 518.

(2) TRANSFER OF SECTION 1764 OF THE FOOD SECURITY ACT OF 1985.—Section 1764 of the Food Security Act of 1985 is—

(A) transferred to the Controlled Substances Act; and

(B) redesignated as section 519 of the Controlled Substances Act.

(3) AMENDMENT TO TABLE OF CONTENTS.—The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended in part E of title II by striking the items for section 511A and inserting at the end thereof the following:

"518. Expedited procedures for seized conveyances.
"519. Production control of controlled substances.".

SEC. 1306. CLARIFICATION OF ENHANCED PENALTIES UNDER CONTROLLED SUBSTANCES ACT.

(a) SECTION 418 (OLD SECTION 405).—Section 418 of the Controlled Substances Act (as redesignated by section 1507 of this Act) is amended—

(1) in subsection (a), by striking "punishable by (1) a term of imprisonment, or a fine, or both, up to twice that authorized by section 401(b)" and inserting "subject to (1) twice the maximum punishment authorized by section 401(b)"; and

(2) in subsection (b), by striking "punishable by (1) a term of imprisonment, or a fine, or both, up to three times that authorized by section 401(b)" and inserting "subject to (1) three times the maximum punishment authorized by section 401(b)".

(b) SECTION 419 (OLD SECTION 405A).—Section 419 of the Controlled Substances Act (as redesignated by section 1507 of this Act) is amended—

(1) in subsection (a), by striking "punishable (1) by a term of imprisonment, or a fine, or both, up to twice that authorized by section 401(b)" and inserting "subject to (1) twice the maximum punishment authorized by section 401(b)"; and

(2) in subsection (b)(1), by striking subparagraph (B) and inserting "(B) three times the maximum punishment authorized by section 401(b) for a first offense".

(c) SECTION 420 (OLD SECTION 405B).—Section 420 of the Controlled Substances Act (as redesignated by section 1507 of this Act) is amended—

(1) in subsection (b), by striking "is punishable by a term of imprisonment up to twice that authorized, or up to twice the fine authorized, or both," and inserting "is subject to twice the maximum punishment otherwise authorized"; and

(2) in subsection (c), by striking "is punishable by a term of imprisonment up to three times that authorized, or up to three times the fine authorized, or both," and inserting "is subject to three times the maximum punishment otherwise authorized".

### Subtitle I—Federal Prisoner Drug Testing

SEC. 1401. SHORT TITLE.

This subtitle may be cited as the "Federal Prisoner Drug Testing Act of 1990".

SEC. 1402. CONDITIONS ON PROBATION.

Section 3563(a) of title 18, United States Code, is amended—

(1) in paragraph (2), by striking out "and";

(2) in paragraph (3), by striking out the period and inserting in lieu thereof "; and";

(3) by adding a new paragraph (4), as follows:

"(4) for a felony, a misdemeanor, or an infraction, that the defendant—

"(A) pass a drug test prior to the imposition of such sentence;

"(B) refrain from any unlawful use of a controlled substance and submit to at least 2 periodic drug tests (as determined by the court) for use of a controlled substance."; and

(4) by adding at the end thereof and the following: "No action may be taken against a defendant pursuant to a drug test administered in accordance with paragraph (4) unless the drug test confirmation is a urine drug test confirmed using gas chromatography/mass spectometry techniques or such test as the Director of the Administrative Office of the United States Court after consultation with the Secretary of Health and Human Services may determine to be of equivalent accuracy.".

SEC. 1403. CONDITIONS ON SUPERVISED RELEASE.

Section 3583(d) of title 18, United States Code, is amended by inserting after the first sentence the following: "The court shall also order, as an explicit condition of supervised release, that the defendant pass a drug test prior to the imposition of such sentence and refrain from any unlawful use of a controlled substance and submit to at least 2 periodic drug tests (as determined by the court) for use of a controlled substance. No action may be taken against a defendant pursuant to a drug test administered in accordance the provisions of the preceding sentence unless the drug test confirmation is a urine drug test confirmed using gas chromatography/mass spectometry techniques or such test as the Director of the Administrative Office of the United States Court after consultation with the Secretary of Health and Human Services may determine to be of equivalent accuracy.".

SEC. 1404. CONDITIONS ON PAROLE.

Section 4209(a) of title 18, United States Code, is amended by inserting after the first sentence the following: "In every case, the Commission shall also impose as a condition of parole that the parolee pass a drug test prior to the imposition of such sentence and refrain from any unlawful use of a controlled substance and submit to at least 2 periodic drug tests (as determined by the Commission) for use of a controlled substance. No action may be taken against a defendant pursuant to a drug test administered in accordance the provision of the preceding sentence unless the drug test confirmation is a urine drug test confirmed using gas chromatography/mass spectometry techniques or such test as the Director of the Administrative Office of the United States Court after consultation with the Secretary of Health and Human Services may determine to be of equivalent accuracy.".

### Subtitle J—Boot Camps

SEC. 1451. BOOT CAMPS.

(a) IN GENERAL.—Not later than 1 year after the effective date of this section, the Attorney General shall establish within the Bureau of Prisons 10 military-style boot camp prisons (referred to in this subtitle as "boot camps"). The boot camps will be located on closed military installations on sites to be chosen by the Director of National Drug Control Policy, after consultation with the Director of the Bureau of Prisons, and will provide a highly regimented schedule of strict discipline, physical training, work, drill, and ceremony characteristic of military basic training as well as remedial education and treatment for substance abuse.

(b) CAPACITY.—Each boot camp shall be designed to accommodate between 200 and 300 inmates for periods of not less than 90 days and not greater than 120 days. Not more than 20 percent of the inmates shall be Federal prisoners. The remaining inmates shall be State prisoners who are accepted for participation in the boot camp program pursuant to subsection (d).

(c) FEDERAL PRISONERS.—Section 3582 of title 18, United States Code, is amended by adding at the end the following new subsection:

"(e) BOOT CAMP PRISON AS A SENTENCING ALTERNATIVE.—(1) The court, in imposing sentence in the circumstances described in paragraph (2), may designate the defendant as eligible for placement in a boot camp prison. The Bureau of Prisons shall deter-

mine whether a defendant so designated will be assigned to a boot camp prison.

"(2) A defendant may be designated as eligible for placement in boot camp prison if he or she—

"(A) is under 25 years of age;

"(B) has no prior conviction for which he or she has served more than 10 days incarceration; and

"(C) has been convicted of an offense involving a controlled substance punishable under the Controlled Substances Act or the Controlled Substances Export and Import Act, or any other offense if the defendant, at the time of arrest or at any time thereafter, tested positive for the presence of a controlled substance in his or her blood or urine,

and the sentencing court finds that the defendant's total offense level under the Federal sentencing guidelines is level 9 or less.

"(3) If the Director of the Bureau of Prisons finds that an inmate placed in a boot camp prison pursuant to this subsection has willfully refused to comply with the conditions of confinement in the boot camp, the Director may transfer the inmate to any other correctional facility in the Federal prison system.

"(4) Successful completion of assignment to a boot camp shall constitute satisfaction of any period of active incarceration, but shall not affect any aspect of a sentence relating to a fine, restitution, or supervised release.".

(d) STATE PRISONERS.—(1) Any person who has been convicted of a criminal offense in any State, or who anticipates entering a plea of guilty of such offense, but who has not yet been sentenced, may apply to be assigned to a boot camp. Such application shall be made to the Bureau of Prisons and shall be in the form designated by the Director of the Bureau of Prisons and shall contain a statement certified by counsel for the applicant that at the time of sentencing the applicant is likely to be eligible for assignment to a boot camp pursuant to paragraph (2). The Bureau of Prisons shall respond to such applications within 14 days so that the sentencing court is aware of the result of the application at the time of sentencing. In responding to such applications, the Bureau of Prisons shall determine, on the basis of the availability of space, whether a defendant who becomes eligible for assignment to a boot camp prison at the time of sentencing will be so assigned.

(2) A person convicted of a State criminal offense shall be eligible for assignment to a boot camp if he or she is—

(A) under 25 years of age;

(B) has no prior conviction for which he or she has served more than 10 days incarceration;

(C) has been sentenced to a term of imprisonment that will be satisfied under the law of the sentencing State if the defendant successfully completes a term of not less than 90 days nor more than 120 days in a boot camp;

(D) has been designated by the sentencing court as eligible for assignment to a boot camp; and

(E) has been convicted of an offense involving a controlled substance (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802)), or any other offense if the defendant, at the time of arrest or at any time thereafter, tested positive for the presence of a controlled substance in his or her blood or urine.

(3) If the Director of the Bureau of Prisons finds that an inmate placed in a boot camp prison pursuant to this subsection has willfully refused to comply with the conditions of confinement in the boot camp, the Director may transfer the inmate back to the jurisdiction of the State sentencing court.

(4) Each State that refers a prisoner to a boot camp shall reimburse the Bureau of Prisons for—

(A) 80 percent of the cost incurred by the Bureau of Prisons for incarceration and treatment and other services to such prisoner that successfully completes the program; and

(B) 100 percent of such costs for each prisoner that enters a boot camp but does not successfully complete the program.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $150,000,000 for fiscal year 1991 of which not more than $12,500,000 shall be used to convert each closed military base to a boot camp prison and not more than $2,500,000 shall be used to operate each boot camp for one fiscal year. Such amounts shall be in addition to any other amounts authorized to be appropriated to the Bureau of Prisons.

### Subtitle K—Regional Prisons

SEC. 1501. REGIONAL PRISONS.

(a) FINDINGS.—The Congress makes the following findings:

(1) The total population of Federal, State, and local prisons and jails increased by 84 percent between 1980 and 1988 and currently numbers more than 900,000 people.

(2) More than 60 percent of all prisoners have a history of drug abuse or are regularly using drugs while in prison, but only 11 percent of State prison inmates and 7 percent of Federal prisoners are enrolled in drug treatment programs. Hundreds of thousands of prisoners are not receiving needed drug treatment while incarcerated, and the number of such persons is increasing rapidly.

(3) Drug-abusing prisoners are highly likely to return to crime upon release, but the recidivism rate is much lower for those who successfully complete treatment programs. Providing drug treatment to prisoners during incarceration therefore provides an opportunity to break the cycle of recidivism, reducing the crime rate and future prison overcrowding.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for the fiscal year ending September 30, 1991, the following amounts: (1) $600,000,000 for the construction of 10 regional prisons; and (2) $100,000,000 for the operation of such regional prisons for one year. Such amounts shall be in addition to any other amounts authorized to be appropriated to the Bureau of Prisons.

(c) LOCATION AND POPULATION.—The regional prisons authorized by this section shall be located in places chosen by the Director of National Drug Control Policy, after consulting with the Director of the Bureau of Prisons, not less than 6 months after the effective date of this section. Each such facility shall be used to accommodate a population consisting of State and Federal prisoners in the following proportions: 20 percent Federal; 80 percent State.

(d) ELIGIBILITY OF PRISONERS.—The regional prisons authorized by this section shall be used to incarcerate State and Federal prisoners who have release dates of not more than 2 years from the date of assignment to the prison and who have been found to have substance abuse problems requiring long-term treatment.

(e) STATE RESPONSIBILITIES.—(1) The States shall select prisoners for assignment to the regional prisons who, in addition to satisfying eligibility criteria otherwise specified in this section, have long-term drug abuse problems and serious criminal histories. Selection of such persons is necessary for the regional prison program to have the maximum impact on the crime rate and future prison overcrowding, since such persons are the ones most likely to commit new crimes following release. Prisoners selected for assignment to a regional prison must agree to the assignment.

(2) Any State seeking to refer a State prisoner to a regional prison shall submit to the Director of the Bureau of Prisons (referred to as the "Director") an aftercare plan setting forth the provisions that the State will make for the continued treatment of the prisoner in a therapeutic community following release. The aftercare plan shall also contain provisions for vocational job training where appropriate.

(3) The State referring the prisoner to the regional prison (referred to as the "sending State") shall reimburse the Bureau of Prisons for the full cost of the incarceration and treatment of the prisoner, except that if the prisoner successfully completes the treatment program, the Director shall return to the sending State 25 percent of the amount paid for that prisoner. The total amount returned to each State under this paragraph in each fiscal year shall be used by that State to provide the aftercare treatment required by paragraph (2).

(f) POWERS OF THE DIRECTOR.—(1) The Director shall have the exclusive right to determine whether or not a State or Federal prisoner satisfies the eligibility requirements of this section, and whether the prisoner is to be accepted into the regional prison program. The Director shall have the right to make this determination after the staff of the regional prison has had an opportunity to interview the prisoner in person.

(2) The Director shall have the exclusive right to determine if a prisoner in the regional treatment program is complying with all of the conditions and requirements of the program. The Director shall have the authority to return any prisoner not complying with the conditions and requirements of the program to the sending State at anytime. The Director shall notify the sending State whenever such prisoner is returned that the prisoner has not successfully completed the treatment program.

### Subtitle L—Victims of Child Abuse Act of 1990

SEC. 1551. SHORT TITLE.

This subtitle may be cited as the "Victims of Child Abuse Act of 1990".

### CHAPTER 1—DRUG-RELATED CHILD ABUSE; HABITUAL CHILD ABUSE OFFENSE

SEC. 1555. ABUSE OF CHILDREN IN CONNECTION WITH VIOLATIONS OF THE DRUG LAWS.

(a) IN GENERAL.—Chapter 7 of title 18, United States Code, is amended by adding at the end thereof the following new section:

**"§ 116. Abuse of children in connection with drug offenses**

"(a) Whoever, in a circumstance described in subsection (b), commits a crime of violence (as defined in section 16 of this title) in violation of the laws of the State in which the act takes place, or of the United States, in which the victim is a person under

the age of 18, shall be guilty of a class B felony.

"(b) There is Federal jurisdiction for an offense described in subsection (a) if the offense was committed in furtherance of, during and in relation to, or as part of an attempt to conceal or avoid apprehension for, a violation of the Controlled Substances Act (21 U.S.C. 801 et seq.) or the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.).".

(b) CHAPTER ANALYSIS.—The chapter analysis for chapter 7 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"116. Abuse of children in connection with drug offenses.".

(c) DIRECTION TO THE ATTORNEY GENERAL.—Not later than 90 days after the date of enactment of this chapter, the Attorney General shall amend the United States Attorneys' Manual to reflect the intent of Congress that Federal prosecution occur only in egregious cases of drug-related abuse and neglect.

(d) DIRECTION TO SENTENCING COMMISSION.—Pursuant to its authority under section 994(p) of title 28, United States Code, the United States Sentencing Commission shall promulgate guidelines or amend existing guidelines to provide that a defendant convicted of an offense under section 116 of title 18, United States Code, who has previously been convicted on 2 separate occasions in the court of any State or the District of Columbia, or of the United States, of any sexual offense, or any crime of violence, in which the victim was a person under the age of 18, shall receive the maximum punishment authorized by law.

## CHAPTER 2—IMPROVING INVESTIGATION AND PROSECUTION OF CHILD ABUSE CASES

SEC. 1561. FINDINGS.

The Congress finds that—

(1) over 2,000,000 children are abused or neglected each year, drug abuse accounting for one-third of the cases;

(2) the investigation and prosecution of child abuse cases is extremely complex, involving numerous agencies and dozens of personnel;

(3) in such cases, too often the system does not pay sufficient attention to the needs and welfare of the child victim, aggravating the trauma that the child victim has already experienced;

(4) multidisciplinary child abuse investigation and prosecution programs have been developed that increase the reporting of child abuse cases, reduce the trauma to the child victim, and increase the successful prosecution of child abuse offenders; and

(5) such programs have proven effective, and with targeted Federal assistance, could be duplicated in many jurisdictions throughout the country.

SEC. 1562. AUTHORITY OF THE ADMINISTRATOR TO MAKE GRANTS.

(a) IN GENERAL.—The Administrator of the Office of Juvenile Justice and Delinquency Prevention (referred to as the "Administrator"), in consultation with officials of the Department of Health and Human Services, shall make grants under subpart II of part C of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665 et seq.) to develop and implement multidisciplinary child abuse investigation and prosecution programs.

(b) GRANT CRITERIA.—(1) The Administrator shall establish the criteria to be used in evaluating applications for grants under this section.

(2) In general, the grant criteria established pursuant to paragraph (1) shall require that a program—

(A) include a written agreement between local law enforcement, social service, health, and other related agencies to coordinate child abuse investigation, prosecution, treatment, and counseling services;

(B) identify an appropriate site for referring, interviewing, treating, and counseling child victims of sexual and serious physical abuse and neglect (referred to as the "counseling center");

(C) refer all sexual and serious physical abuse and neglect cases to the counseling center not later than 24 hours after notification of an incident of abuse;

(D) conduct all initial interviews jointly by personnel from law enforcement, health, and social service agencies;

(E) require, to the extent practicable, the same agency representative who conducts an initial interview to conduct all subsequent interviews;

(F) require, to the extent practicable, that all interviews and meetings with a child victim occur at the counseling center;

(G) coordinate each step of the investigation process to minimize the number of interviews that a child victim must attend;

(H) designate a director for the multidisciplinary program;

(I) assign a volunteer or staff advocate to each child in order to assist the child and, when appropriate, the child's family, throughout each step of judicial proceedings; and

(J) meet such other criteria as the Administrator shall establish by regulation.

(c) DISTRIBUTION OF GRANTS.—In awarding grants under this section, the Administrator shall ensure that grants are distributed to both large and small states and to rural, suburban, and urban jurisdictions.

SEC. 1563. GRANTS FOR SPECIALIZED TECHNICAL ASSISTANCE AND TRAINING PROGRAMS.

(a) IN GENERAL.—The Administrator shall make grants under subpart II of part C of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665 et seq.) to national organizations to provide technical assistance and training to attorneys and others instrumental to the criminal prosecution of child abuse cases in State or Federal courts, for the purpose of improving the quality of criminal prosecution of such cases.

(b) GRANTEE ORGANIZATIONS.—An organization to which a grant is made pursuant to subsection (a) shall be one that has, or is affiliated with one that has, broad membership among attorneys who prosecute criminal cases in State courts and has demonstrated experience in providing training and technical assistance for prosecutors.

SEC. 1564. AUTHORIZATIONS OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this chapter—

(1) $20,000,000 in fiscal year 1991; and

(2) such sums as may be necessary to carry out this chapter in each of fiscal years 1992 and 1993.

(b) USE OF FUNDS.—Of the amounts appropriated under subsection (a), not less than 90 percent shall be used for grants under section 1562.

## CHAPTER 3—COURT-APPOINTED SPECIAL ADVOCATE PROGRAM

SEC. 1565. FINDINGS.

The Congress finds that—

(1) the National Court-Appointed Special Advocate provides training and technical assistance to a network of 13,000 volunteers in 377 programs operating in 47 States; and

(2) in 1988, these volunteers represented 40,000 children, representing approximately 15 percent of the estimated 270,000 cases of child abuse and neglect in juvenile and family courts.

SEC. 1566. PURPOSE.

The purpose of this chapter is to ensure that by January 1, 1995, a court-appointed special advocate shall be available to every victim of child abuse or neglect in the United States that needs such an advocate.

SEC. 1567. STRENGTHENING OF THE COURT-APPOINTED SPECIAL ADVOCATE PROGRAM.

(a) IN GENERAL.—The Administrator shall make grants under subpart II of part C of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665 et seq.) to expand the court-appointed special advocate program.

(b) GRANT CRITERIA.—(1) The Administrator shall establish criteria to be used in evaluating applications for grants under this section.

(2) In general, the grant criteria established pursuant to paragraph (1) shall require that a court-appointed special advocate program provide screening, training, and supervision of court-appointed special advocates in accordance with standards developed by the National Court-Appointed Special Advocate Association, including the requirements that—

(A) a court-appointed special advocate association program have a mission and purpose in keeping with the mission and purpose of the National Court-Appointed Special Advocate Association and that it abide by the National Court-Appointed Special Advocate Association Code of Ethics;

(B) a court-appointed special advocate association program operate with access to legal counsel;

(C) the management and operation of a court-appointed special advocate program assure adequate supervision of court-appointed special advocate volunteers;

(D) a court-appointed special advocate program keep written records on the operation of the program in general and on each applicant, volunteer, and case;

(E) a court-appointed special advocate program have written management and personnel policies and procedures, screening requirements, and training curriculum;

(F) a court-appointed special advocate program not accept volunteers who have been convicted of, have charges pending for, or have in the past been charged with, a felony or misdemeanor involving a sex offense, violent act, child abuse or neglect, or related acts that would pose risks to children or to the court-appointed special advocate program's credibility;

(G) a court-appointed special advocate program have an established procedure to allow the immediate reporting to a court or appropriate agency of a situation in which a court-appointed special advocate volunteer has reason to believe that a child is in imminent danger;

(H) a court-appointed special advocate volunteer be an individual who has been screened and trained by a recognized court-appointed special advocate program and appointed by the court to advocate for children who come into the court system primarily as a result of abuse or neglect; and

(I) a court-appointed special advocate volunteer serves the function of reviewing records, facilitating prompt, thorough

review of cases, and interviewing appropriate parties in order to make recommendations on what would be in the best interests of the child.

(3) In awarding grants under this section, the Administrator shall ensure that grants are distributed to localities that have no existing court-appointed special advocate program and to programs in need of expansion.

SEC. 1568. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this chapter—

(1) $5,000,000 in fiscal year 1991; and

(2) such sums as may be necessary to carry out this chapter in each of fiscal years 1992 and 1993.

CHAPTER 4—CHILD ABUSE TRAINING PROGRAMS FOR JUDICIAL PERSONNEL AND PRACTITIONERS

SEC. 1571. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) a large number of juvenile and family courts are inundated with increasing numbers of cases due to increased reports of abuse and neglect, increasing drug-related maltreatment, and insufficient court resources;

(2) the amendments made to the Social Security Act by the Adoption Assistance and Child Welfare Act of 1980 make substantial demands on the courts handling abuse and neglect cases, but provide no assistance to the courts to meet those demands;

(3) the Adoption and Child Welfare Act of 1980 requires courts to—

(A) determine whether the agency made reasonable efforts to prevent foster care placement;

(B) approve voluntary nonjudicial placement; and

(C) provide procedural safeguards for parents when their parent-child relationship is affected;

(4) social welfare agencies press the courts to meet such requirements, yet scarce resources often dictate that courts comply pro forma without undertaking the meaningful judicial inquiry contemplated by Congress in the Adoption and Child Welfare Act of 1980;

(5) compliance with the Adoption and Child Welfare Act of 1980 and overall improvements in the judicial response to abuse and neglect cases can best come about through action by top level court administrators and judges with administrative functions who understand the unique aspects of decisions required in child abuse and neglect cases; and

(6) the Adoption and Child Welfare Act of 1980 provides financial incentives to train welfare agency staff to meet the requirements, but provides no resources to train judges.

(b) PURPOSE.—The purpose of this chapter is to provide expanded technical assistance and training to judicial personnel and attorneys, particularly personnel and practitioners in juvenile and family courts, to improve the judicial system's handling of child abuse and neglect cases with specific emphasis on the role of the courts in addressing reasonable efforts that can safely avoid unnecessary and unnecessarily prolonged foster care placement.

SEC. 1572. GRANTS FOR JUVENILE AND FAMILY COURT PERSONNEL.

In order to improve the judicial system's handling of child abuse and neglect cases, the Administrator shall make grants under subpart II of part C of title II of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5665 et seq.) for the purpose of providing—

(1) technical assistance and training to judicial personnel and attorneys, particularly personnel and practitioners in juvenile and family courts; and

(2) administrative reform in juvenile and family courts.

SEC. 1573. SPECIALIZED TECHNICAL ASSISTANCE AND TRAINING PROGRAMS.

(a) GRANTS TO DEVELOP MODEL PROGRAMS.—(1) The Administrator shall make grants to national organizations to develop 1 or more model technical assistance and training programs to improve the judicial system's handling of child abuse and neglect cases.

(2) An organization to which a grant is made pursuant to paragraph (1) shall be one that has broad membership among juvenile and family court judges and has demonstrated experience in providing training and technical assistance for judges, attorneys, child welfare personnel, and lay child advocates.

(b) GRANTS TO JUVENILE AND FAMILY COURTS.—(1) In order to improve the judicial system's handling of child abuse and neglect cases, the Administrator shall make grants to State courts or judicial administrators for programs that provide, contract for, or implement—

(A) training and technical assistance to judicial personnel and attorneys in juvenile and family courts; and

(B) administrative reform in juvenile and family courts.

(2) The criteria established for the making of grants pursuant to paragraph (1) shall give priority to programs that improve—

(A) procedures for determining whether child service agencies have made reasonable efforts to prevent placement of children in foster care;

(B) procedures for determining whether child service agencies have, after placement of children in foster care, made reasonable efforts to reunite the family; and

(C) procedures for coordinating information and services among health professionals, social workers, law enforcement professionals, prosecutors, defense attorneys, and juvenile and family court personnel, consistent with chapter 2.

SEC. 1574. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this chapter—

(1) $10,000,000 in fiscal year 1991; and

(2) such sums as may be necessary to carry out this chapter in each of fiscal years 1992, 1993, and 1994.

(b) USE OF FUNDS.—Of the amounts appropriated in paragraph (a), not less than 80 percent shall be used for grants under section 1573(b).

CHAPTER 5—FEDERAL VICTIMS' PROTECTIONS AND RIGHTS

SEC. 1575. CHILD VICTIMS' RIGHTS.

(a) CRIMINAL PROCEDURE.—The Federal Rules of Criminal Procedure are amended by inserting after rule 52 the following new rule:

"Rule 52.1 Child Victims' and Child Witnesses' Rights

"(a) DEFINITIONS.—For purposes of this rule—

"(1) the term 'adult attendant' means an adult described in subdivision (i) who accompanies a child throughout the judicial process for the purpose of providing emotional support;

"(2) the term 'child' means a person who is under the age of 18, or who is determined by a qualified professional to be of less than the age of 18 developmentally, who is or is alleged to be—

"(A) a victim of a crime of physical abuse, sexual abuse, or exploitation; or

"(B) a witness to a crime committed against another person;

"(3) the term 'child abuse' means the physical or mental injury, sexual abuse or exploitation, negligent treatment, or maltreatment of a child;

"(4) the term 'exploitation' means child pornography or child prostitution;

"(5) the term 'multidisciplinary child abuse team' means a professional unit composed of representatives from health, social service, law enforcement, and legal service agencies to coordinate the assistance needed to handle cases of child abuse;

"(6) the term 'sexual abuse' includes the employment, use, persuasion, inducement, enticement, or coercion of a child to engage in, or assist another person to engage in, sexually explicit conduct or the rape, molestation, prostitution, or other form of sexual exploitation of children, or incest with children;

"(7) the term 'sexually explicit conduct' means actual or simulated—

"(A) sexual intercourse, including sexual contact in the manner of genital-genital, oral-genital, anal-genital, or oral-anal contact, whether between persons of the same or of opposite sex;

"(B) bestiality;

"(C) masturbation;

"(D) lascivious exhibition of the genitals or pubic area of a person or animal; or

"(E) sadistic or masochistic abuse;

"(8) the term 'sexual contact' means the intentional touching, either directly or through clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify sexual desire of any person; and

"(9) the term 'sex crime' means an act of sexual abuse that is a criminal act.

"(b) ALTERNATIVES TO LIVE IN-COURT TESTIMONY.—

"(1) *Child's Live Testimony by 2-way Closed Circuit Television.*

"(A) In a proceeding involving an alleged offense against a child or involving a child witness, the attorney for the government, the child's attorney, or a guardian ad litem appointed under subdivision (h) may apply for an order that the child's testimony be taken in a room outside the courtroom and be televised by 2-way closed circuit television. The person seeking such an order shall apply for such an order at least 5 days before the trial date, unless the court finds on the record that the need for such an order was not reasonably foreseeable.

"(B) The court may order that the testimony of the child be taken by closed-circuit television as provided in subparagraph (A) if the court finds that the child is unable to testify in open court in the presence of the defendant, jury, judge, and public, for any of the following reasons:

"(i) The child persistently refuses to testify despite the court's request to do so.

"(ii) The child is unable to testify because of fear, failure of memory, or similar circumstances.

"(iii) There is a substantial likelihood, established by expert testimony, that the child would suffer emotional trauma from testifying in open court.

"(iv) The child suffers a mental or other infirmity.

"(C) The court shall support a ruling on the child's inability to testify with findings on the record.

"(D) If the court orders the taking of testimony by television, the attorney for the government and the attorney for the defendant shall be present in a room outside the courtroom with the child and the child shall be subjected to direct and cross-examination. The only other persons who may be permitted in the room with the child during the child's testimony are—

"(i) the child's attorney or guardian ad litem appointed under subdivision (h);

"(ii) persons necessary to operate the closed-circuit television equipment; and

"(iii) other persons whose presence is determined by the court to be necessary to the welfare and well-being of the child, including an adult attendant.

The child's testimony shall be transmitted by closed circuit television into the courtroom for viewing and hearing by the defendant, jury, judge, and public. The defendant shall be provided with the means of private, contemporaneous communication with the defendant's attorney during the testimony. The closed circuit television transmission shall relay into the room in which the child is testifying the defendant's image, in view of the child, and the voice of the judge.

"(2) *Videotaped Deposition of Child.* (A) In a proceeding involving an alleged offense against a child or involving a child witness, the attorney for the government, the child's attorney, the child's parent or legal guardian, or the guardian ad litem appointed under subdivision (h) may apply for an order that a deposition be taken of the child's testimony and that the deposition be recorded and preserved on videotape.

"(B)(i) Upon timely receipt of an application described in subparagraph (A), the court shall make a preliminary finding regarding whether at the time of trial the child is likely to be unable to testify in open court in the physical presence of the defendant, jury, judge, and public for any of the following reasons:

"(I) The child will refuse to testify despite the court's request to do so.

"(II) The child will be unable to testify because of fear, failure of memory, or similar circumstances.

"(III) There is a substantial likelihood, established by expert testimony, that the child would suffer emotional trauma from testifying in open court.

"(IV) The child suffers a mental or other infirmity.

"(ii) If the court finds that the child is likely to be unable to testify in open court for any of the reasons stated in clause (i), the court shall order that the child's deposition be taken and preserved by videotape.

"(iii) The trial judge shall preside at the videotape deposition of a child and shall rule on all questions as if at trial. The only other persons who may be permitted to be present at the proceeding are

"(I) the attorney for the government;

"(II) the attorney for the defendant;

"(III) the child's attorney or guardian ad litem appointed under subdivision (h);

"(IV) persons necessary to operate the videotape equipment;

"(V) subject to clause (iv), the defendant; and

"(VI) other persons whose presence is determined by the court to be necessary to the welfare and well-being of the child.

The defendant shall be afforded the rights applicable to defendants during trial, including the right to an attorney, the right to be confronted with the witness against the defendant, and the right to cross-examine the child.

"(iv) If the preliminary finding of inability under clause (i) is based on evidence that the child is unable to testify in the physical presence of the defendant, the court may order that the defendant, including a defendant represented pro se, be excluded from the room in which the deposition is conducted. If the court orders that the defendant be excluded from the deposition room, the court shall order that 2-way closed circuit television equipment relay the defendant's image into the room in which the child is testifying, in view of the child, and the child's testimony into the room in which the defendant is viewing the proceeding, and that the defendant be provided with a means of private, contemporaneous communication with the defendant's attorney during the deposition.

"(C) If at the time of trial the court finds that the child is unable to testify as for a reason described in subparagraph (B)(i), the court may admit into evidence the child's videotaped deposition in lieu of the child's testifying at the trial. The court shall support a ruling under this subparagraph with findings on the record.

"(D) Upon timely receipt of notice that new evidence has been discovered after the original videotaping and before or during trial, the court, for good cause shown, may order an additional videotaped deposition. The testimony of the child shall be restricted to the matters specified by the court as the basis for granting the order.

"(E) In connection with the taking of a videotaped deposition under this paragraph, the court may enter a protective order for the purpose of protecting the privacy of the child.

"(F) The videotape of a deposition taken under this paragraph shall be destroyed 5 years after the date on which the trial court entered its judgment, but not before a final judgment is entered on appeal. The videotape shall become part of the court record and be kept by the court until it is destroyed.

"(c) COMPETENCY EXAMINATIONS.—

"(1) *Effect of Federal Rules of Evidence.* Nothing in this subdivision shall be construed to abrogate rule 601 of the Federal Rules of Evidence.

"(2) *Presumption.* A child is presumed to be competent.

"(3) *Requirement of Written Motion.* A competency examination regarding a child witness may be conducted by the court only upon written motion and offer of proof of incompetency by a party.

"(4) *Requirement of Compelling Reasons.* A competency examination regarding a child may be conducted only if the court determines, on the record, that compelling reasons exist. A child's age alone is not a compelling reason.

"(5) *Persons Permitted to be Present.* The only persons who may be permitted to be present at a competency examination are—

"(A) the judge;

"(B) the attorney for the government;

"(C) the attorney for the defendant;

"(D) a court reporter; and

"(E) persons whose presence, in the opinion of the court, is necessary to the welfare and well-being of the child, including the child's attorney, guardian ad litem, or adult attendant.

"(6) *Not Before Jury.* A competency examination regarding a child witness shall be conducted out of the sight and hearing of a jury.

"(7) *Direct Examination of Child.* Examination of a child related to competency shall normally be conducted by the court on the basis of questions submitted by the attorney for the government and the attorney for the defendant. The court may permit an attorney to examine a child directly on competency if the court is satisfied that the child will not suffer emotional trauma as a result of the examination.

"(8) *Appropriate Questions.* The questions asked at the competency examination of a child shall be appropriate to the age and developmental level of the child, shall not be related to the issues at trial, and shall focus on determining the child's ability to understand and answer simple questions.

"(9) *Psychological and Psychiatric Examinations.* Psychological and psychiatric examinations to assess the competency of a child witness shall not be ordered without a showing of compelling need.

"(d) PRIVACY PROTECTION.

"(1) *Confidentiality of Information.* (A) A person acting in a capacity described in subparagraph (B) in connection with a criminal proceeding shall—

"(i) keep all documents that disclose the name or any other information concerning a child in a secure place to which no person who does not have reason to know their contents has access; and

"(ii) disclose documents described in clause (i) or the information in them that concerns a child only to persons who, by reason of their participation in the proceeding, have reason to know such information.

"(B) Subparagraph (A) applies to—

"(i) all employees of the government connected with the case, including employees of the Department of Justice, any law enforcement agency involved in the case, and any person hired by the government to provide assistance in the proceeding;

"(ii) employees of the court;

"(iii) the defendant and employees of the defendant, including the attorney for the defendant and persons hired by the defendant or the attorney for the defendant to provide assistance in the proceeding; and

"(iv) members of the jury.

"(2) *Filing Under Seal.* All papers to be filed in court that disclose the name of or any other information concerning a child shall be filed under seal without necessity of obtaining a court order. The person who makes the filing shall submit to the clerk of the court—

"(A) the complete paper to be kept under seal; and

"(B) the paper with the portions of it that disclose the name of or other information concerning a child redacted, to be placed in the public record.

"(3) *Protective Orders.* (A) On motion by any person the court may issue an order protecting a child from public disclosure of the name of or any other information concerning the child in the course of the proceedings, if the court determines that there is a significant possibility that such disclosure would be detrimental to the child.

"(B) A protective order issued under subparagraph (A) may—

"(i) provide that the testimony of a child witness, and the testimony of any other witness, when the attorney who calls the witness has reason to anticipate that the name of or any other information concerning a

child may be divulged in the testimony, be taken in a closed courtroom; and

"(ii) provide for any other measures that may be necessary to protect the privacy of the child.

"(4) *Disclosure of Information.* This subdivision does not prohibit disclosure of the name of or other information concerning a child to the defendant, the attorney for the defendant, a multidisciplinary child abuse team, a guardian ad litem, or an adult attendant, or to anyone to whom, in the opinion of the court, disclosure is necessary to the welfare and well-being of the child.

"(e) CLOSING THE COURTROOM.—When a child testifies the court may order the exclusion from the courtroom of all persons, including members of the press, who do not have a direct interest in the case. Such an order may be made if the court determines on the record that requiring the child to testify in open court would cause substantial psychological harm to the child or would result in the child's inability to effectively communicate. Such an order shall be narrowly tailored to serve the government's specific compelling interest.

"(f) VICTIM IMPACT STATEMENT.—In preparing the presentence report pursuant to rule 32(c), the probation officer shall request information from the multidisciplinary child abuse team and other appropriate sources to determine the impact of the offense on the child victim and any other children who may have been affected. A guardian ad litem appointed under subdivision (h) shall make every effort to obtain and report information that accurately expresses the child's and the family's views concerning the child's victimization. A guardian ad litem shall use forms that permit the child to express the child's views concerning the personal consequences of the child's victimization, at a level and in a form of communication commensurate with the child's age and ability.

"(g) USE OF MULTIDISCIPLINARY CHILD ABUSE TEAMS.

"(1) *In General.* A multidisciplinary child abuse team shall be used when it is feasible to do so. The court shall work with State and local governments that have established multidisciplinary child abuse teams designed to assist child victims and child witnesses, and the court and the attorney for the government shall consult with the multidisciplinary child abuse team as appropriate.

"(2) *Role of Multidisciplinary Child Abuse Teams.* The role of the multidisciplinary child abuse team shall be to provide for a child services that the members of the team in their professional roles are capable of providing, including—

"(A) medical diagnoses and evaluation services, including provision or interpretation of x-rays, laboratory tests, and related services, as needed, and documentation of findings;

"(B) telephone consultation services in emergencies and in other situations;

"(C) medical evaluations related to abuse or neglect;

"(D) psychological and psychiatric diagnoses and evaluation services for the child, parent or parents, guardian or guardians, or other caregivers, or any other individual involved in a child victim or child witness case;

"(E) expert medical, psychological, and related professional testimony;

"(F) case service coordination and assistance, including the location of services available from public and private agencies in the community; and

"(G) training services for judges, litigators, court officers and others that are involved in child victim and child witness cases, in handling child victims and child witnesses.

"(h) GUARDIAN AD LITEM.

"(1) *In General.* The court may appoint a guardian ad litem for a child who was a victim of, or a witness to, a crime involving abuse or exploitation to protect the best interests of the child. In making the appointment, the court shall consider a prospective guardian's background in, and familiarity with, the judicial process, social service programs, and child abuse issues. The guardian ad litem shall not be a person who is or may be a witness in a proceeding involving the child for whom the guardian is appointed.

"(2) *Duties of Guardian Ad Litem.* A guardian ad litem may attend all the depositions, hearings, and trial proceedings in which a child participates, and make recommendations to the court concerning the welfare of the child. The guardian ad litem may have access to all reports, evaluations and records, except attorney's work product, necessary to effectively advocate for the child. A guardian ad litem shall marshal and coordinate the delivery of resources and special services to the child. A guardian ad litem shall not be compelled to testify in any court action or proceeding concerning any information or opinion received from the child in the course of serving as a guardian ad litem.

"(3) *Immunities.* A guardian ad litem shall be presumed to be acting in good faith and shall be immune from civil and criminal liability for complying with the guardian's lawful duties.

"(i) ADULT ATTENDANT.—A child testifying at or attending a judicial proceeding shall have the right to be accompanied by an adult attendant to provide emotional support to the child. The court, at its discretion, may allow the adult attendant to remain in close physical proximity to or in contact with the child while the child testifies. The court may allow the adult attendant to hold the child's hand or allow the child to sit on the adult attendant's lap throughout the course of the proceeding. An adult attendant shall not provide the child with an answer to any question directed to the child during the course of the child's testimony or otherwise prompt the child.

"(j) SPEEDY TRIAL.—In a proceeding in which a child is called to give testimony, on motion by the attorney for the government or a guardian ad litem, or on its own motion, the court may designate the case as being of special public importance. In cases so designated, the court shall, consistent with these rules, expedite the proceeding and ensure that it takes precedence over any other. The court shall ensure a speedy trial in order to minimize the length of time the child must endure the stress of involvement with the criminal process. When deciding whether to grant a continuance, the court shall take into consideration the age of the child and the potential adverse impact the delay may have on the child's well-being. The court shall make written findings of fact and conclusions of law when granting a continuance in cases involving a child.

"(k) EXTENSION OF PERIOD OF LIMITATIONS.—There is no limitation of time within which a prosecution must be commenced for a sex crime involving a child victim, regardless whether the crime involved force or resulted in serious physical injury or death. If, at any time that a cause of action for recovery of compensation for damage or injury to the person of a child exists, a criminal action is pending which arises out of the same occurrence and in which the child is the victim, the time during which the criminal action is pending shall not be counted as part of the time limited for the commencement of the civil action. As used in this subdivision, a criminal action is pending until its final adjudication in the trial court.".

(b) CIVIL PROCEDURE.—The Federal Rules of Civil Procedure are amended by inserting after rule 43 the following new rule:

**"Rule 43.1 Child Victims' and Child Witnesses' Rights**

"(a) DEFINITIONS.—For purposes of this rule—

"(1) the term 'adult attendant' means an adult described in subdivision (g) who accompanies a child throughout the judicial process for the purpose of providing emotional support;

"(2) the term 'child' means a person who is under the age of 18, or who is determined by a qualified professional to be of less than the age of 18 developmentally, who is or is alleged to be—

"(A) a victim of a crime of physical abuse, sexual abuse, or exploitation; or

"(B) a witness to a crime committed against another person;

"(3) the term 'child abuse' means the physical or mental injury, sexual abuse or exploitation, negligent treatment, or maltreatment of a child;

"(4) the term 'exploitation' means child pornography or child prostitution;

"(5) the term 'multidisciplinary child abuse team' means a professional unit composed of representatives from health, social service, law enforcement, and legal service agencies to coordinate the assistance needed to handle cases of child abuse;

"(6) the term 'sexual abuse' includes the employment, use, persuasion, inducement, enticement, or coercion of child to engage in, or assist another person to engage in, sexually explicit conduct or the rape, molestation, prostitution, or other form of sexual exploitation of children, or incest with children;

"(7) the term 'sexually explicit conduct' means actual or simulated—

"(A) sexual intercourse, including sexual contact in the manner of genital-genital, oral-genital, anal-genital, or oral anal contact, whether between persons of the same or of opposite sex;

"(B) bestiality;

"(C) masturbation;

"(D) lascivious exhibition of the genitals or pubic area of a person or animal; or

"(E) sadistic or masochistic abuse;

"(8) the term 'sexual contact' means the intentional touching, either directly or through clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify sexual desire of any person; and

"(9) the term 'sex crime' means an act of sexual abuse that is a criminal act.

"(b) ALTERNATIVES TO LIVE IN-COURT TESTIMONY.

"(1) *Child's Live Testimony by 2-way Closed Circuit Television.*

"(A) In a proceeding involving an alleged offense against a child or involving a child witness, the child's attorney or a guardian ad litem appointed under subdivision (f) may apply for an order that the child's testimony be taken in a room outside the

courtroom and be televised by 2-way closed circuit television. The person seeking such an order shall apply for such an order at least 5 days before the trial date, unless the court finds on the record that the need for such an order was not reasonably foreseeable.

"(B) The court may order that the testimony of the child be taken by closed-circuit television as provided in subparagraph (A) if the court finds that the child is unable to testify in open court in the presence of the parties, jury, judge, and public, for any of the following reasons:

"(i) The child persistently refuses to testify despite the court's request to do so.

"(ii) The child is unable to testify because of fear, failure of memory, or similar circumstances.

"(iii) There is a substantial likelihood, established by expert testimony, that the child would suffer emotional trauma from testifying in open court.

"(iv) The child suffers a mental or other infirmity.

"(C) The court shall support a ruling on the child's inability to testify with findings on the record.

"(D) If the court orders the taking of testimony by television, the attorneys for the parties shall be present in a room outside the courtroom with the child and the child shall be subjected to direct and cross-examination. The only other persons who may be permitted in the room with the child during the child's testimony are—

"(i) the child's attorney or guardian ad litem appointed under subdivision (f);

"(ii) persons necessary to operate the closed-circuit television equipment; and

"(iii) other persons whose presence is determined by the court to be necessary to the welfare and well-being of the child, including an adult attendant.

The child's testimony shall be transmitted by closed circuit television into the courtroom for viewing and hearing by the parties, jury, judge, and public. The parties shall be provided with the means of private, contemporaneous communication with their attorneys during the testimony. The closed circuit television transmission shall relay the child's testimony into the courtroom and the judge's voice into the room in which the child is testifying.

"(2) *Videotaped Deposition of Child.* (A) In a proceeding involving an alleged offense against a child or involving a child witness, the attorney for a party, the child's attorney, the child's parent or legal guardian, or the guardian ad litem appointed under subdivision (f) may apply for an order that a deposition be taken of the child's testimony and that the deposition be recorded and preserved on videotape.

"(B)(i) Upon timely receipt of an application described in subparagraph (A), the court shall make a preliminary finding regarding whether at the time of trial the child is likely to be unable to testify in open court in the physical presence of the parties, jury, judge, and public for any of the following reasons:

"(I) The child will refuse to testify despite the court's request to do so.

"(II) The child will be unable to testify because of fear, failure of memory, or similar circumstances.

"(III) There is a substantial likelihood, established by expert testimony, that the child would suffer emotional trauma from testifying in open court.

"(IV) The child suffers a mental or other infirmity.

"(ii) If the court finds that the child is likely to be unable to testify in open court for any of the reasons stated in clause (i), the court shall order that the child's deposition be taken and preserved by videotape.

"(iii) The trial judge shall preside at the videotape deposition of a child and shall rule on all questions as if at trial. The only other persons who may be permitted to be present at the proceeding are

"(I) the attorneys for the parties;

"(II) the child's attorney or guardian ad litem appointed under subdivision (f);

"(III) persons necessary to operate the videotape equipment;

"(IV) subject to clause (iv), the parties; and

"(V) other persons whose presence is determined by the court to be necessary to the welfare and well-being of the child.

"(iv) If the preliminary finding of inability under clause (i) is based on evidence that the child is unable to testify in the physical presence of one of the parties, the court may order that the party, including a party represented pro se, be excluded from the room in which the deposition is conducted. If the court orders that a party be excluded from the deposition room, the court shall order that the party be provided with a means of private, contemporaneous communication with the party's attorney during the deposition.

"(C) If at the time of trial the court finds that the child is unable to testify as for a reason described in subparagraph (B)(i), the court may admit into evidence the child's videotaped deposition in lieu of the child's testifying at the trial. The court shall support a ruling under this subparagraph with findings on the record.

"(D) Upon timely receipt of notice that new evidence has been discovered after the original videotaping and before or during trial, the court, for good cause shown, may order an additional videotaped deposition. The testimony of the child shall be restricted to the matters specified by the court as the basis for granting the order.

"(E) In connection with the taking of a videotaped deposition under this paragraph, the court may enter a protective order for the purpose of protecting the privacy of the child.

"(F) The videotape of a deposition taken under this paragraph shall be destroyed 5 years after the date on which the trial court entered its judgment, but not before a final judgment is entered on appeal. The videotape shall become part of the court record and be kept by the court until it is destroyed.

"(c) COMPETENCY EXAMINATIONS.

"(1) *Effect of Federal Rules of Evidence.* Nothing in this subdivision shall be construed to abrogate rule 601 of the Federal Rules of Evidence.

"(2) *Presumption.* A child is presumed to be competent.

"(3) *Requirement of Written Motion.* A competency examination regarding a child witness may be conducted by the court only upon written motion and offer of proof of incompetency by a party.

"(4) *Requirement of Compelling Reasons.* A competency examination regarding a child may be conducted only if the court determines, on the record, that compelling reasons exist. A child's age alone is not a compelling reason.

"(5) *Persons Permitted to be Present.* The only persons who may be permitted to be present at a competency examination are—

"(A) the judge;

"(B) the attorneys for the parties;

"(C) a court reporter; and

"(D) persons whose presence, in the opinion of the court, is necessary to the welfare and well-being of the child, including the child's attorney, guardian ad litem, or adult attendant.

"(6) *Not Before Jury.* A competency examination regarding a child witness shall be conducted out of the sight and hearing of a jury.

"(7) *Direct Examination of Child.* Examination of a child related to competency shall normally be conducted by the court on the basis of questions submitted by the attorneys for the parties. The court may permit an attorney to examine a child directly on competency if the court is satisfied that the child will not suffer emotional trauma as a result of the examination.

"(8) *Appropriate Questions.* The questions asked at the competency examination of a child shall be appropriate to the age and developmental level of the child, shall not be related to the issues at trial, and shall focus on determining the child's ability to understand and answer simple questions.

"(9) *Psychological and Psychiatric Examinations.* Psychological and psychiatric examinations to assess the competency of a child witness shall not be ordered without a showing of compelling need.

"(d) PRIVACY PROTECTION.

"(1) *Confidentiality of Information.* (A) A person acting in a capacity described in subparagraph (B) in connection with a civil proceeding shall—

"(i) keep all documents that disclose the name or any other information concerning a child in a secure place to which no person who does not have reason to know their contents has access; and

"(ii) disclose documents described in clause (i) or the information in them that concerns a child only to persons who, by reason of their participation in the proceeding, have reason to know such information.

"(B) Subparagraph (A) applies to—

"(i) all employees of any government agency that may become connected with the case, including employees of the Department of Justice, any law enforcement agency involved in the case, and any person hired by the government to provide assistance in the proceeding;

"(ii) employees of the court;

"(iii) the parties and employees of the parties, including the attorneys for the parties and persons hired by the parties or an attorney for a party to provide assistance in the proceeding; and

"(iv) members of the jury.

"(2) *Filing Under Seal.* All papers to be filed in court that disclose the name of or any other information concerning a child shall be filed under seal without necessity of obtaining a court order. The person who makes the filing shall submit to the clerk of the court—

"(A) the complete paper to be kept under seal; and

"(B) the paper with the portions of it that disclose the name of or other information concerning a child redacted, to be placed in the public record.

"(3) *Protective Orders.* (A) On motion by any person the court may issue an order protecting a child from public disclosure of the name of or any other information concerning the child in the course of the proceedings, if the court determines that there is a significant possibility that such disclosure would be detrimental to the child.

"(B) A protective order issued under subparagraph (A) may—

"(i) provide that the testimony of a child witness, and the testimony of any other witness, when the attorney who calls the witness has reason to anticipate that the name of or any other information concerning a child may be divulged in the testimony, be taken in a closed courtroom; and

"(ii) provide for any other measures that may be necessary to protect the privacy of the child.

"(4) *Disclosure of Information.* This subdivision does not prohibit disclosure of the name of or other information concerning a child to a party, an attorney for a party, a multidisciplinary child abuse team, a guardian ad litem, or an adult attendant, or to anyone to whom, in the opinion of the court, disclosure is necessary to the welfare and well-being of the child.

"(e) CLOSING THE COURTROOM.—When a child testifies the court may order the exclusion from the courtroom of all persons, including members of the press, who do not have a direct interest in the case. Such an order may be made if the court determines on the record that requiring the child to testify in open court would cause substantial psychological harm to the child or would result in the child's inability to effectively communicate.

"(f) GUARDIAN AD LITEM.

"(1) *In General.* The court may appoint a guardian ad litem for a child who was a victim of, or a witness to, a crime involving abuse or exploitation to protect the best interests of the child. In making the appointment, the court shall consider a prospective guardian's background in, and familiarity with, the judicial process, social service programs, and child abuse issues. The guardian ad litem shall not be a person who is or may be a witness in a proceeding involving the child for whom the guardian is appointed.

"(2) *Duties of Guardian Ad Litem.* A guardian ad litem may attend all the depositions, hearings, and trial proceedings in which a child participates, and make recommendations to the court concerning the welfare of the child. The guardian ad litem may have access to all reports, evaluations and records, except attorney's work product, necessary to effectively advocate for the child. A guardian ad litem shall marshal and coordinate the delivery of resources and special services to the child. A guardian ad litem shall not be compelled to testify in any court action or proceeding concerning any information or opinion received from the child in the course of serving as a guardian ad litem.

"(3) *Immunities.* A guardian ad litem shall be presumed to be acting in good faith and shall be immune from civil and criminal liability for complying with the guardian's lawful duties.

"(g) ADULT ATTENDANT.—A child testifying at or attending a judicial proceeding shall have the right to be accompanied by an adult attendant to provide emotional support to the child. The court, at its discretion, may allow the adult attendant to remain in close physical proximity to or in contact with the child while the child testifies. The court may allow the adult attendant to hold the child's hand or allow the child to sit on the adult attendant's lap throughout the course of the proceeding. An adult attendant shall not provide the child with an answer to any question directed to the child during the course of the child's testimony or otherwise prompt the child.".

(c) EVIDENCE.—The Federal Rules of Evidence are amended by inserting after rule 803 the following new rule:

**"Rule 803.1 Child Victims' and Child Witnesses' Testimony**

"(a) Hearsay exception for out-of-court statements—

"(1) In general.—An out-of-court statement made by a child of less than 13 years of age concerning conduct related to alleged completed or attempted crimes of sexual abuse, physical abuse, or exploitation of the child or concerning a crime against another person witnessed by the child that is not otherwise admissible in a judicial proceeding is not excluded by the hearsay rule if—

"(A) the child testifies at the proceeding, or testifies by means of videotaped deposition or closed-circuit television, and at the time of the taking of the testimony is subject to cross-examination concerning the out-of-court statement;

"(B) the court finds that the child's out-of-court statement possesses particularized guarantees of trustworthiness; or

"(C) the court finds that the child is unable to testify effectively for any of the following reasons:

"(i) The child persistently refuses to testify despite the court's request to do so.

"(ii) The child is unable to testify because of fear, failure of memory, or similar circumstances.

"(iii) There is a substantial likelihood, established by expert testimony, that the child would suffer emotional trauma from testifying in open court or by means of videotaped deposition or closed-circuit television.

"(iv) The child suffers a mental or other infirmity.

"(v) A privilege precludes taking the child's testimony in open court or by means of videotaped deposition or closed-circuit television.

"(vi) The child has died or is absent from the jurisdiction.

"(2) Guarantees of trustworthiness.—In determining whether a statement possesses particularized guarantees of trustworthiness under paragraph (1)(B), the court may consider—

"(i) the child's knowledge of the event;

"(ii) the age and maturity of the child;

"(iii) the degree of certainty that the statement was in fact made by the child;

"(iv) any apparent motive the child may have had to falsify or distort the event, including bias, corruption, or coercion;

"(v) the timing of the child's statement;

"(vi) whether more than one person heard the statement;

"(vii) whether the child was suffering pain or distress when making the statement;

"(viii) the nature and duration of any alleged abuse;

"(ix) whether the child's young age makes it unlikely that the child fabricated a statement that represents a graphic, detailed account beyond the child's experience;

"(x) whether the statement has internal consistency or coherence and uses terminology appropriate to the child's age;

"(xi) whether the statement is spontaneous or directly responsive to questions;

"(xii) whether the statement is suggestive due to improperly leading questions; and

"(xiii) whether extrinsic evidence exists to show the defendant's opportunity to commit the act complained of in the child's statement.

"(3) Notice.—The proponent of the admission of an out-of-court statement shall notify the adverse party of the proponent's intention to offer the statement and of the content of the statement sufficiently in advance of the proceeding to provide the adverse party with a fair opportunity to prepare a response to the statement before the proceeding at which it is to be offered.

"(4) Findings.—The court shall support with findings on the record any rulings pertaining to the child's inability and the trustworthiness of an out-of-court statement.

"(b) Testimonial aids.—The court may permit a child to use anatomical dolls, puppets, drawings, mannequins, or any other demonstrative device the court deems appropriate for the purpose of assisting a child in testifying.".

(d) VIOLATION OF RULE REGARDING DISCLOSURE.—

(1) PUNISHMENT AS CONTEMPT.—Chapter 21 of title 18, United States Code, is amended by adding at the end thereof the following new section:

**"§ 403. Protection of the privacy of child victims and child witnesses**

"A violation of rule 43.1(d)(1) of the Federal Rules of Civil Procedure or rule 52.1(d)(1) of the Federal Rules of Criminal Procedure shall constitute a criminal contempt classified as a Class A misdemeanor.".

(2) TECHNICAL AMENDMENT.—The chapter analysis for chapter 21, United States Code, is amended by adding at the end thereof the following new item:

"403. Protection of the privacy of child victims and child witnesses.".

SEC. 1576. CHILD ABUSE REPORTING.

(a) IN GENERAL.—A person who, while engaged in a professional capacity or activity described in subsection (b) on Federal land or in a federally operated (or contracted) facility, learns of facts that give reason to suspect that a child has suffered an incident of child abuse, shall as soon as possible make a report of the suspected abuse to the agency designated under subsection (d).

(b) COVERED PROFESSIONALS.—Persons engaged in the following professions and activities are subject to the requirements of subsection (a):

(1) Physicians, dentists, medical residents or interns, hospital personnel and administrators, nurses, health care practitioners, chiropractors, osteopaths, pharmacists, optometrists, podiatrists, emergency medical technicians, ambulance drivers, undertakers, coroners, medical examiners, and alcohol or drug treatment personnel.

(2) Religious healers, persons rendering spiritual treatment through prayer, and persons licensed to practice the healing arts.

(3) Psychologists, psychiatrists, and mental health professionals.

(4) Social workers, licensed or unlicensed marriage, family, or individual counselors, and clergy performing counseling roles.

(5) Teachers, teacher's aides or assistants, school counselors and guidance personnel, school officials, and school administrators.

(6) Child care workers and administrators.

(7) Law enforcement personnel, judges, probation officers, criminal prosecutors, and juvenile rehabilitation or detention facility employees.

(8) Foster parents.

(9) Commercial film and photo processors.

(c) DEFINITIONS.—For the purposes of this section—

(1) the term "child abuse" means the physical or mental injury, sexual abuse or exploitation, negligent treatment, or maltreatment of a child;

(2) the term "exploitation" means child pornography or child prostitution;

(3) the term "sexual abuse" includes the employment, use, persuasion, inducement, enticement, or coercion of a child to engage in, or assist another person to engage in, sexually explicit conduct or the rape, molestation, prostitution, or other form of sexual exploitation of children, or incest with children;

(4) the term "sexually explicit conduct" means actual or simulated—

(A) sexual intercourse, including sexual contact in the manner of genital-genital, oral-genital, anal-genital, or oral anal contact, whether between persons of the same or of opposite sex;

(B) bestiality;

(C) masturbation;

(D) lascivious exhibition of the genitals or pubic area of a person or animal; or

(E) sadistic or masochistic abuse; and

(5) the term "sexual contact" means the intentional touching, either directly or through clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify sexual desire of any person.

(d) AGENCY DESIGNATED TO RECEIVE REPORT AND ACTION TO BE TAKEN.—For all Federal lands and all federally operated (or contracted) facilities in which children are cared for or reside, the Attorney General shall designate an agency to receive and investigate the reports described in subsection (a). By formal written agreement, the designated agency may be a non-Federal agency. When such reports are received by social services or health care agencies, and involve allegations of sexual abuse, serious physical injury, or life-threatening neglect of a child, there shall be an immediate referral of the report to a law enforcement agency with authority to take emergency action to protect the child. All reports received shall be promptly investigated, and whenever appropriate, investigations shall be conducted jointly by social services and law enforcement personnel, with a view toward avoiding unnecessary multiple interviews with the child.

(e) REPORTING FORM.—In every federally operated (or contracted) facility, and on all Federal lands, a standard written reporting form, with instructions, shall be disseminated to all mandated reporter groups. Use of the form shall be encouraged, but its use shall not take the place of the immediate making of oral reports, telephonically or otherwise, when circumstances dictate.

(f) IMMUNITY FOR REPORTING AND ASSOCIATED ACTIONS.—All persons who, acting in good faith, make a report by subsection (a), or otherwise provide information or assistance in connection with a report, investigation, or legal intervention pursuant to a report, shall be immune from civil and criminal liability arising out of such actions. There shall be a presumption that any such persons acted in good faith. If a person is sued because of the person's performance of one of the above functions, and the defendant prevails in the litigation, the court may order that the plaintiff pay the defendant's legal expenses.

(g) CRIMINAL PENALTY FOR FAILURE TO REPORT.—(1) Chapter 110 of title 18, United States Code, is amended by adding at the end thereof the following new section:

**"§ 2258. Failure to report child abuse**

"A person who, while engaged in a professional capacity or activity described in subsection (b) of section 502 of the Victims of Child Abuse Act of 1990 on Federal land or in a federally operated (or contracted) facility, learns of facts that give reason to suspect that a child has suffered an incident of child abuse, as defined in subsection (c) of that section, and fails to make a timely report as required by subsection (a) of that section, shall be guilty of a Class B misdemeanor.".

(2) The chapter analysis for chapter 110, United States Code, is amended—

(A) by amending the catchline to read as follows:

"CHAPTER 110—SEXUAL EXPLOITATION AND OTHER ABUSE OF CHILDREN";

and

(B) by adding at the end thereof the following new item:

"2258. Failure to report child abuse.".

(3) The item relating to chapter 110 in the part analysis for part 1 of title 18, United States Code, is amended to read as follows:

"110. Sexual exploitation and other abuse of children ..... 2251".

(h) CIVIL LIABILITY FOR FAILURE TO REPORT.—(1) A person who fails to make a report when required under subsection (a) shall be liable to a child who, after the time at which the person learns the facts that give rise to the requirement to report, suffers an incident of child abuse.

(2) In an action brought under paragraph (1), the plaintiff shall have the burden of showing that—

(A) the defendant learned of facts that did give or reasonably should have given the defendant reason to suspect that the child on whose behalf suit is brought had suffered an incident of child abuse; and

(B) after the time that the defendant learned of such facts—

(i) the defendant failed to make a timely report as required by subsection (a); and

(ii) the child suffered an incident of child abuse.

(3) In an action brought under paragraph (1), the plaintiff may recover damages for physical, mental, and emotional injury caused by incidents of child abuse that occur after the time that the defendant learned of the facts described in subparagraph (A), without regard to whether any other person learned of such facts and failed to make a report.

(4) A plaintiff who makes the showing described in paragraph (2) shall be entitled to recover unless the defendant shows that—

(A) the defendant made a report to the agency as soon as it was possible to do so;

(B) the agency to which the report was required to be made acquired knowledge of the facts of which the defendant had learned, or of the incident of child abuse whose occurrence was suggested by those facts, at a time prior to the occurrence of the incident of child abuse for which recovery is sought sufficient to have allowed the agency to take action that might have prevented the incident; or

(C) the agency could not have prevented the incident of child abuse for which recovery is sought.

(i) PRIVILEGES ABROGATED.—For the purposes of this section, and in any investigations or judicial actions resulting from a report of abuse or neglect, the privileged nature of any communications between physician and patient, psychotherapist and patient, psychologist and client, social worker and client, any other health care provider and patient, and husband and wife are abrogated.

(j) TRAINING OF PROSPECTIVE REPORTERS.—All individuals in the occupations listed in subsection (b)(1) who work on Federal lands, or are employed in federally operated (or contracted) facilities, shall receive periodic training in the obligation to report, as well as in the identification of abused and neglected children.

## CHAPTER 6—CHILD CARE WORKER EMPLOYEE BACKGROUND CHECKS

**SEC. 1581. REQUIREMENT FOR BACKGROUND CHECKS.**

(a) IN GENERAL.—(1) Each agency of the Federal Government, and every facility operated by the Federal Government (or operated under contract with the Federal Government), that hires (or contracts for hire) individuals involved with the provision to children under the age of 18 of child care services shall assure that all existing and newly-hired employees undergo a criminal history background check. All existing staff shall receive such checks not later than 6 months after the date of enactment of this chapter, and no additional staff shall be hired without a check having been completed.

(2) For the purposes of this section, the term "child care services" means child protective services (including the investigation of child abuse and neglect reports), social services, health and mental health care, child (day) care, education (whether or not directly involved in teaching), foster care, residential care, recreational or rehabilitative programs, and detention, correctional, or treatment services.

(b) CRIMINAL HISTORY CHECK.—(1) A background check required by subsection (a) shall be—

(A) based on a set of the employee's fingerprints obtained by a law enforcement officer and on other identifying information;

(B) conducted through the Identification Division of the Federal Bureau of Investigation and through the State criminal history repositories of all States that an employee or prospective employee lists as current and former residences in an employment application; and

(C) initiated through the personnel programs of the applicable Federal agencies.

(2) The results of the background check shall be communicated to the employing agency.

(c) APPLICABLE CRIMINAL HISTORIES.—Any conviction for a sex crime, an offense involving a child victim, or a drug felony, may be ground for denying employment or for dismissal of an employee in any of the positions listed in subsection (a)(2). In the case of an incident in which an individual has been charged with one of those offenses, when the charge has not yet been disposed of, an employer may suspend an employee from having any contact with children while on the job until the case is resolved. Conviction of a crime other than a sex crime may be considered if it bears on an individual's fitness to have responsibility for the safety and well-being of children.

(d) EMPLOYMENT APPLICATIONS.—(1) Employment applications for individuals who are seeking work for an agency of the Federal Government, or for a facility or program operated by (or through contract with) the Federal Government, in any of the positions listed in subsection (a)(1), shall contain a question asking whether the individual has ever been arrested for or charged with a crime involving a child, and if so requiring a description of the disposition of the arrest or charge. An application

shall state that it is being signed under penalty of perjury, with the applicable Federal punishment for perjury stated on the application.

(2) A Federal agency seeking a criminal history record check shall first obtain the signature of the employee or prospective employee indicating that the employee or prospective employee has been notified of the employer's obligation to require a record check as a condition of employment and the employee's right to obtain a copy of the criminal history report made available to the employing Federal agency and the right to challenge the accuracy and completeness of any information contained in the report.

(e) ENCOURAGEMENT OF VOLUNTARY CRIMINAL HISTORY CHECKS FOR OTHERS WHO MAY HAVE CONTACT WITH CHILDREN.—Federal agencies and facilities are encouraged to submit identifying information for criminal history checks on volunteers working in any of the positions listed in subsection (a) and on adult household members in places where child care or foster care services are being provided in a home.

### Subtitle M—Steroid Trafficking Act of 1990

SEC. 1601. SHORT TITLE.

This subtitle may be cited as the "Steroid Trafficking Act of 1990".

### CHAPTER 1—ANABOLIC STEROIDS

SEC. 1611. STEROIDS LISTED AS CONTROLLED SUBSTANCES.

(a) ADDING STEROIDS TO SCHEDULE II OF THE CONTROLLED SUBSTANCES ACT.—Subdivision (b) of schedule II of section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)) is amended by inserting at the end thereof the following:

"(22) Anabolic steroids.".

(b) DEFINITION.—Section 102 of the Controlled Substances Act (21 U.S.C. 802) is amended by adding at the end thereof the following:

"(41) The term 'anabolic steroids' means—

"(A) any drug that is chemically related to the male hormone testosterone and that promotes or purports to promote muscle growth, including any amount of the following chemical designations and their salts, esters, and isomers:

"(i) bodenone,
"(ii) chlorotestosterone,
"(iii) clostebol,
"(iv) dehydrochlormethyltestosterone,
"(v) dihydrotestosterone,
"(vi) drostanolone,
"(vii) ethylestrenol,
"(viii) fluoxymesterone,
"(ix) mesterolone,
"(x) methandienone,
"(xi) methandranone,
"(xii) methandriol,
"(xiii) methandrostenolone,
"(xiv) methyltestosterone,
"(xv) mibolerone,
"(xvi) nandrolone,
"(xvii) norethandrolone,
"(xviii) oxandrolone,
"(xix) oxymesterone,
"(xx) oxymetholone,
"(xxi) stanolone,
"(xxii) stanozolol,
"(xxiii) testolactone,
"(xxiv) testosterone,
"(xxv) trenbolone, and

"(B) any substance which is purported, represented or labeled as being or containing any amount of any drug described in subparagraph (A), or any substance labeled as being or containing any such drug.

As used in schedule II, such term shall not include an anabolic steroid which is expressly intended for administration through implants to cattle or other nonhuman species and which has been approved by the Secretary of Health and Human Services for such administration, except that if any person prescribes, dispenses, or distributes such steroid for human use, such person shall be considered to have prescribed, dispensed, or distributed a steroid in schedule II of this Act.".

(c) EFFECT OF SCHEDULING ON PRESCRIPTIONS.—Any prescription for anabolic steroids subject to refill on or after the date of enactment of the amendments made by this section may be refilled without restriction under section 309(a) of the Controlled Substances Act (21 U.S.C. 829(a)).

(d) EFFECTIVE DATE.—This section and the amendments made by this section shall take effect 90 days after the date of enactment of this chapter.

SEC. 1612. REGULATIONS BY ATTORNEY GENERAL.

(a) ABUSE POTENTIAL.—The Attorney General, upon the recommendation of the Secretary of Health and Human Services, shall, by regulation, exempt any compound, mixture, or preparation containing a substance listed in paragraph (41) of section 102 of the Controlled Substances Act (as added by section 1611 of this Act) from the application of all or any part of the Controlled Substances Act if, because of its concentration, preparation, mixture or delivery system, it has no significant potential for abuse.

(b) DRUGS FOR TREATMENT OF RARE DISEASES.—If the Attorney General finds that a drug listed in paragraph (41) of section 102 of the Controlled Substances Act (as added by section 1611 of this Act) is—

(1) approved by the Food and Drug Administration as an accepted treatment for a rare disease or condition, as defined in section 526 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360bb); and

(2) does not have a significant potential for abuse,

the Attorney General may exempt such drug from any production regulations otherwise issued under the Controlled Substances Act as may be necessary to ensure adequate supplies of such drug for medical purposes.

(c) DATE OF ISSUANCE OF REGULATIONS.—The Attorney General shall issue regulations implementing this section not later than 45 days after the date of enactment of this chapter.

### CHAPTER 2—HUMAN GROWTH HORMONE

SEC. 1621. AMENDMENT TO THE FEDERAL FOOD, DRUG, AND COSMETIC ACT.

Section 303 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 333) is amended by inserting a new subsection (e) as follows:

"(e)(1) Except as provided in paragraph (2), whoever knowingly distributes, or possesses with intent to distribute, human growth hormone for any use in humans other than the treatment of a disease or other recognized medical condition pursuant to the order of a physician is guilty of an offense punishable by not more than 5 years in prison, such fines as are authorized by title 18, United States Code, or both.

"(2) Whoever commits any offense set forth in paragraph (1) and such offense involves an individual under 18 years of age is punishable by not more than 10 years imprisonment, such fines as are authorized by title 18, United States Code, or both.

"(3) Any conviction for a violation of paragraphs (1) and (2) of this subsection shall be considered a felony violation of the Controlled Substances Act for the purposes of forfeiture under section 413 of such Act.

"(4) As used in this subsection the term 'human growth hormone' means—

"(A) somatrem, somatropin, and any of their analogs; and

"(B) any substance which is purported, represented or labeled as being or containing any amount of any drug described in subparagraph (A), or any substance labeled as being or containing any such drug.

"(5) The Drug Enforcement Administration is authorized to investigate offenses punishable by this subsection.".

SEC. 1622. CONVICTION OF SECTION 303(e) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT.

Section 2401 of the Anti-Drug Abuse Act of 1988 (Public Law 100-690; 102 Stat. 4181) is repealed.

## TITLE II—TREATMENT

SEC. 2000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE II—TREATMENT

Sec. 2000. Table of contents.

Subtitle A—Alcohol, Drug Abuse, and Mental Health Services Block Grant

Sec. 2001. Reauthorization.
Sec. 2002. Allotments.
Sec. 2003. Revision with respect to the use of allotments.
Sec. 2004. ADAMHA intravenous drug abuse waiver.

Subtitle B—Programs Targeting Females

Sec. 2101. Model projects concerning alcohol and drug abuse among pregnant and postpartum women and their infants.

Subtitle C—Treatment Improvement

CHAPTER 1—GENERAL TREATMENT PROVISIONS

Sec. 2201. Establishment of office for treatment improvement.
Sec. 2202. Statewide substance abuse treatment plan.
Sec. 2203. Grants for training of drug treatment professionals.
Sec. 2204. Rural substance abuse treatment and education grants.
Sec. 2205. Clearinghouse program.
Sec. 2206. Program for reduction of waiting period for drug abuse treatment.
Sec. 2207. Program for drug abuse projects of national significance.

CHAPTER 2—DRUG TREATMENT IN PRISON

Sec. 2211. Findings.
Sec. 2212. Authorization of appropriations for treatment services.
Sec. 2213. Grants for drug treatment in the criminal justice system.
Sec. 2214. Special supervised release for drug dependent offenders.

Subtitle D—Substance Abuse Treatment Services Under Medicaid

Sec. 2301. Substance abuse treatment services under medicaid.

### Subtitle A—Alcohol, Drug Abuse, and Mental Health Services Block Grant

SEC. 2001. REAUTHORIZATION.

Section 1911(a) of the Public Health Service Act (42 U.S.C. 300x(a)) is amended by striking out "and such sums" and all that follows through the period and inserting in lieu thereof ", and $2,000,000,000 for fiscal year 1991".

SEC. 2002. ALLOTMENTS.

Section 1912A if the Public Health Service Act (42 U.S.C. 300x-1a) is amended—

(1) in subsection (a)(4)(B)(i)—

(A) by striking out "0.4" in subclause (I), and inserting in lieu thereof "0.2"; and

(B) by striking out "indicated by the most recent data collected by the Bureau of the Census" in subclause (II), and inserting in lieu thereof "determined by multiplying the percentage of the population of the State that resides in urbanized areas of the State (as indicated by the most recent dicennial census compiled by the Bureau of the Census) by the most recent estimate of the total population of the State";

(2) in subsection (a)(4)(B)(ii)(I), by striking out "0.2" and inserting in lieu thereof "0.266";

(3) in subsection (a)(4)(B)(iii)(I), by striking out "0.2" and inserting in lieu thereof "0.266";

(4) in subsection (a)(4)(B)(iv)(I), by striking out "0.2" and inserting in lieu thereof "0.267";

(5) in subsection (b), to read as follows:

"(b)(1) In fiscal year 1991, each State shall receive a minimum allotment under this subpart of the lesser of—

"(A) $8,000,000; and

"(B) an amount equal to 105 percent of the sum of—

"(i) the amount the State received under section 1913 for fiscal year 1990 (as such section was in effect for such fiscal year); and

"(ii) the amount the State received under part C for fiscal year 1990.

"(2) In subsequent fiscal years, each State shall receive a minimum allotment under this subpart that is equal to the amount that such State received in fiscal year 1990 under paragraph (1) (for the minimum amount that such State was entitle to under such paragraph) plus an amount equal to such minimum multiplied by the percentage increase in the amount appropriated under section 1911(a) in such subsequent fiscal year above the amount appropriated for the immediately preceding fiscal year."; and

(6) in subsection (f), to read as follows:

"(f) For purposes of subsection (e), the applicable amount for each fiscal year is $330,000,000.".

SEC. 2003. REVISION WITH RESPECT TO THE USE OF ALLOTMENTS.

Section 1915 of the Public Health Service Act (42 U.S.C. 300x-3) is amended—

(1) in subsection (b)—

(A) by inserting after the comma in paragraph (1), the following: "except that funds may be used to pay for inpatient hospital drug treatment services pursuant to a contractual arrangement with a hospital if—

"(A) necessary residential treatment services could not otherwise be provided; and

"(B) the rates paid for such services do not exceed 125 percent of the cost of the rates typically required for comparable residential services."; and

(B) by inserting after the fifth sentence in the matter following paragraph (5), the following new sentence: "The Secretary may waive or reduce the matching rate requirement of the preceding sentence if the State requests such a waiver and the Secretary determines that a failure to grant such a request would result in a reduction in the resources that would otherwise be used to provide direct treatment services and that are essential to the implementation of the State drug abuse plan.";

(2) in subsection (c)(1)—

(A) by inserting "including social and health services necessary to improve treatment outcomes," after "drug abuse," in subparagraph (A);

(B) by striking out "and" at the end of subparagraph (B);

(C) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(D) by adding at the end thereof the following new subparagraphs:

"(D) to provide counseling to family members of drug abusers, including such family members in group and family counseling service settings for the treatment of drug abusers; and

"(E) to develop, implement, and operate programs of treatment for adult and juvenile substance abusers in State and local criminal and juvenile justice systems, including treatment programs for individuals in prisons and jails and those on probation, parole, supervised release, and pretrial release."; and

(3) by inserting at the end of subsection (d) the following new sentence: "Expenses incurred for the training of individuals as required under this subpart shall not be included in determining the costs of administering funds made available under section 1914.".

SEC. 2004. ADAMHA INTRAVENOUS DRUG ABUSE WAIVER.

(a) INTRAVENOUS DRUG USERS.—Section 1916(c)(7) of the Public Health Services Act (42 U.S.C. 300x-4(a)(7)) is amended by adding at the end thereof the following new sentence: "The Secretary shall waive the provisions of the preceding sentence for any State that has submitted an application for such a waiver to the Secretary prior to September 30, 1991".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall become effective on October 1, 1991.

**Subtitle B—Programs Targeting Females.**

SEC. 2101. MODEL PROJECTS CONCERNING ALCOHOL AND DRUG ABUSE AMONG PREGNANT AND POSTPARTUM WOMEN AND THEIR INFANTS.

(a) IN GENERAL.—Section 509F of the Public Health Service Act (42 U.S.C. 290aa-13) is amended by striking out subsections (b) through (e) and inserting in lieu thereof the following new subsections:

"(b) In making grants under subsection (a), the Director of the Office shall give priority to projects—

"(1) that will provide treatment services;

"(2) that include—

"(A) service delivery strategies and outreach services in the community involved to identify such women who are abusing alcohol or drugs and to encourage such women to undergo treatment for such abuse;

"(B) prenatal and postpartum health care for women undergoing such treatment;

"(C) with respect to the infants of such women, pediatric health care;

"(D) child care, transportation, and other support services with respect to such treatment;

"(E) as appropriate, referrals to facilities for necessary hospital services;

"(F) employment counseling and other appropriate follow-up services to help prevent a relapse of alcohol or drug abuse;

"(G) case management services, including assistance in establishing eligibility for assistance under Federal, State, and local programs providing health services, mental health services, or social services;

"(H) efforts to preserve and support the family unit;

"(I) direct intervention, treatment, or rehabilitation of infants, that may include other siblings, to reduce or prevent the impact of maternal substance abuse on such children;

"(J) supportive services for biologic or foster parents of infants affected by maternal substance abuse;

"(K) strategies for providing treatment resources to low-income pregnant and postpartum women;

"(L) strategies for providing treatment resources to pregnant and postpartum women under criminal justice supervision; or

"(M) other services that will tend to improve pregnancy outcomes, reduce substance abuse among women of childbearing age, and increase the stability of the family home environment.

"(c) With respect to any health service described under this section that is covered by the appropriate State plan approved under title XIX of the Social Security Act, the Director of the Office shall not make a grant under subsection (a) unless—

"(1) the applicant for the grant will provide the health service directly, and the applicant has entered into a participation agreement under the appropriate State plan and is qualified to receive payments under such plan; or

"(2) the applicant for the grant has entered into a contract with an entity under which the entity shall provide the health service, and the entity has entered into such a participation agreement and is qualified to receive such payments.

"(d) The Director of the Office shall not make a grant under subsection (a) unless the applicant for the grant agrees that, if a charge is imposed for the provision of services or activities under the grant, such charge—

"(1) will be made according to a schedule of charges that is made available to the public;

"(2) will be adjusted to reflect the income and resources of the woman involved; and

"(3) will not be imposed on any woman with an income of less than 100 percent of the official poverty line, as established by the Director of the Office for Management and Budget and revised by the Secretary in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

"(e) In making grants under subsection (a) for the provision of treatment services for alcohol and drug abuse, the Director of the Office shall ensure that the grants are distributed among projects that provide outpatient treatment and projects that provide residential treatment, in a manner that reflects the general desirability of residential treatment programs for pregnant addicts.

"(f) The Director of the Office shall not make a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary;

"(2) the applicant for the grant agrees to submit to the Secretary an annual report that describes the number of women served, the number of infants served, the type and costs of services provided, and such other information as the Secretary determines to be appropriate;

"(3) with respect to carrying out the purpose for which the grant is to be made, the application provides assurances of compliance satisfactory to the Secretary;

"(4) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section; and

"(5) the application contains an assurance that the applicant will provide funds, other than Federal funds, in an amount that is

not less than 10 percent of the amount of the grant under subsection (a).

"(g) The period during which payments are made by the Director of the Office under a grant under subsection (a) shall not exceed 5 years, except that the Director of the Office may establish a procedure for renewal of grants under subsection (a).

"(h) Nothing in this section shall be construed to permit the Secretary to discriminate in the awarding of grants under subsection (a) against applicants that propose or provide residential or outpatient rehabilitation services under applicable requirements of State law, including applicants that provide services to substance abusing pregnant and postpartum women that receive treatment by order of a court or other appropriate public agency, so long as all such applications include measures that encourage substance abusing pregnant and postpartum women to seek prenatal care and rehabilitation.

"(i) The Director of the Office shall, after consultation with the Director of the National Institute on Drug Abuse, periodically conduct evaluations to determine the effectiveness of projects supported under subsection (a).

"(j) The Director of the Office shall annually submit to the appropriate Committees of Congress a report describing programs carried out pursuant to this section. Each such report shall include any evaluations conducted under subsection (i) during the preceding fiscal year.

"(k)(1) In making grants under subsection (a), the Director of the Office shall make a grant to an institution of the type described in paragraph (2) for the establishment of a National Resource and Information Center for Perinatal Addiction, unless the Director finds that the Office is performing each of the functions described in paragraph (3) and reports such finding to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives.

"(2) The grant described in paragraph (1) shall be awarded, after a competitive search, to a private nonprofit institution that has an extensive background and experience in performing research on maternal substance abuse and in disseminating such information to professionals, policymakers, the general public and the media, as well as experience in providing educational services to maternal substance abusers and their exposed infants.

"(3) The Center established under subsection (a) shall—

"(A) coordinate and disseminate research on maternal substance abuse, treatment options for such women and infants of such women, and prevention strategies;

"(B) develop and distribute training and educational information and materials concerning maternal substance abuse;

"(C) act as a clearinghouse for information on treatment programs for pregnant women who are addicted to illegal substances;

"(D) develop and manage a national toll free hotline to provide information and referrals;

"(E) provide policy analysis and program evaluation to the Secretary of Health and Human Services; and

"(F) provide any other services designed to carry out the purposes of this subsection.

"(l) For the purpose of carrying out this section, there is authorized to be appropriated $50,000,000 for each of the fiscal years 1991 and 1992.".

(b) GRANTEES.—Section 509F(a) of such Act (42 U.S.C. 290aa-13(a)) is amended by inserting at the end thereof the following new sentence: "Such grants may be made only to public and nonprofit private entities and to appropriately qualified Indian tribes and tribal organizations (as defined in section 1913(b)(5)).".

### Subtitle C—Treatment Improvement

### CHAPTER 1—GENERAL TREATMENT PROVISIONS

#### SEC. 2201. ESTABLISHMENT OF OFFICE FOR TREATMENT IMPROVEMENT.

Title V of the Public Health Service Act is amended by inserting after section 507 (42 U.S.C. 290aa-5) the following new section:

"SEC. 507A. OFFICE FOR TREATMENT IMPROVEMENT.

"(a) IN GENERAL.—There is established in the Administration an Office for Treatment Improvement (hereinafter referred to in this section as the 'Treatment Office'). The Treatment Office shall be headed by a Director who shall be appointed by the Secretary from among individuals with extensive experience or academic qualifications in the treatment of drug or alcohol abuse. The Secretary, acting through the Director of the Treatment Office, shall carry out this section.

"(b) ALCOHOL AND DRUG ABUSE RESPONSIBILITIES.—With respect to alcohol and drug abuse, the Director of the Treatment Office shall—

"(1) collaborate with the Director of the Office for Substance Abuse Prevention to provide outreach services to identify individuals in need of treatment services, with emphasis on the provision of such services to racial and ethnic minorities, to adolescents, to pregnant and postpartum women and their infants, to individuals who abuse drugs intravenously, and to residents of publicly-assisted housing;

"(2) collaborate with the Director of the National Institute on Drug Abuse and with the States to promote the study of the outcomes of treatment services to identify the manner in which such treatment services can most effectively be provided;

"(3) collaborate with the Director of the National Institute on Drug Abuse to promote the dissemination and implementation of research findings that will improve the delivery and effectiveness of treatment services;

"(4) evaluate plans submitted by the States pursuant to section 1916B to advise the Administrator on whether the plans adequately provide for the allocation of the treatment resources of the States;

"(5) carry out the grant programs established in sections 508A, 509, 509E, 509G, 509H, and 509I;

"(6) sponsor regional workshops on improving the quality and availability of treatment services;

"(7) provide technical assistance to public and nonprofit private entities that provide prevention and treatment services, including technical assistance with respect to the process of submitting to the Director applications for any program of grants carried out by the Director;

"(8) after consultation with organizations that represent providers of prehospital emergency medical services, carry out programs to train such providers with respect to responding to any emergency involving special problems that arise as a result of the abuse of alcohol or drugs by the victim of the emergency, including the problem of interacting with victims who are violent as a result of such abuse;

"(9) encourage State and Federal agencies offering treatment opportunities for individuals addicted to drugs or alcohol to utilize and establish self-run, self-supported recovery homes based on the Oxford House Model, as described in section 1916A;

"(10) provide treatment services by making grants to public and nonprofit private entities under section 329, 330, or and 340, and in making such grants, ensure that the grants are equitably allocated among the principal geographic regions of the United States, and between urban and rural areas, subject to the availability of qualified applicants for the grants;

"(11) improve the coordination of the treatment resources of communities to ensure that the resources are applied in the manner most consistent with the needs of the communities, including referring individuals to the most appropriate provider of treatment services;

"(12) improve coordination between treatment facilities and agencies providing health, social, and employment services to assist, in a comprehensive manner, individuals undergoing treatment;

"(13) carry out activities to educate communities on the need for establishing treatment facilities within the communities;

"(14) encourage public and private entities that provide health insurance to provide benefits for drug treatment services; and

"(15) develop programs to increase the number of health professionals providing treatment services and to promote the increased integration into the health care system of the United States of programs for providing treatment services.

"(c) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out paragraph (10) of subsection (b), there are authorized to be appropriated $50,000,000 for each of the fiscal years 1991 and 1992.".

#### SEC. 2202. STATEWIDE SUBSTANCE ABUSE TREATMENT PLAN.

(a) IN GENERAL.—Title XIX of the Public Health Service Act is amended by inserting after section 1916A (42 U.S.C. 300x-4a) the following new section:

"SEC. 1916B. STATEWIDE SUBSTANCE ABUSE TREATMENT PLAN.

"(a) NATURE OF THE PLAN.—To receive its allotment for a fiscal year under section 1912A, a State shall develop, implement, and submit as part of the application required by section 1916(a), an approved statewide Substance Abuse Treatment Plan, prepared according to standards issued by the Secretary, that shall—

"(1) contain a single, designated State agency for formulating and implementing the Statewide Substance Abuse Treatment Plan;

"(2) contain a description of the mechanism that shall be used to assess the needs for substance abuse treatment in localities throughout the State including the presentation of relevant data;

"(3) contain a description of a statewide plan that shall be implemented to expand treatment capacity and overcome obstacles that restrict the expansion of treatment capacity (such as zoning ordinances), or an explanation of why such a plan is unnecessary;

"(4) contain a description of performance-based criteria that shall be used to assist in the allocation of funds to substance abuse treatment facilities receiving assistance under this subpart;

"(5) contain a description of the mechanism that shall be used to make funding allocations under this subpart;

"(6) contain a description of the actions that shall be taken to improve the referral of substance abusers to treatment facilities that offer the most appropriate treatment modality;

"(7) contain a description of the program of training that shall be implemented for employees of treatment facilities receiving Federal funds, designed to permit such employees to stay informed concerning the latest and most effective treatment techniques;

"(8) contain a description of the plan that shall be implemented to coordinate substance abuse treatment facilities with other social, health, correctional and vocational services to assist or properly refer those patients in need of such additional services;

"(9) contain a description of the plan that shall be implemented to expand drug treatment opportunities for individuals under criminal justice supervision;

"(10) contain a description of the plan that will be implemented to expand and improve efforts to deter women from knowingly abusing drugs during pregnancy, to contact and treat pregnant women who abuse drugs, and to provide appropriate follow-up services to their affected newborns;

"(11) provide for the targeting of funds toward areas of the greatest need in the State, using such criteria as the State may establish for determining such areas, including criteria for focusing on—

"(A) the current unmet treatment needs in the State including both the inpatient, outpatient, and long- and short-term substance abuse treatment service needs of defined populations and the availability of essential ancillary services;

"(B) the incidence of deliveries of infants who are adversely affected by maternal substance abuse;

"(C) the incidence of criminal activities related to substance abuse; and

"(D) the incidence of communicable diseases transmitted by substance abusers;

"(12) provide for the periodic testing of patients as appropriate for various treatment populations to determine the patients' compliance with treatment regimens and the establishment of clinically appropriate policies for dealing with patients who fail such tests and provide that such testing conducted not be required to be more frequent than is necessary to achieve treatment objectives;

"(13) provide for aftercare or follow-up, either directly or through arrangements with other individuals or entities, for patients who have ended a course of treatment provided by the facility, that shall include periodic contacts with the patient to monitor the patient's progress and provide services or additional treatment as needed;

"(14) increase, if necessary, the availability of specialized services and facilities necessary to meet the needs of female and minority drug abusers; and

"(15) provide for the establishment of a program of interim assistance for individuals who apply for treatment, and who must wait for the availability of treatment opportunities, such as—

"(A) education and counseling concerning drug abuse; and

"(B) the referral to, or provision of, other necessary health and social services that may include primary health care, education, and vocational services.

"(b) SUBMISSION OF THE PLAN.—The plan required by subsection (a) shall be submitted to the Secretary annually for review and approval. The Secretary shall have the authority to review and approve or disapprove such State plans, and to propose changes to such plans.

"(c) GUIDELINES.—

"(1) DEVELOPMENT.—The Secretary, in consultation with the States, shall develop guidelines for each area to be covered by the State plan prepared under subsection (a).

"(2) CONFORMANCE WITH GUIDELINES.—Beginning in fiscal year 1992, no payment shall be made to a State from its allotment under section 1912A unless such State has submitted a plan under this section that is in reasonable conformance with the guidelines developed under paragraph (1), except that with respect to the performance criteria for treatment facilities described in subsection (a)(4), the State plan shall provide a reasonable time for such conformance.

"(3) MONITORING COMPLIANCE.—The Secretary shall monitor the compliance of the State with the plan submitted under this section and provide technical assistance to assist in achieving such compliance.

"(d) REPORTS.—Each State shall prepare and submit reports to the Secretary, at such times, in such form, and containing such information as the Secretary may require, and shall comply with such additional provisions as the Secretary may find necessary to verify the accuracy of such reports.

"(e) WAIVER OF PLAN REQUIREMENT.—The Secretary may waive any or all of the requirements of this section on the written request of a State, except that such waiver shall not be granted unless the State implements an alternative treatment plan that fulfills the objectives of this section.

"(f) MODEL STATE PLAN.—The Director of the Office for Treatment Improvement shall establish a model State substance abuse treatment plan to guide States in establishing State plans under subsection (a), and shall provide technical assistance to assist States in complying with such plan.

"(g) ADMINISTRATIVE EXPENSES.—Expenses incurred for the training of individuals as required under any plans submitted under this section shall not be included in determining the costs of administering funds made available under section 1914 with respect to alcohol and drug abuse.".

SEC. 2203. GRANTS FOR TRAINING OF DRUG TREATMENT PROFESSIONALS.

Title V of the Public Health Service Act is amended by inserting after section 508 (42 U.S.C. 290aa-6) the following new section:

"SEC. 508A. GRANTS FOR TRAINING OF DRUG TREATMENT PROFESSIONALS.

"(a) ESTABLISHMENT.—The Director of the Office for Treatment Improvement (hereinafter referred to in this section as the 'Director') shall establish a program to provide grants to eligible institutions to enable such institutions to provide training services to increase the supply of drug treatment professionals.

"(b) ELIGIBLE INSTITUTIONS.—Institutions eligible to receive a grant under this section shall include medical schools, schools of osteopathy, schools of nursing, schools of public health, schools of chiropractic services, schools of social work, and other appropriate educational institutions that submit an application in accordance with subsection (c).

"(c) APPLICATIONS.—To be eligible to receive a grant under this section, an eligible institution shall submit an application to the Director at such time, in such manner, and containing such information as the Director may reasonably require.

"(d) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section there are authorized to be appropriated $25,000,000 for each of the fiscal years 1991 and 1992.".

SEC. 2204. RURAL SUBSTANCE ABUSE TREATMENT AND EDUCATION GRANTS.

Part A of title V of the Public Health Service Act (42 U.S.C. 290aa et seq) is amended by adding at the end thereof the following new section:

"SEC. 509H. RURAL SUBSTANCE ABUSE TREATMENT.

"(a) IN GENERAL.—The Director of the Office for Treatment Improvement (hereinafter referred to in this section as the 'Director') shall establish a program to provide grants to hospitals, community health centers, migrant health centers, health entities of Indian tribes and tribal organizations (as defined in section 1913(b)(5)), and other appropriate entities that serve nonmetropolitan areas to assist such entities in developing and implementing projects that provide, or expand the availability of, substance abuse treatment services.

"(b) REQUIREMENTS.—To receive a grant under this section a hospital, community health center, or treatment facility shall—

"(1) serve a nonmetropolitan area or have a substance abuse treatment program that is designed to serve a nonmetropolitan area;

"(2) operate, or have a plan to operate, an approved substance abuse treatment program;

"(3) agree to coordinate the project assisted under this section with substance abuse treatment activities within the State and local agencies responsible for substance abuse treatment; and

"(4) prepare and submit an application in accordance with subsection (c).

"(c) APPLICATION.—

"(1) IN GENERAL.—To be eligible to receive a grant under this section an entity shall submit an application to the Director at such time, in such manner, and containing such information as the Director shall require.

"(2) COORDINATED APPLICATIONS.—State agencies that are responsible for substance abuse treatment may submit coordinated grant applications on behalf of entities that are eligible for grants pursuant to subsection (b).

"(d) PREVENTION PROGRAMS.—

"(1) IN GENERAL.—Each entity receiving a grant under this section may use a portion of such grant funds to further community-based substance abuse prevention activities.

"(2) REGULATIONS.—The Director, in consultation with the Director of the Office of Substance Abuse Prevention, shall promulgate regulations regarding the activities described in paragraph (1).

"(e) SPECIAL CONSIDERATION.—In awarding grants under this section the Director shall give priority to—

"(1) projects sponsored by rural hospitals that are qualified to receive rural health care transition grants as provided for in section 4005(e) of the Omnibus Budget Reconciliation Act of 1987;

"(2) projects serving nonmetropolitan areas that establish links and coordinate activities between hospitals, community health centers, community mental health centers, and substance abuse treatment centers; and

"(3) projects that are designed to serve areas that have no available existing treatment facilities.

"(f) DURATION.—Grants awarded under subsection (a) shall be for a period not to exceed 3 years, except that the Director may establish a procedure for renewal of grants under subsection (a).

"(g) GEOGRAPHIC DISTRIBUTION.—To the extent practicable, the Director shall provide grants to fund at least one project in each State.

"(h) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section there are authorized to be appropriated $25,000,000 for each of the fiscal years 1991 and 1992.".

SEC. 2205. CLEARINGHOUSE PROGRAM.

Section 509 of the Public Health Service Act (42 U.S.C. 290aa-7) is amended—

(1) in paragraph (3), by striking out "and" at the end thereof;

(2) in paragraph (4), by striking out the period; and

(3) by adding at the end thereof the following new paragraphs—

"(5) to gather information pertaining to rural drug abuse treatment and education projects funded by the Alcohol, Drug Abuse, and Mental Health Administration, as well as other such projects operating throughout the United States; and

"(6) to disseminate such information to rural hospitals, community health centers, community mental health centers, treatment facilities, community organizations, and other interested individuals.".

SEC. 2206. PROGRAM FOR REDUCTION OF WAITING PERIOD FOR DRUG ABUSE TREATMENT.

(a) ADMINISTRATOR OF PROGRAM.—Section 509E(a) of the Public Health Service Act (42 U.S.C. 290aa-12(a)) is amended by striking out "the Administrator" and inserting in lieu thereof "the Director of the Office for Treatment Improvement".

(b) IMPROVEMENT OF PROGRAM.—Section 509E of such Act (42 U.S.C. 290aa-12) is amended—

(1) by striking out subsection (d);

(2) by redesignating subsection (c) as subsection (d);

(3) by inserting after subsection (b) the following new subsection:

"(c)(1) In awarding grants under subsection (a), the Secretary shall give priority to applicants that provide, directly or through arrangements with public and nonprofit entities—

"(A) drug treatment services to pregnant and postpartum women; or

"(B) after-care services to prevent renewed substance abuse by individuals who have received treatment services by a substance abuse program assisted under this section.

"(2) Each recipient of a grant under subsection (a) shall not expend in excess of 50 percent of such grant to develop and provide the services described in paragraph (1).";

(4) in subsection (e)—

(A) by redesignating paragraph (3) as paragraph (4);

(B) by striking out "and" at the end of paragraph (2); and

(C) by inserting after paragraph (2) the following new paragraph:

"(3) an agency of the State in which the applicant is located certifies that the applicant has complied with the provisions of subsection (b); and".

(c) FUNDING.—Section 509E(f) of such Act (42 U.S.C. 290aa-12(f)) is amended—

(1) in paragraph (1), by striking out "$100,000,000." and inserting in lieu thereof "$140,000,000."; and

(2) in paragraph (3), by striking out "$100,000,000" and inserting in lieu thereof "$140,000,000".

(d) REPORT.—Not later than 6 months after the date of enactment of this Act, the Administrator of the Alcohol, Drug Abuse, and Mental Health Administration shall prepare and submit, to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, a report concerning the waiting period reduction grant program under section 509E of the Public Health Services Act (42 U.S.C. 290aa-12). Such report shall include—

(1) a list and description of the programs that have been awarded grants under this section;

(2) a description of the process by which funds awarded under such section are expended for treatment services, including a description of the process by which grantees obligate the "draw-down" funds under such section;

(3) an assessment of the validity of waiting lists as a measure of treatment need and, if the report concludes that waiting lists are not the most accurate measure of treatment need, a description of other, more accurate means of measuring treatment need;

(4) the views of State, local and nongovernmental treatment experts with respect to—

(A) the validity of waiting lists as a measure of treatment need; and

(B) the efficacy of the waiting period reduction grant program; and

(5) any other information that the Administrator deems to be necessary to a thorough appraisal of the efficacy of the program under such section.

SEC. 2207. PROGRAM FOR DRUG ABUSE PROJECTS OF NATIONAL SIGNIFICANCE.

Section 509G of the Public Health Service Act (42 U.S.C. 290aa-14) is amended—

(1) in subsection (a)(1)—

(A) in the matter preceding subparagraph (A), by striking out "the Administrator" and inserting in lieu thereof "the Director of the National Institute on Drug Abuse"; and

(B)(i) by inserting "and" at the end of subparagraph (A);

(ii) by striking out "; and" at the end of subparagraph (B) and inserting in lieu thereof a period; and

(iii) by striking out subparagraph (C);

(2) in subsection (a)(2), by inserting "a" before "result";

(3) in subsection (b)(1)—

(A) by inserting after "Secretary" the following: ", acting through the Director of the Office for Treatment Improvement,";

(B) by striking out "States" the first place such term appears and inserting in lieu thereof "States and other public or nonprofit private entities"; and

(C) by striking out "States" the second place such term appears and inserting in lieu thereof "such entities"; and

(4) in subsection (b)(4), by striking out "State" and inserting in lieu thereof "public or nonprofit private entity"; and

(5) in paragraph (1) of subsection (c) to read as follows:

"(1) For the purpose of carrying out this section, there are authorized to be appropriated $80,000,000 for each of the fiscal years 1991 and 1992.".

## CHAPTER 2—DRUG TREATMENT IN PRISON

SEC. 2211. FINDINGS.

Congress finds that—

(1) the Federal Bureau of Prisons estimates that 42 percent of all incoming Federal prisoners abuse drugs or alcohol;

(2) the number of separate unit inpatient drug treatment programs in Federal prisons has declined from 21 in 1978 to 4 today;

(3) 43 percent of Federal prisoners are rearrested within 3 years of release;

(4) offenders who continue to use drugs after release from prison are more likely to resume criminal activities than those who do not; and

(5) overcrowding in Federal prisons has reached such crisis proportions that in June 1989, Federal prisons housed 54,718 inmates, 77 percent above their capacity of 31,000.

SEC. 2212. AUTHORIZATION OF APPROPRIATIONS FOR TREATMENT SERVICES.

(a) IN GENERAL.—There are authorized to be appropriated to the Federal Prison System $15,000,000 for fiscal year 1991, and such sums as may be necessary for each of the fiscal years 1992 and 1993. Such appropriation shall be in addition to any appropriations provided in regular appropriations Acts or continuing resolutions for the fiscal year ending September 30, 1991.

(b) USES OF APPROPRIATION.—The additional appropriation authorized by subsection (a) shall be used—

(1) to provide high intensity inpatient substance abuse treatment services to drug dependent offenders;

(2) to train appropriate prison employees in the diagnosis and treatment of drug and alcohol addiction;

(3) to hire psychologists and substance abuse counselors to serve drug dependent offenders;

(4) to enter into contracts with qualified community substance abuse treatment providers to offer inmates treatment services; and

(5) to ensure intensive supervision of drug dependent offenders while they are on parole or supervised release, including urine drug testing.

(c) SEPARATION OF INMATES.—The Bureau of Prisons shall, to the greatest extent possible, separate drug dependent offenders undergoing treatment from the general prison population and avoid returning such offenders to the general prison population after the completion of the treatment program.

SEC. 2213. GRANTS FOR DRUG TREATMENT IN THE CRIMINAL JUSTICE SYSTEM.

Part A of title V of the Public Health Service Act (42 U.S.C. 290aa et seq) (as amended by section 2204) is further amended by adding at the end thereof the following new section:

"SEC. 509I. GRANTS FOR DRUG TREATMENT IN THE CRIMINAL JUSTICE SYSTEM.

"(a) PROGRAM ESTABLISHED.—The Director of the Office for Treatment Improvement (hereinafter referred to in this section as the 'Director') shall establish a program to provide grants to public and nonprofit private entities that provide drug treatment services to individuals under criminal justice supervision.

"(b) ELIGIBILITY.—In awarding grants under subsection (a), the Director shall ensure that the grants are reasonably distributed among projects that provide treatment services to individuals who are—

"(1) incarcerated in prisons, jails or community correctional settings; or

"(2) not incarcerated but under criminal justice supervision because of their status as pre-trial releases, post-trial releases, probationers, parolees, or supervised releases.

"(c) PRIORITY.—In awarding grants under subsection (a), the Director shall give priority to programs that provide—

"(1) a continuum of services for offenders as they proceed through and out of the criminal justice system;

"(2) referrals to treatment programs in the community for individuals soon to be released from incarceration;

"(3) treatment services for juvenile offenders;

"(4) treatment services for female offenders;

"(5) outreach services to identify individuals under criminal justice supervision who would benefit from drug treatment and to encourage such individuals to seek treatment; or

"(6) treatment services that function as an alternative to incarceration for appropriate categories of offenders or that otherwise enable individuals to remain under criminal justice supervision in the least restrictive setting consistent with public safety.

"(d) APPLICATION.—The Director of the Office may not make a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary; and

"(2) the application is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines necessary to carry out this section.

"(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $25,000,000 for each of the fiscal years 1991 and 1992.".

SEC. 2214. SPECIAL SUPERVISED RELEASE FOR DRUG DEPENDENT OFFENDERS.

(a) IN GENERAL.—Section 3583 of title 18, United States Code, is amended by adding at the end thereof the following:

"(h) EARLY SUPERVISED RELEASE FOR QUALIFIED DRUG DEPENDENT OFFENDERS.—(1) In the case of a qualified drug dependent offender, the sentencing court may modify the term of imprisonment pursuant to section 3582(c) by allowing the defendant to be released from incarceration not more than one year earlier than otherwise scheduled. For the purpose of this subsection, the release date otherwise scheduled shall be computed by subtracting from the original period of incarceration the amount of good time earned pursuant to section 3624 up to the time the early release would take effect.

"(2) If the court reduces the period of incarceration pursuant to this subsection, the court shall also impose a period of supervised release equal to the length of the reduction, or in the event that a period of supervised release was previously ordered, it shall extend the period of supervised release by a period equal to the length of the reduction, notwithstanding the maximum term of supervised release otherwise provided in this title. Such periods of supervised release, or extended periods of supervised release, shall be subject to all of the conditions and procedures set forth in this section. For the purpose of the subsection, the length of the reduction in sentence shall be the period between the date of early release under this subsection and the otherwise scheduled release date as defined in paragraph (1).

"(3) To qualify for early supervised release under this subsection, a drug dependent offender—

"(A) shall have been continuously incarcerated in a Federal correctional institution for no less than three-fourths of the time the offender was originally scheduled to serve prior to becoming eligible for supervised release, assuming the usual credit for good time pursuant to section 3624;

"(B) shall not have been convicted of homicide, attempted homicide, kidnapping, assault with a deadly weapon, espionage, or aggravated sexual abuse;

"(C) shall not have been sentenced to life in prison;

"(D) shall have successfully completed, while incarcerated, a program of substance abuse treatment approved for these purposes by the Director of the Federal Prison System; and

"(E) after successfully completing treatment, shall have received approval for early supervised release from the sentencing judge acting upon the recommendation of the individual responsible for administering substance abuse treatment programs in the facility in which the offender has been incarcerated.

"(4) Upon release, and for a period of 6 months after release or for the entire term of supervised release, whichever is less, the drug dependent offender shall reside in a half-way house in which intensive counseling and supervision is available.

"(5) Upon release, and for a period of 1 year after release, or for the entire term of supervised release, whichever is less, the drug dependent offender shall, in addition to fulfilling the other requirements of supervised release ordered by the court under this section—

"(A) submit to periodic urine drug testing at least once every 60 days;

"(B) regularly attend meetings of support groups such as Narcotics Anonymous, Alcoholics Anonymous, and Cocaine Anonymous; and

"(C) participate in an outpatient substance abuse counseling program.

"(6) Notwithstanding any other provisions of this section, if the drug dependent offender tests positive for illegal use of controlled substances on 2 separate urine drug tests taken at least 3 weeks apart, the court shall revoke the term of supervised release and require the offender to serve all or part of the term of supervised release in prison, without credit for time previously served on post-release supervision.

"(7) A drug test administered under this subsection shall be administered in accordance with the procedures set forth in section 3608 of this title.".

(b) ORDER OF SUPERVISED RELEASE.—Section 3582(c) of title 18 of the United States Code is amended by—

(1) striking "and" after the semicolon in paragraph (1);

(2) striking the period at the end of paragraph (2) and inserting "; and"; and

(3) adding at the end thereof the following:

"(3) in the case of a qualified drug dependent offender, the court may order supervised release up to 1 year prior to the previously scheduled date of release as provided by section 3583(h).".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective January 1, 1990.

**Subtitle D—Substance Abuse Treatment Services Under Medicaid**

SEC. 2301. SUBSTANCE ABUSE TREATMENT SERVICES UNDER MEDICAID.

(a) PURPOSE OF TITLE XIX.—Section 1901 of the Social Security Act is amended by striking out "and" before the number "(2)", and inserting after "self-care," the following: "and (3) at State option, substance abuse treatment services so that treatment on request may be provided to all individuals eligible for assistance under this title (A) who desire to rid themselves of substance abuse problems, and (B) whose income and resources are insufficient to meet the cost of such treatment,".

(b) SUBSTANCE ABUSE TREATMENT SERVICES.—Title XIX of the Social Security Act is amended by adding at the end thereof the following new section:

"SEC. 1927. SUBSTANCE ABUSE TREATMENT SERVICES.

"(a) INCLUSION IN STATE PLAN.—At the option of the State, the State plan for medical assistance described in section 1902(a) may include as medical assistance, substance abuse treatment services and related case management services (described in subsection (b)) provided under the plan to all individuals eligible for assistance under this title who desire to rid themselves of their substance abuse problems.

"(b) DEFINITIONS.—As used in this section:

"(1) SUBSTANCE ABUSE TREATMENT SERVICES.—The term 'substance abuse treatment services' includes—

"(A) inpatient substance abuse treatment services, including counseling, that are provided in a hospital (or distinct part thereof) or other entity if such entity is legally authorized to provide such treatment under State law;

"(B) outpatient substance abuse treatment services, including counseling, that are provided by a hospital (or distinct part thereof) or other entity if such entity is legally authorized to provide such treatment under State law; and

"(C) substance abuse treatment services, including counseling, that are provided in a residential substance abuse treatment center or other entity if such entity is legally authorized to provide such treatment under State law.

"(2) CASE MANAGEMENT SERVICES.—The term 'case management services' means services that will assist individuals eligible under the plan in gaining access to needed medical, social, educational, and other services.".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 1991.

**TITLE III—EDUCATION AND PREVENTION**

SEC. 3000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE III—EDUCATION AND PREVENTION

Sec. 3000. Table of contents.

Subtitle A—Comprehensive Drug Education

Sec. 3001. Findings and purpose.
Sec. 3002. Reauthorization of Drug Free Schools and Communities Act.
Sec. 3003. Drug Free Schools and Communities Act.
Sec. 3004. Anti-drug lesson plans.
Sec. 3005. Drug abuse resistance education program.

Subtitle B—Prevention

Sec. 3101. Comprehensive drug prevention programs.
Sec. 3102. Substance abuse prevention training.
Sec. 3103. National drug prevention corps.
Sec. 3104. Partnership with the motion picture and television industries.
Sec. 3105. Antitrust law exemptions.
Sec. 3106. Drug-free workplace initiative for the private sector.

Sec. 3107. Drug-free workplace requirements.

Subtitle A—Comprehensive Drug Education

SEC. 3001. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) while 54 percent of the high school seniors have used an illicit drug by the time they graduate, the percentage of students using drugs by the sixth grade has tripled since 1975;

(2) the National high school survey shows that even though an increasing number of students report that cocaine is readily available, a 64 percent increase in the perceived harmfulness of cocaine use among high school students has led to a 49 percent decrease in cocaine use among these students;

(3) drug education is needed in every grade in every school;

(4) the Drug Free Schools and Communities Act Amendments of 1989 condition the receipt of all Federal funds by a local education agency on the implementation of a drug prevention program for all grades;

(5) current funding for school-based drug education and prevention programs is inadequate and effective school-based prevention programs necessitate a comprehensive approach;

(6) project STAR (Students Taught Awareness and Resistance) in Kansas City focuses on children in grades 6-9 and encourages them to avoid cigarettes, alcohol, and marijuana; and

(7) project STAR credits its success to the comprehensive approach of such project which involves in-school programs that deal with peer pressure and assertiveness training, family programs, and community and media participation.

(b) PURPOSE.—The purpose of this subtitle is to—

(1) reauthorize the Drug Free Schools and Communities Act; and

(2) to establish a grant program to enable schools to implement comprehensive drug education programs.

SEC. 3002. REAUTHORIZATION OF DRUG FREE SCHOOLS AND COMMUNITIES ACT.

Section 5111(a) of the Drug Free Schools and Communities Act of 1986 (20 U.S.C. 3181) is amended by striking out "and such sums" and all that follows through the period and inserting in lieu thereof "$1,200,000,000 for fiscal years 1991 and 1992, and such sums as may be necessary for fiscal year 1993.".

SEC. 3003. DRUG FREE SCHOOLS AND COMMUNITIES ACT.

Part B of the Drug Free Schools and Communities Act of 1986 (20 U.S.C. 3191) is amended by adding at the end thereof the following new section:

"SEC. 5128. COMPREHENSIVE DRUG EDUCATION.

"(a) ESTABLISHMENT.—The Secretary shall establish and administer a model grant program to provide grants to individual schools, consortia of schools, or consortia of schools and institutions to implement comprehensive drug education programs, that shall include—

"(1) the establishment of an anti-drug policy;

"(2) the establishment and implementation of peer-to-peer programs that allow children to talk about handling pressures to use and sell drugs or to realize that such children may need counseling or treatment;

"(3) the provision of current medical and scientific information concerning the impact of drugs on our bodies and society;

"(4) the designation of a teacher to serve as the school chairperson of the drug education program who shall be responsible for implementing the program, including training the other teachers; and

"(5) family and community involvement in drug prevention.

"(b) APPLICATION.—

"(1) CONTENTS.—To be eligible to receive a grant under this section, an entity of the type described in subsection (a) shall prepare and submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require by rule, including—

"(A) a description of the manner in which the teacher will be selected to serve as chairperson of the drug education program established under the grant;

"(B) a description of the amount of time each day, expressed as a percentage, the teacher chairperson day shall devote to the drug education program and the estimated salary of such teacher; and

"(C) any other information determined appropriate by the Secretary.

"(2) REVIEW.—

"(A) BY LOCAL AGENCY.—Each application submitted under this subsection shall be reviewed by the appropriate local education agency which shall act as the fiscal agent in administering a grant awarded to a school under this section.

"(B) BY STATE EDUCATIONAL AGENCY.—Each application submitted under this subsection shall be forwarded to the appropriate State educational agency for review and comment, if the State educational agency requests the opportunity for review. The State educational agency shall complete its review of the application and comment to the Secretary not later than 30 calendar days after the receipt of such application.

"(3) ELIGIBLE SCHOOLS.—Public and private schools that serve students in any of grades kindergarten through 12 are eligible to receive a grant under this section.

"(4) SPECIAL RULES.—

"(A) SUPPLEMENTING OF RESOURCES.—Federal funds awarded under this section shall supplement, not supplant, other resources available to the grantee.

"(B) MINIMUM AMOUNT.—Grants made under this section to a single school shall not be less than an amount equal to the sum of 20 percent of the estimated salary of the teacher chairperson in addition to $22 per student enrolled in such school, not to exceed 600 students.

"(c) USE OF ALLOTMENTS.—An entity shall use amounts received under this section to implement a comprehensive drug education program through the designation of a teacher to serve as the chairperson of the drug education program within a school. Such chairperson shall—

"(1) be trained at one of the regional training centers of the Department of Education, and train other teachers and administrators at the school of such individual to—

"(A) recognize the signs and symptoms of substance abuse;

"(B) know their role in reporting substance abuse; and

"(C) become familiar with prevention and education resources, including the use of anti-drug messages in courses of basic study;

"(2) oversee the design and implementation of drug prevention programs for each grade, including the selection of any materials the school would need to purchase;

"(3) coordinate the school-based program with community and family activities; and

"(4) not later than September 1, 1991, have a comprehensive drug education program in place at the school of such individual.

"(d) GRANTS.—

"(1) IN GENERAL.—The Secretary shall make payments under grants awarded under this section to entities of the type described in subsection (a), in installments, and in advance or, by way of reimbursement, with necessary adjustments on account of overpayments or underpayments, as the Secretary may determine appropriate.

"(2) SPENDING OF PAYMENTS.—Payments to an entity under paragraph (1) for any fiscal year must be expended by such entity in that fiscal year or in the succeeding fiscal year.

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to make grants under this section, $150,000,000 for fiscal year 1991.".

SEC. 3004. ANTI-DRUG LESSON PLANS.

(a) IN GENERAL.—The Secretary of Education, acting through the National Diffusion Network established under section 1562 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 2962) shall design and distribute anti-drug lesson plans, for use in classes of basic study, to the chief educational officer of each State who shall make such plan available to schools within such State.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $50,000 for fiscal year 1991.

SEC. 3005. DRUG ABUSE RESISTANCE EDUCATION PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) the Drug Abuse Resistance Education program (known as "DARE") is a successful classroom program implemented for students in the fifth and sixth grades;

(2) DARE was developed in Los Angeles by Police Chief Daryl Gates and the Los Angeles School District and is presently being utilized in 48 States, reaching over 3,000,000 children annually;

(3) DARE sends specially trained police officers into classrooms once a week for 17 consecutive weeks in a semester, where such officers teach students resistance skills through lessons that involve understanding alcohol and drug use, making decisions resisting peer pressure, and alternative activities for youth; and

(4) although DARE has been a leader in teaching resistance skills to children, similar programs can be found in schools that have already taken positive steps to preventing drug abuse.

(b) SECRETARY OF EDUCATION.—The Secretary of Education shall expand existing programs at the Department of Education to provide schools with greater access to DARE and other programs that teach resistance skills and assertiveness training to children in grades kindergarten through 12.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized too be appropriate $10,000,000 in fiscal year 1991 for expansion of the DARE program or other such programs described under subsection (b). Programs that offer resistance and assertiveness training other than DARE are eligible to compete for such additional funding.

Subtitle B—Prevention

SEC. 3101. COMPREHENSIVE DRUG PREVENTION PROGRAMS.

Part A of title V of the Public Health Service Act (32 U.S.C. 290aa et seq.) (as amended by sections 2101, 2101, and 2205) is further amended by adding at the end thereof the following new section:

"SEC. 509K. COMMUNITY DRUG EDUCATION PROGRAMS.

"(a) FINDINGS AND PURPOSE.—

"(1) FINDINGS.—Congress finds that—

"(A) successful drug education programs go beyond the classroom setting; and

"(B) through the Drug-Free Schools and Communities project in Orange County, California, teachers have identified and coordinated existing resources in schools and communities, including law enforcement, libraries, and hospitals to provide—

"(i) training for teachers;

"(ii) attractive information to students; and

"(iii) an entire network of education and prevention programs.

"(2) PURPOSE.—The purpose of this section is to provide resources that encourage a comprehensive approach to community drug prevention by involving families, business leaders, police, churches, and other aspects of the community.

"(b) ESTABLISHMENT.—The Secretary, acting through the Director of the Office for Substance Abuse Prevention, shall establish a comprehensive approach drug prevention grant program to make grants to entities for drug prevention programs that use a comprehensive approach.

"(c) ELIGIBLE INSTITUTIONS.—To be eligible to receive a grant under this section, an institution shall establish or expand a drug prevention program to be comprehensive in nature, and to include—

"(1) an anti-drug policy;

"(2) peer to peer drug abuse programs;

"(3) the provision of complete and accurate information concerning drugs;

"(4) the involvement of the family and community; and

"(5) the participation of the institution in a communication system established by the institution or a coalition of institutions that such institution operates in for the purpose of sharing drug prevention and education information with local agencies.

"(d) DEFINITION.—As used in this section the term 'institution' means any public or private non-profit organization or government agency the agrees to include implement comprehensive drug prevention programs in accordance with subsection (c).

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to make grants under this section, $155,000,000 in fiscal year 1991.".

SEC. 3102. SUBSTANCE ABUSE PREVENTION TRAINING.

Part A of title V of the Public Health Service Act (42 U.S.C. 290aa et seq) (as amended by sections 2204 and 2213) is further amended by adding at the end thereof the following new section:

"SEC. 509J. SUBSTANCE ABUSE PREVENTION TRAINING.

"(a) ESTABLISHMENT.—The Secretary, acting through the Director of the Office, shall establish a National Substance Abuse Prevention Training Program (hereinafter in this section referred to as the 'Program').

"(b) PROGRAM DIRECTOR.—The Program shall be headed by a Director who has extensive experience in substance abuse prevention (hereinafter in this section referred to as the 'Program Director').

"(c) DUTIES.—The Program Director shall—

"(1) develop a substance abuse prevention training curriculum for community groups in organizational development, program operation, prevention concepts, and models;

"(2) provide technical assistance and support for community training on substance abuse prevention, including organizing the community, developing skills, and establishing program goals;

"(3) develop specific training modules for problem areas such as substance abuse, teen pregnancy, and acquired immune deficiency syndrome and for professional groups that work with children and adolescents, such as juvenile court judges, pediatricians, coaches, and counselors;

"(4) provide substance abuse prevention outreach and support to communities with substantial minority populations through workshops and collaborative initiatives with organizations serving such populations;

"(5) disseminate successful curricula and training practices in substance abuse prevention in communities through involvement with parents, civic groups, members of the business community, clergy, law enforcement representatives, and community leaders; and

"(6) evaluate the appropriateness and effectiveness of substance abuse prevention training.

"(d) GRANT PROGRAM.—The Secretary, acting through the Director of the Office, shall make grants to States, local agencies, and community organizations to—

"(1) provide substance abuse prevention training to representatives of such organizations and agencies;

"(2) provide substance abuse prevention training to parents, teachers, clergy, the business community, and civic groups;

"(3) coordinate with other community resources and programs; and

"(4) provide specialized training programs for professional groups that work with children and adolescents, or that are targeted to specific population groups.

"(e) AUTHORIZATION.—There are authorized to be appropriated to carry out this section $30,000,000 for each of the fiscal years 1991 and 1992, of which at least 50 percent shall be used to carry out the provisions of subsection (d).".

SEC. 3103. NATIONAL DRUG PREVENTION CORPS.

(a) ESTABLISHMENT.—The Secretary of Health and Human Services, in consultation with the Secretary of Education, the Secretary of Labor and the Director of the Office of the President's National Service Initiative, shall establish a National Drug Prevention Corps.

(b) FUNCTIONS.—The Corps established under subsection (a) shall mobilize student volunteers through the formation of organizations on the campuses of institutions of higher education to provide information to the local community concerning the cost to society of drug use.

(c) MISSION STATEMENT.—Each student organization formed under subsection (b) shall register a mission statement with the President's National Service Initiative and upon such the organization will receive $1,000 from the Initiative to fund the initial anti-drug interaction of the members of the organization with the youth that reside in the community.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to establish the Corps under subsection (a), $10,000,000 for fiscal year 1991 and additional amounts otherwise appropriated for the President's National Service Initiative.

SEC. 3104. PARTNERSHIP WITH THE MOTION PICTURE AND TELEVISION INDUSTRIES.

(a) FINDINGS.—Congress finds that—

(1) the motion picture and television industries should become full partners in the fight against drug abuse;

(2) the motion picture and television industries have creative and talented writers, directors and producers who have created popular characters like Roger Rabbitt, Indiana Jones, Ghostbusters, and Alf; and

(3) the Academy of Television Arts and Sciences, independent television stations, and the Disney and McDonald's Corporation are together involved in a project that has coordinated the production of "Cartoon All-Stars to the Rescue" which is a half-hour animated television program, that targets children ages 5-11 with a strong anti-drug message.

(b) ESTABLISHMENT OF PROGRAM TO PRODUCE POPULAR ANTI-DRUG CHILDRENS PROGRAMS.—The Director of the Office of National Drug Control Policy shall provide the resources necessary to assist members of the motion picture and television industries in the production of programs that carry anti-drug messages, and specifically those that are popular among children.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Director of the Office of National Control Policy $10,000,000 to carry out subsection (c).

SEC. 3105. ANTITRUST LAW EXEMPTIONS.

(a) ADMINISTRATION.—

(1) IN GENERAL.—Actions described in subsection (b) shall be exempt from the antitrust laws of the United States.

(2) DEFINITIONS.—For purposes of this section:

(A) ANTITRUST LAWS.—The term "antitrust laws" has the meaning given such term in the first section of the Clayton Act (15 U.S.C. 12), and shall also include section 5 of the Federal Trade Commission Act (15 U.S.C. 45).

(B) PERSON IN THE TELEVISION INDUSTRY.—The term "person in the television industry" means a television network, any entity that produces programming for television distribution, including theatrical motion pictures, the National Cable Television Association, the Association of Independent Television Stations, Inc., the National Association of Broadcasters, the Motion Picture Association of America, and each of the affiliate organizations of the networks, and shall include any individual acting on behalf of such person.

(C) TELECAST.—The term "telecast" means any program broadcast by a television broadcast station or transmitted by a cable television system.

(b) EXEMPTION.—The antitrust laws shall not apply to any joint discussion, consideration, review, action, or agreement by or among persons in the television industry for the purpose of, and limited to, developing and disseminating voluntary guidelines designed to alleviate any negative impact of illegal drug use in telecast material.

(c) LIMITATIONS.—

(1) BOYCOTT.—The exemption provided in subsection (b) shall not apply to any joint discussion, consideration, review, action, or agreement that results in a boycott of any person.

(2) EFFECTIVE PERIOD.—The exemption provided in subsection (b) shall apply only to activities conducted within 36 months after the date of enactment of this section.

SEC. 3106. DRUG FREE WORKPLACE INITIATIVE FOR THE PRIVATE SECTOR.

(a) FINDINGS.—Congress finds that—

(1) the Corporation Against Drug Abuse, a Virginia-based non-profit corporation, was created to identify model drug abuse programs for local businesses and to pool tech-

nical and financial resources to provide such programs;

(2) the 21 chief executive officers involved in such Corporation concluded that drug abuse resulted in lost productivity, increased on the job accidents, and lower worker morale;

(3) such chief executive officers concluded that fighting drug abuse was a common concern because the corporations headed by such officers were entering into the same community to recruit and hire future employees; and

(4) such Corporation has identified effective prevention programs and continues to share information concerning effective drug abuse treatment programs, and pools information on legal issues that arise when implementing anti-drug programs in the workplace.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) all places of work should be drug free;

(2) corporate America should take an active role in assisting employees with drug related problems, including problems related to parenting drug-involved or drug-exposed children;

(3) employers should take the following steps towards creating a drug free workplace—

(A) establish a clear drug free policy, including published expectations of behavior, employee rights and responsibilities, and actions to be taken in response to an employee found to use illegal drugs;

(B) establish an employee assistance plan for substance abusing employees;

(C) train supervisors to identify and appropriately intervene with employees who are using drugs;

(D) educate employees about the drug free policy and the assistance plan of the employer;

(E) provide careful and appropriate methods of identifying employees who use drugs, including testing where appropriate; and

(F) provide information concerning drug use among children and information necessary for parents of drug-involved and drug-exposed children, including the warning signs for identifying drug use by children.

(c) BUSINESS PARTICIPATION IN DRUG PREVENTION.—The Secretary of Labor shall identify 100 major business regions in the United States and contact local chief executive officers in such regions to encourage such officers to develop in each region a Corporation Against Drug Abuse program that shall be modeled after the Corporation described in subsection (a). Such Secretary shall provide each region identified under this subsection with $10,000 to assist such regional chief executive officers in coordinating the Corporation Against Drug Abuse program in each region.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out subsection (c).

SEC. 3107. DRUG-FREE WORKPLACE REQUIREMENTS.

(a) FEDERAL CONTRACTORS.—Section 5152(a)(1)(B) of the Drug-Free Workplace Act of 1988 (41 U.S.C. 701(a)(1)(B)) is amended—

(1) in clause (iii), by striking out "and" at the end thereof;

(2) in clause (iv), by adding "and" after the semicolon; and

(3) by adding at the end thereof the following new clause:

"(v) the dangers of drug abuse among children, including the information parents need to know to identify the early signs of drug use by children;".

(b) FEDERAL GRANT RECIPIENTS.—Section 5153(a)(1)(B) of such Act (41 U.S.C. 702(a)(1)(B)) is amended—

(1) in clause (iii), by striking out "and" at the end thereof;

(2) in clause (iv), by adding "and" after the semicolon; and

(3) by adding at the end thereof the following new clause:

"(v) the dangers of drug abuse among children, including the information parents need to know to identify the early signs of drug use by children;".

## TITLE IV—INTERNATIONAL

SEC. 4000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE IV—INTERNATIONAL

Sec. 4000. Table of contents.

Subtitle A—Assistance for Bolivia, Colombia, and Peru

Sec. 4101. Economic assistance for Bolivia, Colombia, and Peru.

Subtitle B—Economic Assistance

Sec. 4201. Authorization of appropriations.
Sec. 4202. Major coca-producing nations.
Sec. 4203. Emphasis on development assistance.
Sec. 4204. Waiver of Brooke-Alexander Amendment.
Sec. 4205. Waiver of Bumpers Amendment.
Sec. 4206. Multilateral financial institutions.

Subtitle C—Trade Incentives

Sec. 4301. Expansion of beneficiary nations under Caribbean Basin Economic Recovery Act.
Sec. 4302. Availability of special trade treatment for certain countries that reduce coca production or related illicit activities through implementation of appropriate economic and social alternatives.
Sec. 4303. International Coffee Agreement.
Sec. 4304. Fruit and vegetable exports.
Sec. 4305. Miscellaneous provision.

Subtitle D—Debt-for-Drugs Exchange Act

Sec. 4401. Short title.
Sec. 4402. Findings.
Sec. 4403. Role of the United Nations fund for drug abuse control.
Sec. 4404. Agreement for debt-for-drug exchanges.
Sec. 4405. Government-to-government debt-for-drugs exchanges.
Sec. 4406. Multilateral debt.
Sec. 4407. Commitments from other creditor governments.
Sec. 4408. Waiver of existing law.
Sec. 4409. Definitions.

Subtitle E—Military and Law Enforcement

Sec. 4501. Military and law enforcement assistance.
Sec. 4502. Multilateral anti-narcotics forces.
Sec. 4503. Joint action and consultation.
Sec. 4504. Establishment of Foreign Service Corps in the Drug Enforcement Administration.

Subtitle F—Controlling Precursor and Essential Chemicals

Sec. 4601. Controlling chemicals from Europe.
Sec. 4602. Research into anti-drug chemical additives.
Sec. 4603. Strengthening the Drug Enforcement Administration's Chemical Control Program.

Subtitle G—International Currency Control Agency

Sec. 4701. Establishment of International Currency Control Agency.

Subtitle H—Narcotics-Related Terrorism

Sec. 4801. Assignment of United States antiterrorism personnel abroad.
Sec. 4802. Authorization of appropriations for aviation security.
Sec. 4803. Protection for judges and other public officials.

### Subtitle A—Assistance for Bolivia, Colombia, and Peru

SEC. 4101. ECONOMIC ASSISTANCE FOR BOLIVIA, COLOMBIA, AND PERU.

(a) AUTHORIZATION OF APPROPRIATIONS.—(1) In addition to funds otherwise available for such purposes, there are authorized to be appropriated to the President to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2151 and following; relating to development assistance) and chapter 4 of part II of that Act (22 U.S.C. 2346 and following; relating to the economic support fund) $125,000,000 for fiscal year 1990.

(2) Funds appropriated pursuant to paragraph (1) are authorized to remain available until expended.

(b) ASSISTANCE FOR BOLIVIA, COLOMBIA, AND PERU.—The funds authorized to be appropriated by subsection (a) shall be made available only for assistance for Bolivia, Colombia, and Peru.

### Subtitle B—Economic Assistance

SEC. 4201. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the President to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2151 and following; relating to development assistance) and chapter 4 of part II of that Act (22 U.S.C. 2346 and following; relating to the economic support fund) $750,000,000 for fiscal years 1991 through 1993.

SEC. 4202. MAJOR COCA-PRODUCING NATIONS.

The assistance authorized in section 4201 shall be made available only for a country which is a major illicit drug producing country (as defined in section 481(i)(2) of the Foreign Assistance Act of 1961) because of its coca production.

SEC. 4203. EMPHASIS ON DEVELOPMENT ASSISTANCE.

It is the sense of the Congress that a majority of the assistance authorized in section 4201 should be allocated to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2151 and following; relating to development assistance). Particular attention should be paid to alternative development programs which are aimed at reducing the production of cocaine in the Andean region of South America.

SEC. 4204. WAIVER OF BROOKE-ALEXANDER AMENDMENT.

During fiscal year 1991, section 620(q) of the Foreign Assistance Act of 1961 (22 U.S.C. 2370(q)) shall not apply with respect to assistance for a country which is a major illicit drug producing country (as defined in section 481(i)(2) of the Foreign Assistance Act of 1961) because of its coca production.

SEC. 4205. WAIVER OF BUMPERS AMENDMENT.

(a) During fiscal years 1991 through 1993, the provisions described in subsection (b) shall not apply with respect to assistance for crop substitution and alternative development activities undertaken in furtherance of narcotics control objectives.

(b) The provisions made inapplicable by subsection (a) are any provisions of the annual Foreign Operations, Export Financing, and Related Programs Appropriations Act that prohibit the use of funds made available to carry out part I of the Foreign Assistance Act of 1961 for activities in connection with the growth or production in a foreign country of an agricultural commodity for export which would compete with a similar commodity grown or produced in the United States.

SEC. 4206. MULTILATERAL FINANCIAL INSTITUTIONS.

It is the sense of the Congress that the Secretary of the Treasury shall instruct the United States executive directors of the International Bank for Reconstruction and Development, International Development Association, and Inter-American Development Bank to use the vote and influence of the United States in these institutions to promote development projects in the Andean region consistent with United States anti-narcotics objectives.

**Subtitle C—Trade Incentives**

SEC. 4301. EXPANSION OF BENEFICIARY NATIONS UNDER CARIBBEAN BASIN ECONOMIC RECOVERY ACT.

Notwithstanding any other provision of law, the President is authorized to designate Bolivia, Colombia, and Peru as a beneficiary country under the Caribbean Basin Economic Recovery Act.

SEC. 4302. AVAILABILITY OF SPECIAL TRADE TREATMENT FOR CERTAIN COUNTRIES THAT REDUCE COCA PRODUCTION OR RELATED ILLICIT ACTIVITIES THROUGH IMPLEMENTATION OF APPROPRIATE ECONOMIC AND SOCIAL ALTERNATIVES.

(a) IN GENERAL.—The President shall determine with respect to each year after 1989—

(1) whether there was in Bolivia, Colombia, and Peru, respectively—

(A) an acceptable reduction in the quantity of illicit coca produced in that country, or

(B) a reduction in illicit coca-related activities in that country; and

(2) whether any annual reduction determined under paragraph (1) (A) or (B) is attributable to the implementation of, in the country concerned, of appropriate social or economic alternatives.

(b) TIME FOR DETERMINATIONS.—The President shall make the determinations required under subsection (a) for any year before the 90th day following the close of that year.

(c) GRANTING OF SPECIAL TRADE TREATMENT.—If the President makes an affirmative determination under subsections (a) (1) and (2) for any year with respect to a country, the President, after consultation with the government of that country, may proclaim special trade treatment that is applicable to one or more articles that—

(1) are products of that country; and

(2) are entered, or withdrawn from warehouse for consumption, in the customs territory of the United States during the year following the year for which such determinations were made.

(d) LIMITATION ON PROVISION OF SPECIAL TRADE TREATMENT.—Special trade treatment may not be provided to any product of a country under this section during any period in which any action under section 802(a) of the Narcotics Control Trade Act (19 U.S.C. 2492(a)) is in force and effect with respect to that country.

(e) DEFINITIONS.—For purposes of this section:

(1) The term "acceptable reduction" means, with respect to any year for which a determination is required under subsection (a)(1)(A), that the quantity of illicit coca produced in the country concerned during that year—

(A) was less than the quantity of illicit coca produced in that country during the preceding year; or

(B) if the standard in subparagraph (A) is not met, represented a reduction in the average rate of increase in the annual production of illicit coca in that country during the preceding years.

(2) The term "appropriate social or economic alternatives" means programs and projects implemented on a local level that provide, or are intended to provide, income and employment alternatives to the production of illicit coca or to engaging in illicit coca-related activities. A program or project referred to in the preceding sentence may not be treated as an appropriate social or economic alternative unless basic social services are provided in the local area in which the program or project is being implemented.

(3) The term "illicit coca-related activities" means local forms of economic activity that are required for, complementary to, or financed from the proceeds of, illicit coca production.

(4) The term "special trade treatment" means any of the following:

(A) The reduction or elimination of any duty.

(B) The termination or modification of any quantitative limitation.

SEC. 4303. INTERNATIONAL COFFEE AGREEMENT.

(a) FINDINGS.—The Congress finds that—

(1) the collapse of the International Coffee Agreement in July 1989, caused a dramatic drop in the world price of coffee;

(2) this price collapse caused a significant loss of revenues for the Andean countries, undermining their national economies;

(3) the collapse of the Agreement also damaged United States international drug policy, one of the goals of which is supporting the legal sectors of the Andean economies;

(4) in particular, the collapse of the Agreement has affected Colombia, which is courageously waging total war on drug trafficking; and

(5) Colombian President Virgilio Barco has requested President Bush to seek an interim reinstatement of the International Coffee Agreement.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that President Bush should seek the immediate reinstatement of the International Coffee Agreement, pending negotiations on a new, comprehensive agreement which includes all world producers and consumer nations.

SEC. 4304. FRUIT AND VEGETABLE EXPORTS.

(a) The Secretary of Agriculture shall provide, on an expedited basis, such technical assistance as necessary to develop United States phytosanitary standards for imports of fruits and vegetables into the United States from Bolivia, Colombia, or Peru.

(b) AUTHORIZATION OF APPROPRIATION.—There are authorized to be appropriated $1,000,000 to carry out the program authorized in subsection (a).

SEC. 4305. MISCELLANEOUS PROVISION.

(a) Section 735 of the Tariff Act of 1930 (Public Law 71-361; 19 U.S.C. 1673d) is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following:

"(e) PRESIDENTIAL WAIVER AUTHORITY.—The President shall have the authority to reverse an affirmative determination if he determines it is in the national interest of the United States to do so.".

**Subtitle D—Debt-for-Drugs Exchange Act**

SEC. 4401. SHORT TITLE.

This subtitle may be cited as the "Debt-for-Drugs Exchange Act".

SEC. 4402. FINDINGS.

The Congress finds that—

(1) narcotics production and trafficking are inextricably linked to the severe debt crisis in Latin America;

(2) more than 90 percent of the world's supply of coca leaf is cultivated and processed in Bolivia, Colombia, and Peru;

(3) the National Drug Control Strategy of September 5, 1989, proposes large increases in United States economic and military assistance to Bolivia, Colombia, and Peru;

(4) Bolivia, Colombia, and Peru each has a large external debt burden that makes it difficult to finance anti-drug efforts;

(5) by providing debt relief in exchange for anti-drug efforts by drug-producing countries, including Bolivia, Colombia, and Peru, the world's developed countries can simultaneously facilitate reduction of the burden of external indebtedness and increase the resources available for anti-drug efforts;

(6) such heavily indebted countries may desire to facilitate such "debt-for-drugs exchanges" to the maximum extent consistent with sound domestic economic management and minimization of inflationary impact;

(7) similar exchanges of "debt-for-nature" and "debt-for-equity" have been effected in the developing world with the encouragement of the United States Government;

(8) the United States has provided relief on payments of bilateral debt for important allies in the Middle East and Europe, including Israel, Jordan, Spain, Pakistan, and Turkey; and

(9) the International Narcotics Act of 1989 (P.L. 101-231) provided the President the authority to provide relief on government-to-government debt owed by eligible countries to the United States in exchange for implementation of programs aimed at reducing the flow of cocaine to the United States.

SEC. 4403. ROLE OF THE UNITED NATIONS FUND FOR DRUG ABUSE CONTROL.

(a) UNFDAC PROGRAM.—The United States representatives to the United Nations should use the voice and vote of the United States to propose the establishment within the United Nations Fund for Drug Abuse Control (hereafter in this subtitle referred to as "UNFDAC") of a program of debt-for-drugs exchanges whereby UNFDAC would be authorized to enter into agreements, subject to the terms and conditions of section 4404, with eligible countries whereby each such country would agree to specific measurements and goals for efforts to combat the international drug trade in exchange for—

(1) the cancellation of up to 20 percent of its foreign commercial indebtedness, to be purchased by UNFDAC on the commercial secondary market; and

(2) the commitment to cancel a specified amount of government-to-government indebtedness held by that country's creditor governments.

(b) CONTRIBUTIONS AUTHORIZED.—For purposes of carrying out subsection (a)(1), the

Secretary of State is authorized, subject to subsection (c), to commit the United States to contribute to UNFDAC an amount equal to one-third of the amount required to purchase indebtedness under subsection (a)(1).

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of State such sums as may be necessary to make contributions under subsection (b).

SEC. 4404. AGREEMENT FOR DEBT-FOR-DRUG EXCHANGES.

Each agreement negotiated under the auspices of UNFDAC shall be subject to the following terms and conditions:

(1) Debt-for-drugs exchanges will be based on the amount of debt assistance resources, as provided by the participating creditor governments in return for the degree of anti-drug efforts, as negotiated by UNFDAC and each participating country. In exchange for the cancellation or redemption of the debt of the government of the participating country, that country shall make a financial resource or policy commitment to take certain actions to combat the international drug trade, including efforts to—

(A) reduce drug production and drug trafficking within its territory, including activities to promote illicit crop eradication and substitution;

(B) increase drug interdiction and enforcement;

(C) increase identification of and elimination of illicit drug trafficking airstrips;

(D) increase seizures of coca leaf, cocaine HCL/base, and marijuana;

(E) increase arrests of drug traffickers;

(F) increase identification of and seizure of assets earned through illegal drug trafficking;

(G) increase drug treatment programs;

(H) increase the identification of and elimination of illicit drug laboratories;

(I) increase the identification and elimination of the trafficking of precursor chemicals for the use in production of illegal drugs; and

(J) promote alternative development activities which are aimed at attracting those involved in the production of cocaine into the legal economy.

(2) Measurement of progress under paragraph (1) in a particular year should include—

(A) measurement of—

(i) the number of hectares of coca crop eradicated,

(ii) the number of hectares under coca cultivation,

(iii) the number of hectares of illicit coca crop replaced by legal crops, and

(iv) the number of coca growers who switch to licit crop cultivation; and

(B) any other measurements as agreed upon by the participating countries and UNFDAC with approval of two-thirds of the participating creditor governments.

(3) The agreement will include provisions to reinstate debt obligations and release parties to the agreement from their commitments under that agreement, if after one year from the agreement date the terms of such agreement have not been fulfilled.

(4) The agreement and the debt-for-drugs exchange will only take effect after two-thirds of the participating creditor governments making contributions to UNFDAC for this purpose have approved the terms of the agreement. Participating creditor governments will make their contributions and commitments known before negotiations on the agreements begin, and participating creditor governments will be bound by the two-thirds approval even if they remain in dissent.

(5) An advisory role (non-voting representation in the UNFDAC and creditor governments negotiating groups) should be provided for representatives from the major multilateral economic institutions to ensure the debt-for-drugs exchanges would be in keeping with other ongoing debt reduction and economic reform measures.

SEC. 4405. GOVERNMENT-TO-GOVERNMENT DEBT-FOR-DRUGS EXCHANGES.

(a) MORATORIUM ON DEBT REPAYMENT.—The obligation of a participating country to make the first scheduled payment on indebtedness to the United States Government that would otherwise be due after the agreement date is hereby canceled.

(b) REDUCTION OF DEBT OBLIGATIONS.—(1) Subject to paragraph (2), on the date on which the second payment that would otherwise be due after the agreement date from a participating country on indebtedness to the United States Government, there shall be deducted from the total principal amount of indebtedness by that country to the United States Government an amount equal to the amount of face-value indebtedness which could have been purchased as of that date on the commercial secondary market with the amount of the payment that was forgiven under subsection (a).

(2) Paragraph (1) shall not apply if the terms of the debt-for-drugs agreement described in section 4404 have not been met after one year.

(c) BUDGET ACT COMPLIANCE.—The authorities of subsections (a) and (b) shall be exercised only in such amounts and to such an extent as are provided in an appropriation Act.

SEC. 4406. MULTILATERAL DEBT.

The Secretary of the Treasury shall instruct the United States executive directors of the International Bank for Reconstruction and Development, International Development Association, and Inter-American Development Bank—

(1) to provide advice and assistance, as appropriate, to borrowing and lending country governments desiring to execute debt-for-drugs exchanges; and

(2) to consider, as an important factor in making loans and negotiating payment schedules for borrowing governments of drug-producing countries, the history of compliance by such governments with, and the extent to which such governments have honored, agreements entered into as part of any debt-for-drugs exchange.

SEC. 4407. COMMITMENTS FROM OTHER CREDITOR GOVERNMENTS.

The President, the Secretary of State, the Secretary of the Treasury, and the Director for National Drug Control Policy should—

(1) organize a consultative group of creditor governments in an appropriate forum in which creditor governments could make contributions and commitments to be used to facilitate debt-for-drugs exchanges; and

(2) encourage other creditor governments to participate in the consultative group described in paragraph (1), and support debt-for-drugs exchanges—

(A) by contributing funds to UNFDAC to purchase the foreign commercial indebtedness of participating countries for use in debt-for-drugs exchanges;

(B) by committing a portion of their government-held debt for use in debt-for-drugs exchanges; and

(C) by coordinating their instructions to their multilateral bank directors to promote bank policies which will reinforce, facilitate, and support debt-for-drugs exchanges.

SEC. 4408. WAIVER OF EXISTING LAW.

The provisions of this subtitle shall apply notwithstanding any other provision of law.

SEC. 4409. DEFINITIONS.

For purposes of this subtitle—

(1) the term "agreement date" means, with respect to a specific country, the date on which that country has entered into an agreement described in section 4404;

(2) the term "eligible country" means Bolivia, Colombia, or Peru;

(3) the term "participating country" means an eligible country which has entered into an agreement described in section 4404;

(4) the term "foreign commercial indebtedness" means the debt obligations of a country to foreign, private lending institutions;

(5) the term "creditor government" means any government with public or private lending institutions within its jurisdiction which hold debt obligations, official or commercial, of an eligible country;

(6) the term "participating creditor government" means any creditor government which contributes funds for the purchase of commercial debt or makes commitments of government-held debt of eligible countries to UNFDAC for the purposes of debt-for-drugs exchanges;

(7) the term "debt-for-drugs agreement" means a written accord between UNFDAC and a participating country, approved by two-thirds of participating creditor governments, which sets the terms of a debt-for-drugs exchange; and

(8) the term "debt-for-drugs exchange" means the provision of debt relief by creditor governments to a participating country under the terms of a debt-for-drugs agreement.

**Subtitle E—Military and Law Enforcement**

SEC. 4501. MILITARY AND LAW ENFORCEMENT ASSISTANCE.

(a) PURPOSES OF ASSISTANCE.—Assistance provided under this section shall be designed to—

(1) enhance the ability of the eligible countries to control illicit narcotics production and trafficking;

(2) strengthen the bilateral ties of the United States with those governments by offering concrete assistance in this area of great mutual concern; and

(3) strengthen respect for internationally recognized human rights and the rule of law in efforts to control illicit narcotics production and trafficking.

(b) AUTHORIZATION OF APPROPRIATIONS.—Subject to the requirements of this section, there are authorized to be appropriated $375,000,000 for fiscal years 1991 through 1993.

(c) MILITARY ASSISTANCE AND TRAINING.—The President is authorized to use the funds made available under this section to provide defense articles, defense services, and international military education and training. Such assistance shall be provided under the authorities of section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to the foreign military financing program) and chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 and following; relating to international military education and training).

(d) LAW ENFORCEMENT ASSISTANCE AND TRAINING.—Not less than half of the funds made available to carry out this section may be used, notwithstanding section 660 of the

Foreign Assistance Act of 1961 (22 U.S.C. 2420; relating to the prohibition on law enforcement assistance)—

(1) for the procurement of equipment and articles for use in narcotics control, eradication, and interdiction efforts by law enforcement agencies, or other units, that are organized for the specific purpose of narcotics enforcement;

(2) to provide to law enforcement agencies or other units that are organized for the specific purpose of narcotics enforcement by the governments of the eligible countries, education and training in the use of and maintenance of the equipment referred to in paragraph (1); and

(3) for the expenses of deploying, upon the request of the governments of the eligible countries, Department of Defense mobile training teams in that country to conduct training in military-related individual and collective skills that will enhance that country's ability to conduct tactical operations in narcotics interdiction.

(e) CONDITIONS OF ELIGIBILITY.—Assistance may be provided to eligible countries under this section only—

(1) so long as that country has a democratic government; and

(2) the armed forces and law enforcement agencies of that country do not engage in a consistent pattern of gross violations of internationally recognized human rights (as defined in section 502B(d)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2304(d)(1)).

(f) NOTIFICATIONS TO CONGRESS.—Not less than 15 days before funds are obligated pursuant to this section, the President shall transmit to the congressional committees specified in section 634A of the Foreign Assistance Act of 1961 (22 U.S.C. 2394-1) a written notification in accordance with procedures applicable to reprogrammings under that section. Such notification shall specify—

(1) the country to which the assistance is to be provided;

(2) the type and value of the assistance to be provided;

(3) the law enforcement agencies or other units that will receive the assistance; and

(4) an explanation of how the proposed assistance will achieve the purposes specified in subsection (a) of this section.

(g) REPORTS ON HUMAN RIGHTS SITUATION.—Section 502B(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2304(c); relating to country-specific human rights reports upon the request of the foreign affairs committee) applies with respect to countries for which assistance authorized by this section is proposed or is being provided.

(h) COORDINATION WITH INTERNATIONAL NARCOTICS CONTROL ASSISTANCE PROGRAM.—Assistance under this section shall be coordinated with assistance provided under chapter 8 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2291 and following; relating to international narcotics control assistance).

(i) ELIGIBLE COUNTRIES.—For the purposes of this section, the term "eligible countries" means any country which is a major illicit drug producing country (as defined in section 481(i)(2) of the Foreign Assistance Act of 1961) because of its coca production.

SEC. 4502. MULTILATERAL ANTI-NARCOTICS FORCES.

(a) FINDINGS.—The Congress finds that—

(1) the Prime Minister of Jamaica, Michael Manley, has called for a multinational force which would be used to fight drug trafficking in nations that invite such a force;

(2) the Congress has previously endorsed the concept of a multilateral force; and

(3) such a multilateral force could be effective in counter-narcotics activities, particularly in nations which lack the means to fight drug trafficking.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the President should seek the establishment of a multilateral anti-narcotics force within the Organization of American States, the United Nations, and other international fora.

(c) BUDGET REQUEST.—If diplomatic efforts toward achieving a multilateral force are successful, the President shall submit a request to the Congress covering the United States share of the cost of operation and maintenance of such a force.

SEC. 4503. JOINT ACTION AND CONSULTATION.

(a) FINDINGS.—The Congress finds that—

(1) the recent proposal by the United States to station naval forces off the coast of Colombia was hampered by inadequate consultation between the United States Government and the Government of Colombia;

(2) such actions can have a damaging effect on United States anti-narcotics policies in the Western Hemisphere; and

(3) close cooperation and consultation between the United States and the other countries of the Western Hemisphere is essential to the success of anti-narcotics efforts in the region.

(b) SENSE OF CONGRESS.—The Congress strongly urges the Executive Branch to—

(1) coordinate closely with all allies in the Western Hemisphere dedicated to counter the threat of drug trafficking; and

(2) explore the possibility of undertaking joint military and intelligence operations with other nations of the Western Hemisphere where appropriate.

SEC. 4504. ESTABLISHMENT OF FOREIGN SERVICE CORPS IN THE DRUG ENFORCEMENT ADMINISTRATION.

(a) FINDINGS.—The Congress hereby makes the following findings:

(1) International drug enforcement by United States personnel requires special training and expertise, including but not limited to the following areas:

(A) language training;

(B) jungle operations;

(C) intelligence gathering;

(D) United States and international law enforcement; and

(E) personal and communications security.

(2) The Drug Enforcement Administration currently relies on a Temporary Duty (TDY) system to meet its personnel requirements for its overseas mission, with a large percentage of DEA personnel working 90-day tours of duty in foreign countries;

(3) Reliance on the TDY system is inadequate to meet the Drug Enforcement Administration's overseas responsibilities, undermining operational continuity and cooperation with other United States and foreign personnel.

(4) The unique and complex mission of international drug enforcement requires the establishment of a specialized and professional Foreign Service corps for Drug Enforcement Administration personnel serving abroad.

(b) ESTABLISHMENT OF DEA FOREIGN SERVICE CORPS.—The Administrator of the Drug Enforcement Administration (DEA) shall prepare a plan to establish a Foreign Service Corps in DEA (hereafter in this section referred to as the "Corps") for DEA personnel serving in foreign countries.

(c) REQUIREMENTS.—To the greatest extent practicable, the Corps should be modeled on the Foreign Service Act of 1980. At a minimum, the Administrator shall ensure that the plan for establishing the Corps required under subsection (b) shall address—

(1) the need for specialized training and expertise in international drug enforcement, including but not limited to the following areas: foreign language skills, jungle operations, intelligence, law enforcement and personal and communications security;

(2) pay, promotion, and retention incentives to recruit and retain highly qualified and experienced personnel for the Corps; and

(3) management of the Corps, including recruitment, appointment, and personnel management procedures.

(d) SUBMISSION OF DEA FOREIGN SERVICE CORPS PLAN.—The Administrator of the Drug Enforcement Administration shall transmit the plan required under this section to the Committee on the Judiciary and the Committee on Foreign Relations of the Senate and the Committee on the Judiciary and the Committee on Foreign Affairs of the House of Representatives not later than 180 days after the date of enactment of this Act. The plan shall include a complete and detailed list of legislative and executive proposals to establish the Corps and a detailed 5-year cost estimate for establishing and implementing the Corps plan.

**Subtitle F—Controlling Precursor and Essential Chemicals**

SEC. 4601. CONTROLLING CHEMICALS FROM EUROPE.

(a) NEGOTIATIONS.—(1) The Attorney General shall enter into negotiations with the appropriate law enforcement and judicial agencies and any other officials of any foreign country with jurisdiction over companies who manufacture, market, sell, or purchase certain precursor and/or essential chemicals used in the production of illicit narcotics. The priority of negotiations should be determined based on an assessment by the Attorney General which countries have jurisdiction over companies that may be knowingly or unknowingly supplying chemicals for the illicit manufacture of controlled substances.

(2) The purposes of the negotiations shall be to—

(A) establish a list of precursor and essential chemicals contributing to the illicit manufacture of controlled substances, as defined in the section 102 Controlled Substances Act (21 U.S.C. 802);

(B) reach one or more international agreements on a method for maintaining records of transactions of these listed chemicals;

(C) establish a procedure by which such records may be made available to United States law enforcement authorities for the exclusive purpose of conducting an investigation relative to precursor chemicals, essential chemicals, and/or controlled substances contributing to the manufacture of illicit narcotics; and

(D) encourage chemical source countries to enact national chemical control legislation which would—

(i) impose specific recordkeeping and reporting requirements for domestic transactions involving listed chemicals;

(ii) establish a system of permits or declarations for imports and exports of listed chemicals; and

(iii) authorize government officials to seize or suspend shipments of listed chemicals based on evidence that they may be destined for the illicit manufacture of controlled substances.

(b) REPORTS.—Not later than one year after the date of enactment of this Act, the Attorney General shall submit an interim report to the Judiciary Committee and the Foreign Relations Committee of the Senate on progress in the negotiations. Not later than eighteen months from date of enactment of this Act, the Attorney General shall submit a final report to the aforementioned Senate committees on the result of negotiations identifying countries with which agreements have not been reached and which have jurisdiction over companies believed to be engaged in the manufacture, marketing, sale, or purchase of precursor and/or essential chemicals used in illicit manufacture of controlled substances.

(c) PENALTIES.—After consulting with the Attorney General and the Director of National Drug Control Policy, the President shall impose penalties or sanctions including temporarily or permanently prohibiting any company or entity (i) refusing to maintain records for the purpose of monitoring and regulating transactions of listed precursor chemicals, or (ii) refusing to make such records available to United States law enforcement authorities for investigative purposes from engaging in any or all transactions within the commerce of the United States.

(d) DEFINITIONS.—A record under subsection (a) shall be retrievable and include the date of the transaction, the identity of each party to the transaction, including the ultimate consignee, an accounting of the quantity and form of listed chemical(s), and a description of the method of transfer.

SEC. 4602. RESEARCH INTO ANTI-DRUG CHEMICAL ADDITIVES.

(a) The Attorney General is authorized and directed to conduct research into additives and other means which would render precursor and essential chemicals useless in the production and manufacturing of illegal drugs but that would not effect the legitimate commercial uses of such chemicals.

(b) There are authorized to be appropriated $5,000,000 in fiscal year 1991 to carry out the purposes of subsection (a) of this section.

SEC. 4603. STRENGTHENING THE DRUG ENFORCEMENT ADMINISTRATION'S CHEMICAL CONTROL PROGRAM.

From the $10,000,000 authorized under section 1051 of this Act, the Administrator of the Drug Enforcement Administration should hire not less than 100 additional special agents and investigators to expand domestic and international investigations of violations of the Chemical Diversion and Trafficking Act of 1988.

### Subtitle G—International Currency Control Agency

SEC. 4701. ESTABLISHMENT OF INTERNATIONAL CURRENCY CONTROL AGENCY.

(a) FINDINGS.—The Congress finds that—

(1) striking at the financial underpinnings of international drug trafficking organizations is one of the most promising means of attacking these cartels;

(2) the "Group of Seven" nations have established a Financial Action Task Force to develop cooperative means of attacking international money laundering; and

(3) the establishment of an International Currency Control Agency, operating in conjunction with the Bank on International Settlements, the International Monetary Fund, and the International Bank for Reconstruction and Development, could greatly assist cooperative anti-money laundering efforts.

(b) NEGOTIATIONS.—(1) The United States representative to the Financial Action Task Force of the Group of Seven nations, acting through the Secretary of State, shall immediately begin negotiations to establish an International Currency Control Agency.

(2) As originally proposed in section 4701 of the Anti-Drug Abuse Act of 1988, such Agency would—

(A) serve as a central source of information and intelligence for international law enforcement agencies;

(B) establish uniform currency transaction reporting requirements for international financial institutions, and would establish policies restricting access to international financial markets for institutions that do not adopt such reporting requirements; and

(C) collect and analyze currency transaction reports filed by participating countries for law enforcement purposes.

(3) Not later than 180 days after the date of enactment of this Act, the Secretary of State shall submit to Congress a report on the status of negotiations required by this section.

### Subtitle H—Narcotics-Related Terrorism

SEC. 4801. ASSIGNMENT OF UNITED STATES ANTI-TERRORISM PERSONNEL ABROAD.

(a) The Secretary of State shall assign adequate personnel from the Bureau of Alcohol, Tobacco and Firearms and the Federal Aviation Administration to United States embassies in major drug-producing and transit countries, particularly in Latin America, to strengthen United States assault weapons control and aviation security programs.

(b) Within 90 days of the date of enactment of this Act, the Secretary of State shall submit a report to Congress on the implementation of the directive in subsection (a).

SEC. 4802. AUTHORIZATION OF APPROPRIATIONS FOR AVIATION SECURITY.

There are authorized to be appropriated $1,000,000 in fiscal year 1991 to provide not less than five additional intelligence analysts and support personnel to the Federal Aviation Administration's aviation security program for liaison with United States drug enforcement agencies and the United States intelligence community to prevent narcotics-related terrorism activity against aviation.

SEC. 4803. PROTECTION FOR JUDGES AND OTHER PUBLIC OFFICIALS.

Of the funds appropriated under section 4501 of this title, up to $15,000,000 shall be used each year for the protection of judges, law enforcement officers and other public officials in the eligible countries against acts of violence.

## TITLE V—INTERDICTION

SEC. 5000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE V—INTERDICTION

Sec. 5000. Table of contents.

Subtitle A—Strengthening Border Interdiction Efforts

Sec. 5101. Authorizations for the Customs Service.

Sec. 5102. Authorizations for the Immigration and Naturalization Service.

Subtitle B—Military Support Along United States Border

Sec. 5201. Department of Defense activities relating to cargo.

Subtitle C—Attacking Drug Trafficking by Criminal Aliens

Sec. 5301. Deported aggravated felons reentering the United States.

Sec. 5302. Amendments to the Immigration and Nationality Act.

Subtitle D—Making Drug-Related Intelligence a Level-One Intelligence Priority

Sec. 5401. Increasing the priority of international drug production and trafficking in the National Foreign Intelligence Program.

Sec. 5402. Expansion of human intelligence efforts.

Subtitle E—Preventing Drug Traffickers From Entering the United States Using Fraudulent Immigration Documents

Sec. 5501. Preventing drug traffickers from entering the United States using fraudulent immigration documents.

### Subtitle A—Strengthening Border Interdiction Efforts

SEC. 5101. AUTHORIZATIONS FOR THE CUSTOMS SERVICE.

There are authorized to be appropriated for the fiscal year ending September 30, 1991, $100,000,000 (which shall be in addition to any other appropriations) for the United States Customs Service as follows:

(1) $20,000,000 for the hiring, equipping, and training of no fewer than 200 full-time equivalent agents and intelligence research specialists, over such levels on board as of September 30, 1990, to target drug trafficking in high-intensity drug trafficking areas; and

(2) $80,000,000 for the hiring, equipping, and training of no fewer than 800 full-time equivalent inspectors, special agents and canine enforcement officers, over such levels on board as of September 30, 1990, for the examination of cargo containers coming into the United States from high-risk drug source or transit countries, for expanded passenger processing enforcement activities, and for the investigation and enforcement of chemical diversion activities.

SEC. 5102. AUTHORIZATIONS FOR THE IMMIGRATION AND NATURALIZATION SERVICE.

There are authorized to be appropriated for the fiscal year ending September 30, 1991, $45,000,000 (which shall be in addition to any other appropriations) for the Immigration and Naturalization Service as follows:

(1) $15,000,000 for the hiring, training, and equipping of no fewer than 300 full-time equivalent Border Patrol officer positions;

(2) $25,000,000 for Immigration and Naturalization Service criminal investigations and expeditious deportation of criminal aliens from detention; and

(3) $5,000,000 for the procurement of low-level light television systems, portable and permanent sensor systems and 4-wheel drive law enforcement vehicles for the United States Border Patrol.

### Subtitle B—Military Support Along United States Border

SEC. 5201. DEPARTMENT OF DEFENSE ACTIVITIES RELATING TO CARGO.

Section 375 of chapter 18 of title 10, United States Code, is amended by—

(1) striking "The Secretary of Defense" and inserting "(a) Subject to the provisions

of subsection (b), the Secretary of Defense"; and

(2) adding a new subsection (b) as follows:

"(b) The Secretary of Defense is authorized and directed to prescribe regulations authorizing Department of Defense personnel to participate directly in the inspection of cargo and other goods at United States ports and along the borders of the United States. Such activities shall be conducted in coordination with civilian law enforcement agencies and shall not include the inspection of persons.".

**Subtitle C—Attacking Drug Trafficking by Criminal Aliens**

**SEC. 5301. DEPORTED AGGRAVATED FELONS REENTERING THE UNITED STATES.**

Pursuant to its authority under section 994(p) of title 28, United States Code, and section 21 of the Sentencing Act of 1987, the United States Sentencing Commission shall promulgate guidelines, or shall amend existing guidelines, to provide that a defendant convicted of violating section 276(b)(2) of the Immigration and Nationality Act (8 U.S.C. 1326) shall be assigned an offense level under chapter 2 of the sentencing guidelines that constitutes a meaningful deterrence to the commission of such offense.

**SEC. 5302. AMENDMENTS TO THE IMMIGRATION AND NATIONALITY ACT.**

(a) IN GENERAL.—Except as otherwise specifically provided in this section, whenever in this section an amendment is expressed as an amendment to a provision, the reference shall be deemed to be made to the Immigration and Nationality Act.

(b) DEFINITION OF GOOD MORAL CHARACTER.—Section 101(f) of the Immigration and Nationality Act is amended—

(1) by striking out the period at the end of paragraph (8) and inserting in lieu thereof "; or"; and

(2) by adding at the end thereof the following new paragraph:

"(9) one who has been convicted of an aggravated felony, as defined in subsection (a)(43).".

(c) BAR ON REENTRY OF ALIENS CONVICTED OF AGGRAVATED FELONIES.—Section 212(a)(17) (8 U.S.C. 1182(a)(17)) is amended—

(1) by striking out "(or within ten years in the case of an alien convicted of an aggravated felony)"; and

(2) by inserting after "deportation or removal" the following: "(or anytime thereafter in the case of an alien convicted of an aggravated felony)".

(d) CUSTODY PENDING DETERMINATION OF EXCLUDABILITY.—Section 236 (8 U.S.C. 1226) is amended by adding at the end thereof the following new subsection:

"(e) Pending a determination of excludability, the Attorney General shall take into custody any alien convicted of an aggravated felony upon completion of the alien's sentence for such conviction. Notwithstanding any other provision of this section, the Attorney General shall not release such felon from custody.".

(e) SUSPENSION OF DEPORTATION PROHIBITED.—Section 244 (8 U.S.C. 1254) is amended by adding at the end thereof the following new subsection:

"(g) No alien convicted of an aggravated felony (as defined in section 101(a)(43)) shall be eligible for suspension of deportation under this section.".

(f) EFFECT OF FILING PETITION FOR REVIEW.—Section 106(a)(3) (8 U.S.C. 1105a(a)(3)) is amended by inserting after "directs" the following: "or unless the alien is convicted of an aggravated felony, in which case the Service shall not stay the deportation of the alien pending determination of the petition by the court, unless the court otherwise directs;".

(g) CUSTODY PENDING DETERMINATION OF DEPORTABILITY.—Section 242(a)(2) (8 U.S.C. 1252) is amended to read as follows:

"(2) Pending a determination of deportability, the Attorney General shall take into custody any alien convicted of an aggravated felony upon completion of the alien's sentence for such conviction. Notwithstanding any other provision of this section, the Attorney General shall not release such felon from custody.".

**Subtitle D—Making Drug-Related Intelligence a Level-One Intelligence Priority**

**SEC. 5401. INCREASING THE PRIORITY OF INTERNATIONAL DRUG PRODUCTION AND TRAFFICKING IN THE NATIONAL FOREIGN INTELLIGENCE PROGRAM.**

(a) FINDINGS.—The Congress makes the following findings:

(1) The President and Congress have declared that international drug production and trafficking are threats to the national security of the United States and to the stability of several democractically elected governments in the Western Hemisphere.

(2) Increased electronic, human, and other types of intelligence could greatly assist the United States in apprehending international drug traffickers, identifying the flow of illegal profits derived from drug-related activity, and disrupting the shipment of drugs into the United States.

(b) POLICY.—To respond to this threat, the United States intelligence community should devote greater resources to intelligence activities relating to international drug production and trafficking.

(c) INCREASING PRIORITY OF INTERNATIONAL DRUG TRAFFICKING.—The Director of Central Intelligence (hereafter in this section referred to as the "DCI") shall make support of antidrug efforts a Level One Priority in his National Foreign Intelligence Strategy and shall reflect this priority in the National Foreign Intelligence Program.

(d) INTELLIGENCE RESOURCES.—The DCI shall include in his next National Foreign Intelligence Budget Request a separate and detailed request for funds necessary to implement the requirement to make antidrug intelligence activities a Level One Priority.

**SEC. 5402. EXPANSION OF HUMAN INTELLIGENCE EFFORTS.**

It is the sense of Congress that the Director of Central Intelligence, in cooperation with the United States intelligence community, should expand resources devoted to human intelligence directed against international drug trafficking. In particular, the Director should increase human intelligence support for law enforcement operations along the United States border, where the enormous volume of legitimate trans-border activity renders random drug interdiction patrols largely ineffective.

**Subtitle E—Preventing Drug Traffickers From Entering the United States Using Fraudulent Immigration Documents**

**SEC. 5501. PREVENTING DRUG TRAFFICKERS FROM ENTERING THE UNITED STATES USING FRAUDULENT IMMIGRATION DOCUMENTS.**

(a) FINGERPRINTS ON UNITED STATES IMMIGRATION DOCUMENTS.—The Secretary of State and the Attorney General shall establish a program under which applicants for entry into the United States shall be required to submit fingerprints at the time of application. Such fingerprints shall be checked against records of the Federal Bureau of Investigation, the Immigration and Naturalization Service, and other United States agencies to ensure that the applicant has not submitted fraudulent documentation or is not excludable under United States immigration laws.

(b) IMPLEMENTATION OF PROGRAM.—The Secretary of State and the Attorney General shall implement the program outlined in subsection (a) in two phases. Phase I shall be a 2-year pilot program for applicants from major drug-producing or transit countries. Based on the results of the evaluation required under subsection (c), Phase II shall be implemented over the next 3 years and shall be expanded to all alien applicants requesting entry into the United States, as appropriate.

(c) EVALUATION AND REPORTS.—The Secretary of State and the Attorney General shall conduct a comprehensive review and evaluation of the program outlined in subsection (a). The Secretary of State and the Attorney General shall submit an interim report to Congress within 1 year after the date of enactment of this Act specifying what progress has been made in implementing Phase I. After Phase I has been implemented, the Secretary of State and the Attorney General shall submit to Congress a comprehensive evaluation and assessment of Phase I along with a complete plan for implementing Phase II.

**TITLE VI—DRUG EMERGENCY AREAS**

**SEC. 6000. TABLE OF CONTENTS.**

The table of contents for this title is as follows:

TITLE VI—DRUG EMERGENCY AREAS

Sec. 6000. Table of contents.
Sec. 6001. Short title.
Sec. 6002. Drug emergency areas.

**SEC. 6001. SHORT TITLE.**

This title may be cited as the "Drug Emergency Areas Act of 1990".

**SEC. 6002. DRUG EMERGENCY AREAS.**

Subsection (c) of section 1005 of the National Narcotics Leadership Act of 1988 is amended to read as follows:

"(c) DECLARATION OF DRUG EMERGENCY AREAS.—

"(1) PRESIDENTIAL DECLARATION.—(A) In the event that a major drug-related emergency exists throughout a State or a part of a State, the President may, in consultation with the Director and other appropriate officials, declare such State or part of a State to be a drug emergency area and may take any and all necessary actions authorized by this subsection or otherwise authorized by law.

"(B) For the purposes of this subsection, the term 'major drug-related emergency' means any occasion or instance in which drug trafficking, drug abuse, or drug-related violence reaches such levels, as determined by the President, that Federal assistance is needed to supplement State and local efforts and capabilities to save lives, and to protect property and public health and safety.

"(2) PROCEDURE FOR DECLARATION.—(A) All requests for a declaration by the President designating an area to be a drug emergency area shall be made, in writing, by the Governor or chief executive officer of any affected State or local government, respectively, and shall be forwarded to the President through the Director in such form as the Director may by regulation require. One or more cities, counties, or States may submit a joint request for designation as a drug emergency area under this subsection.

"(B) Any request made under clause (A) of this paragraph shall be based on a written finding that the major drug-related emergency is of such severity and magnitude that effective response to save lives, and to protect property and public health and safety, that Federal assistance is necessary.

"(C) The President shall not limit declarations made under this subsection to highly-populated centers of drug trafficking, drug use or drug-related violence, but shall also consider applications from governments of less populated areas where the magnitude and severity of such activities is beyond the capability of the State or local government to respond.

"(D) As part of a request for a declaration by the President under this subsection, and as a prerequisite to Federal drug emergency assistance under this subsection, the Governor(s) or chief executive officer(s) shall—

"(i) take appropriate response action under State or local law and furnish such information on the nature and amount of State and local resources which have been or will be committed to alleviating the major drug-related emergency;

"(ii) certify that State and local government obligations and expenditures will comply with all applicable cost-sharing requirements of this subsection; and

"(iii) submit a detailed plan outlining the State and/or local government's short- and long-term plans to respond to the major drug-related emergency, specifying the types and levels of Federal assistance requested, and including explicit goals (where possible quantitative goals) and timetables and shall specify how Federal assistance provided under this subsection is intended to achieve such goals.

"(E) The Director shall review any request submitted pursuant to this subsection and forward the application, along with a recommendation to the President on whether to approve or disapprove the application, within 30 days after receiving such application. Based on the application and the recommendation of the Director, the President may declare an area to be a drug emergency area under this subsection.

"(3) FEDERAL MONETARY ASSISTANCE.—(A) The President is authorized to make grants to State or local governments of up to, in the aggregate for any single major drug-related emergency, $50,000,000.

"(B) The Federal share of assistance under this section shall not be greater than 75 percent of the costs necessary to implement the short- and long-term plan outlined in paragraph (2)(D)(iii).

"(C) Federal assistance under this subsection shall not be provided to a drug disaster area for more than 1 year. In any case where Federal assistance is provided under this Act, the Governor(s) or chief executive officer(s) may apply to the President, through the Director, for an extension of assistance beyond 1 year. The President, based on the recommendation of the Director, may extend the provision of Federal assistance for not more than an additional 180 days.

"(D) Any State and/or local government receiving Federal assistance under this subsection shall balance the allocation of such assistance evenly between drug supply reduction and drug demand reduction efforts, unless State or local conditions dictate otherwise.

"(4) NONMONETARY ASSISTANCE.—In addition to the assistance provided under paragraph (3), the President may—

"(A) direct any Federal agency, with or without reimbursement, to utilize its authorities and the resources granted to it under Federal law (including personnel, equipment, supplies, facilities, and managerial, technical, and advisory services) in support of State and local assistance efforts; and

"(B) provide technical and advisory assistance, including communications support and law enforcement-related intelligence information.

"(5) ISSUANCE OF IMPLEMENTING REGULATIONS.—Within 90 days after the enactment of this subsection, the Director shall issue regulations to implement this subsection, including such regulations as may be necessary relating to applications for Federal assistance and the provision of Federal monetary and nonmonetary assistance.

"(6) AUDIT BY COMPTROLLER GENERAL.—The Comptroller General shall conduct an audit of any Federal assistance (both monetary and nonmonetary) of an amount greater than $100,000 provided to a State or local government under this subsection, including an evaluation of the effectiveness of such assistance based on the goals contained in the application for assistance.

"(7) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for each fiscal year 1991, 1992, 1993, 1994, and 1995, $300,000,000 to carry out the purposes of this subsection.".

## TITLE VII—RESEARCH AND NEW TECHNOLOGIES

SEC. 7000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE VII—RESEARCH AND NEW TECHNOLOGIES

Subtitle A—Pharmacological Research

Sec. 7001. Short title.
Sec. 7002. Findings and purpose.

CHAPTER 1—FEDERAL MEDICATION DEVELOPMENT PROGRAM

Sec. 7011. Establishment of Medication Development Division.
Sec. 7012. Authorization of appropriations.

CHAPTER 2—PRIVATE SECTOR DEVELOPMENT OF PHARMACOTHERAPEUTICS

Sec. 7021. Drugs for the treatment of addictions.

CHAPTER 3—MEDICATIONS REVIEW PROCESS REFORM

Sec. 7031. Investigational new drugs.
Sec. 7032. Parallel track trials for medications to treat drug addiction.
Sec. 7033. Waiver of mechanism of action requirement.
Sec. 7034. Definition.

CHAPTER 4—HIGH PRIORITY RESEARCH AREAS

Sec. 7041. Sense of Congress.

CHAPTER 5—REPORT BY THE SURGEON GENERAL

Sec. 7051. Report by the Surgeon General.

Subtitle B—Counter-Narcotics Technology Assessment Center

Sec. 7101. Short title.
Sec. 7102. Counter-Narcotics Technology Assessment Center.
Sec. 7103. Authorization of appropriations.

Subtitle C—National Drug Abuse Epidemiology

Sec. 7201. National Drug Intelligence Epidemiology System.

### Subtitle A—Pharmacological Research

SEC. 7001. SHORT TITLE.

This subtitle may be cited as the "Pharmacotherap Development Act of 1990".

SEC. 7002. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) drug addiction is a disease of epidemic proportions in the United States;

(2) current efforts to treat the disease of addiction are inadequate; and

(3) pharmacotherapy, the use of medicines to treat the disease of addiction, is one promising method of drug treatment, and the development of such medicines must be more aggressively promoted by the Federal Government.

(b) PURPOSE.—It is the purpose of this subtitle to promote research, development, and production of pharmacotherapeutics used to reduce the prevalence of drug addiction in the United States.

### CHAPTER 1—FEDERAL MEDICATION DEVELOPMENT PROGRAM

SEC. 7011. ESTABLISHMENT OF MEDICATION DEVELOPMENT DIVISION.

Section 515 of the Public Health Service Act (42 U.S.C. 290cc) is amended to read as follows:

"SEC. 515. PHARMACOTHERAPEUTICS DEVELOPMENT DIVISION.

"(a) ESTABLISHMENT.—There is established in the National Institute on Drug Abuse a Division to be known as the 'Medications Development Division' (hereafter in this section and section 515A referred to as the 'Division').

"(b) ORGANIZATION.—

"(1) DIRECTOR.—The Division shall be headed by a Director appointed by the Director of the National Institute on Drug Abuse on the basis of scientific merit.

"(2) STAFFING.—The Director of the Division (hereinafter in this section and section 515A referred to as the 'Director') may appoint one or more Deputy Directors and shall employ administrators and researchers on the basis of scientific merit.

"(c) DUTIES.—The Director shall—

"(1) in consultation with the Commissioner of Food and Drugs, establish, not later than 1 year after the date of enactment of this section, new guidelines for the safety and efficacy trials of medications to treat drug addiction, with such guidelines to be implemented by the Commissioner of Food and Drugs in accordance with subchapter C of chapter V of the Federal Food, Drug and Cosmetic Act;

"(2) conduct periodic meetings with the Commissioner of Food and Drugs to discuss other measures that may facilitate the approval process of drug addiction treatments;

"(3) encourage and promote (through grants, contracts, or otherwise) expanded research programs, investigations, experiments, and studies, into the development of medications to treat drug addiction;

"(4) establish, or provide for the establishment of, clinical research facilities to carry out this section;

"(5) track the activities of the National Institutes of Health relating to the development and use of pharmacotherapeutic treatments for drug addiction;

"(6) collect, analyze, and disseminate data useful in the development and use of pharmacotherapeutic treatments for drug addiction and seek the establishment of an international research data bank to collect, catalog, analyze, and disseminate through international channels, the results of research undertaken in any country concerning phar-

macotherapeutic treatments for drug addiction; and

"(7) support training in the fundamental sciences and clinical disciplines related to the pharmacotherapeutic treatment of drug addiction, including the use of training stipends, fellowships, and awards where appropriate.

"(d) ADMINISTRATION.—In carrying out the activities described in subsection (c), the Director may—

"(1) collect and disseminate through publications and other appropriate means, information pertaining to the research and other activities under this section;

"(2) make grants to or enter into contracts and cooperative agreements with individuals and public and private entities to further the goals of the Division;

"(3) acquire, construct, improve, repair, operate, and maintain pharmacotherapeutic centers, laboratories, research, and other necessary facilities and equipment, and related accommodations as may be necessary;

"(4) acquire, without regard to the Act of March 3, 1877 (40 U.S.C. 34), by lease or otherwise through the Administrator of the General Services, buildings or parts of buildings in the District of Columbia or communities located adjacent to the District of Columbia for the use of the Division for a period not to exceed 10 years;

"(5) accept voluntary and uncompensated services;

"(6) accept gifts, or donations of services, money, or property, real, personal, or mixed, tangible or intangible; and

"(7) take necessary action to ensure that all channels for the dissemination and exchange of scientific knowledge and information are maintained between the Division and the other scientific, medical, and biomedical disciplines and organizations nationally and internationally.

"(e) REPORTS.—

"(1) IN GENERAL.—Not later than December 31, 1990, and each December 31 thereafter, the Director shall submit to the Office of National Drug Control Policy established under section 1002 of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1501) a report, in accordance with paragraph (3), that describes the objectives and activities of the Division.

"(2) INCORPORATION INTO NATIONAL DRUG CONTROL STRATEGY.—The Director of National Drug Control Policy shall incorporate, by reference or otherwise, each report submitted under this subsection in the National Drug Control Strategy submitted the following February 1 under section 1005 of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1504).

"(3) ADDITIONAL REPORTS.—The Director may prepare additional reports as appropriate.

"(f) PEER REVIEW.—

"(1) IN GENERAL.—The Director shall, by regulation, provide for the proper scientific review of all research grants, cooperative agreements, and contracts over which the Director has authority by—

"(A) utilizing, to the extent practicable, appropriate peer review groups established within the National Institute on Drug Abuse and composed primarily of non-Federal scientists and other experts in the scientific and disease fields; and

"(B) when appropriate, by establishing, with the approval of the Director of the National Institute on Drug Abuse, other formal peer review groups as may be required.".

SEC. 7012. AUTHORIZATION OF APPROPRIATIONS.

Section 517 of the Public Health Service Act (42 U.S.C. 290cc-2) is amended to read as follows:

"SEC. 517. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out section 515—

"(1) $60,000,000 for fiscal year 1991;

"(2) $70,000,000 for fiscal year 1992;

"(3) $85,000,000 for fiscal year 1993;

"(4) $100,000,000 for fiscal year 1994;

"(5) $110,000,000 for fiscal year 1995; and

"(6) $115,000,000 for each of the fiscal years 1996 through 2000.".

CHAPTER 2—PRIVATE SECTOR DEVELOPMENT OF PHARMACOTHERAPEUTICS

SEC. 7021. DRUGS FOR THE TREATMENT OF ADDICTIONS.

Chapter V of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 351 et seq.) is amended by adding at the end thereof the following new subchapter:

"SUBCHAPTER C—DRUGS FOR THE TREATMENT OF ADDICTION TO ILLEGAL DRUGS

"SEC. 529A. RECOMMENDATIONS FOR INVESTIGATIONS OF DRUGS FOR THE TREATMENT OF ADDICTIONS TO ILLEGAL DRUGS.

"(a) IN GENERAL.—The sponsor of a drug for the treatment of addiction to illegal drugs may request the Secretary to provide written recommendations for the nonclinical and clinical investigations that must be conducted with the drug before—

"(1) it may be approved for treatment of such addiction under section 505;

"(2) if the drug is an antibiotic, it may be certified for treatment of such addiction under section 507; or

"(3) if the drug is a biological product, it may be licensed for treatment of such addiction under section 351 of the Public Health Service Act.

"(b) RECOMMENDATIONS FOR INVESTIGATIONS.—If the Secretary has reason to believe that a drug for which a request is made under this section is a drug for the treatment of addiction to illegal drugs, the Secretary shall provide the person making the request with written recommendations for the nonclinical and clinical investigations that the Secretary believes, on the basis of information available to the Secretary at the time of the request under this section, would be necessary for approval of such drug for treatment of such addiction under section 505, certification of such drug under section 507, or licensing of such drug under section 351 of the Public Health Service Act.

"(c) REGULATIONS.—The Secretary shall by regulation promulgate procedures for the implementation of subsections (a) and (b).

"SEC. 529B. DESIGNATION OF DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"(a) IN GENERAL.—

"(1) REQUEST.—The manufacturer or the sponsor of a drug may request the Secretary to designate the drug as a drug for the treatment of addiction to illegal drugs. A request for designation of a drug shall be made before the submission of an application under section 505(b) for the drug, the submission of an application for certification of the drug under section 507, or the submission of an application for licensing of the drug under section 351 of the Public Health Service Act. If the Secretary finds that a drug for which a request is submitted under this subsection is being or will be investigated for the treatment of addiction to illegal drugs and—

"(A) if an application for such drug is approved under section 505;

"(B) if a certification for such drug is issued under section 507; or

"(C) if a license for such drug is issued under section 351 of the Public Health Service Act;

the approval, certification, or license would be for use for treatment of such addiction, the Secretary may designate the drug as a drug for the treatment of an addiction to illegal drugs. A request for a designation of a drug under this subsection shall contain the consent of the applicant to notice being given by the Secretary under subsection (c) respecting the designation of the drug.

"(2) DEFINITION.—As used in paragraph (1)—

"(A) the term 'drugs for the treatment' means those pharmacological agents or medications that—

"(i) block the effects of abused drugs;

"(ii) reduce the craving for abused drugs;

"(iii) moderate or eliminate withdrawal symptoms;

"(iv) block or reverse the toxic effects of abused drugs; or

"(v) prevent, under certain conditions, the initiation of drug abuse;

"(B) the term 'addiction' means the state of an individual where that individual habitually uses an illegal drug in a manner that endangers the public morals, health, safety, or welfare, or who is so addicted to the use of illegal drugs that such individual loses the power of self-control with reference to such addiction of such individual; and

"(C) the term 'illegal drugs' means a controlled substance, as defined in section 202 of the Controlled Substance Act (21 U.S.C. 812) the possession or distribution of which is unlawful under such Act.

"(b) CONDITIONS.—A designation of a drug under subsection (a) shall be subject to the condition that—

"(1) if an application was approved for the drug under section 505(b), a certificate was issued for the drug under section 507, or a license was issued for the drug under section 351 of the Public Health Service Act, the manufacturer of the drug will notify the Secretary of any discontinuance of the production of the drug at least one year before discontinuance, and

"(2) if an application has not been approved for the drug under section 505(b), a certificate has not been issued for the drug under section 507, or a license has not been issued for the drug under section 351 of the Public Health Service Act and if preclinical investigations or investigations under section 505(i) are being conducted with the drug, the manufacturer or sponsor of the drug will notify the Secretary of any decision to discontinue active pursuit of approval of an application under section 505(b), approval of an application for certification under section 507, or approval of a license under section 351 of the Public Health Service Act.

"(c) NOTICE.—Notice respecting the designation of a drug under subsection (a) shall be made available to the public.

"(d) REGULATION.—The Secretary shall by regulation promulgate procedures for the implementation of subsections (a), (b), and (c).

"SEC. 529C. PROTECTION FOR DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"(a) IN GENERAL.—Except as provided in subsection (b), if the Secretary—

"(1) approves an application filed pursuant to section 505;

"(2) issues a certification under section 507; or

"(3) issues a license under section 351 of the Public Health Service Act;

for a drug designated under section 529A for the treatment of addiction to illegal drugs, the Secretary may not approve another application under section 505, issue another certification under section 507, or issue another license under section 351 of the Public Health Service Act for such drug for the treatment of such addiction for a person who is not the holder of such approved application, of such certification, or of such license until the expiration of 7 years from the date of the approval of the approved application, the issuance of the certification, or the issuance of the license. Section 505(c)(2) does not apply to the refusal to approve an application under the preceding sentence.

"(b) ISSUANCE OF ANOTHER LICENSE, APPLICATION, OR CERTIFICATION.—If an application filed pursuant to section 505 is approved for a drug designated under section 529A for the treatment of addiction to illegal drugs, if a certification is issued under section 507 for such a drug, or if a license is issued under section 351 of the Public Health Service Act for such a drug, the Secretary may, during the 7-year period beginning on the date of the application approval, of the issuance of the certification under section 507, or of the issuance of the license, approve another application under section 505, issue another certification under section 507, or issue a license under section 351 of the Public Health Service Act, for such drug for the treatment of such addiction for a person who is not the holder of such approved application, of such certification, or of such license if—

"(1) the Secretary finds, after providing the holder notice and opportunity for the submission of views, that in such period the holder of the approved application, of the certification, or of the license cannot assure the availability of sufficient quantities of the drug to meet the needs of persons with such addictions for which the drug was designated; or

"(2) such holder provides the Secretary in writing the consent of such holder for the approval of other applications, issuance of other certifications, or the issuance of other licenses before the expiration of such 7-year period.

"SEC. 529D. OPEN PROTOCOLS FOR INVESTIGATIONS OF DRUGS FOR THE TREATMENT OF AN ADDICTION TO ILLEGAL DRUGS.

"If a drug is designated under section 529A as a drug for the treatment of addiction to illegal drugs and if notice of a claimed exemption under section 505(i) or regulations issued thereunder is filed for such drug, the Secretary may encourage the sponsor of such drug to design protocols for clinical investigations of the drug which may be conducted under the exemption to permit the addition to the investigations of persons with such addictions who need the drug to treat such addiction and who cannot be satisfactorily treated by available alternative drugs.

"SEC. 529E. ENFORCEMENT.

"The provisions of title III relating to the breach of an exclusive marketing agreement shall apply to this subchapter.

"SEC. 529F. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out this subchapter, such sums as may be necessary in each of the fiscal years 1990 through 1992.".

### CHAPTER 3—MEDICATIONS REVIEW PROCESS REFORM

SEC. 7031. INVESTIGATIONAL NEW DRUGS.

(a) SUBMISSION OF APPLICATION.—Notwithstanding subpart B of part 312 of title 21, Code of Federal Regulations, in implementing the procedures required under subsection (b), the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may permit an entity submitting an investigational new drug application or protocol for medications to treat drug addiction to provide the information required by the Secretary as such information becomes available to such entity. The Secretary may permit such applications or protocols to be submitted in parts. If the Secretary withholds approval of any part of such application or protocol, the Secretary may require that the applying entity resubmit only that portion of such application or protocol that was not approved. Not later than 30 days after an entity submits such an application or protocol or part thereof, the Secretary shall notify such entity concerning the approval or rejection of such application or protocol or part thereof, and if such notification is not provided approval will be automatic.

(b) APPLICATION OF PROCEDURES.—The Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, shall apply investigational new drug procedures under part 312 of title 21, Code of Federal Regulations, to encourage the development and use of medications to treat drug addiction. The Secretary may waive the requirements contained in part 312.34(b)(1)(ii) of title 21, Code of Federal Regulations, if the Secretary determines that such a waiver is appropriate.

SEC. 7032. PARALLEL TRACK TRIALS FOR MEDICATIONS TO TREAT DRUG ADDICTION.

(a) IN GENERAL.—In encouraging the development and marketing approval of medications to treat drug addiction, the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may permit parallel track trials to be used to permit access to such drugs in a manner similar to that applied to certain medications to treat individuals infected with the human immunodeficiency virus.

(b) DEFINITION.—As used in this section the term "parallel track trials" means the procedures used by the Food and Drug Administration under part 312.35 of title 21, Code of Federal Regulations.

SEC. 7033. WAIVER OF MECHANISM OF ACTION REQUIREMENT.

Notwithstanding any other provision of law, the Secretary of Health and Human Services, acting through the Commissioner of the Food and Drug Administration, may waive the application of the mechanism of action requirement for marketing approval of medications to treat drug addiction.

SEC. 7034. DEFINITION.

As used in this chapter, the term "pharmacotherapeutics" means medications used to treat the symptoms and disease of drug addiction, including medications to—

(1) block the effects of abused drugs;

(2) reduce the craving for abused drugs;

(3) moderate or eliminate withdrawal symptoms;

(4) block or reverse the toxic effect of abused drugs; and

(5) prevent, under certain conditions, the initiation of drug abuse.

### CHAPTER 4—HIGH PRIORITY RESEARCH AREAS

SEC. 7041. SENSE OF CONGRESS.

It is the sense of Congress that the Medications Development Division of the National Institute on Drug Abuse shall devote special attention and adequate resources to achieve the following urgent goals—

(1) the development of a methadone alternative;

(2) the development of a long-acting narcotic antagonist;

(3) the development of a cocaine-blocking treatment;

(4) the development of a cocaine-blocker/narcotic antagonist treatment;

(5) the development of medications to treat addiction to drugs that are becoming increasingly prevalent, such as methamphetamine; and

(6) the development of medications to treat pregnant addicts and their fetuses.

### CHAPTER 5—REPORT BY THE SURGEON GENERAL

SEC. 7051. REPORT BY THE SURGEON GENERAL.

(a) PHARMACOTHERAPY REVIEW PANEL.—Not later than 120 days after the date of enactment of this Act, the Director of the Division established under section 515 of the Public Health Service Act (as amended by section 7011) shall establish a panel of independent experts in the field of pharmacotherapeutic treatment of drug addiction to assess the national strategy for developing such treatments and to make appropriate recommendations for the improvement of such strategy.

(b) REPORT.—Not later than January 1, 1992, the Surgeon General of the United States shall prepare and submit, to the appropriate Committees of Congress, a report that sets forth—

(1) the recommendations of the panel established under subsection (a);

(2) the state of the scientific knowledge with respect to pharmacotherapeutic treatment of drug addiction;

(3) the assessment of the Surgeon General of the progress of the nation toward the development of safe, efficacious pharmacological treatments for drug addiction; and

(4) any other information determined appropriate by the Surgeon General.

(c) AVAILABILITY.—The report prepared under subsection (b) shall be made available for use by the general public.

## Subtitle B—Counter-Narcotics Technology Assessment Center

SEC. 7101. SHORT TITLE.

This subtitle may be cited as the "Counter-Narcotics Technology Act of 1990".

SEC. 7102. COUNTER-NARCOTICS TECHNOLOGY ASSESSMENT CENTER.

(a) ESTABLISHMENT.—Title I of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1501 et seq.) is amended by inserting after section 1003 the following new section:

"SEC. 1003A. COUNTER-NARCOTICS TECHNOLOGY ASSESSMENT CENTER.

"(a) ESTABLISHMENT.—There is established within the Office of National Drug Control Policy, the Counter-Narcotics Technology Assessment Center (hereafter in this section referred to as the Center). The Center shall operate under the general authority of the Deputy Director for Supply, Office of National Drug Control Policy, and shall serve as the central counter-narcotics enforce-

ment research and development organization of the United States Government.

"(b) DIRECTOR.—There shall be at the head of the Center, the Chief Scientist of Counter-Narcotics Technology who shall be appointed by the Director of National Drug Control Policy from individuals qualified and distinguished in areas of science, engineering or technology. The Chief Scientist shall be paid at the highest rate of basic pay set under the provisions of section 5382(b) of title 5, United States Code.

"(c) RESPONSIBILITIES OF THE CHIEF SCIENTIST.—The Chief Scientist shall—

"(1) identify and define the short, medium, and long-term scientific and technological needs of Federal, State, and local drug enforcement agencies, including—

"(A) surveillance and tracking;

"(B) electronic support measures;

"(C) communications;

"(D) data fusion, advanced computer systems and artificial intelligence; and

"(E) chemical, biological and other means of detection;

"(2) make a priority ranking of such needs according to fiscal and technological feasibility, as part of a National Counter-Narcotics Enforcement Research and Development Strategy;

"(3) allocate research and development funds to exploit such technologies under subsection (d);

"(4) oversee and coordinate counter-narcotics technology initiatives with related activities of other Federal civilian and military departments; and

"(5) under the general authority of the Director of National Drug Control Policy, submit reprogramming or transfer requests of funds appropriated for counter-narcotics enforcement research and development to Congress.

"(d) COUNTER-NARCOTICS TECHNOLOGY BUDGET AUTHORITY.—Beginning with the fiscal year 1992 budget, the Director of National Drug Control Policy in his budget shall submit a separate appropriations request for expenses relating to all Federal agencies for counter-narcotics enforcement research and development programs. There is established a national counter-narcotics technology account. Such appropriations shall be made to such account for the Director of National Drug Control Policy to make reimbursements to the involved agencies as appropriate.

"(e) PERSONNEL.—Subject to subsections (d) and (e) of section 1003 of this Act, the Chief Scientist shall select and appoint a staff of not more than 10 employees with specialized experience in scientific, engineering and technical affairs. The Chief Scientist may appoint and fix the compensation of such personnel without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and such personnel may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, but at a rate not to exceed the maximum rate authorized by the General Schedule.".

SEC. 7103. AUTHORIZATION OF APPROPRIATIONS.

(a) COUNTER-NARCOTICS TECHNOLOGY ASSESSMENT CENTER.—There are authorized to be appropriated $3,000,000 for fiscal year 1991 and such sums as may be necessary for each fiscal year thereafter for salaries and expenses of the Center.

(b) NATIONAL COUNTER-NARCOTICS TECHNOLOGY INITIATIVES.—There are authorized to be appropriated $150,000,000 in fiscal year 1991 and such sums as may be necessary in fiscal years 1992 and 1993 to carry out the purposes of this subtitle.

**Subtitle C—National Drug Abuse Epidemiology**

SEC. 7201. NATIONAL DRUG INTELLIGENCE EPIDEMIOLOGY SYSTEM.

Part A of title V of the Public Health Service Act (42 U.S.C. 290aa et seq.) is amended by adding at the end thereof the following new sections:

"SEC. 509H. NATIONAL DRUG INTELLIGENCE EPIDEMIOLOGY SYSTEM.

"(a) FINDING.—Congress finds that medical professionals, drug treatment professionals, law enforcement professionals, and many others need accurate, timely information about emerging drug problems.

"(b) ESTABLISHMENT.—The Secretary, acting through the Director of the Centers for Disease Control, shall establish a National Drug Intelligence Epidemiology System that shall—

"(1) conduct research on and provide documentation concerning the leading drug abuse indicators that shall include drug-related emergency room visits, drug-related deaths, and drug treatment admissions;

"(2) publish data concerning the indicators described in paragraph (1) on a quarterly basis; and

"(3) distribute publications concerning information obtained in accordance with paragraphs (1) and (2) to medical professionals, police agencies, and other individuals or entities involved in anti-drug efforts.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for fiscal year 1991, $4,000,000 to carry out this section.

"SEC. 509I. NATIONAL DRUG ABUSE REPORT CARD.

"(a) FINDINGS.—Congress finds that—

"(1) simple, timely and accurate measures of the progress of the nation against the use of illegal drugs are necessary to keep the public informed of the latest developments; and

"(2) current national drug abuse statistics, based on the National Household Survey on Drug Abuse, National High School Seniors Survey, Drug Abuse Warning Network, and other surveys, are inadequate to provide the public and policy makers with an accurate and timely picture of the drug abuse problem in the United States.

"(b) ESTABLISHMENT.—The Secretary, acting through the Director of the National Institute on Drug Abuse, shall establish a National Drug Abuse Report Card to—

"(1) collect research on the leading drug abuse indicators, including at a minimum—

"(A) the use of licit and illicit drugs;

"(B) drug price, purity, and availability;

"(C) drug-related crime;

"(D) drug-related hospital room visits; and

"(E) emerging patterns and trends in drug trafficking and abuse;

"(2) characterize the statistics compiled under this section according to—

"(A) age, ethnic and gender groups;

"(B) regional variations, including rural, suburban and urban areas; and

"(C) at-risk groups, including pregnant addicts, new mothers and adolescents;

"(3) include, to the maximum extent possible, estimates of drug use among previously under-surveyed groups such as high-school dropouts, homeless people, and hard-core addicts in the statistics compiled under this section; and

"(4) publish and distribute reports based on the indicators described under this subsection in a simple, understandable format on a quarterly basis.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for fiscal year 1991, such sums as may be necessary.".

**TITLE VIII—COORDINATION**

SEC. 8000. TABLE OF CONTENTS.

The table of contents for this title is as follows:

TITLE VIII—COORDINATION

Sec. 8000. Table of contents.

Subtitle A—Officers of the Office of National Drug Control Policy

Sec. 8001. Cabinet status for Director of National Drug Control Policy.

Sec. 8002. Elevating the position of Associate Director of National Drug Control Policy.

Subtitle B—National Drug Intelligence

Sec. 8011. Short title.

Sec. 8012. Findings.

Sec. 8013. Establishment and responsibilities of center.

Sec. 8014. Management of center.

Sec. 8015. Plan for center.

Sec. 8016. Participating agencies.

Sec. 8017. Intelligence community participation.

Sec. 8018. Intelligence community cooperation.

Sec. 8019. Availability of information.

Sec. 8020. Security of center.

Sec. 8021. Reports and evaluation.

Sec. 8022. Authorization of appropriations.

**Subtitle A—Officers of the Office of National Drug Control Policy**

SEC. 8001. CABINET STATUS FOR DIRECTOR OF NATIONAL DRUG CONTROL POLICY.

It is the sense of Congress that the President should accord the Director of National Drug Control Policy full cabinet status, as Congress intended by establishing the Director as a position in level I of the Executive Schedule.

SEC. 8002. ELEVATING THE POSITION OF ASSOCIATE DIRECTOR OF NATIONAL DRUG CONTROL POLICY.

(a) ASSOCIATE DIRECTOR.—(1) Section 1002(c)(2) of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1501(c)(2)) is amended by striking "Associate Director" and inserting "Deputy Director";

(2) Section 1003(a) of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1502(a)) is amended—

(A) in paragraph (1) by striking out "Associate Director" and inserting in lieu thereof "Deputy Director"; and

(B) in paragraph (2) by striking out "Associate Director" and inserting in lieu thereof "Deputy Director".

(b) AMENDMENTS TO TITLE 5, UNITED STATES CODE.—(1) Section 5315 of title 5, United States Code, is amended by striking out:

"Associate Director for National Drug Control Policy, Office of National Drug Control Policy.".

(2) Section 5314 of title 5, United States Code, is amended by adding at the end thereof:

"Deputy Director for National Drug Control Policy, Office of National Drug Control Policy.".

**Subtitle B—National Drug Intelligence**

SEC. 8011. SHORT TITLE.

This subtitle may be cited as the "National Drug Intelligence Act of 1990".

SEC. 8012. FINDINGS.

The Congress finds that—

(1) intelligence information sharing among Federal agencies concerned with drug enforcement is essential to implement the National Drug Control Strategy;

(2) much of the relevant information the Federal Government possesses related to foreign and domestic drug trafficking organizations is in manual files which cannot be used easily, quickly, or completely;

(3) each Federal agency responsible for drug enforcement and control maintains its own files which, by their nature, are difficult to share with other agencies;

(4) no Federal agency responsible for drug enforcement and control has ready access to all the data needed to produce a comprehensive understanding of international and domestic trafficking organizations; and

(5) there is no centralized data base of information which can be fully utilized by responsible Federal agencies.

SEC. 8013. ESTABLISHMENT AND RESPONSIBILITIES OF CENTER.

(a) ESTABLISHMENT OF THE CENTER.—There is established an executive agency to be known as the "National Drug Intelligence Center" (referred to as the "Center"). To the fullest extent practicable, the personnel and equipment of the Center shall be colocated. Upon the appropriation of funds for the Center, the Center shall employ not less than three hundred people of which the following agencies shall provide the following personnel:

(1) not less than seventy-five employees from the Drug Enforcement Administration;

(2) not less than seventy-five employees from the Federal Bureau of Investigation;

(3) not less than fifty employees from the Customs Service;

(4) not less than fifty employees from the Department of Defense; and

(5) not less than fifty employees from participating agencies selected by the Director of National Drug Control Policy.

During their tenure at the Center, employees shall report to the Executive Director who shall be responsible for their performance evaluation.

(b) RESPONSIBILITIES OF THE CENTER.—The Center shall—

(1) assimilate, collect, and analyze drug enforcement-related data and intelligence of participating agencies;

(2) produce comprehensive analyses of foreign and domestic drug trafficking organizations, patterns, and trends;

(3) create and maintain a state-of-the-art computer data base for drug-related strategic intelligence;

(4) publish quarterly statistics on drug trafficking and abuse patterns and indicators for each major drug of abuse in the United States, including statistics on price, purity, and availability; and

(5) disseminate comprehensive drug enforcement-related intelligence to appropriate intelligence and law enforcement agencies.

(c) DATE OF OPERATION.—The Center shall begin operations not later than ninety days after funds are appropriated for the Center.

SEC. 8014. MANAGEMENT OF CENTER.

(a) ESTABLISHMENT OF ADVISORY BOARD.—There shall be an Advisory Board consisting of the Executive Director, a representative of each agency participating in the Center and representatives from State and local agencies selected by the Director of National Drug Control Policy. The Advisory Board shall be chaired by the Deputy Director of National Drug Control Policy for Supply Reduction. The Advisory Board shall consult with the Executive Director in establishing the policies of the Center.

(b) DESIGNATION OF EXECUTIVE DIRECTOR.—There shall be an Executive Director, designated by the Director of National Drug Control Policy, who shall be responsible for the management and operations of the Center. The Executive Director shall be selected from one of the Department of Justice agencies responsible for drug enforcement.

(c) RESPONSIBILITIES OF THE EXECUTIVE DIRECTOR.—The Executive Director, in consultation with the Advisory Board, shall—

(1) allocate the Center's funding;

(2) determine the Center's priorities; and

(3) adopt procedures governing access to information contained in the data bases.

SEC. 8015. PLAN FOR CENTER.

Not later than ninety days from the date of enactment of this Act, the Executive Director, in consultation with the Advisory Board, shall develop and submit to the Judiciary Committees of the Senate and House of Representatives a plan for the management and operation of the Center which shall include a design and format for the data base to be established by the Center. The plan shall utilize existing drug enforcement-related intelligence resources and shall not duplicate current information systems. To the fullest extent possible, existing drug enforcement-related intelligence data and systems shall be consolidated and integrated into the Center.

SEC. 8016. PARTICIPATING AGENCIES.

The following agencies shall participate in the establishment of the strategic drug intelligence data base and shall contribute data as required by the Advisory Board:

(1) the Office of National Drug Control Policy;

(2) the Drug Enforcement Administration;

(3) the Federal Bureau of Investigation;

(4) the Internal Revenue Service;

(5) the Immigration and Naturalization Service;

(6) the Customs Service;

(7) the Coast Guard;

(8) the Department of Defense; and

(9) other executive agencies as designated by the Director of National Drug Control Policy.

SEC. 8017. INTELLIGENCE COMMUNITY PARTICIPATION.

The Directors of the Central Intelligence Agency, the Defense Intelligence Agency, and the National Security Agency shall appoint members from their respective agencies to serve on the Advisory Board. Within one hundred and eighty days after enactment of this Act, the agencies within the United States intelligence community shall submit to the Director of National Drug Control Policy a plan for integration of drug-related intelligence information generated by such agencies into the Center.

SEC. 8018. INTELLIGENCE COMMUNITY COOPERATION.

It is the sense of the Congress that the agencies within the United States intelligence community shall cooperate, consistent with applicable law, including section 1004(a) of Public Law number 100-690, and the protection of intelligence sources and methods, with the Center in the execution of its responsibilities.

SEC. 8019. AVAILABILITY OF INFORMATION.

The information in each data base established by the Center shall be available to appropriate representatives from participating agencies pursuant to the procedures adopted by the Executive Director and the Advisory Board.

SEC. 8020. SECURITY OF CENTER.

The Executive Director shall take all reasonable, and necessary actions to ensure security for the Center, including the protection of sources and methods of drug enforcement-related intelligence.

SEC. 8021. REPORTS AND EVALUATION.

Not later than one year after the date of enactment of this legislation and not later than March 1 of each year thereafter, the Executive Director shall submit to the Judiciary Committees of the Senate and House of Representatives a report evaluating the performance of the Center and the participation of each of the contributing agencies to the data base of the Center.

SEC. 8022. AUTHORIZATION OF APPROPRIATIONS.

For purposes of carrying out this subtitle, there are authorized to be appropriated $100,000,000 for fiscal year 1991 and such sums as may be necessary for each of the three succeeding fiscal years, which amounts shall remain available until expended.

---

## NATIONAL DRUG CONTROL STRATEGY ACT OF 1990—SECTION-BY-SECTION ANALYSIS

### TITLE I—LAW ENFORCEMENT

#### SUBTITLE A—STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

This subtitle doubles federal aid to state and local law enforcement agencies from $450 million to $900 million. This increase was approved by the Senate Judiciary Committee earlier this year. In addition, this subtitle contains a proposal modeled on legislation introduced by Senator Kohl and Rep. Foglietta creating a new $20 million community action drug grant program in the Bureau of Justice Assistance to provide federal "seed"money for up to 3,000 community groups that work with police to fight back in drug-plagued areas.

#### SUBTITLE B—DRUG DAYS

This subtitle provides additional help to state and local law enforcement agencies by making federal grand juries and courts available for drug prosecutions: all State cases arising from arrests on a given day each month would be presented to federal grand juries and, if indictments are returned, tried in federal court.

#### SUBTITLE C—FEDERAL LAW ENFORCEMENT AND JUDICIAL ASSISTANCE

Subtitle C provides funding increases for major components of the federal criminal justice system. Funding for federal law enforcement agencies is boosted by more than $300 million for the following:

$98 million for 1,000 new FBI agents, which will double the FBI's current anti-drug program;

$100,500,000 in new money for DEA to hire 1,000 additional special agents to crack down on drug trafficking in rural areas, illegal shipments of precursor chemicals and to expand DEA task forces with state and local agencies.

$24 million for 480 additional federal prosecutors and related staff positions;

$37.5 million for 435 new Bureau of Alcohol, Tobacco and Firearms agents to attack the flow of illegal weapons into the hands of drug traffickers, including the export of U.S.-made assault weapons to the Colombian cocaine cartels.

$30 million for 347 new Internal Revenue Service positions to process money laundering investigations and 120 new agents for drug-related crime activities;

An additional $9,000,000 for the courts to address the backlog of drug-related cases; $8,000,000 for federal defenders for the increased caseload generated under the "drug days" provisions of Subtitle B; and $9,000,000 for the United States Marshals.

SUBTITLE D—RURAL DRUG ENFORCEMENT

To ensure that the needs of rural areas are incorporated into the National Drug Strategy, this subtitle: (1) requires the Director of National Drug Control Policy to designate an existing official in his office to be responsible for rural drug policy issues; (2) creates a new $20 million grant program to state and local law enforcement agencies in rural areas; (3) directs the Attorney General to assign not less than 10 DEA agents in each state and not less than 4 additional DEA agents in each rural state; and (4) requires the Secretary of the Treasury to develop and implement a drug training program for rural law enforcement officers. This provision is based upon proposals submitted by Senator Max Baucus and Senator David Pryor.

SUBTITLE E—MANDATORY DETENTION

Subtitle E is derived from S. 1259, a bill introduced by Senator Simon. The bill amends the Bail Reform Act (18 U.S.C. 3143) to provide that all defendants convicted of certain crimes must be detained while awaiting sentence and the disposition of any appeal. (Senator Simon's statement introducing the bill appears in the Congressional Record, June 23, 1989, at S7511.)

SUBTITLE F—FORFEITURE

This subtitle strengthens current federal forfeiture laws by expanding the use of streamlined administrative forfeiture in drug cases, allowing uncontested case seizures to be forfeited administratively regardless of amount and clarifying the scope of the Attorney General's forfeiture authority. This section also authorizes the Attorney General to use the proceeds from forfeiture to purchase firearms and bullet proof vests for federal drug enforcement agents.

SUBTITLE G—PUBLIC CORRUPTION

Originally derived from S. 327 (introduced by Senator Biden and others in February 1989), this provision removes barriers to public corruption prosecutions that were generated by the Supreme Court's decision in *United States* v. *McNally*. The subtitle provides that public officials who deprive citizens of the honest services of government officials, of a fair election, or of the right to have governmental affairs conducted on the basis of complete and true material information, are subject to fine or imprisonment of not less than ten years. Another provision specifically targets narcotics-related public corruption, making it a felony for any public official improperly influenced to further or conceal a drug offense. This section was passed by the Senate in the 1988 drug bill.

Further information on this subtitle appears in the Congressional Record, daily ed., October 4, 1989, at S12624.

SUBTITLE H—JUVENILE JUSTICE

This subtitle creates a new $100 million initiative in the Justice Department to combat drug and gang activity by juveniles. Specifically, $80 million in grants will be available to states to fund ten targeted anti-gang and anti-drug programs, split evenly between law enforcement efforts to cut juvenile drug trafficking and gang activity and prevention, education and treatment efforts, including youth sports, boys and girls clubs, and other demand reduction programs. The remaining $20 million will be available through discretionary grants aimed at identifying promising new anti-drug and anti-gang programs.

Section 1303 in this subtitle is derived from H.R. 2976, introduced by Rep. Wyden (D-Wa.), and provides that some violent juvenile offenders may be prosecuted as adults for certain firearm offenses. This provision also expands prosecutors' capabilities to reach juvenile offenders by counting juvenile drug trafficking offenses carrying a minimum ten year penalty as predicate acts for the Armed Career Criminal statute.

SUBTITLE J—DRUG TESTING

This subtitle requires drug testing for federal defendants on probation, parole, and supervised release. It is derived from Senator Simon's proposal to require parolee drug testing which was passed by the Senate as part of S. 1711.

SUBTITLE K—BOOT CAMPS

This subtitle authorizes $150 million for the conversion and operation of 10 closed military bases as boot camps. Each boot camp will accommodate 200-300 inmates and conduct a 3-4 month program similar to military basic training, including strict discipline, physical training, work, drill and ceremony. Remedial education and treatment for substance abuse must also be included in the "boot camp" program. This subtitle is similar to S. 1142, introduced by Senator Bentsen on June 7, 1990.

SUBTITLE L—REGIONAL PRISONS

This subtitle authorizes $700 million to construct (and operate for one year) 10 regional prisons for prisoners who need drug treatment. Each would accommodate 8,000 prisoners—6,400 state prisoners and 1,600 federal prisoners. This will not only ease prison overcrowding but will also separate prisoners with drug problems from the general prison population. States will reimburse the federal Bureau of Prisons for all costs associated with the program but—if the prisoner completes the drug treatment program—States will be reimbursed 25% of the cost for use in post-release drug aftercare.

SUBTITLE M—CHILD ABUSE

This subtitle contains the "Victims of Child Abuse Act of 1990," which was introduced by Senator Biden and Senator Reid on November 21, 1989. The purpose of the bill is to improve the judicial response to cases of child abuse and neglect, specifically, drug-related abuse and neglect. Chapter 1 creates a new federal offense of "drug-related child abuse," makes that offense a felony under federal law, and imposes a minimum sentence of 25 years for habitual child abusers. Chapter 2 authorizes $20 million to aid prosecutors and court officials handling child abuse cases. Chapter 3 provides $5 million to expand court-appointed special advocacy programs for child abuse victims. Chapter 4 authorizes $10 million to provide training for judges handling child abuse cases and for systematic court reform. Based on S. 1923 (Senator Reid's bill), Chapter 5 amends the Federal Rules of Criminal Procedure, Civil Procedure and Evidence to make it easier for child victims to testify in court. Chapter 6 requires federal agencies to conduct a criminal background check when hiring persons to work with children.

SUBTITLE N—STEROIDS

This subtitle was introduced in November 1989 by Senator Biden as the "Steroid Trafficking Act of 1989." The bill would amend the Controlled Substances Act to restrict the use of steroids and human growth hormones. By designating anabolic steroids as a schedule II substance, the bill would crack down on illegal steroid use in three ways: (1) increasing penalties for steroid trafficking to match the penalties for selling cocaine and other dangerous drugs; (2) charging the Drug Enforcement Administration with attacking the steroid black market; and (3) requiring U.S. agencies to incorporate steroids in our general drug abuse prevention, education and treatment.

TITLE II—TREATMENT

SUBTITLE A—ALCOHOL, DRUG ABUSE AND MENTAL HEALTH SERVICES BLOCK GRANT

This subtitle expands the ADAMHA block grant—the primary source of federal funds for drug treatment—bringing the total for treatment to $2.0 billion. These funds will provide drug treatment to an estimated 700,000 addicts. The allotment of these funds would lower the urban weight factor in the ADAMHA block grant to 20 percent—recognizing that America's drug epidemic effects rural as well as urban areas. This provision would also freeze the hold-harmless provision at the 1989 level. The Senate approved both provisions last year.

This subtitle would enable drug treatment centers to receive federal funds for involving members of the addicts family in group counseling sessions. This subtitle authorizes the use of federal drug treatment block grant funds to provide drug treatment to all prisoners who need it. This proposal, proposed by Senator Chafee, passed the Senate last year. Also, this subtitle waives the current requirement that states spend at least 50 percent of federal drug treatment block grant funds on programs for intravenous drug abuse—the Senate passed this provision last year and, most recently, as an Amendment to S. 2240.

SUBTITLE B—PROGRAMS TARGETTING WOMEN AND CHILDREN

This subtitle provides $50 million for drug treatment programs targetting pregnant and post-partum addicts. This subtitle would also establish a center to gather and disseminate information about drug abuse and drug treatment among pregnant women. The Senate passed this latter provision last year.

SUBTITLE C—TREATMENT IMPROVEMENT

This subtitle establishes a federal Office for Treatment Improvement within the Department of Health & Human Services to reinvigorate the federal government's role in encouraging the development and expansion of model treatment programs. The Office would focus on the needs of vulnerable populations, including pregnant and post-partum addicts and their infants, as well as racial and ethnic minorities. This subtitle authorizes $50 million for the Office for fiscal year 1991.

This subtitle would condition the receipt of federal drug treatment block grant dollars on the development of a treatment plan approved by the Secretary of the Department of Health & Human Services. As approved by the Senate last year, these plans will address such issues as the expansion of drug treatment, outreach efforts to bring addicted women and children into treatment, and the coordination of drug treatment services with health, education and vocational services.

The subtitle would provide $15 million in grants to train doctors, nurses, other health professionals, and social workers to work with drug addicts. The Senate passed this

proposal last year. Another proposal, offered by Senators Baucus and Pryor and passed by the Senate last year, creates a $25 million grant program to increase the availability of drug treatment in rural areas. A clearinghouse for information about rural drug abuse treatment and education is also provided.

This subtitle includes $140 million authorization to reduce waiting periods for drug treatment, with priority given to programs for pregnant and postpartum women. Technical changes in the program for drug abuse projects of national significance, along with an $80 million authorization for this program, are included in this subtitle.

This subtitle offers several provisions to provide drug treatment in federal, state and local prisons. This includes $15 million to the federal Bureau of Prison to treat drug addicted inmates and $25 million to provide drug treatment in state and local correctional facilities. This subtitle would also provide incentives for federal prison inmates to participate in drug treatment. Offenders released under this program will be required to submit to periodic drug testing and participate in a drug treatment program.

#### SUBTITLE D—SUBSTANCE ABUSE TREATMENT SERVICES UNDER MEDICAID

Under current rules, states are not allowed to extend their Medicaid programs to include many important types of drug treatment (for example, one of the most cost-effective forms—out-patient drug treatment—is not covered under current rules.) This proposal, drafted by Senator Moynihan and passed by the Senate last year, would give states the option of covering all major types of drug treatment. Since most of those eligible for Medicaid coverage are women and children, this provision targets the vital needs of pregnant and post-partum addicts and children. The most recent CBO estimate of the cost of this provision is $700 million.

### TITLE III—DRUG EDUCATION AND PREVENTION

#### SUBTITLE A—COMPREHENSIVE DRUG EDUCATION

This subtitle increases resources for comprehensive drug education in all schools serving students in grades K–12 and supports comprehensive drug education programs that include a teacher who is in charge of coordinating drug education programs.

Section 3002 reauthorizes the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3181). It authorizes $1.2 billion for fiscal years 1991 and 1992 and such sums as are necessary for 1993.

Section 3003 amends the Drug-Free Schools and Community Act of 1986 by adding at the end thereof a new section 5128 to establish a model comprehensive drug education grant program. This program will provide supplemental funding for schools, and coalitions of schools serving grades K–12 that wish to provide comprehensive drug education. School principals can apply for these grants to implement programs that include: a policy against drug use; peer-to-peer programs; current medical and scientific information concerning the impact of drugs on our bodies and society; a teacher to serve as the school chairperson of the drug education program who is responsible for implementing the program and training other teachers; and family and community involvement.

Section 5128(b) describes the information to be included in applications for these grants, submitted by principals and reviewed by local and state educational agencies. Included in this information is the process by which the teacher is chairperson will be selected and how much time that teacher will spend on the drug education program.

At least one-fifth of the teacher's time should be devoted to the program, unless the Secretary approves a lesser amount. The percentage of time should be considered by the Secretary when the grant total is determined, with an effort made to cover the cost of that time. Local educational agencies should not act to thwart the application process but should instead assist the applicant to strengthen his application and to make note of the distribution of resources. Subpart 4 states that the grants made in this section supplant other federal funds allotted to the schools for drug prevention. It includes a formula for a minimum amount based on a school size of 600 students or less. The Secretary should draft similar guidelines for the distribution of grants to schools which are of a different size or not accommodated by this formula.

Sections 5128 (c)-(d) describe the use of allotments, including the functions to be performed by the teacher chairperson of a school's drug education program.

Section 5128 (e) authorizes $150 million dollars to carry out this comprehensive drug education model grant program.

Section 3004 requires the Secretary of Education to design and to distribute classroom materials that carry anti-drug messages in lessons of basic study. These lessons will be woven into course material that the teachers must cover according to their state policies.

Section 3005 authorizes the Secretary of Education to spend $10 million to expand the Drug Abuse Resistance Education (DARE) program. Programs, similar to but other than DARE may compete for these funds. A similar provision, introduced by Senator Wilson passed in S. 1711.

#### SUBTITLE B—PREVENTION

Subtitle B creates comprehensive community drug prevention initiatives. Section 3101 amends Part A of title V of the Public Health Service Act (32 U.S.C. 290aa et seq.) to establish a grant program for community prevention programs that take a comprehensive approach. These programs must include an anti-drug drug policy; peer-to-peer programs; complete and accurate information concerning drugs; the involvement of family and community; and participation in a communication system established by the county for local agencies responsible for prevention programs and social services. Similar requirements for comprehensive community programs were passed in S. 1711. In this section, the office of Substance Abuse Prevention is allocated $155 million for these programs.

Section 3102 establishes a National Substance Abuse Prevention Training Program to supply community prevention programs with training curriculum, technical assistance and outreach. As proposed by Senator Kennedy, this section authorizes $30 million, of which 50 percent must be distributed to State and local organizations that provide coordination and training.

Section 3103 establishes a National Drug Prevention Corps that utilizes the energy of student volunteers to promote a drug-free lifestyle and serve as positive role models for youth. $10 million is allocated to the President's National Service Initiative for this program.

Section 3104 instructs the Director of National Drug Control Policy to provide resources necessary to assist members of the entertainment industry in the production of programs that carry anti-drug messages, especially ones for children. $10 million is authorized to carry out this section.

Section 3105 crafts a narrow exemption from anti-trust laws for members of the television industry to develop and disseminate voluntary guidelines designed to alleviate any negative impact of illegal drug use in telecast material. This section passed the full Senate in S. 1711.

Section 3106 assists local businesses in coordinating drug prevention programs for the workplace and encourages employee assistance programs. It provides the Secretary of Labor with $1 million to distribute to 100 major business regions in the country to encourage programs modeled after the Corporation Against Drug Abuse in each region.

Section 3107 amends the Drug-Free Workplace Requirements (Title V of the Anti-Drug Abuse Act of 1988) to require that employers provide information about substance abuse among children to their employees. This change passed the Senate in S. 1711.

### TITLE IV—INTERNATIONAL

#### SUBTITLE A—EMERGENCY ECONOMIC ASSISTANCE

Authorizes $125 million in immediate economic assistance to Boliva, Colombia, and Peru, in Fiscal Year 1990, to take advantage of the opportunities in the Andes to attract those persons involved in the drug trade into the legal sector.

#### SUBTITLE B—ECONOMIC ASSISTANCE

Provides $375 million in economic assistance in each of the next three fiscal years to Boliva, Colombia, and Peru. Emphasizes programs to fund alternative development programs in the Andean region. Provides three-year waiver of the Bumpers amendment, which prohibits the use of U.S. funds to promote agricultural products that compete with a similar commodity grown in the United States. Provides one-year waiver of Brooke-Alexander amendment, which prohibits assistance to countries in arrears on repayment of U.S. government loans.

#### SUBTITLE C—TRADE INCENTIVES

This subtitle includes trade provisions aimed at providing increased access to the U.S. market for goods from the Andean region. First, it authorizes the President to designate Bolivia, Colombia and Peru as beneficiary countries under the Caribbean Basin Initiative. Second, based on a proposal by Rep. Tom Campbell, it gives increased authority to the President to provide special trade treatment to the Andean nations during any year that there is an acceptable reduction in illicit coca production. Finally, the bill urges President Bush to seek an immediate reinstatement of the International Coffee Agreement.

#### SUBTITLE D—DEBT-FOR-DRUGS EXCHANGE ACT

This subtitle, based on an earlier proposal by Senator Biden, authorizes debt relief for the Andean nations in exchange for specific actions to combat drug trafficking. The Andean countries would apply the savings in debt service to anti-drug efforts and alternative development programs aimed at rebuilding the legal economic sector.

#### SUBTITLE E—MILITARY AND LAW ENFORCEMENT ASSISTANCE

This subtitle authorizes $375 million in military and law enforcement assistance during the next three fiscal years to en-

hance the ability of the Andean nations to combat drug trafficking. Provides that half of this assistance must be provided to law enforcement agencies—the lead anti-narcotics forces in the Andes—rather than to the militaries of each nation.

The subtitle also calls for a multinational anti-narcotics force, and urges the President to explore the possibility of joint military and intelligence operations with other nations of the Western Hemisphere. Finally, it establishes a Foreign Service Corps within the Drug Enforcement Administration, modeled closely on the State Department's Foreign Service program.

SUBTITLE F—CONTROLLING PRECURSOR AND ESSENTIAL CHEMICALS

This subtitle directs the Attorney General to pursue negotiations with foreign governments to establish a system of monitoring and controlling the distribution of precursor chemicals—otherwise legitimate chemicals that are diverted into the illicit market for use in drug production. Authorizes the President to impose sanctions on foreign companies that do not comply with the control system, including barring such companies from doing business in the United States. This proposal was originally introduced by Senators Mitch McConnell and John Kerry earlier this session.

This subtitle further directs the Attorney General to undertake research into additives and other means that would render precursor chemicals useless in drug production but would not negatively interfere with the legitimate commercial uses of such chemicals. This subtitle also authorizes the Drug Enforcement Administration to hire not less than 100 additional special agents and investigators from the amounts authorized in title I to investigate illegal chemical shipments.

SUBTITLE G—INTERNATIONAL CURRENCY CONTROL AGENCY

Directs the Secretary of State and the U.S. representative to the "Group of Seven" nations to enter into negotiations to establish an International Currency Control Agency to track illegal money flows through international financial markets. Such agency would be responsible for establishing uniform currency reporting transactions, analyzing such information for suspect money flows and recommending and imposing sanctions on international financial institutions that do not comply with the uniform reporting standards.

SUBTITLE H—NARCOTICS-RELATED TERRORISM

This subtitle provides that up to $15 million of the funds authorized in this title for military and law enforcement assistance to the Andean nations shall be used for the protection of judges, law enforcement officers and other public officials against narcoterrorism attacks.

This subtitle also requires the Secretary of State to assign additional special agents from the Bureau of Alcohol, Tobacco and Firearms to U.S. embassies in Latin America to halt the flow of U.S.-made assault weapons into the hands of the drug cartels. The Secretary of State is also required to assign additional Federal Aviation Administration security personnel to such embassies to strengthen counter-terrorists efforts against civilian aviation targets.

TITLE V—INTERDICTION

SUBTITLE A—STRENGTHENING BORDER INTERDICTION EFFORTS

This subtitle boosts drug interdiction efforts along the U.S. border by $145 million. An additional $100 million is authorized to add 1,000 new Customs Service inspectors and agents to crackdown on drug smuggling in commercial containers and in the hardest-hit drug emergency areas. The remaining $45 million is authorized for the Immigration and Naturalization Service to expand anti-drug efforts by the U.S. Border Patrol and to target drug trafficking by illegal aliens.

SUBTITLE B—MILITARY SUPPORT ALONG THE UNITED STATES BORDER

This subtitle amends title 10 of the United States code to expand the Pentagon's role in anti-drug efforts by authorizing the U.S. military to inspect goods and commercial cargo entering the country at ports and along the borders. The amendment expressly prohibits the military from conducting searches of persons, and directs that the military's interdiction role should be coordinated with civilian law enforcement agencies.

SUBTITLE C—ATTACKING DRUG TRAFFICKING BY CRIMINAL ALIENS

This subtitle directs the U.S. Sentencing Commission to increase penalties for drug trafficking by illegal aliens. It also requires that the Attorney General immediately take into custody any alien released from state prison after serving a sentence for an aggravated felony (which includes drug offenses) and who is awaiting deportation. At this time, state officials cannot detain such persons once released after serving their state sentences. As a result, many convicted aliens simply disappear before they can be deported. This amendment closes this loophole in federal/state efforts against drug trafficking by aliens.

SUBTITLE D—MAKING DRUG-RELATED INTELLIGENCE A LEVEL-ONE INTELLIGENCE PRIORITY

This subtitle instructs the Director of Central Intelligence to make narcotics-related intelligence a Level-One priority in the National Foreign Intelligence Program. This section recognizes that international drug trafficking is one of the most serious security threats confronting the United States and other democratically elected governments in the Western Hemisphere.

Although the U.S. intelligence community has significantly increased the priority it devotes to counter-narcotics efforts, the U.S. intelligence community must devote a greater portion of its human electronic intelligence resources to locating major drug traffickers, tracking their ill-gotten profits and developing counter-measures to new and sophisticated drug smuggling techniques. A similar proposal passed the full Senate in September 1986 as part of an omnibus anti-drug initiative.

SUBTITLE E—PREVENTING DRUG TRAFFICKERS FROM ENTERING THE UNITED STATES USING FRAUDULENT IMMIGRATION DOCUMENTS

The use of fraudulent immigration documents by foreign nationals remains a major obstacle in efforts to decrease drug trafficking by illegal aliens. Under the current system, U.S. immigration officials have no reliable way of determining whether documents submitted for permission to enter the United States are fraudulent. As a result, known and suspected drug traffickers are admitted into the United States.

This subtitle requires the Secretary of State and the Attorney General to establish a program under which foreign nationals applying for entry into the United States must include a fingerprint on their application documents. In this way, identification characteristics of the individual applicant, i.e., a fingerprint, would be checked against the records of the FBI, INS and other federal agencies to determine if the applicant is excludable under U.S. immigration laws.

TITLE VI—DRUG EMERGENCY AREAS

This title creates a new $300 million program to provide immediate federal assistance to "drug emergency" areas. Modeled closely on the federal disaster assistance program, it authorizes the President, based on the recommendations of the National Drug Director, to declare certain areas—those particularly hard hit by drug abuse, trafficking and violence—as "drug emergency areas." Those areas can receive up to $50 million in federal aid directly to state and local agencies. Monetary assistance includes federal grants of up to 75 percent of the relief services, with the states responsible for the remaining 25 percent. Non-monetary assistance can include federal personnel, equipment, supplies, facilities, communications support, and technical and advisory services.

TITLE VII—RESEARCH AND NEW TECHNOLOGIES

SUBTITLE A—PHARMACOLOGICAL RESEARCH

This subtitle would establish a Medications Development Program within the National Institute of Drug Abuse to research pharmacological agents for drug treatment. This subtitle lays out a decade-long, $1 billion funding plan for the Program. This subtitle also provides special incentives, modeled after the Orphan Drug Act, to encourage private industry to develop medications to treat drug abuse. These incentives were passed by the Senate last year. In addition, this subtitle establishes special procedures to speed the delivery of these medicines to drug addicts.

SUBTITLE B—COUNTER-NARCOTICS TECHNOLOGY ASSESSMENT CENTER

This subtitle establishes a new Counter-Narcotics Technology Assessment Center (CONTAC) in the Drug Director's office to identify and exploit promising new drug enforcement technologies. Headed by a chief scientist, the new center would be responsible for establishing the technology requirements of federal, state and local drug enforcement agencies, identifying the most promising technologies to meet these requirements, and funding projects to exploit such technologies. This subtitle authorizes $150 million for such research for fiscal year 1991. The Center will have line-item budget authority over the entire federal drug enforcement research and development program.

SUBTITLE C—NATIONAL DRUG ABUSE EPIDEMIOLOGY

This subtitle would involve the Centers for Disease Control in monitoring trends in drug abuse, by gathering information from hospital emergency rooms and other sources, and publish this data regularly. This National Drug Intelligence Epidemiology System will help drug treatment, law enforcement and other agencies respond to new trends in drug abuse (smokeable heroin is one recent example.)

This subtitle calls on the National Institute on Drug Abuse to gather data from the leading drug abuse indicators and summarize these data in a simple national "report card" on the drug problem in the United States. To be released quarterly, this report card will keep the public abreast of the nation's progress against the drug epidemic.

TITLE VIII—COORDINATION

SUBTITLE A—INCREASING PRIORITY OF ANTI-DRUG EFFORTS

The first section of subtitle A would increase the priority of anti-drug policy within the Administration by expressing the sense of Congress that the President should make the Director of National Drug Control Policy a full member of the President's cabinet. By making the Director a Level I position, along with the Secretary of State and Attorney General, Congress clearly intended that the Director be a cabinet member. Full cabinet status is necessary not only to ensure that the Director is at the table when important Administration policy is formulated, but also to give the Director the clout needed to forge an effective anti-drug policy among the more than 35 federal agencies with anti-drug responsibilities.

Subtitle A also elevates the official in charge of State and Local Affairs in the Office of National Drug Control Policy to the Deputy Director level. To date, state and local concerns have received inadequate attention in the national strategy. For example, the President's first National Drug Control Strategy simply attempted to shift much of the burden for fighting drug trafficking and abuse to state and local government, without providing sufficient funding to meet this added responsibility. Given the critical role that state and local agencies play in the national drug strategy, the official in charge of such efforts should have the same rank as the Deputy Directors for supply and demand reduction.

SUBTITLE B—NATIONAL DRUG INTELLIGENCE CENTER

This subtitle incorporates S. 2313, the Roth-Biden bill, that calls for creating an independent National Drug Intelligence Center, a concept that was endorsed in the President's second National Drug Control Strategy. The Roth-Biden bill calls for consolidating the overlapping and duplicative drug intelligence systems currently operated by the Drug Enforcement Administration, the FBI, the Customs Service and the Treasury Department into the new unified center. In contrast, the Administration is proposing simply to create another drug intelligence system, while the individual agencies continue to operate their own independent systems.

For example, despite the fact that the Justice Department is still developing the specific proposal for the new center, the Treasury Department is moving forward on its new Financial Crimes Enforcement Network (FINCEN), which is aimed at tracking money laundering and other drug-related crimes—similar to the mission of the new Justice Intelligence Center.

| Biden bill | Bush drug strategy/bill |
|---|---|
| **Key Differences** | |
| Focus on hard-core addicts | Focus on casual users. |
| Emphasize economic aid to Andean nations. | Emphasize military aid for Andean nations. |
| Anti-drug education for all children by 1992. | 10% increase for anti-drug education, while only 50% of all children receive anti-drug education. |
| **Funding** | |
| Total funding of $14.3 billion | Total funding of $10.6 billion. |
| $4.9 billion new funds: 60% for demand-side. | $1.1 billion new funds: 25% for demand-side. |
| **Law enforcement** | |
| Adds 1,000 FBI agents to double FBI anti-drug program; boosts DEA funding by $100 million for 1,000 new investigators and agents. | Add to law enforcement with 272 more FBI agents. Increase DEA funding by $151 million. |
| Add 480 positions to U.S. Attorneys | Add 900 positions to U.S. Attorneys. |
| Add 10 regional prisons, housing and providing drug treatment to 8,000 inmates. Add 10 boot camp prisons to incarcerate 9,000 inmates. | Add 6,000 beds to federal prison system. |
| Double Federal aid for State and local law enforcement, raising total to $900 million. | Increase federal aid for State & Local law enforcement by about 10%, to $525 million. |
| No provision | Expand death penalty to include drug kingpins who have not killed. |
| Provide $150 million for new anti-gang & anti-drug efforts. | Cut $60 million from juvenile justice program. |
| **Drug emergency areas** | |
| Provide $300 million for anti-drug law enforcement, prevention and treatment in the nation's hardest hit areas. | Provide $50 million for anti-drug law enforcement in 5 High Intensity Drug Trafficking Areas. |
| **Interdiction** | |
| Add 1,000 Customs inspectors to crack down on smuggling in commercial cargo. | Cut Customs Service budget by $49 million. |
| Authorizes the military to conduct searches of cargo—but not persons—along the U.S. border. | No provision |
| **International** | |
| Provide for debt-for-drugs exchanges with Andean nations. Provide $375 million in economic, military and law enforcement aid to Colombia, Bolivia, and Peru in FY1991–FY 1993. | Provide $206 million in economic, military, and law enforcement aid in FY1991. |
| Directs Attorney General to pursue international agreements on precursor chemicals and to impose sanctions on non-complying companies. | No provision. |
| Directs Secretary of State to pursue negotiations to establish international currency agency to track drug-money. | No provision |
| **Treatment** | |
| Provide drug treatment on demand to all pregnant addicts and new mothers and children who need it within two years; treat 1,000,000 in FY1991. | Provide $200 million for special programs for pregnant women and children; enough to treat about 100,000 pregnant women and children. |
| Provide drug treatment on demand to all addicts who need it within four years; treat total of 1,760,000 addicts in FY1991. | Increase resources by 12%; treat total of 825,000 addicts in FY1991. |
| **Education** | |
| Double funding for school-based anti-drug education programs. Provide additional $150 million to hire teachers to coordinate comprehensive anti-drug education in grades K–12. | Increase funding for school-based drug education programs by 10%. |
| **Prevention** | |
| Provide alternatives to youth gangs, such as Boys & Girls Clubs, youth sports and drug counselors in more than 2,000 public housing projects; total funding of $205 million. | Double funds for community prevention programs, bringing total to $102 million. Increase funding for drug prevention in public housing projects to $150 million. Cut Justice Department delinquency prevention funding by $60 million. |
| **Research and new technologies** | |
| Establishes 10-year, $1 billion research strategy to find medical "cures" to drug addiction. | Expand research and development into medicines to treat drug addicts by $4 million (10%) for FY1991. |
| Creates new counter-narcotics technology agency to develop high-tech weapons. | No provision. |
| **Coordination** | |
| Elevate Director of National Drug Control Policy to cabinet status.. | No provision. |
| Create a National Drug Intelligence Center to collect and analyze drug enforcement intelligence from DEA, FBI, Customs Service and Defense Department. | No provision. |

By Mr. D'AMATO (for himself, Mr. DODD, Mr. WILSON, Mr. DECONCINI, Mr. DOLE, Mr. COATS, and Mr. THURMOND):

S. 2651. A bill to amend chapter 53 of title 31, United States Code, to require the Department of the Treasury to issue regulations concerning the identification of nonbank financial institutions subject to the Bank Secrecy Act, to prohibit illegal money transmitting businesses, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

MONEY LAUNDERING ENFORCEMENT ACT

● Mr. D'AMATO. Mr. President, I rise to introduce the Money Laundering Enforcement Act of 1990, together with Senators DODD, WILSON, DECONCINI, DOLE, and COATS.

Our bill: First, seeks to identify the companies that are really nothing more than fronts for the laundering of drug money. An example is the so-called "money transmitter"—fronting as a travel agency—whose real business is the laundering of millions of dollars of drug money;

Second, it authorizes the Treasury Department to issue expanded "know your customer" rules for banks and other financial institutions to combat money laundering. The day when banks can just sign up new customers and wire their money wherever they're told—with no questions asked—is over.

Our bill has two main targets: International wire transfers; and the largely unregulated financial institutions.

As Timothy Mahoney, the director of special investigations for the New York State Banking Department testified before the Senate Banking Committee last November:

As banks became more sophisticated in reporting currency transactions, drug dealers became more creative and began to rely increasingly on unlicensed and illegal money transmitters, on check cashers, and on money order vendors, all users and sources of huge amounts of cash * * *. It is primarily the unlicensed money transmitter who provides the best means of laundering money and is most often used to structure illegal transactions.

On November 15, 1989, then-Assistant Treasury Secretary for Enforcement Salvatore R. Martoche testified before the House Banking Committee:

Investigations by law enforcement authorities show that wire transfers increasingly are becoming the method of choice to launder money.

In an April 28, 1989 submission to the drug czar, the American Bankers Association stated:

Wire transfers, which are essentially unregulated, have emerged as the primary method by which high volume launderers ply their trade.

A September 25, 1989 article in the New York Times, entitled, "Unassuming Storefronts Believed to Launder Drug Dealers' Profits" quotes State banking regulators as saying that storefront money-transmitting and check-cashing operations are sending billions of dollars to drug dealers in South America and Asia.

Unfortunately, as the House Banking Committee noted in its report No. 101-446 on its money laundering bill:

Certain States have recognized a need for more effective regulation of these businesses, but most States have yet to act. Those who have required some form of licensure usually have little manpower available to

properly supervise and monitor the activities of these business establishments.

The Money Laundering Enforcement Act does not solve these problems completely, but it does very significantly increase the Federal role in working with the States to combat money laundering.

Among the bill's key provisions are: Section 2, drafted with the technical assistance of the Treasury Department, provides for the identification of nonbank financial institutions.

It requires Treasury to issue regulations by July 1, 1991 requiring that depository institutions—banks, saving associations, and credit unions—identify their nonbank financial institution customers—money transmitters, check cashers, foreign exchange dealers, issuers and redeemers of traveller's checks, and casinos.

To help State regulators, the bill provides that Treasury will provide the list to State supervisory agencies for supervisory purposes, because, as Mr. Mahoney testified before the Banking Committee:

It is the sharing of information that is crucial in the battle against drug dealing and money laundering.

Section 3 makes it a Federal crime to operate a money transmitting business in violation of State law.

Section 4 is included at Treasury's request. It authorizes Treasury to issue rules requiring financial institutions to have stronger "know your customer" procedures.

The Treasury Department already has authority to impose special reporting rules on financial institutions in certain geographic areas. For example, they can be required to report cash transactions of less than $10,000.

But if the banks tell their customers these rules are in effect, it defeats the whole purpose. Section 5, therefore, prohibits financial institutions from telling customers they are subject to geographic targeting.

Section 6 relates to recordkeeping for international fund transfers. This section is similar to a provision in the House money laundering bill, H.R. 3848.

But where the House bill only required recordkeeping regulations for domestic depository institutions making international fund transfers, our bill also requires Treasury to issue recordkeeping rules for international fund transfer orders made by money transmitters and check cashers.

Section 7 is another Treasury request. These amendments are necessary to continue expired and expiring provisions already in effect.

The first permits Federal law enforcement agencies to continue to receive information reported to the Internal Revenue Service by companies—such as car and boat dealers—making cash sales involving more than $10,000.

The second reestablishes the authority of IRS to use the income generated from an undercover business operation to pay the expenses of the undercover business.

Section 8 contains yet another Treasury request, amendments to the Right to Financial Privacy Act [RFPA], to:

Permit financial records obtained by an agency in accordance with the RFPA to be transferred to another agency without notice to the customer if there is reason to believe that the records are appropriate for analysis for law enforcement purposes; and

Make it clear the RFPA would not apply to a financial institution providing information that may be relevant to a Bank Secrecy Act violation by a customer.

I ask unanimous consent that four articles from the New York Times, addressing the need to focus more attention and resources on wire transfers and the money transmitter problem, be printed in the RECORD immediately following my remarks, and I urge my colleagues to give the Money Laundering Enforcement Act of 1990 their full support.

Mr. President, I ask unanimous consent that the text of the bill and a section-by-section analysis be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2651

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Money Laundering Enforcement Act of 1990".

SEC. 2. IDENTIFICATION OF FINANCIAL INSTITUTIONS.

(a) A new section 5327 is added to Title 31, United States Code, as follows:

**"5327. Identification of financial institutions.**

"By July 1, 1991, the Secretary shall prescribe regulations providing that each depository institution identify its customers which are financial institutions as defined in section 5312(a)(2) (H) through (Y) and the regulations thereunder and which hold accounts with the depository institution. Each depository institution shall report the names of and other information about these financial institution customers to the Secretary at such times and in such manner as the Secretary shall prescribe by regulation. No person shall cause or attempt to cause a depository institution not to file a report required by this section or to file a report containing a material omission or misstatement of fact. The Secretary shall provide these reports to appropriate state financial institution supervisory agencies for supervisory purposes."

(b) Section 5321 of Title 31, United States Code, is amended by adding a new subparagraph (a)(7) as follows:

"(7)(A) The Secretary may impose a civil penalty on any person who willfully violates any provision of section 5327 or a regulation prescribed thereunder.

"(B) The amount of any civil money penalty imposed under subparagraph (A) shall not exceed $10,000 per day for each day a report is not filed or a report containing a material omission or misstatement of fact remains on file with the Secretary.".

SEC. 3. PROHIBITION OF ILLEGAL MONEY TRANSMITTING BUSINESSES.

(a) Title 18, United States Code, is amended by adding the following Section:

**"1956a. Prohibition of illegal money transmitting businesses.**

(a) Whoever intentionally conducts, finances, manages, supervises, directs, or owns all or part of an illegal money transmitting business shall be fined not more than $20,000 or imprisoned not more than five years, or both.

(b) As used in this section—

(1) 'illegal money transmitting business' means a money transmitting business which—

(i) is a intentional violation of the law of a State or political subdivision in which it is conducted;

(ii) involves one or more persons who conduct, finance, manage, supervise, direct, or own all or part of such business; and

(iii) has been or remains in substantially continuous operation for a period in excess of thirty days or has a gross revenue of $2,000 in any single day.

(2) 'money transmitting' includes but is not limited to transferring funds on behalf of the public by any and all means including but not limited to transfers within this country or to locations abroad by wire, check, draft, facsimile or courier.

"(3) 'State' means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any territory or possession of the United States.

"(c) If one or more persons conduct, finance, manage, supervise, direct, or own all or part of a money transmitting business and such business operates for two or more successive days, then, for the purpose of obtaining warrants for arrests, interceptions, and other searches and seizures, probable cause that the business receives gross revenue in excess of $2,000 in any single day shall be deemed to have been established.

"(d) Any property, including money, used in violation of the provisions of this section may be seized and forfeited to the United States. All provisions of law relating to the seizure, summary, and judicial forfeiture procedures, and condemnation of vessels, vehicles, merchandise, and baggage for violation of the customs laws; the disposition of such vessels, vehicles, merchandise, and baggage or the proceeds from such sale; the remission or mitigation of such forfeitures; and the compromise of claims and the award of compensation to informers in respect of such forfeitures shall apply to seizures and forfeitures incurred or alleged to have been incurred under the provisions of this section, insofar as applicable and not inconsistent with such provisions. Such duties as are imposed upon the collector of customs or any other person in respect to the seizure and forfeiture of vessels, vehicles, merchandise, and baggage under the customs laws shall be performed with respect to seizures and forfeitures of property used or intended for use in violation of this section by such officers, agents, or other persons as may be designated for that purpose by the Attorney General."

(b) Section 1961 of title 18, United States Code, is amended by inserting after "section 1956 (relating to the laundering of mone-

tary instruments),": "section 1956a (relating to the prohibition of illegal money transmitting businesses),".

SEC. 4. COMPLIANCE PROCEDURES.

Section 5318(a)(2) of title 31, United States Code, is amended by inserting before the semicolon "or to guard against money laundering".

SEC. 5. NONDISCLOSURE OF ORDERS.

Section 5326 of title 31, United States Code, is amended by adding at the end the following:

"(c) NONDISCLOSURE OF ORDERS.—No financial institution or officer, director, employee or agent of a financial institution subject to an order under this section may disclose the existence of or terms of the order to any person except as prescribed by the Secretary.".

SEC. 6. PROVISIONS RELATING TO RECORDKEEPING WITH RESPECT TO CERTAIN INTERNATIONAL FUNDS TRANSFERS.

Section 21 (b) of the Federal Deposit Insurance Act (12 U.S.C. 1829b(b)) is amended—

(1) by striking "(b) Where" and inserting "(b)(1) Where"; and

(2) by adding at the end the following new paragraph:

"(2) FUNDS TRANSFERS.—

"(A) IN GENERAL.—Before January 1, 1991, the Secretary, after consultation with the Board of Governors of the Federal Reserve System and State Banking Departments, shall prescribe such final regulations as may be appropriate to ensure that insured depoistory institutions, businesses that provided check cashing services, money transmitting businesses, and businesses that issue or redeem money orders, travelers' checks or other similar instruments maintain such records of payment orders which—

"(i) involve international transactions; and

"(ii) direct transfers of funds over wholesale funds transfer systems or on the books of any insured depository institution, or on the books of any business that provides check cashing sevices, any money transmitting business, and any business that issues or redeems money orders, travelers' checks of similar instruments as well have a high degree of usefulness in criminal, tax, or regulatory investigations or proceedings.

"(B) FACTORS FOR CONSIDERATION.—In prescribing the regulations required under subparagraph (A), the Secretary shall consider—

"(i) the usefulness in criminal, tax, or regulatory investigations or proceedings of any record required to be maintained pursuant to the proposed regulations; and

"(ii) the effect the recordkeeping required pursuant to such proposed regulations will have on the cost and efficiency of the payment system.

"(C) AVAILABILITY OF RECORDS.—Any records required to be maintained pursuant to the regulations prescribed under subparagraph (A) shall be submitted or made available to the Secretary upon request".

SEC. 7. AMENDMENTS RELATING TO THE ANTI-DRUG ABUSE ACT OF 1988.

(a) Paragraph (3) of subsection 7601(b) of the Anti-Drug Abuse Act of 1988 is amended by striking out "only during the 2-year period beginning on such date" and inserting "only during the 4-year period beginning on such date" in lieu thereof;

(b) Paragraph (2) of subsection 7601(c) of the Anti-Drug Abuse Act of 1988 is amended by striking out "after December 31, 1989" and inserting "after December 31, 1991" and by striking out "before January 1, 1990" and inserting "before January 1, 1992" in lieu thereof.

(c) Section 7203 of the Internal Revenue Code of 1986 is amended by replacing the last sentence thereof with the following sentence: "In the case of a willful violation of any provision of section 6050I, the first sentence of this section shall be applied by substituting 'felony' for 'misdemeanor' and '5 years' for '1 year'."

SEC. 8. AMENDMENTS TO THE RIGHT TO FINANCIAL PRIVACY ACT.

(a) TRANSFER WITHOUT NOTICE.—Section 1112 of the Right to Financial Privacy Act (12 U.S.C. 3412) is amended—

(1) by striking subsections (b), (c), and (f);

(2) by redesignating subsections (d) and (e) as subsections (b) and (c) respectively; and

(3) by striking subsection (a) and inserting the following:

"(a) Financial records originally obtained by an agency in accordance with this title may be transferred to another agency without notice to the customer if there is reason to believe that the records are relevant to a matter within the jurisdiction of the receiving agency or appropriate for analysis by the receiving agency for law enforcement purposes.".

(b) EXCEPTION.—Section 1113 of the Right to Financial Privacy Act (12 U.S.C. 3413) by adding a new subsection as follows:

"(p) EXCEPTION.—This title does not apply to a transfer by a financial institution or supervisory agency, or any officer, director, employee, or agent of a financial institution or a supervisory agency, to the Secretary of the Treasury of financial records which such financial institution or supervisory agency has reason to believe may be relevant to a possible violation of a provision of subchapter II of chapter 53 of title 31, United States Code.".

(c) GOOD FAITH DEFENSE.—Section 1117(c) of the Right to Privacy Act (12 U.S.C. 3417(c)) is amended to read as follows:

"(c) GOOD FAITH DEFENSE.—Any financial institution or agent or employee thereof making a disclosure of financial records or information in good faith either in reliance upon a certificate by any Government authority pursuant to section 3413 (l) or (p) of this title, shall not be liable to the customer for such disclosure under any constitution, law, or regulation of any States or political subdivision."

---

SECTION-BY-SECTION ANALYSIS

Section 1. The "Money Laundering Enforcement Act of 1990".

Section 2. Identification of Financial Institutions. This section adds a new section 5327 to Title 31 (The Bank Secrecy Act). Section 5327 provides that the Secretary shall issue final regulations by July 1, 1991 requiring that depository institutions—banks, saving associations, and credit unions—identify their customers who are non-bank financial institutions subject to the reporting and recordkeeping requirements of the Bank Secrecy Act, such as transmitters of funds, check cashers, foreign exchange dealers, issuers and redeemers of traveller's checks, and casinos.

These institutions present a challenge for law enforcement in the fight against money laundering. Compliance with the Bank Secrecy Act by many miscellaneous financial institutions remains poor, money laundering in many of these institutions abounds, and in most states, many of these institutions remain largely unregulated. The Internal Revenue Service, to which Bank Secrecy Act compliance responsibility for these institutions has been delegated, has an extremely difficult time identifying the universe of miscellaneous institutions.

Similarly, in states that do regulate these institutions, such as New York, state regulators have a problem with large numbers of unlicensed institutions, many of which have been involved in money laundering schemes. Therefore, the bill also provides that the Secretary will provide the list to appropriate state supervisory agencies for supervisory purposes.

Banks applying sound "know your customer" procedures are in the best position to identify which of their customers may be operating as miscellaneous financial institutions. It is anticipated that as part of the regulations, Treasury would issue guidance on how to identify these institutions, including model know your customer procedures. If the bank follows the Treasury guidance and reasonably relies on a misrepresentation by its customer, it will not be liable.

A new daily civil penalty has been added for persons including non-bank financial institutions and their officers, directors and employees who misrepresent the nature of their businesses to depository institutions. The criminal provisions in 31 U.S.C. 5322 also would apply.

In an April 28, 1989 submission to the Director of the Office of National Drug Control Policy (reprinted, Congressional Record, May 18, 1989, S5555), the American Bankers Association stated: "Wire transfers, which are essentially unregulated, have emerged as the primary method by which high volume launderers ply their trade."

The same point was made in a September 25, 1989 article in the New York Times, entitled, "Unassuming Storefronts Believed to Launder Drug Dealers' Profits." The article quotes state banking regulators as saying that storefront money-transmitting and check-cashing operations are sending billions of dollars to drug dealers in South America and Asia.

This problem was explored extensively on November 1, 1989 at a hearing of the Senate Banking Committee. At that hearing, the director of the Special Investigations Division of the New York State Banking Department testified that, increasingly, unregulated, unlicensed foreign transmittal agencies are used to launder money. Unlike banks, these services are generally regulated only by states.

Unfortunately, as noted by the House Banking Committee at page 20 of its Report 101-446 on its money laundering bill: "Certain states have recognized a need for more effective regulation of these businesses, but most states have yet to act. Those who have required some form of licensure usually have little manpower available to properly supervise and monitor the activities of these business establishments."

It is the purpose of section 2 to address this gaping hole in our anti-money laundering enforcement effort, strengthen the federal role, and reinforce the efforts of state agencies. Section 2 does not pre-empt the law of any state that chooses to do more to regulate these businesses, but it will provide at least the beginning of an enhanced federal role in this area.

Section 3. Prohibition of Illegal Money Transmitting Businesses. This section is derived from 18 U.S.C. 1955 (Prohibition of illegal gambling businesses), which makes it a federal crime to operate a gambling business in violation of state law. Section 3 amends Title 18, United States Code, by adding a

new Section 1956a (Prohibition of illegal money transmitting businesses), making it a federal crime to operate a money transmitting business in violation of state law.

Section 3 provides that whoever conducts, finances, manages, supervises, directs, or owns all or part of an illegal money transmitting business shall be fined not more than $20,000 or imprisoned not more than five years, or both.

An "illegal money trnasmitting business" means a money transmitting business which is a violation of the law of a State in which it is conducted; involves one or more persons who conduct, finance, manage, supervise, direct, or own all or part of such business; and has been or remains in substantially continuous operation for a period in excess of thirty days or has a gross revenue of $2,000 in any single day. A violation of Section 1956a (prohibiting illegal money trnasmitting businesses) is added to the list of criminal RICO offenses.

Section 4. Compliance Procedures. This amendment is sought by the Treasury Department. It authorizes the Secretary of the Treasury, under 31 U.S.C. 5318(a)(2), to promulgate procedures designed to insure that domestic financial institutions maintain procedures to ensure that they are not used to further money laundering.

The Treasury Department seeks this provision because it intends to use it to promulgate model "know your customer" procedures for institutions subject to the Bank Secrecy Act, including measures designed to verify the legitimate nature of a customer's business and to insure that account activity is commensurate with that business.

Many banks have such programs, but, according to Treasury, the industry standard is not uniformly high. Moreover, programs may be deficient and nonexistent in nonbank institutions, such as currency brokers and wire transmitters.

Currently, the Treasury Secretary has authority to issue procedures to ensure compliance with the Bank Secrecy Act. This section extends the authority to promulgate procedures aimed at deterring money laundering, whether or not cash or a foreign transaction is involved. An institution that failed to maintain the procedures would be subject to a daily civil penalty under 31 U.S.C. 5321 and/or criminal sanctions under 31 U.S.C. 5322.

Section 5. Nondisclosure of Orders. These amendments are sought by the Treasury Department. In Section 6185 of the Anti-Drug Abuse Act of 1988, Congress gave Treasury the authority (at 31 U.S.C. 5326) to require financial institutions in a certain geographic location to be subject by order to special reporting requirements, e.g., reporting at a lower dollar threshold for a limited period of time. 31 U.S.C. 5326 is aimed at detecting the practice of "smurfing" to avoid the $10,000 reporting requirement.

In order for geographic targeting orders to be effective, however, it is imperative that customers of the financial institutions subject to an order not know of the existence or terms of special reporting requirements. If they know, they will quickly move their activities outside the targeting area or below the reporting amount and frustrate the purpose of the order. Section 5, therefore, adds a provision to 31 U.S.C. 5326 prohibiting financial institutions or any officer, director, employee or agent of financial institutions subject to a geographic targeting order under section 5326 from disclosing the existence of or terms of the order to any person except as prescribed by the Secretary.

Section 6. Recordkeeping Requirements for Wire and Electronic Fund Transfers. This section is almost identical to section 10 of H.R. 3848, the Depository Institution Money Laundering Amendments of 1990, reported by the House Committee on Banking, Finance and Urban Affairs on April 3. The only change it makes in the language of that section is that where the House Banking Committee provision only requires regulations with respect to recordkeeping by domestic depository institutions making international fund transfers, Section 6 of this bill also requires Treasury to issue similar regulations on recordkeeping with respect to international fund transfer orders made by money transmitting and check cashing businesses, and businesses that issue and redeem money orders and travelers' checks.

Section 7. Amendments Relating to the Anti-Drug Abuse Act of 1988. These amendments to the Anti-Drug Abuse Act are necessary to continue expired/expiring provisions that are valuable tools for law enforcement in the war on drugs.

The first amendment will permit Federal law enforcement agencies to continue to receive information reported to the Internal Revenue Service by persons in a trade or business where these persons receive more than $10,000 in cash in a transaction. This reporting requirement applies to those transactions not subject to the Title 31 reporting rules, such as the sales of automobiles, boats and so forth. This information supplements the Currency Transaction Reports being utilized to identify and prosecute persons laundering funds obtained from the sale of drugs or other criminal activities.

The second amendment will reestablish the authority of IRS to use the income generated from an undercover business operation to pay the expenses of the business. This authority was temporarily granted to IRS in 1988, although it has been permanently available to other law enforcement agencies for some time. Such authority is necessary to permit establishment of an undercover operation in a business having a high cash flow, such as a restaurant. Without this authority, undercover operations in such a business are impractical since all receipts would have to be deposited in the general fund with all expenses paid out of appropriated funds. Under the provision, all net proceeds would go to the general fund while any losses would be born by appropriated funds. Appropriate financial accountability and reporting controls are provided in the original measure. IRS has developed the necessary Internal Audit procedures.

The third amendment is a technical correction to an Internal Revenue Code amendment added by section 7601(a)(2)(B) of P.L. 100-690, the Anti-Drug Abuse Act of 1988. It clarifies an apparent drafting oversight. As enacted, the criminal penalty for violations of section 6050I is punishable by imprisonment for not more than five years. However, the penalty is a misdemeanor even though punishable by imprisonment of up to five years. In addition to being inconsistent with other criminal penalities, it is a lesser sanction since persons convicted of a felony may lose certain rights under State law that are not forefeited if the conviction is classified as a misdemeanor.

Section 8. Amendments to the Right to Financial Privacy Act. All amendments in this section are sought by the Treasury Department. Under section 1103 of the Right to Financial Privacy Act (12 U.S.C. 3403), financial institutions have been able to report, in good faith, possible violations of law or regulation to federal authorities without notice to the suspected customer and free from civil liability under the RFPA.

Under the RFPA, agencies that come into possession of financial records in accordance with the RFPA (either after customer notice or pursuant to an authorized notice exception) must notify a customer if it transfers the records to another agency, unless the transfer is of records to the Attorney General for use in criminal cases. This exception for transfers of records to the Attorney General was added by the 1988 Anti-Drug Abuse Act.

Since the 1988 Act, Treasury has created the Financial Crimes Enforcement Network (FINCEN). FINCEN plans not only to analyze financial records received by administrative subpoena, to facilitate investigations and prosecution by non-Treasury agencies, but also to integrate such records with other available records for further analysis to identify new targets for investigation.

Treasury, therefore, seeks the amendment made by the Money Laundering Enforcement Act of 1990 Section 8(a) to Section 1112 of the Right to Financial Privacy Act (12 U.S.C. 3412) providing that financial records originally obtained by an agency in accordance with title 12 may be transferred to another agency without notice to the customer if there is reason to believe that the records are relevant to a matter within the jurisdiction of the receiving agency or appropriate for analysis by the receiving agency for law enforcement purposes.

Section 8(b) adds a new subsection 1113(p) to the Right to Financial Privacy Act (12 U.S.C. 3413) to make it clear that the RFPA would not apply to a financial institution providing information that may be relevant to a Bank Secrecy Act violation by a customer, i.e., in situations where the bank suspects that a customer has violated the Act's anti-structuring provision (21 U.S.C. 5224).

Technically, under current law, if the bank is not implicated in the possible violation, disclosure to Treasury might arguably not be within the exercise of Treasury's "supervisory functions. . . . with respect to a finacial institution" (RFPA section 1113(b); 12 U.S.C. 3413(b)). In that case, banks would only be able to give Treasury the limited suspicious transaction information allowed by 12 U.S.C. 3403(c).

Section 8(c) provides that a financial institution that discloses information and records relating to a customer violation of the Bank Secrecy Act under new RFPA section 1113(p), in good faith, also would be protected form civil liability under state law. This is comparable to the protection for financial institutions that make reports of suspicious transactions in accordance with RFPA section 1103(c).

### Unassuming Storefronts Believed To Launder Drug Dealers' Profits

(By Stephen Labaton)

State banking regulators around the country have found that thousands of small inner-city businesses through which recent immigrants send money to relatives are also being used to launder drug money. The regulators say these storefront money-transmitting and check-cashing operations are sending billions of dollars to drug dealers in South America and Asia.

Although a small percentage of these businesses are licensed and legitimate, providing a kind of service like Western

Union's, the majority are illegal, unlicensed and unregulated.

PROBLEM IS HUGE

Bank examiners are finding that in addition to taking in large sums of cash—in suitcases, cartons, shopping bags—from drug dealers in American cities and sending the money abroad, the operators are defrauding legitimate customers by failing to deliver the funds to their intended destinations.

State officials say the worst problems are in New York, California, Florida and Texas.

"The magnitude of the problem is huge," said Jill M. Considine, superintendent of banks in New York and chairwoman of the Conference of State Bank Supervisors in Washington.

In California, Texas and some other states, prosecutors say the laws are weak and poorly written, giving them little ammunition for correcting the problem while offering large loopholes for money transmitters. In these and other states, including New York, the regulators monitoring the activity are so few—fewer than half a dozen—that they are overwhelmed by the number of illegal businesses. Efforts in recent months to strengthen the laws and close the loopholes have failed in many of these states.

THEY LOOK LIKE BANKS

New York bank regulators say that they have identified more than 130 illegal money transmitters in the New York City area and that many more have probably gone undetected. The state has issued licenses to 35 companies, with more than half of them being granted in the last year.

The illegal money-transmitting businesses typically operate out of storefront offices that resemble banks, with tellers protected by bulletproof glass.

"Most of them provide the service of sending $50 back to your grandmother in South America," said Bonnie Klapper, a Federal prosecutor in Brooklyn who specializes in money-laundering cases. "But on the side, as an offshoot, they make a lot more by charging more for their drug customers."

Typically, an illegal transmitting business takes a customer's money and deposits it in a legitimate bank, sometimes under the name of a fictitious corporation. From the bank, the funds are electronically transferred to another bank, leaving no trace of the real depositor.

Robert Abrams, New York State's Attorney General, said the number of money-transmitting businesses had grown rapidly in recent years. The increase corresponds to the enormous growth of the narcotics industry and the stepped-up efforts by legitimate banks to comply with the Federal law that requires the reporting of large amounts of cash. The law was intended to discourage money laundering by requiring financial institutions to file reports when they receive deposits of more than $10,000.

In most instances, the involvement of drug money is concealed because the banks report the names of the money-transmitting companies and not the drug seller.

State prosecutors in many jurisdictions say they are hampered because by law they cannot file criminal charges against a financial services company unless cases were referred from the state bank departments. And these departments lack the proper staff to develop them. New York, Texas and California, for instance, each have fewer than six people who work full-time monitoring money transmitters.

Yet by the number of complaints they receive from defrauded customers and the relatively few companies that have licenses, the regulators say they know that most of the operations go unmonitored. Compounding the problem is the fact that no state regulates the many agents or subcontractors of the licensed money transmitters. Many operators use nearby travel agents, small stores or supermarkets to run branch operations.

FIGHTING WINDMILLS

"I feel like I'm fighting windmills here," said Roy A. Parchment, a deputy superintendent of the New York Banking Department who oversees the licensing of financial services. "It has become a thorn in our side. There are locations all over the city that you'd think are banks. They have tellers, slips and lines. A lot of what goes through is innocent activity, but there is no supervision at all."

Mr. Parchment said his department had recently sent letters to the unlicensed businesses threatening prosecution. While some businesses have since applied for licenses, he said, most have ignored the letters.

The regulation of such businesses to a large extent also falls between the Federal and state authorities. Federal law-enforcement agencies tend to leave many of these cases to the states because their banking departments have jurisdiction over money transmitters. Indeed, President Bush did not mention these operations in his recently announced national anti-drug strategy.

Officials at the Office of National Drug Control Policy say it is setting up two oversight groups to identify money-laundering problems and recommend new programs and regulations.

In addition, the Treasury Department has recently begun to create a center, tentatively named the Financial Crimes Enforcement Network, that will coordinate information about money-laundering activities from more than half a dozen Federal agencies. That effort, to be supervised by the Customs Service, is not expected to be ready until next year.

Stan Cardanas, senior deputy superintendent of banks in California, estimated that his state has about the same number of illegal operations as New York has. He said only 16 businesses had received licenses to transmit money.

SIGNIFICANT AMOUNTS

Texas officials said 29 businesses had been licensed as money transmitters or sellers of money orders under that state's laws. Harold L. Rose, director of special audits of the Texas Banking Department, said 15 unlicensed money transmitters had been closed by the department in the last year.

Barry Gladden, the financial investigations director for the Florida comptroller's office, said the state had no laws regulating check cashing and money transmitting. Florida investigators suspect these operations could be used for laundering "significant amounts of money."

"It's hard to get a handle on the magnitude of the problem because the people who are getting ripped off are often not in a position to complain about it," said Robert Richard, vice president of the Conference of State Bank Supervisors. The people who deal with the money transmitters are often recent immigrants unfamiliar with the law or are in the United States illegally.

Such was not the case for the Remesas Seguras Corporation, which Mr. Parchment, the New York banking official, called a textbook example of how these businesses work.

The company's founder, Florencio Bethencourt, a 47-year-old former Wall Street broker, is to be sentenced in November under a new state banking law that makes it a misdemeanor to transfer money without a license. He has also pleaded guilty to related Federal charges having to do with defrauding customers but not related to drug-money laundering.

LOOKS LIKE A BANK

By outward appearances, the Remesas Seguras at 89-15 37th Avenue in Jackson Heights looked almost like a bank or a local Western-Union office, a place to exchange dollars for foreign currency or send money abroad.

Inside, four tellers stood behind bulletproof glass, and a black-and-white board showed the day's exchange rates. State officials said a nearby room had been used for depositors who came with suitcases of cash to use the company's high-speed money counters.

The company, whose name in Spanish means secure remittances, gave its customers trinkets, like blue pens or white ice scrapers with the phone numbers and locations of four other Remesas Seguras outlets, in Queens and Union City, N.J.

"We'll send a letter free with a transfer of money," a sign in the Remesas Seguras window proclaimed in Spanish. "Our clients are Colombians. Fast, secure and confidential."

$100 MILLION IN A YEAR

The authorities say Remesas Seguras outlets were used to transfer more than $100 million abroad illegally in 1988. Officials said much of the money was laundered drug proceeds destined for Medellin and Cali, the two Colombian cities from which most of the cocaine that reaches the United States is exported.

Mr. Abrams added that less than a quarter of the more than $1 million seized by state officials has been claimed by defrauded customers, a strong indication that much of the money had come from drug dealers.

The company charged commissions of 3 to 7 percent, depending upon the customer. When business was slow at some of the outlets, employees would go to neighboring travel agencies and small groceries and try to solicit more customers.

State prosecutors said Mr. Bethencourt had required that all transactions of more than $10,000 be approved by him because he was afraid of Federal undercover agents looking for violations of the Federal Bank Secrecy Act.

Mr. Abrams said that had Remesas Seguras not defrauded its legitimate customers, it might still be in business today, since illegal transmitters that are satisfying customers are difficult to detect.

---

A MONEY-LAUNDERING TRAIL

Regulatory officials believe that millions of dollars in illegal drug proceeds are being sent to South America by thousands of small inner-city businesses through which recent immigrants send money to relatives. Here is how they believe a typical operation works:

Money is dropped off at a storefront money-transmitting and check-cashing operation. Legitimate customers, who are usually sending money to relatives in Latin America, go to a teller, who often works behind bulletproof glass. Customers with suitcases full of cash go to a special room where they use high-speed money-counting machines.

The money is put into burlap bags that bear the markings of a legitimate or ficti-

tious company. Each day, managers of the storefront operation fax copies of the receipts to the organizer of the operation in Miami.

The head of the operation instructs the managers at which bank to deposit the funds and under which corporate account. The accounts, at major banks in New York and New Jersey, are under the names of real and fictitious companies.

After the funds are deposited, the banks are instructed to transfer the money to Miami accounts electronically. From the Miami accounts, the funds are then transferred to Panama. From Panama, they are transferred to South America, usually Medellin or Cali in Colombia, headquarters for the largest cocaine cartels in the world.

[From New York Times, Oct. 5, 1989]

U.S., IN DRUG DRIVE, TO REGULATE SHIFT OF FUNDS ABROAD

(By Stephen Labaton)

WASHINGTON, Oct. 4.—In an attempt to halt the extensive laundering of drug profits earned illegally in this country and sent abroad, the Bush Administration has decided to regulate international money transfers by American banks, the Treasury Department announced today.

Such transfers, mostly to Latin America, are not regulated now, but Treasury officials estimate that as much as $110 billion is laundered—or disguised—each year in the American banking system.

The Government will open a financial crimes center next month in Arlington, Va., with computers to monitor information on money laundering to be supplied by more than half a dozen Federal agencies.

GETTING DATA INTO COMPUTERS

At a Senate hearing today, the Administration said it would for the first time mandate record-keeping on international electronic transfers and require American banks to share that information with the Government.

To reduce paper flow and get large amounts of data into Government computers quickly, new rules will also require large banks to use magnetic tapes when they file reports. The banks and other financial institutions are already required to file written reports to the Government on all domestic deposits of more than $10,000. But officials of the Drug Enforcement Administration say there are so many such deposits that the drug money goes undetected, buried in huge paper backlogs.

"It represents a substantial stride in the area of money laundering both domestically and internationally," said Salvatore R. Martoche, Assistant Treasury Secretary for enforcement, who is leading the regulation drive.

John F. Kerry, the Massachusetts Democrat who is chairman of the Senate Foreign Relations Committee's Subcommittee on Terrorism, Narcotics and International Operations, agreed that the Treasury decision represented an important step forward, but he said much remained to be done to fight laundering effectively. Mr. Kerry is conducting the hearings on regulating banks.

The moves came after Administration officials conceded that under current bank regulations the increasing volume of computerized electronic money transfers through American banks—now more than $1 trillion a day—had made it virtually impossible to trace narcotics profits.

And last week officials at the Office of National Drug Control Policy said the true dimensions of the problems were only now beginning to emerge. Among the laundering operations that have come to light in recent weeks are the thousands of small, unregulated money-transmitting businesses that take in drug money in the nation's inner cities, deposit it in legitimate banks and then order it transferred abroad electronically.

Treasury officials said the precise reporting provisions on international transfers had yet to be worked out. But one high official confirmed in an interview that the banks and clearinghouses were now going to have to keep good records on the transfers and were going to have to share this information with the Government. "We're working with the industry to get them to figure out ways to carry this out efficiently," he said.

And John Lee, chief executive of one of the nation's largest clearinghouses, Clearing House Interbank Payments System, said, "We're happy to work with them."

But some bank executives expressed concern that the regulations might become excessively burdensome. It has not been determined how much detail on each transfer will have to be recorded and filed.

TOTALLY UNPRODUCTIVE

"If it turns out to be a wholesale blanket rule on firing, it would be totally unproductive," said Donald J. Reid, senior compliance officer at Wells Fargo Bank in San Francisco. "To the extent the rules would require us to target certain areas or banks, then it would enable authorities to make some conclusions which are meaningful."

But the fact that the records must be kept and be available to the Government, at least in necessary cases, is regarded by law-enforcement officials as vital to solving the money laundering problem.

In the type of modern electronic money transfer, or wire transfer, that has become so difficult to monitor, a customer may instruct his personal computer to tell his bank's computer to take funds out of his account and send them to another account in a foreign bank. In most of these foreign transfers, no person talks to another regardless of the amount.

The bank's computer then tells a banking clearinghouse—a kind of automated middleman that assists banks in switching funds from one to another—to send the customer's funds to the account abroad.

$700 BILLION A DAY

The clearinghouse acts as a middleman for about $700 billion in transfers each day, up by about 40 percent in the last two years.

Senator Kerry said the effectiveness of the new regulations "remains to be seen," and he criticized the Administration for not pursuing negotiations with other countries as well as domestic banks to gain their cooperation in sharing information.

The Administration is required by law to report by next month on the progress of those negotiations, and officials said today that no one was working full time on such a report.

Mr. Kerry also said the Treasury Department's planned financial center "was a good idea, but not broad enough in scope."

Known as the Financial Crimes Enforcement Network, the $15 million center will be under auspices of the Treasury Department. It is expected to open on Nov. 1, and its staff is planned to grow by the end of the year to include about 200 economists, analysts and law-enforcement personnel as well as representatives from more than half a dozen other agencies.

The center will integrate the enormous data bases that have been compiled by Customs, the Internal Revenue Service, the drug agency, the Federal Reserve and the State Department. It is also asking for computer data bases that have been compiled by states, and will share with state officials the Federal information it has stored.

RULES WEIGHED ON TRANSFER OF BIG SUMS ELECTRONICALLY

(By Stephen Labaton)

The Treasury Department yesterday disclosed the range of the new guidelines it is reviewing to regulate the electronic transfer of vast sums of money among banks around the world.

The regulations are being drawn up in response to recent Federal prosecutions and reports showing that narcotics traffickers have been laundering billions of dollars of drug money through the banking community's international computer systems.

In a major policy change, Treasury officials earlier this month said that they will regulate the international electronic transfers for the first time and require record-keeping by the financial institutions to help investigators trace the flow of illegally earned money. Yesterday's announcement starts the formal rule-making process.

Banks are already required to report domestic deposits of more than $10,000, but the foreign transfers have gone largely unregulated.

The Government estimates that drug revenues in the United States total $110 billion a year, 80 percent of which represents illegal profits. Much of this money is now making its way to Latin American and Asia.

For banks, the regulations could mean a substantial amount of additional paperwork, though the banks' computers themselves will be able to assist with some of the monitoring. For law-enforcement authorities, this paperwork is expected to provide a more detailed money trail for routine and suspicious transactions.

The Bush Administration is about to open a new financial-crimes center in Arlington, Va., with computers that will receive some of the new data and will monitor money laundering information to be supplied by more than half a dozen Federal agencies as well as state authorities.

In the type of modern electronic transfer or wire transfer, that has become so hard to monitor, a customer may instruct his personal computer to tell his bank's computer to take money out of his account and send it to another account in a foreign bank. In most of these foreign transfers, no person ever talks to another, regardless of the amount.

The bank's computer then tells a bank clearinghouse—a kind of automated middleman that assists banks in switching money from one to another—to send the customer's money to the account abroad. More than $1 trillion a day is moved through the nation's main clearinghouses, and the average transfer is $5 million.

One rule will require that either the bank that sends or receives a transfer keep a record of it, including the name and account of the customer transmitting and receiving the funds. Another rule would require that financial institutions receive more information about the nature of the business of a customer who makes use of international transfers.

PROFILE OF SUSPICIOUS TRANSFERS

Businesses that do not have an established relationship with a bank would also be more closely monitored than those that do. The Treasury Department also wants financial institutions to develop a profile of what constitutes suspicious transfers.

Department officials said they would require large banks to use magnetic tapes when they file reports of domestic deposits.

Clearinghouse officials said yesterday they supported the proposals.

"I can't see any problem with them," said John Lee, president and chief executive of the New York Clearinghouse, which moves an average of about $700 million each day through its computer system. He added that about 83 percent of the clearinghouse's customers had a regular relationship with their banks, and that the other 17 percent had a large focus of money-laundering concerns.

BANKERS' GROUP WEIGHS IMPACT

The senior counsel for the American Bankers Association, John Byrne, said members of the Washington-based industry group were assessing the impact of the regulations, to be published on Tuesday in The Federal Register.

John F. Kerry, the Massachusetts Democrat who is chairman of the Senate Foreign Relations Committee's Subcommittee on Terrorism, Narcotics and International Operations, said the proposed rules did not go far enough because they would not regulate electronic transfers between foreign banks that make use of the clearinghouses in the United States.

BUSINESS AND THE LAW

(By Stephen Labaton)

When Democrats on Capitol Hill heard that the Justice Department had struck a $15 million deal to end the largest money laundering case against a bank, they were sharply critical of what they called a lenient plea agreement and vowed to promote strong legislation.

A legislative package is expected to pass the House Committee on Banking, Finance and Urban Affairs on Thursday and will probably make it to the floor of the House soon after. A comprehensive Senate bill on money laundering is being drafted and may be introduced by Donald W. Riegle Jr., chairman of the Banking, Housing and Urban Affairs Committee, and two other Democrats, as early as this week.

The House version is considerably weaker than initial proposals; many provisions are more symbols than substance.

The sections governing the electronic transfer of money between banks gives the Treasury Department the authority to impose certain record-keeping requirements on customers of banks. Congressional aides concede that Treasury already has most of that authority even without the legislation.

Facing enormous pressure from the banking industry, the legislators have eliminated the section that requires the automatic suspension of licenses of banks convicted of money laundering.

The legislation would require the bank to dismiss any employee convicted of laundering, but as a practical matter it is rare to find a major bank that would need a Federal law to prompt such a move.

Another piece of the House legislation would leave to the states the role of regulating the growing number of storefront operations that transmit money and cash checks and increasingly are being used to conceal and transmit narcotics profits.

Bank regulators have said the gaps between state and Federal laws and enforcement efforts, combined with weak state laws, have made it difficult to prosecute the transmitters and check cashing operations. Lobbyists for check cashers and a number of states have fought hard against a Federal law that would pre-empt the patchwork of relatively weak state regulations.

The legislation is a reaction to the conviction earlier this year of two principal units of the Bank of Credit and Commerce International, which is based in Luxembourg and has offices in 73 countries. The subsidiaries of the $20 billion institution pleaded guilty in Federal district court in Tampa, Fla., to money laundering and conspiracy and agreed to forfeit $15 million. Prosecutors defended the agreement, noting that it was the largest criminal penalty ever imposed against a bank.

The architects of the House legislation are the committee's chairman, Henry B. Gonzalez, Democrat of Texas and three other members; Frank Annuzio, Democrat of Illinois; Jim Saxton, Republican of New Jersey, and Esteban E. Torres, Democrat of California. Well over half of the package has already been approved by a house subcommittee that consists of 46 of the 51 members of the committee.

The most controversial provisions, sponsored by Mr. Annunzio, was known as the "death penalty for banks" clause. As originally written, it required the revocation of a bank's charter upon conviction of money laundering.

The provision came under heavy criticism for bankers' groups and has been substantially revised.

Instead of automatically revoking a convicted institution's license, Federal regulatory agencies must weigh four factors when considering the bank's fate. The agencies must look at the extent to which the senior managers were involved in the corrupt activity, the mechanisms in place to prevent the laundering, the degree to which the bank cooperated in the investigation and the extent to which the bank has responded to the conviction through new procedures intended to prevent a recurrence.

The proposed law also allows the Government to impose a conservator to displace the bank's management in lieu of revoking the charter. But to do so, it must consider the same four factors that would be applied in the charter revocation hearing.

"We thought it would be fairer to permit a hearing at which these factors could be considered," a Congressional aide said last week. "But it still leaves some teeth in the law."

For its part, the Bush Administration is expected within the next two months to introduce regulations governing the electronic transfer of funds between bank accounts. Recent drug cases have shown that such transfers are being used increasingly to conceal and move billions of dollars a year in narcotics profits. The regulations which will require greater recordkeeping, are intended to make it easier to trace the flow of money through the banking system.●

## ADDITIONAL COSPONSORS

S. 195

At the request of Mr. PELL, the names of the Senator from Connecticut [Mr. LIEBERMAN], the Senator from North Dakota [Mr. CONRAD], the Senator from Nebraska [Mr. KERREY], the Senator from Hawaii [Mr. AKAKA], and the Senator from California [Mr. CRANSTON] were added as cosponsors of S. 195, a bill entitled the "Chemical and Biological Weapons Control Act of 1989."

At the request of Mr. DOLE, his name was withdrawn as a cosponsor of S. 195, supra.

S. 720

At the request of Mr. BOREN, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 720, a bill to amend the Internal Revenue Code of 1986 to extend and modify the targeted jobs credit, and for other purposes.

S. 1577

At the request of Mr. BOREN, the name of the Senator from Wisconsin [Mr. KASTEN] was added as a cosponsor of S. 1577, a bill to amend the Internal Revenue Code of 1986 to provide that charitable contributions of appreciated property will not be treated as an item of tax preference.

S. 1664

At the request of Mr. HEINZ, the names of the Senator from Idaho [Mr. MCCLURE], and the Senator from Minnesota [Mr. BOSCHWITZ] were added as cosponsors of S. 1664, a bill to establish a congressional commemorative medal for members of the Armed Forces who were present during the attack on Pearl Harbor on December 7, 1941.

S. 1690

At the request of Mr. DODD, the name of the Senator from New Mexico [Mr. BINGAMAN] was added as a cosponsor of S. 1690, a bill to establish programs to improve foreign language instruction, and for other purposes.

S. 1791

At the request of Mr. ROCKEFELLER, the name of the Senator from Utah [Mr. HATCH] was added as a cosponsor of S. 1791, a bill to amend the International Travel Act of 1961 to assist in the growth of international travel and tourism into the United States, and for other purposes.

S. 1911

At the request of Mr. DODD, the name of the Senator from Connecticut [Mr. LIEBERMAN] was added as a cosponsor of S. 1911, a bill to provide assistance in the development of new or improved programs to help younger individuals through grants to the States for community planning, services, and training; to establish within the Department of Health and Human Services an operating agency to be designated as the Administration on Children, Youth, and Families; to provide for a White House Conference on Young Americans; and for other purposes.

S. 1925

At the request of Mr. SPECTER, the name of the Senator from Alabama [Mr. SHELBY] was added as a cosponsor of S. 1925, a bill to amend the Higher Education Act of 1965 to require colleges and universities to establish and disclose campus security policies and to inform students and employees of campus crime statistics, and for other purposes.

S. 2003

At the request of Mr. HOLLINGS, the name of the Senator from Louisiana [Mr. BREAUX], the Senator from Wyoming [Mr. SIMPSON], and the Senator from Florida [Mr. GRAHAM] were added as cosponsors of S. 2003, a bill to establish a commission to advise the President on proposals for national commemorative events.

S. 2044

At the request of Mr. LEVIN, his name was added as a cosponsor of S. 2044, a bill to require tuna products to be labeled respecting the method used to catch the tuna, and for other purposes.

S. 2078

At the request of Mr. WARNER, the names of the Senator from California [Mr. WILSON], and the Senator from Mississippi [Mr. COCHRAN] were added as cosponsors of S. 2078, a bill to recognize the organization known as the National Center for Therapeutic Riding.

S. 2104

At the request of Mr. KENNEDY, the names of the Senator from Missouri [Mr. DANFORTH], the Senator from Texas [Mr. BENTSEN], the Senator from Pennsylvania [Mr. HEINZ], the Senator from Virginia [Mr. ROBB], the Senator from Hawaii [Mr. AKAKA], the Senator from Florida [Mr. GRAHAM], the Senator from West Virginia [Mr. ROCKEFELLER], and the Senator from Nevada [Mr. REID] were added as cosponsors of S. 2104, a bill to amend the Civil Rights Act of 1964 to restore and strengthen civil rights laws that ban discrimination in employment, and for other purposes.

S. 2111

At the request of Mr. SIMON, the name of the Senator from Connecticut [Mr. LIEBERMAN] was added as a cosponsor of S. 2111, a bill designating the month of May as "Asian/Pacific American Heritage Month."

S. 2114

At the request of Mr. KENNEDY, the name of the Senator from Michigan [Mr. LEVIN] was added as a cosponsor of S. 2114, a bill to promote excellence in American mathematics, science, and engineering education; enhance the scientific and technical literacy of the American public; stimulate the professional development of scientists and engineers; provide for education, training, and retraining of the Nation's technologists; increase the participation of women and minorities in careers in mathematics, science, and engineering; and for other purposes.

S. 2222

At the request of Mr. BRADLEY, the name of the Senator from Hawaii [Mr. INOUYE] was added as a cosponsor of S. 2222, a bill to amend the Internal Revenue Code of 1986 with respect to the tax treatment of payments under life insurance contracts for terminally ill individuals.

S. 2284

At the request of Mr. KASTEN, the name of the Senator from North Dakota [Mr. CONRAD] was added as a cosponsor of S. 2284, a bill to amend the Federal Food, Drug, and Cosmetic Act to define the term light or reduced fat butter, and for other purposes.

S. 2312

At the request of Mr. SYMMS, the name of the Senator from Iowa [Mr. GRASSLEY] was added as a cosponsor of S. 2312, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income payments made by public utilities to customers to subsidize the cost of energy and water conservation services and measures.

S. 2314

At the request of Mr. FOWLER, the names of the Senator from Indiana [Mr. LUGAR], and the Senator from Georgia [Mr. NUNN] were added as cosnponsors of S. 2314, a bill to amend the agriculture Act of 1949 with respect to the level of milk price support in effect for 1991 through 1995.

S. 2315

At the request of Mr. FOWLER, the names of the Senator from Louisiana [Mr. JOHNSTON], and the Senator from Maryland [Ms. MIKULSKI] were added as cosponsors of S. 2315, a bill to amend the Agricultural Act of 1949 to provide soybean producers with fair income and freedom of planting choice support, and to eliminate any indirect subsidization of foreign oilseed production.

S. 2326

At the request of Mr. DECONCINI, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 2326, a bill to amend title 35, United States Code, with respect to patents on certain processes.

S. 2384

At the request of Mr. BOREN, the name of the Senator from Alabama [Mr. SHELBY] was added as a cosponsor of S. 2384, a bill to amend the Internal Revenue Code of 1986 with respect to the treatment of certain real estate activities under the limitations on losses from passive activities.

S. 2385

At the request of Mr. DOMENICI, the name of the Senator from Washington [Mr. GORTON] was added as a cosponsor of S. 2385, a bill to establish the National Forest Foundation.

S. 2408

At the request of Mr. GLENN, the name of the Senator from Illinois [Mr. SIMON] was added as a cosponsor of S. 2408, a bill to establish a system for labeling of plastic resin products, and to promote recycling of plastics and use of degradable plastics.

S. 2415

At the request of Mr. DOMENICI, the names of the Senator from California [Mr. WILSON], and the Senator from Oregon [Mr. HATFIELD] were added as cosponsors of S. 2415, a bill to encourage solar and geothermal power production by removing the size limitations contained in the Public Utility Regulatory Act of 1978.

S. 2491

At the request of Mr. PRESSLER, the name of the Senator from Wyoming [Mr. SIMPSON] was added as a cosponsor of S. 2491, a bill to provide a minimum State share for certain housing programs.

S. 2591

At the request of Mr. BAUCUS, the name of the Senator from Alabama [Mr. SHELBY] was added as a cosponsor of S. 2591, a bill to amend title XVIII of the Social Security Act to provide relief from certain regulations relating to physicians' services.

S. 2614

At the request of Mr. GRASSLEY, the name of the Senator from Oregon [Mr. HATFIELD] was added as a cosponsor of S. 2614, a bill to amend the Public Health Service Act to establish and coordinate research programs for osteoporosis and related bone disorders, and for other purposes.

SENATE JOINT RESOLUTION 267

At the request of Mr. THURMOND, the name of the Senator from Oregon [Mr. PACKWOOD] was added as a cosponsor of Senate Joint Resolution 267, a joint resolution to authorize and request the President to designate May 1990 as "National Physical Fitness and Sports Month."

SENATE JOINT RESOLUTION 271

At the request of Mr. WALLOP, the names of the Senator from Massachusetts [Mr. KENNEDY], the Senator from Rhode Island [Mr. PELL], and the Senator from West Virginia [Mr. BYRD] were added as cosponsors of Senate Joint Resolution 271, a joint resolution to designate July 10, 1990 as "Wyoming Centennial Day."

SENATE JOINT RESOLUTION 278

At the request of Mr. ROCKEFELLER, the names of the Senator from Rhode Island [Mr. PELL], the Senator from Wyoming [Mr. SIMPSON], the Senator from New Jersey [Mr. LAUTENBERG], the Senator from Colorado [Mr. WIRTH], the Senator from Virginia [Mr. WARNER], and the Senator from Florida [Mr. MACK] were added as cosponsors of Senate Joint Resolution 278, a joint resolution designating July

19, 1990 as "Flight Attendant Safety Professionals' Day."

SENATE JOINT RESOLUTION 279

At the request of Mr. SPECTER, the names of the Senator from Alabama [Mr. HEFLIN], the Senator from Kansas [Mrs. KASSEBAUM], the Senator from Wyoming [Mr. SIMPSON], and the Senator from Alabama [Mr. SHELBY] were added as cosponsors of Senate Joint Resolution 279, a joint resolution to designate the week of September 16, 1990, through September 22, 1990, as "National Rehabilitation Week."

SENATE JOINT RESOLUTION 289

At the request of Mr. SIMON, the names of the Senator from New Jersey [Mr. BRADLEY], the Senator from Washington [Mr. GORTON], and the Senator from Maryland [Ms. MIKULSKI] were added as cosponsors of Senator Joint Resolution 289, a joint resolution to designate October 1990 as "Polish American Heritage Month."

SENATE JOINT RESOLUTION 290

At the request of Mr. ARMSTRONG, the names of the Senator from Nevada [Mr. REID], the Senator from Ohio [Mr. METZENBAUM], the Senator from Wyoming [Mr. SIMPSON], and the Senator from Delaware [Mr. ROTH] were added as cosponsors of Senate Joint Resolution 290, a joint resolution to designate the week of July 22, 1990, through July 28, 1990, as the "National Week of Recognition and Remembrance for Those Who Served in the Korean War.

SENATE JOINT RESOLUTION 304

At the request of Mr. SHELBY, the names of the Senator from Oregon [Mr. PACKWOOD], the Senator from Michigan [Mr. LEVIN], and the Senator from Alaska [Mr. MURKOWSKI] were added as cosponsors of Senate Joint Resolution 304, a joint resolution to designate October 17, 1990, as "National Drug-Free Schools and Communities Education and Awareness Day."

SENATE JOINT RESOLUTION 306

At the request of Mr. SIMON, the names of the Senator from Illinois [Mr. DIXON], the Senator from South Carolina [Mr. THURMOND], the Senator from Alabama [Mr. SHELBY], the Senator from Oklahoma [Mr. BOREN], and the Senator from Hawaii [Mr. INOUYE] were added as cosponsors of Senate Joint Resolution 306, a joint resolution to designate the period commencing October 21, 1990, and ending October 27, 1990, as "National Humanities Week."

SENATE CONCURRENT RESOLUTION 126

At the request of Mr. PELL, the name of the Senator from North Carolina [Mr. SANFORD] was added as a cosponsor of Senate Concurrent Resolution 126, a concurrent resolution calling for a United States policy of promoting the continuation, for a minimum of an additional 10 years, of the International Whaling Commission's moratorium on the commerical killing of whales, and otherwise expressing the sense of the Congress with respect to conserving and protecting the world's whale population.

AMENDMENT NO. 1613

At the request of Mr. BOREN, the name of the Senator from Iowa [Mr. HARKIN] was added as a cosponsor of amendment No. 1613 intended to be proposed to S. 137, a bill to amend the Federal Election Campaign Act of 1971 to provide for a voluntary system of spending limits and partial public financing of Senate general election campaigns, to limit contributions by multicandidate political committees, and for other purposes.

## SENATE CONCURRENT RESOLUTION 131—URGING FREE AND FAIR ELECTIONS AND RESPECT FOR HUMAN RIGHTS IN ROMANIA

Mr. DOLE (for himself, Mr. LAUTENBERG, Mr. ARMSTRONG, Mr. LUGAR, Mr. HELMS, and Mr. DODD) submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 131

Whereas in December 1989, after decades of harsh repression by successive Communist regimes, the people of Romania launched a spontaneous, nationwide revolution to overthrow the brutal dictatorial regime of Nicolae Ceausescu and establish true democracy;

Whereas, after several days of violent fights, an interim government, calling itself the National Salvation Front, supported by most of the Romanian armed forces, and manned principally by members of former Communist administrations, established control in Romania;

Whereas the National Salvation Front has scheduled national elections for May 20, 1990, and promised that the elections will be free and fair, and new political forces have emerged across a broad ideological spectrum and made vigorous efforts to organize themselves into parties and other political groups to compete in those elections;

Whereas the National Salvation Front announced that it will also compete in the elections as a party and has used its dominant position to gain advantage by using its control of communications, transportation, and access to media;

Whereas there are disturbing signs of the use of intimidation and violence in the election campaign, including pro-Front mob attacks on opposition candidates and rallies and, at the same time, extremist groups have initiated attacks on the country's minorities and several individuals of the Hungarian minority have been killed and scores injured in street violence initiated in response to the minorities' peaceful efforts to organize and assert their rights;

Whereas provision of the unfettered freedom of speech, press, religion, and assembly is essential to building democratic institutions and developing a democratic tradition with regular free and fair elections; and

Whereas as a sign of its concern over organized acts of intimidation and harassment in the Romanian election campaign, the Government of the United States has recalled its ambassador from Bucharest, Romania, for consultations, Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That (a) the Congress hereby—

(1) congratulates the people of Romania for their courage and heroism which led to the fall of the Communist dictatorship of Nicolae Ceausescu and for beginning the process for the establishment of true democracy in Romania; and

(2) condemns recent acts of violence against election candidates and minority leaders in Romania and urges the interim government to safeguard public order and to assure the conditions for free and fair elections, including the right of free political organization and campaigning and the physical safety of candidates, minorities, and voters.

(b)(1) It is the sense of Congress that the Government of the United States should withhold most favored nation (MFN) trade treatment and other economic benefits from Romania, except for humanitarian assistance, until free and fair elections result in a government that offers institutional guarantees to protect fundamental human rights, including the rights of ethnic and religious minorities.

(2) For purposes of this subsection, the term "humanitarian assistance" includes the provision of food, clothing and medicine.

Mr. DOLE. Mr. President, in a few days, on May 20, Romania will hold its first elections in more than four decades. Today, I am pleased to submit a concurrent resolution that is intended to send a strong message of support to the Romanian people as they prepare for this monumental event in their history. Their suffering for so many years has touched the hearts of the entire world.

At the outset, I want to stress two things. First, despite the fact that the election is only a few days away, I am not seeking immediate Senate action on this concurrent resolution.

I want it to go to the appropriate committee, Foreign Relations. I want that committee—its members and staff experts—to take a close look at it.

As I recently indicated in comments on another resolution, I think we ought to proceed more judiciously on all but the most routine kind of resolutions, to make sure we are not inadvertantly taking the wrong kind of action, or sending the wrong kind of signal.

I wish we could have put this resolution in earlier. We have been working on it for some time. But the situation in Romania has changed so quickly, and deteriorated so badly in the past 2 weeks, that we have had to revamp the text.

I do think, in this case, the Foreign Relations Committee, and other Senators who look at this resolution, will find it is something they can embrace.

I am pleased, in fact, that three key members of Foreign Relations—our ranking member, Senator HELMS; Senator LUGAR; and Senator DODD—are co-

sponsors. Their staff personnel have worked closely with mine, and the staff of Senator ARMSTRONG and Senator LAUTENBERG—the other original cosponsors—to develop this language.

An editorial in yesterday's Washington Post indicates, there is also widespread public and media concern about events in Romania—concern which tracks exactly with the points raised in our resolution.

So I hope and expect that the committee, and the overwhelming majority of Senators, will share the views we have expressed here.

In any case, whether or not the committee and the full Senate see fit and have the opportunity to act before Sunday's election, we do hope that introducing this legislation will send a signal to Romania of our concern on the important issues we raise.

Only 4 months ago, the people of Romania took matters into their own hands and waged a campaign to remove the Communist dictatorship of Nicolae Ceausescu. They were successful.

The group who ousted Ceausescu quickly formed an interim regime and has made efforts to reestablish public order. They call themselves the National Salvation Front and are principally former members of the Ceausescu administration.

Their President, Mr. Iliescu, has promised that the May elections will be free and fair.

But Mr. Iliescu is clearly not doing all he should to ensure that a free and fair election can occur. And some of his supporters are actually using violence, and other means of intimidation and harassment, to frustrate the election process itself, to ensure their own victory. Angry mobs have attacked opposition candidates, causing fear and intimidation. Press reports have identified these attackers as supporters of Mr. Iliescu.

Whether we blame Mr. Iliescu personally or not for these attacks, it is clearly the current government's responsibility to create a climate conducive for free and fair elections to take place. Mr. Iliescu needs to take off his campaign hat and put on his head of state hat, and work to ensure that the opposition parties have an equal opportunity to be heard.

But that is just not happening; yesterday's Washington Post said:

> That the front's newspapers arrive without fail throughout the country, while the newspapers that contain opposition party information are always late, if they arrive at all.

The Post continued with:

> One state-controlled distribution system handles all the papers. The Liberals and the peasants have been prohibited by the Front from bringing in additional presses or installing their own television transmitters.

The Front is also, according to the Post, "accused of slanting the television news on the one state-controlled channel."

Further, the Post states that:

> The most demoralizing suspicion is that the secret police force of Ceausescu, the Securitate which numbered between 10,000 and 20,000, has not been fully disbanded and is being used by the Front. Accusations abound of tapped telephones, threatening calls and other forms of harrassment.

On Thursday, we recalled our Ambassador from Bucharest, citing concern over reports on irregularities in the campaign. This action had an impact on Romanian rulers.

Western reports from Bucharest said that the United States action has angered and embarassed Romania's rulers. Another report said that Romania's rulers found our action hard to understand.

If our actions are hard to understand, something more may be needed. Thus, I am introducing this concurrent resolution today.

This resolution clearly spells out the seriousness of our concerns.

It states that the Government of the United States should withhold most favored-nation status and other economic benefits from Romania, except for humanitarian aid, until free and fair elections result in a government that gives institutional guarantees of its determination to implement fundamental human rights, including the rights of ethnic and religious minorities.

We want Romania to succeed in its struggle to shake off the shackles of Communist rule, and we want to help. But we must see the new Romanian Government acting on its own pledge to democratize and respect human rights, before we can move toward the closer relationship with the Romanian people which we sincerely want.

The State Department has expressed some concerns about some of the wording in this resolution.

We will be happy to work with the administration to find language consistent with the spirit of our resolution which addresses their concerns.

I am certain when it goes to the Foreign Relations Committee, and the chairman is here, they will review this carefully and try to work out any language that the administration wants and perhaps it will probably not be possible to act on the resolution before Sunday's election but maybe it can be rephrased and redrafted to have the same kind of an impact even though it may be passed sometime next week or thereafter.

Mr. DOLE. Mr. President, I send the resolution to desk and ask for its appropriate referral.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. PELL. Mr. President, I am glad to assure the minority leader we will consider the resolution, and I appreciate his courtesy in letting it come through the committee. We are going to act as quickly as we can to work out matters.

Mr. DOLE. I thank the chairman.

Mr. LAUTENBERG. Mr. President, I rise as an original cosponsor of the concurrent resolution. As greatly as I admire the courage displayed by the Rumanian people in their struggle for democracy, I cannot at present condone the granting of most-favored-nation status or other economic benefits to the Illiescu government until it guarantees the very basic conditions necessary for a free and functioning democracy.

The Rumanian people stand on the threshold of a historic opportunity to define the sort of society they want for themselves and for future generations of Rumanians. One road is a return to the Ceausescu nightmare of repression and ethnic hatred, with its companions of violence and backwardness. The Rumanians suffered 40 years of this horror and I do not think they will vote for more of it.

A far more attractive path for Rumania's new political life is to follow the democratic tradition of free and fair elections, of human rights and respect for minorities. I believe it was this vision of the future which inspired the Rumanians who cast out the Ceausescu family regime. But throwing out the dictator isn't enough to create a democracy. Democracy can't work for the Rumanian people, or for anyone, if certain conditions aren't met. Candidates for public office must be able to move freely among the electorate, without fear of violence directed against them or their followers. Citizens must be free to speak their minds openly and to seek the truth about their leaders.

There are disturbing signs that this isn't always the case in Rumania. Opposition candidates have been roughed up by what appear to be organized gangs of the current regime's supporters. Opposition candidates and even their family members are the targets of frightening threats. There are reports of tapped telephones and manipulated demonstrations. The free flow of information to the Rumanian voters is hobbled by an unfair distribution system of publications and a biased coverage of campaigns by the government-controlled television network. Fear, violence and repression were not banished from Rumanian life when the dictator died, nor have they vanished from Rumania's political life.

Respect for human rights, including the rights of racial, religious and ethnic minorities is a basic prerequisite for a vibrant, healthy democratic society. The most disturbing reports reaching me about the current situation in Rumania are of communal violence against ethnic Hungarians by some of the Rumanian majority. For a

democracy to work, its citizens must feel safe. I cannot believe that ethnic Hungarians feel safe in some parts of Rumania today.

In the Transylvanian town of Tirgu Mures, the same mobs which attacked ethnic Hungarians also destroyed the local headquarters of two opposition parties. The ringleaders of the mob who did this fear diversity of any sort. They fear their nation's ethnic diversity and they fear the political diversity which Rumanians are embracing after the brutal repression of the Ceausescu government.

Mr. President, I see very promising signs that the majority of the Rumanian people are rejecting this fear and repression. In the days following the ethnic violence in Tirgu Mures, local Rumanian townspeople joined their ethnic Hungarian neighbors in solidarity demonstrations against violence. The army tanks which separated warring ethnic factions are long gone, as are many of the local officials who stood by with idle hands while the mobs rampaged. Political leaders from Rumania's fledgling political parties have all made public statements deploring the violence.

It may be that the Rumanian people will emerge from this latest crisis stronger than ever. Indeed, there are heartening signs that this is happening: hundreds of new national and local publications have cropped up, and seem to be reaching people, despite the hostility of the government-controlled distribution system. Vigorous debate takes place among the members of the provisional parliament and is broadcast on television. Parties have secured facilities and posted candidate lists, and central and local election commissions are in place. These are fine first steps for the Rumanian people. But there must be more if democracy is going to thrive in their country.

The interim government of President Illiescu must safeguard the public order until a new government can take over. It must assure that the basic conditions of a free and fair election are met, including the physical security of the opposition candidates, minority representatives and voters. Until free and fair elections result in a government which guarantees fundamental human rights to all the people of Rumania, including ethnic and religious minorities, the United States should withhold most-favored-nation status from Rumania and should not provide aid beyond basic humanitarian aid.

I urge my colleagues to pass this resolution and send that message to the people and to the government of Rumania.

## SENATE CONCURRENT RESOLUTION 132—RELATIVE TO THE OBSERVANCE OF 1890 LAND-GRANT INSTITUTIONS CENTENNIAL RECOGNITION DAY

Mr. HEFLIN submitted the following concurrent resolution; which was referred to the Committee on Labor and Human Resources:

S. CON RES. 132

Whereas the Act of August 30, 1890 (7 U.S.C. 321), popularly known as the "Second Morrill Act", designated an historically black institution in 16 southern States, and Tuskegee University, as Federal land-grant educational institutions;

Whereas the 16 Historically Black Colleges identified as land-grant institutions in 1890 are Lincoln University, Alcorn State University, the University of Arkansas at Pine Bluff, Alabama A&M University, Prairie View A&T University, Southern University, Virginia State University, Kentucky State University, the University of Maryland-Eastern Shore, Florida A&M University, Delaware State College, North Carolina A&T University, Fort Valley State College, South Carolina State College, Langston University, and Tennessee State University;

Whereas these institutions have well demonstrated their ability to meet the special needs of black students;

Whereas the Act of May 8, 1914 (7 U.S.C. 341), popularly known as the "Smith-Lever Act", provided for the establishment of the Cooperative Extension Service within the Department of Agriculture for the dissemination, through Federal land-grant institutions, of information pertaining to agriculture and home economics; and

Whereas appropriate recognition should be given to the contributions made by the 1890 land-grant institutions and Tuskegee University of the heritage, educational development, and argicultural strength of the United States: Now, therefore, be it.

*Resolved by the Senate (the House of Representatives concurring),* That it is the sense of the Congress that August 30, 1990, should be designated as "1890 Land-Grant Institutions Centennial Recognition Day", and that such day should be observed with appropriate ceremonies and activities to recognize the collective contributions that those institutions have made to the United States.

● Mr. HEFLIN. Mr. President, on August 30, 1890, President Benjamin Harrison approved the Second Morrill Act which provided for the more complete endowment and maintenance of colleges for the benefit of agriculture and mechanical arts established in accordance with the act of July 2, 1862. The act provided further that funds be applied only to instruction in agriculture, the mechanical arts, the English language, and the various branches of mathematical, physical, natural, and economic science, with special reference to their applications in the industries of life, and to the facilities for such instruction.

The First Morrill Act, passed in 1862, established a means for Federal contributions to the support of a college or university in each of the States. The Second Morrill Act extended the benefits of the land-grant institution to the black population of 16 Southern States. It did so by designating a traditionally black institution in each of these States, and Tuskegee University—then Tuskegee Institute—as a land-grant institution. Today these 17 institutions are commonly referred to as the 1890's.

The role and work of the 1890's has not been an easy one. It's a story of slow starts and minimal resources, of courageous efforts and historic advances. Yet, over the years, they persevered and progressed from little more than secondary schools, to providing the bulk of black teacher training up to the 1960's, and, in cooperation with the other land-grant institutions, to extend the benefits of the cooperative extension system to the black population of their respective States.

Today, 100 years after the Second Morrill Act, the 17 1890's provide a comprehensive higher education to more than 70,000 students, black and nonblack, domestic and foreign. They conduct research on significant agricultural and rural issues, and extend the benefits of the land-grant university system to needy residents throughout their 16 States.

Not only have the 1890's demonstrated a unique capability for understanding problems confronting minority races and disadvantaged groups, but they have also shown they possess the motivation, training, ability and desire to work toward solution or problems facing our entire society.

It is an honor for me to join my Senate colleagues in commemorating the hard, 100 year road followed by the institutions established by the Second Morrill Act, the 1890's their educational and service leadership to blacks, and other disadvantaged Americans, is a contribution we should all be very proud of.●

## SENATE CONCURRENT RESOLUTION 133—AUTHORIZATION USE OF THE CAPITOL ROTUNDA

Mr. SIMPSON (for Mr. DOLE, for himself and Mr. MITCHELL) submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 133

Whereas America can never forget the sacrifices of our brave military heroes: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That the rotunda of the Capitol may be used on Thursday, May 24, 1989, at 10:30 a.m., to allow the assembling of members of Congress for ceremonies celebrating American Military Heroism.

SEC. 2. The Architect of the Capitol may prescribe conditions for physical preparations with respect to the use of the rotunda authorized by the first section.

## SENATE RESOLUTION 287—RELATIVE TO MEDIATION IN THE ETHIOPIAN CIVIL WAR

Mr. METZENBAUM (for himself, Mr. DOLE, Mr. SIMPSON, Mr. MURKOWSKI, Mr. PELL, Mr. LUGAR, Mr. SIMON, Mr. MCCLURE, and Mr. BOREN) submitted the following resolution; which was considered and agreed to:

S. RES. 287

Whereas the likelihood of devastating famine is facing the Horn of Africa, and specifically Ethiopia, for the second time in five years;

Whereas international relief agencies' attempts to respond to this crisis are being hampered by the nearly thirty-year old Ethiopian civil war;

Whereas parties to the Ethiopian dispute have manipulated famine relief supplies in order to achieve their own goals;

Whereas several non-African parties have used their good offices in pursuit of peace in Ethiopia, although with little success as yet;

Whereas the Arab Republic of Egypt currently occupies the Chairmanship of the Organization of African Unity;

Whereas the Arab Republic of Egypt has demonstrated the efficacy of O.A.U. mediation in regional conflicts;

Whereas the search for peace in the Horn of Africa generally, and in Ethiopia in particular, would be facilitated by diplomatic intervention on the part of the Organization of African Unity: Now, therefore, be it

*Resolved,* That it is the sense of the Senate that—(1) the Organization of African Unity should actively promote solutions to regional African problems; (2) the O.A.U. should seek an immediate cessation of hostilities in Ethiopia in order that famine relief efforts should be allowed to proceed, and to build the foundation for a permanent settlement of the Ethiopian civil war.

## AMENDMENTS SUBMITTED

### CHEMICAL AND BIOLOGICAL WEAPONS CONTROL ACT

### McCAIN AMENDMENT NO. 1634

Mr. McCAIN proposed an amendment to the bill (S. 195) entitled the "Chemical and Biological Weapons Control Act of 1989", as follows:

On page 14, line 3, after the word "weapons", insert the phrase:

On page 14, after line 3, insert the following:

SEC. 20 ENFORCEMENT OF INTERNATIONAL CONTROLS ON MISSILE TECHNOLOGY.

(a) DETERMINATION BY THE PRESIDENT.—The President shall impose one or more of the applicable sanctions prescribed in section (b) in any case in which the President determines there is reliable evidence—

(1) in the case of a United States period, that the person—

(A) is exporting, transferring, or otherwise engaging in the trade of any internationally controlled missile technology in violation of the provisions of section 38 of the Arms Export Control Act (22 U.S.C. 2778), section 5 or 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404, 2405), or any regulations issued under any such provisions;

(B) is conspiring to or attempting to engage in the export, transfer, or trade of such technology in violation of any provision of law or regulation referred to in subparagraph (A), or

(C) is knowingly facilitating the export, transfer, or trade by any other person of such technology in violation of any provision of law or regulation referred to in subparagraph (A);

(2) in the case of a foreign person, that the person—

(A) is exporting, transferring, or otherwise engaging in the trade of any internationally controlled missile technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such person exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation;

(B) is conspiring to or attempting to engage in the export, transfer, or trade of any such technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such person exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation; or

(C) is knowingly facilitating the export, transfer, or trade by any other person of any such technology for which an export license would be denied if such export, transfer, or trade were subject to the provisions of law and regulations referred to in paragraph (1)(A) and such person exported, transferred, or otherwise engaged in the trade of such technology in violation of any such provision of law or regulation; or

(3) in the case of a developing country, that such country—

(A) is importing internationally controlled missile technology; or

(B) is equipping its armed forces with new or additional types of missile systems or other weapons delivery systems configured to use weapons of mass destruction.

(b) SANCTIONS.—(1) The sanctions applicable to a United States person under subsection (a) are the following:

(A) Denial of all export licenses under section 38 of the Arms Export Control Act (22 U.S.C. 2778) and sections 5 and 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404 and 2405).

(B) Prohibition on all contracting with, and the procurement of any product or service from, such person by any department, agency, or instrumentality of the United States Government.

(C) In any case in which the President determines that the acts of the person are not destabilizing and that the person has not previously committed any act described in subsection (a), the sanctions specified in subparagraphs (A) and (B) shall apply, but only with respect to internationally controlled missile technology.

(2) The sanctions applicable to a foreign person under subsection (a) are the following:

(A) Denial of the issuance of any export license under section 38 of the Arms Export Control Act (22 U.S.C. 2778) or section 5 or section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2404, 2405) if the foreign person is the designated consignee or end-user in the application for such export license or if the President has reason to believe that the foreign person will benefit from the issuance of such export license.

(B) Prohibition on all contracting with, and the procurement of any product or service from, such foreign person by any department, agency, or instrumentality of the United States Government.

(C) In any case in which the President determines that the acts of the person are not destabilizing and that the person has not previously committed any act described in subsection (a), the sanctions specified in subparagraphs (A) and (B), but only with respect to internationally controlled missile technology.

(3) The sanctions applicable to a developing country under subsection (a) are the following:

(A) Denial of some or all technical assistance in aviation, electronics, missiles, or space systems or space-related equipment under the control of the United States Government.

(B) Denial of the transfer of all or selected technology in aviation, electronics, missiles, or space systems or space-related equipment under the control of the United States Government, except for items the export of which to a controlled country (within the meaning of the Export Administration Act of 1979) would require only notification of the participating governments of the Coordinating Committee on Export Controls.

(c) EXCEPTIONS.—Paragraphs (1)(B) and (2)(B) of subsection (b) shall not apply with respect to any contract that provides for the supply of products or services valued at whichever is the lesser of—

(A) $20,000 of the value in the case of a finished commodity; or

(B) 3 percent of the average unit cost in the case of a finished commodity.

(d) TERM OF SANCTION.—Sanctions under this section shall be imposed for a period of not less than two years and not more than five years.

(e) WAIVER.—The President may waive the imposition of sanctions on a United States person, foreign person, or a developing country under subsection (a) with respect to a product or service if the President submits to Congress a certification that—

(1) the product or service is essential to the national security of the United States;

(2) the person or country is a sole source supplier of the product or service, the product or service is not available from any alternative reliable supplier, and the need for the product or service cannot be met from another source in a timely manner by improved manufacturing processes or technological developments; and

(3) the United States Government is the end-user of the product or service.

(f) INAPPLICABILITY TO PERSONS COMPLYING WITH FOREIGN LAW.—Subsection (a) shall not apply to any export, transfer, or other trade activity carried out in good faith by any person if (1) the export, transfer, or other trade activity is in compliance with the laws of the country from which the export, transfer, or other activity is being carried out, and (2) that country controls the export of internationally controlled missile technology pursuant to an international agreement to which the United States is a party.

(g) SUSPENSION OF SANCTIONS.—The President may suspend all or part of any sanctions that have been imposed under this section against a person on account of acts described in subsection (a) if a country that controls the export of internationally controlled missile technology pursuant to an international agreement to which the United States is a party is taking judicial or other enforcement action against that

person on account of those acts. The President may terminate the sanctions if the President determines that, pursuant to that country's enforcement action, the person has been found not to have committed those acts or has been severely punished under that country's laws on account of those acts.

On page 25, after line 4, insert the following:

"(3) The term "developing country" does not include any member of the political organ of the North Atlantic Treaty Organization (NATO), any member of the Warsaw Treaty Organization, Austria, Australia, Israel, Japan, New Zealand, or Switzerland."

---

## McCAIN AMENDMENT NO. 1635

Mr. McCAIN proposed an amendment to the bill S. 195, supra, as follows:

Strike section 106 and insert in lieu thereof the following:

SEC. 106. SEMI-ANNUAL REPORTS ON THE PROLIFERATION OF MISSILES CAPABLE OF DELIVERING WEAPONS OF MASS DESTRUCTION AND ON THE PROLIFERATION OF BIOLOGICAL WEAPONS, CHEMICAL WEAPONS, AND NUCLEAR WEAPONS.

(a) REPORTS.—Not later than 90 days after the date of enactment of this Act, and every 180 days thereafter, the President shall submit to Congress a report described in subsection (b).

(b) CONTENTS OF REPORT.—Each report under subsection (a) shall—

(1) describe in detail the efforts of all foreign countries to acquire biological weapons, chemical weapons, nuclear weapons, and long-range missiles and destabilizing offensive aircraft and to acquire the material and technology to produce and deliver such weapons;

(2) include an assessment of the present and future capability of those countries to produce and deliver such weapons;

(3) include a determination of whether and to what degree any Communist-bloc country has assisted any foreign country in its efforts to acquire any weapons system, aircraft, material, or technology referred to in paragraph (1);

(4) identify—

(A) each person who in the past has assisted any foreign country in those efforts; and

(B) each person who continues to assist any foreign country in those efforts as of the date of the report;

(5) indicate whether any person included on the list referred to in paragraph (3)(A) or (3)(B) was aware that the assistance provided by that country was for the purpose of developing biological weapons, chemical weapons, nuclear weapons, or a long-range missile or offensive aircraft;

(6) include any confirmed or credible intelligence or other information that indicates that a non-Communist country has provided assistance in developing biological weapons, chemical weapons, nuclear weapons, or long-range missiles or offensive aircraft to another country, either directly by selling to such foreign country biological weapons, chemical weapons, nuclear weapons, or missiles or aircraft or indirectly by facilitating the activity of a person included on a list referred to in paragraph (3)(A) or (3)(B), but took no action to halt or discourage such activity.

(c) PROTECTION OF CLASSIFIED AND INTELLIGENCE INFORMATION.—Classified portions of any report prepared under this section may be issued in a separate annex to the report. In addition, the President may, with respect to the matters addressed in any such report, limit the transmission of intelligence information to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives if the President determines that such information could disclose intelligence sources and methods.

(d) EXCLUDED INFORMATION.—If the President, consistent with subsection (c), decides not to list any person or country in that part of the report required under paragraphs (3) and (5) of subsection (b) that would have otherwise been listed, the President shall include that fact in the report and his reasons for not listing the person or country.

---

## PELL AMENDMENT NO. 1636

Mr. PELL proposed an amendment to amendment No. 1635 proposed by Mr. McCAIN to the bill S. 195, supra, as follows:

In lieu of the matter proposed to be inserted, insert the following:

SEC. 106. PRESIDENTIAL REPORTS.

Not later than 90 days after the date of enactment of this Act, and every 12 months thereafter, the President shall submit to the Speaker of the House of Representatives and the President of the Senate, a report—

(1) detailing efforts by countries or subnational groups that threaten United States security interests or regional stability (including efforts by Iran, Iraq, Libya, and Syria and other developing countries or subnational groups) to acquire the materials and technology to develop, produce, stockpile, and deliver chemical, biological or nuclear weapons, together with an assessment of the present and future capabilities of such countries or subnational groups to develop produce, stockpile and deliver chemical, and biological or nuclear weapons.

(2) describing the degree to which any country or foreign person has aided or abetted the government of any country or a subnational group to engage in any activity in connection with the acquisition of any such chemical biological and nuclear weapons and

(3) listing all United States persons against whom administrative, civil, or criminal penalties have been applied for shipment of goods and technology controlled for chemical, biological and nuclear weapons proliferation purposes pursuant to the Export Administration Act of 1979 or the Arms Export Control Act.

To the extent practicable, reports submitted pursuant to this section should be based on unclassified information. Portions of each such report may be classified.

---

## McCAIN AMENDMENT NO. 1637

Mr. McCAIN proposed an amendment to the bill S. 195, supra, as follows:

On page 2, line 24, after the word "carrying", insert the phrase: "nuclear,"

On page 3, line 1, after the word "of", insert the phrase: "nuclear,"

On page 3, line 9, after the word "a", insert the phrase: "nuclear,"

On page 3, line 13, after the word "of", insert the phrase: "nuclear,"

On page 3, line 18, after the word "use", insert the phrase: "nuclear,"

On page 3, line 19, after the word "use", insert the phrase: "nuclear,"

On page 3, line 25, after the word "deliver", insert the phrase: "nuclear,"

On page 4, line 3, after the word "to", insert the phrase: "nuclear,"

On page 4, line 6, after the word "with", insert the phrase: "nuclear,"

On page 4, line 14, after the word "a", insert the phrase: "nuclear,"

On page 4, line 17, after the word "of", insert the phrase: "nuclear,"

On page 4, line 24, after the word "used", insert the phrase: "nuclear,"

On page 5, line 3, after the word "used", insert the phrase: "nuclear,"

On page 5, line 4, after the word "used", insert the phrase: "nuclear,"

On page 5, line 14, after the word "used", insert the phrase: "nuclear,"

On page 5, line 15, after the word "used", insert the phrase: "nuclear,"

On page 6, line 9, after the word "of", insert the phrase: "nuclear,"

On page 6, line 14, after the word "used", insert the phrase: "nuclear,"

On page 6, line 16, after the word "used", insert the phrase: "nuclear,"

On page 8, line 19, after the word "of", insert the phrase: "nuclear,"

On page 8, line 11, after the word "of", insert the phrase: "nuclear,"

On page 9, line 11, after the word "using", insert the phrase: "nuclear,"

On page 9, line 12, after the word "using", insert the phrase: "nuclear,"

On page 9, line 21, after the word "using", insert the phrase: "nuclear,"

On page 9, line 22, after the word "using", insert the phrase: "nuclear,"

On page 10, line 19, after the word "of", insert the phrase: "nuclear,"

On page 10, line 21, after the word "of", insert the phrase: "nuclear,"

On page 10, line 25, after the word "of", insert the phrase: "nuclear,"

On page 11, line 2, after the word "of", insert the phrase: "nuclear,"

On page 12, line 22, after the word "to", insert the phrase: "nuclear,"

On page 13, line 2, after the word "carrying", insert the phrase: "nuclear,"

On page 13, line 15, after the word "uses", insert the phrase: "nuclear,"

On page 13, line 21, after the word "a", insert the phrase: "nuclear,"

On page 14, line 2, after the word "of", insert the phrase: "nuclear,"

On page 14, line 7, after the word "of", insert the phrase: "nuclear,"

On page 14, line 18, after the word "use", insert the phrase: "nuclear,"

On page 14, line 23, after the word "(q)", insert the phrase: "nuclear,"

On page 15, line 3, after the word "deliver", insert the phrase: "nuclear,"

On page 16, line 8, after the word "acquire", insert the phrase: "nuclear,"

On page 16, line 11, after the word "used", insert the phrase: "nuclear,"

On page 16, line 13, after the word "used", insert the phrase: "nuclear,"

On page 20, line 14, after the word "acquire", insert the phrase: "nuclear,"

On page 20, line 17, after the word "used", insert the phrase: "nuclear,"

On page 20, line 19, after the word "used", insert the phrase: "nuclear,"

---

## HEINZ AMENDMENT NO. 1638

Mr. HEINZ proposed an amendment to the bill S. 195, supra, as follows:

At the end of section 201, add the following and redesignate succeeding sections accordingly:

It is also the policy of the United States to strengthen efforts to control chemical agents, precursors, and equipment by taking all appropriate multilateral diplomatic measures—

(1) to continue to seek a verifiable global ban on chemical weapons at the 40 nation Conference on Disarmament in Geneva;

(2) to undertake a diplomatic initiative to strengthen the Australia Group's objectives to support the norms and restraints against the spread and the use of chemical warfare, advance the negotiation of a comprehensive ban on chemical warfare by taking appropriate measures, and to protect the Group's domestic industries against inadvertent association with supply of feedstock chemical equipment that could be misused to produce chemical weapons;

(3) to implement paragraph (2) by introducing steps complementary to, and not mutually exclusive of, existing multilateral efforts seeking a verifiable ban on chemical weapons, such as the establishment of—

(A) a permanent secretariat,

(B) a harmonized list of export control rules and regulations to prevent relative commercial advantage and disadvantages accruing to Australia Group members,

(C) liaison officers to the secretariat from within the diplomatic missions,

(D) a close working relationship between the Group and industry,

(E) a public unclassified warning list of controlled chemical agents, precursors, and equipment,

(F) information-exchange channels of suspected proliferants,

(G) a "denial" list of firms and individuals who violate the Group's export control provisions, and

(H) broader cooperation between the Australia Group and other countries whose political commitment to stem the proliferation of chemical weapons is similar to that of the Group; and

(4) to adopt the imposition of stricter controls on the export of chemical agents, precursors, and equipment and to adopt tougher multilateral sanctions against firms and individuals who violate these controls or against countries that use chemical weapons.

SEC. 202. PRINCIPLES GUIDING THE ADOPTION OF A MULTILATERAL EXPORT CONTROL SYSTEM.

(a) IN GENERAL.—The United States Government should propose to the Australia Group that its objectives should be guided by taking all appropriate measures—

(1) to ensure that the measures are effective in impeding the production of chemical weapons,

(2) to ensure that the measures are easy and economical to implement, and that they are practical; and

(3) to ensure that the measures do not impede the normal trade of chemicals and equipment used for legitimate purposes.

(b) DEFINITIONS.—For the purpose of section 201 and this section, the term "Australia Group" means the group of nineteen OECD nations dedicated to the control of the export of certain chemicals, including Australia, New Zealand, Austria, Belgium, Denmark, Canada, Japan, Norway, United States, United Kingdom, Federal Republic of Germany, France, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Luxembourg, and Switzerland.

## COATS (AND METZENBAUM) AMENDMENT NO. 1639

Mr. COATS (for himself, Mr. FORD, Mr. METZENBAUM, and Mr. LEVIN) proposed an amendment to the bill S. 195, supra, as follows:

On page 25, immediately after line 4, add the following:

### TITLE III—TREATMENT AND DISPOSAL OF SOLID WASTE

SEC. 301. SOLID WASTE.

(a) UNLAWFUL ACT.—It is unlawful for any person to ship or transport or cause to be shipped or transported any solid waste generated within a State into another State for its treatment or disposal therein, if such shipment or transportation into a State is in violation of the laws of that State.

(b) STATE LAWS.—Each State is authorized to enact and enforce laws regulating the treatment and disposition of solid waste within such State, including laws imposing a ban on the importing into such State or any part thereof, of solid waste for its treatment or other disposition, laws otherwise regulating the importing into such State of solid waste for its treatment or other disposition, and laws imposing and collecting fees or other charges in connection with the treatment and disposition within such State of solid waste generated in another State.

(c) VIOLATIONS.—Any person violating subsection (a) of this section shall, for the first such violation, be fined not more than $35,000, and for a second or subsequent violation, such person shall be fined not more than $70,000, or imprisoned for not more than 10 years, or both.

(d) EFFECTIVE DATE.—The foregoing provisions of this section shall take effect upon the expiration of the 12-month period following the date of the enactment of this Act.

SEC. 302. REPORTING.

(a) REGULATIONS.—Within the 180-day period following the date of the enactment of this Act, the Administrator of the Environmental Protection Agency, by regulation, shall establish a program pursuant to which each person who transports or ships or causes to be transported or shipped in interstate commerce any solid waste in excess of 100 pounds shall be required to prepare and submit to the Administrator, on an annual basis, a registration statement. Such statement shall include such person's name, principal place of business, the location of each activity handling solid waste, and a complete list and quanitities of all solid waste transported or shipped in interstate commerce during the calendar year preceding such statement.

(b) PUBLIC AVAILABILITY.—The Administrator shall make such registration statements available, upon request, to the public.

SEC. 303. DEFINITIONS.

As used in this title, the term—

(1) "person" includes any State or political subdivision of a State or any individual, corporation, or other legal entity;

(2) "solid waste" shall have the same meaning as that provided in section 1004(27) of the Solid Waste Disposal Act; and

(3) "interstate commerce" shall have the same meaning as that provided in section 10 of title 18, United States Code.

## D'AMATO (AND DECONCINI) AMENDMENT NO. 1640

Mr. D'AMATO (for himself and Mr. DECONCINI) proposed an amendment to the bill S. 195, supra, as follows:

At the end of the bill, add the following new title:

### TITLE III—IRAQ SANCTIONS

SEC. 301. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) indisputable evidence exists that Iraq used chemical weapons both in its war with Iran and against its own Kurdish minority;

(2) Iraq has sought through means legal and illegal to acquire the technology necessary to develop and build nuclear weapons;

(3) Iraq has flouted its obligations under the Geneva Convention and the Nuclear Non-Proliferation Treaty;

(4) Iraq has failed to ratify the Convention on Biological Weapons and may be developing such weapons; and

(5) President Hussein has threatened, without provocation, to destroy the State of Israel by using chemical weapons.

SEC. 302. RESTRICTION ON ASSISTANCE FOR IRAQ.

(a) RESTRICTION ON ASSISTANCE.—Unless the President certifies to the Congress that the Government of Iraq has opened suspect sites to international inspection and ratified the Convention on Biological Weapons, no United States assistance (including funds appropriated before the date of enactment of this title) may be furnished for Iraq.

(b) DEFINITION.—For the purposes of this section, the term "United States assistance" means assistance of any kind which is provided by grant, sale, loan, lease, credit, guaranty, or insurance, or by any other means, by any agency or instrumentality of the United States Government to any foreign country, including—

(1) assistance under the Foreign Assistance Act of 1961 (including programs under title IV of chapter 2 of part I of such Act);

(2) sales, credits, and guaranties under the Arms Export Control Act;

(3) sales under title I or III and donations under title II of the Agricultural Trade Development and Assistance Act of 1954 of nonfood commodities;

(4) other financing programs of the Commodity Credit Corporation for export sales of nonfood commodities; and

(5) financing under the Export-Import Bank Act of 145.

SEC. 303. SUSPENSION OF MULTILATERAL ASSISTANCE.

Unless the President makes the certification described in section 302(a), the Secretary of the Treasury shall instruct the United States executive directors of the International Monetary Fund, the International Bank for Reconstruction and Development and the International Development Association to vote against any loan or other utilization of the funds of their respective institutions to or for Iraq.

SEC. 304. SUSPENSION OF AIR TRAVEL.

(a) IN GENERAL.—Unless the President makes the certification in section 302(a)—

(1) the President shall direct the Secretary of Transportation to revoke the right of any air carrier designated by the Government of Iraq under the air transportation agreement between the United States and that country to provide service pursuant to that agreement;

(2) the Secretary of State shall terminate that agreement in accordance with the provisions of that agreement;

(3) upon termination of that agreement, the Secretary of Transportation shall prohibit any aircraft of a foreign air carrier owned, directly or indirectly, by the Government or Iraq or by nationals of that country from engaging in air transportation with respect to the United States; and

(4) the Secretary of Transportation shall provide for such exceptions from the prohibition contained in paragraph (3) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(b) DEFINITION.—For purposes of this section, the terms "aircraft", "air transportation", and "foreign air carrier" have meanings given those terms in section 101 of the Federal Aviation Act of 1958 (49 U.S.C. 1301).

SEC. 305. DENIAL OF TRADE PREFERENCES AND IMPOSITION OF ADDITIONAL DUTY.

Notwithstanding any other provision of law, unless the President makes the certification described in section 302(a)—

(1) the President shall terminate, withdraw, or suspend any portion of any trade agreement or treaty to the extent the agreement or treaty requires the provision of nondiscriminatory (most-favored-nation) trade treatment to Iraq;

(2) Iraq shall be denied nondiscriminatory (most-favored-nation) trade treatment by the United States and the products of Iraq shall be subject to the rates of duty set forth in rate of duty column number 2 of the Harmonized Tariff Schedule of the United States;

(3) the provisions of title V of the Trade Act of 1974 (19 U.S.C. 2461, et seq.) shall not apply with respect to the products of Iraq; and

(4) the products of Iraq that do not receive duty-free treatment on the day before the date of enactment of this title shall be subject to an additional duty at the rate of 50 percent ad valorem.

---

## D'AMATO (AND OTHERS) AMENDMENT NO. 1641

Mr. D'AMATO (for himself, Mr. DECONCINI, and Mr. MACK) proposed an amendment to the bill S. 195, supra, as follows:

Strike all after the word "title" in the pending amendment and insert:

III. IRAQ SANCTIONS.

SEC. 301. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) indisputable evidence exists that Iraq used chemical weapons both in its war with Iran and against its own Kurdish minority;

(2) Iraq has sought through means legal and illegal to acquire the technology necessary to develop and build nuclear weapons;

(3) Iraq has flouted its obligations under the Geneva Convention and the Nuclear Non-Proliferation Treaty;

(4) Iraq has failed to ratify the Convention on Biological Weapons and may be developing such weapons; and

(5) President Hussein has threatened, without provocation, to destroy the State of Israel by using chemical weapons.

SEC. 302. RESTRICTION ON ASSISTANCE FOR IRAQ.

(a) RESTRICTION ON ASSISTANCE.—Unless the President certifies to the Congress that the Government of Iraq has opened suspect sites to international inspection and ratified the Convention on Biological Weapons, no United States assistance (including funds appropriated before the date of enactment of this title) may be furnished for Iraq.

(b) DEFINITION.—For the purposes of this section, the term "United States assistance" means assistance of any kind which is provided by grant, sale, loan, lease, credit, guaranty, or insurance, or by any other means, by any agency or instrumentality of the United States Government to any foreign country, including—

(1) assistance under the Foreign Assistance Act of 1961 (including programs under title IV of chapter 2 of part I of such Act);

(2) sales, credits, and guarantees under the Arms Export Control Act;

(3) sales under title I or III and donations under title II of the Agricultural Trade Development and Assistance Act of 1954 of nonfood commodities;

(4) other financing programs of the Commodity Credit Corporation for export sales of nonfood commodities; and

(5) financing under the Export-Import Bank Act of 1945.

SEC. 303. SUSPENSION OF MULTILATERAL ASSISTANCE.

Unless the President makes the certification described in section 302(a), the Secretary of the Treasury shall instruct the United States executive directors of the International Monetary Fund, the International Bank for Reconstruction and Development, and the International Development Association to vote against any loan or other utilization of the funds of their respective institutions to or for Iraq.

SEC. 304. SUSPENSION OF AIR TRAVEL.

(a) IN GENERAL.—Unless the President makes the certification in section 302(a)—

(1) the President shall direct the Secretary of Transportation to revoke the right of any air carrier designated by the Government of Iraq under the air transportation agreement between the United States and that country to provide service pursuant to that agreement;

(2) the Secretary of State shall terminate that agreement in accordance with the provisions of that agreement;

(3) upon termination of that agreement, the Secretary of Transportation shall prohibit any aircraft of a foreign air carrier owned, directly or indirectly, by the Government of Iraq or by nationals of that country from engaging in air transportation with respect to the United States; and

(4) the Secretary of Transportation shall provide for such exceptions from the prohibition contained in paragraph (3) as the Secretary considers necessary to provide for emergencies in which the safety of an aircraft or its crew or passengers is threatened.

(b) DEFINITION.—For purposes of this section, the terms "aircraft", "air transportation", and "foreign air carrier" have meanings given those terms in section 101 of the Federal Aviation Act of 1958 (49 U.S.C. 1301).

SEC. 305. DENIAL OF TRADE PREFERENCES AND IMPOSTION OF ADDITIONAL DUTY.

Notwithstanding any other provision of law, unless the President makes the certification described in section 302(a)—

(1) the President shall terminate, withdraw, or suspend any portion of any trade agreement or treaty to the extent the agreement or treaty requires the provision of nondiscriminatory (most-favored-nation) trade treatment to Iraq;

(2) Iraq shall be denied nondiscriminatory (most-favored-nation) trade treatment by the United States and the products of Iraq shall be subject to the rates of duty set forth in rate of duty column number 2 of the Harmonized Tariff Schedule of the United States;

(3) the provisons of title V of the Trade Act of 1974 (19 U.S.C. 2461, et seq.) shall not apply with respect to the products of Iraq; and

(4) the products of Iraq that do not receive duty-free treatment on the day before the date of enactment of this title shall be subject to an additional duty at the rate of 100 percent ad valorem.

---

## D'AMATO (AND OTHERS) AMENDMENT NO. 1642

Mr. D'AMATO (for himself, Mr. PELL, Mr. HELMS, Mr. DECONCINI, and Mr. MACK) proposed an amendment to the bill S. 195, supra, as follows:

At the end of the bill, add the following new title:

CONGRESSIONAL FINDING:

(a) The Congress finds that—

(1) The Government of Iraq has systematically detained, tortured, and executed thousands of its own citizens;

(2) The government of Iraq has destroyed more than one thousand villages and towns in the Kurdish regions of Iraq, effectively depopulating the rural areas of Iraqi Kurdistan;

(3) Iraq has used chemical weapons on an extensive scale against its own Kurdish citizens, resulting in tens of thousands of deaths and more than fifty thousand refugees;

(4) Amnesty International has documented extensive violations of human rights by the Government of Iraq, including the torture and murder of children as a means of punishing their parents;

(5) Iraq has blatently violated international law in initiating use of chemical weapons in the Iran-Iraq war and in its use of chemical weapons during and after the war on its own Kurdish citizens;

(6) Iraq has failed to ratify the Convention on Biological Weapons and persuasive evidence exists that Iraq is developing biological weapons in violation of international law;

(7) Iraqi President Saddam Hussein has threatened to use chemical weapons against other nations, including issuing a threat without provocation to destroy the state of Israel;

(b) The Congress finds and determines—

(1) That Iraq has engaged in a consistent pattern of gross violations of internationally recognized human rights;

(2) Iraq's repeated disregard for international law, including violations of its obligations under the United Nation's Charter and the 1925 Geneva Protocol, places Iraq outside the community of civilized nations.

SEC. . ENFORCEMENT OF UNITED STATES LAW.

The President shall enforce against Iraq all provisions of law which impose sanctions against a country that engages in a consistent pattern of gross violations of internationally recognized human rights.

---

## D'AMATO (AND LAUTENBERG) AMENDMENT NO. 1643

Mr. D'AMATO (for himself and Mr. LAUTENBERG) proposed an amendment to amendment No. 1642 proposed by Mr. D'AMATO (and others) to the bill S. 195, supra, as follows:

After "Sec. 301" strike all and insert in lieu thereof:

CONGRESSIONAL FINDINGS.

(a) The Congress finds that—

(1) The Government of Iraq has systematically detained, tortured, and executed thousands of its own citizens;

(2) The Government of Iraq has destroyed more than one thousand villages and towns in the Kurdish regions of Iraq, effectively depopulating the rural areas of Iraqi Kurdistan;

(3) Iraq has used chemical weapons on an extensive scale against its own Kurdish citizens, resulting in tens of thousands of deaths and more than fifty thousand refugees;

(4) Amnesty International has documented extensive violations of human rights by the Government of Iraq, including the torture and murder of children as a means of punishing their parents;

(5) Iraq has blatantly violated international law in initiating use of chemical weapons in the Iran-Iraq war and in its use of chemical weapons during and after the war on its own Kurdish citizens;

(6) Iraq has failed to ratify the Convention on Biological Weapons and persuasive evidence exists that Iraq is developing biological weapons in violation of international law;

(7) Iraqi President Saddam Hussein has threatened to use chemical weapons against other nations, including making a threat without provocation to destroy the state of Israel;

(b) The Congress finds and determines—

(1) That Iraq has engaged in a consistent pattern of gross violations of internationally recognized human rights;

(2) Iraq's repeated disregard for international law, including violations of its obligations under the United Nation's Charter and the 1925 Geneva Protocol, places Iraq outside the community of civilized nations;

SEC. 302. ENFORCEMENT OF UNITED STATES LAW.

The President shall enforce against Iraq all provisions of law which impose sanctions against a country that engages in a consistent pattern of gross violations of internationally recognized human rights.

---

## DOLE AMENDMENT NO. 1644

Mr. DOLE proposed an amendment to amendment No. 1639 proposed by Mr. COATS (and Mr. METZENBAUM) to the bill S. 195, supra, as follows:

On page 1 of amendment 1639 insert between lines 5 and 6 the following: "Section 4002 of the Solid Waste Disposal Act is amended by adding at the end thereof the following subsections:"

On page 1, line 11, after the word "State" add the following: "for the purposes of this section the term 'solid waste' does not include 'Hazardous waste' or 'hazardous substance' as defined in this Act or the Comprehensive Emergency Response Compensation and Liability Act (P.L. 96-510)".

On page 1, line 6, strike "(a)" and insert "'(d)".

On page 2, line 1, strike "(b)" and insert "'(e)".

On page 2, line 11, strike "(c)" and insert "'(f)".

On page 2, line 17, strike "(d)" and insert "'(g)".

On page 2, line 20, add " after "Act."

---

## MACK AMENDMENT NO. 1645

Mr. MACK proposed an amendment to the bill S. 195, supra; as follows:

On page 15 of the committee substitute, after line 20, add the following:

"(C) IMPROVED VERIFICATION OF EXPORT CONTROLS.—The Secretary of Commerce should, in order to supplement existing means of verification of export controls relating to chemical and biological weapons, take measures to encourage voluntary utilization of appropriate independent inspection companies to inspect and certify shipments and end-users of chemicals that could be used in the development of chemical and biological weapons."

---

## MACK (AND OTHERS) AMENDMENT NO. 1646

Mr. MACK (for himself, Mr. GRAHAM, Mr. LIEBERMAN, MR. MCCAIN, Mr. GRAMM, and Mr. D'AMATO) proposed an amendment to the bill S. 195, supra, as follows:

At the end of the substitute, add the following new title:

TITLE —ADDITIONAL RESTRICTIONS ON TRADE WITH CUBA

SEC. . PROHIBITION ON CERTAIN TRANSACTIONS BETWEEN CERTAIN UNITED STATES FIRMS AND CUBA.

Notwithstanding any other provision of law, no license may be issued for any transaction described in section 515.559 of title 31, Code of Federal Regulations, as in effect on July 1, 1989.

---

## GRAHAM (AND OTHERS) AMENDMENT NO. 1647

Mr. GRAHAM (for himself, Mr. MACK, Mr. DECONCINI, Mr. MCCAIN, and Mr. LIEBERMAN) proposed an amendment to amendment No. 1646 proposed by Mr. MACK (and others) to the bill S. 195, supra, as follows:

At the end of the amendment add:

Since totalitarian rule is giving way to democratic rule around the world;

Since the people of Eastern Europe have led the way, embracing Mikhail Gorbachev's policies of Glasnost and Perestroika and replacing totalitarian regimes with elected governments that respect human rights;

Since Fidel Castro's totalitarian rule stands in stark contrast to the democracy sweeping through Eastern Europe, Latin America, and other parts of the world;

Since after thirty years of rule Castro still stubbornly clings to power, publicly attacking the new policies and governments of Eastern Europe, and openly criticizing the policies of Mikhail Gorbachev;

Since despite these attacks the Soviet Union continues to prop up the Castro government, subsidizing the Cuban economy at an annual rate of at least $5.5 billion, $1.5 billion of it in military assistance;

Since Soviet Deputy Prime Minister Leonid Abalkin has publicly stated that commercial ties between the two countries might be expanded and perhaps even substantially increased;

Since the Soviet Union continues to modernize the Cuban armed forces, delivering six new advanced MIG-29 fighters earlier this year;

Since this business as usual support continues at a time when Castro has launched a new wave of repression, arresting human rights acvitists, underground political leaders, dissidents, university students, and religious leaders;

Since Castro has executed, arrested, and dismissed key members of his military high command, state security ministry, personal body guard, Cuban Communist Party Central Committee, and diplomatic corps during the past year, in an ongoing purge to consolidate control and discourage reform;

Since Castro has arrested and deported international journalists for reporting the growing human rights and pro-democracy movement in Cuba; and

Since Castro has gone so far as to deport Eastern bloc reporters who "compare Cuba to Romania—the calm before the storm," take Soviet publications such as Moscow News out of circulation, and ban *Perestroika* by Mikhail Gorbachev: Now, therefore, be it

*The sense of the Congress* That—

(1) continuing Soviet support of Cuba remains a serious problem in U.S.-Soviet relations;

(2) the Soviet Union, in reexamining its relationship with Cuba, should cease military aid to the Castro regime and take all other possible steps to further the policies of Glasnost and Perestroika by adopting policies supporting the political, economic rights, and human rights of the Cuban people.

---

## MCCLURE (AND OTHERS) AMENDMENT NO. 1648

Mr. MCCLURE (for himself, Mr. WALLOP, Mr. HELMS, Mr. SYMMS, Mr. LOTT, Mr. HUMPHREY, Mr. THURMOND, and Mr. MCCAIN) proposed an amendment to the bill S. 195, supra, as follows:

At the appropriate place, insert:

The Senate finds:

(1) According to recent press reports, in three separate incidents on March 9th and 10th, 1990, Soviet personnel breached their obligation under the INF Treaty to allow United States monitoring rights at the Votkinsk missile factory;

(2) The Soviet Union refused to allow American personnel at the Votkinsk missile factory to utilize the INF Treaty-authorized monitoring devise, called "Cargoscan," the verification x-ray system used to assure the United States that SS-20 missiles banned by the INF Treaty are not exiting from this facility;

(3) On March 9, 1990, the Soviets insisted on removing a missile from the plant without allowing the U.S. officials on the scene to use "Cargoscan", and again on March 10 two additional missiles were removed without imaging;

(4) In recent months, according to press reports and open testimony to the Senate, U.S. intelligence has discovered in East Germany several launchers for the INF Treaty-limited SS-23 missile system, and East Germany has admitted having four SS-23 launchers and twenty-four SS-23 missiles, and other SS-23 equipment;

(5) On March 27, 1990, the Soviet Union, in response to a diplomatic inquiry from the U.S., admitted that they had transferred as many as one hundred or more SS-23 missiles to Bulgaria, East Germany, and Czechoslovakia, possibly in violation of the 1987 INF Treaty;

(6) The Czechoslovak Government confirmed to the U.S. that they have SS-23 missiles, and the Bulgarian government has indicated that they also have SS-23 missiles;

(7) The Soviet Union has failed repeatedly to declare these SS-23 launchers and missiles controlled by the U.S.S.R. and alleged-

ly transferred to East European allies as part of the Soviet INF inventory;

(8) Such Soviet covert SS-23 mobile missile deployment was successfully concealed for over two years;

(9) U.S. Intelligence has also detected non-declared SS-4 INF missile equipment at a non-declared facility inside the Soviet Union, and this was confirmed by ACDA Director Lehman in open testimony to the Senate;

(10) U.S. INF negotiators have reportedly termed the Soviet denials that they had transferred SS-23's to Soviet Warsaw Pact allies as "mendacity", and a top U.S. arms control negotiator has stated that this Soviet covert deployment of SS-23's "cuts the heart out of the INF Treaty."

(11) The Soviet Union has rebuffed vigorous protests on these issues to the Soviet Embassy in Washington, as well as personal communications from Secretary of State Baker to Soviet Foreign Minister Eduard Shevardnadze: Therefore

It is the sense of the Senate that:

(1) Serious questions exist concerning the U.S. capability to monitor and verify any treaty which covers mobile missile systems;

(2) The Soviet Union should be condemned for its willful act denying our Treaty right to image the three Soviet missiles which exited the facility at Votkinsk on March 9-10, 1990;

(3) In order to expedite U.S. decision-making about the appropriate proportionate response to these Soviet INF compliance problems, and before entering into any further arms control agreements, the Administration should report its findings on these problems to the Senate as soon as possible.

---

## HELMS AMENDMENT NO. 1649

Mr. HELMS proposed an amendment to the bill S. 195, supra, as follows:

On page 16, line 6, after "contributed" insert: "through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States, or through any transaction, other than of goods and technology, not subject to sanctions pursuant to the Export Administration Act,"

On page 20, line 12, after "contributed" insert: "through shipment of goods or technologies that would be, if they were United States goods or technologies, subject to the jurisdiction of the United States pursuant to this Act,"

On page 14, line 24, after the word "State" insert: "and the Secretary of Defense."

---

## GARN AMENDMENT NOS. 1650 AND 1651

(Ordered to lie on the table.)

Mr. GARN submitted two amendments intended to be proposed by him to an amendment intended to be proposed by Mr. PELL to the bill S. 195, supra, as follows:

AMENDMENT No. 1650

On page 22, line 11, strike all beginning with "that" through "subsection (a)(1)." on line 12 and insert the following: "that—

"(1) conclusive intelligence information demonstrates that the foreign person has totally ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsection (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person, to import goods or services from such foreign person, or to permit export or reexport of goods or services originating in the United States to such foreign person."

---

AMENDMENT No. 1651

On page 22, between lines 5 and 6, insert:

"(3) EXPORT DENIAL.—The Secretary shall revoke any validated export license previously issued to that foreign person and enter a final order denying that foreign person all export privileges. The Secretary shall publish such final order in the Federal Register and include that foreign person in the Table of Denial Orders promulgated in Supplement No. 1 to Part 788 of the Export Administration Regulations, 15 Code of Federal Regulations Part 788. Notwithstanding any other provision of this Act, this final order shall be excluded from the operation of sections 554 through 557 of title 5, United States Code."

---

## SPECTER (AND OTHERS) AMENDMENT NO. 1652

Mr. SPECTER (for himself, Mr. MCCAIN, Mr. D'AMATO, and Mr. HELMS) proposed an amendment to the bill S. 195, supra, as follows:

At the appropriate place in the bill, insert the following:

Since the proliferation of ballistic and cruise missile technology poses a significant threat to global stability;

Since 17 developing countries are now acquiring technology which would enable them to develop, deploy and delivery biological, chemical, and/or nuclear weapons;

Since currently there is no formal international treaty to restrict the proliferation of ballistic and cruise missile technology or technology what would enable the development of such systems;

Since more extensive international public exposure of developing nations' acquisitions of ballistic and cruise missile technology may help dissuade them from such activities;

Since more extensive international exposure of nations supplying ballistic and cruise missile technology may help dissuade them from such activities;

Since an international effort to discuss proliferation of ballistic and cruise missile technologies would complement strategic and chemical arms control negotiations currently being pursued by the United States and the Soviet Union;

Since an international effort to discuss proliferation of ballistic and cruise missile technologies would complement the objectives of the Nuclear Non-Proliferation Review Conference to be held in Geneva beginning in August of this year;

Therefore the Senate hereby—

(1) Requests that an international conference on the proliferation of ballistic and cruise missile technology used in the delivery of chemical, biological and nuclear weapons be convened following the Nuclear Non-Proliferation Review Conference to be held August 20, to September 14, 1990, and no later than January 1, 1991.

(2) Requests that such conference be sponsored jointly by the United States and the Soviet Union in cooperation with the United Nations and should invite the participation of all member nations.

(3) Requests that the purpose of the conference be to provide an international forum for the discussion of means to encourage states to pursue regional efforts to restrict proliferation of ballistic and cruise missile technology used in the delivery of chemical, biological and nuclear weapons.

---

## PELL AMENDMENT NO. 1653

(Ordered to lie on the table.)

Mr. PELL submitted an amendment intended to be proposed by him to the bill S. 195, supra, as follows:

On page 7, strike lines 15 and 16;
On page 17, strike lines 22-24; and
On page 22, strike lines 3-5.

---

## PELL (AND OTHERS) AMENDMENT NOS. 1654 THROUGH 1656

Mr. PELL (for himself, Mr. HELMS, and Mr. BENTSEN) proposed these amendments to the bill S. 195, supra, as follows:

AMENDMENT No. 1654

On page 7, strike lines 15 and 16.

---

AMENDMENT No. 1655

On page 17, strike lines 22 through 24.

---

AMENDMENT No. 1656

On page 22, strike lines 3 through 5.

---

## HELMS AMENDMENT NO. 1657

Mr. HELMS proposed an amendment to the bill S. 195, supra, as follows:

Add at the end of the bill, the following new section:

"SEC. . (a) During the next round of talks with the PLO, should such talks occur after the date of enactment of this Act, the representative of the United States should obtain from the representative of the PLO a full accounting of the following attempted incursions into Israel which occurred after Yasser Arafat's statement of December 14, 1988:

"(1) On August 7, 1989, a rocket attack on the settlement of Maoz Haim by members of the PLO-affiliated Popular Front for the Liberation of Palestine.

"(2) On February 4, 1990, an unprovoked ambush by the Popular Front for the Liberation of Palestine-General Command on an Israeli tour bus in Egypt that killed 9 and wounded 15 Israelis.

"(3) On September 6, 1989, a rocket attack by the PLO-affiliated Popular Front for the Liberation of Palestine aimed at Kibbutz Tel-Katzir that fell on Kibbutz Sha'ar Hagolan.

"(4) On January 26, 1990, an attack on an Israeli Army patrol by at least three terrorist of the PLO-affiliated Democratic Front for the Liberation of Palestine headed for Kibbutz Misgav-Am.

"(5) On May 28, 1989, an attack by the Popular Front for the Liberation of Palestine and the Palestine Liberation Front, both PLO-affiliated organizations, in which a one-year-old Israeli was injured by a Katyusha rocket.

"(6) On October 7, 1989, an attempted raid on Kibbutz Misgav-Am by a squad of terrorists armed with machine guns and anti-tank missiles from the PLO-aligned Palestine Liberation Front.

"(7) On April 13, 1990, an attempted infiltration into northern Israel by boat by four terrorists of Yasser Arafat's Al-Fatah, equipped with machine guns and grenades.

"(b) In the event that talks are held with the PLO after the date of enactment of this Act, the Secretary of State, shall include in the next report provided to the Speaker of the House of Representatives and the Chairman of the Committee on Foreign Relations of the Senate under Section 804 of the Foreign Relations Authorization Act for Fiscal Years 1990 an 1991 any accounting provided by the representatives of the PLO of the incidents described in subsection (a) and the relationship between those groups responsible for these attacks and the PLO; provided, that such report shall also include a list of all individuals participating in discussions held between representatives of the United States and of the Palestine Liberation Organization since January 1, 1989; and, that such report should also include any additional known affiliations of such representatives of the PLO.

"(c) No later than 60 days after enactment, the Commissioner of the Customs Service shall provide the President of the Senate and Speaker of the House of Representatives with a report outlining illegal activities being undertaken in the United States by the Palestine Liberation Organization or on behalf of the Palestine Liberation Organization; including such activities as illegal drug trafficking, money laundering, weapons purchases and arms shipments; estimating the amount of funds associated with such activities; and describing the extent to which Members of the PLO Executive Committee, the PLO Central Council and the Palestine National Council are aware of, or are involved in such illegal activities.".

---

## HELMS AMENDMENT NOS. 1658 and 1659

Mr. HELMS proposed two amendments to the bill S. 195, supra, as follows:

AMENDMENT No. 1658

On page 18, line 6, strike all beginning with "that" through "subsection (a)(1)." on line 7 and insert the following: "that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subection (a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or servics from such foreign person, or to import goods or services from such foreign person.

---

AMENDMENT No. 1659

On page 17, line 16, strike all after "Sanctions.—through "following," on line 17 and insert: "The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, are as follows:

---

## GARN AMENDMENT NOS. 1660 AND 1661

Mr. HELMS (for Mr. GARN) proposed two amendnents to the bill S. 195, supra, as follows:

AMENDMENT No. 1660

On page 22, line 11, strike all beginning with "that" through "subsection 9(a)(1)." on line 12 and insert the following: "that—

"(1) reliable intelligence information indicates that the foreign person has ceased to aid or abet any foreign country in its efforts to acquire chemical or biological weapons capability as described in subsection 9(a)(1) of this section; and

"(2) in the President's judgment, it would be in the national interest of the United States to procure or contract for the procurement of goods or services from such foreign person or to import goods or services from such foreign person.

---

AMENDMENT No. 1661

On page 21, line 21, strike all after "Sanctions.—through "following;" on line 22 and insert: "The sanctions referred to in subsection (a) shall apply to the foreign person committing the violation, as well as to any parent, affiliate, subsidiary, and successor entity of the foreign person, and are as follows:

---

## DOLE AMENDMENT NO. 1662

Mr. DOLE proposed an amendment, which was subsequently modified, to the bill S. 195, supra, as follows:

On page 8, line 8 of the substitute delete the word "nine" and insert in its place the word twelve.

---

## NOTICES OF HEARINGS

COMMITTEE ON VETERANS' AFFAIRS

Mr. CRANSTON. Mr. President, I announce, for the information of Senators, that the Committee on Veterans' Affairs, which I am privileged to chair, has rescheduled its Tuesday, May 22, 1990, hearing on the nominations of Donald L. Ivers and Jonathan R. Steinberg to be associate judges on the U.S. Court of Veterans Appeals to 9:30 a.m., Wednesday, June 6, 1990, in SR-418.

---

## AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON PUBLIC LANDS, NATIONAL PARKS AND FORESTS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Public Lands, National Parks and Forests Subcommittee of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, 2 p.m., May 17, 1990, for a hearing to receive testimony on S. 1852 and H.R. 3545, to amend the Chesapeake and Ohio Canal Development Act to make certain changes relating to the Chesapeake and Ohio Canal National Historical Park Commission; S. 1990, to establish the Cliff Walk National Historic Site; S. 2011 and H.R. 2843, to authorize the expansion of the Tumacacori National Monument, S. 2067 and H.R. 3834, to amend the National Trails System Act to designate the route from Selma to Montgomery for study for potential addition to the National Trails System; S. 2072, to authorize a study of nationally significant places in American labor history; S. 2262 to designate segments of the Sudbury, Assabet, and Concord Rivers as a study area for inclusion in the National Wild and Scenic Rivers System; S. 2437, to authorize the acquisition of certain lands in the State of Louisiana for inclusion in the Vicksburg National Military Park; and S. 2566, to redesignate the Sunset Crater National Monument as the Sunset Crater Volcano National Monument.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be allowed to meet during the session of the Senate on Thursday, May 17, 1990, at 10 a.m. and 2 p.m. to hold a business meeting on the 1990 farm bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be allowed to meet during the session of the Senate, Thursday, May 17, 1990, at 10 a.m. to conduct an oversight hearing on reform of Federal deposit insurance.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENTAL AND PUBLIC WORKS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the full Committee on Environment and Public Works be authorized to meet during the session of the Senate on Thursday, May 17, beginning at 1 a.m., to conduct a hearing on S. 1462, a bill to create a Federal nuclear facility environmental response fund, and to create an Office of Environmental Management and Remedial Action in the Department of Energy, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, May 17, 1990, at 9 a.m., to receive testimony on concurrency in the Department of Defense acquisition process and programs, and in review of S. 2171, the Department of Defense Authorization Act for fiscal year 1991.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SCIENCE, TECHNOLOGY AND SPACE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Science, Technology and Space, of the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on May 17, 1990, at 9:30 a.m. to hold a hearing on semiconductors and the future of the American electronics industry.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the full committee of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, 9:30 a.m., May 17 1990, for a hearing to receive testimony on S. 2362, to enhance the survivability and recovery of the insular areas from severe storms.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on May 17, 1990, at 3:30 a.m., to hold a hearing on nominations of Roberts H. Cleland, to be U.S. district judge for the Eastern District of Michigan and Richard J. Hankinson to be Inspector General, Department of Justice.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON COURTS AND ADMINISTRATIVE PRACTICE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Courts and Administrative Practice of the Committee on the Judiciary, be authorized to meet during the session of the Senate on Thursday, May 17, 1990, at 1 p.m., to hold a hearing on courts secrecy.

The PRESIDING OFFICER. Without objection, it is so ordered.

## ADDITIONAL STATEMENTS

### AMERICAN WOMEN IN RADIO AND TELEVISION

● Mr. HOLLINGS. Mr. President, this week American Women in Radio and Television, Inc. [AWRT] is hosting its 39th National Annual Convention in Washington. AWRT deserves special recognition for work to advance the position of women professionals in the electronic media and allied fields.

AWRT is a national nonprofit organization comprised of over 2,500 members in a network of over 50 chapters throughout the United States. Its members include women who are reporters, managers and owners of broadcast facilities as well as women in communication law, public relations and advertising. Since its founding in 1951, AWRT has strived to improve the telecommunications industry in numerous ways. For the past 15 years, AWRT has held an Annual Commendations Award Program in which it recognizes outstanding national and local radio, television and cable productions in 15 categories. These awards are designed to recognize programming which contributes to the advancement of women in a positive and realistic manner, presents a new or different perspective on the human condition, or addresses an area of interest to women.

AWRT also contributes to the development of national policy by presenting its views on important industry issues to the FCC, Congress and the courts. At the FCC, AWRT has filed comments in proceedings concerning deregulation, equal employment opportunity, expansion of the AM band, the broadcast renewal process, the comparative hearing process, the possible use of lotteries to replace broadcast hearings, and the use of minority and female enhancement merits by the FCC in comparative hearing cases. In Congress, AWRT has recently participated in hearings held by the Senate Communications Subcommittee on the FCC's minority preference policies. AWRT has also participated as an amicus curiae in judicial proceedings which involve the FCC's policies regarding women. AWRT's participation in these proceedings brings us a unique perspective for which we are grateful.

It is important that AWRT continue its efforts to ensure that its members' concerns and views are made known to the policymakers in this country. I commend AWRT and thank its members for their service to the public.●

### MISSOURI COUPLE HELPS ABUSED AND NEGLECTED CHILDREN

● Mr. BOND. Mr. President, I rise today in recognition of Denise and Kevin Blew of Shelbina, MO. The Blews have participated for the last 7 years in the Shiloh Christian Children's Ranch Homeparents Program. During their years as participants in the program, they have improved the quality of life for many children who have been abused and neglected. The Blews' special brand of caring lives on in the mind of every child who has crossed their doorstep, and I am sure each child has fond memories and many thanks for the time they spent in the Blews' house.

To the Blews, I extend my congratulations and appreciation for their 7 years of service with the Shiloh Christian Children's Ranch. I trust that they will continue to help children involved in the program for many years to come.●

### THE AL EISELE CONNECTION TO GORBACHEV'S VISIT

● Mr. DURENBERGER. Mr. President, my home State of Minnesota is in a state of high expectation and excitement because Soviet President Mikhail Gorbachev plans to visit there on June 3.

That visit is a real coup for Minnesota and a boost to hoped for business ties between Minnesota-based industry and the Soviet Union. And the visit is in large part the result of the work of a highly respected Minnesota export to Washington, DC, Al Eisele.

Al has his roots in rural Minnesota journalism as the son of Susan Eisele, a strong role model for women in journalism and a writer for the Blue Earth Post in Walter Mondale's home territory.

Al worked for me as assistant sports publicity director at St. John's University while he was a winning pitcher on Father Dunstan Tucker's winning St. John's baseball team. Al did not, but the rest of us insisted he was a better baseball contributor to the league than former Senator Eugene McCarthy who played on the St. John's team in the early 1940's before starring in Presidential politics in the late 1960's.

Now Al and I both serve on the board of regents for our alma mater, a 132-year-old Benedictine college 75 miles north of the Twin Cities of Minneapolis and St. Paul. To those in the know, Garrison Keillor's "Lake Wobegon" evolved during his years at St. John's public radio station, and its spiritual home is Collegeville.

Al Eisele served Fritz Mondale well as his press secretary when he was Vice President of the United States, and continues to serve his State and community even better.

He is a deep, faithful, caring person whose love for his roots, even more than his business acumen, is responsible for the Gorbachev visit described in today's New York Times. Mr. President, I would like to enter that article in today's CONGRESSIONAL RECORD.

The article follows:

[From the New York Times, May 17, 1990]

GORBACHEV IN MINNESOTA? HERE'S WHY

(By Martin Tolchin)

WASHINGTON, May 16.—Three months ago, Albert Eisele, a Minnesota public relations consultant, learned that Mikhail S. Gorbachev wanted to travel across the United States after his summit with President Bush.

"A light went off," Mr. Eisele said. "What better place to bring him than Minnesota?"

So began an effort that reached its successful conclusion on Monday with the announcement that the Soviet leader would spend six hours in Minnesota on June 3.

Mr. Eisele's relationship with the Russians actually began in February 1987, when

he went to the Soviet Union with William C. Norris, founder and chairman emeritus of Control Data. The company, based in Minneapolis, had sold the first large American computers to the Soviet Union in 1968, and Mr. Eisele says its long relationship with the Soviets was crucial to his success. "Control Data has been regarded as a friend even in the 1980's, when few American companies were allowed to do business there because of export restrictions on technology," he said.

FROM BLUE EARTH TO WASHINGTON

Mr. Eisele (pronounced EYES-lee), 53 years old, was born and raised on a 160-acre farm between Blue Earth and Elmore, the home of Walter F. Mondale. Mr. Eisele worked for The Dispatch and The Pioneer Press of St. Paul, and then served as Mr. Mondale's Vice-Presidential press secretary. After that he worked for Control Data until last September, when he founded Cornerstone Associates, a small public relations and lobbying firm here. Its clients include Control Data.

At the 1987 meeting, V.L. Malkevich, the Soviet First Deputy Minister of Foreign Trade, spoke warmly of Control Data and added, as Mr. Eisele recalls it, that "we are not Ivans who do not remember our relatives."

Mr. Eisele and Mr. Norris made two more visits to the Soviet Union, and this February, Control Data offered to install computers in six Soviet nuclear research sites. The proposal awaits Administration approval and an export license required for such technology.

FROM MINNESOTA, WITH LOVE

It was also in February that Jim O'Connell, a foreign trade specialist with Control Data, learned that Mr. Gorbachev had expressed an interest in traveling around the United States. Mr. O'Connell told Mr. Eisele, who drafted a two-page letter for Gov. Rudy Perpich, inviting Mr. Gorbachev to visit Minnesota. The letter was hand-delivered to Yuri Dubinin, the Soviet Ambassador, on Feb. 26.

The letter said the state had everything the Soviet might need: "The Twin Cities of Minneapolis and St. Paul are home to a large number of major corporations that are world leaders in computers and microelectronics, medical technology and health-care services, agriculture and food processing, transportation, financial services and insurance, and forestry and mining."

The Governor's letter went on to note that many Minnesota companies, large and small, were "very interested in developing business ties with the U.S.S.R. and could provide management expertise to Soviet enterprises as well." He proposed that Mr. Gorbachev give a major speech on bilateral cooperation to protect the environment. "This could serve as a model for U.S.-Soviet cooperation in other areas," he wrote.

Finally, the letter noted the similarities between Minnesota and the Soviet Union. "Minnesota, which is famous for its natural resources and shares many of the climatic and geographical characteristics of the Soviet Union, would be an ideal setting for such a speech," it said, and added that many Minnesotans were descendants of Russian immigrants.

SETBACK, THEN SUCCESS

Hopes for the visit were set back on April 3, when Eduard Shevardnadze, the Soviet Foreign Minister, told Secretary of State James A. Baker 3d that Mr. Gorbachev's mounting problems at home precluded an extended American visit. "At that point I told everyone, 'it was a good try, but it's off,' " Mr. Eisele said.

But Monday afternoon, Mr. Eisele learned from a reporter that Mr. Gorbachev was indeed going to visit Minnesota. Ambassador Dubinin telephoned Mr. Perpich that evening to confirm that the visit was on.

Minnesotans are euphoric, Mr. Eisele said, and added, "There are 4 million people in Minnesota, and 3.9 million want Gorbachev to visit their homes."●

## LEONID AND NATALIA STONOV

● Mr. GRASSLEY. Mr. President, a few months ago, I took part in the congressional call to conscience. I spoke about Leonid and Natalia Stonov and their decade-long effort to emigrate from the Soviet Union.

I am happy to report that freedom has come finally to the Stonovs. After more than a decade of being denied exit on state secrets grounds, Soviet authorities have granted Leonid permission to leave.

Since Leonid was first denied exit, he has devoted his life to the cause of freedom. He is renowned as the preeminent refusenik and for his tireless efforts on behalf of his fellow refuseniks.

Leonid also served as the monitor in the Moscow monitor project that I established last winter in order to monitor the effects of the new refugee policies established this fiscal year. At risk to himself, he has provided me with information regarding Moscow refugee processing, the plight of long-term refuseniks, and the status of religious freedom in Soviet society.

Just a few months ago, I had the opportunity to meet with Natalia during a trip she made recently to Washington. She came here to meet with Members of Congress and the President in pursuit of her and Leonid's cause: Freedom for themselves and others who share their fate.

I had the opportunity to send a note with Natalia back to Leonid to thank him for his courage and assistance with the project. In that note, I told him I hoped that soon I would be able to welcome his family to America.

Now it will be only months before together, the Stonovs will set foot in America and start a new life in freedom. Leonid's release is encouraging and gives us optimism that the doors of the Soviet Union will open for the remaining long-term refuseniks. Until that day comes however, we must continue to work for their freedom, too.●

## THE DEFICIT'S EFFECT ON INTEREST RATES: DOES IT JUSTIFY A MAJOR TAX INCREASE?

● Mr. KASTEN. Mr. President, as the budget summit proceeds this week, I think it's important to review the academic research and the empirical evidence about the impact of budget deficits on U.S. interest rates. Conventional wisdom is that large budget deficits cause high real interest rates, which in turn crowds out private spending in financial markets and reduces economic growth. According to this thesis, if we raised taxes to lower the budget deficit, interest rates would decline.

To be sure, economic theory supports the argument that large deficits cause interest rates to be higher than they otherwise would be. But a significant body of academic studies by mainstream economists has found little or no correlation between deficits and high interest rates.

In a 1970 study, former Council of Economic Advisers Chairman Martin Feldstein found that throughout the period from 1954 to 1969 the decline in real per capita publicly held Federal debt; that is, the slow growth of nominal debt, put downward pressure on interest rates; but the study also found that the Federal deficit—measured by the change in public debt—is not significant in explaining interest rates.

In a review of U.S. historical data, William Dewald writes in a 1983 article for Economic Review, Federal Reserve Bank of Atlanta that "deficits in themselves have not been a critical factor in high real interest rates.* * *"

After reviewing the data on 3-month Treasury bill rates from 1959 to 1981, economist John Makin of the American Enterprise Institute writes in a 1983 article for Review of Economics and Statistics that the possible significance of "crowding out" can only be judged as "mixed to weak"; and that over the period examined the positive relationship between deficits and high interest rates was only marginally significant.

Prof. Paul Evans of Ohio State University has conducted empirical studies which take into account lag effects, inflation, and the evidence from other countries without finding any consistent effect of deficits on interest rates of inflation.

Research by University of Rochester Prof. Charles Plosser published in the Journal of Monetary Economics in 1983 finds no correlation between government debt and interest rates. In contrast, he found a consistent relationship between high levels of government spending and high interest rates.

Economist Charles E. Webster, Jr., in a study published by the Economic Review, Federal Reserve Bank of Kansas City, concludes that "empirical evidence does not necessarily contradict the view that budget deficits have no effect on interest rates, real or nominal. To the extent that such an impact occurs, the magnitude appears small."

A 1983 study by Ali Reza, chief economist for Gulf Oil Corp., suggests that the Federal deficit does not cause changes in either the real rate of in-

terest or real output, and clearly does not increase either of them.

In a 1986 econometric study published in the Journal of Economics by Prof. Michael D. Bradley of George Washington University demonstrated that although increases in government spending increase interest rates, "increases in the stock of government bonds, by themselves, do not force up interest rates."

As one study put it, "in over a century of U.S. history—including three periods when the Federal deficit exceeded 10 percent of national income—large deficits have never been associated with high interest rates." The actual experience of the United States in the 1980's supports this assertion—see the accompanying table.

Indeed, U.S. deficits and interest rates almost always moved in opposite directions during the 1980's. Similarly, in the seven major industrialized countries—including Japan, Canada, and West Germany—in the 1980's, real interest rates declined as budget deficits increased.

This evidence suggests that other factors—short-term monetary policy in particular—may have had a more significant impact on the level of interest rates than the deficit. In fact, many of today's calls for a tax increase are being made due to the serious misconception that the Federal Reserve will lower interest rates in response to a tighter congressional fiscal policy.

But the Federal Reserve is concerned not primarily with the congressional budget process, but with the inflation that still lingers as a threat to the real economy. Even if the Federal Reserve were to follow the strategy proposed by the tax increasers, the result would be stagflation—high inflation in a slow-growth economy.

In highlighting these facts, I do not want to minimize the importance of balancing the budget. However, the current hysteria about the deficit is largely unrelated to the facts of the case. Today's deficit is significantly smaller as a percentage of GNP than it was throughout most of the 1980's. The Congressional Budget Office estimates that the official fiscal year 1991 budget deficit—including the budgetary costs associated with the Resolution Trust Corporation—will rise to $160 billion. However, as a percentage of gross national product, the baseline deficit will decline from 2.9 percent of GNP 1991 to 1.5 percent of GNP in 1995.

The evidence shows that a major tax increase will not guarantee lower interest rates. Meanwhile, the tax increase will have a direct and potentially disastrous impact on the ability of private individuals to consume, invest, and save which in turn jeopardizes our prospects of continued economic growth and job creation in the 1990's. The budget summit's deficit-cutting efforts should instead focus on reducing the growth rate of government spending.

Mr. President, I hope that other Senators will join me in urging the negotiators at the budget summit to examine the facts before rushing into shortsighted and counterproductive solutions like tax hikes.

I ask that a table on deficits and interest rates in the 1980's be printed at this point in the RECORD.

The table follows:

INTEREST RATES AND THE DEFICIT

| Year | Prime rate | Change | Deficit as percent of GNP | Change |
|---|---|---|---|---|
| 1981 | 18.87 | | 2.6 | |
| 1982 | 14.86 | Down | 4.1 | Up. |
| 1983 | 10.79 | Down | 6.3 | Up. |
| 1984 | 12.04 | Up | 5.0 | Down. |
| 1985 | 9.93 | Down | 5.4 | Up. |
| 1986 | 8.33 | Down | 5.3 | Down. |
| 1987 | 8.22 | Down | 3.4 | Down. |
| 1988 | 9.32 | Up | 3.2 | Down. |
| 1989 | 10.50 | Up | 2.9 | Down. |

## FORMER MEMBER OF CONGRESS JAMES R. MANN ENDORSES CONGRESSIONAL TERM LIMITATION

● Mr. HUMPHREY. Mr. President, I would like to take this opportunity to share with all Senators a letter I have recently received from former Member of Congress James R. Mann, endorsing congressional term limitation. Mr. Mann was a representative from South Carolina from 1969 to 1979.

I ask that Mr. Mann's letter appear in the RECORD immediately following my remarks.

The letter follows:

GREENVILLE, SC,
*May 5, 1990.*

Re S.J. Res. 235.

Hon. GORDON J. HUMPHREY,
*U.S. Senate, Hart Senate Office Building, Washington, DC.*

DEAR SENATOR HUMPHREY: I am pleased to pledge my support to the enactment of your bill limiting legislative tenure.

I will be standing by to assist in any way that I can. I see no point in detailing my reasons for supporting this constitutional amendment. Since my service in the South Carolina legislature (House of Representatives) 1949-52, I have seen and expressed the desirability of limitation of legislative terms.

Sincerely,

JAMES R. MANN,
*M.C., 91st-95th Congresses, 1969-79.*●

## PUEBLO'S YOUNG CHAMPION

● Mr. WIRTH. Mr. President, I would like to take this opportunity to salute a young woman from my State who is truly an inspiration to her community—and who is demonstrating that courage and spirit can work miracles.

The young woman's name is Amanda Prater, and she hails from Pueblo, CO. Last weekend I had the opportunity to meet Amanda and presented her with airline tickets to visit Washington, DC, later this summer. She is a remarkable young woman, and in advance of her trip to the Nation's capital, I wanted to take a moment to share her story—which is not only about her courage, but also the compassion of her community, and the generosity of corporate leaders many miles from Pueblo, CO.

Seventeen-year-old Amanda is fighting cancer. Yet, her battle with this disease did not discourage her from competing with hundreds of high school students for a nomination to attend a 6-day Congressional Youth Leadership Council conference in Washington, DC. Despite considerable physical and emotional obstacles that would deter most people, young Amanda Prater was determined not to give up. Her perseverance was rewarded when she was notified earlier this year that she would have the opportunity to attend the Congressional Youth Leadership Council program.

Unfortunately, Amanda's family did not have the financial resources to pay for Amanda's trip. Her battle with cancer absorbed most of the family's savings, and 2 weeks ago it didn't look like Amanda would be coming to Washington, DC.

The people of Pueblo, CO, however, were not prepared to stand by and watch while this young woman's dream of coming to the Nation's capital was dashed. In a spirit of compassion and neighborhood concern that marks Pueblo's history as a frontier community, the local newspaper, the Pueblo Chieftain, Amanda's school friends, and her neighbors all got together to try raising the money she needed to make the trip.

When I learned of Amanda's story through the efforts of a concerned Puebloan, Eva Smith, I contacted the corporate leadership of Trans World Airlines [TWA] to see if they could help. TWA maintains flights between Pueblo and Washington, DC, and although the airline's corporate headquarters was thousands of miles away in New York, everyone associated with the company wanted to help. TWA provided airline tickets for Amanda, and demonstrated that corporate leaders are also members of the community—and can rally their resources to help a young woman like Amanda.

I think it is important to thank TWA for their generosity, and for being good neighbors to Pueblo, CO. I also want to use this occasion to express my appreciation to Eva Smith and the people of Pueblo for proving that we really are our "brother's keeper"—and that caring for one an-

other is the true measure of a community.

Finally, and most important, I want to salute Amanda Prater for her courage, her determination, and her spirit as a young American leader. We look forward to welcoming her to the Nation's Capital this year.●

## TRIBUTE TO MR. BERNARD "BENNY" PUCHALSKI

● Mr. SIMON. Mr. President, I want to join with Chicago and Illinois labor leaders to pay tribute to Bernard "Benny" Puchalski, who has retired after 44 years of service with the Iron Workers.

Recently, more than 1,500 people gathered in Niles, Illinois to pay tribute to Mr. Puchalski, who is one of Illinois' most respected and prominent labor leaders. Mr. Puchalski began his labor career in 1946 after 5 years of service in the U.S. Marine Corps. He served in the South Pacific, attaining the rank of master sergeant, before terminating his military service in 1946.

When he returned to Chicago, Mr. Puchalski was employed as an Iron Worker in local 1 where he soon became business agent, a position he held for 9 years. In 1963, he was appointed general organizer of the International Association of Bridge, Structural and Ornamental Iron Workers. That same year he was elected president of the Greater Chicago and Vicinity Port Council, Maritime Trade Department, AFL–CIO, a position he has held for the past 27 years. In 1967, he was elected president of the Iron Workers District Council of Chicago and Vicinity of which the Will County Iron Workers Local 444 is a member.

Throughout his career, Mr. Puchalski has not only rendered meritorious service to the labor movement in Chicagoland, but has contributed to the community as a whole by serving in numerous civic positions on both the State and local levels. Although he has diligently served on many committees and received awards and appointments too numerous to mention, Mr. Puchalski never neglected his responsibilities to the Polish-American community of the Chicagoland area.

His wife, Estelle, and their five children and seven grandchildren were all present to help celebrate the occasion.

Howard Norberg and Jerome E. Sobczak were labor leaders who expressed gratitude to Mr. Puchalski at his retirement dinner. Mr. Sobczak, president of the Will-Grundy Trades and Labor Council stated:

> There is not anyone in a position of leadership in the labor movement who does not know "Benny" Puchalski and his dedication and efforts in behalf of his members and friends in the labor movement. He will be hard to replace. We wish him health and happiness for a superb job well done.●

## HOUSE CONCURRENT RESOLUTION 87—PERSECUTION OF THE BAHA'IS IN IRAN

● Mr. SIMON. Mr. President, I wish to join my colleagues in support of House Concurrent Resolution 87, which the Senate adopted yesterday. This measure expresses our grave concern about the continued persecution of the Baha'i religious minority by the Government of Iran.

Like many of us, I had hoped that with the accession to power last year of Iranian President Rafsanjani, succeeding the Ayatollah Khomeini, we would see an end to the campaign of harassment directed at the Baha'is, who comprise Iran's largest religious minority. Unfortunately, there seems to have been no change at all in the Iranian Government's attitude.

We had all been encouraged by a trend toward moderation in Iran's treatment of Baha'is, who number around 300,000. It has now been over 2 years since a Baha'i was executed in Iran. And the number of Baha'is held in prison has fallen from an average of over 700 in the mid-1980's to fewer than 20. By these actions, the Iranian authorities have admitted tacitly that the Baha'is pose no threat to society. They are guilty of no political crime. In fact, the tradition of their faith requires them to submit to governmental authority. The Baha'is voluntarily disbanded their organizations in Iran in 1983, in response to a governmental decree.

All the Baha'is ask is to be permitted to live according to the dictates of their conscience: to worship openly, operate schools, and elect their own leaders.

In response, the Iranian Government continues to hold Baha'is in prison. It is known that Baha'i prisoners have been tortured to compel them to accept Islam. Tens of thousands have been expelled from universities, dismissed from their jobs, and denied their pensions. Their property has been confiscated. And many Baha'is have been forbidden to travel outside Iran.

This systematic policy of persecution—especially the prohibitions on worship and education—constitutes a deliberate effort by the Iranian authorities to destroy the Baha'i community as a religious group. This meets the definition of genocide as contained in the United Nations Genocide Convention. Four times since 1985 the U.N. General Assembly has adopted a resolution condemning Iran's human rights policy in general and its treatment of Baha'is in particular. And the U.N. Commission on Human Rights has passed a similar resolution every year since 1981.

Mr. President, the continued persecution of Baha'is is an obstacle to any improvement of relations between the United States and Iran. Senate Concurrent Resolution 87 expresses the view of the U.S. Congress that the Government of Iran must be held accountable for upholding the rights of its largest religious minority. I urge the Iranian authorities to release those Baha'is who remain in prison because of their beliefs, and to end the legal and social sanctions which aim to wipe out the Baha'i community in Iran.●

## USE OF THE CAPITOL ROTUNDA

Mr. SIMPSON. Mr. President, I send a concurrent resolution to the desk on behalf of Senator DOLE and Senator MITCHELL.

The PRESIDING OFFICER. The concurrent resolution will be stated by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 133) providing for the use of the Capitol Rotunda.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 133) was agreed to.

The preamble was agreed to.

The concurrent resolution and its preamble are as follows:

S. CON. RES. 133

Whereas America can never forget the sacrifices of our brave military heroes: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That the rotunda of the Capitol may be used on Thursday, May 24, 1990, at 10:30 a.m., to allow the assembling of members of Congress for ceremonies celebrating American Military Heroism.

SEC. 2. The Architect of the Capitol may prescribe conditions for physical preparations with respect to the use of the rotunda authorized by the first section.

Mr. SIMPSON. I move to reconsider the vote.

Mr. MITCHELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## EXECUTIVE SESSION

### EXECUTIVE CALENDAR

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations: Calendar Items Nos. 775 and 776.

I further ask unanimous consent that the nominees be confirmed en bloc, that any statements appear in

the RECORD as if read, that the motions to reconsider be laid upon the table en bloc, and that the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

Donald G. Wiseman, of North Carolina, to be a member of the Occupational Safety and Health Review Commission for the remainder of the term expiring April 27, 1993.

Velma Montoya, of California, to be a member of the Occupational Safety and Health Review Commission for the remainder of the term expiring April 27, 1991.

## LEGISLATIVE SESSION

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

## MEASURE PLACED ON THE CALENDAR—H.R. 1236

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of H.R. 1236, a price-fixing prevention bill, and that the bill be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

## THE 1990 SPECIAL OLYMPICS TORCH RELAY

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of House Concurrent Resolution 286, regarding the 1990 Special Olympics Torch Relay, just received from the House.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A concurrent resolution (H. Con. Res. 286) authorizing the 1990 Special Olympics Torch Relay to be run through the Capitol Grounds.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (H. Con. Res. 286) was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the concurrent resolution was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## RELIEF OF RICHARD SAUNDERS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 538, providing for the relief of Richard Saunders.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1128) for the relief of Richard Saunders.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause, and inserting in lieu thereof the following:

SECTION 1. Notwithstanding the Act of March 4, 1931 (46 Stat. 1530), or Executive Order 5843 or any land classification based thereon, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized and directed to convey to Richard Saunders (hereinafter referred to as the "beneficiary"), subject to the provisions of section 2, approximately 15.69 acres of land in township 6 south, range 32 east, Mount Diablo Meridian, section 21, northeast ¼, northeast ¼, in Inyo County, California, as depicted on a map entitled "BLM Land Conveyance to Richard Saunders/Inyo County, California" and dated April, 1990.

SEC. 2. The Secretary shall convey the land referred to in section 1 upon receipt of the fair market value of such land, as determined by the Secretary. Such land shall be conveyed subject to valid existing rights and any documentation of conveyance shall contain a reservation of all mineral rights to the United States. The beneficiary shall reimburse the Secretary for all administrative costs associated with the implementation of this Act, including, but not limited to the costs of a survey, if required.

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment was agreed to.

The bill was ordered to be engrossed for a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

So the bill (S. 1128) was passed, as follows:

S. 1128

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. Notwithstanding the Act of March 4, 1931 (46 Stat. 1530), or Executive Order 5843 or any land classification based thereon, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized and directed to convey to Richard Saunders (hereinafter referred to as the "beneficiary"), subject to the provisions of section 2, approximately 15.69 acres of land in township 6 south, range 32 east, Mount Diablo Meridian, section 21, northeast ¼, northeast ¼, in Inyo County, California, as depicted on a map entitled "BLM Land Conveyance to Richard Saunders/Inyo County, California" and dated April, 1990.

SEC. 2. The Secretary shall convey the land referred to in section 1 upon receipt of the fair market value of such land, as determined by the Secretary. Such land shall be conveyed subject to valid existing rights and any documentation of conveyance shall contain a reservation of all mineral rights to the United States. The beneficiary shall reimburse the Secretary for all administrative costs associated with the implementation of this Act, including, but not limited to the costs of a survey, if required.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

## CONVEYANCE OF CERTAIN LANDS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Item No. 539, S. 1738, regarding a land conveyance in Oregon.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1738) to convey certain Oregon and California Railroad Grant Lands in Josephine County, Oregon to the Rogue Community College District, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources, with amendments; as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italics.)

S. 1738

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. CONVEYANCE OF LAND.

(a) CONVEYANCE.—Subject to section 2, the Secretary of the Interior shall convey, without consideration, all right, title, and interest of the United States in and to land described in subsection (b) to the Rogue Community College District in Josephine County, Oregon (hereinafter in this Act referred to as the "District").

(b) LAND DESCRIPTION.—The land referred to in subsection (a) is land in Josephine County, Oregon, described as **[**Township 36 South, Range 6 West, W.M., Section 27.**]** *Township 36 South, Range 6 West, W.M., Section 27, southwest ¼, northeast ¼.*

SEC. 2. LIMITATIONS ON CONVEYANCE.

The conveyance authorized by section 1(a) is subject to the following limitations:

[(1)] *(a)* ENCUMBRANCES.—Such conveyance shall be subject to all encumbrances on the land existing as of the date of enactment of this Act.

[(2)] *(b)* MINERAL RIGHTS.—Such conveyance shall reserve to the United States all minerals in the land, including geothermal rights, together with the right to prospect for, mine, and remove the minerals and geothermal resources.

[(3)] *(c)* RIGHT OF WAY FOR DITCHES AND CANALS.—Such conveyance shall be subject to the proviso in the fourth undesignated paragraph under the caption entitled "United States Geological Survey" in the first section of the Act of August 30, 1890 (26 Stat. 371, 391) (43 U.S.C. 945).

[(4)] *(d)* REVERSIONARY INTEREST.—Such conveyance shall be subject to a reversionary interest in the land described in section 1(b) to be held by the United States. If such land ceases to be used for educational purposes, all right, title, and interest in and to such land shall revert to the United States and shall be identified, classified, and managed as Oregon and California Railroad Grant Lands.

[SEC. 3. PURCHASE OF LAND AFTER REVERSION.
